**54-52.6-02. Election through December 31, 2024.**

1. The board shall provide an opportunity for each eligible employee who is a member of the public employees retirement system on September 30, 2001, and who has not made a written election under this section to transfer to the defined contribution retirement plan before October 1, 2001, to elect in writing to terminate membership in the public employees retirement system and elect to become a participating member under this chapter. Except as provided in section 54-52.6-03, an election made by an eligible employee under this section is irrevocable. The board shall accept written elections under this section from eligible employees during the period beginning on July 1, 1999, and ending 12:01 a.m. December 14, 2001. An eligible employee who does not make a written election or who does not file the election during the period specified in this section continues to be a member of the public employees retirement system. An eligible employee who makes and files a written election under this section ceases to be a member of the public employees retirement system effective twelve midnight December 31, 2001; becomes a participating member in the defined contribution retirement plan under this chapter effective 12:01 a.m. January 1, 2002; and waives all of that person's rights to a pension, annuity, retirement allowance, insurance benefit, or any other benefit under the public employees retirement system effective December 31, 2001. This section does not affect ~~a person's~~ an individual's right to health benefits or retiree health benefits under chapter 54-52.1. An eligible employee who is first employed and entered upon the payroll of that person's employer after September 30, 2001, and before January 1, 2025, may make an election to participate in the defined contribution retirement plan established under this chapter at any time during the first six months after the date of employment. If the board, in its sole discretion, determines that the employee was not adequately notified of the employee's option to participate in the defined contribution retirement plan, the board may provide the employee a reasonable time within which to make that election, which may extend beyond the original six-month decision window.
2. If an individual who is a deferred member of the public employees retirement system on September 30, 2001, is re-employed before January 1, 2025, and by virtue of that employment is again eligible for membership in the public employees retirement system under chapter 54-52, the individual may elect in

<sup>280</sup> Section 54-52.6-02 was also amended by section 46 of Senate Bill No. 2015, chapter 47.

writing to remain a member of the public employees retirement system or if eligible to participate in the defined contribution retirement plan established under this chapter to terminate membership in the public employees retirement system and become a participating member in the defined contribution retirement plan established under this chapter. An election made by a deferred member under this section is irrevocable. The board shall accept written elections under this section from a deferred member during the period beginning on the date of the individual's re-employment and ending upon the expiration of six months after the date of that re-employment. If the board, in its sole discretion, determines that the employee was not adequately notified of the employee's option to participate in the defined contribution retirement plan, the board may provide the employee a reasonable time within which to make that election, which may extend beyond the original six-month decision window. A deferred member who makes and files a written election to remain a member of the public employees retirement system retains all rights and is subject to all conditions as a member of that retirement system. A deferred member who does not make a written election or who does not file the election during the period specified in this section continues to be a member of the public employees retirement system. A deferred member who makes and files a written election to terminate membership in the public employees retirement system ceases to be a member of the public employees retirement system effective on the last day of the payroll period that includes the date of the election; becomes a participating member in the defined contribution retirement plan under this chapter effective the first day of the payroll immediately following the date of the election; and waives all of that person's rights to a pension, an annuity, a retirement allowance, insurance benefit, or any other benefit under the public employees retirement system effective the last day of the payroll that includes the date of the election. This section does not affect any right to health benefits or retiree health benefits to which the deferred member may otherwise be entitled.

3. An eligible employee who elects under this section to participate in the retirement plan established under this chapter must remain a participant even if that employee returns to the classified service or becomes employed by a political subdivision that participates in the public employees retirement system. The contribution amount must be as provided in this chapter, regardless of the position in which the employee is employed. Notwithstanding the irrevocability provisions of this chapter, if a member who elects to participate in the retirement plan established under this chapter becomes a supreme or district court judge, becomes a member of the highway patrol, becomes employed in a position subject to teachers' fund for retirement membership, or becomes an employee of the board of higher education or state institution under the jurisdiction of the board of higher education who is eligible to participate in an alternative retirement program established under subsection 6 of section 15-10-17, the member's status as a member of the defined contribution retirement plan is suspended, and the member becomes a new member of the retirement plan for which that member's new position is eligible. The member's account balance remains in the defined contribution retirement plan, but no new contributions may be made to that account. The member's service credit and salary history that were forfeited as a result of the member's transfer to the defined contribution retirement plan remain forfeited, and service credit accumulation in the new retirement plan begins from the first day of employment in the new position. If the member later returns to employment that is eligible for the defined contribution retirement plan, the member's suspension must be terminated, the member again becomes a

member of the defined contribution retirement plan, and the member's account resumes accepting contributions. At the member's option, and pursuant to rules adopted by the board, the member may transfer any available balance as determined by the provisions of the alternate retirement plan into the member's account under this chapter.

4. After consultation with its actuary, the board shall determine the method by which a participating member or deferred member may make a written election under this section. If the participating member or deferred member is married at the time of the election, the election is not effective unless the election is signed by the individual's spouse. However, the board may waive this requirement if the spouse's signature cannot be obtained because of extenuating circumstances.
5. If the board receives notification from the internal revenue service that this section or any portion of this section will cause the public employees retirement system or the retirement plan established under this chapter to be disqualified for tax purposes under the Internal Revenue Code, then the portion that will cause the disqualification does not apply.
6. A participating member under this section who becomes a temporary employee may still participate in the defined contribution retirement plan upon filing an election with the board within one hundred eighty days of transferring to temporary employee status. The participating member may not become a member of the defined benefit plan as a temporary employee.
  - a. ~~The temporary employee electing to participate in the defined contribution retirement plan shall pay monthly to the fund an amount equal to eight and twelve hundredths percent times the temporary employee's present monthly salary. The amount required to be paid by a temporary employee increases by two percent times the temporary employee's present monthly salary beginning with the monthly reporting period of January 2012, and with an additional increase of two percent, beginning with the monthly reporting period of January 2013, and with an additional increase of two percent, beginning with the monthly reporting period of January 2014. The temporary employee shall also pay the required monthly contribution to the retiree health benefit fund established under section 54-52.1-03.2. This contribution must be recorded as a member contribution pursuant to section 54-52.1-03.2 into the plan as provided under section 54-52.6-09.6.~~
  - b. An employer may not pay the temporary employee's contributions.
  - c. A temporary employee may continue to participate as a temporary employee until termination of employment or reclassification of the temporary employee as a permanent employee.
7. A former participating member under this section who has accepted a retirement distribution pursuant to section 54-52.6-13 and who subsequently becomes employed by an entity different from the employer with which the member was employed at the time the member retired but which does participate in any state-sponsored retirement plan may, before re-enrolling in the defined contribution retirement plan, elect to permanently waive future participation in the defined contribution retirement plan, whatever plan in which the new employing entity participates, and the retiree health program and maintain that member's retirement status. Neither the member nor the

employer are required to make any future retirement contributions on behalf of that employee.

If a taxpayer entitled to the credit provided by this section is a member of a group of corporations filing a North Dakota consolidated tax return using the combined reporting method, the credit may be claimed against the aggregate North Dakota tax liability of all the corporations included in the North Dakota consolidated return.
7. A passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of calculating the credit. The amount of the allowable credit must be determined at the passthrough entity level. The total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity.   - (2) The amount paid for each item of machinery or equipment if the amount paid for the machinery or equipment is being used as a basis for calculating the credit; and
  - (3) The date on which payment for the purchase was made.
9. Within one year after claiming a tax credit under this section, a taxpayer shall file with the tax commissioner a report that documents the improved job quality or increased productivity required under this section and any other information the tax commissioner determines is necessary for administration of this section. Failure to document the improved job quality or increased productivity requirements is cause to disallow the credit attributable to the noncompliance. The tax commissioner shall provide notice of the disallowed credit to the taxpayer. Within ninety days after the date of the notice, the taxpayer shall file an amended return for each taxable year in which the disallowed credit reduced the taxpayer's tax liability and pay the amount due. If an amended return is not filed timely, the tax commissioner shall disallow the credit and assess any tax due. An assessment of tax made under this subsection is final and irrevocably fixed.
10. Notwithstanding the time limitations contained in section 57-38-38, this section does not prohibit the tax commissioner from conducting an examination of the credit claimed and assessing additional tax due under section 57-38-38.

(Representatives D. Johnson, J. Olson, Thomas)

AN ACT to amend and reenact subsection 5 of section 57-40.3-01 of the North Dakota Century Code, relating to the definition of purchase price for motor vehicle excise tax purposes; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Subsection 5 of section 57-40.3-01 of the North Dakota Century Code is amended and reenacted as follows:

5. "Purchase price" means the total amount paid for the motor vehicle whether received in money or otherwise. The purchase price excludes the amount of a manufacturer's incentive or discount that reduces the amount paid by the purchaser to the seller at the time of purchase and any charges or fees for auction services. If a motor vehicle or other tangible personal property that will be subject to a sales or use tax imposed by chapter 57-39.2 or 57-40.2 when sold or used is taken in trade as a credit or as part payment on a motor vehicle taxable under this chapter, the credit or trade-in value allowed by the person selling the motor vehicle shall be deducted from the total selling price to establish the purchase price of the vehicle being sold and the trade-in allowance allowed by the seller on a motor vehicle accepted as a trade-in shall constitute the purchase price of a motor vehicle accepted as a trade-in. If a motor vehicle is purchased by an owner who has had a motor vehicle stolen or totally destroyed, a credit or trade-in credit shall be allowed against one or more replacement motor vehicle purchases in a cumulative amount not to exceed the total amount the purchaser has been compensated by an insurance company for the loss plus the amount of the purchaser's deductible at the time of the loss. For a leased vehicle that is stolen or totally destroyed, the credit may not exceed the total amount of motor vehicle excise tax paid. The purchaser must provide the director of the department of transportation with a notarized statement from the insurance company within three years from the date of issuance verifying the fact that the original vehicle was a total loss and stating the amount compensated by the insurance company for the loss and the amount of the purchaser's deductible at the time of the loss. The statement from the insurance company must accompany the purchaser's application for a certificate of title for the replacement vehicle. If the full amount of the credit under this subsection has not been used, the director of the department of transportation shall record on the face of the notarized statement the necessary information to identify the partial use of the credit and shall retain a copy and return the original to the purchaser. In instances in which a licensed motor vehicle dealer places into the dealer's service a new vehicle for the purpose of renting, leasing, or dealership utility service, the reasonable value of the vehicle replaced shall be included as trade-in value provided the vehicle replaced has been subject to motor vehicle excise tax under section 57-40.3-02 and if the new vehicle is properly registered and licensed. "Purchase price" when the motor vehicle is acquired by gift or by any

other transfer for a nominal or no monetary consideration also includes the average value of similar motor vehicles, established by standards and guides as determined by the director of the department of transportation. "Purchase price" when a motor vehicle is manufactured by a person who registers it under the laws of this state means the manufactured cost of such motor vehicle and manufactured cost means the amount expended for materials, labor, and other properly allocable costs of manufacture except that, in the absence of actual expenditures for the manufacture of a part or all of the motor vehicle, manufactured cost means the reasonable value of the completed motor vehicle.

### HOUSE BILL NO. 1286

(Representatives Headland, D. Anderson, Bosch, Lefor, Nathe, Porter, Vigesaa)  
(Senators Bekkedahl, Hogue, Kessel, Patten, Rummel)

AN ACT to amend and reenact section 57-51.1-02 of the North Dakota Century Code, relating to the removal of triggered oil extraction tax rate changes for wells located outside the exterior boundaries of a reservation; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-51.1-02 of the North Dakota Century Code is amended and reenacted as follows:

##### **57-51.1-02. Imposition of oil extraction tax.**

1. There is hereby imposed an excise tax, to be known as the "oil extraction tax", upon the activity in this state of extracting oil from the earth, and every owner, including any royalty owner, of any part of the oil extracted is deemed for the purposes of this chapter to be engaged in the activity of extracting that oil. The rate of tax is five percent of the gross value at the well of the oil extracted. However
2. Subject to subsection 3, for a well located within the exterior boundaries of a reservation, a well located on trust properties outside reservation boundaries as defined in section 57-51.2-02, or a straddle well located on reservation trust land as defined in section 57-51.1-07.10, if the average price of a barrel of crude oil exceeds the trigger price of ninety dollars for each month in any consecutive three-month period, then the rate of tax on oil extracted from all taxable wells is six percent of the gross value at the well of the oil extracted until the average price of a barrel of crude oil is less than the trigger price of ninety dollars for each month in any consecutive three-month period, in which case the rate of tax reverts to five percent of the gross value at the well of the oil extracted. By December thirty-first of each year, the tax commissioner shall determine an indexed trigger price under this section by applying to the current trigger price an adjustment equal to the percentage rate of change of the producer price index for industrial commodities as calculated and published by the United States department of labor, bureau of labor statistics, for the twelve months ending June thirtieth of that year and the indexed trigger price so determined is the trigger price for the following calendar year. For purposes of this section subsection, "average price" of a barrel of crude oil means the monthly average of the daily closing price for a barrel of west Texas intermediate cushing crude oil, as those prices appear in the Wall Street Journal, midwest edition. When computing the monthly average price, the most recent previous daily closing price must be considered the daily closing price for the days on which the market is closed.
3. A tribe may make an irrevocable election to opt-out of the increased rate of tax provided in subsection 2 by providing written notice to the tax commissioner. If a tribe provides notice under this subsection, the rate of tax on oil extracted from taxable wells is equal to the rate of tax provided in subsection 1.

beginning in the month of production after notice under this subsection is received by the tax commissioner.

**SECTION 2. EFFECTIVE DATE.** This Act is effective for taxable events occurring after June 30, 2023.

## CHAPTER 558

### HOUSE BILL NO. 1427

(Representatives Headland, D. Anderson, Bosch, Dockter)  
(Senators Kannianen, Meyer, Patten)

AN ACT to create and enact a new subsection to section 57-51.1-03 of the North Dakota Century Code, relating to an oil extraction tax rate reduction on production from a restimulation well; to amend and reenact sections 57-51.1-01 and 57-51.1-03.1 of the North Dakota Century Code, relating to the definition and certification of a restimulation well; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-51.1-01 of the North Dakota Century Code is amended and reenacted as follows:

##### **57-51.1-01. Definitions for oil extraction tax.**

For the purposes of this chapter:

1. "Average daily production" of a well means the qualified maximum total production of oil from the well during a calendar month period divided by the number of calendar days in that period, and "qualified maximum total production" of a well means that the well must have been maintained at the maximum efficient rate of production as defined and determined by rule adopted by the industrial commission in furtherance of its authority under chapter 38-08.
2. "Horizontal well" means a well with a horizontal displacement of the well bore drilled at an angle of at least eighty degrees within the productive formation of at least three hundred feet [91.44 meters].
3. "Oil" means petroleum, crude oil, mineral oil, casinghead gasoline, and all liquid hydrocarbons that are recovered from gas on the lease incidental to the production of the gas.
4. "Property" means the right which arises from a lease or fee interest, as a whole or any designated portion thereof, to produce oil. A producer shall treat as a separate property each separate and distinct producing reservoir subject to the same right to produce crude oil; provided, that such reservoir is recognized by the industrial commission as a producing formation that is separate and distinct from, and not in communication with, any other producing formation.
5. "Qualifying secondary recovery project" means a project employing water flooding. To be eligible for the tax exemption provided under section 57-51.1-03, a secondary recovery project must be certified as qualifying by the industrial commission and the project operator must have obtained incremental production as defined in subsection 3 of section 57-51.1-03.

6. "Qualifying tertiary recovery project" means a project for enhancing recovery of oil which meets the requirements of section 4993(c), Internal Revenue Code of 1954, as amended through December 31, 1986, and includes the following methods for recovery:
- a. Miscible fluid displacement.
  - b. Steam drive injection.
  - c. Microemulsion.
  - d. In situ combustion.
  - e. Polymer augmented water flooding.
  - f. Cyclic steam injection.
  - g. Alkaline flooding.
  - h. Carbonated water flooding.
  - i. Immiscible carbon dioxide displacement.
  - j. New tertiary recovery methods certified by the industrial commission.

It does not include water flooding, unless the water flooding is used as an element of one of the qualifying tertiary recovery techniques described in this subsection, or immiscible natural gas injection. To be eligible for the tax exemption provided under section 57-51.1-03, a tertiary recovery project must be certified as qualifying by the industrial commission, the project operator must continue to operate the unit as a qualifying tertiary recovery project, and the project operator must have obtained incremental production as defined in subsection 3 of section 57-51.1-03.

7. "Restimulation well" means a previously completed oil or gas well that, following completion and production of oil, has been treated with an application of fluid under pressure for the purpose of initiating or propagating fractures in a target geologic formation to enhance production of oil. The term does not include a well that:
- a. Has less than sixty months of production or is producing more than one hundred and twenty-five barrels of oil per day reported to the industrial commission before completion of the restimulation treatment;
  - b. Is part of a qualifying secondary recovery project, qualifying tertiary recovery project, or stripper well or stripper well property as defined under this section; or
  - c. Is drilled but not completed and does not have a record of oil production reported to the industrial commission.
8. "Royalty owner" means an owner of what is commonly known as the royalty interest and shall not include the owner of any overriding royalty or other payment carved out of the working interest.

- 8-9. "Stripper well" means a well drilled and completed, or re-entered and recompleted as a horizontal well, after June 30, 2013, whose average daily production of oil during any preceding consecutive twelve-month period, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] outside the Bakken and Three Forks formations, and thirty-five barrels per day for wells of a depth of more than ten thousand feet [3048 meters] in the Bakken or Three Forks formation.
- 9-10. "Stripper well property" means wells drilled and completed, or a well re-entered and recompleted as a horizontal well, before July 1, 2013, on a "property" whose average daily production of oil, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] during any preceding consecutive twelve-month period. Wells which did not actually yield or produce oil during the qualifying twelve-month period, including disposal wells, dry wells, spent wells, and shut-in wells, are not production wells for the purpose of determining whether the stripper well property exemption applies.

**SECTION 2.** A new subsection to section 57-51.1-03 of the North Dakota Century Code is created and enacted as follows:

The production from a restimulation well that has been certified as a qualified well by the industrial commission after August 1, 2023, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter for the first seventy-five thousand barrels of production or for a period of eighteen months after the month in which oil was first produced from the restimulation well, whichever occurs first. The tax rate reduction under this subsection does not apply to a well located within the exterior boundaries of a reservation, a well located on trust properties outside reservation boundaries as defined in section 57-51.2-02, or a straddle well located on reservation trust land as defined in section 57-51.1-07.10, unless a tribe makes an irrevocable election to opt-in to the tax rate reduction by providing written notice to the tax commissioner. If a tribe provides notice of its election to opt-in to the tax rate reduction, the tax commissioner shall apply the tax rate reduction beginning in the month of production after the notice is received by the tax commissioner. The industrial commission shall certify whether the well qualifies as a restimulation well under section 1 of this Act in a manner that conforms to the practice and procedure used by the commission at the time the restimulation well is certified.

**SECTION 3. AMENDMENT.** Section 57-51.1-03.1 of the North Dakota Century Code is amended and reenacted as follows:

**57-51.1-03.1. Stripper well, new well, and secondary or tertiary project, and restimulation well certification for tax exemption or rate reduction - Filing requirement.**

1. To receive the benefits of a tax exemption or tax rate reduction, a certification of qualifying well status prepared by the industrial commission must be submitted to the tax commissioner as follows:
  - a. To receive, from the first day of eligibility, a tax exemption on production from a stripper well property or individual stripper well under subsection 2 of section 57-51.1-03, the industrial commission's certification must be submitted to the tax commissioner within eighteen months after the end of the stripper well property's or stripper well's qualification period.
  - b. To receive, from the first day of eligibility, a tax exemption under subsection 3 of section 57-51.1-03 on production from a secondary or tertiary project, the industrial commission's certification must be submitted to the tax commissioner within eighteen months after the month in which the first incremental oil was produced.
  - c. To receive, from the first day of eligibility, a tax exemption or the reduction on production for which any other tax exemption or rate reduction may apply, the industrial commission's certification must be submitted to the tax commissioner within eighteen months of the completion, recompletion, or other qualifying date.
  - d. To receive, from the first day of eligibility, a tax rate reduction under section 2 of this Act on production from a restimulation well, the industrial commission's certification must be submitted to the tax commissioner within six months after the month in which the first oil was produced.
2. If the industrial commission's certification is not submitted to the tax commissioner within the eighteen-month period provided in this section, then the exemption or rate reduction does not apply for the production periods in which the certification is not on file with the tax commissioner. When the industrial commission's certification is submitted to the tax commissioner after the eighteen-month period, the tax exemption or rate reduction applies to prospective production periods only and the exemption or rate reduction is effective the first day of the month in which the certification is received by the tax commissioner.

**SECTION 4. EFFECTIVE DATE.** This Act is effective for taxable production beginning after June 30, 2023.

  - b. (1) If the interest sought to be acquired is an easement for a right of way for any project authorized in this chapter for which federal or state funds have been made available, the district may acquire the right of way by quick take eminent domain as authorized by section 16 of article I of the Constitution of North Dakota, after the district attempts to purchase the easement for the right of way by:
    - (a) Conducting informal negotiations for not less than sixty days.
    - (b) If informal negotiations fail, the district shall engage in formal negotiations by:
      - [1] Sending the landowner an appraisal and written offer for just compensation, which includes a specific description of the exact location of the right of way, by certified mail or commercial delivery requiring a signed receipt, and receiving the signed receipt or documentation of constructive notice.

After receiving the request, the county commissioners shall hold a public meeting and give the landowner thirty days' notice of the meeting to allow the landowner to attend. If the county commissioners approve the use of quick take eminent domain by a majority vote, the district may take immediate possession of the right of way, but not a blanket easement, if the district files an affidavit by the chairman of the water resource board which states the district has fulfilled the required negotiation steps and deposits the amount of the written offer with the clerk of the district court of the county in which the right of way is located.

In the event the native woodland within such area has already been destroyed, the board may, in its discretion, order the planting of a shelterbelt which, in the judgment of the board, will curtail the erosion or blocking of such river channel where overflow flooding has caused extensive property damage. For purposes of this subsection, the words "riverbank" and "river channel" relate to rivers as defined in the United States geological survey base map of North Dakota, edition of 1963. The provisions of this subsection shall not be construed to limit, impair, or abrogate the rights, powers, duties, or functions of any federal, state, or local entity to construct and maintain any flood control, irrigation, recreational, or municipal or industrial water supply project.

Petition any zoning authority established pursuant to chapter 11-33, 11-35, or 40-47 or section 58-03-13 to assume jurisdiction over a floodplain for zoning purposes when such zoning is required to regulate and enforce the placement, erection, construction, reconstruction, repair, and use of buildings and structures to protect and promote the health, safety, and general welfare of the public within a floodplain area. In the event such zoning authority fails to act or does not exist, the board may request the state water commission to assist it in a study to determine and delineate the floodplain area. The department of transportation, railroads, counties, and townships shall cooperate with the districts in this effort. Each

district shall also consider the possibility of incorporating appropriate water control structures, where appropriate, as a part of such road openings.

22. Plug abandoned water wells and participate in cost-sharing arrangements with water well owners to plug water wells to protect aquifers from pollution or depletion, maintain pressure, and prevent damage to surrounding property.

**Right of way - How acquired - Assessment of damages - Issuance of warrants.**

If lands assessed for drainage benefits are not contiguous to the drain, the water resource board may exercise eminent domain to acquire a right of way easement to the drain over the land of others. The right of way, when acquired, is the property of the water resource district in which the lands are located. The board may issue warrants in a sum sufficient to pay the damages assessed for the right of way. The warrants must be drawn upon the proper county treasurer or, if the water resource district treasurer is custodian of the drain funds, water resource district treasurer, and are payable out of drain funds in the hands of the treasurer which have been collected for the construction of the drain for which the right of way is sought.

There is no interest rate ceiling on warrants sold at public sale or to the state of North Dakota or any of its agencies or instrumentalities. All drain warrants must state upon their faces the purpose for which they are issued and the drain fund from which they are payable. The warrants may be used to pay drain obligations, or may be sold at not less than ninety-eight percent of par value, provided that the proceeds of warrants sold are placed in the proper drain fund and used exclusively for drain expenses. Any unpaid warrants issued for the acquisition of right of way or the construction of a drain, including all incidental costs in connection with the acquisition or construction, must be funded by a bond issue within one hundred eighty days from and after the filing of the assessment of all costs with the county auditor as provided in section 61-16.1-28, but this requirement may not be construed as prohibiting the funding of warrants or the issuance of bonds after the one hundred eighty-day period.

**SECTION 30.** A new section to chapter 61-16.1 of the North Dakota Century Code is created and enacted as follows:

**Settlement of unpaid warrants.**

A board of county commissioners may negotiate and execute a settlement with the owners of drain warrants and pay the amount of the settlement from the general fund of the county if:

1. Drain warrants issued pursuant to the establishment of a drain in two or more counties remain unpaid;
2. The amounts realized from the original assessments are not sufficient to pay the warrants;
3. An additional assessment would be necessary to meet the deficit; and
4. The board finds the county has received benefits from the drain by reasons of public health, convenience, or welfare and, as a result, may be liable for assessment or reassessment and the credit of the county is or may be affected by the existence of the outstanding and unpaid warrants.

**SECTION 31.** A new section to chapter 61-16.1 of the North Dakota Century Code is created and enacted as follows:

**Closing of noncomplying drain - Notice and hearing - Appeal - Injunction.**

If the board determines a drain, lateral drain, or ditch has been opened or established by a landowner or tenant contrary to this chapter or any rules adopted by

the board, the board shall notify the landowner by registered mail at the landowner's address of record. A copy of the notice also must be sent to the tenant, if any. The notice must specify the nature and extent of the noncompliance and must state if the drain, lateral drain, or ditch is not closed or filled within the period the board determines, but not less than fifteen days, the board shall procure the closing or filling of the drain, lateral drain, or ditch and assess the cost, or the portion the board determines, against the property of the landowner responsible. The notice also must state the affected landowner, within fifteen days of the date the notice is mailed, may demand in writing a hearing on the matter. Upon receipt of the demand, the board shall set a hearing date within fifteen days from the date the demand is received. In the event of an emergency, the board may apply immediately to the appropriate district court for an injunction prohibiting the landowner or tenant from maintaining the drain, lateral drain, or ditch. Assessments levied under this section must be collected in the same manner as other assessments authorized by this chapter. If, in the opinion of the board, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in accordance with the proportionate responsibility of the landowners. A landowner aggrieved by action of the board under this section may appeal the decision of the board to the district court of the county in which the land is located in accordance with the procedure provided for in section 28-34-01. A hearing as provided for in this section is not a prerequisite to an appeal.

**SECTION 32.** A new section to chapter 61-16.1 of the North Dakota Century Code is created and enacted as follows:

**Reconveyance of land no longer required for drainage.**

When land acquired for drainage is no longer required for drainage, the board of county commissioners may reconvey the land to the present owner of the adjacent property if the present owner of the adjacent property surrenders all warrants issued in payment of the land or repays the amount of cash paid for the land.

**SECTION 33.** A new section to chapter 61-16.1 of the North Dakota Century Code is created and enacted as follows:

**Sinking funds and bonds.**

A water resource board shall establish a sinking fund for each issue of bonds, and the fund must consist of all drain assessments made for the bonds, all warrants funded, all assessments for the warrants, all accrued interest received on sale of bonds, all proceeds of bonds sold not actually expended for the drain, the reserve fund authorized for purchase of tax delinquent lands affected by the drain, all general tax levies for payment of obligations of the drain, and any other moneys that may be appropriated to the sinking fund. Separate sinking funds must be provided for each separate drain for which bonds have been issued. Until the purpose of the sinking fund has been fulfilled, moneys in the sinking fund may not be applied to any purpose other than payment of the bonds for which the fund was created.

**SECTION 34.** A new section to chapter 61-16.1 of the North Dakota Century Code is created and enacted as follows:

**Existing obligations and regulations.**

Except as specified, amendments to this chapter do not affect the validity of any valid outstanding warrants, bonds, or other obligations of drainage districts, and all sinking funds created for the payment of these obligations continue in force until the liquidation of the obligations. All valid rules adopted by any board of county

commissioners or board of drainage commissioners remain in full force and effect until altered or repealed by the board.

<sup>320</sup> **SECTION 35. AMENDMENT.** Subdivision g of subsection 4 of section 61-32-03.1 of the North Dakota Century Code is amended and reenacted as follows:

- g. If the subsurface water management system will discharge into the watershed area of an assessment drain, inclusion of the relevant property into the assessment district for the assessment drain in accordance with the benefits the property receives, provided the property is not assessed already for the assessment drain. The water resource district may include the new property into the assessment district, and determine the benefits and assessment amounts under ~~chapters 61-21 and~~chapter 61-16.1, without conducting the reassessment of benefit proceedings under ~~sections 61-21-44 and~~section 61-16.1-26, provided the property is not assessed already for the assessment drain.

If the board finds that less than fifty percent of votes filed are against the proposed project, the board may proceed with the project. In any assessment district created under this section the board may dispense with all other requirements of this chapter, other than those stated in this section. If a hearing is not requested, the order is final and may not be appealed. If a hearing is requested, the hearing must be conducted in accordance with chapter 28-32 to the extent that chapter does not conflict with this section and the order remains in effect until the hearing officer renders a decision. If an employer fails to appear at a hearing requested under this section, that employer defaults and the allegations contained in the cease and desist order are deemed true.
3. A general contractor or a subcontractor that ~~willfully~~knowingly uses the services of a subcontractor precluded from operating under a cease and desist order, ~~or an employer conducting business with an uninsured employer precluded from operating under a cease and desist order,~~ is subject to a penalty of five thousand dollars and one hundred dollars per day for each day the violation occurs. The organization shall provide notice to the general contractor or subcontractor by regular mail before assessing penalties under this section. ### HOUSE BILL NO. 1279

(Representatives Roers Jones, Heinert, Jonas, Louser, Schauer, Thomas)  
(Senators Barta, Larson, Lee)

AN ACT to create and enact section 65-01-15.2 of the North Dakota Century Code, relating to compensability for cardiac events for firefighters and law enforcement officers; to amend and reenact sections 65-01-15 and 65-01-15.1 of the North Dakota Century Code, relating to documentation required for firefighters and law enforcement officers and the presumption of compensability for firefighters and law enforcement officers; to provide for retroactive application; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 65-01-15 of the North Dakota Century Code is amended and reenacted as follows:

**65-01-15. Yearly documentation required for firefighter and law enforcement officer.**

Except for benefits for an exposure to a bloodborne pathogen as defined by section 23-07.5-01 occurring in the course of employment, a full-time paid firefighter or law enforcement officer who uses tobacco is not eligible for the benefits provided under ~~section~~sections 65-01-15.1 and 65-01-15.2, unless the full-time paid firefighter or law enforcement officer provides yearly documentation from a health care provider which indicates the full-time paid firefighter or law enforcement officer has not used tobacco for the preceding two years.

<sup>324</sup> **SECTION 2. AMENDMENT.** Section 65-01-15.1 of the North Dakota Century Code is amended and reenacted as follows:

**65-01-15.1. Presumption of compensability for certain conditions of full-time paid firefighters and law enforcement officers.**

1. Any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease, hypertension, heart disease, or an exposure to a bloodborne pathogen as defined by section 23-07.5-01 occurring in the course of employment, or occupational cancer in a full-time paid firefighter, is presumed to have been suffered in the line of duty. The presumption may be rebutted by clear and convincing evidence the condition or impairment is not work-related.
2. As used in this section, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic, poisonous, toxic, or chemical substances while in the performance of active duty as a full-time paid firefighter.

---

<sup>324</sup> Section 65-01-15.1 was also amended by section 2 of Senate Bill No. 2116, chapter 465.

3. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this section unless that full-time paid firefighter or law enforcement officer has completed five years of continuous service and has successfully passed a medical examination which fails to reveal any evidence of such a condition. The five years of continuous service requirement may include full-time paid service outside the state. An employer shall require provide at no expense a medical examination upon employment, for any employee subject to this section.
  - a. After the initial medical examination, an employer shall require provide at no expense at least a periodic medical examination as follows: for one to ten years of service, every five years; for eleven to twenty years of service, every three years; and for twenty-one or more years of service, every year. The periodic medical examination, at a minimum, must consist of a general medical history of the individual and the individual's family; an occupational history including contact with and an exposure to hazardous materials, toxic products, contagious and infectious diseases, and to physical hazards; a physical examination including measurement of height, weight, and blood pressure; and laboratory and diagnostic procedures including a nonfasting total blood cholesterol test indicating cardiovascular health to a reasonable degree of medical certainty.
  - b. If the medical examination reveals that an employee falls into a recognized risk group, the employee must be referred to a qualified health professional for future medical examination.
  - c. If a medical examination produces a false positive result for a condition covered under this section, the organization shall consider the condition to be a compensable injury. In the case of a false positive result, neither the coverage of the condition nor the period of disability may exceed fifty-six days. This section does not affect an employee's responsibility to document that the employee has not used tobacco as required under section 65-01-15. Results of the examination must be used in rebuttal to a presumption afforded under this section.
4. For purposes of this section, "law enforcement officer" means a person an individual who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, a city police department, or the parks and recreation department pursuant to section 55-08-04.
5. The presumption does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed for ten years or less, if the condition or impairment is diagnosed more than two years after the employment as a full-time paid firefighter or law enforcement officer ends. The presumption also does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed more than ten years, if the condition or impairment is diagnosed more than five years after the employment as a full-time paid firefighter or law enforcement officer ends.

<sup>325</sup> **SECTION 3.** Section 65-01-15.2 of the North Dakota Century Code is created and enacted as follows:

**65-01-15.2. Presumption of compensability for cardiac events of full-time paid firefighters and law enforcement officers.**

1. A heart attack, stroke, vascular rupture, or other similar cardiac event, is presumed to be a compensable injury when a full-time paid firefighter or law enforcement officer:
  - a. Engages in a situation involving strenuous physical law enforcement activity, fire suppression activity, or emergency response activity, or participates in a training exercise involving strenuous physical activity; and
  - b. The heart attack, stroke, vascular rupture, or other similar cardiac event occurs no later than forty-eight hours after the full-time paid firefighter or law enforcement officer engaged or participated in the activity listed under subdivision a.
2. The presumption under subsection 1 may be rebutted by clear and convincing evidence the condition or impairment was not work related.
3. This section applies to any full-time paid firefighter or law enforcement officer who has less than five years of continuous service.
4. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this section unless the full-time paid firefighter or law enforcement officer has successfully passed a medical examination that failed to reveal any evidence of a cardiovascular condition.
5. For purposes of this section, "law enforcement officer" means an individual who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full-time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, a city police department, or the parks and recreation department pursuant to section 55-08-04.

**SECTION 4. RETROACTIVE APPLICATION.** This Act applies retroactively to a claim for workers' compensation benefits filed after October 1, 2021, regardless of date of injury. A full-time paid firefighter or law enforcement officer who submitted a claim for benefits between October 1, 2021, and the effective date of this Act may resubmit the claim if the initial claim was denied by the organization for not being a compensable injury.

### HOUSE BILL NO. 1273

(Representatives Koppelman, Bellew, Heilman, Heinert, Kasper, Louser)  
(Senators Clemens, Larsen, Meyer, Paulson, Vedaa, Wobbema)

AN ACT to create and enact a new section to chapter 16.1-01 of the North Dakota Century Code, relating to the prohibition of ranked-choice and approval voting in elections; and to amend and reenact subsection 7 of section 11-09.1-05 and subsection 9 of section 40-05.1-06 of the North Dakota Century Code, relating to home rule powers.

VETO

April 6, 2023

The Honorable Dennis Johnson  
Speaker of the House  
North Dakota House of Representatives  
State Capitol  
Bismarck, ND

Re: House Bill 1273

Dear Speaker Johnson:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1273 and return it to the House.

House Bill 1273 undermines local control of local political subdivisions exercising their granted powers under home rule charter, specifically prohibiting using an approval voting method or ranked-choice voting method in local elections. This bill also applies restrictions to local elections held by counties, cities and other political subdivisions, regardless of whether they have adopted a home rule charter.

To be clear, under existing law, counties and cities currently do not - and should not - have authority to implement approval voting or ranked-choice methods for state and federal elected office. Home rule authority applies only to local elections.

House Bill 1273 blatantly infringes on local control and the ability of residents in home

rule cities to determine which method of local city election is best for their communities based on the unique aspects of city elections, including those that often have a very large field of candidates elected at-large and not by wards, with no party affiliation and no primary or runoff elections.

Currently, the mantra of "one person, one vote" is often cited in opposition to approval voting. However, in city and county elections using the current plurality voting method in North Dakota, individual voters already often have the opportunity to vote for multiple candidates for two, three, or four seats on a city council or county commission, for example.

Only one political subdivision, the city of Fargo, uses approval voting, having adopted this method through a citywide ballot measure in 2018 approved by 63.5% of those voting on the measure. Ranked-choice voting is not used by any political subdivision in North Dakota.

House Bill 1273 - sponsored by a dozen legislators but none of the 18 legislators who represent Fargo - subverts the will of Fargo residents and overturns the supermajority approval of their 2018 ballot measure five years later.

House Bill 1273 also rolls back the power granted to ill 155 cities - across every North Dakota legislative district - that have adopted a home rule charter under North Dakota Century Code 40-05.1-06 Subsection 9, which states that home rule cities have authority "to provide for all matters pertaining to city elections, except as to qualifications of electors."

Withdrawing this authority after it has already been exercised to carry out the supermajority will of voters is an egregious example of state overreach and demonstrates a lack of respect for local control. Further, instead of taking the opportunity to respect the decision made by over 30,000 Fargo voters and include a grandfather clause in House Bill 1273, the Legislative Assembly is attempting to move the goalposts after the rules were set and legally followed.

To nullify the legitimate votes of tens of thousands of North Dakota citizens and prevent other home rule cities and counties from exercising their home rule authority over elections of their own elected officials is improper and invites legal action against the state.

In North Dakota, we frequently rail against federal overreach that impacts states' rights. If we truly believe in limited government and local control, we can begin by honoring the boundaries, intent and spirit of home rule charters, especially when there is no evidence of any harm having occurred from trusting the residents of cities to have self-determination within the bounds of their home rule charters.

For the reasons stated above, House Bill 1273 is vetoed.  
Sincerely,

Doug Burgum  
Governor

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1. AMENDMENT.** Subsection 7 of section 11-09.1-05 of the North Dakota Century Code is amended and reenacted as follows:

7. Provide for all matters pertaining to county elections, except as to qualifications of electors and the limitations provided in section 2 of this Act.

**SECTION 2.** A new section to chapter 16.1-01 of the North Dakota Century Code is created and enacted as follows:

**Ranked-choice voting - Approval voting - Prohibition.**

1. A ranked-choice voting method that allows voters to rank candidates for an office in order of preference and has ballots cast tabulated in multiple rounds following the elimination of a candidate until a single candidate attains a majority may not be used in determining the election or nomination of any candidate to any local, state, or federal elective office.
2. An approval voting method that allows voters to vote for all the candidates the voter approves of in each race and the candidates receiving the most votes will be elected until all necessary seats are filled in each race may not be used in determining the election or nomination of any candidate to any local, state, or federal elective office.
3. Pursuant to a home rule charter or not, an ordinance enacted or adopted by a county, city, or other political subdivision which is in conflict with this section is void.

**SECTION 3. AMENDMENT.** Subsection 9 of section 40-05.1-06 of the North Dakota Century Code is amended and reenacted as follows:

9. To provide for all matters pertaining to city elections, except as to qualifications of electors and the limitations provided in section 2 of this Act.

### HOUSE BILL NO. 1475

(Representatives Koppelman, Grueneich, Louser, Murphy, Pyle, D. Ruby, Schneider,

(Senators Paulson, K. Roers)

AN ACT to amend and reenact subdivision i of subsection 1 of section 39-09-02 of the North Dakota Century Code, relating to speed limitations on multilane highways; and to provide a penalty.

VETO

March 29, 2023

The Honorable Dennis Johnson  
Speaker of the House  
North Dakota House of Representatives  
State Capitol  
Bismarck, ND

Re: House Bill 1475

Dear Speaker Johnson:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1475 and return it to the House.

House Bill 1475 increases the maximum speed limit on access-controlled, multilane interstate highways from 75 miles per hour (mph) to 80 mph unless otherwise permitted, restricted or required by conditions.

Increasing the maximum speed limit on interstate highways increases both the risk of speed-related crashes and the potential severity of such crashes. From 2017 to 2021, 178 people died in speed/aggressive driving-related crashes in North Dakota, and speeding or traveling too fast for conditions is a factor in approximately 30% to 40% of all fatal crashes in North Dakota each year. A study by the Insurance Institute of Highway Safety found that a 5 mph increase in the speed limit is associated with an 8.5% increase in fatality rates on interstate highways and freeways.

This increased risk runs counter to the goals of Vision Zero, North Dakota's multi-agency effort to eliminate fatalities and serious injuries caused by motor vehicle crashes. The 98 fatalities from motor vehicle crashes in North Dakota recorded in 2022 was the lowest annual total in 20 years, yet much work remains to improve seat belt usage in our state. In 2022, approximately 2 out of 3 fatalities were unbelted where seat belts were present in the vehicle.

Compared with secondary enforcement laws, primary seat belt laws have been associated with a 10% to 12% higher observed seat belt use rate, according to 2019 data from the National Highway Traffic Safety Administration.

A primary seat belt law is a reasonable and responsible means of mitigating the increased risk of a higher speed limit. In the absence of a primary seat belt law, I am unable to support the heightened risk of an increased speed limit on interstates.

For the reasons stated above, House Bill 1475 is vetoed.

Sincerely,

Doug Bugum  
Governor

### HOUSE BILL NO. 1532

(Representatives Cory, Kasper, Kempenich, Lefor, Nathe, Porter, Strinden)  
(Senators Beard, Burckhard, Hogue, Meyer, Wobbema)

AN ACT to create and enact chapter 15.1-39 of the North Dakota Century Code, relating to the establishment of an educational reimbursement program; to provide for a legislative management study; to provide for a legislative management report; to provide an appropriation; and to provide an effective date.

VETO

April 21, 2023

The Honorable Dennis Johnson  
Speaker of the House  
North Dakota House of Representatives  
State Capitol  
Bismarck, ND

Re: House Bill 1532

Dear Speaker Johnson:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1532 and return it to the House.

House Bill 1532 appropriates \$10 million in state-collected tax dollars for the purpose of offsetting tuition costs for students attending nonpublic K-12 schools. These dollars would be paid directly to private schools.

Our administration supports school choice and believes that competition can improve outcomes in the K-12 education system, just as competition forces businesses to continually improve their goods and services in order to survive and thrive in a changing economy.

As North Dakota explores a path toward improved outcomes in our K-12 education system, we commend the sponsors and supporters of HB 1532 for championing change and school choice. North Dakota needs school choice for all parents, regardless of income or geography.

However, in its final amended form, this bill is not the comprehensive solution we need. It falls short of meaningfully enhancing school choice – especially in rural areas far from any existing nonpublic schools – and lacks incentives to expand nontraditional options in K-12 education. The bill also lacks public transparency and

accountability standards for the actual use of the proposed tuition offset payments.

Also, this bill as written would not go into effect until July 1, 2024, just six months before the next legislative assembly convenes in regular session. By utilizing the upcoming interim to explore best practices through school choice, competition and innovation in education, we can create a more comprehensive policy that empowers parent choice, improves outcomes for students and provides a greater return on investment of taxpayer dollars. Other states such as Arizona and Iowa have made great strides in passing transformational legislation aimed at producing better outcomes in education. Senate Bill 2284, still pending in the Legislature, would require such a study.

Finally, our objection to this bill is not related to its cost. The state spends 100 times more per year on public schools than is proposed in this bill for tuition offsets for students who attend nonpublic schools – and our K-12 public school system will receive record levels of state funding in the 2023-2025 biennium.

Simply put, HB 1532 does not go far enough to promote competition and expand choice in K-12 education. If not done correctly now, this bill could impede our ability to expand school choice in a meaningful way in the years ahead.

For the reasons stated above, House Bill 1532 is vetoed.

Sincerely,

Doug Burgum  
Governor

## **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

4. "Public school" means a public school in this state which serves students in any grade from kindergarten through grade twelve.
5. "Qualified education expenses" means the cost of tuition for a program participant to enroll in or attend a qualified school.

    - (2) Request program funds for the eligible child's qualified education expenses.
3. For each eligible school program form received, the superintendent of public instruction shall pay to the qualified school in which the eligible program participant is enrolled a sum equivalent to the qualified education expenses, but not more than thirty percent of the per-student payment rate under subsection 3 of section 15.1-27-04.1.
4. A qualified school that receives funds under this chapter shall use the funds to offset the cost of qualified education expenses the program participant or parent otherwise would be obligated to pay. A qualified school may not use funds received under this chapter for any other purpose.
5. If a program participant is enrolled in a qualified school for less than an entire school year, the qualified school must return to the superintendent of public instruction the funding provided under this chapter for that school year, reduced on a prorated basis, to reflect the shorter enrollment period. The superintendent of public instruction shall deposit with the public school district in which the program participant resides any funds returned under this section.

The superintendent of public instruction shall suspend a qualified school from the program for failure to comply with applicable law or the program's requirements. The superintendent of public instruction shall notify the school in writing that the school's participation in the program is suspended. The notification must specify the grounds for the suspension and state the school has ten business days to respond and take any corrective action ordered by the superintendent of public instruction. Following the expiration of the ten-day period, the superintendent of public instruction shall:

1. Declare the school ineligible for the program;
2. Order temporary reinstatement of the school's participation in the program, conditioned on the performance of specified action by the school; or
3. Order full reinstatement of the school's participation in the program.

#### **15.1-39-06. Fraudulent use of funds - Referral to attorney general.**

If the superintendent of public instruction obtains evidence of fraudulent use of program funds, the superintendent shall refer the matter to the attorney general for investigation and prosecution.

#### **15.1-39-07. Limitation on regulation of qualified schools.**

1. The program does not expand the regulatory authority of the superintendent of public instruction, a school district, or any other government agency to impose additional regulations on a qualified school under the program beyond what is necessary by the superintendent of public instruction to enforce the program's financial and administrative requirements. The superintendent of public instruction or a school district may not regulate a qualified school's educational program under the program.
2. A qualified school may not be required to alter the school's creed, practices, admissions policy, or curriculum to receive reimbursement for qualified education expenses.

  - c. An evaluation of the impact funding nonpublic schools would have on equity related to rural schools and students affected by federal education regulations;
  - d. A review of the number of students denied admission or attendance by nonpublic schools;
  - e. An evaluation of the impact funding nonpublic schools would have on constitutionally obligated budgets;
  - f. A review of the impacts and benefits of enrolling qualified nonpublic teachers and administrators into the teachers' fund for retirement, including an actuarial study and fund impact; and
  - g. Methods of providing school choice options for any family, including families in rural communities, by identifying underlying challenges and options for collaboration across school types and collecting data to identify trends in school choice by geography.
2. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-ninth legislative assembly.

**SECTION 3. APPROPRIATION - DEPARTMENT OF PUBLIC INSTRUCTION - EDUCATIONAL REIMBURSEMENT PROGRAM.** There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$10,000,000, or so much of the sum as may be necessary, to the department of public instruction for the purpose of establishing an educational reimbursement program, for the biennium beginning July 1, 2023, and ending June 30, 2025.

### SENATE BILL NO. 2231

(Senators Luick, Meyer)  
(Representatives Cory, Karls)

AN ACT to create and enact sections 14-02.4-03.1 and 15.1-06-21 of the North Dakota Century Code, relating to preferred pronoun discriminatory practices and school policies on expressed gender.

VETO

March 30, 2023

The Honorable Tammy Miller  
President of the Senate  
North Dakota Senate Chambers  
State Capitol  
Bismarck, ND

Re: Senate Bill 2231

Dear President Miller:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2231 and return it to the Senate.

Section 1 of Senate Bill 2231 codifies First Amendment protections against compelled speech, setting state policy addressing pronoun use by state employees. However, vetoing Section 1 changes nothing, because under existing free speech protections, a state employee already cannot be required to use preferred pronouns but may still voluntarily do so. I would have no objections to signing this bill if it contained only Section 1.

Section 2 infringes on local control by unnecessarily injecting the state into rare instances most appropriately handled at the parent, teacher and school district level. This section removes discretion from school boards, schools and teachers in determining how to accommodate the needs of all students in public schools. Further, the First Amendment already prohibits compelled speech and protects teachers from speaking contrary to their beliefs, and courts across the country have upheld these rights.

Ambiguity throughout this bill would invite lawsuits and put teachers in the precarious position of trying to determine how to refer to students without violating law. The teaching profession is challenging enough without the heavy hand of state government forcing teachers to take on the role of pronoun police. Parents, teachers

and administrators using compassion, empathy and common sense can address individual and infrequent situations that may arise.

At the end of the day, children are the future of our state, and we have a duty to protect all of them. North Dakota will continue to stand for free speech, local control and freedom from discrimination.

For the reasons stated above, Senate Bill 2231 is vetoed.

Sincerely,

Doug Burgum  
Governor

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1.** Section 14-02.4-03.1 of the North Dakota Century Code is created and enacted as follows:

**14-02.4-03.1. Preferred pronoun - Government entity.**

1. Unless required by law, a government entity may not require an employee to:
  - a. Use an individual's preferred pronoun when addressing or mentioning the individual in work-related communications.
  - b. Designate the employee's preferred pronoun in work-related communications.
2. An individual may assert a violation of this section as a claim or defense in a judicial proceeding and obtain appropriate relief, including costs and reasonable attorney's fees.

**SECTION 2.** Section 15.1-06-21 of the North Dakota Century Code is created and enacted as follows:

**15.1-06-21. School policy - Expressed gender.**

1. As used in this section:
  - a. "Expressed gender" means a gender identity, whether expressed through behavior, clothing, mannerisms, preferred pronoun, or physical characteristics, which does not conform to the student's sex; and
  - b. "Sex" means the biological state of being male or female, based on sex organs, chromosomes, and endogenous hormone profiles existing at the time of birth.
2. Unless otherwise required by law, a board of a school district, a public school, or a teacher in a public school may not:
  - a. Adopt a policy or practice regarding expressed gender:

- b. Provide or authorize classroom instruction recognizing expressed gender; or
  - c. Provide or require professional development recognizing expressed gender.
3. When required by federal law, a board of a school district, a public school, or a teacher in a public school may adopt a policy concerning a specific student's expressed gender or preferred pronoun if the policy is made in consultation with, and with the approval of, the student's parents or guardians. Notwithstanding this subsection, unless otherwise required by federal law, a teacher in a public school is not required to use a student's preferred pronoun when referring to the student if the preferred pronoun is inconsistent with the student's sex.
4. This section does not prohibit a public school teacher from using a student's preferred pronoun that is inconsistent with the student's sex if the teacher has consulted with, and received approval from, the student's parent or guardian and the school administrator.

(Senators Boehm, Beard, Hogue, Paulson, Wobbema)  
(Representative Kasper)

AN ACT to create and enact a new subsection to section 12.1-27.1-01 and a new section to chapter 12.1-27.1 of the North Dakota Century Code, relating to the definition of a public library and required safety policies and technology protection measures; to amend and reenact subsection 5 of section 12.1-27.1-01, sections 12.1-27.1-03.1, and 12.1-27.1-11 of the North Dakota Century Code, relating to obscenity control; to provide a penalty; and to provide for application.

### VETO

April 26, 2023

The Honorable Tammy Miller  
President of the Senate  
North Dakota Senate Chambers  
State Capitol  
Bismarck, ND

Re: Senate Bill 2360

Dear President Miller:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2360 and return it to the Senate.

Protecting children from explicit sexual material is common sense, and I have signed House Bill 1205, which prohibits books containing explicit sexual material from being kept in the children's collection at public libraries. House Bill 1205 also standardizes the process for local public libraries to review material when requested by parents, library users or other members of the public – a process already in place and working at nearly all public libraries across the state.

Senate Bill 2360, on the other hand, creates an enormous burden for our 84 local public libraries and hundreds of K-12 school libraries by imposing, through the threat of criminal prosecution, a de facto requirement that libraries conduct an expensive review of library materials that have already been through a screening process to protect young people from objectionable material.

While some will argue that such a review isn't necessary because the bill states that a librarian must "willfully" display explicit sexual material in order to be in violation of the law, librarians cannot reasonably be expected to take their chances with what's

currently displayed on the shelves and assume the risk of criminal prosecution based on that subjective standard.

For their own legal protection, librarians will understandably want to review every word and image of every book, magazine, video and other piece of material to ensure it conforms to the law's standards. Senate Bill 2360 goes too far in criminalizing potential disagreements over what constitutes material that is harmful to minors, based on the bill's subjectivity.

Senate Bill 2360 also fails to provide an appropriation to cover the considerable expense of this review process, making this an unfunded mandate that local and school libraries are ill-equipped to afford and manage.

A fiscal note prepared by the North Dakota State Library stated that the bill would require the implementation of a statewide authentication system for access to databases, at a cost of \$300,000 initially and \$150,000 per year in annual, ongoing subscription costs. While the State Library was ultimately exempted from the bill's requirements, its fiscal note outlined numerous, substantial costs for local libraries to comply with the bill, including additional staff, extra cataloging and new software systems. Exempting the State Library and excluding private school K-12 libraries from having to comply with this bill creates further inequities.

America is built on a foundation of freedom of speech, the free exchange of ideas and the freedom from government interference to read – or not to read – books that share ideas and stories across the spectrum of human nature and experience.

The best way we protect our youth is through involved and caring parents making decisions in the best interests of their children, whether at home, online or in a public or school library – not with unfunded, one-size-fits-all government mandates.

For the reasons stated above, Senate Bill 2360 is vetoed.

Sincerely,

Doug Burgum  
Governor

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1. AMENDMENT.** Subsection 5 of section 12.1-27.1-01 of the North Dakota Century Code is amended and reenacted as follows:

5. As used in this chapter, the terms "obscene material" and "obscene performance" mean material or a performance which:

  - b. Depicts or describes in a patently offensive manner sexual conduct, whether normal or perverted; and

- c. Taken as a whole, the reasonable person would find lacking in serious literary, artistic, political, or scientific value.

Whether material or a performance is obscene must be judged with reference to ordinary reasonable adults, unless it appears from the character of the material or the circumstances of its dissemination that the material or performance is designed for minors or other specially susceptible audience, in which case the material or performance must be judged with reference to that type of audience.

**SECTION 2.** A new subsection to section 12.1-27.1-01 of the North Dakota Century Code is created and enacted as follows:

2. As used in this section:
  - a. "Explicit sexual material" means any material which:
    - (1) Taken as a whole, appeals to the prurient interest of minors;
    - (2) Is patently offensive under prevailing standards in the adult community in North Dakota as a whole with respect to what is suitable material for minors; and
    - (3) Taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.
  - b. "Nude or partially denuded human figures" means less than completely and opaquely covered human genitals, pubic regions, female breasts or a female breast, if the breast or breasts are exposed below a point immediately above the top of the areola, or human buttocks; and includes human male genitals in a discernibly turgid state even if completely and opaquely covered.
  - b-c. "Where minors are or may be invited as a part of the general public" includes any public roadway or, public walkway, public library, or public school library.

**SECTION 4. AMENDMENT.** Section 12.1-27.1-11 of the North Dakota Century Code is amended and reenacted as follows:

**12.1-27.1-11. Exceptions to criminal liability.**

Sections 12.1-27.1-01 and 12.1-27.1-03 shall not apply to the possession or distribution of material in the course of law enforcement, judicial, or legislative activities; or to the possession of material by a ~~bona fide school, college, university, museum, or public library~~ for limited access for educational research purposes carried on at such an institution by adults only. Sections 12.1-27.1-01 and 12.1-27.1-03 shall also not apply to a person who is returning material, found to be obscene, to the distributor or publisher initially delivering it to the person returning it.

**SECTION 5.** A new section to chapter 12.1-27.1 of the North Dakota Century Code is created and enacted as follows:

**Safety policies and technology protection measures required - Report - Penalty.**

1. A school district, state agency, or public library may offer digital or online library database resources to students in kindergarten through twelfth grade if the person providing the resources verifies all the resources comply with subsection 2.
2. Digital or online library database resources offered by a school district, state agency, or public library to students in kindergarten through twelfth grade must have safety policies and technology protection measures that:
  - a. Prohibit and prevent a user of the resource from sending, receiving, viewing, or downloading materials constituting an obscene performance or explicit sexual material; and
  - b. Filter or block access to explicit sexual material.
3. Notwithstanding any contract provision, if a provider of digital or online library resources fails to comply with subsection 2, the school district, state agency, or public library shall withhold any further payments to the provider pending verification of compliance.
4. If a provider of digital or online library database resources fails to timely verify the provider is in compliance with the safety policies and requirements of subsection 2, the school district, state agency, or public library shall consider the provider's act of noncompliance a breach of contract.
5. A public school library and a public library shall submit an aggregate written report to the legislative management no later than December first of each year regarding any issues related to provider compliance with technology protection measures required by subsection 2.
6. An employee of a school district, state agency, or public library who willfully exposes explicit sexual material to a minor in violation of this section is guilty of a class B misdemeanor.

7. As used in this section, the term "public library" or "state agency" does not include the state library.

**SECTION 6. APPLICATION.** Sections 1, 3, and 4 of this Act do not apply to the state library.

## VETO

May 9, 2023

The Honorable Tammy Miller  
President of the Senate  
North Dakota Senate Chambers  
State Capitol  
Bismarck, ND

Re: Senate Bill 2015

Dear President Miller:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2015, the Office of Management and Budget appropriations bill, and filed it with the Secretary of State. I also have vetoed items in Sections 30, 32 and 53 of SB 2015.

### Section 30.

Section 30 changes the definition of Legacy Fund "earnings," which was established earlier this session by the Legislature in SB 2330 as an amount equal to 7% of the five-year average of the June 30th value of the Legacy Fund assets as reported by the State Investment Board, calculated every other year on even-numbered years.

The Legacy Fund, our state's permanent endowment fund, is growing rapidly, with a balance of \$8.8 billion at the end of February 2023. The Legacy Fund directly receives 30% of North Dakota oil and gas tax revenue, with the other 70% being invested each biennium on water and road infrastructure, education, human services, local political subdivisions and other priorities that touch the lives of every North Dakotan.

On the last day of session, Section 30 of SB 2015 was added to increase the percentage used in the earnings calculation from 7% to 8%. With this higher percentage, the Legislature would be withdrawing an estimated \$70.5 million in additional Legacy Fund earnings every two years, only to have these withdrawals sit in low interest-bearing general fund accounts.

Vetoing the change in Section 30 and maintaining the percentage at 7% will retain

that \$70.5 million in earnings in the Legacy Fund, helping the fund to grow at a faster pace while protecting the Legacy Fund's principal and utilizing better cash management to generate higher earnings - all while not affecting any specific appropriations in the 2023-25 budget.

One estimate projects that the 8% rate would have resulted in roughly \$600 million to \$650 million less in the Legacy Fund's balance after 10 years. By keeping the withdrawal percentage at 7% every other year, a projected \$486 million in Legacy Fund earnings still remains in the 2023-25 final budget. Retaining more earnings in the Legacy Fund helps ensure a strong and stable future for North Dakota.

### Section 32.

Section 32 adds an unnecessary restriction on the authority of the Capital Grounds Planning Commission to use designated funds where they have the most impact. This nine-member Commission includes the lieutenant governor, director of the State Historical Society, two citizen appointees, one licensed architect and four legislators, two from each chamber.

The duties of the Commission include the general administration of the Capitol Building Fund and the proper planning to maintain standards of the design and architecture for state facilities. In addition, Century Code already prescribes that major interior changes including new construction, remodeling, or renovation of any kind that are proposed or considered for the buildings or facilities on the Capitol grounds must be reviewed by the Commission.

Section 32 contradicts those duties by limiting the scope of work for the Commission by requiring that expenditures for projects and planning must be related to remodeling expenses only. The current process for the Commission has been effective in maintaining the symbol and headquarters of state government, and this change only adds red tape and guts the authority of a thoughtfully designed, existing governance board with a track record of making prudent, prioritized and fiscally responsible decisions.

This proposed restriction on the authority of the Commission will impair its ability to cover the comprehensive and complex needs of maintaining an accessible, safe and inspiring Capitol grounds with 132 acres and a collection of historically significant buildings totaling over 1.1 million square feet.

### Section 53.

Section 53 of SB 2015 applies a retroactive date for House Bill 1438, which I signed earlier this session granting a property tax exemption for buildings and land belonging to certain nonprofit public charities, including hospitals and nursing homes, effective Dec. 31, 2022.

Section 53 retroactively applies the tax exemption to become effective Dec. 31, 2021, which creates numerous implementation problems.

The tax revenue for the 2021 calendar year has already been collected and allocated by the proper political subdivisions, including local school districts, cities, counties, park districts and many other taxing districts, and there is no mechanism for these local governments to recover those funds. Thus, the only way to retroactively fulfill the

tax exemption is for each local government to grant a 2021 rebate to the nonprofit directly from other tax dollars collected in 2022. However, some political subdivisions may not have the liquidity or systems to facilitate this transfer between taxpayers and certain nonprofits, making the claw-back provision of Section 53 especially onerous on those local governments, school districts and their constituents.

The hallmark of a strong and fair economy is a stable tax and regulatory environment. Passing retroactive tax laws sets a dangerous precedent. Local political subdivisions have been following existing tax laws, and it's unfair to them to change the tax rules to enable a claw-back after the taxable period has been closed for nearly 1 ½ years.

For the reasons stated above, Sections 30, 32 and 53 of SB 2015 are vetoed.

Sincerely,

Doug Burgum  
Governor

# MEASURES APPROVED OVER GOVERNOR'S VETO

## CHAPTER 592

### HOUSE BILL NO. 1416

AN ACT to create and enact section 26.1-36-12.7 of the North Dakota Century Code, relating to freedom of choice for health care services; and to provide for application.

VETO

April 13, 2023

The Honorable Dennis Johnson  
Speaker of the House  
North Dakota House of Representatives  
State Capitol  
Bismarck, ND

Re: House Bill 1416

Dear Speaker Johnson:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1416 and return it to the House.

Currently, North Dakota has only one health care system that offers both health care services (a provider) and health insurance plans (a payer) and therefore meets the bill's definition of "integrated delivery network."

House Bill 1416 targets only one health insurance plan offered in North Dakota and directly risks increasing health insurance costs for over 13,000 North Dakotans. These citizens made the personal choice to enroll in a health care plan with a narrow (versus broad) provider network to achieve paying substantially lower health insurance premiums. It should be noted that this plan's "narrow" network of approximately 3,500 North Dakota providers includes 1,600 providers who are not employees of the integrated delivery network offering the plan.

Multiple health insurers serving North Dakota also offer reduced-price premium health insurance plans tied to narrow provider networks. However, because those payers would not be subject to the restrictions in House Bill 1416, this bill, if signed, would likely invite legal challenges based on North Dakota's constitutional prohibition on "special legislation" which targets one specific business or entity.

According to public testimony provided by the state's lone integrated delivery network, employers participating in its narrow plan are required to offer employees the broad provider network alongside the narrow provider network. At the end of the day, this is the consumer's decision, and each choice must be weighed according to personal preferences, circumstances and budgets.

Vertical integration in the U.S. health care industry, for better or worse, has accelerated since the implementation of the Affordable Care Act in 2010. Hundreds of integrated delivery networks now exist across the United States. While currently we have only one integrated delivery network in North Dakota, we could see additional health care service providers align with insurance companies to offer reduced-cost, narrow network health insurance plans. Such competition from new entrants in North Dakota would be constrained by the narrow limitation of House Bill 1416.

The extensive testimony and lobbying on both sides of this bill is part of a larger, ongoing, important debate about how to achieve health care affordability, accessibility and quality for all our citizens, including in our rural and tribal areas. This larger debate in our Capitol and across our country reflects genuine concerns about the market power and the potential conflicts of interest of vertical integration between payers and providers.

However, this bill does not resolve or solve those concerns. Currently, independent providers are included in many broad network insurance offerings from North Dakota insurers. Again, all this half-page bill would accomplish is to eliminate one reduced-cost plan currently purchased and in use by 13,000 citizens, which is less than 2 percent of all North Dakotans on health insurance plans in North Dakota.

We commend the Legislature for attempting to address concerns about the market power of vertical integration in health care. We encourage the Legislature to create a joint legislative/executive branch task force including our independently elected Insurance Commissioner to build upon prior efforts and continue a comprehensive review of affordability, accessibility and quality of North Dakota's health systems during the interim. The Legislature should insist that payers and providers come to the table with transparency and direct the task force to bring forward recommendations to the 69th Legislative Assembly to reduce costs, enhance patient outcomes and improve health for all North Dakotans.

For the reasons stated above, House Bill 1416 is vetoed.

Sincerely,

Doug Burgum  
Governor

## CHAPTER 593

### HOUSE BILL NO. 1463

AN ACT to amend and reenact section 44-04-21 of the North Dakota Century Code, relating to legislative voting requirements.

VETO

April 7, 2023

The Honorable Dennis Johnson  
Speaker of the House  
North Dakota House of Representatives  
State Capitol  
Bismarck, ND

Re: House Bill 1463

Dear Speaker Johnson:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1463 and return it to the House.

Governing bodies across North Dakota, including the Legislature, are bound by N.D.C.C. 44-04-21, which states "all votes of whatever kind taken at any public meeting ... must be open, public votes, and all nonprocedural votes must be recorded roll call votes, with the votes of each member being made public at the open meeting."

Floor testimony on House Bill 1463 stated the Legislature currently is in violation of this law because not all amendments receive a recorded roll call vote. However, rather than simply comply with the law, the Legislature has opted to change the law to suit its current practice.

House Bill 1463 would exclude the Legislature from the legal requirement to hold recorded roll call votes on all nonprocedural votes relating to the consideration of an amendment by a legislative committee or the full legislative assembly during a legislative session. Existing North Dakota law (N.D.C.C. 44-04-21) states that "nonprocedural" should be broadly interpreted and includes all votes that pertain to the merits of the matter before the governing body."

House Bill 1463 would allow the Legislature to adopt far-reaching amendments affecting the central policy or fiscal impact of a bill without affording the public the accountability of a recorded roll call vote. If enacted, this bill would deny the public the transparency essential to good governance.

For building public trust and confidence in our system of government, the Legislature should embrace and comply with existing North Dakota open meetings law.

For the reasons stated above, House Bill 1463 is vetoed.

Sincerely,

Doug Burgum  
Governor

# INITIATED MEASURES APPROVED

## CHAPTER 594

This initiated measure would add a new article to the North Dakota Constitution. It would stipulate that an individual could not serve as a legislator for a cumulative period in excess of eight years in either the House of Representatives or the Senate, separately. It would prohibit an individual from being elected as Governor more than twice. Service as a member of the legislature or election to the office of governor prior to the effective date of this measure would not count against any service or election, respectively, of any individual that occurs after the effective date of this measure. An individual would not be allowed to serve a full or remaining term as a member of the legislature if serving the term would cause the individual to serve for a cumulative period of more than eight years in that particular house. Any amendment to this article could not be proposed by the legislature, but only by citizen initiative. The article would become effective on January 1 immediately following approval of the voters. In case of conflict with any other provision of the constitution, the measure states that the provisions of this article would prevail.

### BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** A new article of the Constitution of the State of North Dakota is created and enacted as follows:

**Section 1. Term limits for legislators.** An individual shall not serve as a member of the house of representatives for a cumulative period of time amounting to more than eight (8) years. An individual shall not serve as a member of the senate for a cumulative period of time amounting to more than eight (8) years. An individual shall not be eligible to serve a full or remaining term as member of the house of representatives or the senate if serving the full or remaining term would cause the individual to serve for a cumulative period of time amounting to more than eight (8) years in that respective house.

**Section 2. Term limit for Governor.** An individual shall not be elected to the office of governor more than twice. This provision shall not prevent the

lieutenant governor from succeeding to the office of governor, nor prevent the secretary of state from acting as governor.

**Section 3. Application of term limits.** The limitations established by this article shall have prospective effect only, and service as a member of the house of representatives, service as a member of the senate, and prior election to the office of governor shall not be counted against any service or election, respectively, of any individual that occurs after the effective date of this amendment. Service by the lieutenant governor in his capacity as president of the senate shall not count toward the cumulative amount of time an individual may serve as a member of the senate.

**Section 4. The people's term limits amendment.** Notwithstanding the legislative assembly's authority to propose amendments to this constitution under article IV,

section 16 thereof, the legislative assembly shall not have authority to propose an amendment to this constitution to alter or repeal the term limitations established in section 1 of this article. The authority to propose an amendment to this constitution to alter or repeal the term limitations established in section 1 of this article is reserved to initiative petition of the people under article III of this constitution.

**Section 5. Effective date.** This amendment shall be effective on the first day of January immediately following approval by voters.

**Section 6. Severability.** The provisions of this article are severable, and if any provision is held to be invalid, either on its face or as applied, the remaining provisions and their application shall not be affected thereby. In any case of a conflict between any provision of this article and any other provision of this constitution, the provisions of this article shall control.

### HOUSE CONCURRENT RESOLUTION NO. 3010

(Representatives S. Olson, K. Anderson, Henderson, Meier, Novak, Rohr, Steiner, VanWinkle)

A concurrent resolution urging public schools and public entities, including agencies or departments that collect vital statistics, to protect women's rights by distinguishing between the sexes according to biological sex at birth for the purpose of providing equal opportunities and ensuring the privacy and safety of women and girls.

**WHEREAS**, a male and a female possess unique and immutable biological differences that manifest prior to birth and increase as the individual ages and experiences puberty; and

**WHEREAS**, biological differences between the sexes mean that only a female is able to become pregnant, give birth, and breastfeed children; and

**WHEREAS**, biological differences between the sexes mean that a male is, on average, bigger, stronger, and faster than a female; and

**WHEREAS**, biological differences between the sexes leave a female more physically vulnerable than a male to specific forms of violence, including sexual violence; and

**WHEREAS**, females have suffered historically from discrimination in education, athletics, and employment; and

**WHEREAS**, when it comes to sex, "equal" does not mean "same" or "identical" and separate is not inherently unequal; and

**WHEREAS**, biological differences between the sexes are enduring and may warrant the creation of separate social, educational, athletic, or other spaces to ensure safety or allow members of each sex to succeed and thrive; and

**WHEREAS**, inconsistencies in court rulings and policy initiatives with respect to the definitions of "sex", "male", "female", "man", and "woman" have led to endangerment of single-sex spaces and resources, thereby necessitating clarification of certain terms; and

**WHEREAS**, there are legitimate reasons to distinguish between the sexes with respect to athletics, prisons and other detention facilities, domestic violence shelters, rape and abuse crisis centers, locker rooms, restrooms, and other areas where safety and privacy are implicated; and

**WHEREAS**, policies and laws that distinguish between the sexes are subject to intermediate constitutional scrutiny, which forbids unfair discrimination against similarly situated males and females but allows the law to distinguish between the sexes if distinctions are substantially related to important governmental objectives;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF**

**REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-eighth Legislative Assembly urges public schools and public entities, including agencies or departments that collect vital statistics, to protect women's rights by distinguishing between the sexes according to biological sex at birth for the purpose of providing equal opportunities and ensuring the privacy and safety of women and girls; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward a copy of this resolution to the Superintendent of Public Instruction, the superintendent of each school district in the state, and the Commissioner of the Department of Health and Human Services.

### HOUSE CONCURRENT RESOLUTION NO. 3011

(Representative Weisz)  
(Senator Lee)

A concurrent resolution urging the Insurance Commissioner to facilitate a change in the essential health benchmark plan for future Affordable Care Act health plans.

**WHEREAS**, the state has the opportunity to make changes in the essential health benchmark plan for future plan years in accordance with federal requirements and through coordination with federal contacts; and

**WHEREAS**, the Insurance Commissioner should add to the essential health benchmark plan restricted cost-sharing for diabetes, providing a limited cost-sharing for a 30-day supply of covered insulin drugs, not to exceed \$25, regardless of the quantity or type of insulin, and of covered medical supplies for insulin dosing and administration, not to exceed \$25, regardless of the quantity or manufacturer of supplies; and

**WHEREAS**, the Insurance Commissioner should add to the essential health benchmark plan coverage for one hearing aid per hearing-impaired ear every 36 months or more often if there is a significant change in the insured's hearing status as determined by the licensed physician or audiologist; and

**WHEREAS**, the Insurance Commissioner should add to the essential health benchmark plan coverage for dietary or nutritional screening, counseling, and therapy for obesity, diabetes-related diagnosis, or a chronic illness or condition that could be managed through nutritional or weight loss programs, up to 12 sessions every policy year, if prescribed by the insured's physician; and

**WHEREAS**, the Insurance Commissioner should add to the essential health benchmark plan coverage for diagnosis and treatment of periodontal disease in acute or chronic disease state if recommended by a board-certified medical practitioner based on health-related impacts or on further deterioration in disease state due to gum disease; and

**WHEREAS**, the Insurance Commissioner should add to the essential health benchmark plan coverage for position emission tomography scans for an insured who has a prostate cancer diagnosis, including an insured who is in remission or who is cured, which would include at least two different types of position emission tomography scans upon initial diagnosis if requested by a physician, and one position emission tomography scan every 6 months for the life of the insured; and

**WHEREAS**, the Insurance Commissioner should add to the essential health benchmark plan steps to address the opioid epidemic, including limiting the first fill of opioid prescriptions to 7 days, removing barriers for drugs used in the treatment of opioid use disorder or opioid replacement drugs; and requiring coverage for an easy-to-use overdose antidote when prescribing high-dose opioids;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF**

**REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-eighth Legislative Assembly urges the Insurance Commissioner to facilitate a change in the essential health benchmark plan for future Affordable Care Act health plans; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward a copy of this resolution to the Insurance Commissioner.

### HOUSE CONCURRENT RESOLUTION NO. 3013

(Representatives Novak, D. Anderson, Bosch, Heinert, Mock, J. Olson, Porter,  
Thomas)  
(Senator Patten)

A concurrent resolution recognizing December 6<sup>th</sup> as "Miner's Day" and urging the federal government to refrain from enacting regulations that threaten the reliability and affordability of electric power in North Dakota and to increase support for research, development, and deployment for next generation carbon-based energy generation.

**WHEREAS**, North Dakota has at least an 800-year supply of economically recoverable lignite coal at current production rates and is the second largest oil producer in the United States; and

**WHEREAS**, because of energy-intensive industries, weather extremes, and transportation requirements, North Dakota is ranked third in the nation in energy expenditures per capita based on 2020 data used in the latest rankings from the United States Energy Information Administration; and

**WHEREAS**, the North Dakota lignite coal industry generated over 63 percent of the electricity in the state in 2020 according to the United States Energy Information Administration and provides affordable electricity to more than 2 million families throughout the upper Midwest; and

**WHEREAS**, the lignite coal industry contributes more than \$5.4 billion in total business activity to North Dakota; and

**WHEREAS**, the lignite coal industry employs 13,000 individuals with some of the highest wages in the state; and

**WHEREAS**, economic analysis performed by North Dakota State University agribusiness and applied economics researchers estimates a new 500 megawatt, coal-based electric generating facility would create \$54.3 million in personal income, \$40 million in retail sales, and \$173.7 million in total business activity each year; and

**WHEREAS**, the current value of the state's existing coal-based infrastructure is \$18.6 billion; and

**WHEREAS**, current federal regulations represent a de facto ban on the construction of new, efficient, and cost-effective, coal-based power plants that could provide the needed dispatchable, reliable, clean, and affordable electricity and threaten the continued operation of existing coal-based power plants; and

**WHEREAS**, federal policy gives other electric generation resources a significant competitive advantage; and

**WHEREAS**, uncertainty surrounding federal regulations continues to discourage investment in coal-based facilities; and

**WHEREAS**, North Dakota serves as a model for responsible production of its natural resources, including upholding a longstanding practice of reclaiming mined land to a condition equal to or better than the condition of the land before the land was mined; and

**WHEREAS**, North Dakota continues to be 1 of only 17 states meeting all federal ambient air quality standards and 1 of only 4 states which has never violated federal ambient air quality standards; and

**WHEREAS**, affordable, reliable power is the backbone of North Dakota's established and emerging industries; and

**WHEREAS**, advancements in carbon capture utilization and storage can unlock enormous potential for the state's energy industries and economy;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-eighth Legislative Assembly recognizes December 6<sup>th</sup> as "Miner's Day" and urges the federal government to refrain from enacting regulations that threaten the reliability and affordability of electric power in North Dakota and to increase support for research, development, and deployment for next generation carbon-based energy generation; and

**BE IT FURTHER RESOLVED**, that the federal government is urged to withdraw and revise regulations and other administrative actions that negatively impact the ability to use North Dakota's lignite coal reserves for affordable and reliable domestic power; and

**BE IT FURTHER RESOLVED**, that the federal government is urged to work with the state, the North Dakota Congressional Delegation, and the North Dakota lignite coal industry to design and implement regulatory programs based on sound science with inputs from local sources, recognize the status of existing technology, and develop timelines that make economic sense for the producers and consumers of electricity and byproducts derived from North Dakota lignite; and

**BE IT FURTHER RESOLVED**, that the federal government is urged to increase its partnership with the state of North Dakota and industry to develop technological solutions to enable the continuation of lignite-based electric generation; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, the Administrator of the United States Environmental Protection Agency, the Secretary of the Department of Energy, the Secretary of the Department of the Interior, and each member of the North Dakota Congressional Delegation.

## CHAPTER 609

### HOUSE CONCURRENT RESOLUTION NO. 3014

(Representatives Novak, D. Anderson, Hagert, Heinert)

A concurrent resolution urging the Southwest Power Pool and Midcontinent Independent System Operator to take prompt and decisive actions to maintain the reliability of the Bulk Power System by correcting market failures that have allowed capacity retirements to outpace replacement.

**WHEREAS**, the welfare of the citizens and economic security of this state depend on the affordability, reliability, and resilience of the electric power supply; and

**WHEREAS**, the North American Electric Reliability Corporation's 2022 long-term reliability assessment shows several United States regions with serious generation capacity shortfalls and a failure to meet established reliability criteria, and the Midcontinent Independent System Operator (MISO) and the Southwest Power Pool (SPP), which serve North Dakota, have experienced multiple maximum generation alerts in recent years and load-shedding events to address capacity shortfalls; and

**WHEREAS**, the Legislative Assembly is greatly concerned about the ability of regional grid operators to meet peak demand during extreme weather events because dispatchable thermal generation resources are retiring much faster than generating capacity is being replaced, and this gap will continue to widen as weather-dependent generation saturates the grid; and

**WHEREAS**, the trend of announced dispatchable generation retirements is scheduled to increase in the 15-state MISO to more than 30 gigawatts by 2030, not including retirements caused by new Environmental Protection Agency rules; and

**WHEREAS**, electric power markets are distorted significantly by direct and indirect subsidies that erode the economics of dispatchable thermal electric power plants and increase the likelihood of early retirement of the power plants; and

**WHEREAS**, state and federal renewable energy mandates further drive investment decisions toward weather-dependent generation without considering the full impacts to the system; and

**WHEREAS**, the Biden Administration's 2035 clean energy mandate fails to consider the land use impacts, permitting processes, supply chains, and construction time lines necessary to build new generation and transmission infrastructure needed to meet the goals and reliably operate the Bulk Power System; and

**WHEREAS**, North Dakota supports developing thermal and renewable resources in tandem as well as new technologies, such as hydrogen and carbon capture and storage to maintain an affordable, reliable, and resilient grid that is essential to a strong economy, safe communities, and geopolitical security;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-eighth Legislative Assembly urges the SPP and MISO to take prompt and decisive actions to maintain the reliability of the Bulk Power System by correcting market failures that have allowed capacity retirements to outpace replacement; and

**BE IT FURTHER RESOLVED**, because North Dakota does not have renewable energy mandates that drive policies at the regional transmission organization level but has aggressive carbon neutral goals by 2030 which involve commercializing carbon capture storage technology, the Public Service Commission and North Dakota Transmission Authority are urged to advocate at MISO and SPP for policies that fairly compensate dispatchable energy resources, properly value all generators based on their contributions to grid reliability, and ensure the availability of generation resources at all hours to meet demand; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward a copy of this resolution to the Federal Energy Regulatory Commission, Public Service Commission, North Dakota Transmission Authority, North Dakota Congressional Delegation, Midcontinent Independent System Operator, and Southwest Power Pool.

## CHAPTER 610

### HOUSE CONCURRENT RESOLUTION NO. 3015

(Representatives Mock, Bosch, Ista, Mitskog, Nelson, Novak, Porter, Richter, Roers Jones)  
(Senators Bekkedahl, Kessel, Patten)

A concurrent resolution urging the federal government to recognize natural gas and nuclear energy as environmentally sustainable economic activities.

**WHEREAS**, reliable, clean, and affordable energy is vital to the economic growth and overall interests of the United States; and

**WHEREAS**, natural gas is an essential part of America's energy mix with 50 percent of the homes in the United States using natural gas for home and water heating and 39 percent of all electricity generated in the United States being generated by natural gas; and

**WHEREAS**, natural gas is a renewable fuel generated from multiple sources across all regions of the United States and is the cleanest fossil fuel on earth; and

**WHEREAS**, the abundance of clean-burning natural gas in the United States is a source of tremendous economic benefits for our country, directly supporting thousands of jobs, improving household disposable income, and contributing to state and local revenues, giving the United States a global energy advantage; and

**WHEREAS**, as of July 1, 2022, 92 nuclear reactors were operating at 54 nuclear power plants in 28 states, which supply about 20 percent of total annual electricity and since 1990, the United States has been the world's largest producer of nuclear power, accounting for more than 30 percent of worldwide nuclear generation of electricity; and

**WHEREAS**, the absence of further lifetime extensions and new projects to extend the life of nuclear reactors could result in an additional four billion tons of carbon dioxide emissions; and

**WHEREAS**, plans to close existing facilities would result in approximately 25 percent of existing nuclear capacity being lost; and

**WHEREAS**, nuclear power is the second largest source of low-carbon electricity and the implications of fading nuclear energy are numerous, including electricity security concerns; and

**WHEREAS**, on July 6, 2022, the European Parliament authorized the Complementary Delegated Act, which adds natural gas and nuclear power plants to the European Union Taxonomy and labels investments in natural gas and nuclear power plants as climate-friendly;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-eighth Legislative Assembly urges the federal government to recognize natural gas and nuclear energy as environmentally sustainable economic activities; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States and each member of the North Dakota Congressional Delegation.

**WHEREAS**, the state is experiencing a shortage of attorneys, particularly in rural areas, and solutions are being explored to alleviate the attorney shortage; and

**WHEREAS**, the University of North Dakota School of Law is the only institution in the state that grants the degree of juris doctor; and

**WHEREAS**, the majority of attorneys licensed to practice law in North Dakota are graduates of the University of North Dakota School of Law; and

**WHEREAS**, any requirements for admission to the bar as a licensed attorney in the state of North Dakota must ensure that all licensed attorneys are highly competent to practice law in this state; and

**WHEREAS**, it is in the best interest of North Dakota to evaluate available alternative methods for assessing the competency of applicants for licensure as attorneys in the state and determine whether alternative assessments would provide an incentive for more University of North Dakota School of Law graduates to practice in North Dakota while not compromising the quality of attorneys in the state;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the judicial branch is encouraged to consider forming a task force to study the retention of University of North Dakota law graduates in the state, including an evaluation of alternative pathways to bar admission that ensure attorney competence; and

(Senators Bekkedahl, Dwyer, Hogue, Larson)

A concurrent resolution directing the Legislative Management to consider studying the feasibility and desirability of renovating and constructing an addition to the Liberty Memorial Building or constructing a new building on the grounds of the state Capitol to serve as a new Supreme Court building.

**WHEREAS**, the idea of housing the Supreme Court in a stand-alone building is not a new concept; and

**WHEREAS**, since at least 1924, the plans for the Capitol grounds included a separate "Temple of Justice" that would mirror the architectural design of the Liberty Memorial Building; and

**WHEREAS**, as a result of the Supreme Court's expanding space needs, in 2015, then-Governor Jack Dalrymple proposed appropriating \$40 million to repurpose the Liberty Memorial Building into a Supreme Court building; and

**WHEREAS**, the 2015 proposal did not advance due to the rapid downturn in the economy which occurred at that time; and

**WHEREAS**, locating the Supreme Court in the Liberty Memorial Building would be a homecoming for the Court;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Management consider studying the feasibility and desirability of renovating and constructing an addition to the Liberty Memorial Building or constructing a new building on the grounds of the state Capitol to serve as a new Supreme Court building; and

**BE IT FURTHER RESOLVED**, the study include input from the Supreme Court and the Office of Management and Budget; and

### HOUSE CONCURRENT RESOLUTION NO. 3026

(Representatives Hanson, Klemin)  
(Senator Larson)

A concurrent resolution directing the Legislative Management to consider studying improving re-entry outcomes for incarcerated adults and youth.

**WHEREAS**, North Dakota releases about 1,400 prisoners each year from state prisons and thousands more from county jails; and

**WHEREAS**, North Dakota has a range of public and private programs that assist formerly incarcerated individuals in their transition back to society, including services related to employment, housing, and behavioral health services; and

**WHEREAS**, identifying improvements in re-entry services could reduce North Dakota's recidivism rate of 40.3 percent, which would save taxpayer dollars and improve lives; and

**WHEREAS**, North Dakota has a workforce shortage with more than 30,000 open jobs, so businesses would benefit if the state helped former offenders enter and stay in the workforce;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Management consider studying improving re-entry outcomes for incarcerated adults and youth; and

**BE IT FURTHER RESOLVED**, the study include an assessment of current public and private re-entry services, policies, practices, statutes, data, and resource allocation with the goal of identifying opportunities to implement research-based strategies proven to reduce recidivism, improve education and employment outcomes, and maximize resources for the greatest public safety and return on taxpayer dollars; and

**BE IT FURTHER RESOLVED**, the assessment include examining re-entry services in the areas of correctional supervision, employment, job training, housing, transportation, support services, and behavioral health services; levels of collaboration across service systems; and current disparities in re-entry outcomes; and

**BE IT FURTHER RESOLVED**, that the Legislative Management may develop a working group to oversee the study which includes legislators, representatives from nonprofit organizations that assist with re-entry, community members with re-entry experience, and representatives from the Department of Corrections and Rehabilitation, county jails, the Behavioral Health Division of the Department of Health and Human Services, the Supreme Court, job service or business community, adult and postsecondary education institutions, and tribal nations; and

**BE IT FURTHER RESOLVED**, in conducting the study, the Legislative Management may seek technical assistance, as appropriate, from the Council of State Governments' Justice Center or the Crime and Justice Institute; and

**BE IT FURTHER RESOLVED**, that the Legislative Management report its findings and recommendations, together with any legislation required to implement the recommendations, to the Sixty-ninth Legislative Assembly.

### SENATE CONCURRENT RESOLUTION NO. 4017

(Senators Kessel, Luick, Wanzek, Weber)

(Representative Thomas)

(Approved by the Delayed Bills Committee)

A concurrent resolution urging the Administrator of the United States Environmental Protection Agency to fully reinstate, and strictly abide by the October 17, 2017, memorandum titled *Adhering to the Fundamental Principles of Due Process, Rule of Law, and Cooperative Federalism in Consent Decrees and Settlement Agreements*; to promulgate and enforce only environmental regulations that appropriately take into account public and private fiscal impacts as well as the nation's continuing food security and energy security; and to defer to and work together in good faith with all sovereign states in the spirit of cooperative federalism.

**WHEREAS**, on October 16, 2017, United States Environmental Protection Agency Administrator E. Scott Pruitt issued the ethical memorandum entitled *Adhering to the Fundamental Principles of Due Process, Rule of Law, and Cooperative Federalism in Consent Decrees and Settlement Agreements* that rightly banned the United States Environmental Protection Agency from deigning to regulate through litigation by means of engaging in "sue and settle" litigation practices or participating in "friendly lawsuits"; and

**WHEREAS**, less than five years later, on March 18, 2022, United States Environmental Protection Agency Administrator Michael S. Regan subsequently formally and brazenly revoked the United States Environmental Protection Agency's standing, highly principled memorandum; and

**WHEREAS**, upon the revocation of the memorandum, the United States Environmental Protection Agency consequently has returned to resolving litigation through consent decrees and settlement agreements that readily appear to be the result of collusion with outside groups; and

**WHEREAS**, the United States Environmental Protection Agency's consequent return to regulation through litigation violates due process, the rule of law, and cooperative federalism, and subsequently causes sovereign states and persons substantial economic uncertainty, legal uncertainty, liability uncertainty, and regulatory uncertainty; and

**WHEREAS**, the United States Environmental Protection Agency's consequent overwhelming cascade of new and proposed costly and unnecessary regulations burdening the state's agriculture economy is unprecedented, crushing the ability of the state's producers to produce safe and affordable food, feed, fuel, and fiber reliably and efficiently for the nation; and

**WHEREAS**, the United States Environmental Protection Agency's consequent unbridled approach of issuing and enforcing unbalanced and unwarranted regulations is unduly stifling the state's economy by erecting needless barriers to critical energy

development and production, consequently adversely affecting the nation's energy security; and

**WHEREAS**, the United States Environmental Protection Agency's consequent overbearing regulatory burdens are far too costly and onerous relative to the supposed environmental protection benefits provided; and

**WHEREAS**, the United States Environmental Protection Agency shall consistently base each of its regulatory decisions on a foundation of sound empirical science and good governance, and not condescend to engage in unethical agency practices to align with or placate environmental activist alarmism or other agenda-driven political or ideological pressure; and

**WHEREAS**, individual sovereign states and local communities steadfastly remain best positioned and retain primary responsibility to regulate and provide balanced and effective environmental oversight in achieving and maintaining clean air, clear water, and healthy soils within their respective jurisdictions;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-eighth Legislative Assembly urges the Administrator of the United States Environmental Protection Agency to fully reinstate, and strictly abide by the October 17, 2017, memorandum titled *Adhering to the Fundamental Principles of Due Process, Rule of Law, and Cooperative Federalism in Consent Decrees and Settlement Agreements*; to promulgate and enforce only environmental regulations that appropriately take into account public and private fiscal impacts as well as the nation's continuing food security and energy security; and to defer to and work together in good faith with all sovereign states in the spirit of cooperative federalism; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution via certified mail with return receipt requested to the Administrator of the United States Environmental Protection Agency, the United States Secretary of Agriculture, the United States Secretary of Energy, the United States Secretary of the Interior, the Director of the United States Fish and Wildlife Service, the Commanding General of the United States Army Corps of Engineers, and each member of the North Dakota Congressional Delegation.
