Minot, ND 58701

Dear Senate Education Committee members,

The HB 1532 bill would help not only my family but so many others when making the decision as to where to send their kids to school. This opens so many opportunities that may have not been there before because of financial issues. My family would benefit greatly financially if this bill would pass, so please pass this bill not only for my family but for all others!

Gratefully,
Kristen Klein
