

I Arielle Neumann, private citizen and resident of Grand Forks AFB ND District 42 recommend a DO PASS for HB 1173.

This bill would enact a day, "To celebrate the right-to- life, reaffirm the dignity and value of every human being, and to give thanks for the gift of life, the twenty - second of January of each year is designated and established as Right-To - Life Day." This would be crucial in showcasing respect and dignity for all stages of human life, from conception to birth, and should be enacted as an annual observance.
