

HB 1436
Testimony in favor.

Mr. Chairman and members of the House Finance and Taxation Committee.

I am writing to you to respectfully request a Do Pass recommendation from this committee on House Bill 1436

The Excise tax on the sale of used vehicles has always bothered me. As a farmer, I have owned many vehicles over the years, all of which have been used when I purchased them. The fact that all of those vehicles have had an excise tax payed on them multiple times, and likely will many more, seems inherently unfair.

While this bill is a step in the right direction, I would prefer to see the excise tax on used vehicles completely eliminated. However, for those who struggle to afford a vehicle, even an older used vehicle, I do believe this would give some much needed relief.

Sincerely,

Andrew Bornemann
Kintyre, ND
