

Good Day to all Committee Members,

I am writing this testimony in opposition of HCR 3034, reason being is that We The People have Spoken, and we all want change!! This is Directly against the U.S. Constitution, and the State Constitution!! And just because a few of you don't like something you think you can just write your own rules?? Well I am sorry, but there is a process for that called an initiated measure, you are no different than we are and when you want to change what the people already changed, you have to abide by the same rules we had too.. We are not a dictatorship, and the people are the #1 entity in the state, not a few lobbyists and immoral lawmakers. The people are terming you out because they don't like the way you are running our Government. They want change at a somewhat steady basis, that way there is no Old Guard to contend with! There are quite a few of you that say you are Republican, but your voting record shows differently, that is why we want term limits!!!

Thank you,

Jerol Gohrick

D2 chairman
