

I am very strongly in support of SB 2155. Despite what looks like an abundance of licenses on the Game & Fish website, I've only been lucky enough to draw a pronghorn tag once in many years of trying. My wife and I had a wonderful time and were glad to spend money in Bowman as part of that hunt weekend. While we spent much time hunting, we also greatly enjoyed exploring a part of the state that we otherwise probably would not have visited. Now we now make a point to hike and hunt birds in that corner of the state most years. I very much hope that I would have better odds to be able to experience this state's hunting opportunities in the future. North Dakota has a proud outdoors tradition and allowing as many of its citizens access to our wonderful resources in a sustainable manner honors the spirit of Theodore Roosevelt. Thank you for your time.

Mike Bush
