

Chairman and members of the committee,

I respectfully urge a "Do Pass" on Senate Bill 2317 I am writing in favor of townships the ability to reattain the rights of zoning. Local citizens, landowners, and their local governing bodies should be able to vote and decide on the use of their land. Who better to make the decisions of what happens in their communities other than the people directly affected by the decisions?!

Respectfully,

Lucas Wald
Edgeley, ND
District 28
