

Support SB2335

I am writing today in support of SB2335. It makes so much sense to allow the landowner to recover the costs associated when the offer from a developer is less than what they are awarded, if they have to hire expert witnesses. If a private landowner challenges compensation, the associated fees would be subtracted from their judgement in the settlement. The landowner loses even if they win.

Please consider a DO pass on this bill.

Thank you,

Steve Rupp
