To Whom it May Concern:

I write to request for support of SCR 4006, to urge Congress to establish federal protections for the wild horse herd at Theodore Roosevelt National Park.

These magnificent horses are part of American history, culture and spirit. Protecting them honors the park's namesake as well as his contributions to public land preservation. In a time when everything feels like we are on shifting ground, please support the foundations that help contribute to the beauty of our country.

Currently, unlike other wild horse herds, TRNP's horses are not covered under the Wild Free-Roaming Horses and Burros Act. Without protection, they can be removed at any time, which would be a travesty not only to the horses, but to our American Spirit. These historic herds present a special opportunity to teach future generations the value of preserving what makes our Nation unique as well as the importance of protecting our flora and fauna.

Thank you for your time and support of SCR 4006.
