

Hello,

I am writing on Bill 4038 to extend term limits.

The people of ND voted and set the terms on term limits already 2 years ago.

You should not be trying to change what we the people have already voted on.

I strongly oppose changing what the people of ND have already voted on.

We have spoken.

If you feel someone new that gets elected needs longer to understand the legislative process, then you need to come up with crash course for legislators.

Any time longer serving becomes a lobbyist haven.
