In Witness Whereof, I have hereunto set my hand and

affixed the Great Seal of the State of North Dakota, this 5th day of January, A. D. 1937.

(SEAL) JAMES D. GRONNA,  
Secretary of State.

So the roll was called and there were 110 members present, Representatives Billigmeier, LaBerge and Magill being absent, so a quorum was declared present.

Representative Godwin moved that the Chief Clerk appoint a committee of three to escort Chief Justice Christianson of the State Supreme Court to the rostrum.

Which motion prevailed.

The Chief Clerk appointed Representatives Godwin, Myers and Twichell to escort Chief Justice Christianson to the rostrum.

Chief Justice Christianson, upon being escorted to the rostrum, addressed the members as follows:

"Members of the House of Representatives: The Constitution requires that every member of the lawmaking assembly of North Dakota, that is both the House and the Senate, before entering upon the discharge of his or her duty must take and subscribe an oath of office as provided in Section 211 of the Constitution. I believe there has already been distributed here a printed form of oath of office. It will be necessary for you to write your name in the body of it and also sign it on the bottom line and I will then sign it below and file it with the appropriate authorities so your oath will be on record."

The oath of office was then administered to the 110 members present.

Reverend Benjamin Schlipf of Bismarck offered prayer.

The Chief Clerk announced that the first order of business would be the election of a Speaker to preside over the House during the session, and that nominations were now in order.

Representative Olson of Bowman county, in presenting the name of H. W. McInnes, Representative from Traill county, spoke as follows:

"I have in mind a man, a member of the House, for Speaker, that I have known for a good many years; a man that I am proud to recommend, a man of the farmers, a man that has been State Vice President of the Farmers Union for about five years, a man that is absolutely qualified for the job, and can do a good job of it, is well capable of handling it. I wish to present for your consideration Mr. H. W. McInnes of Traill county."

Representative Wolf, of Emmons county, presented the name of Representative Math Dahl of Emmons county as a candidate for the position of Speaker, speaking as follows:

"I want to place in nomination for Speaker of this House

the name of a man who is known all over the state. He is a capable man, is efficient, fair in all his dealings, and is experienced. If he is elected to the responsible position of Speaker I know every man in this House will receive fair treatment at his hands. He has been a citizen of this state for a good many years, and he has been active in movements for the best interests of the common people of the state for many years. He is well thought of by his constituents, and he has been sent up here from that district to represent those people for four consecutive sessions. I wish to present the name of Mr. Math Dahl from Emmons county."

Representative Burgum of Stutsman county, in presenting the name of Representative J. M. Thompson of Burleigh county, spoke as follows:

"In behalf of the Democratic group in this House I desire to present the name of a man who has been a member of the House for the past six sessions, and is now beginning his seventh session. I refer to J. M. Thompson of the Twenty-seventh District. Mr. Thompson is known to some of the older members of this House, and I am sure that they will be in accord with this statement—that throughout the sessions in which he has participated in the affairs of the House, he has won for himself the esteem of the members of all factions and parties, and I know that those who will become acquainted with him in this session will be likewise impressed with his fairness, generosity, his honesty and ability. In fact, Mr. Thompson has been so consecutively elected to the House from Burleigh county, and so impressed himself upon the citizenship of that county, that now it has become a habit for Burleigh county to send an entire Democratic delegation to the state legislature. We present his name feeling that because of his long experience, his long residence in the state, and his particular experience in this House and association with the membership, past and present, his honesty and ability, he will make an outstanding leader as a presiding officer of the House of Representatives of the State of North Dakota. I place in nomination the name of J. M. Thompson of the Twenty-seventh District."

Representative Niewoehner of McHenry county:

"I rise to second the nomination of Mr. Thompson for Speaker. A veteran of the House, an able parliamentarian, he is eminently fair and he is splendidly qualified to preside over the deliberations of this body. I commend his candidacy to you."

Representative Godwin of Morton county:

"At this time it is indeed a pleasure and a privilege to have an opportunity to rise and second the nomination of Math Dahl as Speaker of this House.

"Mr. Wolf has told you that Math has been elected for four terms in this district, he is not a stranger to any of you here, and is well known throughout the state, not only because of his connection with the legislature and his work,

but because of his connection with the farmer organizations, a man that by virtue of his experience in the House is eminently qualified as a parliamentarian, a farmer, a man who I know will endear himself to the hearts of all factions in this House because of the fairness and square dealing that is apparent in all of Math Dahl's actions.

"I repeat, it is a pleasure and a privilege to second the nomination of Math Dahl for Speaker."

Representative Holthusen of Richland county:

"It gives me great pleasure to second the nomination of Mr. Thompson for Speaker."

Representative Stray of Mountrail county:

"It gives me great pleasure to second the nomination of Math Dahl for Speaker. He is well known and has been well known in this state and in this assembly for many years, so I second the nomination of Math Dahl for Speaker."

Representative Freitag of McLean county:

"McLean county endorses Math Dahl for Speaker of the House of Representatives for the reason that we know from his experience that he has at all times upheld the cause of the farmer, and for that reason McLean county is back of Math Dahl."

Representative Anfinson of Rolette county:

"I wish to second the nomination of Mr. Math Dahl for Speaker of the House."

Representative Sand of Pierce county:

"I rise from Pierce county to second the nomination of Math Dahl. He is well acquainted; he is fearless as a leader; and he is always for progressiveness and stands for the cause of the common people and for the farmer and for all concerned."

Representative Myers of Wells county:

"I also wish to endorse the candidacy of Mr. Math Dahl for Speaker of the House. I believe that in the peculiar situation we are in today—the economic situation, I mean—the drouth—and the situation of most of the common people of the state, especially the farmers, that Mr. Math Dahl is well qualified to understand the problems of the farmers and the common people of the state. I realize that the farmers and the common people need a man that has had experience along their own lines, and believe that Mr. Dahl is well qualified by experience to understand these problems. He has been a willing worker during the time that he has served in the House of Representatives, and I believe he will be absolutely fair in his decisions. I heartily endorse the nomination of Math Dahl."

Representative Byrne of Burleigh county:

"As one of the younger members of the Burleigh county delegation it is a privilege and honor to be able to second the nomination of Mr. Thompson."

Representative Sand of Pierce county moved that the nominations be closed.

Which motion carried.

"It may be we shouldn't indulge in political talks here. We should not. Let us refrain from that. I don't want to speak of the various factions. You are all here with the best of intentions, I know. You have come here to represent the people in the various districts that sent you, and we are here to do the best that we can for the people of the state of North Dakota, and I assure you people, regardless of whether you are Democrats, Nonpartisans, IVA's or

whatever you are, that I will be fair, as fair as I can, and I ask in return your cooperation regardless of your political faction. I will have to have your cooperation. President Thoresen:

Two years ago we took from his farm in Pembina county a man from the rank and file of the farmers of this state, and placed upon his shoulders the responsibility of guiding the affairs of state. We all know these have been unusual and trying times. Problems heretofore unheard of, problems affecting the very existence of thousands of our people became his to solve and care for. He assumed these duties in his

usual calm and conscientious manner. I believe we all feel he has rendered singular service to our State and its people. I hope it shall always be our good fortune to have men of such high standard, such conscientious devotion to public interest, as our leaders of our public life. Today this leader comes before us to give us a resume of his work as our chief executive. To give us the benefit of his views gained through his personal contact in meeting these problems. I present to you our retiring Governor, Walter Welford.

GOVERNOR WELFORD'S MESSAGE TO THE  
LEGISLATURE—JANUARY 6, 1937

Mr. President, Mr. Speaker, State Officials, Members of the Twenty-fifth Legislative Assembly, Ladies and Gentlemen:

In closing my work as Acting Governor of the State of North Dakota, I wish to discuss with you, as briefly as possible, some of the important problems which are now before you for solution, and also to give you some information in regard to progress in state matters during my term of office.

First in importance is the question of relief. The director of the State Welfare Board has handed me his report in which he estimates the needs of the Board, if they are going to properly take care of our people, at \$6,000,000 from the present time to the end of the bi-ennial. This is based on the assumption that the same degree of Federal cooperation will be secured as in the past from the Resettlement and the Works Progress Administration. One million, eight hundred thousand dollars of this should be in the form of emergency appropriations for use up to July 1, 1937; \$400,000 of this should be made available immediately by an emergency appropriation for the use of the Board for their January and February allocations. Funds for this can be diverted from surpluses in other funds which are not needed immediately. I cannot too strongly recommend that this receive your attention at once. I also cannot too strongly urge that you give every consideration to the report of the director, which is based on practical experience and the needs of our people, and the request of the Board is, in my opinion, well within the financial resources of the State.

During the last bi-ennium there was given to the State Welfare Board the sum of \$1,200,000 from the Sales Tax fund for general relief work and the old age assistance. This was supplemented by Federal funds to the amount of \$1,311,107, which in this State will not be available in the future. It will, therefore, be your duty to find some means of increasing this amount. I believe that an additional \$500,000 for relief purposes can be diverted from the Sales Tax fund, if this law is not tampered with by ill advised amendments. I believe that all the beer tax money and some of our special taxes can also be diverted for relief work in this real emergency to take care of our people. The different taxing bodies should be compelled, by adequate legislation, to set aside a large part of the revenue from liquor for this purpose. The general fund being deprived of some revenue

could be strengthened by a special general property levy. In my opinion it would be very ill advised to make any change in the methods of distribution of those funds. The Welfare Board, both state and county, have done splendid work and they are in a position, by reason of the record they have made, to secure the maximum amount of Federal cooperation that the State must have if our people are to be properly cared for. We must not at this time throw away the benefits of the old age assistance, aid to the blind, dependent children assistance, and service to crippled children—all these are needed, and particularly so at the present time.

There will also come before you for consideration the question of securing an adequate amount of feed for livestock. Steps have been taken to temporarily take care of the needs in the drouth stricken counties. Unless Federal assistance can be secured by the first of February, a very critical situation will confront you and I strongly advise that Congress be petitioned to take immediate steps to take care of what will be by that time a very serious situation. It was found necessary, in order to take care of the situation temporarily, to call upon the counties to make heavy contributions, which none of them are in a position to do, and I would recommend that those counties which have been compelled to take those steps to save their livestock, should be reimbursed by the State and I recommend an emergency appropriation for this purpose.

May I also, while on the subject of general relief, direct your serious attention to the needs of the public schools of the State. The State Equalization fund law, supported chiefly by the sales tax, has proven its worth. It has placed upon the State a larger share of the responsibility for the maintenance of public schools and is equalizing to a marked degree school opportunities for all the children of the State. In the sections of the state where financial distress has been most acute, this fund has been responsible for keeping all of our common schools open. The fund has been efficiently and economically administered through the State Department of Public Instruction at a remarkably low overhead cost of less than one-fifth of one per cent. During this present biennium some 1,800 teachers have received a portion of their salaries direct from this fund. I believe this is the most important school law ever enacted in the State, and I am proud of the opportunity I had to urge and work for its passage in 1935. Experience in the administration of the law has demonstrated the necessity for some minor revision in details. I recommend that sixty per cent of the 2% sales tax be placed in the State Equalization Fund for the next biennial period. I further recommend in view of the extreme financial distress of many school districts that 25% of the Equalization Fund be distributed on the basis of need, and that the governing board of this fund be continued as it is now, namely, the Governor, Attorney General, and Superintendent of Public Instruction.

The State Mill and Elevator at Grand Forks should also at this time receive special attention at your hands. For

thirteen years now this institution has been operated by the State at a loss to the taxpayers of the State of over \$3,658,000, including interest on bonds, and depreciation in the buildings and machinery. I am satisfied that it never will be a great financial success and should be looked upon as an institution of service to the people of the State. I believe it has been such in promoting a better wheat market for our farmers and in stabilizing the price of mill products to the consumers of the State. We have, however, now passed any experimental stage in this matter and should now approach it in a spirit of deciding its future. I recommend that at this time you should provide for some form of nonpartisan operation, or of joint political operation, so that in the future it may be removed from political discussion every two years in our political campaigns by people who have no practical knowledge of the milling business. One of the first things to be done, however, should be to provide for a refunding of its bonding indebtedness at a much lower rate. At the present time the institution must make now about \$670 a day interest and depreciation before operating expenses can be paid. For the years 1935 and 1936 we had no worth while wheat crops in our State. The Mill, however, has been kept running and has given labor and service to the people. It has been necessary to ship in a great amount of milling wheat. This might properly be challenged as a matter of good business judgment. The Mill was built to grind North Dakota wheat and it could be argued that when we have no crop in North Dakota, the mill should be shut down. There are many other questions in regard to this institution and I recommend that you appoint a special joint committee to study this matter and perhaps suggest some methods whereby the State Mill and Elevator can be of greater service and less expense to the taxpayers of the State.

The milling business is a highly technical detailed business, needing well trained men. The buying of wheat and finding of a market for all the different brands of flour and products of the mill needs exceptionally well trained men, experts in their profession, and those matters have no place in our political campaigns. The principle of the Civil Service should also be applied to this institution.

The State Highway Department is now operating in a very efficient and satisfactory way. All matters of dispute between the Department and the Bureau of Public Roads have been settled. The question of the diversion of what the Bureau considers proper Highway funds to other uses has been stopped in the State and Counties, and I cannot too strongly urge that you do nothing in the future that will jeopardize the good relations that now exist by diverting highway funds to any other purpose.

W. J. Flannigan was appointed Highway Commissioner on April 20, 1935, and reappointed on March 15, 1936, for the three year term ending March 15, 1939. Immediately after his appointment, Mr. Flannigan began negotiations with the Federal Bureau of Public Roads and upon their being convinced of the sincerity of our desire to cooperate, the balance of the 1933 and 1934 funds, being held in abeyance,

was released. The 1935 allocation of approximately six million dollars was also made available by the Federal Government for construction work in this state, and the work actually contracted for during this administration totaled approximately seven million dollars. As a further evidence of good faith in those in charge of the Highway Department and the people of this State, just recently there was made available to the North Dakota Highway Department for Federal construction, approximately four million dollars additional funds. These moneys have been made available without matching. North Dakota is only one of two states to which this privilege has been accorded.

Furthermore, inasmuch as the first section of the four million allocation, or approximately two million dollars, must be placed under contract prior to July 1, 1937, there should be absolutely no delay in the workings of that department. Any hindrance would mean the loss of those funds to the people of this State.

The matter of sufficient funds for maintenance should also be given very serious consideration by this Legislature. North Dakota cannot continue to enjoy the privilege of Federal Aid in its highway program if it does not make satisfactory provision for the maintenance of its highway system. Your North Dakota Highway System represents a tremendous investment. It must be administered on a sound business-like basis.

In the original Nonpartisan League program State hail insurance was one department that we were particularly proud of. It is, therefore, very reluctantly that I am compelled to recommend that a special investigation committee be appointed by the Legislature to look into the rumors and positive statements of mismanagement and abuses which have been circulated in the State in regard to this department. I am satisfied many of those statements are true and your attention is called to a special report of the Attorney General who investigated this department. I call your special attention to a report filed with the State Board of Auditors covering a period from October 1, 1934, to December 1, 1935. This committee should also recommend immediate remedial legislation that would prevent those abuses in the future and might restore some confidence in the farmers of the State in a department that they are particularly interested in, and can, if honestly and efficiently administered, be of great service in the future.

The Beer Department, as it has been heretofore, has not been a satisfactory setup and will always be a subject of political controversy. I believe now that the people have by vote determined to supervise the sale of hard liquor locally; that the Beer Commissioner and Beer Inspectors should be abolished as a matter of both economy and efficiency. Certainly, if the local officials can be trusted to properly supervise the sale of hard liquor, then they can supervise the sale of beer. The Regulatory Department should also be relieved of some of its extra duties which have been unjustly falsified and used for political propaganda. The collection of

income taxes should be taken over by the State Tax Commissioner and the collection of motor vehicle fees also should be under his supervision. It might be well in this connection to draw your attention to the fact that many states have Liquor Boards of three members appointed for a term of ten or twelve years, who shall have control and supervision of the beer and hard liquor; and give them power to make rules and regulations for the uniform system of law enforcement over the entire State. It is my belief that in giving this board a long term of appointment with a reasonable salary, this board could be non-political and give much better service to the State. There is no doubt in my mind that they would need but few inspectors and auditors to be determined by said board, for the enforcement of the law.

The Beer Department has on hand, November 30, 1936, a little over \$660,000. I believe that approximately \$500,000, or so much as may be needed, can be appropriated from the Beer Department fund to the State Welfare Board to meet any distress emergencies of such Board.

In regard to the Motor Vehicle inspectors, I recommend that such inspectors be returned and be under the jurisdiction of the Motor Vehicle Registrar, thereby being under direct supervision of that department. Since the Motor Register office is a revenue agency it may be well if that office was placed directly under the State Tax Commissioner. In regard to the enforcement of the cigarette law, the present Act provides for 3c excise stamp on a package of twenty cigarettes. The placing of these stamps on packages is very slow and tedious work to the retailer. We have at the present time over 3,100 licensed retailers and there is no doubt a certain amount of stamp chiseling is going on continuously. Some improvement in methods of affixing this stamp should be considered to increase revenue from this tax.

Due to the drouth conditions, the duties of the State Engineer have been greatly increased. As a result of this continued drouth, the people of the state are looking forward to the remedying of existing conditions and stabilizing agriculture in the state by means of water conservation and irrigation. Development of irrigation projects is being hampered by the lack of engineering assistance on the part of the state. Many land owners are without funds with which to make preliminary surveys and investigations for determining the feasibility of projects. As a result of this condition, steps are not being taken to initiate many worth while irrigation projects. The facilities of the State Engineer's office should be made ample to render this engineering service to the people of the State.

Stream measurements are vital to the intelligent use of our water resources. We must develop those resources to the fullest possible extent. Appropriations should be made to secure the help of the United States Geological Survey for stream gauging and the study of underground waters on a basis that the state bear half of the cost. I recommend this for your careful consideration.

I believe that the State Planning Board has given worth

while service to the State. The time has come in our state when real planning must be done. Some of the great natural resources of the state have been used up—in some cases wasted and in others not developed. I believe that a State Planning Board backed by County Planning Boards can give system and cooperation to further economic building of the state. The State Planning Board has prepared a detailed list of projects and estimates for irrigation, water conservation, Missouri River diversion, Recreational facilities, etc. The annual average stream runoff from North Dakota is approximately 25 million acre feet of which only about 10 per cent or less has its origin in this state. If this could be retained, direct pumping for irrigation, together with rapidly increasing seepage and infiltration, would be accomplished. The Federal Government has already expended more than three hundred millions in North Dakota for all purposes and presumably will continue various types of Federal aid for several years to come. Also we know that drought in 1936 cut our total agricultural revenues down to one hundred million dollars, as compared with sums as great as four hundred millions in years of abundant crops. If this intensive water conservation program would step up the state's farm production and we know it would, and if we can enjoy maximum Federal cooperation in working up the program, we would truly have learned our lesson from this drought and benefitted permanently by it.

As various bureaus and departments of the state attempted to work out a conservation program with Federal agencies during the past year, they found themselves unable legally to represent the state. Inadequate legislative authority was vested in the State Engineer, the State Board of Health, the State Parks and Historical Commission, the State Planning Board, the State Geologist. They were prevented from entering into contract with Federal agencies to maintain and operate projects even though their construction might have been financed entirely by Federal funds. It is proposed therefore that this Legislature create a nonsalaried State Board of Conservation with all present technical conservation officials of the state enjoying ex-officio membership, and that the Legislature vest in this State Conservation Board authority for dealing with Federal agencies in the name of the state and between Legislative sessions. Some of our neighboring states, operating through a board of this kind, have done fine work for their states. A careful survey of activities and accomplishments of these Conservation Boards in other states has been made by our Planning Board. May I recommend to this Legislature a careful study of this promising field. We cannot stand idly by any longer and permit our spring runoff on our thirteen principal streams to rush away from us. It must be made to serve our cities, our farms, and our people, and now while the Federal Government is still carrying on its emergency work programs is the time when we should place ourselves in position to make substantial advances toward conservation and irrigation.

The 1935 Legislature enacted by Senate Bill No. 23 a legal moratorium law, which, with the cooperation of the District Courts of the state, has rendered a real service to the debtors. This will expire on July 1, 1937. I believe this law should be

re-enacted and also to include personal property. The large amount of our farm debt that is now carried by the different Federal agencies has created a condition in the state much different than that existing a few years ago, and has made the moratorium of only limited importance in the state. I recommend, also, that the law creating the Debt Adjustment Boards be simplified as much as possible. They have done splendid work and should be encouraged.

The State Banking Board has been able, with the help and cooperation of Federal authority, to have the banking structure of the state placed in a very strong position. All State and National Banks can now give the people good and safe banking service. Legislation should be enacted, however, to give to many small towns of the state, which have been deprived of banking facilities, some form of banking service in connection with the established banks of the locality.

A conservative Farm Loan Department is now set up in our State Land Department and is giving great assistance to land owners in refinancing and saving their homes. This department has also given encouragement to all parties seeking to develop the oil resources of the state.

I am now going to discuss the big question of taxation in a very brief way. The 1935 Session created a Tax Survey Commission. Their report will be before you for consideration. The results of their study, I am sure will be very helpful to you in the strenuous labor that is before you in keeping our state in the best possible financial condition to carry us through those hard times which have come upon us. I do recommend, however, that you re-enact the law providing for the cancelling of interest and penalty, the law enacted by the last Legislature expired on January 1, 1936. I have by proclamation on two occasions tried to extend the principles of this and the general demand for this encouragement to the delinquent taxpayers would justify its re-enactment. The Tax Commission will have introduced for your consideration bills along the lines of their recommendations, and I ask that you give them your careful consideration. The members have done hard, conscientious work, for which I am glad to express my appreciation.

In looking back over my nearly two years of service, I shall have real satisfaction that some worth while things have been done. Our old age assistance plan has been built up and is now giving worth while aid to almost seven thousand of our old people. Aid to the blind is now an accomplished fact. The care of dependent and crippled children has been equally improved.

Our schools have been kept open in spite of crop failures and lax of tax paying ability on the part of taxpayers in many districts.

An efficient Highway Department has been built up in full cooperation with the Federal Bureau of Public Roads.

Our contributions to relief from the Sales Tax funds have helped to win the cordial support of Federal relief agencies in efficiently taking care of our people.

A reduction of almost twelve million in our bonded indebtedness has been accomplished.

By establishing a fine system of distribution of its products all parts of the state can now receive the products of our State Mill at fair prices.

By a well planned building program in those three great institutions of service, the Tuberculosis institution at San Haven, the School for the Feeble Minded at Grafton, and the Hospital for the Insane at Jamestown will soon be in a position to give greatly enlarged service to the tubercular, the feeble-minded and the insane, and the buildings will be paid for.

Members of the Twenty-fifth Legislative Assembly, I sincerely believe that those things that have been done and those things that I have suggested should be done, will combine to make our state a better state for us and those who are to follow us, and I ask your serious and earnest consideration of them.

The oath of office was administered by Chief Justice A. M. Christianson to Governor-elect William Langer.

President Thoresen:

"It is an old saying that 'as your need may be, so shall your strength be.' Due to conditions, over many of which we have no control, we are face to face with problems that seem overwhelming. If ever there was need of leadership with strength, with courage, with a broad humanitarian vision, that need is here and now. We are not afraid. We are not dismayed at conditions as they may present themselves. We shall meet every problem with the characteristic spirit of the pioneers of the west. We shall stand firmly, each citizen at his post of duty to meet the problems of life and turn seeming defeat into progress and victory.

"To lead us in our onward march we have chosen a man who so well possesses all the elements needed in times like these. We have chosen a man from our midst, a man of unquestioned courage, of unquestioned ability, with a vision for progress and above all a man with a sympathetic understanding of our people and our needs.

"Today this, our chosen leader, comes before us to accept the responsibility we have placed upon him, and to give us his plans for our future and our order to march forward in the progress of civilization. As we salute our chief today, may you, with me, also give a silent pledge of loyalty to him and his public duty. May we be ready and willing to uphold his hands in what is good, what is right, and what is noble.

"I present to you our Governor, William Langer."

**GOVERNOR LANGER'S MESSAGE**

To the Members of the Twenty-fifth Legislative Assembly:

Under the constitutional duty imposed to inform you of the condition of the state, and to recommend such measures as I deem expedient, I now address you.

**General Statement**

Your hearty cooperation for the heavy problems and responsibilities which face us concerning state affairs is sincerely desired. May bitterness, which always arises in strenuous political campaigns be forgotten. May we all be united now as officers and citizens of the great state to render to it our highest public service.

I sincerely desire to be the Governor of all the people regardless of race, creed, or political beliefs. I hope to cooperate with you and have each and all of you consult with and advise me at all times. We want to be able to say to the people whom we represent that we have worked together and acted for the best welfare and interest of our state.

On every side we witness conditions of distress and poverty. Poor crops with depressed prices, extending over a period of several years—worst of all last year—have brought before us for consideration and action, a situation which never before existed.

As public officials, we must cooperate with every agency of government, whether Federal or state, to assist our people. Our farmers, our working people, our industries, our business institutions, our trade and commerce—all are affected. With less income on one side, and increased taxes on the other, all of our people are looking to us for help.

We know the wonderful loyalty our citizens have shown. Regardless of adverse conditions, our people have remained and have struggled along. We all know about the marvelous resources this state possesses in climate, fertility of soil, in mines and in minerals, and in the integrity of our people. All that we need are fairly normal conditions, such as this state has had in days past, and a helping hand, to again bring conditions of progress and prosperity to us.

**Cooperation With Federal Government**

I am convinced that the matter of greatest importance at this time is our active and full cooperation with the Federal government in its program of aid and relief. President Roosevelt is entitled to your full cooperation, regardless of your political views. He has received an overwhelming vote of confidence from the people of this state and nation. President Roosevelt has recognized our distress, as well as the needs of our people so dependent upon agriculture for the return of prosperous conditions within our state, and I want to emphasize the necessity, as well as the duty to give him and his administration fullest cooperation.

### Relief

Our first and most important concern is the participation of our state in giving all necessary aid and relief to those who are in destitute circumstances within the state. Investigation has revealed that over 70,000 families, residents of this state, are on the relief rolls for aid and assistance which heretofore has been furnished by the government.

The Federal Government will probably continue to provide considerable aid for employable urban families through the WPA and for farm families through the Rural Resettlement administration. The state and the counties, however, must provide assistance for unemployable families or persons in need of relief, and supplementary aid in the form of medical assistance and subsistence for those whose WPA earnings and Resettlement grants are insufficient to provide for their needs.

The county welfare boards spent for direct relief during the past year, not including old age assistance payments, more than \$2,750,000. Because of poor tax collections the counties are at present unable to provide the funds necessary to meet relief needs.

It is therefore recommended that the legislature make available immediately as an emergency measure \$1,500,000 to cover the period to June 30, 1937. For the biennium 1937-1939 it is estimated that \$3,000,000 will be required for relief purposes, of which the counties will be able to provide \$1,200,000, leaving \$1,800,000 for the State Legislature to appropriate.

Funds available to the Public Welfare board for making grants to the counties are exhausted and an immediate appropriation is necessary to enable the Public Welfare board to assist the counties in providing for relief during the period ending June 30, 1937, as well as for the biennium. It is estimated that \$1,800,000 will be needed to furnish the relief needs from now to June 30, 1937. Of this amount it is estimated that counties will be able to appropriate not more than \$300,000, in addition to their share for old age assistance and aid to dependent children required under the Social Security Act.

I am distinctly in favor of placing the supervision and the financing of relief back again with the counties, where it once was, with the assistance and supervision given to them by both our state and the federal government.

Perhaps ways and means may be found through a portion of the sales tax and income taxes so that the state can furnish financial assistance to the counties, in accordance with their needs. In this connection we must realize the financial difficulties in raising the needed monies.

### Social Security Legislation

Old age benefits and unemployment insurance are here. The federal government through the administration of Presi-

dent Roosevelt has enacted the Social Security Act. It is now in force. Over 27,000,000 persons in the United States already have been registered under the provisions of the Federal law. This Act is administered by the Federal Government.

The Social Security Act also provides for unemployment insurance against poverty and distress resulting from unemployment. To secure the benefit of the Federal Unemployment Insurance Act, and the tax collected from employers, this State must enact legislation in accordance with the Federal law.

We must find means of making the Federal law effective. I recommend that an unemployment compensation measure be enacted immediately so that this State may qualify. I sincerely hope that a joint legislative committee, as a special committee on social legislation, will be created for the immediate drafting and introduction of an Act which will enable North Dakota to qualify under the provisions of Federal law.

Under authority granted in this Act the Board prepared plans for old age assistance, aid to the blind, child welfare services and aid for crippled children and these plans are now operating and the State is benefitting from Federal aid. A law providing for aid to dependent children in accordance with the provisions of the Social Security Act should be passed and I would urge that you give immediate attention to the passage of an act which will enable North Dakota to secure this Federal aid.

Although the plans for old age and blind assistance are in operation, the Legislature should enact laws in conformity with the Social Security Act in order that the State may continue to participate in Federal aid for these worthy causes. Appropriations to provide the State's share of old age assistance, aid to the blind, aid to the dependent children, services for crippled children and child welfare services will be required. The funds which the Public Welfare Board has estimated will be required for these purposes have been submitted to the Budget Board.

#### **Employment Insurance**

As I have stated, I am in favor of old age and unemployment insurance. I favor an Act which will establish a commission to handle the matter in coordination with the Federal Social Security Act and the passage of an Act which will exempt all employees from contributing any portion of their wages or salary to the establishing of the fund for either old age or unemployment insurance.

In the final analysis the public that purchases from the employers who contribute, must carry the burden for this insurance.

#### **Water Conservation**

There is no matter of greater importance to the welfare of

our state and the ultimate relief of our people than the restoration of the water supply normally present.

Already in Montana, the Fort Peck project will retain vast quantities of water, not only for Montana, but also for North Dakota; and at the same time it will relieve flood conditions in the South. The use of the Missouri river and the run-off waters which it carries, as well as the use of the Red Lake and Red River waters and watersheds are matters for your attention and action.

I recommend that the Legislature take command through the establishment of a commission and the creation of a program in full cooperation with the federal government. I recommend immediate action through the appointment of a special joint committee of this Legislative Assembly, not only to consider, but also to take action. Those who have been concerned with the administration of the federal government's activities in this state, such as Thomas Moodie, Henry Holt, John Moses and others have assured me of their assistance.

#### Agricultural Aid

To restore and maintain the water level to prevent our wells, which furnish ninety per cent of the water supply to our farmers, from drying up, and to provide an ample supply of water through the construction of dams and reservoirs for primary irrigation purposes, I recommend that you promote irrigation of enough lands to raise the provisions necessary to sustain human life; to raise enough forage for our livestock, or at least for our foundation herds, because we cannot build, nor long maintain a profitable livestock or dairy industry in this state when we must ship in or purchase our forage at a prohibitive cost, or else sacrifice our livestock every other year at ruinous prices.

I believe that water conservation is the most practical and effective method of flood control, and believe in irrigation as the most practical and effective method to sustain the farm family, to reduce poverty to a minimum, to provide continuous employment and to remove our distressed farmers from poor relief rolls. Manifestly, it is better public policy and economy to restore prosperity than to move our people from the state under a federal resettlement plan. I therefore respectfully urge you to memorialize Congress to vigorously press the Long Range Water Conservation and Irrigation Program that it has so widely undertaken; that the Bureau of Reclamation, through the use of the Great Plains Station at Mandan, through their practical experiments demonstrate the various methods of water conservation which are suitable and profitable for our state, and that you enact whatever measures may be necessary and appropriate to aid in and to cooperate with the federal government in the development of this program. The federal government should also be urged to furnish sufficient funds or immediately provide for an adequate supply of feed and forage to relieve acute shortage and to prevent the consequent starvation and loss of much of our livestock, which is the only present means our farmers have to make a livelihood.

Our farmers need only the helping governmental hand here at home for the rehabilitation of the soil they occupy, and for the opportunity of crop production plus a reasonable profit.

I endorse the movement for crop insurance, and recommend your cooperation with governmental efforts in that direction. We have been committed to that sort of program for years through the Hail Insurance Department.

Perhaps the only business that does not receive the protection of insurance and of safeguards for its continuance and survival is that of agriculture; and it is time for us to devote our energies to see that the farmer has thrown around him every protection that business, trade and industry now receive.

For these reasons I heartily favor every possible effort to promote means to enable the farmers to purchase land on easy terms, at low rates of interest, with exemption of taxes applied to homes, and with insurance principles applied to the product that farm labor creates. In matters of refinancing farms, we should support the Frazier-Lemke Act.

#### Taxes and Taxation

As you all know, I have continuously advocated reduction of taxes. Four years ago it was the principal subject in my address to you, and with your cooperation they were reduced and likewise state expenses.

I fully realize that this can be accomplished only by efficiency and economy in state appropriation and in state administration. Our land tax is too heavy a burden on our people. We cannot build up home owned lands without better equalizing the tax burden. We must see to it that those forms of wealth and that income which participate in and grow out of trade and commerce of North Dakota, and with North Dakota citizens, bear their just burden of taxation. I recommend to you specifically for the protection of home owners, the enactment of legislation, which will create an exemption from taxation of occupied home owned farm land to the extent at least of 160 acres and up to a value of at least \$5,000.00, and city or town dwellers home, owned and occupied, to the extent of at least two lots, of fifty feet, and to the value of at least \$1,500.00, so that home ownership may be encouraged.

I recommend that you favor a change in the taxes on farm and ranch lands which will equalize the tax burdens. These lands have been paying too high a tax in comparison with what they have produced. The taxes on farm and ranch lands should bear an equitable relation to the income produced. You will then satisfy the graduated land tax group and the income theory group.

I believe that any sound and constructive program of tax reduction to be really effective must deal, not only with the state government, but with every taxing unit thereof. Our experience proves that the state expends less than twenty per cent of all the taxes levied, and that more than eighty per cent is required by its local subdivisions. Consequently any

tax program must be so conceived and so administered as to apply equally to every taxing district.

I recommend that you utilize the information gathered by the tax survey commission and that you give serious consideration to its proposals and counsel; that you devise and formulate plans for a complete revision of our system of state and local governments with the ultimate aim to simplify and clarify our whole super-structure of government; to eliminate every office, bureau and commission not essential to the maintenance of the primary functions of government; to simplify and consolidate those agencies that are essential, so as to reduce the costs of their maintenance; that you place every office, bureau and commission which you determine to retain, upon a self sustaining basis, insofar as it is possible, by the charging of reasonable fees for all services rendered. That you reorganize and reform our system of the administration of affairs of government so as to conform to scientific methods of business management and promote the maximum degree of efficiency.

At the same time in this program of reduction of taxes and greater economy in government, I am in favor of maintaining our school system in this state, both the elementary schools and higher education, at its highest possible efficiency. With the higher and at present mounting costs of living, our school teachers are not sufficiently paid. To retain our leadership in education, we must pay adequate salaries. Along with this, we must protect labor from disease, sickness and accident. We must take care of the poor and those in distress. We must provide adequate unemployment insurance. I realize the funds for such purposes must come from taxation; but we must find sources of tax revenue which should be applied to these needs. For such engagements, business, trade, commerce and industries must bear their just burden. The foreign manufacturer and wholesaler of intoxicating liquors who brings them within our state, should pay a license to do business the same as California now requires. I recommend such legislation.

Although the sales tax shifts the burden of taxation considerably upon those who are the least able to bear it, nevertheless the people of the state have voted for its continuance, and I recommend therefore that it be continued for use to support the schools and the relief of the distressed, the aged, the blind and the dependent children of North Dakota, and as a replacement tax.

I recommend that tokens or coupons be used, to avoid paying a five or six per cent tax rather than a two per cent.

Owing to the fact that thousands of farmers found their 1935 hail tax assessment more than double what it ever had been before, I recommend that you ascertain whether or not any portion of that hail tax may be cancelled or refunded.

Provision should be made to enable the owners of real estate with heavy delinquent taxes to make settlement thereof at a discount, at least with the cancellation of penalty and interest. Those earnestly striving to start over should be given

the opportunity with as much assistance along this line as possible. The railroads have been receiving such discounts because the Courts have thought them excessive.

In spite of the provisions of law for payment of delinquent taxes, without penalty or interest, a continuing large portion, particularly against farm lands, remain unpaid. I recommend that the privileges heretofore granted be extended for a period of four years. I further recommend that you give a still further opportunity to our farmers and home-owners to pay their delinquent taxes by enactment of a law following Minnesota enabling a farmer or a city owner whose taxes have been delinquent for five years or more to file confession of judgment for the delinquency, and pay the same in ten annual installments.

### Highways and Transportation

We are receiving annually a large amount of money through the imposition of a three cent state tax on gasoline. I recommend its continuance, but disapprove an increase. I am satisfied that we must bring the highest efficiency and economy to our highway program so as to maintain and extend these highways in a proper manner. The maintenance of many of our highways is done at a tremendous cost. Under the present system it is difficult to maintain and keep them all open for travel with any degree of efficiency and economy. Thousands of dollars are lost annually to this state by blocked highways and lack of proper care. This has compelled and is now compelling transcontinental travel to detour around the state. We must fully cooperate with the federal government in its highway program. We must strengthen our own laws, and demand from our Highway Department the enforcement of the laws which apply to the use of our highways and the licensing of trucks and passenger automobiles. Lack of law enforcement, and poor and at times blocked highways, are causing annually an appalling loss of life and property. This can and must be lessened.

Requiring truck owners to buy commercial licenses when engaged in hauling earth, stone or gravel on highway, dam or other construction should be eliminated, and work of this kind should not be classified as using highways for transportation of commodities.

In order to eliminate automobile accidents I recommend examination of drivers to prevent those afflicted with some physical handicap which interferes with the safe operation of a motor vehicle from driving.

### Moratorium, Embargo and Interest Rates

The underlying principles of the moratorium, the embargo and rates of interest, concern both the security and well being of our people. Throughout this nation, in every single state, and by the federal government, we have seen a moratorium in some form, the right of an embargo in some form, and the enforcement of lower interest rates.

North Dakota is rich in raw materials, food and fuel. Yet

it is poor in the enjoyment of our people of that wealth which we have produced. It is not unreasonable to say that the production of our wealth in raw materials since statehood has been sufficient, if now present, to pay our entire national debt. Neither state or nation can succeed which does not protect its people in times of emergency and distress, as well as from the greed and avarice of those who prey on the industry of a people. I have never advocated a moratorium to protect the dishonest debtor nor the shifty and crooked. For such it will never be applied by me while Governor of your state. I do not advocate the embargo to prevent freedom of commerce, or to deprive producers of the right of sale, but when conditions of congestion exist in the transportation agencies, or in the markets of the country resulting in ruinously low prices, the principle of the embargo is a matter of governmental policy and not for the benefit of private agencies alone.

I also believe that the so-called legal moratorium enacted in 1935 should be revised. In that law there should be enacted, as much as possible, provisions for hearings which are now being conducted more or less voluntarily before seizure or sale of property, these hearings should apply to the remedy, so that no question can be raised successfully against them. The extended periods of redemption should expire in the spring of the year, say April 1st, rather than July 1st, the middle of the growing crop season.

The principle of the moratorium should be aided by legislation creating a competent and legal state adjustment board, with sufficient power to handle, on a moratorium basis, the claims of creditor against impoverished and distressed debtors who have become such through no fault of their own. legislative action.

Interest rates always have been too high. We have witnessed the wealth of our people consumed almost entirely by interest. We want capital to come into our state for investment. We want to give assurance that we, in good faith, will protect capital investment, but we want it to realize that in so doing it must ask for returns no greater than it is receiving in other sections of our country.

I have noticed a rather large number of personal loan agencies springing up, which loan money in small amounts to laborers, school teachers and so forth, and upon which the borrowers pay high interest per annum. There is something amiss with a financial situation which forces people to pay excessive rates.

It has come to my attention that in many instances the property covered by conditional sales contracts has been taken by agents of the sellers while the purchaser was away from the premises. In such cases, under the present law, there is no relief for the purchaser. The law should be amended so as to require court action for the taking of the property. The law should give power to the court, not only to enable the purchaser to make good his default, if he can, but if he cannot the court should have power to permit him to retain the prop-

erty for a reasonable time if necessary to either plant or harvest his crop, as the case may be, and on such terms and conditions as may be just and equitable.

### Organized Labor and Organized Producers

Labor, brain and brawn, is one of the main essentials to success in every field of human endeavor. Without intelligent, honest and sustained toil, without continuous and gainful employment, there is no future or security. Fortunately, the hours, conditions of employment and the wages paid in recent years in our state, have been materially improved, through the enactment of the Minimum Wage Law for women, and through compensation paid by the Workmen's Compensation Bureau for the loss of life or personal injuries sustained in the course of employment. But I firmly believe that we can still shorten the hours of work, make the working man's condition of employment still more safe and sanitary, and still pay higher wages, so that labor can maintain what it so justly earns and deserves—a decent standard of living.

Both labor and the producers have been slow to organize. Trade, commerce and business have been highly organized for years. The voice of the unorganized is only feebly heard under modern conditions. Protection for life and limb, and for better wage conditions, has come only through organization and through long struggles to achieve it. The farmer has been particularly slow to organize. Only in recent years have organizations in his behalf become potent. I favor every protection to be thrown around the laboring man, and the highest wages possible, with full recognition of organized labor in its effort to accomplish those ends. I favor farmer organizations and affording to them the protection of law, in their efforts to preserve agriculture as a means of livelihood, and to secure a decent price for agricultural commodities. We should, therefore, support organized labor and farmers' organizations seeking to better conditions for both labor and the producers. We should give more attention to developing the cooperative movement in North Dakota. We must realize that non-producers who process or merchandise the things that the farmers produce, generally receive a far greater return than the farmer himself receives on his own products.

### Mines and Mining

Our state is primarily an agricultural state, yet it seems that the day is not far distant when it will take its place along with the great mining and oil producing states. We are prone to ignore the great wealth that lies buried in the ground beneath our feet. A few citizens have buried in the ground beneath our feet. A few citizens have toiled incessantly against adverse reports and adverse criticism to bring forth these latent industries, and now are viewing promising signs of a reward.

Gold is present in this state in paying quantities. It is a very finely divided gold, of high quality, a part in free form, but mostly locked with other metals. This gold was brought here by the great glaciers, and is found in their morainal

channels. A few of our citizens have worked consistently on this theory for a number of years, and have, with aid of outside capital and research, proven this to be a fact beyond a doubt. This industry needs every encouragement that can be given it.

What is true of the gold is likewise true of oil deposits in our state. All indications point to increased activities in the development of oil fields within our borders. To further facilitate these prospective industries, everything should be done to make it possible and practical for organizations seeking to develop certain areas to secure all lands necessary to protect themselves in their venture. Chapter 232 of the Session Laws of 1931 should be amended to make it clear that it applies to oil and minerals, or other laws should be enacted to meet the requirements.

I am concerned that we do everything possible to develop industry within our state, and use our native resources in doing it. We should give particular attention to aid mining and the use of our lignite. Approximately 300 mines are producing around 2,000,000 tons annually and employing about 1,500 miners. Roughly, 500,000 tons of foreign coal is brought into our state for use and consumption here. We ought to use lignite fuel for practically all power purposes within the state. In former legislative sessions you have said that lignite must be used in our state schools and institutions, and imposed a duty on state, county and school officers so to do. Further, you have provided for various lignite rates which were the subject of much litigation. From time to time you have required investigation into lignite and other coal, and during my previous administration you provided that lignite briquets should be transported on the same basis as lignite itself. At my direction, during my former administration, an action was brought for lower basic rates for transporting lignite screenings in this state, and finally your state Board of Railroad Commissioners for the first time in the history of the state, granted a lower rate or differential on lignite screenings, and savings to our state institutions of about \$75,000 per year. We must continue to develop our lignite industry.

I recommend a legislative definition of lignite, so that it will not be classified on the same basis as foreign coal for rate purposes. I recommend legislation requiring our Board of Railroad Commissioners to establish the lowest possible rates on lignite. The same rate should not apply to coal of \$10.00 value per ton, and to lignite of \$5.00 value per ton. I recommend also for your consideration and action a tonnage tax on lignite mined for sale and not for personal use.

#### Official Accounting and State Expense

We must seek to accomplish efficiency, and a strict accounting in state offices and state expenses. In my first talk to the people of this state after my election, I told them that in this business of running the state they were entitled to know how every single dollar of state money was being expended.

To that end we must improve and consolidate our methods of state accounting concerning expenditures by state boards,

institutions, and officials. We must provide for one single centralized board or officer whose principal duties shall be to receive regular and continuous reports from every single state board, institution, and official covering expenditure of state funds, with the duty imposed of auditing these reports and making recommendations and criticisms in respect to them.

Audits must be frequent. A delayed audit is valueless unless for subsequent investigation purposes. Joy rides by public officials, entertainment furnished at state's expense by boards or institutions, needless travel, expenses charged on foreign junket trips must be stopped. Such funds might well be devoted to the relief of our people.

I recommend to you the adoption of legislation that will create a single auditing body, which will have the power to appoint one expert official with the powers and responsibilities of seeing that monthly the people of this state are informed about every single dollar of state expense, and monthly every single board, institution and state official, including myself as Governor, will have his or their acts in expenditures of public funds revealed to the people.

#### Civil Service

I recommend the enactment of a civil service law which should apply to all appointees and employees of the state and its political subdivisions, so as to place all upon a basis of relative merit, competency, experience and fidelity to trust, and thereby improve the standard of service in all administrative affairs of the state to the mutual benefit of the state, its taxpayers, its officers and employees.

#### State Indebtedness

Since my message to you in 1933, you have witnessed, even in these times of drouth and depression, a great improvement in the credit of our state, and you have seen North Dakota bonds sold greatly above par. I have at all times insisted that the credit of our state must be preserved, and that the bonded indebtedness of our state should be reduced and not increased.

We must see to it that the principal and interest of these bonds is promptly paid as they mature, and that funds be established to protect this liability of the state and its credit kept unimpaired.

We must see to it that trust funds in this state be preserved as such. Monies taken from the Hail Insurance trust fund must be returned to it. We must see to it that monies raised by tax on gasoline are devoted to the purpose of its assessment and in the improvement of our roads and highways in this state. These matters concern the performance of a trust.

#### Education and Educational Institutions

The type of education which should be stressed in North Dakota is that type which prepares youth for life in the state.

Educational courses which tend to promote migration from the state are of no special value to a state itself. The underlying principle which justifies free and subsidized education is the contribution which the recipient in mature life makes to the wealth and public welfare of the state. The courses which our educational institutions ought to stress are those which tend to promote residence in the state, and help the individual for life here. We are an agricultural state. We shall always be a state devoted primarily to agriculture, and our future depends upon the development of agriculture. We have hardly scratched the surface of the problems of the soil and economics of agriculture as well as education along these lines. With no thought of depreciating the need and value of other courses of study and special training, I would suggest that the welfare of an agricultural state, is furthered by an educational program which lays special emphasis on agriculture in all its varied phases.

The youth of today must be prepared for the task of citizenship and its duties with an education, whether literary or technical, that will give opportunity to compete in the conditions of modern society. I am not over-sensitized with the idea that we have too many schools or too much education within our state. Perhaps it may rather be said that some changes are needed in the system of our education and in the duplication that results, which, if eliminated, might give us more opportunity for education in more and greater fields.

Our teachers, whether in rural schools, high schools, or institutions of higher learning, must be competent, and we must be willing to pay them well for the services they render. With the higher costs of living, their scale of wages ought to be higher. In our institutions of higher learning, we cannot expect to secure that competent service, or to retain it if we have it, without paying a wage at least similar to those paid for work in other employments in the state.

We must find sources of revenue largely outside of the ordinary tax on land and personal property. With the continuance of the sales tax, consideration of the income tax law and the regulation of intoxicating liquors and their importation into this state, there exists subject matter in which you may find the revenue needed to sustain our educational system in accordance with this demand and its real need.

Uniform textbooks should be furnished free to all school children, both in private and public schools; and transportation should also be furnished free.

#### **Penal Institutions and Sanitariums**

All of these institutions are maintained on the basis of reforming or curing the person confined. It is a rather sad commentary to say that they are costing our state more than our schools of higher education. We must pay attention to their needs and adequately support them for the purposes they serve in our society. Our modern conditions are filling them too rapidly, and are imposing a tremendous burden upon us to support them.

It is your problem, and my problem, to use these institutions which we must have with us in such a manner that criminals within them can be prepared for useful citizenship, and in the meantime do those things which will sustain themselves through their work; and this all applies in a lesser way to those inmates in institutions whose minds and bodies are in such shape that they can not work.

We should do everything possible to usefully produce in these institutions all that sort of manufactured handiwork capable of use in the machinery of our state government without entering into open competition with free labor. The production of our own automobile license tags at the State Penitentiary, as advocated in my message to you four years ago, is now usefully employing a large number of inmates, and is saving the taxpayers of this state thousands of dollars annually.

There is no reason why, within restricted lines, our native product of wool could not be treated by machinery in some of these state institutions, so as to manufacture from this native wool all that is necessary for clothing needed or required for all inmates of our penal institutions or sanitariums; and I recommend to you that suitable legislative enactment be passed, so as to start work in this line of activity.

I have found on investigation that the State Training School provides no course in manual training, or in preparation for a trade or for skilled labor. I think many of the young men sent there need such training. The matter was brought to the attention of the Judicial Council some years ago, who, upon investigation, recommended such a department for the school.

I am inclined to think it would be advisable to provide by law that no one shall be sentenced to the State Penitentiary without first having had benefit of counsel.

I understand that the Welfare Board is making some new arrangement with regard to children's work; that special workers are being sent out in this connection. A trained person assisting the County Welfare Board or the County Commissioners and Juvenile Court to make the proper investigation in cases where children are apt to be sent to the State Training School would greatly aid and save duplication and expense.

There is a distinct need for a Soldiers' Home in North Dakota. Those received at this institution at Lisbon are disabled to the extent they cannot maintain themselves under ordinary circumstances, and are not the type to be cared for by their various counties. With their disabilities they can be cared for at Lisbon for less expense than by their own counties. I recommend that this Legislature give careful consideration to this institution, as there are approximately 30,000 ex-service men in North Dakota, and consequently the population of the Soldiers' Home will naturally increase.

These matters are for our consideration. They are here to remain with us under the progress of the age. They present problems that require our study and our cooperation.

### The State Industries

The Bank of North Dakota, established under strife and contention, has now become an institution of recognized aid and service to the people of our state. We must protect it in its stability, and conserve it as an institution of state government, formed for the protection of all public funds and serving our people to aid and not to destroy those concerned with banking and banking principles.

The State Mill should have further the fundamental policies that its requirements must be the use of the North Dakota grain for the manufacture of flour and particularly spring wheat; and that it is not necessary at any time to go into foreign states for importation of wheat for purposes of manufacturing flour simply as an institution of profit. It also can be used as a demonstration agency to recognize that the important transportation agencies for North Dakota are our railroads, and that truck transportation should be utilized only so far as it is necessary and incidental to railroad transportation of our grain or its manufactured products. The records of the State Mill, and the records of all of our institutions must be made an open book, so that suspicion may not be aroused at any time.

### Intoxicating Liquors

The people of our state, by their vote, have authorized the sale and use of intoxicating liquors within our state. The approval of the initiated measure by the voters reverses the policy of prohibition, steadily maintained by constitutional and statutory action since statehood, and until recent times, starting with the repeal of the prohibition clause in our federal constitution.

This initiative measure has brought to you many necessary matters for consideration, particularly so for the reason that there are many statutory provisions still in force or to be interpreted, which in their original purposes were intended to supplement our prohibition laws. Necessarily these statutes need your consideration, and as far as necessary, your revision. Already the initiated measure has disclosed for its administration and enforcement the necessity of supplementary legislation; and for that reason I direct particularly your attention to early consideration of the same.

A mandate of the people has given to us now the problems of handling the sale and the use of intoxicating liquors within our state. Whatever our individual opinion may be on the liquor question, we must obey this mandate, and cooperate to carry into force and operation its requirements.

I want to see the sale and the use of intoxicating liquors within this state held to a strict accounting under strict observance, pursuant to the mandate under the law. In my opinion we must safeguard our youth against the perils of strong drink in every way legitimately possible, and we must strictly prohibit all of those collateral devices and practices in gambling and loose or immoral associations that quite frequently attend the handling of intoxicating liquors.

There is need today of sane, unemotional education on the need and value of temperance, and for sane, unemotional education on the evils of intemperance. Whether one be for or against authorizing the sale of liquor, he cannot be blind to the abuses incident to the use of intoxicants. It falls within the province of government to promote education which will help to abate the abuses incident to the intemperate use of alcoholics, since one of the chief functions of government is to promote the common good.

It occurs to me that it might be wise to enact some kind of liquor nuisance law, making it a nuisance to carry an opened bottle or container of intoxicating liquor in an automobile, and making the car subject to confiscation on violation of that law. It would tend to drive drinking off the highways, and that is a great danger at present.

#### Specific Recommendations

There are only two toll bridges existing today in North Dakota, both are in McKenzie county. The development of that county has been greatly handicapped because the farmers on the highland, have been unable to secure the necessary feed without paying a \$1.50 toll. I recommend that legislation be passed giving the state power to condemn the easements on toll bridges so that the people of McKenzie county may pass over without paying any toll whatsoever.

I recommend additional legislation to deal more stringently with the crime of kidnaping.

I recommend the enactment of laws similar to those of Wisconsin permitting local bankers to establish places of exchange in towns of adjoining counties only, so the people in smaller towns may have banking facilities.

I recommend a sufficient appropriation to the Board of Railroad Commissioners to enable the state to cooperate with the Federal government in its plans for rural electrification and hope that this legislature will leave nothing undone to, as far as possible, enable every farm home to secure the benefits of cheap electric lights and power. Much of the drudgery of farm life will be eliminated, especially for the women.

I recommend that the state establish their own power plants in some of the state institutions, especially the Agricultural College and the State Teachers' College at Mayville, unless lower rates are secured from the companies now furnishing them.

I recommend legislation looking towards the doing away with radio censorship unless censorship of individuals, or corporations can be removed, and free speech prevail in North Dakota over the radio, you should appropriate sufficient money to thoroughly equip the radio station at Grand Forks owned by the State, and place it under the jurisdiction of the Industrial Commission, with the proviso that rules be established whereby all parties and political factions may give their views without such censorship.

I recommend the establishing of a flax-crushing plant in the State Mill and Elevator to be constructed with federal aid.

I recommend legislation shortening the hours of the work of the guards at the penitentiary from twelve to eight hours.

I recommend legislation enabling the District Judge to send first offenders between the ages of twenty-one and twenty-five, inclusive, to the State Training School instead of the penitentiary.

I recommend legislation giving the District Judge more supervision over the men and women placed on parole; that the Sheriff shall be ex-officio parole officer, and that it shall be his duty to supervise parole prisoners in his county.

I recommend legislation whereby inebriates anxious to be cured of the liquor habit can, at their own request, be sent to the State Hospital under consent of the County and District Judge, without being declared insane.

I recommend the passage of the 1933 income tax laws to provide for the contingency that Courts may hold that the same has been repealed.

I recommend the establishment of a Department of Forestry to work in conjunction with and take advantage of the federal law providing money for that purpose, and believe the same should be established at Bottineau, with provision for the raising of at least five million trees a year.

I recommend the lowering of car licenses on automobiles to three dollars a car, and that the car shall be assessed as personal property.

I recommend legislation providing for an increase in trucking fees other than for farmers.

I recommend that the purchaser of liquor secure a monthly license, as provided for under the laws of Montana.

I recommend that at least one-half the revenue on beer shall be turned over to the State Welfare Board, to be used for relief purposes, especially for the support of dependent children and the blind and aged.

I recommend the abolishing of the office of Fire Marshal, by its transfer to the Insurance Department.

I recommend the consolidation of the supervision of farm lands owned by the Board of University and School Lands, and the Bank of North Dakota.

I recommend legislation abolishing the receivers of closed banks by transferring all the duties they now have to the Bank Examiner or the Bank of North Dakota.

I favor the abolishing of every single job or position that the members of this Legislature feel that the State of North Dakota can get along without.

I favor legislation whereby coal miners and coal operators shall be organized under a code, and if necessary, I recommend a tax on the lignite coal, especially that from strip mines, to help pay the expense of this organization.

I recommend a thorough investigation of the School of Medicine and placing the same upon a firm foundation.

I recommend legislation taxing airplane franchises.

I recommend legislation changing the date upon which the license tags must be placed on automobiles by permitting automobile drivers in the last two weeks of any one year to operate their cars by having tags of the succeeding year.

I recommend legislation to aid certified seed associations, especially potatoes.

I recommend legislation to aid the North Dakota Turkey Association and for the effort to get the farmers what their turkeys and poultry are actually worth.

I recommend a continuance of the Grain Storage Commissioner with full authority to investigate the low price of light weight wheat and other grains.

#### **Feed Lien**

You all know that under the new rules and regulations, the Federal Government will not furnish feed to the farmers for their livestock unless the farmer gives the Federal Government a first mortgage on the livestock. This is impossible, in view of the fact that most of the livestock that the farmers of North Dakota have today is already covered by mortgages, and the holders of these mortgages will not satisfy or release same.

To enable the farmer to secure feed for his livestock from the Federal Government, I propose that this Legislative Assembly enact a Feed Lien law granting and giving to the Government, or private corporations or individuals, who furnishes feed to the farmers for their livestock, a first and prior lien on the livestock. Under this law the Government can furnish feed to the farmer and get a first lien on his livestock. The Government won't need a mortgage. It won't be necessary for the farmer to secure satisfactions and releases of existing mortgages.

I suggest that you pass this as one of your first laws and attach an emergency to it so that the law will go into effect immediately.

#### **Poor Relief**

I recommend that this Legislative Assembly memorialize Congress and the Federal Relief set-ups to increase the relief to the poor and the unfortunate of North Dakota.

I recommend that you enact such legislation to take care of the deficiency of poor relief that is not provided by the Federal Government. We should see to it, that no man,

woman or child should go hungry or suffer from want in North Dakota. If it is necessary to pledge the credit of North Dakota to secure relief for our people, then I say, pledge such credit. See to it that we do not fail in this respect. This may be the end of the crisis which we are now going through. See to it that every human being of North Dakota comes out of it next spring, well fed and clothed.

I recommend the study on the part of the legislature of the lignite program, clay program, gold sand program, advocated by L. C. Harrington, Dean of the University of North Dakota.

#### **Fostering North Dakota Citizenship and Protecting It**

We must constantly cooperate to show the high value of citizenship in our state, based upon democratic principles of right and justice, guaranteed and preserved by our federal and state constitutions and the laws of this state. Under such principles we must protect motherhood in want, through mothers pension legislation; and the youth of our state with proper minimum wage laws and proper working hour regulations. Also we must protect labor to see that it receives a decent wage, and is protected in every industry where it functions.

Further, we must protect the poor and those who through unfortunate circumstances are harassed by heavy debts. For that reason I favor restriction of usurious contracts which exact exorbitant rates of interest. Just restrictions of law must be placed on tax loan sharks who profit on the inability of the poor to pay their taxes promptly. For that reason further I am in favor of protecting worthy old age, and have supported the Townsend Old Age Plan.

#### **Conclusion**

I want to conclude this message already sufficiently long. I want to affirm my allegiance to the platform of principles upon which I have been selected your Governor by vote of the people. I want to express my deep appreciation of the honor the people of this state have conferred upon me. I fully realize the great responsibilities of this office. I seek your friendship and your cooperation in the difficult problems which we now face in the government of this state.

Irrespective of your personal viewpoints, let us confer together and in mutual conference consider our differences, and not separately behind closed doors air our opinions of each other. Together we can do much for the betterment and progress of this state, and for the relief of our citizens now so sorely in distress within our state. Our people are now passing through the stormiest seas of economic depression and of world-wide devastation. Our people are looking over the hills to see tomorrow's sunshine of betterment for the protection of themselves, their homes, their business and their children. They look to you and me to cooperate for their interest for which purpose they have selected and elected both you and me.

I am hopeful for your aid and assistance to afford in this state that business and efficient administration which now it must have for the security of us all.

I thank you for your consideration and your attention.

Respectfully submitted,

WILLIAM LANGER,  
Governor.

#### SIXTH ORDER OF BUSINESS

We, your Select Committee appointed by the Speaker to confer with Federal Officers in Bismarck with reference to relief for the Indians in Sioux County, beg leave to report, as follows:

First, we held a conference with the delegation or committee sent up from Sioux Tribe consisting of:

Edward Afraid-of-Hawk.  
 Francis Long-Chase.  
 Ernest Chapman.  
 Mrs. Mary Many-Wounds, and  
 Mrs. Mary Long-Chase.

In this conference, it was pretty clearly brought out that the relief troubles among the Indians were about the same as all relief clients are experiencing through the change in allocations and methods of handling in the various set-ups.

We interviewed the Executive Secretary of the State Welfare Board, who explained that the change from WPA, etc., to RRA, which occurred during December with the holiday season intervening, had considerably slowed up all grants. This now, however, he assured us, was rapidly being overcome and would soon be running about as usual through RRA Grants and Loans.

We also interviewed the State Director for RRA, Mr. H. R. Wood, who advised us as follows:

1st, Five Thousand Dollars (\$5,000.00) Federal money has been placed in hands of Sioux County Commissioners, January 14th, to be disbursed for feed for Indians' livestock.

2nd, That RRA Grant checks, which had been held up, are now clearing at the rate of about 600 checks a day for North Dakota of which the Indians would be getting their share.

Your committee believes, from what it can find out at this time, that there might have been some apparent neglect and cause of complaint during the changing from one method to another, in handling these cases, but feels from what it is able to find out at this time that this will soon be overcome and that there is nothing further that can be done until the new set-ups start functioning fully.

Your committee moves the adoption of this report, and begs to be discharged.

H. R. FREITAG,  
Chairman.

Mr. Wolf moved that the report be adopted and the committee discharged.

#### REPORT OF SELECT COMMITTEES

Mr. Speaker: Your Select Committee appointed to interview Resettlement Director Howard Wood for information regarding resettlement grants, begs leave to make the following report:

When questioned as to the reports of checks not reaching resettlement clients, Mr. Wood reported as follows:

"That he was aware that there had been considerable delay, but that he believed the checks were now clearing in good shape; that the delay, in his opinion, was caused because of the removal of the regional offices from Bismarck to Lincoln, Nebraska; that a report just received from the Lincoln office disclosed that of 17,351 vouchers in that office January 15th, all had been cleared by the end of the 16th, except 1,349; that these checks should now be getting into the various counties of North Dakota; and that in his opinion this lot of checks would clean up all over-due checks and probably include 10,000 January grants.

Of the 17,351 vouchers mentioned, 7,954 were new cases receiving their initial payments;

That there will be approximately 35,000 grants for January and probably 43,000 for February;

That the average grant is \$23.00 for the state as a whole, with some western counties running over that figure and that there are funds available until the middle of February.

OSCAR W. HAGEN, Chm.,  
ELLIOTT T. KNUTSON,

I intend to vote for this bill for the reason that we have a change in the personnel in the Board of University and School Lands of the State of North Dakota, and the reason that I wanted a change in that personnel is that Carl Lewis holds a lease on the school lands covering oil lands in the southwestern part of the state, and that he acquired those leases without a competitive bid, and I believe those leases should be on a competitive bid as well as a grazing lease. But inasmuch as the personnel on the University and School Lands Board has changed, I vote 'aye.'"

#### FOURTH ORDER OF BUSINESS

The House received a communication from the Welfare Board.

Mr. Twichell moved that the communication from the Welfare Board be referred to the proper committee, the committee to determine whether or not the communication shall be printed in the Journal.

Which motion prevailed.

The attention of the House was called to House Resolution

"C" as printed in the Journal on page 161, which Resolution provided among other things for publication of the said communication in the Journal.

Mr. Twichell then stated that the action of the House on House Resolution "C" would prevail, and it was so ordered.

Bismarck, North Dakota,  
January 23, 1937.

To: The House of Representatives, Twenty-Fifth Legislative Assembly of North Dakota, Bismarck, North Dakota.

From: E. A. Willson, Executive Director, Public Welfare Board of North Dakota.

In compliance with House Resolution "C," I am submitting a statement relative to administrative costs of relief in North Dakota, together with a detailed statement of the salaries paid each person employed by the Public Welfare Board during the month of December, 1936, and during the first half of January, 1937.

House Resolution "C" also asks for such other information as is necessary for a complete understanding of the cost of welfare administration in North Dakota. In order that there may be a complete understanding relative to the cost of relief and welfare administration in this State, a review of the duties and activities of State and County Welfare Boards seems necessary. A very large part of the activities of both State and County Welfare Boards has been in connection with the Federal Relief Programs operating in North Dakota. Part of the price the State pays for Federal assistance is to provide the machinery and pay the cost of determining eligibility of relief applicants to receive Federal Assistance. A comparison of the cost of administration with the total amount of relief distributed through State and County Welfare Boards from State and County funds is altogether misleading, because a large part of the administrative cost of both State and County Welfare Boards covers services required by the Federal government in connection with the various Federal relief programs.

State and County Welfare Boards are charged with the duty of determining eligibility for Federal assistance under rules prescribed by the various Federal relief agencies and of certifying eligible persons to the Works Progress Administration, National Youth Administration, Resettlement Administration and the Civilian Conservation Corps. Approximately 45% of the people of North Dakota have been receiving assistance through one or more of the various Federal programs during recent months. The determination of eligibility of each relief case included in this total was made through the present State and County Welfare Board organization. A large part of the work of the Executive Director of the Public Welfare Board and of the Finance Division and the General Relief Division has been in connection with the supervision of county agencies, so that each county wel-

fare board would comply with rules and regulations of the various Federal agencies.

The total relief expenditures and administrative expenses of State and County Welfare Boards during the calendar year 1936 are set forth in the following table:

**RELIEF EXPENDITURES OF STATE AND COUNTY WELFARE BOARDS IN CALENDAR YEAR 1936**

General Relief .....	\$2,502,296
Old Age Assistance .....	541,092
State Transients .....	7,079
<b>Total .....</b>	<b>\$3,050,467</b>
<b>Administrative Costs—</b>	
State Office .....	\$ 57,804
District Offices .....	19,585
County Welfare Boards .....	416,178
<b>Total .....</b>	<b>493,567</b>
<b>TOTAL EXPENDITURES .....</b>	<b>\$3,544,034</b>
<b>Ratio of administrative costs to total expenditures—</b>	
State Office .....	1.63%
District Offices .....	0.55%
County Offices .....	11.75%

This table shows that total expenditures during the year were \$3,544,034, and that of this total \$3,050,467 was expended for relief and \$493,567 for expense of administration in State, District, and County offices. Expenditures for general relief and expenses of administration include \$1,176,386 contributed by the Federal government, and for Old Age Assistance include \$283,045 contributed by the Federal government. Thus, a total of \$1,459,431 or 41.18% of all relief expenditures of State and County Welfare Boards were from Federal funds. The balance of \$2,084,603 included \$871,416 expended from State funds and \$1,213,187 from county funds.

Administrative costs included the cost of determining the eligibility of all persons who received Federal assistance during 1936 through the various Federal relief programs. Consequently, such cost should not be compared with the amount of direct relief given by State and County agencies. The total public assistance given through the combined agencies of Federal, State, and County governments and amounting to over \$39,000,000 per year should be considered.

**GENERAL RELIEF DIVISION OF PUBLIC WELFARE BOARD**

The Public Welfare Board and the County Welfare Boards were designated by the Works Progress Administration, the National Youth Administration and the Resettlement Administration as bureaus of intake and certification

to investigate the needs of unemployed town and city workers, unemployed youths and drouth stricken farmers, and certify to these agencies persons eligible for work or relief grants under the specific programs of those agencies. The General Relief Division of the Public Welfare Board is made responsible for transmitting and interpreting the rules and regulations of these Federal agencies to the various County Welfare Boards. This division is charged with the responsibility of seeing that qualified workers are employed in the various county welfare offices to insure certification in accordance with the regulations of the Federal agencies, thereby insuring uniformity throughout the State in making investigations and certifications.

All complaints relative to general relief are handled by this division, either through contacting Federal relief agencies or county welfare boards.

The Division of General Relief acts as a forwarding center for all out-of-state and out-of-county inquiries. It locates the legal residence and arranges for the transfer to the State or County of legal residence of all persons who become stranded and apply for assistance. Through this service the Public Welfare Board works in cooperation with practically every welfare agency in the United States.

Civilian Conservation Corps—The

**CIVILIAN CONSERVATION CORPS**—The Executive Director of the Public Welfare Board was designated as the State Selecting Officer for North Dakota by the United States Secretary of Labor in February, 1936, for the selection of Civilian Conservation enrollees. The Board authorized the Executive Director to accept this responsibility.

The requirement of a relief status as a prerequisite for selection and the policy of requiring allotments of pay to dependents of enrollees necessitates the services of State and County agencies equipped and qualified to perform the work of investigation and selection of applicants.

The selection of CCC boys in each county is performed by the County Welfare Board or by the Executive Secretary of the Board. Selection is governed by relief needs of the applicant's family, preference being given to families in most need of public assistance. The work of selection necessitates a satisfactory case record of the family or a visit to the homes of the boys who have made applications. Frequent changes in allotments become necessary after enrollment. Replacement quotas must be filled as enrollees are discharged.

As allotments of CCC boys are made to North Dakota from time to time, quotas are given to various counties on the basis of relief population and available eligible enrollees in the several counties. From June, 1935, to November, 1936, a total of 9,944 were enrolled in CCC camps. The family of each enrollee receives an allotment of \$25.00 per month.

The enrollee receives \$5.00 for his personal needs. The enrollees are provided with transportation, shelter, board, clothing, medical and dental care. Total payments in 1936 to families of CCC enrollees from North Dakota amount to approximately \$1,400,000.

A complete record of every enrollee selected in the State is kept by the Public Welfare Board. This work requires one full time employee and approximately one-third of the time of one Field Representative, also extensive files and records, a large volume of correspondence and rather heavy postage, telegraph, and telephone expense. All of the administrative cost of selecting CCC enrollees, including transportation to point of enlistment, is borne by either the state or County Welfare Boards.

**SURPLUS COMMODITY DISTRIBUTION**—The Federal Surplus Commodities Corporation donates to the various states the commodities purchased by the Federal government for distribution for relief purposes. The Works Progress Administration has a state-wide project providing all the labor necessary for the care, record-keeping, and for actual distribution. The Public Welfare Board and the County Welfare Boards were designated by the Federal Surplus Commodities Corporation as the State and county agencies charged with the responsibility of determining who is eligible to receive these supplies. The commodities are shipped to distributing points in the state under government bill of lading without cost to the state, but the cost of transportation from these distributing points to the county and from the county seat to the various points within the county is borne by the Public Welfare Board and the County Welfare Boards. The Public Welfare Board pays for containers and other expenses incident to the handling of commodities.

In addition to the food products allocated by the Surplus Commodities Corporation, the clothing and other articles made by the WPA sewing units are included in the surplus commodity supply for distribution to the relief clients.

The Public Welfare Board of North Dakota is the general sponsor of surplus commodity distribution. The Board furnishes the State Director of Surplus Commodity Distribution with telephone service, telegraph service, postage, stationery, and other supplies. The Board has made rather large expenditures for transportation of surplus commodities, for the purchase of material, and the processing of material. The value of surplus commodities distributed in 1936 through State and County welfare boards was \$1,179,097.

**NORTH DAKOTA FARMER'S MUTUAL AID CORPORATION**—Because funds available to county welfare boards were insufficient to enable such boards to provide emergency medical care for the large number of relief clients resulting from the 1936 drouth, the Public Welfare Board appealed to the Rural Resettlement Administration to devise plans to care for emergency medical service for drouth relief clients, as emergency medical care was not provided for

under the drouth relief program. As a result of this appeal, the Rural Resettlement Administration organized the North Dakota Farmer's Mutual Aid Corporation to provide medical care for Resettlement grant clients by making loans to such clients. In order to initiate the program, the Rural Resettlement Administration loaned \$50,000 to the North Dakota Farmer's Mutual Aid Corporation. The Public Welfare Board assisted in the organization of the corporation and the Executive Director of the Board was named a member of the Board of Directors of the Corporation. The Public Welfare Board is furnishing blank forms and clerical assistance in the handling of this activity. This is justified by reason of the fact that the plan is relieving the county governments of heavy medical costs which they are unable to finance.

#### DIVISION OF ACCOUNTING, FINANCE AND REPORTS

The Division of Accounting, Finance and Reports of the Public Welfare Board is responsible for auditing, certifying for payment, and keeping proper records of all disbursements from both State and Federal funds in connection with general relief or assistance under the Social Security Program. Included in this division are the following—

- (a) A Disbursing Office, which writes all checks for Old Age Assistance or other assistance, all FERA liquidation disbursements and all disbursements of the Public Welfare Board from Federal grants.
- (b) An Audit Section, which audits all bills and accounts before payment.
- (c) A Reporting Section, which makes monthly reports to the Federal Emergency Administration, relative to expenditure of Federal funds and relative to expenditure of Federal, State and County funds for general relief. This section also makes monthly reports to the Social Security Board relative to Old Age Assistance and relative to other Social Security Programs.

The Division of Accounting, Finance and Reports acts in the capacity of business agent for the General Relief Division, Old Age Assistance Division, and Child Welfare Division. The Division maintains the records and accounts of each of these other divisions and makes all statistical reports required by the Federal Government and by the Public Welfare Board, and handles all research surveys. The division is also responsible for all activities in connection with the liquidation of the FERA.

#### DISTRICT OFFICES

Chapter 123 of the Laws of 1935, requires the Public Welfare Board to supervise the administration of such relief and welfare activities in each county as may be financed in whole or in part, by or with funds allocated or distributed by the Public Welfare Board.

**FIELD REPRESENTATIVE.** In carrying out this Legislative mandate the Public Welfare Board has divided the State into four districts and appointed a field representative of the Board for each district. These Field Representatives supervise and assist county welfare boards in the handling of general relief activities and in the handling of relief activities carried on in cooperation with the Federal government under the Social Security Act. These Field Representatives provide a connecting link between the State and County Welfare Offices and enable the Public Welfare Board to keep in constant touch with relief problems in the various parts of the State. One of their most important duties is to secure a uniform interpretation and execution of the policies established by the Public Welfare Board; a uniform and correct interpretation of rules and regulations promulgated by the various Federal relief agencies, relative to the investigation and certification of persons requesting work relief or other Federal aid; and to secure uniform interpretation and execution of the rules and regulations promulgated by the Social Security Board in connection with the various Social Security Programs.

**FIELD AUDITORS.** It is the duty of the Public Welfare Board in supervising the administration of relief in the counties to ascertain whether State and Federal funds distributed to counties through the Public Welfare Board are being spent in conformity with State law or Federal regulations and for the purposes for which the funds were made available. In order to carry out this duty, imposed by the Legislature, the State has been divided into four districts and a field auditor appointed for each district. Field Auditors have supervision over all bookkeeping and accounting in County Welfare Board Offices and are required to verify the accuracy of all book records and of all reports made to the State Office. Each Field Auditor is responsible for the supervision and control of financial and business activities of County Welfare Boards to such extent as is necessary to secure conformity with State law or Federal regulations. Audit reports covering all financial transactions of County Welfare Boards are submitted to the State Office, monthly, for each county in the State.

Field Representatives are under the direct supervision of the Executive Director and Field Auditors are under the direct supervision of the Supervisor of the Division of Accounting, Finance and Reports of the Public Welfare Board.

#### FERA LIQUIDATION

When the FERA was discontinued on December 15, 1935, Mr. Hopkins, the Federal Emergency Relief Administrator, granted \$2,766,149.57 to North Dakota and as a condition precedent to receiving these funds the State was required to liquidate FERA with the further understanding that the State might use for general relief purposes any balances remaining from this grant after all FERA obligations were liquidated and all reports required by the FERA completed. Pursuant to this agreement with the Federal Emergency

Relief Administration, the funds were turned over to the Public Welfare Board and the Board must pay all outstanding FERA obligations, complete all records, and submit such reports as the FERA may require. It was agreed that the Public Welfare Board would pay out of this Federal grant the administrative cost of completing these records and reports, and would also reimburse the United States Treasurer for any FERA expenditures to which the General Accounting Office might take exception.

The personnel employed in the liquidation of FERA has been reduced and administrative expenditures decreased as rapidly as possible, in order that a maximum amount of Federal funds might be available for relief purposes.

In addition to the payment of outstanding obligations, (thousands of relief orders and other bills) the FERA required reports covering 6,031 work projects which were conducted in the State by the FERA, including detailed breakdown of relief and non-relief labor costs, material expenditures by FERA and by local sponsors for each project.

Federal funds expended for relief purposes in North Dakota, under the FERA, during the period 1933 to 1935, inclusive, totaled \$24,856,991. It has been necessary in meeting the obligation placed upon the Public Welfare Board to carefully file and index the records covering the expenditures of this vast sum so that any item can be found quickly and all records audited without difficulty.

At the present time, eight persons are employed on the FERA liquidation payroll. Several of these people are working on the project reports. The others are checking and filing records and auditing for payment relief orders and other FERA bills which are still received every day.

Much of the time of the Executive Director and several other employees of the Public Welfare Board, who alone are familiar with the details of the FERA, is required in connection with FERA liquidation activities.

Of the FERA grant of \$2,766,049.57, \$1,354,179.02 has been expended for FERA liquidation up to December 31, 1937, \$1,315,575.78 has been expended by the Public Welfare Board, of which \$1,240,017 has been granted to the counties for general relief. The balance in the FERA fund on December 31 amounted to \$99,992.27, of which \$40,728.49 remained in the account of estimated outstanding commitments including cost of administration, and \$49,738.27 in the account set up to take care of general accounting office exceptions, leaving a balance of \$9,525.51. A detailed report of all expenditures, and a list of all persons employed in connection with FERA liquidation, and total payments to each person from December 15, 1935, to October 31, 1936, are shown in a recent audit report of the Public Welfare Board made by the State Bank Examiner, at the request of the Board. This report also gives a detailed statement of expenditures made by the Public Welfare Board from State

funds for general relief and for welfare activities, in connection with the Social Security Programs.

### THE SOCIAL SECURITY PROGRAMS

The Federal Social Security Act, approved in August, 1935, provides for a coordinated State-Federal plan of giving public assistance to the needy aged, needy blind, and to dependent children, for unemployment compensation and old age benefits; and for grants to States for maternal and child health services, services for crippled children, child-welfare services, vocational rehabilitation and public health services.

North Dakota has acquired for its citizens eligibility for the following benefits under the Social Security Act—

- Assistance to the needy aged
- Assistance to the needy blind
- Services for crippled children
- Child-welfare services
- Maternal and child health services
- Vocational rehabilitation
- Public health services

The Old Age Assistance Program, Aid to the Needy Blind, the Child Welfare Services Program, and the Program for Services to Crippled Children are under the supervision of the Public Welfare Board. State plans for each of these programs were submitted to the Social Security Board at Washington, and were approved. Due to conflicts in the State Mother's Pension Law with the requirements of the Social Security Act relative to Aid to Dependent Children, no plan has yet been worked out that would enable the State to secure Federal grants for Aid to Dependent Children.

**THE OLD AGE ASSISTANCE PROGRAM**—The Old Age Assistance Program was approved on March 21, 1936, and was put into operation in April. The North Dakota Plan for Old Age Assistance provides for a maximum allowance of \$30.00 per month for recipients of Old Age Assistance. 50% of the cost of direct assistance grants is paid by the Federal government, 25% by the State, and 25% by the counties of North Dakota.

Since the Old Age Assistance Program was started, 8,985 applications for assistance have been received by the Public Welfare Board, of which 6,767 were approved. On December 31, 1936, 6,370 persons or approximately 20% of all of the residents of North Dakota who are 65 years of age or over, were receiving Old Age Assistance. During December, 1936, the average payment, per person, per month, was \$15.84. Total payments to Old Age Assistance recipients from May

through December amounted to \$541,092. December payments amounted to \$99,902.

The Federal government pays fifty per cent of the cost of Old Age Assistance but limits its payments to \$15.00 per person, per month. It also makes a grant to the State for administrative purposes of an amount equal to five per cent of the Federal payment.

All the work of taking applications, making investigations and recommending disposition of applications is done in the county offices. Final disposition of each case, however, is made in the State agency. The report submitted by the county welfare board is carefully reviewed by caseworkers in the Old Age Assistance and Blind Division. This review has been proven to be advisable for several reasons: (1) it has promoted uniform consideration of applications in the various counties of the state, (2) it has served as a safeguard against the issuance of assistance which was not needed, or in amounts in excess of the amount needed, and (3) it has prevented the allowance of expenses in budgetary figures, for which Federal funds may not be used.

Much time is given to the consideration and the answering of letters of inquiry and complaint. Many aged persons find it difficult to understand the provisions of the Old Age Assistance plan and it is felt that these letters are entitled to receive careful and sympathetic thought so that definite and understandable information may be given.

Because of the fact that the relief needs of approximately 7,300 persons, who were approved for payment of the 1933 Old Age Pension, must also be considered to determine eligibility or ineligibility for Old Age Assistance, and because of the initial cost of providing forms necessary for the administration of the program and of setting up suitable book-keeping, filing and statistical records for the required reporting of activities in Old Age Assistance, the administrative cost in the early part of the program was high. When the program has been established on a normal basis, a reduction in administrative cost will naturally result.

The value of proper administration and careful investigation in connection with relief activities is definitely shown in the Old Age Assistance program. For instance, since the initiation of the program, 2,036 of the persons who made application have been determined to be ineligible. The average life expectancy of all persons in North Dakota, who are 65 years of age or more, is estimated at seven years. If these 2,036 persons had been granted Old Age Assistance at an average monthly payment of \$16.00, it would have resulted in an unnecessary expenditure of public funds amounting to \$390,912 per year, or a total of \$2,736,384 for the seven year period of life expectancy.

**AID TO THE BLIND**—The State Plan for Aid to the Blind was approved on November 9, 1936. One-half of the cost of Aid to the Blind is borne by the Public Welfare Board out of the Sales Tax fund and one-half is paid from

Federal funds granted by the Social Security Board. County participation is confined to payment of local administrative cost within each county.

The procedure in the Aid to the Blind program is almost identical with the procedure described under Old Age Assistance. Aid to the Blind is administered by the same county and state personnel that handles Old Age Assistance. No additional employees are necessary.

### CHILD WELFARE

North Dakota's child welfare programs for which money was allocated to the Public Welfare Board last fall are now in full operation. There are two distinct child welfare programs—The Child Welfare Services Program, and the Services to Crippled Children Program.

**CHILD WELFARE SERVICES**—The Child Welfare Services Plan for North Dakota was approved October 21, 1936, by the United States Children's Bureau. The plan provides for the employment of nine child welfare workers in the various judicial districts of the State. Six of these workers have now been placed. It is their duty to assist juvenile court commissioners, county welfare offices, and schools, in handling problems of dependency and neglect among children. These workers will aid in unifying and coordinating all child welfare activities for the prevention of future dependency and delinquency. The entire cost of this program is borne by the Federal government. These employees appear on the payroll of the Public Welfare Board but are paid entirely from Federal funds given to the State for that specific purpose. The present monthly payroll for this program is \$750.

**CRIPPLED CHILDREN PROGRAM**—A State Plan for Services to Crippled Children was approved by the Social Security Board on November 25, 1936, and is now in active operation. This plan involves the giving of medical care and other services for crippled children throughout North Dakota. Under this plan through the cooperation of the Federal government, the State will be able to greatly expand services and facilities for crippled children and for children suffering from conditions which lead to crippling. According to a recent survey made by the State Nursing Service under the State Department of Health, it is estimated that there are approximately 2,000 physically handicapped children in the State needing medical care.

Under the Crippled Children Program the State is required to match Federal Grants on a dollar for dollar basis. In order to consolidate child welfare activities and secure the maximum amount of Federal aid the Board of Administration and the Public Welfare Board agreed to consolidate the activities of the State Children's Bureau under the Board of Administration with the Child Welfare Division of the Public Welfare Board.

The Public Welfare Board made a grant of \$9,900.00 for

Services to Crippled Children, and the Board of Administration set aside \$1,828.00 from their Children's Bureau appropriation for the same purpose in order to secure Federal cooperation and participation in the program. The Federal government has provided \$11,728.00 to match these State funds, in accordance with the provisions of the Social Security Act. Thus, there is available for Services for Crippled Children, a total of \$23,456.00 for the period ending June 30, 1937.

---

The preparation of the various State Plans approved under the Social Security Act has required a great deal of work in cooperation with representatives of the Social Security Board. All of the initial cost before final approval of each plan was paid from Public Welfare Board Funds.

---

On January 15, 1937, 69 persons were in the employ of the Public Welfare Board. Nine of these persons were employed in FERA liquidation and were paid from Federal funds; seven were employed in the Child Welfare Services Division and were being paid entirely from Federal funds specifically granted to North Dakota for such purposes; eight were employed in district offices. This leaves a balance of 45 who were employed in the State office of the Public Welfare Board and paid partly from State and partly from Federal funds. Twenty-one were employed in the Old Age Assistance Division, the balance being employed by the General Relief Division, Services to Crippled Children Division and the Accounting, Finance and Reports Division.

The Public Welfare Board receives \$2,500 per month from the Social Security Board to pay part of the administration cost of Old Age Assistance. This amount exceeds the total cost of administration in the State office.

A detailed list of persons employed by the Public Welfare Board in December, 1936, and the first half of January, 1937, together with the average number of hours worked per week, the amount of salary received, and the term of employment of each is shown in the attached tables.

Respectfully submitted,

E. A. WILLSON,  
Public Welfare Board.

Mr. Niewoehner moved that a communication received from  
The Honorable G. Grimson, Judge of the District Court, be  
printed in the Journal, which motion prevailed.

NEED OF INDUSTRIAL TRAINING FOR DELINQUENT  
AND SUBNORMAL YOUTH

By G. Grimson, Judge of the District Court.

The press reports of a new child welfare program undertaken by the State Welfare Board with the cooperation of the Federal Government. Trained child welfare workers are to be provided in the different districts and counties for more investigation and better attention to the care of dependent and delinquent children. That is a welcome aid to those who have had to deal with such problems and a step in the right direction.

It seems to me, however, that supplemental to that work and of the greatest importance to us now is the establishment somewhere in our educational system or in connection with our charitable institutions of a place or places where proper industrial training can be given to those who can best be helped by such training.

There is no department in our State Training School of manual training of any kind. Those sent there have no opportunity to learn anything of mechanics or a trade. The labor of some of them is utilized on the farm or in connection with the repairing or upkeep of the institution but no course is provided to teach farming, to teach the mechanics of the gas engine, carpentry, blacksmithing, welding, or any of the invaluable trades that might be so useful to them in after life.

There is a department of manual training and trades are taught at the School for the Deaf at Devils Lake. Manual training is a part of the instruction given at the institution for the Feeble Minded at Grafton. Such instruction is given in many high schools. Why should not those, who, through some unfortunate circumstance, perhaps because of something abnormal in their mental makeup, have to be sent to the Training School, not be there provided with as good an opportunity to prepare for life as are the physically handicapped at the other institutions.

In every other training school that I have investigated I have found great emphasis laid on the teaching of trades and mechanics. Experience seems to indicate that many of those who are sent to such institutions can best be reached and made good citizens through a training with the hands.

This matter was some years ago before the Judicial Council, who appointed a committee to investigate. Upon the report of that committee and on the appearance before the council in support thereof by Superintendent McClelland of the Training School, the Council passed the following resolution: "That it be the sense of the Judicial Council that more training in farm mechanics for boys at the State Training school would be very desirable and that we respectfully suggest that the Superintendent and Board of Administration and the Legislature use every endeavor to see that such a course is provided there." As far as I am informed neither the Board of Administration nor the State Legislature has so far taken any action to provide for such a course at the State Training School.

Furthermore, my experience in conducting Juvenile Court is that many of those brought there are not really delinquent or are not sufficiently so that they should be branded for life with that designation and a committment to the State Training School. They are young people, often with little or no home protection, who may be a little abnormal or subnormal and have drifted unconsciously into some anti-social activities. Such young people often have no home and do not fit into any home, at least without some training. What to do with them is one of the biggest problems for the Courts. No place is provided in our educational system or in the charitable institutions. The Children's Home Society, the orphanages and welfare agencies of the church do all they can, but their help is often unavailable or inadequate. For that class of young people there should be provision made either in connection with some of our present institutions or otherwise where they can be sent for physical and mental examination, for proper observation. It may be possible to discover the deficiency of character which has brought them to their present condition, and the special bent endowed by Providence which, if developed, may make them good citizens.

We have an adequate if not over developed system of educating the normal and strong. We are attempting to do everything possible for the physically handicapped. For those, however, who are somewhat below normal, somewhat handicapped mentally if not physically and who have need of special attention just as much as those with physical handicaps we have no provision. It is from that class that the delinquent

develops. Their tendency is to drift into the criminal class and to become a destructive burden on society.

Our Constitutional Convention must have had in mind to do something for that class when after establishing institutions of learning for the well and of training for the handicapped, it provided "An industrial school and school for the manual training or such other educational or charitable institution as the assembly may provide." Sec. 216, Constitution. Instead of carrying out the purpose indicated that particular institution was turned into a normal school.

It seems that our tendency has been to emphasize the training for white-collar workers rather than artisans and trades people. The PWA administration complains that their greatest difficulty in public works projects is in finding skilled workers. Many craftsmen have to be brought in from other states.

Our legislature is now in session. My appeal is to all those interested in child welfare to call this matter to the attention of their legislators and ask them to consider making adequate provision for a department of industrial training at the Training School and to endeavor to work out some plan either in connection with some present institution or otherwise, for a place to which to send the subnormal for proper development without the stigma of having been to the Training School. I realize that this is a time for economy, but what is better economy than the salvaging of human lives?

A Concurrent Resolution Memorializing Congress to Propose for Ratification by the State of the Union an Amendment to the Constitution of the United States Providing That a Declaration of War Must Be Ratified by a Nationwide Referendum and Providing for the Conscription of Private Property Necessary for the Conduct of War During Times of War.

WHEREAS: Disclosures made by the Munitions Investigating Committee and information secured from independent agencies, indicate that Munition and Armament firms not only made excessive profits during the World War but are engaged in times of peace in disseminating propaganda tending to incite fear among nations, and to increase their armaments, thereby encouraging and eventually leading to a declaration of war; and

WHEREAS: Taking the profits out of war and requiring a National Referendum before the United States undertakes an offensive warfare, except in the event of invasion or attack, would vastly minimize the probabilities that the United States would become embroiled in another European or Foreign War; and

WHEREAS: A Resolution for an amendment to write these principles into the Constitution of the United States is about to be introduced in Congress,

NOW, THEREFORE, BE IT RESOLVED, by the House of Representatives of the State of North Dakota, the Senate Concurring, that we earnestly urge the Congress of the United States to propose for ratification by the States of the Union, an amendment to the Constitution of the United States, providing that except in the event of an invasion of the United States or its territorial possessions and attack upon its citizens residing therein, the authority of Congress to declare war shall not be effective until confirmed by a majority of all votes cast thereon in a nationwide referendum; and providing further that whenever war is declared the President shall immediately conscript and take over for use by the Government all private properties and facilities necessary for the conduct of such war.

BE IT RESOLVED FURTHER, That copies of this Resolution be immediately forwarded to the President of the United States, to the Speaker of the House of Representatives of the United States, and to the President of the United States Senate, and to each member in Congress from the State of North Dakota.

N. P. JENSEN,  
Chairman.

Mr. Godwin moved that the report of the Committee of the Whole be adopted, which motion prevailed and the report was adopted.

#### SEVENTH ORDER OF BUSINESS

Mr. Godwin moved that the vote by which House Bill No. 49 was declared lost be reconsidered, which motion prevailed.

Mr. Godwin moved that House Bill No. 49 be re-referred to the Committee on Ways and Means, which motion prevailed.

Mr. Page moved that House Bill No. 69 be re-referred to the Committee on Taxes and Tax Laws, which motion prevailed.

Mr. McInnes asked permission to withdraw House Bill No. 86.

Mr. Godwin moved that the House accede to Mr. McInnes' request to withdraw House Bill No. 86, which motion prevailed.

Mr. Godwin moved that the House support the Committee on Appropriations in the matter of the three percent salary adjustment.

Mr. Williams: I want to say a few words, and I want my remarks printed in the Journal.

Friends, we were elected on a platform to cut expenses in the State of North Dakota. We are two years harder up than we ever were in the history of the state. There are many men and women in the country today living on fifteen and twenty dollars a month, and these people included under the salary adjustments are getting all the way from two hundred and fifty to three hundred dollars a month. Is that fair? We were elected on a platform to cut expenses. It isn't fair for us to go home to the men and women who expected us to do something for them, and tell them that we have raised the salaries of those who are living in luxury.

We are keeping them in luxury. Are we going home without having made any protest at all? Its a crime, and it has always been a crime. The farmers of this state have produced the wealth, and now sixty percent of them are on doles, and then we are expected to raise the salaries of these people to keep them in fine clothes, and cars, and its a crime. I am for cutting it down to the last ditch.

The question being on Mr. Godwin's motion, a roll call was demanded and granted.

### ROLL CALL

The question being on Mr. Godwin's motion, the roll was called and there were ayes, 41; nays, 59; absent and not voting 13.

Absent and not voting:

Messrs.	Messrs.	Messrs.
Anderson	Jones	Nelson, Cass
Bjornson	Knudson, Steele	Olson, Adams
Brusseau	Krank	Traynor
Dittmer	Leum	Treffry
Dullea		

So the motion was declared lost.

Mr. Myers: I want to explain my vote, and have my remarks printed in the Journal.

I think this is a rather peculiar situation in which we are placed. This salary increase has been quite a bone of contention here. Now we have appointed these committees, and while I am opposed to the proposition of increasing salaries, I understand that these salaries are in the lower brackets, for common labor and work around the institutions, and I have faith in the judgment of the two committees and in the administration. For this reason I vote "aye" on this motion.

Mr. Thompson: I want to explain my vote, and have my remarks printed in the Journal.

The way I felt about it on that committee, a lot of these people, janitors and such as that, are getting very little pay. The Senate has already agreed on that, and want us to agree with it, and unless we do agree with it we will waste more time arguing on these bills, and having conference committee reports, then we will possibly save. There are many places in the state where we can cut down our expenses and save that money back twice over, and avoid controversy in the committee. When you fellows have been on the Appropriations Committee as long as I have, you will find that you have to give and take a little bit, and a three percent adjustment to the fellows who are getting thirty or forty dollars a month isn't going to amount to anything for the taxpayers. We are going to waste more of their money arguing this matter than we would save. I vote "aye."

Mr. Beggs: I voted "aye" because as a member of the Appropriations Committee we agreed to do that, and I vote "aye" in support of the Appropriations Committee.

Mr. Frazier: I voted "aye" on that motion because I felt the people were entitled to it. I voted "aye" on it, not because somebody is getting less than we are, but because I want to bring other people up to what they are entitled to be up to, and I am not for bringing anybody down. I want to raise the standard of living for those people who cannot now keep up with the American standard of living. I think they are entitled to the raise.

Mr. Magill:

I voted "no," not because I didn't like to see these people get the raise, but I vote "no" on that for the irrefutable reason that there are a great many people in North Dakota who

are serving well and who are not going to be affected except adversely. If the people there have their jobs now, we are not going to take them away, and I think it is only up to them to do their share to tide us over this period of depression.

Mr. Wolf moved that the House adjourn, which motion prevailed and the House adjourned.

#### PETITIONS AND COMMUNICATIONS

Communication from Harry L. Hopkins, administrator of the Works Progress Administration of Washington, D. C., was read.

Communication from the LaMoure Labor Club, urging the passage of House Bill No. 21.

January 30, 1937.

To the Honorable House of Representatives,  
25th Legislative Assembly,  
Bismarck, North Dakota.

In compliance with House Resolution "E", I requested Mr. F. F. Burchard, Certified Public Accountant, who is now making an audit of the State Mill and Elevator, to submit to me the information desired in House Resolution "E".

I wish to call your attention to the fact that Mr. Burchard's report at this time does not cover all the information desired in House Resolution "E". I am unable to comply with all of this resolution at this time, due to the fact I have no records in this office prior to 1931, in connection with the State Mill and Elevator, as they were all destroyed in the capitol building fire. However, I have requested Mr. Burchard to submit the balance of the information to comply with House Resolution "E" and this will be forthcoming within the next few days.

In compliance with that part of Resolution "E", inquiring if there was any one delivered processing tax refund checks in person, representing the State Mill and Elevator, I beg to advise you that I have been reliably informed that Mr. Stephen TerHorst, who was Acting Manager of the State Mill and Elevator, delivered in person some \$87,000.00 in checks to the Purity Bakery Account, the Regan Bakery Account and the Midland Bakery Account, all of Chicago, Illinois. It is my information that this was done the latter part of December, or the fore part of January, 1937, and on January 5, 1937, Mr. A. J. Scott was appointed Acting Manager of the State Mill and Elevator and discovered that these accounts had been overpaid some \$27,000.00, according to the report of the Certified Public Accountant, Mr. Burchard, and as Acting Manager of the Mill, Mr. Scott ordered payment stopped on these checks, and this was done.

I will comply with the balance of this request just as soon as it is possible to assemble the information desired.

Yours respectfully,

N. D. INDUSTRIAL COMMISSION,  
By JAMES MULLOY,  
Secretary.

January 29, 1937.

James Mulloy, Secretary,  
Industrial Commission,  
Bismarck, North Dakota.  
Sir:

In compliance with your request of even date and pursuant to House Resolution "E," I give you the following information relative to Processing Tax expenditures at the State Mill and Elevator.

This information does not cover all the matters referred to in said Resolution "E" but is all I have available in certain papers I have with me in Bismarck. Upon my return to Grand Forks I will complete the data, if possible, and give you a further statement.

#### EXPLANATIONS OF VOTES

Mr. Bieloh: I want to explain my vote. I vote "no" on House Bill No. 24 because it is too great an increase over the 1935 appropriation, and the taxpayers today cannot stand an increase over the 1935 appropriation.

Mr. Frazier: I want to vote "yes", and I want to explain my vote and have it recorded in the Journal. I vote yes on this bill because it is the best thing we can do to save the taxpayers a lot of wasted money in conference committees here in the last day of the session, when there will be a rush of legislation and we probably won't know what we are doing anyway. I vote "yes" on this bill because we have reduced the appropriation recommended by the Budget Board by \$6,241.00.

Mr. Hagen: I vote "no" on this bill because I think all the parties have been considered except the men that pay the bills; because there are over three hundred thousand people in the state who are getting along on very much less money than we are appropriating for these salaries.

Mr. Holm. I want to explain my vote and have my explanation recorded in the Journal.

I vote "no" for this bill for the simple reason that in my estimation there isn't enough money to go around. I feel, furthermore, that the primary schools of our state have as yet not come into the picture, and before we come to them the funds will be gone. The primary schools are the very backbone of our nation. For that reason I vote "no."

Mr. Holmquist: I cannot go home to my people to show a record that I voted "yes" for this proposition. Therefore, I say we should take this more seriously. Let us vote, and vote against this raising of salaries everywhere. Therefore, I put my vote as "no."

Mr. Knutson of LaMoure: I vote "no" on this because the last thing they told me in my county when I left was

to vote against any increases in salaries, and I don't want to bite the hand that is feeding me.

Mr. Livingston: I don't want to vote for any increase in salaries, but in order not to hold this up any further, I vote "yes."

Mr. Magill: I am voting "no" on this bill for the simple reason that the House went on record a few days ago as opposed to an increase in salary, and I, for one, am maintaining that position.

Mr. Morland: I am opposed to that part of the bill which contains the salary increase, but in order to facilitate matters and get this thing out of the way, I vote "aye."

Mr. Oglesby: I vote "no" on this bill for the simple reason that we're way behind on our taxes, and there is no possible way of raising them. We have plenty of men who will take the places of those employees, and I understand it is mostly for those drawing salaries of less than two thousand. Therefore I vote "no."

Mr. Semerad: I vote "no" on this bill because I feel that my people are not in a position to pay any increase in salaries. For that reason I vote "no."

Mr. Solberg: I am deeply interested in the University of North Dakota, and her progress, but I am very much more deeply interested in the smaller and lower institutions of learning in our state. Due to the fact that we have not yet appropriated any money, or do not know where we would get it for these institutions, I vote "no" on the salary increase in this bill.

Mr. Thompson: My people sent me here and told me to do the very best I could for the interest of the state. I am trying to do it, and that is the reason I am voting "aye" on this bill.

Mr. Thoreson: I wish to explain my vote. I am opposed to any increase appropriation, but to get out of this difficult situation we are in I vote "aye"; further, for the reason that a matter which was not understood the other day, that the salary increase—this little salary adjustment—should apply only to the University, whereas, now it applies to other instructors in fairness to them.

Mr. Wick: I would like to go on record as voting "no," because I think the raising of salaries at this time is the wrong thing. I can't see my way clear to voting for it, and want to go on record as keeping expenses down.

Mr. Williams: I can't go home and look those old, hard-working farmers in the face and tell them that I voted for an increase. For the last fifty years they have been bearing the burden of taxation. I couldn't do it, fellows. I can't stand here and vote for this bill that will put an additional burden on their old shoulders down there. They told me to come up here and do what I could for them, and I am going to stand by them and do it if I have to vote alone. I vote "no."

Mr. Niewoehner: I realize and I regret that many of our instructors are being underpaid, but because of the most deplorable condition in which our people find themselves, I vote "no" on the salary increase.

House Bill No. 25. A Bill for an Act Making a Special Appropriation to Pay for the General Maintenance of the School of Medicine at the State University, Grand Forks, North Dakota.

Was read the second time.

Mr. Biberdorf: I want to explain that I am still opposed to any increase in salary.

Mr. Akland: The reason I voted "no" was on account of the salary increase. As I stated the other day, I cannot go home to the people in my county and show them that I voted for any bill that had any salary increase. That is why I voted "no."

Absent and not voting:

Messrs.	Messrs.	Messrs.
Anderson	Byrne	Jones
Black	Gessner	Just
Burgum	Godwin	Treffry

So the bill passed and the title was agreed to.

Mr. Traynor: I am voting "no," because it appears to me that the appropriation is excessive. I didn't discover that until just now, but it seems to me that it is costing the state about 55c for each license tag, to maintain that department. The license tags actually cost somewhere in the neighborhood of 10½c per car, and about 8c for postage; the rest of this is to be used for maintaining the office. It seems to me that that is excessive.

I am voting against this bill for the further reason that the total appropriation for the biennium of 1935 to 1937 was only \$113,000.00, and now it is \$175,000.00.

Mr. Blair: I voted "no" on this Bill because I believe the amount asked for is excessive.

Mr. Niewoehner: I figured the Committee on Appropriations had given this Bill a thorough going over, and I figure that we should be allowed to let the Committee on Appropriations decide on some of these things, and therefore I do not change my vote.

House Bill No. 112. A Bill for an Act to Prohibit the Operating of Motion Picture Theaters Which Are Owned, Controlled, Managed, or Operated, in Whole or in Part, by

Producers or Distributors of Motion Picture Films, or in Which Such Producers or Distributors Have Any Interest.

Was read the second time.

### SEVENTH ORDER OF BUSINESS

Mr. Godwin moved that the report submitted by Mr. Adam relating to the Hospital for the Insane at Jamestown be read and printed in the Journal.

Which motion prevailed.

Mr. Twichell moved that the vote by which Mr. Godwin's motion prevailed be reconsidered.

Which motion prevailed.

Mr. Twichell offered a substitute motion that the report be not printed.

Which motion lost.

The report was therefore ordered printed in the Journal.

### REPORT OF REP. ADAM RELATING TO THE HOSPITAL FOR THE INSANE IN JAMESTOWN

Inmates.....	175	home on visit or parole
Inmates.....	1041	men
Inmates.....	774	women

Total.....1990 or about 2000

They come in at a rate of 40 per month.

Sending home 60% annually from the number coming in; 25% are there for life. They are fairly well but have no home and nobody takes them out, and they can take care of them there just as cheap as any other place in the State. The death rate is 10%. It appears that during the hot weather in the summer, and the cold weather in winter, is the time when most deaths occur.

The administration asked us to appropriate not less than 85c per day per person; that will keep them.

The Government inspection rated the institution 100% or one of the best in the United States, of which North Dakota can be proud.

They ask for a new boiler in the power plant and a bigger size, than they have. They have two boilers, 24 years old,

and are condemned by the inspector. Take out two small ones and put in one big one.

And the laundry room is in the basement and is too small. They want that lifted up on top of the ground, on account of being too hot in the summer time. Have to work short hours on account of that. Some of the washers are wore through and so they need some new machines.

I recommend this report be printed in the Journal.

#### SECOND READING OF HOUSE BILLS

House Bill No. 83. A Bill for an Act to Amend and Re-enact Sections 4 and 6 of Chapter 92, Providing for the Consolidation of Counties and Parts of Counties; the Petition and Election Therefor; the Vote Thereon; Result Thereof; and Proclamation by the Governor; the Officers; Expiration of Their Terms and Transfer of all Books, Records and Property; Nominations When Void; the Transfer and Trial of All Actions; the Debts, Taxes and Issuance of Bonds or Certificates of Indebtedness, and Repealing All Acts in Conflict.

Was read the second time.

So the bill was lost.

Mr. Kapaun moved that the vote by which House Bill No. 83 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion lost.

EXPLANATIONS OF VOTES

Mr. Caddell: I don't believe that we should make it any harder for these counties that are hard up to join up with some other county by passing this law. For that reason I vote "no."

Mr. Hagen: I vote "no" because I believe North Dakota stands a good chance of losing a very nice part of her territory if this law carries.

Mr. Magill: I believe in leaving things as they are without a very good reason for a change. For that reason I vote "aye."

Mr. Frazier: I vote "aye" on this bill because I don't believe that it is right for any of the larger counties to swallow up the smaller counties without the full consent of the smaller counties. I am fighting for the little fellow, not the big guy.

The Speaker called Mr. Wolf to the chair.

House Bill No. 98. A Bill for an Act Instructing the Board of Administration of the State of North Dakota to Immediately Make Certain Alterations, Improvements and Additions to the Partially Completed Public Address and Radio Reproducing System, the Loud Speaking, Telephones, and Horn System and Devices in the Chamber of the House of Representatives; Requiring the Same to Be Approved by the Speaker of the House, Making an Appropriation Therefor, and Declaring an Emergency.

Was read the second time.

## ROLL CALL

The question being on the final passage of the bill, as amended, the roll was called and there were ayes, 58; nays, 47; absent and not voting 10.

Those voting in the affirmative were:

<b>Messrs.</b>	<b>Messrs.</b>	<b>Messrs.</b>

<b>Messrs.</b>	<b>Messrs.</b>	<b>Messrs.</b>

Dullea		

So the bill was passed.

Mr. Freitag moved that the vote by which House Bill No.

98 was lost be reconsidered and the motion to reconsider be laid on the table.

Which motion was lost.

Mr. Frazier: I vote "aye" on this because of the fact that there are a goodly number of the members whom I cannot hear, and especially when there is a lot of rumbling conversation going on in certain other parts of the House. I vote "aye" on this because I do not feel that it would be advisable to continue to pay out five or six hundred dollars per session for a temporary system, when we can enter into a permanent arrangement for twenty-five hundred dollars.

Mr. Holmquist: I am in favor of this because I know it would be a well paid investment. Then we could hear what is said in the House. As it is now, we cannot hear what is said on the other side, and they cannot hear what is said on this side. Therefore I vote "aye."

Mr. Traynor: I vote "no" because I think we ought to be consistent. Because of the severe financial conditions in this state, we are asking every institution and department of the state to economize, even to the point of their suffering and inconvenience. That being the case I think we ought to set an example and deny ourselves.

House Bill No. 60. A Bill for an Act Making an Appropriation to Provide Funds for the Payment of a Deficit in the Office of the Commissioner of Agriculture and Labor.

Was read the second time.

### ROLL CALL

The question being on the final passage of the bill, as amended, the roll was called and there were ayes, 64; nays, 38; absent and not voting, 11.

Anderson	Byrne	McInnes
Beaton	Dullea	Peterson, Bot'neau
Black	Jensen	Seibel
Burgum	Jones	

So the bill passed, the title was agreed to, and the emergency clause was declared lost.

Mr. Williams: There are too many of these deficiency bills coming in. I don't believe in giving them one dime, not one dime. So long as we continue giving them these appropriations, they are going to come begging for more. Therefore I vote "no" on this bill.

Mr. Shure moved that the vote by which House Bill No. 60 was declared passed be reconsidered, which motion prevailed.

Mr. Godwin moved that House Bill No. 60 be placed on the calendar for tomorrow, which motion prevailed.

The Speaker resumed the chair.

#### OFFICE OF THE GOVERNOR

Bismarck

February 6, 1937.

To the Members of the House of Representatives, Twenty-Fifth Legislative Assembly.

Gentlemen:

The extreme cold weather, heavy snow and blocked roads which we had feared, are now here, bringing with them real emergent need for food, clothing, fuel and feed for livestock. Reports by the hundreds directed to me indicate definitely that people are desperately hard up and are suffering for the lack of the necessities of life.

These conditions prompt me to urge your immediate consideration of appropriations necessary to prevent suffering, want and destitution.

I therefore recommend that the appropriation bills which are being introduced today be passed immediately. This action is necessary to enable the Public Welfare Board to plan definitely and to know what monies will be available for relief purposes, thus permitting the Board to make grants to the county Welfare Boards in sufficient amounts and at such times as will meet the emergency.

More and more counties are exhausting their own resources, and are finding it impossible to provide their share of funds on the present basis of allotment established by the Public Welfare Board.

I urgently recommend the immediate appropriation of \$3,000,000 for general relief. \$1,000,000 of this amount is needed to help the county welfare boards for the periods ending June 30th, 1937.

The Public Welfare Board estimates that \$2,000,000 will be sufficient for the biennium ending 1939, provided there is a profitable crop in 1937.

The appropriation requested by the Public Welfare Board for the purpose of providing the State's share of Old Age Assistance, Aid to Dependent Children, Aid to the Blind and for providing Child Welfare Services and for Services to Crippled Children in cooperation with the Federal Government and the various counties, is required to enable the State to receive Federal aid under the Social Security program. Without this comprehensive program the aged, the blind, the crippled children and dependent children will be on relief, and the state and the counties will have to provide for them without assistance from the Federal Government.

The two million six hundred thousand dollar appropriation request is based upon a careful estimate made by the Board and cannot be reduced without jeopardizing the public assistance program under the Federal Social Security Act.

Respectfully yours,

WILLIAM LANGER,  
Governor.

WL:JEB.

Mr. Solberg: "I vote 'no' on this bill because I am absolutely opposed to any board having controversial powers in any organization in the state, and I also think the bill is absolutely unethical. For that reason I vote 'no'."

Mr. Pewe: "I am voting 'no' on Senate Bill No. 93 and wish my vote recorded in the Journal. I am voting 'no' because unnecessary pressure has been brought to bear, trying to make me vote against my honest convictions. Through personal experience I am convinced that a large number of dentists should be working as apprentices in Blacksmith shops, and not practicing as licensed dentists—and these dentists I have in mind are some of those so-called ethical dentists this law aims to protect."

Mr. Solberg moved that the vote by which House Bill No. 71 was passed be reconsidered and the motion to reconsider be laid on the table.

Mr. Williams: I can't imagine farmers coming up here, under the conditions at the present time, and voting "no" on this bill. We have been trying to get out from under this load for fifty years, and now have a chance to rectify ourselves—and you fellows are voting "no." I can't imagine such a thing. I wouldn't think so much of the bankers voting "no" on this bill, but 75% of you are sod-busters, and I can't understand it. I vote "aye" on this.

Mr. Magill: I voted "aye" on this bill, not because I subscribe to some of the arguments put forth in favor of it, but because I feel that this bill being passed will be open to amendment in the Senate, and because I don't want to kill the bill I vote "aye."

## MESSAGE FROM THE GOVERNOR

## OFFICE OF THE GOVERNOR

Bismarck

February 9th, 1937.

To the Members of the House of Representatives,

Twenty-fifth Legislative Assembly:

Gentlemen:

I herewith return Senate Bill 38, without my approval.

This bill is an appropriation in the sum of \$10,085.00 to pay salary, clerk hire, travel and general expense of the office of the Veterans' Service Commissioner, as prescribed by Chapter 281 of the Session Laws of North Dakota for the year 1927 and Chapter 74, Laws of 1929.

Said Chapter 281 of the Session Laws of 1927 provides that the Veterans' Service Commissioner shall be appointed by the Governor from a list of five men, furnished by the State Executive Committee of the American Legion, and to all practical purposes makes this an American Legion bill to the exclusion of the United Spanish American War Veterans, the Veterans of Foreign Wars of the United States,

the National Guard of the State of North Dakota and the Disabled Veterans of the World War.

In spite of the barrage of letters and telegrams seemingly inspired by interested persons, together with two letters threatening political reprisals unless I sign this measure, I cannot conscientiously do so.

The American Legion has permitted a few men to speak for it, who have betrayed the fine, high ideals of that organization. The records show that these few individuals wrongfully assisted in the misappropriation of \$1,180.43 about the 20th day of September, 1935, from the funds of the National Guard, and used that money to finance a trip of the American Legion band to St. Louis, Missouri.

Not satisfied with wrongfully misappropriating this money, they got \$250.00 on the 21st day of September, 1935, from the State Mill and Elevator, to send the American Legion band to St. Louis, Missouri.

Not satisfied with misappropriating this money, they secured on the 18th day of September, 1936, for the purpose of sending the Grand Forks American Legion drum corps to Cincinnati, Ohio, the sum of \$750.00 more from the Mill and Elevator at Grand Forks.

These actions are all the more reprehensible because only four years ago I as Governor told these same men that the taking of money from the National Guard fund and from the Mill and Elevator was illegal, and personally assisted in raising \$1,500.00 in subscriptions from private individuals to pay the expenses of the American Legion band.

Because of the actions of these few men the Industrial Commission some two weeks ago instructed its legal department to institute suit against the former Acting Governor and others in charge of the National Guard and Mill and Elevator funds, to recover this \$2,180.43, and to include the State Bonding Fund in these suits.

If the Legislature will amend and re-enact this measure, including Chapter 281, Laws of 1927 and Chapter 74, Laws of 1929, and provide that the Veterans' Service Commissioner shall be appointed by the Governor of the State of North Dakota from one of three veterans selected by the Department Commander of the United Spanish War Veterans, Department of North Dakota; Department Commander of the Veterans of Foreign Wars of the United States, Department of North Dakota; the Department Commander of the American Legion, Department of North Dakota; the Department Commander of Disabled Veterans of the World War, Department of North Dakota, and the Adjutant General of the State of North Dakota, or a majority thereof, I shall be glad to approve the measure.

Yours very truly,

WILLIAM LANGER,  
Governor.

WL:JEB

The Clerk read a communication signed by one hundred and three signers from McIntosh County, protesting against an excessive hail tax. Referred to Committee on Insurance.

#### EXPLANATION OF VOTES

Mr. Adam: I am a member of the appropriation committee and if this bill becomes a law, we may get another bill to enlarge the jails and penitentiary and we are criticized already that we spend too much money.

Mr. Frazier: I don't think there is anybody chiseling any more than the officers distributing the relief, therefore I vote "no."

Mr. Knutson of LaMoure: I vote "no" on this bill because it does not take in enough. It does not take in the members of the Welfare Board, the investigator of the Welfare Board. These officers should be prosecuted the same as the rest of them. Therefore, I vote "no."

Mr. Magill: I am voting "no" on this bill. I think it leaves its scope entirely too much up in the air. It is only human that a prosecutor try to get the maximum penalty, and I think that the very severity of the punishment required in the Act is going to cause the people more harm than good and defeat its purpose.

Mr. Myers: I would be in favor of a bill along this line, but the penalty is too severe. I think you would have a hard time collecting a \$500 fine from a man on relief. Therefore, I vote "no."

Mr. Semerad: I vote "no" for the same reason as a lot of these fellows—because a fellow getting a \$5.00 bill and using it for some purpose or to buy a better car or something like that is criticized, and the guy that spends it in the beer parlor gets by.

House Bill No. 167. A Bill for an Act Making an Appropriation to Cover a Deficit in the Office of Securities Commission; to Provide for Expenses Necessary to Carry on an Investigation Ordered by the Legislature; Making an Appropriation and Declaring an Emergency.

Was read the second time.

Mr. Twichell moved that further consideration of House Bill No. 167 be indefinitely postponed.

Mr. Twichell moved that the vote by which House Bill No. 208 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

Mr. Anderson: I vote "no" on this question for the reason that the county, township and school districts have issued warrants against the back taxes, penalty and interest, and if this law should pass they would be bankrupt; they would have issued more warrants than they would get back taxes.

Mr. Holm: I voted against this bill for the simple reason that people who are able to pay their taxes take advantage of this measure, or any similar measure.

Mr. Knutson of LaMoure: I have my taxes all paid, so personally this measure won't help me, but I believe there are a lot of poor people who haven't got theirs paid, and who would be helped by this law. Therefore I vote "aye".

Mr. Magill: I vote "yes" on this bill because I feel that it gives school districts and other subdivisions a chance to collect taxes that otherwise they would never be able to collect.

Mr. Niewoehner: I vote "aye" because I believe in giving the poor people who are so far behind a chance to clean up their back taxes, and I do not believe that those who conscientiously pay their taxes before they become delinquent will wait and depend upon the legislature to enact similar laws in the future.

Mr. Schauss: I vote "no" on this bill because I think it is one of the biggest barriers we have put up to our public officials for the collection of taxes.

Mr. Twichell: I am going to vote "aye" on the bill, because the fellows it really helps out are voting "no".

Mr. Williams: Friends, I have to vote for this bill because if I did not I wouldn't be honest with myself or honest with the old farmers I am representing down there in Richland County. They know the conditions and so do I, and so do you people, and if there is ever going to be a break, let's have it now. I vote "aye".

Mr. Wolf: I believe that this bill does not help the people that can't pay their taxes, but it is a benefit to the people that did not pay their taxes when they were able to pay them.

In instances where loans are needed for planting of cash crops, a first lien will be required upon all crops to be financed, in whole or in part, with the proceeds of such loans. In instances, where loans are needed for the purchase or production of feed for livestock, a first lien will be required upon the livestock to be fed.

Mr. Cummins further stated that all farmers who are unable to obtain credit from private financial institutions or other sources are eligible, except farmers who are now standard rehabilitation "farm plan" clients of the Resettlement Administration. Those who fall within this later class will be provided supplemental loans by the Rehabilitation division of the Resettlement Administration. No loan shall exceed \$400.00, and shall bear interest at the rate of 4% per annum.

Mr. Cummins is confident that the emergency crop and feed loan section, with its present set-up and its present personnel is in a position to service any farmer in any county in the state whose need for an emergency crop and feed loan has been determined by the proper authorities.

Mr. Holm: I voted for this measure not because it is a good measure but because perhaps it contains improvements over the law we already have. When the measure was first put before the House here, it had teeth in it. It would have helped the farmers. But you took all that part out of it. Some slight remnants may be left to make it better than the old law, however. Therefore I vote "aye".

Mr. Hagen: I am as opposed as ever to increase in salaries. Outside of that I have no objection. I vote "aye".

Mr. Knutson: I vote "no" on account of the raise in salaries.

Mr. Magill: I vote "aye" with the same reservation as stated by Mr. Hagen.

#### EXPLANATIONS OF VOTES

Mr. Akland: I vote "no" because I was not sent down here to raise appropriations.

Mr. Knutson of LaMoure: I vote "no" for the reason that they are putting in a new swine building, sheep building and ice cream plant, and I don't believe that they should do that in these hard times. Therefore I vote "no".

Mr. Olson of Adams: I vote "no" on this bill because I notice there is an appropriation of \$550.00 for the experimental station at Hettinger which we are trying to give away at this time. Therefore I vote "no".

Mr. Williams: I think it is a crime for us old farmers to come up here and do anything like this when we know there is suffering all over the prairies of North Dakota, and we are

sitting in this nice, lighted room, raising the taxes on the men that have kept that institution going for the last fifty years. It is a crime. I vote "no".

Mr. Stray: I vote "no" on this bill because I consider it the biggest political machine there is in the State of North Dakota.

Mr. Williams: I vote "no" on this because it is making a bunch of suckers out of us old farmers.

House Bill No. 164. A Bill for an Act for the Purpose of Establishing a Six-Man Game and Fish Commission, They to Have Power to Appoint a Director of Game and Fish, and to Conduct Other Business Pertaining to Game and Fish.

Was read the second time.

Absent and not voting:

Messrs.	Messrs.	Messrs.
Peterson, Renville	Wendland	Wick
Seibel		

So the bill lost.

Mr. Bieloh: I vote "no" on this bill because this bill, as amended, looks to me like the Wild Life Association wants to run the Game and Fish Department. It will take it out of the peoples' hands and put it in the hands of approximately forty-five hundred members.

Mr. Frazier: I vote "no" on this bill because I think it is just a plan to put all these birds on the payroll and starve the wild life to death. I vote "no".

Mr. Godwin: I vote "no" on this bill, even though my name appears as one of the authors, for the reason that the drafters of the bill have left out what I consider the most important thing in our conservation of wild life, the building of dams with monies that might be available for that purpose. Therefore I vote "no".

Mr. Wolf: I vote "no" on this bill because it provides for six directors to be appointed who will draw a salary of five hundred dollars per year, one director of Game and Fish drawing three thousand dollars a year, and provides for twelve deputy game wardens who can draw fourteen hundred and forty dollars per year for expenses. Therefore I vote "no".

The Speaker called Mr. Wolf to the chair.

was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

Mr. Dahl moved that the vote by which House Bill No. 210 was lost be reconsidered and the motion to reconsider be laid on the table.

## EXPLANATIONS OF VOTES

Mr. Frazier: I vote "aye" on this bill because I don't believe that there is any human being living that wants to stand for the State Welfare Board, the head of this department, getting the salary that he gets, and making people live on a measly \$8.00 a month. That's making this country what it is.

Mr. Dahl: I vote "aye" on this bill for the reason that as we are a sovereign state we have the right to legislate according to our own convictions, instead of being dictated to.

Mr. Solberg: I vote "no" on this bil, not for the reason that I think the Welfare Board has carried out its duties satisfactorily. I am absolutely opposed to what the Welfare Board has done in the distribution of these funds. The only reason I vote "no" is because I am afraid if we change the setup we are going to create suffering.

Mr. Ireland: I vote "no" on this bill for the reason that I realize we have got to comply with the government's request if we expect to get more money in this state for relief, and we surely need relief. For once I agree with the administration.

Mr. Morland: When I voted "no" on this bill I didn't vote "no" because I favored the Welfare Board. I voted "no" because I think it is almost a case of have to, if we want to get the money, and also for the reason that the governor has apparently found out what everybody else has known all summer, that if we are going to have any money from Washington, and they are going to pay the bill, they are going to have something to say about how it is spent.

Mr. Pewe: I voted "aye" on this bill because I do not believe in assisting the damnable wasting system that now exists in regard to the Welfare funds.

Mr. Hagen: I vote "aye" on this bill because I know I am right, and I refuse to be bulldozed.

Mr. Hultstrand: I voted "no" not because I wanted to vote "no", but we have granted the privilege to the international bankers, the right of our money, and it is not ours any longer, and the law says it is theirs, so we have to comply with their orders.

Mr. Knutson of LaMoure: I vote "aye" because I am opposed to that large salary that the manager is getting. That is the reason.

Mr. Schauss: I voted "aye" on this bill, not on account of the salaries, but because I know the Welfare Boards of the state of North Dakota haven't been worth a damn to the poor people.

Mr. Magill: I vote "no" on this bill because I want to, and I don't think anyone has bulldozed me into doing it, either.

Mr. Knudson of Steele: After listening to all of the explanations of votes, I believe that the only logical explanation of vote given is that given by the Speaker.

Mr. Olson of Bowman: I voted "no" on this bill because I wanted to.

#### EXPLANATIONS OF VOTES

Mr. Magill: In reading over this bill I can't see any objection to it. I think it probably would meet the criticism of the County Commissioners if it was left optional with the County Commissioners as provided in this bill. Therefore I vote "aye".

Mr. Dahl: I vote "aye" on this bill because as a sovereign state we have a right to legislate without being dictated to as to how to legislate. I vote "aye".

Mr. Ireland: I vote "no" on this bill because I don't want to do something I will be sorry for when I get back home and the people would tell me they couldn't get relief because I voted for this bill. Therefore I vote "no".

Mr. Thompson: I vote "no" on this bill to keep some of you fellows from explaining after you get home.

Mr. Caddell: I voted "aye" on this bill. Even though I knew this relief would have to be administered by the United States Army I would still vote "aye".

Mr. Tweten: I vote "aye" because we don't need those

County Boards. We have a set of County Commissioners who can handle that work.

Mr. Godwin: I voted "no" on this bill. I voted "no", not because I believed that the bill wasn't right in principle, but because I, not being one dependent on relief at this time, did not feel that I could assume any responsibility in doing anything that might curtail the relief, inadequate though it may be, that is now going to the people in distress.

Mr. Akland: I voted "aye", because that is the platform on which I was elected.

Mr. Morland: I voted "aye" on this bill because I believe it does set up a county set-up that differs materially from that provided in House Bill No. 210.

Mr. Greiser: I voted "aye" because I was elected on the proposition that something should be done to stop the terrible cost of administering relief. I pledged myself to that platform, and I am not breaking my pledge now.

Mr. Knutson of LaMoure: I vote "aye" on this bill because I think this is a much cheaper way of handling relief than the old way.

Which motion prevailed.

Mr. Fitch: My reasons for opposing the committee report yesterday was because of the method of selection of the Veterans Service Commissioner, as provided for in this bill. I do not think it is fair to the veterans of this state, the nine thousand members of the American Legion and the seven thousand members of the American Legion Auxiliary who alone have been responsible, not only for the establishment of the office in the original instance, but every year since that time have raised the additional finances necessary to

operate efficiently, this office. They are now by the provisions of this bill given the same apportionment of representation as the other veterans organizations, which, as I am advised, have approximately the following membership: The Disabled American Veterans, two hundred; Spanish-American War Veterans, have less than three hundred; Veterans of Foreign Wars, have a membership of less than one thousand paid members. I can see no reason why the adjutant general should be a member of this committee for the reason that he has nothing to do with this office and there is no connection between the two.

Mr. Page: I vote "no" on this bill for the reason that it is an appropriation measure which has not been passed on by the Appropriations Committee.

Mr. Thompson: This is an appropriation bill I didn't see until today, and I am on the Appropriations Committee. I vote "no".

Mr. Symington: I vote "no" because I don't believe in dictatorship.

Mr. Dahl: I vote "aye" on this bill because I believe in the American form of government.

Mr. Magill: I vote "aye" on this bill because I understand the item has already been approved by the Appropriations Committee.

Mr. Godwin: For the purpose of a record in the Journal I want to say that this appropriation was considered by the Appropriations Committee and was passed upon and recommended in House Bill No. 38.

Mr. Holm: I voted for this bill, because I see it contains reference to the same amount in dollars and cents as the other bill, and just for the simple reason that I happen to come from another political faction than the governor, nevertheless I am for it when it comes to this matter. I am here for the cause of the American Legion and the soldiers and it makes no difference to me which one is Service Commissioner.

A Bill for an Act to Amend and Re-enact Section 3733 of the 1925 Supplement to the Compiled Laws of 1913, Relating to the Sale of Real Property to Enforce Collection of Delinquent Special Assessments or Installments of Special Assessments, Relating to the Bidding in of Same When no Bidders at Sale, Relating to Damages to Certificate Holders When Statutory Proceedings Not Strictly Followed, Providing a Validating Clause, Making Provisions of This Bill Retroactive, Providing a Saving Clause, and for the Repeal of Inconsistent Acts, and Declaring an Emergency.

Have had the same under consideration and recommend that the same be amended as follows:

By striking out everything after the words "A BILL" on page 1 of the printed bill and by substituting the following in lieu of that part of the bill stricken out:

"An Act to Amend and Re-enact Section 3733 of the 1925 Supplement to the Compiled Laws of 1913, Relating to the Sale of Real Property to Enforce Collection of Delinquent Special Assessments, Relating to the Bidding in of Same When No Bidders at Sale, Relating to Damages to Warrant Holders When Statutory Proceedings Not Followed, Providing a Validating Clause, Making Provisions of this Bill Retroactive, Providing a Saving Clause, and Declaring an Emergency.

*"Be It Enacted By the Legislative Assembly of the State of North Dakota:*

"Section 1. That Section 3733 of the 1925 Supplement to the Compiled Laws of North Dakota of 1913 be and the same is hereby amended and re-enacted to read as follows:

"Section 3733. DELINQUENT SPECIAL ASSESSMENT TAXES, SALE FOR.) Real property shall be sold to enforce collection of special assessments, or installments of special assessments, which have become delinquent, at the same time and in the same manner as for general taxes. The sale shall be made by the same officer and upon like notice and subject to the same provision in relation to redemption and the same record thereof shall be kept by the officer making the sale as in the case of sale of real property for delinquent general taxes. If any real property is subject to sale at the same time for delinquent general taxes and also for delinquent special assessments, or installments thereof, they shall be advertised and sold together in one sum and one certificate shall be issued therefore. In case such real estate is sold for both delinquent general taxes and delinquent special assessments, or installments of special assessments, and there shall be no bidder therefor, the county auditor shall strike off such parcel of land to the county and make one certificate of sale therefor which shall cover both general taxes and special assessments delinquent. In case there is no delinquent general tax against any parcel of real estate and it is sold for special assessments alone, the certificate of tax sale shall contain a statement to the effect that the sale was for special assessments. In case of sale for special assessments only assessed by cities, villages, or any taxing district other than the county, the county auditor shall declare the property sold to the city, village or taxing district which assessed such special assessments in case there are no private bidders, and tax certificate and tax deed shall, in the usual course of procedure, be issued to such city, village or taxing district. The rights of owners of tax sale certificates issued before the enactment of this amendment shall not be affected by its enactment except as provided in Chapter 298 of the 1931 Session Laws.

"SECTION 2. REMEDY OF WARRANT HOLDERS WHEN STATUTORY PROCEEDING NOT FOLLOWED.) The failure of any city, village or other taxing district other than the county, to have had property sold for delinquent special assessments, or installments of special assessments, struck off to it in the absence of private bidders, as was required by Section 3735 of the 1913 Compiled Laws of North Dakota prior to the amendment of such section by Chapter 199 of the Session Laws of 1925, shall not by the courts of this state be construed to constitute negligence on the part of such city, village or other taxing district. In order to obligate such city, village, or other taxing district on any issue of special assessment warrants, on the ground of negligence, the negligence of such city, village or other taxing district must be established and proven as a matter of fact, and in determining such question the county auditor making the sale shall not be held to be the agent of the city, village or other taxing district so as to charge such city, village or other taxing district with responsibility for any failure of such county auditor to perform his statutory duties in connection with such sale.

"SECTION 3. MEASURE OF DAMAGES WHERE NEGLIGENCE OF DISTRICT SHOWN.) If it is shown that any

city, village or other taxing district has been guilty of negligence which will amount to a breach of its duty to holders of special assessment warrants, then such city, village or taxing district shall be liable to the holders of such special assessment warrants in damages. Such damages shall be limited to the actual damages sustained by the warrant holder or holders as the direct and proximate result of such negligence. In the event that the damage for negligence is predicated upon any act of the city, village or other taxing district which resulted in the loss of any special assessment lien upon real property, then the measure of damages shall be limited to the value of such property at the time of the trial, upon which the lien was lost, over and above the amount of the general taxes delinquent against such property at the time that the county acquired title thereto. The face amount of the warrants, involved in any action, shall be considered only as a limitation of the amount which may be recovered on such special assessment warrants in such action.

“SECTION 4. SECTIONS 2 AND 3 OF THIS ACT MADE RETROACTIVE.) Sections 2 and 3 of this Act are declaratory of the legislative intent of Section 3735 of the 1913 Compiled Laws of North Dakota, and are hereby declared to be retroactive, and shall apply to all actions brought involving special assessment warrants heretofore issued and sold under Section 3735 of the 1913 Compiled Laws of North Dakota or any other act as well as to special assessment warrants hereafter issued.

“SECTION 5. VALIDATING SALES OF LANDS FOR SPECIAL ASSESSMENTS HERETOFORE MADE.) All sales of real property for delinquent special assessments or installments thereof, heretofore made by any county auditor under Section 3735 of the 1913 Compiled Laws of North Dakota of the 1913 Compiled Laws and notwithstanding the fact that the real property subject to sale for delinquent general taxes and delinquent special assessments, or installments thereof, were not sold separately as required by Section 3735 of the 1913 Compiled Laws and notwithstanding that separate certificates were not issued for the delinquent general taxes and the delinquent special assessments or installments thereof.

“SECTION 6. SAVING CLAUSE.) If any provision or any portion of any provision of this Act shall be held invalid, the remaining portions of this Act shall be affected.

“SECTION 7. EMERGENCY.) This Act is hereby declared to be an emergency measure and shall be in full force and effect from and after its passage and approval.”

And when so amended recommend the same do pass.

A division was called for and the motion prevailed.

## EXPLANATION OF VOTES

Mr. Ireland: I am voting "aye" on this bill for the reason that it is impossible to get around the daily papers. I believe it is unfair to the small country papers, and inasmuch as the people voted to legalize liquor, I believe they will get enough advertising on it.

Mr. Knutson of LaMoure: I vote "no" on this because I don't want our junior United States Senator to have to help advertise whiskey as he does cigarettes.

Mr. Myers: I am opposed to the advertisement of liquor, but as long as the other papers that come into the state are allowed to advertise it, it is unfair to the smaller papers, and I vote "aye" on the bill. I would like to see them all stop advertising, but under the circumstances I vote "aye."

Mr. Sand: I vote "aye" on this bill, for advertising can be done in two ways—one way by advertising in papers, and the other by prohibiting certain things being done.

Mr. White: Being a Justice of the Peace I know that the drunkenness in my community is all the advertisement that the liquor business needs. I vote "no."

Mr. Williams: I don't believe in advertising liquor. It seems to me that it would be just as sensible to advertise legalized murder.

Mr. Dahl: Inasmuch as the daily newspapers are all allowed to advertise liquor, I think that the weeklies should have the same right. The magazines and daily papers come into about 75% of the homes in North Dakota, and they have the right of way over the weeklies that really make a community worthwhile living in. For that reason I vote "aye" on this bill.

Mr. Semerad: I vote "aye" because I believe in justice to all and special privilege to none.

House Bill No. 138. A Bill for an Act to Amend and Re-enact Sections 8117 and 8118 of the Compiled Laws of North Dakota for the Year 1913, and to Protect Mortgagors, Judgment Debtors, Redemptioners During Period of Redemption

"Be It Enacted By the Legislative Assembly of the State of North Dakota:

"Section 1. That Section 3733 of the 1925 Supplement to the Compiled Laws of North Dakota of 1913 be and the same is hereby amended and re-enacted to read as follows:

"Section 3733. DELINQUENT SPECIAL ASSESSMENT TAXES, SALE FOR.) Real property shall be sold to enforce collection of special assessments, or installments of special assessments, which have become delinquent, at the same time and in the same manner as for general taxes. The sale shall be made by the same officer and upon like notice and subject to the same provision in relation to redemption and the same record thereof shall be kept by the officer making the sale as in the case of sale of real property for delinquent general taxes. If any real property is subject to sale at the same time for delinquent general taxes and also for delinquent special assessments, or installments thereof, they shall be advertised and sold together in one sum and one certificate shall be issued therefore. In case such real estate is sold for both delinquent general taxes and delinquent special assessments, or installments of special assessments, and there shall be no bidder therefor, the county

auditor shall strike off such parcel of land to the county and make one certificate of sale therefor which shall cover both general taxes and special assessments delinquent. In case there is no delinquent general tax against any parcel of real estate and it is sold for special assessments alone, the certificate of tax sale shall contain a statement to the effect that the sale was for special assessments. In case of sale for special assessments only assessed by cities, villages, or any taxing district other than the county, the county auditor shall declare the property sold to the city, village or taxing district which assessed such special assessments in case there are no private bidders, and tax certificate and tax deed shall, in the usual course of procedure, be issued to such city, village or taxing district. The rights of owners of tax sale certificates issued before the enactment of this amendment shall not be affected by its enactment except as provided in Chapter 298 of the 1931 Session Laws.

“SECTION 2. REMEDY OF WARRANT HOLDERS WHEN STATUTORY PROCEEDING NOT FOLLOWED.) The failure of any city, village or other taxing district other than the county, to have had property sold for delinquent special assessments, or installments of special assessments, struck off to it in the absence of private bidders, as was required by Section 3735 of the 1913 Compiled Laws of North Dakota prior to the amendment of such section by Chapter 199 of the Session Laws of 1925, shall not by the courts of this state be construed to constitute negligence on the part of such city, village or other taxing district. In order to obligate such city, village, or other taxing district on any issue of special assessment warrants, on the ground of negligence, the negligence of such city, village or other taxing district must be established and proven as a matter of fact, and in determining such question the county auditor making the sale shall not be held to be the agent of the city, village or other taxing district so as to charge such city, village or other taxing district with responsibility for any failure of such county auditor to perform his statutory duties in connection with such sale.

“SECTION 3. MEASURE OF DAMAGES WHERE NEGLIGENCE OF DISTRICT SHOWN.) If it is shown that any city, village or other taxing district has been guilty of negligence which will amount to a breach of its duty to holders of special assessment warrants, then such city, village or taxing district shall be liable to the holders of such special assessment warrants in damages. Such damages shall be limited to the actual damages sustained by the warrant holder or holders as the direct and proximate result of such negligence. In the event that the damage for negligence is predicated upon any act of the city, village or other taxing district which resulted in the loss of any special assessment lien upon real property, then the measure of damages shall be limited to the value of such property at the time of the trial, upon which the lien was lost, over and above the amount of the general taxes delinquent against such property at the time that the county acquired title thereto. The face amount of the warrants, involved in any action, shall be considered

only as a limitation of the amount which may be recovered on such special assessment warrants in such action.

"SECTION 4. SECTIONS 2 AND 3 OF THIS ACT MADE RETROACTIVE.) Sections 2 and 3 of this Act are declaratory of the legislative intent of Section 3735 of the 1913 Compiled Laws of North Dakota, and are hereby declared to be retroactive, and shall apply to all actions brought involving special assessment warrants heretofore issued and sold under Section 3735 of the 1913 Compiled Laws of North Dakota or any other act as well as to special assessment warrants hereafter issued.

"SECTION 5. VALIDATING SALES OF LANDS FOR SPECIAL ASSESSMENTS HERETOFORE MADE.) All sales of real property for delinquent special assessments or installments thereof, heretofore made by any county auditor under Section 3735 of the 1913 Compiled Laws of North Dakota 3735 of the 1913 Compiled Laws and notwithstanding the fact that the real property subject to sale for delinquent general taxes and delinquent special assessments, or installments thereof, were not sold separately as required by Section 3735 of the 1913 Compiled Laws and notwithstanding that separate certificates were not issued for the delinquent general taxes and the delinquent special assessments or installments thereof.

"SECTION 6. SAVING CLAUSE.) If any provision or any portion of any provision of this Act shall be held invalid, the remaining portions of this Act shall be affected.

"SECTION 7. EMERGENCY.) This Act is hereby declared to be an emergency measure and shall be in full force and effect from and after its passage and approval".
