The President appointed as such committee Senators Foss, Dewing and Pyle.

Senator Page moved that the President appoint a committee of three to act with a like committee from the House of Representatives for the purpose of arranging for a joint session of the houses, which motion prevailed.

The President appointed as such committee Senators Page, Ferry and Sauer.

Senator Work moved that the President appoint a committee of six to serve as a committee on employment during the session, which motion prevailed.

The President appointed as such committee Senators Work, Troxel, Foss, Dewing, Solberg and Haag.

Senator Sandness moved that a committee of three be appointed by the President to confer with the Board of Administration relative to making arrangements for necessary stationery and supplies for the Thirty-third Session of the Senate, which motion prevailed.

The President appointed as such committee Senators Sandness, Geelan and Gronvold.

Senator Morgan: On the agenda which we prepared it calls for a committee of nine to act as a temporary rules committee. After conferring with the majority floor leader he suggested to me that we have already adopted our temporary rules and that the appointment of this committee is unnecessary, and that the appointment of a permanent committee on rules would be made by the Committee on Committees.

Senator Stucke moved that the Senate recess for ten minutes for the purpose of selecting seats, and that new members remove papers and personal effects from the desks they now occupy and retire from the floor while old members are selecting their seats, which motion prevailed.

The Senate reconvened pursuant to recess taken.

Senator Streibel moved that Betty Bird be employed to serve as stenographer and secretary to the Lieutenant Governor, which motion prevailed.

ROLL CALL

The question being on the selection of Betty Bird as stenographer and secretary to the Lieutenant Governor, the roll was called and there were ayes, 47; naves, none; absent and not voting, 2.

Baeverstad	Johnson	Sandness

Hagen	Rue	

Absent and not voting:

Knudson Solberg

So Betty Bird was declared elected as stenographer and Secretary to the Lieutenant Governor, and the President of the Senate administered the oath of office to Betty Bird.

Senator Stucke: I think the time is opportune to choose the President Pro Tem for this session of the legislature. I consider it a privilege and a high honor to place in nomination the name of a man who in my estimation is best fitted for this position. He is a parliamentarian of no mean ability. I will not say any more. It is quite unnecessary. We all know him. We know his capabilities. The man I am referring to and the man whose name I am placing in nomination is none other than Senator R. M. Streibel of Wells.

Senator Geelan: I rise to second the nomination of Senator Streibel. I have little to add to Senator Stucke's remarks except that it is an honor that Senator Streibel has deserved. He has been Senator from Wells County and has served with distinction for many, many years, and from a standpoint of service he is certainly entitled to be chosen as President Pro Tem. In addition to that as Senator Stucke has pointed out he is a parliamentarian and his reputation extends far beyond this Senate. He knows the constitutional requirements that govern our lawmaking. For these reasons I am proud to present Senator Streibel as President Pro Tem.

Senator Duffy: It is my privilege at this time to present to this Senate as a nominee for the office of President Pro Tem a man who has served here long and faithfully and his fairness and competency are known to us all. I present to you the name of Senator Rilie R. Morgan of Walsh County.

Senator Morgan: I am glad that this matter of selection of President Pro Tem was delayed until today rather than taken

up yesterday. If it had been taken up yesterday and my name had been presented to the assembly for President Pro Tem of the Senate, it was my intention to make some remarks. Those remarks might have been at that time rather caustic and something that perhaps I would have regretted later on. We have seen some strange things happen in the City of Bismarck in the last five or six days. We have seen political operations and political maneuvers which are worthy of the best traditions of the old Alex McKenzie political machine in its heyday. We have seen political horse trading and maneuvering which I can not approve or condone and I will not permit my good name to be used as a means of justification or to add respectability to the political horse-trading and maneuvering which has taken place in this city during the past few days. I, therefore, request that my name be withdrawn as a candidate for President Pro Tem.

Senator Duffy: In view of the statement made by the Senator from Walsh I agree to his request that his name be withdrawn and at this time it is my pleasure to move that nominations cease, that a unanimous ballot be declared in favor of the distinguished Senator from Wells whom I have had the pleasure of serving with the past two sessions, and with whom I had the pleasure of serving during a period of four years when he was assistant counsel in the revision of the code. During that time I had come to know him as a fair-minded, able man, and that estimation has not been changed during the time that I have had the honor of serving with him in this house. I, therefore, have the pleasure of making the motion that the selection of Senator Streibel as President Pro Tem be unanimous.

ROLL CALL

The question being on the election of Senator Streibel as President Pro Tem of the Senate, the roll was called and there were ayes, 48, nays, 0; not voting 1.

Those voting in the affirmative were:

Baeverstad	Johnson	Rue
Berube	Kamrath	Sandness
Bilden	Klefstad	Sauer

Not voting:

Streibel

So Senator Streibel was declared unanimously elected as President Pro Tem of the Senate.

The President then administered the oath of office to Senator Streibel as President Pro Tem.

Senator Duffy: Mr. President, I believe at this time it would be appropriate for us to hear from the presiding officer of the Senate.

Lt. Gov.: I am not going to make a speech at this time. But there are a few things I want to say. I am, of course, proud of the honor that the people of North Dakota have bestowed upon me for the 4th time. I accept in all humility. I shall only ask that if you Senators give me the same cooperation during this session as you have in past sessions when I was your presiding officer, the business of the Senate will go on smoothly. I want to assure each and everyone of you that my decisions as presiding officer shall be as unbiased and fair to the minority and majority alike as God gives me the light to see the questions to be considered. Let me also at this time extend to you an invitation to contact any members of my desk force on any question that they may be able to answer for you during this session and I will assure you that you will receive cooperation and courtesy. In closing let me say: Let us not forget our positions here are a matter of service in the best interest for the state and its people, the preliminary skirmishes must not become a factor to upset a good sound legislative program for our people. With that in mind we can work together in cooperation and harmony. Thank you!

Senator Knudson moved that the remarks of the Lieutenant Governor be printed in the journal, which motion prevailed.

Senator Duffy moved that a committee of two be appointed to escort the President Pro Tem to the rostrum for his remarks, which motion prevailed.

The President appointed as such committee Senators Duffy and Stucke, and the President Pro Tem was escorted to the rostrum.

Senator Streibel: Mr. President and Colleagues: It would be ungrateful of me if I were to tire you with a long speech after all the words of adulation you heaped upon me during my nomination, for which words I thank you. Therefore, I'll not say much. Naturally I am exalted and feel highly honored by your vote of confidence which elected me as President Pro Tem. As has been said I have served in this Senate for a long time. I have been engaged in many heated arguments in my time. Often these arguments may have had the appearance of unnecessary harshness. But I assure you they were nothing but an honest desire on my part to make my point. I do not carry grudges. What I am especially delighted about is the fact that I was elected unanimously. Because in years past I have made the statement that unless I was the unanimous choice I would not serve. At this time I would like to pay a compliment to our presiding officer by saying he is always in the chair when needed and that is as it should be. Therefore in all probability I will not be called upon to take his place. If, however, the occasion should arise that I must act for him, you can rest assured I'll treat you honestly and fairly. Thank you!

Senator Stucke requested that the remarks of Senator Streibel be printed in the journal. There being no objections the request was granted.

Senator Duffy moved that the Senate recess until ten minutes to two, which motion prevailed.

The Senate reconvened pursuant to recess taken.

MESSAGE FROM THE HOUSE

House Chamber

Bismarck, January 15, 1953

Mr. President: I have the honor to transmit:

House Concurrent Resolution "A".

Which the Speaker has signed and your signature is respectfully requested.

V. L. GILBREATH, Chief Clerk.

MOTIONS

Senator Krenz moved that the remarks of Senator Duffy on the report of the Committee on Committees be printed in the journal, which motion prevailed.

Senator Duffy: I rise in opposition to the motion. Before we vote let us review briefly the procedure under which this report was made.

It has been the practice in this Chamber for many years that the two factions should each name their own members on the Committee on Committees and they would assign the members of their own faction to the several committees, giving effect, of course, so far as possible to the preferences expressed by the members. This year we had expected to follow that procedure and named our representatives and had obtained from the Nonpartisan floor leader the names of the men they wanted on the committee and were prepared to name that committee.

Then came the motion of the senator from Pembina—Mr. Republican—to name six senators to the committee—two representing the ROC, two representing the Nonpartisans, and

two representing the Independents. He called that electing the committee. God save the mark. A one slate ballot, with the right denied to the members of making their own nominations. That is what is called an election behind the iron curtain. But it is not an election according to the American tradition. Of course, the method is satisfactory where the names on the slate have been agreed upon by all parties in advance. But it is not fair nor right where no such prior agreement has been made. It is then just a means of ramming something down an unwilling throat.

Now certainly the ROC has no objection to Senators Troxel and Work. They have done all that anyone could have done and that was mighty little. But fair play dictated that the ROC and not the opposition should select our representatives on the committee.

Then the senator from the 6th District purporting to act as chairman of the committee filed here a partial report covering the committee on appropriations. That, of course, was a clear violation of the rules of this senate for they prescribed that the president of the senate shall be chairman of the committee on committees.

Then came the most unusual feature of this unique performance. Heretofore the committee on committees has met here at the capitol for several days, arranging the assignments, conferring with the various senators, and coming in with a final report at the end of the first week of the session. Two years ago the report was made on Friday and on Monday the senate was ready for business.

But the senator from the 6th District found that procedure unsatisfactory. He did not wish to be disturbed by the suggestions of the other six members of the committee. He did not want to be annoyed by the supplications of other senators. Like an Olympian giant of old he retired to his mountain top to ponder the problem. In the peace and quiet of his Grand Forks retreat he worked it all out alone. Now he tells us that it is the fairest apportionment he has ever seen. Surely he should know, because like George Washington, he did it with his little hatchet.

Well it should be a fine job for 48⁺ senators have sat around here twiddling their thumbs while this one man committee labored and brought forth this thing.

Let us examine this report. We find there are 14 major committees. On these the 24 ROC members receive three chairmanships or a ratio of a little better than 10%; the 21 Nonpartisans receive 8 chairmanships or a ratio of 33 1/3%; while the independent four receive 3 chairmanships or a ratio of 75% and if the minor committees are considered the independent group bats just 1000%; that is a remarkable batting average in any league.

I assume, of course, that as urged by the senator from Pembina, the chairmanships were assigned solely on the basis of ability and capacity and not upon any mere basis of numerical strength. I am, therefore, thankful for two things: First, that two members of the ROC were found worthy and second, that there were more committees than there were members of the independent group.

And if we critically examine the most important committee—the committee on appropriations we are forcefully struck with the vigor with which this doctrine of ability has been

applied. There the 24 ROC received 8 members—the 21 Non-partisans receive 6, and the 4 independents receive 3 places. No wonder the spokesman for the coalition says he never saw anything so fair.

I was edified the other evening in listening to my distinguished friend from the 6th district explain the purposes and prophesy the achievements of the coalitions in the Senate and the House. The essence of his remarks was that these coalitions assured Governor Brunsdale of a friendly legislature, which would work in close harmony to carry out the administration program. That is certainly a splendid thought. As the senator viewed the scene, there were two groups which might try to upset the governor's program. One was the so-called insurgent or Haugen group in the house and the other was the ROC group in the Senate.

I am in no position to speak with authority regarding the program of the Haugen group in the House. It may be there are some wild eyed members there who would bear out the senator's dread foreboding but having known Representative Beede and Representative Lillehaugen and some of the other representatives who voted with the Haugen group I feel certain that not all of them will engage in a campaign to sabotage good legislation or to obstruct the governor's program.

But as far as the ROC group in the senate is concerned, I feel that I can speak with authority. I can assure the senator his fears are entirely unfounded. There is no disposition in our group to hamper Governor Brunsdale. As a matter of fact, we are very proud of the governor. He is one of us, and as floor leader of the group I am trying to follow in the footsteps he marked out on this floor where he served in the same capacity during my first session here. Therefore, if harmony with the governor's program is the ideal and purpose of this coalition in the senate, may I assure you this is going to be the greatest love feast the state has seen in many a year.

But I question whether you are starting out right to achieve that acme of harmony and cooperation and that brings me to the major premise of my remarks. From the committee on appropriations you have omitted Senator Rue, notwithstanding the fact that I offered to withdraw to make room for him. In doing this you have violated one of the unwritten laws of this senate, and that is the recognition of seniority. Senator Rue has been a member of this committee since 1941. He outranks all but two or three of the men on the committee. It is wrong to do this.

And now I speak to you not as floor leader of the ROC but as a friend. And I believe I can claim the privilege of speaking to every member of this senate in that capacity. I tell you that what is proposed to be done here is a grave mistake. It will set a precedent that will come back to haunt these legislative halls for many years after you and I have departed from them.

Suppose that the ROC had organized this senate. What would you have thought if we had omitted Senator Stucke or Senator Streibel or Senator Nordhougen because some member of our group had a real or fancied grievance. What would you non-partisans have thought if the United States senate had denied Senator Langer the chairmanship of the

Judiciary Committee because some republicans disapproved of the senator. I say to you that you have no right to ask for justice and fair play if you deny it to others when you are in a position of power.

If any man here feels a personal grievance against Senator Rue, I ask him to remember what the chaplain told us the other day: "Do not repay evil with evil." If you do this thing to us today, I hope that the ROC will remember those words and will never retaliate in kind. But I am asking you today to remove that temptation from us.

Let no man try to justify this deed on the ground that Senator Rue is a contractor. This senate has no right and no members of this senate has any right to tell Burleigh County whom it shall elect to this body. And once elected, we are all equal. Let no one dare proscribe a fellow member because he happens to be a contractor or a banker or a lawyer or chiropractor or a newspaper publisher. Let no man here raise false barriers of race of class or occupation in any honorable calling. We are all Americans here and equal before God and man.

And so Mr. President I move that this report be amended by substituting the name of Senator Rue in place of Senator Duffy as a member of the committee on appropriations.

Senator Streibel: At the very outset let me say that I'm glad that I was not accused of trying to keep all the R. O. C'ers off the appropriations committee. The two Senators namely Rue and Johnson, both contractors, to whose services on the appropriations committee I did and do object to, seem to think I did this on the basis of personalities. Nothing could be further from the truth. I have a high regard for their honesty in connection with their work for the state. In fact only recently I heard very complimentary remarks made with reference to some of the work Senator Johnson had done for the state. In my remarks that are to follow I will aim to prove that my objections do not center on personalities nor certain individuals at all, but that they are firmly based on a political philosophy which I accepted many years ago. Not on a new notion that bobbed up in my mind over night from nowhere. Quite often as I contemplate the work before us I recall to mind the thoughts expressed by others. Those of both ancient and modern times. This exercise I always find to be profitable in connection with trying to find a solution for current problems. There is a dateless wisdom in the history of human thought if it is properly analyzed. I say analyzed because most, of even the best thought is not so wise but that it is not only conditioned but even colored by the time and the place of the problem and the status and the temperament of the thinker. We must therefore sift human thought very thoroughly, examine it closely and pursue it diligently before we can profitably either confirm it in or dispel it from our minds. With this in mind and being conscious of all the political and social corruptions both here and abroad during the past 30 years I have, as I said before, long ago decided that the best way to cure this abominable condition is to remove as far as possible from the criminally minded the opportunity to go wrong. That, in short terms is my philosophy with respect to the subject under discussion. Not persecution of a Rue, a Johnson or a somebody else.

To prove my statement let me say that I have in the past voted no less than three times in favor of bills that attempted to bar any and all legislators from entering into any business transactions with the state. Twice Senator Stucke and I introduced bills to that effect. As I recall it neither Rue nor Johnson were members of this body the first time I supported this principle with my vote. Isn't it therefore just a little absurd when the opposition is so consistently basing its argument on the personalities of a Johnson and of a Rue or of anyone else.

While it is true that the spokesman for the opposition was quite eloquent in his plea against injustice, it is also true and quite clear that all his dramatic eloquence pertaining to this subject nowhere amounts to proof.

As I said in the beginning people and events are conditioned and colored by many factors. Opposition to most any idea follows then as a matter of course. Unquestionably all of you will agree with me when I say that the basic characteristic of the American people always has been, still is and I hope always will be a quest for freedom. However, to different people freedom meant different things. To Abraham Lincoln and William Loyd Garrison it was emancipation of the negro, to Thoreau it was absence of coercion, to Eugene V. Debs it was economic equality, etc. From this and other events it appears that whenever a grave problem appeared there was always some bold spirit that faced up to it. In this instance I'm going to line up with the bold spirits of the past. No one has ever crossed the ocean that did not first leave the shore. Today the shore is rough, the waters turbulent, nevertheless I am willing to take all the risks of a high sea to find a place for my philosophy.

When the black slaves were freed not two but hundreds of wealthy men and women in the south lost every cent they owned to the end that one principle of freedom might be established. In today's case no one suffers any financial loss not even the loss of his dignity unless he has an oversized ego.

Opportunities for fraud seem to grow in like proportion to our progress. You will recall the interesting mutation at Michigan State College some time ago. Here it was widely advertised that the scientists had succeeded in making a virgin heifer give milk by using sex hormones. Not to be outdone our Federal Government succeeded, by virtue of extracts from the taxpayer's pocket-book in making any number of male heifers give MINK.

Nor are they confined to any particular administration. The Republicans had their Tea-Pot Dome and their Muscle Shoals, the Democrats their tax collection and war contract frauds. To me fraud is fraud no matter where I find it. It is unfortunate that my friends (I hope) Senators Rue and Johnson must be the victims, if they can be considered as such, today. But no matter how long they may serve this state in the Senate (I hope it may be for many years to come) some day they will be replaced by Father Time. It is not very probable but not impossible that they may be replaced by criminally minded men. It is this condition I'm trying to forestall when I'm advocating that no member of the legislature who anticipates entering into a profitable venture with the state should be a member of the appropriation committee;

in fact he or she should not even be allowed to become a legislator.

MOTIONS

Senator Haag: We have with us today a former member of the South Dakota Senate. His father at one time served in the North Dakota Senate. I believe it was in 1919. Mr. Kamrath, a member of this body, at that time served in the same legislature in the House. This man was at one time—I believe in that same session—a page in the Senate and therefore has learned a lot about legislative procedure and perhaps could give us a few pointers how we could stay within our budget or how to slash it. I now move, Mr. President, that you appoint a committee of two to escort Mr. Kretschmar of Eureka, South Dakota, to the rostrum.

Which motion prevailed.

The President appointed as such committee Senators Haag and Kamrath, and Mr. Kretschmar was escorted to the rostrum and the courtesy of the floor extended to him by the President of the Senate.

Mr. Kretschmar: Mr. President, Members of the Senate, I am sure that if there are any evils that need correcting in this great state that those of you who have been chosen by the people will be well able to take care of those problems. My father served in this State, particularly in the Senate for many years. Upon attaining manhood I migrated into the great State of South Dakota and likewise was privileged to serve in both branches of the legislative body. About ten

years ago as a member of that legislature we were selected as a committee to come up to this great state and draw upon your rich experience in the method of operating and maintaining a training school. Since that time I have not had the opportunity of returning to this state, and today I came here merely as an interested spectator to view the functioning of this body. I don't intend to take any more of your time. I haven't any more suggestions to make but I can assure you that the same feeling that you have we too have in South Dakota, that after the heat of arguments lifts and we return home we cherish the many friends we made during our legislative careers. Gentlemen and lady Senators, as I look at both sides of this legislative chamber and see your seating arrangement, and I view your lighting facilities, and method of roll call, I know you people are indeed proud of your chamber and of the capitol and rightly so. Permit me to say adieu.

Senator Streibel moved that the remarks of Mr. Kretschmar be printed in the journal, which motion prevailed.

The courtesy of the Senate floor was extended to the Superintendents of Schools from the various counties in North Dakota.

State Senator Orris Nordhougen

State Senate, Bismarck, N. Dak.

Dear Mr. Nordhougen:

Excuse me but I take the liberty to again call it to your attention. The robbery if you please that was committed against me in Williams County, N. Dakota.

My brother Thomas Kasbo homsteded the 160 acre and bought other Fourty acres.

As my brother was one of the last of the homsteades to select his land, it stand to reason that he had to take what was left, hense it was some of the higest and most hilly land in the township.

Now Senator do you think it a faire deal if such a piесе of land is assessed Twice as much even one fourth more than land adjoining it that layes lower and are more level, hence get the benefit of the runoff water from the obove land, that was confiskated, by the asesssor Henry Hougen and his co-worke the States Attorney and his relative the County Auditor.

I have paid taxes in several other Countys, but in no other County have I been denied my lawfull right, to look over the record. Will you be so kind as to let me know if there is anny chance to get you to sponsor a law that would help correct this evel. And to make it impossible to cary out robbery again, with the help of the law inforsing officers.

Thanking you in advanse for an early reply.

Cordially Yours
/s/ Iver Kasko

Senator Streibel moved that the resolution be printed in the journal, which motion prevailed.

RESOLUTIONS ADOPTED BY THE NORTH DAKOTA
COUNTY COMMISSIONERS' ASSOCIATION ASSEMBLED
AT DICKINSON, NORTH DAKOTA,
JANUARY 13, 14 AND 15, 1953

1. WHEREAS, the liquor tax has previously been sufficient to absorb the entire cost of the care of patients at the State Hospital for the Insane, Jamestown, North Dakota; the North Dakota Tuberculosis Sanatorium, Dunseith, North Dakota; the School for the Feeble Minded, Grafton, North Dakota and State Lodge (for alcoholics) Minot, North Dakota, and

WHEREAS, the costs incidental to the care and treatment of these patients at the aforementioned institutions has sharply increased so that the monies from the liquor tax earmarked for such care is no longer sufficient resulting in large expenditures of money out of county funds for the care of the county's patients in the aforementioned institutions, and

WHEREAS, it has previously been the intention that the care of patients at the aforementioned institutions be completely paid for by the state;

NOW, THEREFORE, BE IT RESOLVED by the North Dakota County Commissioners' Association assembled here that the entire cost of the care of patients at the State Hospital for the Insane, North Dakota Tuberculosis Sanatorium, the School for the Feeble Minded and the State Lodge be absorbed by the State of North Dakota.

2. WHEREAS, the North Dakota state law now makes discrepancies between officers of the county and state in such a manner as one officer receives greater compensation for meals and lodging than others, and

WHEREAS, the cost to the individual remains the same regardless of his position,

NOW, THEREFORE, BE IT RESOLVED by the North Dakota County Commissioners' Association here assembled that legislation be enacted standardizing the authorized expenditures for meals and lodging of all the state and county officials, and that the maximum compensation for commissioners in counties of less than 8000 be set at \$1,500.00 per year.

3. WHEREAS, the present salary for the County Commissioners is restricted to \$6.00 per day, and

WHEREAS, the costs for replacing the elected officials in their respective places of industry or business for the days in attendance at County Commissioners' Meetings is not in proportion and much more than the per diem salary received by the said County Commissioners,

NOW, THEREFORE, BE IT RESOLVED by the North Dakota County Commissioners' Association here assembled that the said Association go on record in favor of an increase in the per diem salary of County Commissioners increasing that salary to a compensation of \$10.00 per day retroactive to January 1, 1953.

4. WHEREAS, the welfare costs to the county and state have increased to a concerning degree, and

WHEREAS, the secrecy concerning the activities of the county welfare board has made it possible in a minority of instances for this cloak of secrecy to cause unjustified payments to welfare clients, and

WHEREAS, it is considered beneficial to the people of the State of North Dakota that the names of welfare

clients and the amount which they receive be made available to any person by the welfare agencies,

NOW, THEREFORE, BE IT RESOLVED by the North Dakota County Commissioners' Association that said association does recommend that the state law be altered so that the names of welfare clients and the amount of assistance they are receiving be changed so that this information is available to any interested taxpayer.

5. **WHEREAS**, the economy of North Dakota is entering into a period wherein it appears that this economy will be changed, and

WHEREAS, the development of this new economy is contingent upon the location of processing plants within the State of North Dakota, and

WHEREAS, it is to best interest of the State of North Dakota that these processing plants do locate within the State of North Dakota,

NOW, THEREFORE, BE IT RESOLVED By the North Dakota County Commissioners' Association here assembled that the proper state agencies make a study as to possible tax advantages to be given to any new processing plant to be located in North Dakota.

6. **WHEREAS**, the fees charged by the county officers for various activities and services rendered to the people of the county were set many years ago, and

WHEREAS, these fees do not now properly compensate the county for the time the county officers spend for this activity,

NOW THEREFORE, BE IT RESOLVED by the North Dakota County Commissioners' Association that the matter concerning the reasonableness of the fees charged by county officers be considered by the 1953 Legislature as to the reasonableness such fees as they are now measured to our economic conditions.

7. **WHEREAS**, it has always been the policy in this State that those sent to prison for crime were sent there for reformation as well as for punishment, and

WHEREAS, it now appears that in a substantial majority of cases those sentenced to the State Penitentiary and to the State Prison Farm acknowledge themselves (and the record shows) to have committed their crime wholly or largely by reason of being addicted to the uncontrolled use of intoxicating liquor, and it further appearing that there is not now any facilities in either of said penal institutions for the reformation and cure of these alcoholics by methods which modern science has demonstrated to be effective,

NOW, THEREFORE, BE IT RESOLVED, That we urge the Legislature to provide the means and to create such facilities as will make it possible, by psychiatry and otherwise, to rehabilitate the alcoholics in our penal institutions, and rid them of the addiction which made them criminals and a liability to the State and which will restore them to useful and law-abiding lives.

8. **WHEREAS**, existing laws provide for the revenue for and the procedure to use in expending tax monies for road and bridge building purposes, and

WHEREAS, said laws are deemed adequate,
NOW, THEREFORE, BE IT RESOLVED that the convention of county commissioners is opposed to any change in the present laws pertaining to use of road and bridge monies.

9. WHEREAS, the sales tax law is a temporary measure for taxation, and

WHEREAS, the monies derived from said source are deemed to be used for the best interests of state as now disbursed,

NOW THEREFORE, BE IT RESOLVED, that said Sales Tax Law in its past form be reenacted by the 1953 Legislature.

10. WHEREAS, the automotive engineers in conjunction with the State Highway Department, Legislative Research Committee and Bureau of Roads having submitted a comprehensive survey report on the primary and secondary roads in the State of North Dakota, which said report was given to the North Dakota County Commissioners' Association, and

WHEREAS, said Association desires to commend the engineering and financial reports as competent and unprejudiced, and

WHEREAS, we favor the classifications of state and county highways and recommend that standards be established for each classification by the State Highway Department in cooperation with the North Dakota Association of State and County Engineers, and

WHEREAS, we favor the establishment of a state primary system patterned after the recommendations of the engineering report or about 4200 miles, and

WHEREAS, we recommend that the balance of the present state system or about 2400 miles be retained as the State Secondary System and be maintained by the State Highway Department, except, where counties may wish to integrate the mileage within their county into their highway system after proper financial arrangement with the Highway Department.

11. WHEREAS, many parks and recreational areas are planned for development in connection with federal and state water resources projects already constructed, under construction and to be constructed, and

WHEREAS, in order to secure their ultimate development and the maximum benefits accruing therefrom it first becomes necessary to provide responsible sponsorship for their accomplishment and thereafter adequate and responsible administration for their use; and

WHEREAS, the board of county park commissioners act of 1935, being Chapter 11-28 of the North Dakota Revised Code of 1943, has not proven practicable nor served the purpose for which it was intended, because county commissioners have already enough duties in the general administration of the county affairs without acting as county park commissioners without compensation, that act needs to be entirely rewritten and reenacted into a workable law;

NOW, THEREFORE, BE IT RESOLVED by the North Dakota County Commissioners' Association, assembled in Dickinson at its 46th Annual Meeting, January 13-15, 1953, that it favors and endorses in principle the enactment of legislation authorizing the: (1) appointment by the board of county commissioners of a board of county park commissioners and prescribing their powers and duties; (2) levying of a tax sufficient to pay the expenses and activities of such park board; and (3) payment of compensation to the members of the park board for their services and reimbursement of their expenses; And

BE IT FURTHER RESOLVED, that the legislative committee of the Association be and it is hereby authorized and directed to seek enactment of legislation at the present session of the state legislature to carry into effect this resolution; And

BE IT FURTHER RESOLVED, that a copy hereof be sent to each of the Hon. Norman Brunsdale, Governor; Hon. C. P. Dahl, Lieutenant Governor and President of the Senate; Hon. Walter Bubel, Speaker of the House of Representatives; Hon. R. M. Streibel, Majority Floor Leader and Hon. Clyde Duffy, Minority Leader in the Senate; Hon. Donnell Hougen, Majority Floor Leader and Hon. Roy A. Holand, Minority Floor Leader in the House; the State Water Conservation Commission and the Legislative Research Committee.

12. BE IT RESOLVED that the County Commissioners' Association go on record requesting the 1953 Legislature reenact the Emergency Measure whereby the State Highway Department can enter into contracts with the respective counties within the state for the construction of Highways.

We feel this should become permanent.

13. WHEREAS, The Thirty-second Session of the Legislative Assembly of the State of North Dakota passed Chapter 113 of the Laws of North Dakota for the year 1951 which is an act to amend and reenact Section 11-3201 of the 1949 Supplement to the North Dakota Revised Code of 1943, relating to War Memorial and providing for a county levy and for limitations thereon and authorizing expenditures; and,

WHEREAS, Under said law it is provided that the four (4) mill levy authorized to be made therein cannot be made later than the year 1953, and that said act has therefore expired insofar as the making of the levy is concerned; and,

WHEREAS, Most of the counties of the State of North Dakota have not as yet availed themselves of the provisions of said law and have not made the levy as provided by said law and that the counties of the State still desire to make the levy in order to construct suitable memorials for those that rendered services or lost their lives in the service of their country in World War I and World War II or solely during World War II; and,

NOW, THEREFORE, BE IT RESOLVED by the State Convention of the County Commissioners of the State

of North Dakota, that this convention go on record as favoring the reenactment of said Chapter 113 of the 1951 Session Laws of the State of North Dakota by the Thirty-third Legislative Assembly of the State of North Dakota so that it will be possible that said levy can be made up to the year 1954 and shall terminate not later than 1957.

BE IT FURTHER RESOLVED that a copy of this resolution be mailed to the Thirty-third Legislative Assembly of the State of North Dakota, by mailing a copy thereof to the Clerk of the House of Representatives and to the Clerk of the Senate.

Passed this 15th day of January, A. D., 1953.

SIGNING OF BILLS

The Secretary announced that the President was about to sign:

House Bill No. 550

And the President signed the same in the presence of the Senate.

MOTIONS

Senator Solberg: We have with us today a former member of this body from Burke and Divide. Mr. President, I move that a committee of one be appointed to escort former Senator R. A. Owings to the rostrum, which motion prevailed.

The President appointed as such committee Senator Solberg and former Senator Owings was escorted to the rostrum and the courtesy of the floor was extended to him.

Senator Owings: Mr. President, Honorable Senators—I will include the Senator from Wells in that, too. I was happy to serve in this body when it was tough going. We did not have any outside help. I notice now that you have lobbyists here enough to do all the work. You don't have to do anything. I think you got a snap. All you have to do is satisfy them and pass appropriations for all our State Institutions, and lower taxes, of course, and satisfy the people back home. I think it is that simple, and for the good of the state I will sit down and let you Senators go to work.

Senator Solberg moved that the remarks of Senator Owings be printed in the Journal, which motion prevailed.

Senator Wadson moved that the absent Senators be excused, which motion prevailed.

Senator Duffy moved that the Senate do now recess until 12:30 p.m., on February 2, 1953, which motion prevailed.

EDWARD LENO, Secretary.

MOTIONS

Senator Kusler: We have with us today a young man from my home town of Beulah that we are very proud of. He won a journalism scholarship to the University of North Dakota, where he is majoring in law. He is a member of the North Chapter of the FFA. He has taken public speaking, placing first in North Dakota. He then went to the Regional, twelve states participating, at Lansing, Michigan. He placed third in this contest. He has taken part in a talent contest at the Western Round-up at Bismarck, placing one of the ten high. He has earned an award of \$350.00 in these contests. He was invited by F. H. Peavey to go to Minneapolis to entertain at the Minnesota State FFA convention. He is working his way at school by putting in 28 hours of his time in doing outside work. He was Lieutenant Governor of Boys' State in 1951. And he is also a Golden Glove Champion. I move that a committee of one be appointed to escort Larry Voegele to the rostrum.

The question was on the motion of Senator Kusler that a committee of one be appointed to escort Larry Voegele to the rostrum, which motion prevailed.

The President appointed as such committee Senators Kusler, and Streibel and Larry Voegele was escorted to the rostrum and the courtesy of the floor was extended to Mr. Voegele by the President.

Mr. Voegele: Thank you very much, ladies and gentlemen. It's both a privilege and a pleasure to be able to sit in on this session and see it operating.

It is a much greater pleasure to be able to stand here before you and speak to you. I'm sure I am to be envied at this moment.

As I watch you ladies and gentlemen proceed, I see a marked difference in your procedure and the one we had at Boys' State. If I remember correctly we were in favor of parking meters, we lowered the legal tax rate on borrowed money from 7% to 6%; and some of the more mercenary of us succeeded in passing a bill legalizing CAPITAL PUNISHMENT.

In closing I must say I'm deeply impressed with the efficient, capable way everything is run.

Once again, may I say, it's a great honor for me to be here; and in recognition of your kindness and consideration of me I hope that each of you votes on the winning side from here on out. Thank you kindly.

Senator Kusler moved that the remarks of Mr. Voegele be printed in the journal, which motion prevailed.

MOTIONS

Senator Streibel moved that the Senate be at ease until the call of the chair, which motion prevailed.

The Senate reconvened at the call of the chair.

CONSIDERATION OF AMENDMENTS

MOTIONS

Senator Bridston: I move that a committee of one be appointed to escort Katy Ladoupulous of Athens, Greece, to the rostrum. Miss Ladoupulous is a student at the University of North Dakota under a Fulbright Scholarship, and we are real proud of her down at Grand Forks.

The question was on the motion of Senator Bridston to appoint a committee of one to escort Katy Ladoupulous of Athens, Greece, to the rostrum, which motion prevailed.

The President appointed as such committee Senator Bridston, and Miss Ladoupulous was escorted to the rostrum and the courtesy of the floor was extended to her by the President.

Miss Ladoupulous: Thank you very much. I don't know how to start. It is such a great pleasure.

I heard President Eisenhower's speech this morning on the State of the Union and he said that he was deeply honored to be addressing the Senate; I don't know how honored I should feel and perhaps I feel disturbingly honored to be addressing you. It is nice to be in a country where Democracy has been taken so seriously, because after all I came from the country where democracy originated; I came from Greece, and I feel it more so. The University of North Dakota is providing for my tuition fees and you should all be proud for giving so much emphasis to education here. I was over in the other House and they happened to be having a discussion there over some appropriation for some of the school—I, however, am not talking about appropriations for my school, but just noticed how interested you all are in education as a whole. Then, of course, there is the Marshall plan, which did not take much from you, probably 15 or 20 cents, but it did mean much to the people in Greece. It has acquired many more friends for the people than they expected it to, and after all it is through you and the taxes you pay that I am able to be here. I have encountered many difficulties with the language here. One time as I was entering my class room for the class in government one day I turned to my friend behind me and said, "I hope we're not going to have another 'squeeze' today", meaning, of course, quiz, and my instructor was standing behind me and heard my remark and said "we don't give 'squeezes' in this country". But at any rate I'm happy to have been here and to have had the opportunity of addressing you. If you have any questions I should be very glad to try and answer them for you. One day as I was addressing the Lions' Club, I asked this question and no one answered me or had any questions, so I asked again if there was any questions, and one very distinguished man of about 60 got up and said, "Yes, what are you doing tonight?"—If there are no questions, I will thank you again and not take up any more of your valuable time.

Senator Streibel moved that the remarks of Katy Ladoupulous, of Athens, Greece, be printed in the journal, which motion prevailed.

Senator Day moved that a committee of three be appointed to check into the matter of printing of bills, which motion prevailed.

The President appointed as such committee Senators Sandness, O'Brien and Davis.

MOTIONS

Senator O'Brien moved that a committee of two be appointed to escort Mary Lou Tronson of Valley City, North Dakota, and Barbara Leifur of Bismarck, North Dakota, two representatives of Girls State, to the rostrum, which motion prevailed.

The President appointed as such committee Senators O'Brien and Geelan and Mary Lou Tronson and Barbara Leifur were escorted to the rostrum and the courtesy of the floor was extended to them by the President.

Miss Tronson: We have already been introduced to the House and I made my speech in there. We are representatives

of Girls State and we are here speaking on behalf of Senate Bill No. 134 to have the Flickertail adopted as the official emblem of the State of North Dakota. Barbara Leifur of Bismarck will speak here.

Miss Leifur: She told you we were from Girls State. Girls State is where each summer girls from all over North Dakota gather together at Grand Forks and learn about our government. We learn by doing. We first organize into cities. After that we elect city officials, then counties and function as counties, and then we have our political parties, have our candidates and draw up platforms, lectures and everything, and after that we get down to business and do our duty. It was in the Senate that this bill was introduced. Speaking in front of the Senate is really nothing new to me.

My uncle is Harry O'Brien so I was practically raised in this room here. I would not be a bit surprised if my teeth marks were on Senator Freed's desk.

1 RESOLUTION OF THE CITY PLANNING
 1a COMMISSION
 2 OF THE CITY OF MINOT
 3 WHEREAS, the City Planning Commission of the
 3a City of
 4 Minot is interested in developing a program which will
 5 eventually lead to a solution of the problems caused by an
 6 extremely heavy traffic load over state and federal
 6a highways
 7 leading through the city which are badly worn and no
 7a longer
 8 adequate for taking care of the traffic passing through
 8a said
 9 city on said state and federal highways, and
 10 WHEREAS, The City Planning Commission has long
 10a recog-
 11 nized this traffic situation as one of its most important
 12 problems and has devoted much time and effort towards
 12a developing
 13 a satisfactory solution, and,
 14 WHEREAS, the citizens of the City of Minot and of
 14a Ward
 15 County, and the city and county officials, believe that a
 16 well organized study of the problem made by experienced,
 16a pro-
 17 fessional personnel will lead eventually to a planned
 17a program
 18 which will save the state, county and municipal
 18a governments
 19 considerable money through the elimination of needless

19a dup-
 20 lication of traffic facilities in the years to come, and,
 21 WHEREAS, the citizens of the City of Minot and of
 21a Ward
 22 County and the City Planning Commission believe that
 22a one way
 23 of solving this problem might be by connecting our
 23a existing
 24 highways outside the city limits thus eliminating a large
 25 part of the traffic of heavy trucks and trailers which are
 26 now forced to traverse our narrow and over-crowded
 26a residential
 27 streets,
 28 NOW THEREFORE, The City Planning Commission
 28a of the City
 29 of Minot respectfully requests that the agencies of the
 29a State
 30 of North Dakota and of the Bureau of Public Roads and
 30a of the
 31 State Highway Department, lend all possible assistance
 31a to the
 32 municipalities within the State of North Dakota and the
 33 political subdivisions thereof in developing a
 33a coordinated
 34 planned program which will lead to the eventual
 34a elimination
 35 of the problems now existing because of the
 35a concentrated
 36 traffic load on state and federal highways running
 36a through
 37 and on the streets of the municipalities within the
 37a State of
 38 North Dakota.
 39 Passed and adopted this 26th day of January, 1953.

MOTIONS

Senator Sayer: We have with us today a distinguished guest, former member of this body, and I would like to move that the chair appoint a committee of one to escort former Senator Steven C. Nelson to the rostrum, which motion prevailed.

The President appointed as such committee Senator Sayer, and former Senator Nelson was escorted to the rostrum and the courtesy of the floor was extended to him by the President.

Mr. Nelson: Mr. President and members of the Senate, I want to assure you that this is a non-financial visit, by that I mean I am not a lobbyist. I did try to figure out some way I could come here like that but it did not work out. I still have the desire to come back and meet with old friends and old Senators still remaining here, and it is always a pleasure to meet the new friends and new Senators here as well as the House members. I started out my service here in 1939 and I served in the House in 1939 and 1941. From there I moved over to the Senate and I served four terms, eight years, as the rule is by mutual agreement between Griggs and Steele counties. Most of you know the mutual agreement there is four terms in each county. After retiring I have fully retired from politics. I still maintain considerable interest in it and some of you like to irk me a little bit occasionally for moving out of the state. I am residing at the present time in Moorhead and that is more or less of a temporary residence. I still maintain voting rights in the State of North Dakota, all my property is here in North Dakota and I am proud of the State of North Dakota. I always will be and my chief interest, my main interest, will be in North Dakota. Therefore you know there is instilled in me, after serving as long as I have, a desire to come back and I have a particular interest in the welfare of the State of North Dakota, and I like to see good legislation, and I know the two groups here have their differences at times, but I know the legislation will be good for the state as a whole.

That is all I have to say. Thank you.

Senator Sayer moved that the remarks of former Senator Nelson be printed in the journal, which motion prevailed.

MOTIONS

Senator Rue: Mr. President: We have with us today a distinguished guest, now a resident of Bismarck, but when he was in the Senate he was a Senator from McLean County which took in Sheridan, part of Mountrail and a large area. I might say that his father before him was also a Senator from Wells County and now his son is our Senator from Kidder-Sheridan, John Davis. The man we have with us today is former Senator J. E. Davis. I move, Mr. President, that a committee of one be appointed, namely, Senator John Davis, to escort his father, J. E. Davis, former Senator, to the rostrum for a few remarks, which motion prevailed.

The President appointed as such committee, Senator Davis, and former Senator J. E. Davis was escorted to the rostrum and the courtesy of the floor was extended to him by the President.

Mr. Davis: Thank you, Mr. President. Members of the Senate: For many years I had the privilege of serving in here. I think as I look you over that you look about the same as the members when I was here. You probably smoke more cigars—but you don't chew as much tobacco.

It was characteristic of the people of the state at that time, and that feeling was carried into their legislature, and that was that they were filled with a great fear of indebtedness and high taxes, and there was a reason for it. At that time they knew nothing about Washington. I think I must have been around twenty years old before I ever saw a representative from Washington and very few from the state. They were self-reliant, self-supporting and came here without anything except a burning desire to get their own home by filing

on a homestead, just a bare piece of land, and then work out their own salvation, and that means a lot, and still they were patriotic. I think at the time of statehood there could not have been more than about—I am just guessing—about two hundred or two hundred and fifty thousand people. Look at the institutions they established and yet they never were worried about the state indebtedness, and when they did need some money, as I will recite an instance to you, there was no thought of going to Washington or asking for help outside of the State. I happened to be, at that time, not having the facilities of high school, at the University, they had a model high school there, had to take preliminary work there before I went into the college department, and when the legislature met they decided that through poor crops, low prices and the tribulations in economy of one occupation that they could make appropriations for the educational institutions. They had a consultation there at the University, of the faculty members, and their response was—if you will pay us enough to live on we will carry on throughout the year. Immediately petitions were circulated over all the state where people had children and in other districts, and they raised enough money to keep on. There is an illustration of independence, self-reliance and education. Now I see you people have a lot of educators. I read in the paper the other day of an educator who made the plea that you would not interfere with some fund. What is your responsibility? Your responsibility is to raise taxes and the disbursing of tax money. Now, this man said, and I have known him for some years, he never had the viewpoint of a taxpayer, has been supported by taxpayers—he said you can't touch that fund—that is a sacred fund. I wondered why some Senator did not question that assertion—sacred fund. There is no fund sacred, that this legislative body is not responsible for. Now going back to the University. I think the example set by those men, and they were big men, we had men from all the great universities of the United States; Edinburgh, Scotland; Oxford; Heidelberg, Germany; widely traveled men, yet they set that example.

During the time I was there, including the high school I took, was six years. Used to talk about fine buildings and educational equipment. There was one factor that made as big an impression upon me and upon the people who were there, and were out of school, I think was the example set by these men who denied themselves opportunities to give the young people education. That is an example of true democracy, feeling of responsibility. They had responsibilities, and the Senate here has responsibilities. When I was in the Senate the question of women suffrage came in. There was a man here—he was an employee here—but when we recessed he came and sat by me. He found out I spoke German, liked to talk to me. He was from the southern part of the state. Naturally coming from Europe I guessed he was opposed to women suffrage. I said, "Jake, what do you think about women suffrage?" He said, "That is nothing." But I said women have a right to vote, they raise children, interested in schools, they should have the right to vote. He said that was a mistake. I said what is the matter. Well, he says in the house I am the boss. I said that is fine but women are intelligent, he said ya, and I asked why don't you want them to vote. He said I am from down in McIntosh

County. We had school board there, I was on the school board, fellow there we did not want, we got together and got him out, and the women they come in and swish, by golly, they put him in again. I said that isn't against women voting. He said yes but when my wife starts talking I keep still right away. I think Jake was mistaken he was not the whole boss.

But going back to our work here in the Senate, I don't know but it seems to me that we have problems here, national problems, and international problems. Our President, I am sure, will do what he can to quiet the world problems in the east but as long as we have a boy on foreign soil in a war it is our obligation to back him up and to get him home. But here in this state we are concerned about our state business. Our state is in good shape. But I think we must look forward to what is coming in the future when we have two hundred sixty-five billion dollar indebtedness and analyze that the share to be paid by North Dakota and the allotment to each family of four makes a total of around eight or nine thousand dollars, we can't say our farm is clear or that our home is clear. We must be more conservative. The people of the state and nation by election have indicated that they want lower taxes, less expenditures, less inflation, not too fast deflation. It is a big responsibility that has to be worked out slowly, so I hope, and I think you will do it, the papers don't indicate that, but you got to trim here and there, and the responsibility is yours, you can't go back to your constituents and say you were in favor of that, taxpayers will watch that situation now and unless something is done you are doing a great harm to the state. Thank you.

Senator Page moved that the Committee on Appropriations be allowed to withdraw Senate Bill No. 202, which motion prevailed.

I was here two years ago and learned a lot from you and from Brynhild Haugland who is a friend of mine in the House. I took a busman's holiday. We have Lincoln's birthday off in Minnesota. Came up last night and going back tonight to report on your activities here. We have been pretty busy in Minnesota. We have adopted the Norway Pine as our state tree and killed the bill that would have done away with Lincoln's birthday as a holiday. The serious business is still ahead. We have a 90 day limit, you have a 60 day limit. Our rush will develop in the middle of March. I hope you will take a busman's holiday when your session is concluded and come down and visit us. MESSAGE FROM THE HOUSE

House Chamber
 Bismarck, February 12, 1953

Mr. President: I have the honor to transmit:

House Bill No. 613

House Bill No. 616

Which the Speaker has signed and your signature is respectfully requested.

V. L. GILBREATH, Chief Clerk.

MOTIONS

Senator Davis: Mr. President; I would like to have the honor to present to the Senate a distinguished guest today, a man who has been familiar around the corridors of the capitol for the past thirty days, but on account of ill health, doctor's orders and restraint of his lovely wife, was not able to attend the opening session, but he is with us visiting for a few days this week. Jack is a legend among veterans and legionnaires of the State of North Dakota. He is known throughout the United States for his years of distinguished service in the American Legion and today is the oldest Department Adjutant in the United States in time of service today. He is a grand fellow. He has been an outstanding leader and he is known and admired by citizens throughout the State of North Dakota, and I move that a committee of one be appointed to escort Honorable Jack Williams to the rostrum, which motion prevailed.

The President appointed as such committee Senator Davis and the Honorable Jack Williams was escorted to the rostrum and the courtesy of the floor was extended to him by the President.

Mr. Williams: Mr. President: I don't know of anything I appreciate more than this opportunity to look at this group of men from the front of the Senate. I have been around here 33 years or 34 years and it has always been my privilege to have been in the back of the hall. I know more people by the back of their heads, or more members of the Senate, than I do by their faces. I do appreciate this opportunity of looking at the Senate because during these 34 years of time I have known some great men who have served in this Senate body. I could go on mentioning many of them. Men like Paul Kretchmeier, Bill Lynch, Dave Hamilton, Dell Patterson, and Oscar Erickson, and Hjalmer Nelson, who passed away this summer. All honorable and honest men. I heard people in the state say what do they do in the legislature. From my experience here for 33 years, there never has been a member of this body that has not been honest, that has not had a right in defending his views—no one can tell me that any man serving in this body hasn't always had the best interest of the people of North Dakota at heart, regardless of what his opinion may be on any pieces of legislation. Thank you kindly.

Senator Rue moved that the remarks of Jack Williams be printed in the Journal, which motion prevailed.

MOTIONS

Senator Morgan: Mr. President: We have in this chamber today a man that has served twelve years as a member of the Senate of North Dakota, and prior to that time served several years as a member of the House of Representatives. He is known to most of us. His record as a legislator is a commendable one. I move that the Senator from the Third District be appointed to escort the former Senator from the Third District to the rostrum for a few remarks.

Which motion prevailed.

The President appointed Senator O'Brien to escort former Senator O'Brien to the rostrum, and former Senator O'Brien was escorted to the rostrum and the courtesy of the floor was extended to him by the President.

Mr. O'Brien: Mr. President, ladies and gentlemen: Early in the session I got a hold of a Senate Journal and have gotten them regularly since as I am interested in your procedure. I notice my old friend, Bill Tuff, was here and made a two word speech. I thought it was a very good speech and wish that I could do as well. However, I have noticed in my experience in the legislature that almost invariably ex-legislators don't have the discipline that the Senator has and I fear I am no exception. I fear I am going to take up a few minutes of your time. However, bearing in mind that your calendar is heavy I shall try to be brief. Returning to the Senate as a private citizen brings back many memories, and for the most part they are very pleasant memories, memories that I will cherish always. I see before me here friends of long standing and I see before me a few freshmen Senators that I do not know, and one freshman I do know quite well.

Mostly for sentimental reasons, and for the reason that our name was on the desk, I suggested to the incoming Senator that it would be nice if she would take my seat, at least until seniority took its course and she agreed that she would do that. A little later I got a letter from Mrs. O'Brien saying that one of the Senators was having difficulty with his hearing and he thought it would be cheaper to change his seat rather than buying a hearing aid. When I found out it was Amos Freed I was very much resigned and all was forgiven because I know of few people I would rather see occupying my old seat than the Senator from Stark. I can understand

and sympathize with his desire to hear everything that is going on in this chamber because everything that is going on in this chamber is worth listening to. Now if that was in the house—I remember one session when I was in the House, a fellow came down as one of the representatives and he had a hearing aid. He had served several previous terms and I asked him how he got along with his hearing aid and he said he wished he had used it for several sessions before. He told me when there was nothing of interest going on he shut the thing off and would do some thinking. When there was something going on he wanted to hear he turned it on. He said you would be surprised how strong my battery was at the end of the session. In the Senate, of course, the strain on hearing aid batteries would be rather substantial.

I have been asked by different people whether or not I regretted being no longer a member of this distinguished body and my answer is sometimes I do regret it, other times I don't. Last spring when the time for filing came around I cast about for a suitable successor—I want to emphasize the word "suitable", for in my district the successor would have to be a Democrat. During any time I was a candidate for reelection I had to struggle with one or more, but I wanted a suitable successor so I cast about for available Democratic candidates and it seemed to me that Mrs. O'Brien perhaps stood the best chance of being elected, so I brought the matter up at the county convention and they agreed to nominate her although I am sure some of the precinct committeemen present kept their fingers crossed until all the votes were in.

I think that might be a worthwhile matter for some of you members to consider, especially you fellows that have been here for quite a number of terms. I realize, of course, that we have some men here that probably will go on surviving for at least a hundred years like the one-hoss shay, and I have in mind particularly, Dr. Stucke, Kamrath, Axel Olson, and perhaps a few more, but there are others that are going to have to face elections when their term expires, and it is rather an obvious fact that even for no other reason than the law of averages that if you run long enough sooner or later somebody is going to defeat you. Sometime it just possibly could happen that some hustling Scandinavian might come out against you, or some German, and bring up the cry, like we heard in the last election, time for a change, and they very possibly could defeat some people and especially if the ladies had the foresight to engage a good Irish campaign manager. My opponents might have selected someone outside of our own family—all good fellows—but I think they had a rather serious drawback in that they were all Republicans.

In reading the journal and also reading the very fine coverage given by the members of the press, I note that you have much the same problems as have faced the legislature for years—the problem of operating our state set-up, to operate our institutions, educational, penal and charitable, to keep our schools going and our roads in passable shape, and although they are things that the people of our state have come to expect and consider as their rightful heritage and they are entitled to those things to the extent they are willing to pay for them. This year, for the first time, you have another complex problem ahead of you, regulating and considering our new oil industry. That problem will probably be a recurrent problem to the legislatures for several decades. I hope it will

because nature abhors anything that stands still. In fact there is no such thing as standing still. The State either must go forward or else go backward. When legislation that was passed in previous sessions comes back up for revision, repeal or other consideration, it is a good sign because it is a sign that the people of the state and the state are going forward. I have heard said that there is politics in the legislature. I do know it would be strange indeed if there was not, and I think politics in moderation is a healthy thing. If nothing else it dramatizes to us the fact that we are living in a democracy where we can differ from our fellowmen, have honest differences with them and we can state them publicly without fear of being liquidated such as is the situation in so many parts of the world. Still I believe that politics are not as bad in recent years as it was in the early history of our state. Those of you who have read the history of our early legislatures know that that was the time when politics were played for keeps and ruthlessly. I remember in 1937 it took the House two full weeks to organize. That was the time when we had four governors in somewhat less than a year. Two of the governors were William Langer and Tom Moody. I think we all remember Tom Moody was removed as the result of Supreme Court action during the 1937 session, which I did not like very well because perhaps I was prejudiced. Governor Moody happened to be a democrat and I thought he got rather the worst of it in the ousting of him on technicalities. I was mad at the time and I was mad for some time afterwards. I thought perhaps the state would never survive such a crisis as that. The crisis existed only in my own mind, however, because the state did survive and went on to new and greater heights. I think the State of North Dakota can survive anything, it has great stamina, even the most obnoxious politician if we ever should have any such politician. Sometimes I think we are inclined to put too much emphasis on the little things of life. I mentioned two of the governors that served in the year 1936 and early part of 1937. The other two governors, not quite sure of their names even after a short period of time, believe one was Ole H. Olson and the other Walter Welford. I can't remember to save my soul what committees I served on in 1935 or in 1945, and I have a rather vague memory of some of the committees I served on in 1951. Probably most of us do put too much emphasis on things that are relatively unimportant. I just wished I could be more like Uncle Dan. He has passed on many years ago but he was a man that never seemed to worry about anything, did not make very much money but he was one of the happiest men I ever knew. I think it might be well for all of us to emulate him to at least some extent.

I am going to close with a little story and I think I will use Uncle Dan as the hero of that story because it typifies so well his cheerful attitude of life. It seems that he hitched up a team of mules one day, took a load of grain to market, while in town he found some friends, imbibing friends and they had a number of drinks of intoxicants and Uncle Dan started home a little under the weather. Before he had proceeded very far he put a blanket in the box and laid down and went sound asleep. The mules went on for a while and when they found out that there was nobody guiding them

they pulled over to the side of the road and proceeded to rest. About that time a neighbor came along, saw what was up, looked in the box and saw Uncle Dan asleep peacefully. He unhitched the mules, took them up to his place which was not very far away, pending the time Uncle Dan woke up. After a while he did wake up. He took a plug of tobacco, took a chew, went to the front of the box expecting to start up the mules, lo and behold there were no mules, so he went to the back of the box, still no mules, so then he said: "Well, I either lost a damn good pair of mules or else I found a damn good wagon."

Senator Day moved that the remarks of former Senator O'Brien be printed in the journal, which motion prevailed.

STATE OF IOWA GENERAL ASSEMBLY

HOUSE RESOLUTION 3

BY: Schwengel of Scott, Weiss of Crawford, Burrows of

Benton, Ringgenberg of Story, Robinson of Delaware.
(Senators Berg, Lord, Nesmith, Walter)

WHEREAS, building of roads and highways since the inception of our Government has been primarily a state responsibility; and

WHEREAS, every state of the Union has tremendous problems in maintaining, extending, and building highways and bridges due to the lack of building program during the war year period; and

WHEREAS, the Federal Government has always collected much more than they have sent back to the states for road building purposes; and

WHEREAS, the costs of building and maintaining roads and highways have increased tremendously; and

WHEREAS, states have demonstrated they are willing, have, and do cooperate in building the federally designated highways; and

WHEREAS, the states sensed the responsibility of an integrated highway system as it relates to the national welfare; and

WHEREAS, the states have demonstrated that they can build adequate highways; and

WHEREAS, in many instances, many economies can be effected through sole state responsibility of building highways; and

WHEREAS, because of the foregoing facts and after due consideration, The Council of State Governments in the National Meeting December 7 in Chicago passed a resolution supporting this proposition, and the Governors' Conference in the National Meeting in July, 1952, unanimously passed a resolution supporting this proposition, therefore,

Be It Resolved by the House of the 55th General Assembly of the State of Iowa, the Senate concurring, That the Eighty-Third Congress give serious consideration to the question of eliminating the Federal gasoline tax and leaving that area of taxation entirely to the states.

Be It Further Resolved, That attested copies of this concurrent resolution be sent to the presiding officers of the Congress of the United States and to each member of the Iowa delegation in Congress, and that printed copies thereof, showing that said concurrent resolution was adopted by the legislature of Iowa, be sent to each house of the legislature of the states of the United States.

I hereby certify that the foregoing Concurrent Resolution was adopted by the Fifty-Fifth Assembly of Iowa on the 23rd day of January, 1953.

A. C. GUSTAFSON, Chief Clerk.

Senator Duffy: I rise to a privilege of the Senate. In a publication that was laid on the desks of the members of the Senate, I believe yesterday, appears a two column spread on the front page which contains the following statement: "This year we see the R. O. C. in the minority in the Senate for the first time in many a session, and to many of them it is hard to take, so hard in fact that some of their members have been gone for a period as long as two weeks or more at a time, undoubtedly with the idea that as long as 'I can't play I may as well attend to my insurance or other affairs, my pay check

will be forthcoming just the same.'” It is obvious that that statement was directed at the Senator from Grand Forks, Senator Bridston. The members of this Senate know that he was absent, I believe, for about a week and that the reason for his absence was not because he wanted to attend to his insurance business, it was because he had a death in his family and he went home because of the stroke suffered by his mother-in-law, her subsequent death and her funeral, and then was delayed further because of the illness of his father-in-law. I think it is most unfortunate that anyone should make a statement of this kind in view of the circumstances. May I say further that I am sure that that statement does not reflect the thinking of the Board of Directors of the Nonpartisan Leader, nor does it reflect the thinking of the Nonpartisan League members of the Senate. I might say that in recent months, particularly under the editorship of Walter Bubel, I have been almost willing to adopt the Nonpartisan Leader as my paper but I certainly would not do so if they permit writers for the paper to indulge in statements of that kind, and I feel that I merely express the sentiment of the Senate regardless of political affiliation in condemning such a statement as being most unfair and most unfortunate.

Senator Streibel: I subscribe to everything Senator Duffy said. Two years ago most of you will recall some of the newspaper attacks on me with respect to my remarks about allowing eighteen years olds to vote. I was misquoted of course. Because of this attack I know how much one can be made to suffer from newspaper attacks. I regret very much that this incident occurred. I was always of the opinion that death harbors no grudge.

MOTIONS

Senator Rue: Mr. President: We have here today some children from the Crippled Children's School at Jamestown. I move that they be granted the privileges of the floor and that they be given a big hand by the members of the Senate.

Which motion prevailed and the President of the Senate extended the courtesy of the floor to the students from the Crippled Children's School at Jamestown, and these students were applauded by the members of the Senate.

Senator Morgan: Mr. President: Every session of the legislature has had more criticism, things said about them by the newspapers and over the radio, and by the people at home, but I think this session has received more criticism than any other. I would like to read an editorial which was published last week in one of the newspapers of the state. (And the editorial was read by Senator Morgan.)

Senator Morgan moved that the editorial just read from the Nonpartisan Leader of February 12th be printed in the Journal, which motion prevailed.

THE LEGISLATIVE RESEARCH COMMITTEE AND THE LEGISLATURE

When the "Legislative Research Committee" was created it was the understanding that it would be of great help to the Legislature doing research work on problems affecting Laws and Regulations that the coming Legislature would be confronted with. This to a certain degree the Committee has been effective in doing. What it has done in this respect that perhaps was not intended by the "legislative powers" given them is their apparent desire to recommend certain laws to the legislators for passage instead of merely giving their investigation results, both pro and con. The Committee has often been referred to as "The Little Legislature" in recent years.

The other thing that the Research Committee was expected to do was to facilitate and shorten the work of the Legislators, by drawing up certain appropriation bills, having them ready

for introduction as soon as the session convened. This part hasn't, it seems to the writer, been of any great help. 35 days have now passed and only three bills have been sent to the Governor as of this writing. So far this has been one of the slowest moving Legislatures for some time. Altogether too much time has been fooled away—either in doing nothing or in introducing “no account” or silly bills, spending hours debating nothing.

Senator Geelan: Mr. President: We have some distinguished people with us today. I would like to introduce the presidents of four of our senior classes who are here studying legislative procedure. They are Ardys Bunn, Sheldon; Laurel Gamache, Lisbon; Stanford Grothe, Fort Ransom; Kenneth Jacobs, Enderlin, and Supt. A. P. Ziegenhagen of the Enderlin High School who accompanied them here.

These folks were greeted by the President and applauded by the members of the Senate.

MOTIONS

Senator Sandness: Mr. President: We deal in thousands and millions of dollars here. We are getting pretty well used to that. We have with us today a man to whom that is small change. They deal in billions and I heard the other day they were going to have to start making trillions. I refer to none other than the distinguished Senator Milt R. Young, who is sitting alongside of me at the present time. Mr. President, I move that a committee of one be appointed to escort the Honorable Senator Young to the rostrum.

Which motion prevailed.

The President appointed as such committee Senator Sandness and the Honorable Senator Young was escorted to the rostrum and the courtesy of the floor was extended to him by the President.

Senator Young:

Thank you, Mr. President and members of the Senate. It is always a pleasure to come back here. As I have stated many time, the happiest days of my life were spent in this chamber. It will always be my hope to come back and visit with you each session.

My good friend, Senator Sandness, mentioned the billions of dollars we deal with in Washington. I wish it could be less.

Last fall when I was in Korea, the President of the Korean Assembly—they call him chairman—and some of the members came out to the airport to meet me requesting me to speak to their assembly. I was not sure whether I wanted to or not. There is a tense situation there. I was afraid anything I might say could be misinterpreted and add to the already involved Far Eastern situation; but I finally accepted. They were very gracious during the course of my remarks. I mentioned the tremendous sacrifices our people over here were making to help people all over the world, what a hardship it was to us. That our per capita debt was second highest in the world and our per capita taxes

second highest in the world. I told them that since World War II our foreign assistance had amounted to approximately ninety billion dollars. I was speaking from the rostrum in front of the chambers of the Assembly with the President of the Assembly and an interpreter alongside of me. When I made that remark everything stopped for awhile, and the interpreter talked with the Chairman of the Assembly. I did not understand immediately what the conversation was about, but I understood afterwards that it would be almost impossible to translate ninety billion dollars into Korean money. Their inflation is terrific.

In fact, seven of us went to a party at a hotel one night—just an ordinary dinner affair—and the bill was eight hundred thirty thousand won.

Before World War II that would only have been a few thousand won. That gives you some idea of the problems they have.

May I say it is good to be back here again; apparently you are playing a little rougher than you used to when I was here, but I think the same good spirit will prevail when your work is concluded.

I notice there have been some changes here. You have made an agricultural expert out of my old friend, Senator Rue. I am chairman of the Agriculture Appropriations Sub-Committee on the Senate side in Washington. Senator Rue would be a welcome addition to the sub-committee I am chairman of. We are going to have a little trouble in maintaining adequate appropriations for agriculture. May I say just a word or two about the procedure of that committee there. Everything is based on seniority and all our hearings and marking of bills are conducted by various sub-committees. I, myself, am on five sub-committees including chairman of the agriculture appropriations, and a member of armed forces, interior, civil functions, and social security. When the bill goes on the floor, the sub-committee chairman is in charge of the bill. The sub-committee chairman has considerable amount of power in that capacity on the floor. For example, if someone offers an amendment, he can accept the amendment if he wants to. The voting afterwards is more or less automatic.

Let me say just a little bit about the appropriations for agriculture. Last year it was approximately eight hundred million dollars. This year the budget request is for about one billion. Most people think that is all subsidy to agriculture. It is not. Last year 50.8 percent of the total agriculture budget had to do with matters that were not directly connected to agriculture. For example the school lunch program—the appropriation last year was some eighty-three million dollars. That program is more of a benefit to consumers and the children of this nation than it is to agriculture. There is another seventy million dollars for the forests of this nation, another twenty-six millions for forest roads and trails, fourteen million for Federal meat inspection, sixty-five million dollars for research which is a benefit to all the people whether they be farmers or non-farmers, some seventy million dollars for the operation of the Sugar Act. The Sugar Act program brings in about one-third more money than is expended for that purpose.

All the funds, with very few exceptions, go.

I think there will be sizeable reductions in all budgets this year—I can't see any tax reduction in prospect this year—unless we can stabilize the agricultural economy. Unless we do, it will not only have a serious effect on agriculture but on the whole nation. Tax reductions may not be possible for years to come if agricultural income keeps on dropping.

May I say again that it has been a real pleasure to visit with all of you again. Thank you a lot.

Senator Bridston moved that the remarks of Senator Young be printed in the Journal, which motion prevailed.

Senate Resolution No. 10. A resolution memorializing the secretary of agriculture to take steps to stabilize farm prices.

Was read the first time.

Senator Sandness moved that Senate Resolution No. 10 be not printed but that it be printed in the journal and laid over one legislative day, which motion prevailed.

SENATE RESOLUTION NO. 10

Introduced by Senators Sandness, Sauer, Wadeson, Krenz and Livingston

A resolution memorializing the secretary of agriculture to take steps to stabilize farm prices.

- 1 WHEREAS, the economic welfare of all the people of
- 1a the
- 2 state of North Dakota is entirely dependant on a
- 2a prosperous
- 3 agricultural economy, and
- 4 WHEREAS, after a dozen years of abundant produc-
- 4a tion of
- 5 farm crops thru favorable weather conditions there is
- 6 evidence of a natural decline in that production cycle, and

7 WHEREAS, this decline, together with falling agri-
7a cultural
8 prices, and an increased cost of operation has already
9 resulted in an increase in farm and chattel mortgages,
9a and
10 a general tightening of credits, thus bringing about a
11 decrease in the buying power of our people, and

12 WHEREAS, the support price and the cash price of
12a grain is
13 far below the 1910 to 1914 parity price; for example, such
14 per bushel parity price on wheat is \$2.44, on oats \$1.10,
15 on barley \$1.71, and on flax \$4.66, while cash prices on
16 these products today in Bismarck are as follows: wheat,
17 \$2.08, oats \$0.56, barley \$0.91, and flax \$3.52, and

18 WHEREAS, importation of farm commodities exceeds
18a exporta-
19 tion by over a billion dollars and the continued dumping
20 of the Commodity Credit Corporation stocks would
20a further
21 depress the market, and

22 WHEREAS, we are unalterably opposed to going back
22a to a
23 program of subsidy payments and government control of
24 agricultural operations in lieu of fair market prices or a
25 sound price support program, and

26 WHEREAS, we recognize that "parity" is a price
26a deter-
27 mined by the government to be fair to producer and
27a consumer
28 alike and present price supports are necessary to provide
29 a fair price for farm products;

30 NOW, THEREFORE, BE IT RESOLVED, BY THE
30a SENATE

31 OF THE STATE OF NORTH DAKOTA, that we urge
31a the Secretary
32 of Agriculture to take immediate steps to halt the ruinous
33 drop in farm prices, and that a program designed to stabil-
34 ize all farm commodity prices at full parity be put into
35 effect at the earliest possible moment.

36 BE IT FURTHER RESOLVED, that the Secretary of
37 Agriculture let it be known in unmistakable terms that
37a this
38 administration is not going to let the farmers be pushed
39 to the edge of disaster before coming vigorously to their
40 aid.

41 BE IT FURTHER RESOLVED, that the government
41a of the
42 United States take action immediately under section 22 of
43 the Agricultural Act to curtail heavy imports of agricul-
44 tural commodities of which we have abundant supplies
44a and
45 which imports are seriously effecting the operation of our
46 price support program.

47 BE IT FURTHER RESOLVED, that the Secretary of
47a Agri-
48 culture desist dumping of Commodity Credit Corporation
49 stocks on our markets when prices are below established
50 support levels.

51 BE IT FURTHER RESOLVED, that the renewal of the

- 52 International Wheat agreement is necessary in order to
 53 continue adequate foreign exports.
 54 BE IT FURTHER RESOLVED, that we commend and
 54a support
 55 Senator Milton Young for his untiring efforts to obtain
 56 economic equality for Agriculture, and that we endorse
 56a his
 57 stand on international trade agreements, farm price
 57a supports,
 58 and fair import and export programs.

Kamrath		

So the bill was declared lost.

Senator Olson: Mr. President: I want to explain my vote.

I am satisfied in my own mind that this is not the remedy. We can never hope to rehabilitate all the wrecks from the liquor business even if we taxed ourselves one million dollars a year. And, as long as the majority of the voters of the State of North Dakota continue to license and legalize the liquor business that has nothing to show as results of this operation but murder and crime, vice and corruption, shame and disgrace, want and misery.

We better let our drunkards lay around on our streets and gutters, and our social and moral outcasts lay around our homes and elsewhere until they become a stench in our nostrils, and then, perhaps, we will do something about the liquor traffic.

I VOTE "NO"

REMARKS OF SENATOR DUFFY ON
SENATE BILL NO. 184

Senator Duffy: Mr. President: I can endorse everything that Senator Stucke has said but at the same time I can vote against this bill. The essence of this bill is contained in the following language. As he said we have a one mill tax that goes to the medical center. The essence of this bill is this: "A sufficient portion of such fund, however, shall be retained by the Board of Higher Education to permit the establishment of a third year course in medicine at the center not later than 1955, and a four year course not later than 1956." Now I took the position in the appropriations committee that the Board of Higher Education knew how to spend the money we appropriated better than we did, that they could pick out the items, the institutions, the places where that money could be spent to the best advantage over a period of two years than we could possibly do in the period of a few days that we can devote during our session to the appropriation measures. I would be wholly inconsistent with that position if I now undertook to tell the Board of Higher Education how to spend this money and for that reason, and not because I have any objection to them proceeding as fast as they feel they can proceed, I feel that I must vote against this because I don't think I am qualified to tell the Board of Higher Education how soon they should establish a three year course, or a four year course, or how they should properly spend this money.

REMARKS OF SENATOR NORDHOUGEN
ON SENATE BILL NO. 41

Senator Nordhougen: Mr. President: Allow me, — as Chairman of the Senate Finance and Taxation Committee, to give you a brief summarization pertaining to the action and to the report submitted on Senate Bill 41.

To you, Mr. President, and the other 34 members of this 33rd Legislative Assembly, who are not members of the Finance and Taxation Committee, may I report as follows:

Our first hearing on Senate Bill 41 was a public hearing, held in the House Hearing Room, by the joint House and Senate Committee, — which gave varied viewpoints by the public who appeared before us with their provisions, pro and con, on Senate Bill 41. This hearing lasted for three and one-half hours; — it was instructive in every way; — much information was given to us at that time, to which we have referred on several occasions.

Since that first meeting many warm discussions have been had by members of the committee — in and out of committee meetings; — ideas as to the prospective rate of oil taxation varied from three to twenty per cent among members of this Senate body.—Yes,—Mr. President—I think it was even suggested that we should go so far as to imply no gas production tax at all! That, Mr. President — was during our earlier committee meetings of this session.

As time went on, when varied ideas became more familiar and better understood—thinking began more and more to jell.

We recognized our undertakings of establishing a production tax was a very—very—big responsibility!

The recommendations of the Legislative Research Committee were given much thought—Yes, Mr. President—much thought. Gradually two schools of thought were becoming more and more predominating. First—to impose a low tax, now, because the people of North Dakota want and need development of their natural resources—and further reasoning that every two years the legislature would be meeting and they could impose a higher tax on oil—gradually—to the end that oil benefactors—both royalty owners, or producers—would ultimately pay a bigger tax later—Yes, possibly a little added whenever a legislature so deemed it necessary.

The second thought—Mr. President—was the thinking that everything should be done on a just—fair—and equitable basis.

Yes—a fair tax considering all of the people of North Dakota, and—Yes—all of the people outside North Dakota, who have come into our great state and who have just nicely begun the exploration of North Dakota's natural resources.

Our oil development has just nicely begun. We all hope and pray that it will continue without any barriers imposed, now, by this legislature—we recognize full well that North Dakota has made many mistakes in the past, through adverse legislation and uncertainty of unjust taxes—we, as members of the Finance and Taxation Committee—I am sure, all considered these facts; we, as members of this Senate, all, I am sure, recognize some of the mistakes of the past—and when I speak now of any barriers imposed by this legislature—I speak the full feeling and thinking of all of the people of North Dakota, for a constructive understanding as to the taxes imposed upon this new industry, and upon which it is the responsibility of this legislature to impose.

Taking and giving all full, due consideration to the exploration, development, by the oil people and their agencies, and recognizing that all the people of North Dakota are interested in these developments, and—Mr. President—being further than interested—to meet them with an open mind and an open hand—a generous, hearty welcome; being mindful of this, we members of this legislature must likewise be mindful of all of the people of North Dakota, weighing the equity—considering its justice—its fairness—preserving the rights to all concerned—and with a constructive thought of being more stable and not with an idea of socking upon the industry—higher and higher taxes, after our development has become more pronounced.

The people of North Dakota, Mr. President, all hope and pray for a continued oil exploration and development—we need a more balanced economy in North Dakota—we, the living—as well as the future, unborn citizens of North Dakota—want North Dakota to have its full development in its many phases, which lie beneath the earth, in our many rich deposits of natural resources. Therefore, we, the members of this legislature, should all ask for guidance in all actions on this important piece of legislation.

Mr. President—the members of the Senate Finance and Taxation Committee, without filing a divided report, recommend that Senate Bill 41 be placed on the calendar without recommendation as amended. The amended bill calls for a five and one-quarter percent tax on oil, which, when collected, is to go to the state and to the county, in which this oil is pro-

duced. An additional tax of one-half of one percent, to go to the State Treasurer and to be re-appropriated for conservation and administration—calling for an overall oil production tax in Senate Bill 41 of five and three-quarters percent.

 11 NOW, THEREFORE, BE IT RESOLVED BY THE

 13 HOUSE OF REPRESENTATIVES CONCURRING
 13a THEREIN,
 14 that the Congress of the United States is hereby
 14a memorialized
 15 to enact suitable legislation prohibiting the purchase of
 16 butter substitutes by our armed forces.
 17 BE IT FURTHER RESOLVED that copies of this
 18 resolution be forwarded by the secretary of the senate to
 19 President Dwight D. Eisenhower, Senators Milton
 19a Young and
 20 William Langer and Representatives Usher Burdick
 20a and Otto
 21 Krueger.

Senator Geelan: I rise to a question of personal privilege.

As members of the legislature we all recognize and appreciate the services of the newspapers, the press associations and the radio. Because we appreciate and recognize the necessity of publicity, we provide all the facilities possible for the use and convenience of the press. They have the cooperation of all the members of this body and of all of its employees.

We neither wish to control or even suggest what they shall write or report; we will continue to uphold the absolute right of the freedom of the press to report and to analyze and criticize what we do and what we say.

We believe, however, that we have a right to demand certain standards—the standards of honest and fair reporting and the standard of impersonal appraisal and critical analysis, and to the everlasting credit of the men and women who

are here as representatives of the press, and with very few exceptions, all of the newspapers represented here have upheld those high standards.

Two years ago an editorial appeared in the Bismarck Tribune attacking Senator Streibel. The editorial was so vicious and so abusive that the members of this senate took public notice of the editorial and presented to the senate a resolution condemning the editorial and supporting Senator Streibel.

The Leader was guilty of an unfair attack on Senator Bridston and to the credit of The Leader after the matter had been called to the attention of the Senate, they followed with a retraction and apology.

I have here an article covering 6 columns of newspaper space, written under the byline of "Tribune Staff Writer", written under the guise of humor, purporting to be a letter from a former employee of the legislature, and ending with a deliberate insult to imply if not to actually state that the senate is composed of morally depraved senators. I am going to read the concluding paragraphs of this article so that it may be made a matter of public record:

"How are you anyway, most of those black and blue marks I got at the session are going away now. It sure was fun, though, and I'm looking forward to seeing you there next session. But I sure wish that they'd get younger guys elected to the legislature. Some of those old boys aren't safe. P. S. I never got those nylons that lobbyist promised us for going to the movies with those two senators from the valley."

Whenever I appear as a sponsor or a co-sponsor of the bill, I can take all criticism, the abuse and ridicule that any paper has to offer, but I refuse to condone by my silence one of the most vicious pieces of cheap journalism I have ever read, a deliberate piece of character assassination.

Senator O'Brien moved that the remarks of Senator Geelan be printed in the Juornal, which motion prevailed.

Senator O'Brien: Mr. President: As a newspaper woman and a reader of the Tribune, I too read the article and resented it highly, and I have prepared an article to be sent to the paper in protest and I ask permission to read it from the Senate floor if I may.

Permission to read the article was granted.

Senator O'Brien:

A PROTEST TO DEAR MABEL

As a member of the legislature which was lampooned by a staff writer in the Bismarck Tribune February 20, I wish to protest this facetious attempt to belittle an honorable group of men and women chosen by the people of the state to represent them on matters of grave importance.

A few newspapers, for some reason, have adopted the practice of giving the impression that members of the State legislature, and of the United States Congress as well, are morons and scoundrels of the first water. If we are to believe what they infer, nothing is sacred to them and women and children are among the innocent victims to suffer at the hands of these alleged wolves in sheep's clothing.

Inasmuch as the "Dear Mabel" article appeared in two editions of the Bismarck Tribune, we can only assume that the

above policy is approved by this newspaper also. It is difficult to understand this attitude on the part of the Tribune since these same legislators leave several thousand dollars here. In past years attempts to move the capital from Bismarck to some other North Dakota city were opposed vigorously by this same newspaper.

The author of the article in question labored so hard at being funny that he defeated his intent and wound up with a discourse that was quite unfunny. In fact, the last two paragraphs border on being libelous. Instead of fostering the Mid-Victorian idea that many people have about the unsavory conduct of lawmakers, this staff writer would have served a better purpose if he had pointed out the long and arduous hours that members of the legislature put in to serve the best interests of the people as a whole.

No group enjoys a joke at its own expense more than members of the legislature and the candy cigarets, moonlight dancing, etc., have been the butt of many a chuckle in both Houses. However, these measures were not intended to be humorous in any respect, but were designed, in all sincerity, for the protection of North Dakota's most important product . . . our youth:

Be that as it may, go ahead staff writer and work at being comical. But, when you malign the esteemed gentlemen of the legislature, most of whom are husbands and fathers, you do a great injustice to them and to the people they represent. You thereby plant seeds of mistrust and corruption in the minds of our citizens and it is from such malicious misrepresentation that communism stems.

Therefore, I feel justified in registering this protest against unwarranted criticism of members of the North Dakota legislature by any newspaper and especially the article in the Bismarck Tribune.

Senator Hagen moved that the remarks of Senator O'Brien be printed in the Journal, which motion prevailed.

Senator Page moved that the House be requested to return House Bill No. 519 to the Senate, which motion prevailed.

Knowing of the busy schedule you have before you, how much you have to do in the remaining days of this session, I am deeply honored to be given this privilege to speak to you people.

As Mr. Streibel has told you, the Congress of Parents and Teachers of North Dakota is interested in the education and welfare of our children. Many problems confront us as an organization concerning the welfare of these children of ours. One particular problem that has been paramount in the last two or three years, and has always existed probably, is the problem of the literature that is found on the news stands in North Dakota. Perhaps some of you have seen some of the editorials that were printed in January when the North Dakota Congress of Parents and Teachers went on record as asking for some type of legislation that might aid in the control of the distribution of this obscene literature. We have since then contacted our state departments and we find that a most adequate law is on the statutes and that we don't need any new type of law at all. A very fine law, perhaps one of the best that exists in any state is to be found on our books. The problem of enforcement is another matter. We have taken up with the department that problem and we hope that within this next year that something very active may take place in helping prevent this kind of material falling into the hands of our youngsters. Truly I know that most of you do not know the type of literature found on some of the news stands. I have with me today two gentlemen who

have many samples. If you are interested in seeing some of the material that exists these gentlemen have in a packet many booklets that you find, some you may find right here on the news stands here in the capitol. They are everywhere. There is no place that our children are not, exposed to that type of thing. Our state law specifically covers the sale, distribution, carrying or giving, samples of this kind of material to our youngsters and we have protective measures against it if we may have assistance of the law enforcement department in bringing about measures that will prevent them appearing there. We are not asking for any new legislation. We have satisfactory laws. If there is anything that you men and ladies in this Senate can do in the way of encouraging and helping us to prevent this literature getting into the hands of our youngsters we will deeply appreciate it. We realize this is a busy time—that new laws cannot be made—we do not wish them—just soliciting your concern for the youngsters of North Dakota in the matter of lewd and obscene literature. Thank you very much.

Senator Streibel moved that the remarks of Mrs. Belcher be printed in the Journal, which motion prevailed.

MOTIONS

A group of North Dakota citizens from Western North Dakota were introduced by Senator Solberg. Senator Rue moved that the courtesy of the floor be granted to these gentlemen, which motion prevailed, and the courtesy of the floor was extended to the delegation by the President of the Senate.

Senator Rue: Mr. President: We have this delegation here from western North Dakota and as I said before we are happy to have them with us here in Bismarck and as guests of the Senate. They have as their spokesman, Mayor W. N. Ditsworth of Williston, North Dakota, the heart of the oil industry, and I move you, Mr. President, that a committee of one be appointed to escort the Honorable Mayor Ditsworth to the rostrum for a few remarks.

Which motion prevailed.

The President appointed as such committee Senator Rue and the Honorable Mayor Ditsworth was escorted to the rostrum and the courtesy of the floor extended to him by the President of the Senate.

Mr. Ditsworth: Thank you, Lieutenant Governor, and honorable members of the Senate. As a delegation from western North Dakota we are not here as a pressure group. We are here merely to symbolize the interest that apparently in the minds of some of the legislators and Senators is so sorely lacking in the matter of oil legislation. We deeply appreciate the courtesy that has been extended us here and we feel assured that you gentlemen will not do anything that will be detrimental to the betterment and advancement of the oil industry in the State of North Dakota. So on behalf of the delegation I would like to thank you for this courtesy and further we feel that you gentlemen will not in any way do anything that will be detrimental to the development of oil in the State of North Dakota. Consequently we implore you gentlemen—do not let us down. Thank you.

Senator Livingston moved that the remarks of Mayor Ditsworth be printed in the Journal, which motion prevailed.

MOTIONS

A communication was presented from the Daniel Webster High School of Tulsa, Oklahoma to Senator Streibel presenting Senator Streibel with a gavel.

Senator Dewing moved that the communication from the Daniel Webster High School at Tulsa, Oklahoma, be printed in the Journal, which motion prevailed.

Daniel Webster High School
Tulsa, Okla.
February 23, 1953

Honorable Senator R. M. Streibel, President
North Dakota State Legislature

Dear Sir:

Having read the following in our local newspaper,
"SLIPPER USED AS GAVEL AT LEGISLATIVE SESSION

Bismarck, N. D., Feb. 21 (AP)—The gavel was missing when Sen. R. M. Streibel, president pro tem, prepared to call the North Dakota senate to order today.

So Streibel borrowed a high-heeled slipper from Stenographer Dagny Olson, Devils Lake, N. D., and rapped for order.

Miss Olson was lucky. The roll call disclosed not enough senators for a quorum. Streibel rapped again, recessed the senate until Monday and returned Miss Olson's shoe." and thinking, that if it is as cold in North Dakota as I believe it to be, at this season, the stenographer will need her shoe. Knowing also, that it is necessary to rap some to attention, will you please accept this gavel as a poor substitute for the official until it is found.

Sincerely,

CHARLES W. MOORE

Senator Duffy moved that the Senate do now recess until 1:00 p.m., March 2, 1953, which motion prevailed.

EDWARD LENO, Secretary.

PERSONAL PRIVILEGE

Senator Bridston requested that a communication prepared by him addressed to the Editor of the Bismarck Tribune in regard to "A Four Year Medical School" be printed in the Journal, which request was granted.

March 2, 1953

To The Editor,
 The Bismarck Tribune,
 Bismarck, North Dakota.

The editorial in Saturday's Tribune on "A Four-Year Medical School" reminded me of what a leading journalist once said:

"Every man has a right to his opinion, but no man has a right to be wrong in his facts."

This misleading editorial completely ignored established facts that could very easily have been obtained.

The first paragraph of this editorial says, "Can North Dakota afford to spend as much as \$1,500,000 a year to support a four-year medical school and auxiliary facilities?" Later on in the same editorial, the writer admits that this estimated cost is "questionable", but adds "that there are those who think it would". Who are the authorities for this propaganda? What are the facts?

Attached to this letter is a detailed analysis of the 1950-1951 budgets of four four-year medical schools, all operating on less than \$500,000 per year. They are Alabama—\$499,407; Nebraska—\$311,771; Utah—\$421,300; and Vermont—\$436,190. These figures were furnished by the schools themselves and verified by Dr. Dean N. Smiley, Executive Director of the Association of American Medical Colleges.

Another paragraph from this very interesting editorial:

"Thus the legislature has taken up in its closing hours is on the verge of deciding without any prior public discussion, whether a step so important to all the people of North Dakota as this should be taken."

What are the facts?

Let me quote from a paper I presented to the Medical Center Advisory Council at their meeting at the University June 16, 1951. This paper was printed up in pamphlet form and distributed throughout the state and mailed to every daily and weekly newspaper in North Dakota immediately thereafter.

"North Dakota's Medical Center Enabling Act, which created this Medical Center Advisory Committee was introduced and passed in the 1945 legislative session. Supporting legislation enacted since then includes the One-Mill Levy Constitutional Amendment which was initiated by the legislature in 1947 and adopted by the voters in 1948, and a 1949 law which makes all proceeds of the one-mill levy automatically available to the Board of Higher Education and the University without further legislative approval. The last session, 1951, passed a resolution which directs the Board of Higher Education

to "proceed with all possible dispatch" to get a complete four-year medical school in operation at the University of North Dakota.

This six-year program was progressively worked out by the legislative sponsors and the late Professor John A. Page of the University. Professor Page, and North Dakota medical doctors originated the State Medical Center idea. During this period we studied and investigated developments throughout the country in connection with medical education and progress. There never has been any attempt to rush the program. No one in connection with it has ever gone off "half-cocked", and that is why after six years the sponsors are now for the first time asking that a definite program be set up toward the end of establishing a full four-year medical school. I should add at this point that in all legislative hearings and debates on this program the establishment of a complete medical school has been openly discussed as the ultimate goal."

On Sunday, June 3, 1951, over stations KSJB, Jamestown, and KCJB, Minot, a one-hour panel discussion was broadcast on the subject, "Does North Dakota need a Four-Year Medical School?" Members of the panel were Dr. Edgar Haunz, Grand Forks, Dr. Leonard Larson, Bismarck, Dr. A. McCannel, Minot, and the writer. Both the Associated Press and the United Press released full stories of this panel discussion.

Let me add that Senate Bill 184 (introduced by Senators Stucke, Streibel, Day, Bridston, who have sponsored all of the medical center legislation from 1945 to date) that inspired this editorial was introduced early in this present session.

This Tribune editorial also states, "Payment of the State Medical Center without a four-year medical school totaled \$519,978.71 during the fiscal year ending last June 30". This is completely misleading.

What are the facts?

Figures furnished by the Board of Higher Education and the University of North Dakota show that the expenditures for the fiscal years ending June 30, 1951, for the "School of Medicine (all purposes)" was \$215,349.52; June 30, 1952, \$278,341.22; and that the budget for July 1, 1952 to June 30, 1953 is \$295,875.00.

One reason for the introduction of Senate Bill 184 is to use the one-mill income only for purposes that it was intended. Today part of the \$550,000.00 one-mill annual income is herein diverted for the blood bank and dental associations and clinics. \$1,162,907.11 has been spent or budgeted for a building and equipment. (The latter item was approved as it was not needed as long as the four-year school is not activated. If later needed, however, it could be replaced by the legislature.)

The primary reason for creating the Medical Center Program was to furnish more medical doctors for North Dakota. The shortage of doctors in rural areas and small towns is deplorable.

The step-by-step development of the program by your legislature indicates that they are convinced that after giving three years of pre-medics and two years of medicine in the

state, it is ridiculous to force them to go elsewhere for the last two years of clinical training and thereby lose most of them forever. Remember a full medical course now takes seven years.

So the bill passed and the title was agreed to.

Senator Duffy moved that the vote by which Senate Bill No. 41 was passed be reconsidered and the motion to reconsider be laid on the table, which motion prevailed.

Senator Schrock: I want to explain my vote. I voted against this bill because I feel that the tax is too low. I believe there is a possibility if this bill were defeated the counties might levy an ad valorem tax and the tax would be somewhere near equitable.

Senator Dewing: I want to explain my vote. I come from two counties in my district which are vitally interested in the amount of taxes that will be placed upon oil. Already sites for drilling have been announced within my county. I feel that both Burke and Divide counties will have a tremendous expense in the school districts and on the roads of those counties. I believe that four and one-fourth percent will never raise enough revenue for the purposes that we need. I do not vote against this bill because I do not believe in a

tax on oil but I believe the tax is not sufficient to meet the expenses of my district and of the State of North Dakota.

Senator Day: Mr. President: I want to explain my vote. There are a great many Senators and Representatives in this body who have tried their best to represent the interests of North Dakota as they understood those interests to be.

We have had no lobbyists. We have had no paid representatives. All we had was our own earnest desire to represent the people who sent us here and the people who represent the future generations in North Dakota. Some of us had a deep and abiding feeling based upon what we have learned has happened in other states that whatever our final decision on the amount of the tax might be that it would stand for a long, long time. Why? Because the so-called oil lobby might become so powerful that it would be difficult, if not impossible, for future legislatures to successfully deal with them. I think we have already been supplied with some evidence of the fact that that lobby is already too powerful.

What should the tax on oil in North Dakota be? We came down here with no information on that subject. We were not supplied with any information on that subject. We had to dig out what we could and that was very little. We know that beneath the crust of North Dakota surface there is in all probability a large pool of oil. Who does that oil belong to? Some of you feel that that belongs to the people of the State of North Dakota subject to the right of the surface owners to get a fair compensation for the trespass on their land and the right to draw oil out, and subject to the right of those who purchase oil rights.

North Dakota is very heavily burdened with taxes today. Taxes of all kinds practically beyond the capacity of our people to pay, sales tax, income taxes and many other types of taxes, real estate and personal property. They are too high. We have raised licenses on automobiles and licenses on this and on that until our people complain. It may well be that in that oil lies the opportunity on behalf of our people to get sufficient revenue so that we may be able to reduce the burden of taxation on our people and provide for our state the highways and educational system to which our people, our future generations, are entitled.

If we are going to place such a small tax as to be insignificant on that oil and permit it to be drained out, we shall forever have lost the opportunity to give the people generally what they are entitled to. I am impressed with the reports that I have read where in other states after oil exploitations you find the fields barren, studded with derricks, pipe lines and tanks, but the people generally poor and the wealth drained out of the state to the profit of those who could afford to take less profit.

The oil companies, all over the world, outside of the United States—I am relying on information which has never been doubted or disputed by anyone with information—pay the government 50% of the oil that they extract from the land for the right to take the other half and make money. The Northern Pacific Railway company charges them 30% in North Dakota—though there is some provision in their contract that changes that somewhat. There are taxes in other states, our nearest neighbor is one, comparable tax equivalent

to 7.6% gross production tax. They heard we were reducing our tax and made an effort in their legislature to reduce theirs as a matter of competition so to speak.

'There is the principal of county apportionment in this bill. I know from private discussions that there were many Senators here who did not have an opportunity to vote their convictions on that matter. They assumed, and had a right to assume, that they would have a right to vote upon the amount of the county apportionment that would be included in this bill. The way that matter was handled on the floor today they were not granted that opportunity. I know that there are more than half of the senators in this body that at this moment feel that the tax should be not less than 5% and yet their convictions were not expressed by the vote on this measure. I feel that this action may have repercussions undesirable to all of us.

Senator Duffy: I had not intended to explain my vote but the remarks of the Senator who has just preceded me causes me to say just a few words in explanation. The phraseology he used in stating his position is so diametrically opposed to my philosophy that I think the Senate is entitled to know what that difference is. He said that the oil belonged to the people of North Dakota and that the surface owners are entitled only to a reasonable compensation for the trespass upon their land and the damage resulting from boring holes in it. Now if the gentleman from the western part of this state who have followed the leadership of the Senator from the 6th endorses that philosophy it is all right, but I wish to say that I disassociate myself entirely from that philosophy and I believe that the oil belongs to the surface owners. That is the very reason why I have voted as I have done. When he says that no information was given on this subject I wish to disagree because I placed upon the desk in the Legislative Reference Bureau all of the information I had on the subject of oil, and if anybody in the Senate had wanted any information on the subject I would have been glad to escort him to that desk and get the information I was able to obtain.

With reference to the statement that the tax ought to be higher, I am willing to subscribe to that doctrine. I pleaded with this Senate to adopt a 5% rate and you would not do it and the Senator who has just spoken, so long as he had 25 votes refused to go along with the 5% rate, and I say that it does not go with too good grace to plead for a 5% rate now when he has only 24 votes.

As to the 50% that is paid in some foreign lands—they are not wild cat wells—they are not new explorations. They are in an area where there has been explorations for from twenty to forty years and the richest oil fields already developed, and I suppose there might be a distinction between the two. And as to distribution, well, maybe there are some that think the distribution is unduly favorable to the counties in the western part of the state. I do not know whether the gentlemen from Burke and Divide, or the gentlemen from McKenzie, were opposed to my motion because they thought the division was unduly favorable to the counties in the western area, but if that division is not fair, perhaps we can adjust it two years hence.

Senator Nordhogen: I had not intended to explain my vote but nevertheless, inasmuch as it has so become the fashion for everyone to do so, I concur with that fashion.

I served on the Legislative Research Group during this last session. The Legislative Research group and the committee as a whole concurred with the subcommittee who made a study on this particular oil tax. They made that study on the basis of a tax that had more or less an average basis as far as the taxes from the various areas producing oil. They didn't take into consideration depletion, and I subscribe fully to depletion.

I feel and believe that there is going to be a continuation of development in North Dakota.

I feel that as far as the various people who have appeared for it, that we should have adopted a 5% tax. I believe that I made my statement to this body on page 473 of the Senate Journal. I do not subscribe to the idea that we change it every two years. We should have taken a fair tax at this time and not gone along with the idea that we change it every two years. I feel that in the development of this state, the people who do the exploration should come in with the understanding they are expected to be taxed. We look forward to their stay with us for a period of time. The philosophy of the Finance and Taxation Committee "We'll let taxes be low now and impose higher taxes whenever we want". Mr. President, I do not subscribe to that philosophy.

I conclude with saying as far as North Dakota, we are a progressive state with much to develop in the state. I hope the legislature will find a fair tax and hold to that which will allow the state to be developed on a sound and constructive basis.

Senator Bridston:

Explanation of vote.

Even in political North Dakota, our legislature has, at least since I became a member in 1939, studiously avoided factional interference in considering certain types of legislation.

I have special reference to education, agriculture and transportation problems. I will never understand how oil tax legislation ever became involved in a rather bitter factional fight. I am proud of the record our Republican Organizing Committee (ROC) faction established in connection with this important legislation.

The passage of S. B. 41 with a 4¼% tax is a great victory for every citizen of North Dakota. It is a vote for industrial progress in our State. It is a vote for unhampered oil development in North Dakota. It is a glad hand of welcome to this new oil industry.

Senator Streibel: Mr. President: Now that it appears that an explanation of our votes has resulted in a second debate over the bill just passed I want to depart from my explanation of vote long enough to answer a few charges. The Senator from Ramsey accuses us for not having come to an agreement with him on a 5% tax on oil when this bill was passed in the Senate. He pleaded for it then he claims, and he did. The fact that he can't explain away the fact that he can't reconcile is the fact that he argued for a 5%

oil tax when he knew he couldn't muster 25 votes in his support and now that he is assured a majority he can't be prevailed upon to do it. Either he was not sincere in the first instance or he was insincere in the second instance.

I am proud of the NPL in our rank except one because they voted as they did. The common people whom we represent have no lobbyists to speak for them. We are their mouthpiece. That is why we say one should not burden the common people with taxes and let the wealthy oil tycoons go Scot free.

Senator Duffy admitted on the floor of this senate that the terrific 27½% depletion allowance did not enter into the Legislative Research's calculations when the 4¼% tax was arrived at. Now that he controls the majority vote he not only does not raise the taxes in view of passing the depletion allowance he will in all likelihood support all measures that would relieve the oil tycoon from paying taxes. I am for giving relief to those that need it that is why I voted no on this bill.

Senator Day: I rise to a point of personal privilege and request that my remarks be printed in the Journal.

The question has arisen as to why this matter of oil became a factional matter. It became a factional matter the moment someone other than the ROC got an idea. They were prepared to make the oil companies swallow 4½% whether they liked it or not. We didn't hear about 5% being the right tax until after 5¾% had been suggested by the coalition. Then 5% was the right tax, and now the people of the state of North Dakota are being told, "You folks will take 4¼% now because somebody didn't do as I told them to at the beginning of the Session and take 5%".

As someone aptly put it, "I would rather lose in a fight that will ultimately succeed then succeed in a fight that will ultimately lose."

MOTIONS

Senator Olson: I rise to a point of personal privilege. I did considerable work on preparing the paper defending my stand on the United Nations which I read the other day. I have received comments from several people from various parts of the state complimenting me on my stand. I now ask that these remarks be printed in the journal.

The request to print the remarks in the journal was granted.

Senator Olson: I want to thank the Senators for electing me President Pro Tem for the interim and for the Senators that did not vote for me I wish them better luck next time.

Senator Olson:

The story of the United Nations is one of the strangest, most weird, and most tragic which has perhaps ever been unfolded upon this earth. Mothered by a universal desire for peace, almost at any price, which still thrills the soul of America, it is a strange compound of love and hate, a burning desire among the millions of Americans to banish war from the earth; while on the other hand it has well served the purpose of still more millions of an alien horde of Communists, still other millions of Socialist or near Communistic nations, with a still greater admixture of savage or barbarous peoples who have not yet learned the first lessons of living decently with their fellows more or less under a reign of law and order.

The reason the U.N. came into existence so rapidly and without serious debate was the fact that people everywhere—in this country and every other—wanted peace. In the United States it was taken for granted that this was a peace organization and that by supporting it the peace of the world could be preserved.

The organization setup was largely the work of the Russian representatives, and Alger Hiss, representing the State Department. Even that fact did not awaken the American people to what this movement was to be.

The first document passed by the U.N. and presented to the Senate of the U. S. for ratification was the Charter of the United Nations, and as everyone who is honest enough to admit it now knows, it went far beyond any plan to secure and maintain the peace of the world. It was the first move reduced to writing to build a world government with the superpowers over all governments, both as to their international relations and to their domestic affairs. This Charter was submitted to the Senate as a treaty, for under treaty powers the approval of the Senate alone is sufficient to approve the so-called treaty, and under our Constitution such approval would make the Charter of the U.N. the supreme law of the land.

The United Nations has not, and is not, confining itself to bringing about a just understanding between nations, but it is apparent that as applied to the United States this organization is more concerned with changing the laws and Constitution of the United States than it is concerned with World Peace.

The Genocide Convention, pending before the Senate, and which all the United Nations advocates say will not interfere with our laws or our Constitution, provides that if a citizen of the United States makes a statement that hurts the feeling of any group, or a member of any group, that citizen has committed a crime; and worst of all, he is not to be tried by the courts of this country, under our laws and our Constitution, but by a court designated by the United Nations, and the place of trial is to be fixed by the United Nations. Those who assure us that these conventions will not interfere with the laws and Constitution of this country are either abjectly ignorant, or their design is to disrupt the government and bring about its collapse.

Now, here comes the next one—another covenant in regard to Socialized Medicine. Regardless of the merits of this system—that is, whether we should or should not embark on that program—real danger lies in the fact that this convention seeks to put that system over in the United States without the consent of the Congress. It is another move adroitly planned for the purpose of circumventing Congress and the people from expressing any approval or disapproval of the program. Should this health covenant of the United States be approved by the Senate, it then becomes the supreme law of the land, and the people's representatives are denied the right to pass upon the question.

When a regulation of this World Health Organization is adopted and made a part of their medical code, there is no obligation on the part of the organization to notify any country; and if no action is taken by any nation within a specified period, the code becomes the supreme law of the

land—in any country. It is possible that many regulations set out in this new World Medical Code may become effective by default; and once this happens there is no way of changing it without a majority vote of the 65 countries represented in the United Nations.

Congress is entirely ignored; all officers of the United States are ignored; and thus we may have fastened upon us any medical regulation set forth in this Medical Code. States are completely ignored; and in North Dakota our public health laws may be set aside without our knowledge.

A movement for socialized medicine has been going on in the United States for a long time. Congress has turned it down. But now, through the United Nations and the World Health Organization of the United Nations, a brazen attempt is being made to foist upon the people of the United States a compulsory medical bill without the consent of Congress.

Unknown to the American people, a smug little band of international schemers in our State Department is weaving a legal web tending to make the American Republic a vassal of the United Nations. If they succeed, this great Republic will become a subservient creature deprived of national sovereignty, no longer free and independent to make its own laws and policies either in the field of international relations or domestic affairs.

A clear warning signal of this dangerous movement was sounded in the federal court of appeals in California. In that decision it was stated unequivocally that the United Nations Charter is the "supreme law of the land" in these United States.

The opinion was written by Justice Wilson of the U. S. Court of Appeals. In that opinion he lit the lamp which makes it clear to all that this Republic already has become a subservient creature to the laws of the United Nations. In that instance the laws of the State of California were set aside and annulled by "The Supreme law of the land," which, in this case, was one of the provisions of the United Nations Charter. Justice Wilson, in his opinion, said in part, "A perusal of the Charter renders it manifest that restrictions contained in the (California) . . . law are in direct conflict with the plain terms of the charter above quoted, and with the purposes announced therein by its framers. It is incompatible with Article 17 of the Declaration of Human Rights, . . . is contrary to both the letter and the spirit of the Charter which, as a treaty, is paramount to every law of every State in conflict with it. The . . . (California) law must therefore yield to the treaty as the superior authority."

This is the crux of the discussion. A California law, long upheld as within the proper powers of the State, is set at naught by an act of the United Nations, — an act in which the people of California had no voice, no representation, no right to be heard.

Twenty-three elected representatives of the great State of California had no voice in the approval of this monstrous document. The result is that the law of the State of California was set aside by a law of the United Nations, in which the representatives of California had no voice.

Every move the United Nations makes seems designed to weaken the United States, and there is no end to the multitude of bureaus set up to carry out the purposes of the United Nations.

The latest move is seen in the International Materials Conference. This organization consists of 19 nations, where the United States is allocated by this conference to other participating countries.

We have been stockpiling in strategic war materials for a long time now, and have spent billions in the purchase of this material; but when we look around to examine our stockpiles, we have a very limited amount. What has become of this strategic material? The International Materials Conference has distributed it among the other nations in accordance with their needs. This agency of the United Nations has already distributed 40 per cent of our stockpiles, much of it to countries friendly to Russia. Indirectly this material, given to nations friendly to Russia, goes to Russia. We can thus see the undercurrent in the United Nations giving aid to the Communist countries.

The United Nations organization is so saturated with Communism, and yet outwardly conducting war against Communism that almost anyone who watches its antics can see that the organization itself is a contradiction. What else could it be, when 560 million people of Communistic faith are represented in it, as against 488 million people of the capitalistic faith?

Keeping in mind this contradiction, we can see why the United Nations will not let the United States wade in and finish the Korean war. The U. N. still insists that we shall not follow the Reds across the Yalu River and destroy their concentrations. Why? Because we might injure the Communists too much!

President Truman has been severely criticized for putting us into war without the consent of Congress, but the damage was done when the Senate approved the Charter of the United Nations. By that vote the Senators turned over to the Security Council of the U. N. the power to declare war. And now members of the Senate who voted for this transfer of the authority of Congress rail against the President for getting us into that war. The Security Council of the U. N. put us into the war and have conducted the war. It has carried on the truce negotiations and has assumed full command of the whole situation. Congress was stripped of its power to declare war, but only because this charter was approved.

In any future war which we may be called upon to enter it will not be the Congress who will say whether or not we go to war. It will be the Security Council of the United Nations. Should this country be attacked it will not be the United States who will say how we shall conduct our defense, but it will be the Security Council of the United Nations.

If the same process is to be followed in future wars engineered by the United Nations, we will do the fighting, the dying, and the paying of the bills. Except for the South Koreans, ninety men out of every hundred that have been killed have been boys from the United States, and we are paying every dollar of the expense in that war.

Senate Resolution No. 8

Senate Concurrent Resolution "J"

Senate Concurrent Resolution "S"

Were delivered to the Secretary of State March 6, 1953.

MRS. HARRY O'BRIEN, Chairman.

Senator Geelan:

When the people of the state elect a Lt. Governor, the second highest office in the gift of the state, they let him enjoy the honor and glory of that office for 22 months of his term, but they make him earn and pay for that glory and honor with two months of gruelling and challenging work.

During those two months the people and the 49 senators who represent them expect that officer to know every rule of parliamentary law; they expect him to know all the special rules the Senate adopts for its procedure, they expect him to know all the provisions of the Constitution that governs legislative enactment. They not only expect him to know all that, they expect him to apply that knowledge countless times during each legislative day. Then they place on his shoulders the responsibility of guiding through the assembly the four or five hundred pieces of legislation introduced by the two houses.

And now that most of the rulings have been made, now that we have disposed of most of the pieces of legislation, we can forget factionalism and bitterness and stress, and we can say with all honesty and sincerity, our presiding officer has met the challenge of knowing the law, he has met the challenge of applying that law, he has met the challenge of administration.

But, as we leave this assembly, we are going to remember more than that. We are going to remember, Mr. President, that through it all you have been very kind; you have been very fair, you have been very helpful. We would like to have this gift express our sincere appreciation and gratitude.

Lt. Gov. Dahl:

Thank you, Senator Geelan.

And thanks to all of you who have participated in making this wonderful remembrance possible. I accept it in humility and hope that what small part that I have played to bring this session to a friendly and successful ending may, in some measure, be a guidance to presiding officers in the future. I need not say that your confidence and cooperation have contributed immeasurably to my success as presiding officer of this Senate.

Sure, there have been times when things were tense and parliamentary discussions were hair splitting; but I assure you my intentions were honest and I was fair in my own convictions. If you disagreed, you did so on a friendly basis. The finest men and women that I have met in public life and count as my many friends are those I have come in contact with here in the fourteen years I have spent in the legislature.

Let me again express my thanks for this fine present in behalf of Mrs. Dahl and myself.

Senator Davis: Mr. President, and fellow Senators: The voyage of the thirty-third legislative assembly is nearly over

and within a few hours the anchor can be dropped. I make this my opening remark, for this has been a trip on a ship — we set sail in anticipation of sixty days of legislative endeavor, which is now ending and through this period there have been stormy sessions — windy sessions — calm and peaceful sessions.

Throughout there has been one man who played a leading role in shaping political interests, maneuvering parliamentary procedure, and creating legislative policy. Although living in a county neighboring to my own, I did not have the opportunity of meeting him until the opening days of the session, and since that time I have come to admire and respect his ability, sincerity, and self-made leadership. Senator Streibel, as I have come to know him, is a man of determination and conviction; — he truly endeavors to represent the interest of our people and in my opinion is a strong supporter of individual rights and liberties, and believes in the independent operation of our political subdivisions.

We were all unanimously pleased to confer on him the distinctive and deserving honor of President Pro Tem. When called upon to preside over the Senate, he did so with decorum, dignity and ingenuity. In fact it was his ingenuity in using a shoe for a gavel that became known nation-wide via press, radio and television.

In Senator Streibel the people of North Dakota have a fearless man, determined to exert every effort in the promotion of the principles and policies in which he firmly believes. It was a pleasure to serve with him in several committees, for he took keen interest in the presentation of the bills and because of his long legislative service and knowledge, analyzed critically matters under consideration. When it didn't please him he didn't hesitate to register his complaint and work toward an acceptable solution.

In Senator Streibel, this Senate has a man who can be defiant — who can be challenging — and who makes his points with words that cut like the sharp thrust of a rapier. But as a man of contrast he stands ready to give understanding — tolerance, — and full justice.

It is a pleasure for me — on behalf of my colleagues in this Senate — to present to you, Senator Streibel, this gift of appreciation, and a token of recognition of your leadership and service as a Senator and a citizen of North Dakota.

Senator Streibel: Mr. President, friends and colleagues:

I thank you, Senator Davis, for this gift and for your words of praise. I wish I could qualify for everything the Senator said about me. Sometimes I become arbitrary when I do not get my own wishes, but I always calm down. One thing I don't do and that is to carry the fight home—I leave it here on the Senate floor.

In the past I have given you lengthy speeches at the end of each session. I am not going to do that this time. I am just going to thank you for your kindness and fair consideration when I presided over the Senate, and to the employees that I came in contact with I would like to say thank you to them for their courtesies to me. The sixty day session has come to a close. In the minds of the public it will be a discussion of what we did here. Perhaps it will be discussed in the newspapers. Whatever was or is said about what was

done here, I know it was done according to the dictates of their hearts and all have worked hard. I would like, instead of giving a lengthy speech, with which you would be bored, to read an article I read in the Fargo Forum after the last session. I would like to think that public opinion will be what the writer of this article said. This article is from The Fargo Forum, Sunday, March 4, 1951.

"LEGISLATORS CAN'T PLEASE EVERY ONE

Another session of the North Dakota legislature has ended. A lot of new laws have been enacted. A lot of money appropriated and some new taxes imposed.

We do not know for sure that what the legislature did or did not do will not please everyone. Some people, farmers and city folk alike, won't take kindly to the idea that parking meters will again be legal on the streets of North Dakota cities. Others won't approve of the fact that they will have to pay an additional cent of tax on each gallon of gasoline they buy, or another cent of tax on each package of cigarets.

But on the other hand there will be a good many citizens who will be happy to see that the legislature raised, through the gas tax and direct appropriation, sufficient money to keep our highway construction program going at its present pace. Another group will praise the legislators for giving cities and villages financial relief through the parking meters and redistribution of the new cigaret tax revenue.

Probably it is a little too soon to pass any judgment on the accomplishments or omissions of the 1951 legislature. But we do know that the 113 representatives and the 49 senators put a lot of time and effort into the sessions, that they gave sincere and thoughtful consideration to the legislation they passed or killed. They deserve our thanks and appreciation for spending 60 days in Bismarck to try to meet the wishes of all the citizens, and still keep the expenses of government within the amount the state can afford.

So even if the legislator from your district didn't vote the way you wanted him to on the measure in which you had a particular interest, remember that there are a lot of factors affecting all legislation and there were probably good reasons why he voted the other way.

And if he did vote pretty much the way you would have voted yourself, you might mention that to him the next time you see him. He'll appreciate it, because generally legislators hear only from those people who are angry with him or want his vote on some special project."

This, I hope, will put out of the way some of the implications left on the Legislature by the Bismarck Tribune.

Thank you again.

Senator Dewing: Mr. President: I wish to direct my remarks to a very distinguished member of this Senate, Senator Clyde Duffy.

I feel I have been honored and granted a privilege to address these few remarks to Senator Duffy on behalf of my colleagues in this Senate. I became acquainted with the Senator during the 1951 session, and learned to respect him very much. He was always ready to listen to the many problems a freshman Senator had and always willing to extend a helping hand. Many times I have asked him to help me

get a bill in proper legal form and he was always willing to give me the benefit of his expert legal talent. I am sure all members of this Senate have enjoyed the same courtesies that Senator Duffy has extended to me. I believe the members of his faction have been fortunate to have Senator Duffy as their floor leader during this session. We, of the opposing faction, have enjoyed the very fair manner in which he fought for the principles in which he believed.

Personally, I have always enjoyed the heated arguments between Senator Duffy and myself. My respect and friendship for the Senator is greater because of the fair manner in which he conducted his debate. It is indeed a pleasure for me, on behalf of my colleagues, to present this gift to Senator Duffy.

Senator Duffy: I am naturally grateful to Senator Dewing for his very kind remarks. I can only say that my introduction to floor leadership has been a most interesting introduction. I confess that I did not anticipate all of the things that were necessary in a floor leader; and I can assure you that, so far as I am concerned, I have enjoyed it; but I shall be very happy to relinquish that position to some neophyte who doesn't know what he is getting into.

I thoroughly enjoyed the work that I did in the 1951 Session, and I think that I could serve a useful purpose in the next session along the same lines of trying to watch some of the legislation and see that they amend the right section of the Code or session laws and perhaps help to see that the bills are in proper form. That was the job I was qualified for, and I confess that it had some advantages over the job that I had this year. Nevertheless, it has been interesting. I have enjoyed some of it, and I think that all in all we have had a rather successful session of the legislature, and so far as I am concerned, I think we have done a pretty good job. We have held the appropriations down to a place where the general fund will still be in the black, and we have done a fairly good job. I hope the people back home will not think too ill of us, and what we have done, and the way we have done it. It is the way democracy works. We have seen democracy at work. Sure, there have been heated words. But it is only the clash of personalities, the clash of thinking, the clash of different points of view out of which comes the workings, results, and the achievements of a democracy. And I think we have certainly shown democracy in action in this session of the legislature.

I thank you, and hope to see you all two years from now, and we will renew our friendly bouts.

Senator Foss moved that the President appoint a committee of three to inform the Governor that the Senate has finished its work and is about to adjourn sine die, which motion prevailed.

The President appointed as such committee, Senators Foss, Ferry and Berube.

Senator Haag moved that the President appoint a committee of three to inform the House of Representatives that the Senate has finished its business and is about to adjourn sine die, which motion prevailed.

The President appointed as such committee, Senators Haag, Wog and Schmit.

Senator Foss announced that the committee appointed to inform the Governor that the Senate had finished its business and is about to adjourn sine die, had completed its work and asked that the committee be discharged, which request was granted.

Senator Haag announced that the committee appointed to notify the House of Representatives that the Senate has finished its business and is about to adjourn sine die, had completed its work and asked that the committee be discharged, which request was granted.

A committee from the House was received by the Senate and the committee announced that the House had completed its business and was about to adjourn sine die.

Senator Streibel moved that the Senate adjourn sine die, which motion prevailed.

And the Senate stood adjourned sine die, pursuant to the motion of Senator Streibel.

EDWARD LENO, Secretary.
