

(Prepare in triplicate)

FISCAL NOTE

Prepared in regard to:

House Bill 601

(list bill or resolution and number, if available, or subject
Amentment to: (list bill or resolution and number)

REQUESTED BY: Leg. Research Committee DATE OF RECEIPT 1/24 19 65

In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed attach a supplementary sheet. Please type.

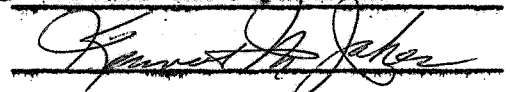

1964 Coal Production was 2,520,743 tons, which, at a ton rate of 5¢ per ton would yield annually \$126,037.15. 2% of that amount, or \$2,520.74, would be allocated to the state general fund each year or a total of \$5,041.48 per biennium.

We do not have any estimate of the increase that will occur because of coal to be used by the Stanton area generating plants when they start production of electric energy.

Date of preparation: 2/1/65
