"OUR RURAL HERITAGE AND THE NEW SOCIETY"

Lieut. Gov. Tighe, Speaker Link, Members of the Assembly and citizens all:

I consider it an honor to participate with you in the observance of this memorial service for departed fellow statesmen on the day in which we pay tribute to a farmer-statesman who became the first president of our country.

George Washington looked to the vast land opportunities of America for the planting of a healthy nation of free, independent and neighborly farmers. His great society was a rural society. His wildest dreams could not have pictured what technology has created out of the tremendous resources of material and people. His country gentleman philosophy would have been stunned by the sight of our population centers, our financial capital and credit, our political complexities, our consumer appetites, our mobility.

North Dakota has been a society of rural people. Like Washington, our political leaders had dreams of a society where most of its citizens would enjoy ownership of their land and shops, receive a fair return for their labor, and know wholesome association with their neighbors. Farming was not just making money. It was a way of life. Like the Father of our country, our pioneers were suspicious of political and economic colonization. Our so called radical agrarian reformers brought forth such phenomena as the state mill and elevator, the Bank of North Dakota, the anti-corporation farming law.

Since the dawn of history stabilized societies have been shaken and revitalized by rural spirits. Babylon, Egypt, Assyria, Rome,

had eras of splendor, decay, and then rebirth with the coming of new peoples. The Bible echoes with some of its most vibrant history when revolutionary spirits like Amos and John the Baptist came out of the hills and addressed the status quo with new concepts. As we today soberly reflect upon the efforts of our statesmen of the soil who have passed from these halls and from this world, community change still challenges us. We cannot be as cynical towards urban life as was Thomas Jefferson, a contemporary of George Washington, who said, "Cities are sores on the face of the earth. Great, open sores." We possibly should ask why one of our historians has said, "No civilization has survived complete urbanization." Cities are not as wicked as Jefferson supposed. However, their depersonalization shows its impact on our expectant individualism that has its roots in rural openness to nature and neighbor. For a long time our Great Plains communities will retain a rural flavor. Possibly we need to know more about translating its vitality and renewal to the social structures of an urban society. The renewal of our society will depend much on leadership which can transcend and translate individualism and provincialism into intelligent and trusting reward for people. I like what Gibbs and Morton in their book, "God's Frozen People," say,

"But it is not merely the circumstances of our lives that have changed; it is all that we mean by our world. The boundaries are now quite undefined, whether we think in terms of domestic or national or international life. Our world is just where we live and is as large as we make it. Men are, therefore, now aware that their Christian obedience can no longer be expressed in terms of family life, public service, and private morality — or perhaps we should rather say, that these three phrases do not have the simple meanings they used to have. Private morality can no longer be interpreted, as it could have been even a hundred years ago, as having to do with those with whom we have visible relationships. We now are uncomfortably aware that it is our attitude and behavior to those outside our private lives that matter most for our world; that the daily work of those divided from us by color, race, and creed makes our life comfortable and secure and that our response to them may decide the chances of our peace. What matters now is our relationship — international, industrial, social, and political — with those with whom we have no personal contact but on whom our life depends. Our old, conventional private morality seems often little more than a code of good manners, pleasant among friends but useful in the world only as it hides a determined purpose." (p. 42, 43)

Confidence in people engenders faith in the future.

"Where power is not joined with faith in the future, it is used mainly to ward off the new and preserve the status quo (Eric Hoffer, "The True Believer.") "No man is an island" prescribes the development of a child as well as the maturity of a nation.

North Dakota political leadership as a whole cannot be accused of being non-progressive nor status quo. Many of these men had a keen perception of the interdependence of modern society. They knew that if in common concern we did not reach to be our neighbor's keeper, we would be eventually in the paranoid custody of our own fears. Many a legislator, I'm sure, at various times in speaking and voting, found it took courage, deep courage, to treat all the citizens of North Dakota as neighbors.

"The task of a Christian is to widen the conception of neighborhood beyond the bounds that convention sets and to see in the relationships of neighborhood a love that need know no limit. It is in the end to regard no one with whom one has contact, tangible or unseen as outside his neighborhood." ("God's Frozen People," p. 89.)

Our legislators often struggled with this kind of idealism. Their social sensitivity prevented them from having the motivation that built a house for the spirit and then let the house contain the spirit. The igniters of political prairie fires were not only actors in these legislative bodies but they breathed the soul of a prairie people. Today we salute these men for upholding that freedom is not defined by the amount of land and possessions and distance around us, but by the warm and permissive sharing of one human spirit with another in the great drama of God's creation. Wholesome community is not built by merely sharing of things, but by people's freely sharing their hopes, their dreams, their creativity. Our heritage has momentum which we should let flow from our prairies, through our educational institutions, through this state house, through our rural communities, through our cities. I close with these words from John W. Gardner, former president of the United States Chamber of Commerce and now president of the Carnegie Corporation.

"We must understand that the only stability possible today is stability in motion. We must create a climate in which the seedlings of new ideas can survive and the deadwood of obsolete ideas be hacked out. But, above all, we must see that the capacity of an organization or society for renewal depends on the individuals who make it up. The ever-renewing society fosters innovative, versatile and self-renewing men and women, and gives them room to breathe. Having room to breathe, they will contribute, as only they can, to the society's continued vitality."

GERALD L. STAIR, Secretary

EIGHTH ORDER OF BUSINESS

Rep. Giffey moved that a committee of two be appointed to escort former Speakers to the rostrum, which motion prevailed, and the Speaker appointed as such committee, Reps. Streibel and Giffey.

Speaker Link: "It is not often that it has been my privilege to tell the honored former Speaker, Math Dahl, what to do but he is very cooperative this afternoon.

This is very informal; members of the legislature, and guests — and especially the honored guests on the rostrum: I certainly deem it an honor and distinct privilege to be able to participate in this rather unique observance. This has become almost a tradition — that of paying a few minutes of recognition to former speakers of this Assembly. All of those who have had this opportunity, I am sure recognize the distinct privilege that is ours.

In order that we renew again our appreciation of the efforts of those who have served before us, we are taking a few minutes

this afternoon to recognize these former speakers. Truly, this can be regarded as a time where all political affiliations are set aside. Especially, for the young people visiting with us today, we encourage you to take a real active part in the party of your choice but there is a definite area where the common good and the deliberations of this body are stronger and supercede personal political affiliations.

I am sure the Speakers who have served before me, have experienced many personal situations known only to themselves. And in their memories this evening, after this day of recognition, these instances will no doubt come back to their minds.

At this time I am going to introduce the former speakers here on the rostrum and ask them to stand. At my far left, former Speaker A. R. Bergesen; next, Leo Sticka; Palmer Levin; our most recent Speaker Stanley Saugstad and then I will introduce the former Speaker who will take over from here and pay our respects to the honored guest of the day — former Speaker and present member, Rep. R. Fay Brown."

Rep. Brown:

"Mr. Speaker, Distinguished Guests on the rostrum here, My Colleagues, and Guests: I am deeply gratified to see so many young people here as we gather in this arena of government. In this body you will see the action of free citizens expressing themselves in the manner where all recognition is given to the individual's own conscience.

Further than that we are today going to pay honor to a man who was not a natural born citizen of the United States of America and which goes to prove that any individual who swears allegiance to the United States of America and participates in his government can achieve high honor, no matter what his status in life might be. For this reason, our amiable Speaker of the 39th legislative session has agreed we would have this special little event in order that we may pay our respect to a former Speaker, Mr. Math Dahl, who also served in public office as Commissioner of Agriculture and Labor longer than any other individual in a public office in the State of North Dakota.

I could stand for an hour and relate stories about this individual and what he means to the people of North Dakota.

I think we can get a better expression of our feelings by something we have had prepared to present to him that will not only be appreciated by him but future generations of his family which will follow.

I shall read the expression to former Speaker and former Commissioner of Agriculture and Labor, Math Dahl.

MATH DAHL

Esteemed, Dedicated

Public Servant of

North Dakota

Born in Norway, naturalized a citizen of the United States of America, you have engraved your loyalty, personality, and public service in the history of North Dakota and in the hearts of her citizens.

As a legislator five terms, Speaker of the House of Representatives, 1937, Commissioner of Agriculture and Labor, 1939 to 1965, your courage, sincerity, and modesty has been exemplary of statesmanship.

Your best reward lies in your own knowledge of what you have accomplished in their behalf.

May this serve as a continuing reminder of the esteem in which the citizens of North Dakota hold you and the appreciation they feel for your untiring, unselfish humanitarianism.

Sincerely,
Your Friends All

Dated this 23rd day of February, 1965, A.D."

Hon. Math Dahl; "Members of this Assembly; and all distinguished guests, especially those here on the rostrum:

It is difficult to find anything to say under these circumstances. However I want to thank you, those who are responsible for this honor. I don't know whether I deserve it or not — that is not for me to say, or to judge — that is up to you people. And if I do deserve it — so much the better.

I want you to know that in all the years I was in government, and in which I had any part, that I tried to do what was right for the people, and the state and the nation. I have tried to be honest with myself and with the people. That is one thing you have to do. You have to live with yourself so you better be honest with yourself and then you will live longer.

I want to congratulate all the members of this Assembly. I know the hard work that you have to do, and all the work that remains still to be done. I have had some experience in this and I know there are many things you want to do but can't. If you do what you think is right for all the people of North Dakota you have done the right thing even if you have made mistakes.

Again, I thank you for this plaque. I certainly appreciate it more than I can hope to tell you.

Thank you again."

BOARD OF ADMINISTRATION

Bismarck

RESOLUTION Q

The following report is made in compliance with Resolution Q passed by the 1963 Legislative Assembly.

No radical changes have been made at the school. The policy of hiring the best available personnel has been continued.

Allen J. Hayek assumed his duties as principal of the school at the beginning of the 1963-64 school term. He is a native of Nebraska, a former principal of the Idaho Schools for the Deaf and the Blind, and one of ten persons in the United States chosen in 1963 to participate in the Leadership Training Program in the Area of the Deaf at San Fernando Valley State College, Northridge, California.

In addition to his duties as principal, Mr. Hayek cooperates with the teacher training program sponsored by Minot State College. That program has made more orally trained teachers available to the school. Graduates of the program who were hired beginning with the 1963-64 term are Patricia Brickner, Carrington; Willa Ehr, rural Minot; and Mary Humphreys, Minot.

Also beginning his duties in September 1963, was Vernon J. Johnson, Devils Lake, a graduate of Valley City State College and Gallaudet College, Washington, D. C.

Cleo Crapp, Jamestown, a 1964 graduate of Minot State College was hired to teach fifth grade beginning with the 1964-65 school year.

Because research and experimentation continue to prove the vocabulary of the deaf child can be increased more rapidly by the use of the Rochester method of instruction, that method has been adopted by the North Dakota school in the intermediate and advanced departments. The use of the oral method continues in the primary department.

The Rochester method was originated by the Rochester School for the Deaf in New York and is the oral method supplemented by finger spelling.

The administration thinks the number of seniors at the North Dakota school who pass the Gallaudt College entrance examinations is significant. The examinations are written in competition with all seniors in the United States.

In 1964, for instance, five passed out of a class of six. In 1963, four passed out of six. In 1962, five out of five. In 1961, one out of two.

Gallaudet College is the only college in the world for the deaf, and the competition involved in gaining entrance is keen. The administration believes North Dakota ranks near the top or at the top in the number of students gaining admission to the college when the enrollment is considered.

Another multiple hearing aid has been installed in the school building, bringing the number of classrooms so equipped to six. An appropriation is being requested for two more multiple aids.

It is hoped that people who are critical of the North Dakota School for the Deaf and its methods will visit the school and gain firsthand information.

Note: The above is copied from the Thirty-seventh Biennial Report of the Superintendent of the North Dakota School for the Deaf.

Since this report was written, two more multiple hearing aids have been ordered which will bring the total to eight."

The following remarks were given by Rep. Hauf:

The 38th Session of the Legislative Assembly

Resolution Q directed one board of administration and the superintendent of the North Dakota school for the deaf to continue 1) to accelerate the oral speech and lipreading methods, 2) throughout the entire school.

The report now presented to the 39th Legislative Session as to the "progress made" indicates that the oral method continues in the primary department. However, it also points out that the "Roches-

ter Method" of instruction is being used in the intermediate and advanced departments of the deaf school. The Rochester method is defined by this report as the "oral method supplemented by finger spelling".

The question now must be asked: Has the directive of the 38th Legislative Session been complied with? If so, what reason is there for the continuation of a different basic curriculum for the intermediate and advanced departments? It would seem that continuity of instruction by the oral method would be in order.

The improvement in the quality and number of trained teachers at the school for the deaf is to be commended. However, it must also be noted that the legislature did not imply nor desire any "radical" changes in the operation of the school. The only request was to implement methods of oral speech for the benefit of our deaf students. Likewise, this request was not meant to be a criticism of the North Dakota School for the Deaf or its methods. But, rather, the only concern was that the best possible preparation for a deaf child to be able to take his place in a normal society be the goal of our School for the Deaf."

Mr. Speaker: Your Committee on General Affairs to whom was referred House Bill No. 944 has had the same under consideration and recommends that the same be amended as follows:

At the end of the title and before the period insert the following language: and to the imposition of a privilege tax by a city or village on a rural electric distribution cooperative"

At the end of line 4 between the word "Tax" and the period insert a semicolon that is underlined and the following words: "PRIVILEGE TAX IMPOSED BY CITY OR VILLAGE"

At the beginning of line 5 before the word "the" insert the numeral "1."

After the period in line 15 start a new line and insert the following subsection:

"2. a. In addition to and not withstanding any other provisions of this chapter, the governing body of any incorporated city or village in which electric power is furnished to consumers in the city or village by a rural electric distribution cooperative may, by ordinance, elect to impose an annual tax upon the rural electric distribution cooperative for the privilege of distributing and furnishing such power to consumers within the city or village. The amount of such tax shall be measured and limited in the manner hereinafter provided.

b. The assessing officer responsible for the local ad valorem assessment of property in the city or village shall annually determine the value of the distribution system within the geographic limits of the incorporated city or village that is operated by the rural electric distribution cooperative and is reasonably necessary for the distribution by it of electric power to consumers in the city or village. As used in this subdivision and subsection the term "distribution system" shall not include buildings, equipment, tools and supplies that are necessary and are used in the operation of the entire rural electric cooperative system, both within and outside the incorporated limits of the city or village. The assessing officer in determining such valuation may request the aid and assistance of personnel in the office of the state tax commissioner who are charged with the duty of assembling and evaluating the information that is used by the tax commissioner in making tentative valuations pursuant to the provisions of chapter 57-06. In determining such valuation, the assessing officer shall value it at an amount that is, insofar as reasonably possible, equal to the amount at which it would be valued pursuant to the provisions of chapter 57-06 if it were subject to assessment thereunder.

c. After the assessing officer has determined the value of such property of the cooperative, he shall send by mail to the cooperative a notice in which the amount of such valuation is stated and in which a day approved by the governing body of the city or village is specified on which the representatives of the cooperative may appear and present information relating to the amount and value of the property of the cooperative that is valued for the purposes of this subsection. The notice shall be mailed at least ten days prior to the day prescribed by law for the governing body to convene as a board of equalization. After considering such information as may

be presented by the representatives of the cooperative and by the assessing officer, the governing body shall, within ten days after the day specified in the notice, approve or adjust the valuation made by the assessing officer and shall immediately notify the cooperative by mail of the amount of valuation determined by it. If such cooperative is dissatisfied with the valuation set by the governing body, it may bring an action for review of the valuation in district court of the county in which the city or village is located, provided such action is brought before the privilege tax imposed pursuant to this subsection becomes due.

d. The governing body of the city or village shall, on or before the first day of December of each year, compute and assess the amount of the privilege tax due from the cooperative by multiplying one half of the valuation of the cooperative's property as determined by it by the total amount of mills levied by it for all purposes on other property in the city or village that is assessed and taxed pursuant to the ad valorem property tax laws of this state; from such amount there shall then be subtracted that amount of tax levied on the cooperative pursuant to the provisions of section 57-33-04 that is allowable and distributable to the city or village pursuant to section 57-33-07; and the difference then remaining shall be the amount of tax levied on the cooperative by the governing body of the city or village for the privilege of distributing and furnishing electric power to consumers in the city or village. The county auditor, when requested, shall notify the governing body of the city or village of the amount of tax allocated by him to the city or village pursuant to section 57-33-06. The tax shall be paid by the cooperative to the treasurer of the city or village which levies the tax and shall be credited to its general fund.

e. The provisions of this subsection shall not be construed as subjecting the cooperative to the jurisdiction of the Public Service Commission nor as classifying such cooperative as a public utility company."

In line 15 of the bill before the word "All" insert the numeral "3.", which numeral and the words following it shall start a new line.

In line 18 put triple brackets around the word "the" and insert the word "any" after the brackets.

Beginning with line 19 delete the remainder of the bill.

Renumber the lines accordingly.

And when so amended recommends that the same do pass.

FOURTH ORDER OF BUSINESS

The following communication was read by the Chief Clerk:

STATE OF NORTH DAKOTA

Executive Office

Bismarck

(SEAL)

William L. Guy
Governor

Special Message to the 39th Legislative Assembly

The Honorable Art Link
Speaker of the House of Representatives
Bismarck, North Dakota

Dear Mr. Speaker:

In 1964, Secretary of Defense Robert McNamara declared Fort Lincoln at Bismarck, North Dakota, a surplus military installation. This declaration was to alert our state and interested parties that this historic military installation would be disposed of in the established manner through the General Services Administration.

I immediately appointed a committee of citizens to receive suggestions and ponder possibilities for maximum use of the buildings and grounds at Fort Lincoln when it was disposed of by the General Services Administration. This committee, under the chairmanship of James Moore of Bismarck, has reported to me.

I take this opportunity, however, to once again state publicly and while the legislature is in session that the State and other political subdivisions must formulate their plans soon, as this property will very likely be disposed of by the General Services Administration prior to July 1 of this year.

Representatives of the Office of Economic Opportunity have examined the facilities, equipment, grounds, and community from the standpoint of a possible Job Corps installation. The report made by these Office of Economic Opportunity examiners was generally favorable that this military base could be adapted easily to a Job Corps training center. I must emphasize, however, that this proposal is still only a possibility.

I would request that this legislature, in order to record their intent, pass a resolution asking that the State take over all or part of the Fort Lincoln property or that the State declare no interest in acquiring the property. Should the State, by legislative resolution, express a desire to take over all or part of the lands, buildings, or equipment, a specific State department should be authorized to carry out the necessary negotiations.

It is my recommendation that the State, at least for the interim period between this session and the next session, take action to prevent this military reservation from being sold in its entirety or subdivided for a combination of purposes, either private or governmental.

I do not believe that we have adequately explored the future of this military reservation in terms of the best interest to the people of this state and of this community.

Respectfully yours,
William L. Guy
Governor

Speaker Link announced that the foregoing communication from Governor Guy, would be referred to the Committee on State and Federal Government.

So the bill passed and the title was agreed to.

Rep. Aamoth: "I wish to explain my nay vote on the last bill.

It has been our experience at this meeting of the legislature, to repeatedly have people come before the Appropriations Committee to ask for additional funds for their retirement funds.

This has become a matter of concern to the members of the Appropriations Committee.

I had a resolution ready for the Delayed Bills Committee recommending a study of the state's obligations under the existing pension plans.

I do not oppose state employees receiving pensions but I am greatly concerned over the lack of organization under our pension plans on the state level. All plans should have been studied thoroughly so we could know the state's obligations under existing plans.

I am sure no one in this House can tell me what our obligations are under the plan just voted on."

Rep. Brown: "I rise to explain my nay vote on House Bill No. 164 and have my remarks printed in the Journal.

I rise to say I am not against state employees and I am a poor politician when I am living in the City of Bismarck to vote in opposition to this ever-rising dipping into the taxpayer's pockets for fringe benefits.

I have calculated the percentage for these three programs. We have the Social Security which is now 3%, insurance which is around 2% and now an additional 4%, which totals close to 10% paid out of state funds.

I am not in here to get re-elected but rather to represent all the people of North Dakota, and I think it would behoove all of us to examine the number of state employees — then cut down on the number of employees and raise the salaries of our state employees so they can buy their own insurance — as I have to do."

Rep. Burk: "I would like to explain my vote and have my brief remarks recorded in the Journal.

I voted No for the main reasons that Rep. Brown just mentioned.

I believe we should have fewer employees — I am one who believes we have too many employees, both state and national — and we could pay better salaries.

We have a situation in our state and nation where everyone is coming in and asking additional appropriations and when this legislature tries to remedy the taxes to take care of those additional sums, everybody says, "Please tax everybody but me."

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

1 SECTION 1. STATEMENT OF LEGISLATIVE
 2 INTENT.) WHEREAS, it is recognized by the
 3 legislative assembly that recent statewide elections have
 3a indicated
 4 a strong desire by many citizens of the state for a program of
 5 systematic elimination of the personal property taxes by the
 5a legis-
 6 lative assembly in an orderly manner; and
 7 WHEREAS, it is recognized that any program for
 8 the elimination of the personal property taxes must not destroy
 8a or
 9 dislocate local governmental functions, and must provide
 9a sources of
 10 replacement revenue for counties, cities, townships, and school
 11 districts, as well as equitable means of distributing
 11a replacement
 12 revenue to local government on a continuing basis: and
 13 WHEREAS, the taxation of household goods, clothing,
 13a musical
 14 instruments, and smaller miscellaneous farm tools and
 14a equipment
 15 results in the most problems of assessment, applies to property
 16 that is impossible to completely list for tax purposes, results
 17 in the highest costs of administration, causes the greatest

17a amount
 18 of tax delinquency, affects the largest number of taxpayers,
 18a and
 19 is the most inequitable aspect of the personal property tax; and
 20 WHEREAS, the systematic and orderly exemption of
 21 personal property from taxation, the determination of a
 21a continuing
 22 method for returning replacement revenue to political
 22a subdivisions,
 23 and the provision of replacement tax moneys requires further
 24 attention of the legislative assembly.

25 It is therefore declared to be the intent of the legislative
 26 assembly to begin the process of the elimination of the most
 27 costly and inequitable type of personal property taxes first,
 27a which
 28 is the taxation of household goods, clothing, musical
 28a instruments,
 29 and smaller miscellaneous farm tools and equipment; and
 30 It is further declared to be the intent of the legislative
 31 assembly to continue its study of the exemption of personal
 32 property from taxation during the interim following the
 32a adjournment
 33 of the Thirty-ninth Legislative Assembly and to present
 33a legislation
 34 in 1967 at the Fortieth Legislative Session to provide additional

FIFTY-NINTH DAY AFTER RECESS

Bismarck, March 6, 1965

The House reconvened at the Call of the Chair.

Speaker Link announced that the House would be on the eighth order of business.

Rep. Brown requested permission to have the following remarks printed in the House Journal, which permission was granted.

Rep. Brown:

"Mr. Speaker and Members of this assembly:

Some might think it strange that I rise to correct an erroneous press account of statements made by Walter Hjelle, Highway Commissioner, before our State and Federal Government Committee early this week. In all fairness to the Commissioner's integrity, I believe it only fair that I do so. The news article stated that Col. Barnhardt said that the Commissioner's statement regarding rental costs at Ft. Lincoln were misleading.

As a member of that committee I can in all honesty state that Commissioner Hjelle was quite specific in presenting the facts to our committee, as follows: "the over-all rental costs and incidental expenses, involving separated department operations from the Capitol Building and Highway Building on the Capitol grounds — amounted to about \$30,000 a year."

His specific mention of Ft. Lincoln was that the original rental cost was \$1500 a year, but that about a year ago the Department received notice from the Army that the rent was going to be raised to \$13,000 a year, but through the efforts of Senator Young and Emerson Murray the rental would remain at \$1500.

For the record, it is my feeling that Mr. Hjelle should not be charged with any misleading statements. I have the highest regard for the Commissioner's honesty and character."

Rep. Brown:

"I have had many personal approaches, telephone calls and a few letters in regard to my nay vote on Senate Bill 80.

It is not my desire to impose upon the valuable time of this assembly, however, I do have a prepared statement which I would ask to have printed in the Journal and become a part of the permanent record.

First, I would like it clearly understood, I am not opposed to transporting children to school, however, I am opposed to discrimination.

All of us pay taxes to provide for this transportation, but there are many of our children who are denied this transportation.

Much has been said in this session about discrimination, equality and all citizens should be treated the same — but has this been exercised in our voting conscience? The time is at hand, when all Americans should be considered and treated as free Americans. When taxes are imposed on all, then all should benefit from that imposition.

I pray to God, that I shall live to see the day that the North Dakota Legislature will remove the restriction on school bus transportation because a citizen exercises the freedom of choice and will."

PETITIONS AND COMMUNICATIONS

The Chief Clerk read a resolution from the Michigan Senate on the income tax ruling.

Mr. Speaker: Your Committee on Delayed Bills has had under consideration House Concurrent Resolution "E-2", to wit:

And recommends the same be introduced.

REP. GIFFEY, Chairman

Rep. Streibel moved that the report be adopted, which motion prevailed.

FIRST READING OF A HOUSE CONCURRENT RESOLUTION

The Committee on Delayed Bills introduced:

House Concurrent Resolution "E-2". A concurrent resolution urging the Congress of the United States to propose an amendment to the Constitution of the United States, relating to apportionment.

Rep. Giffey moved that House Concurrent Resolution "E-2" be printed in the Journal and not in bill form, which motion prevailed.

HOUSE CONCURRENT RESOLUTION "E-2"

Introduced by Committee on Delayed Bills

A concurrent resolution urging the Congress of the United States to propose an amendment to the Constitution of the United States, relating to apportionment.

- 1 WHEREAS, the Supreme Court of the United States has ruled
- 1a that
- 2 membership in both houses of a bicameral state legislature must
- 3 be apportioned according to population and has thus asserted
- 4 federal judicial authority over the basic structure of
- 4a government
- 5 in the various states; and
- 6 WHEREAS, this rule denies to the people of the respective
- 7 states the rights to establish their legislatures upon a pattern of

8 representation deemed suitable to the needs of each state or
 9 similar to the pattern deemed advantageous for the Congress of
 10 the United States and provided by the Federal Constitution; and
 11 WHEREAS, this action of the Supreme Court goes so far as to
 12 restrict the ability of the citizens of the respective states to
 13 designate the manner in which they shall be represented in their
 14 respective legislatures, thereby depriving the people of their
 14a right

15 to determine how they shall be governed; and

16 WHEREAS, the implications of this action by the United
 17 States Supreme Court raise serious doubts as to the legality of
 18 the present form of governing bodies of many subordinate units
 18a of

19 government within the states;

20 NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE
 21 OF REPRESENTATIVES OF THE STATE OF NORTH

21a DAKOTA,

22 THE SENATE CONCURRING THEREIN:

23 That this legislature respectfully applies to the Congress
 24 of the United States to propose and submit to the states an
 25 amendment to the Constitution of the United States

25a substantially

26 as follows:

27 "ARTICLE _____

28 "SECTION 1. Nothing in this Constitution shall prohibit
 29 any state which shall have a bicameral legislature from
 30 apportioning the membership of one house of such
 30a legislature

31 on factors other than population, provided that the plan of
 32 such apportionment shall have been submitted to and
 32a approved

33 by a vote of the electorate of that state.

34 "SECTION 2. Nothing in this Constitution shall restrict
 35 or limit a state in its determination of how membership of
 36 governing bodies of its subordinate units shall be apportioned.

37 "SECTION 3. This article shall be inoperative unless it
 38 shall have been ratified as an amendment to the Constitution
 39 by the legislatures of three-fourths of the several states
 40 within seven years from the date of its submission to the
 41 states by the Congress."

42 BE IT FURTHER RESOLVED, that a duly attested copy
 43 of this resolution be immediately transmitted to the Secretary of
 44 the Senate of the United States, the Clerk of the House of
 45 Representatives of the United States, and to each member of the
 46 Congress from this state.

Rep. Giffey moved that House Concurrent Resolution "E-2" be not referred to a committee but further action delayed one day, which motion prevailed.

MESSAGE TO THE HOUSE

Senate Chamber

Bismarck, March 6, 1965

Mr. Speaker: I have the honor to return:

House Concurrent Resolution "M" - "O" - "X" - "O-1" - "C-2" -
"D-2"

Which the Senate has amended.

AMENDMENTS TO HOUSE CONCURRENT RESOLUTION "M"

Delete everything after the words "A concurrent resolution" and insert in lieu thereof the following: "for an amendment to the Constitution of the state of North Dakota relating to the indebtedness of the state, state agencies, and county, township, municipal, school, and other public corporations and political subdivisions; authorizing and defining self-liquidating bonds secured by the pledge of the full faith and credit of the issuer, or payable solely from special taxes, assessments, charges, fees, or rentals; limiting other indebtedness of the state; and repealing section 182 of the Constitution of the state of North Dakota.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES
OF THE STATE OF NORTH DAKOTA, THE SENATE
CONCURRING THEREIN:

That the following proposed amendment to the Constitution of the state of North Dakota is agreed to and shall be submitted to the qualified electors of the state of North Dakota for approval or rejection at the primary election to be held in 1966, or at any special state-wide election called prior thereto, in accordance with the provisions of section 202 of the Constitution of the state of North Dakota, as amended:

SECTION 1.) The Constitution of the state of North Dakota shall be amended by adding thereto the following article:

Notwithstanding any other provision in the Constitution, the state and any state agency and any county, township, municipal, school, or other public corporation or political subdivision of any kind may incur self-liquidating indebtedness for such purposes and in such amounts as may now or hereafter be authorized by law, provided that such indebtedness is evidenced by the issuance of bonds secured as provided in this article.

Self-liquidating bonds may be made primarily payable from any special tax or assessment, other than an ad valorem tax upon property, or from any charge, fee, or rental established for the use, availability, occupancy, or purchase of any service, commodity, building, or facility, or from any combination of these sources; including, but without limitation, excise, privilege, occupation, or income taxes, fees and charges for state parks and other public facilities, and

building fees charged to students at institutions of higher learning and vocational education.

The law, ordinance, resolution, indenture, or other instrument or instruments under which such bonds are issued shall define clearly the taxes, assessments, charges, fees, or rentals designated as the primary source of revenues for the payment of bonds, and shall state what other payments or expenses, if any, are to be deducted from the gross revenues collected from this source to determine the net revenues available for bond service, and shall irrevocably pledge and appropriate these revenues to a special fund or funds to the extent necessary to pay the bonds and interest thereon when due and to accumulate and maintain such revenues securing these payments as may be required in such instruments.

The legislative assembly may delegate to the governing board of the agency, corporation, or subdivision authorized to issue such bonds the power to determine the specific uses of the proceeds and the specific covenants to be made by the issuer to assure the segregation and sufficiency of the pledged revenues, in accordance with such provisions on these matters as may be made by law.

The full faith and credit of the issuer may be pledged, when authorized by law, for the prompt and full payment of any self-liquidating bonds issued under this article. In this event, if a deficiency exists at any time in the bond reserve required to be maintained, the proper administrative officers of the issuer shall levy an ad valorem tax, without limitation as to rate or amount, upon all taxable property within its governmental or corporate limits in the amount required, with any other funds immediately available, appropriated, and transferred by the governing board to the reserve, to restore the deficiency; and the property tax or other funds placed in the reserve shall be reimbursed to the issuer from the next pledged revenues received which are not required to pay principal and interest on the bonds and to maintain the reserve.

Alternatively, when authorized by law, self-liquidating bonds may be made payable solely from the revenues pledged for their payment. In this event, if a deficiency exists at any time in the bond reserve, the obligation of the issuer shall be limited to the increase of the rate or amount of the special taxes, assessments, charges, fees, or rentals pledged, to such extent and in such manner as may be required by the instruments under which the bonds are issued, and compliance with other covenants contained therein.

An issue of bonds may be made partially self-liquidating, when authorized by law. In this event, that portion of the principal amount of the issue from time to time outstanding, for the payment of which revenues from the special sources herein described are not pledged, shall be subject to limitations on the indebtedness of the issuer which are contained elsewhere in the Constitution.

The provisions of sections 183 and 184 of this Constitution shall not apply to the self-liquidating indebtedness of the public corporations and political subdivisions referred to therein.

Except for self-liquidating indebtedness, as defined in the preceding paragraphs of this article, the state shall not incur indebtedness at any time in an amount exceeding five percent of the assessed value of all taxable property in the state. "Assessed value" means the full and true value of such property, as last finally determined by the officers and boards directed by law to value it for the purpose of taxation, without regard to any reduction of such value which may be required by law to establish a valuation or amount upon which rates of taxation are to be computed and extended. "Indebtedness" so limited means the principal amount of all bonds issued at any time and all bonds outstanding at the same time, excluding self-liquidating bonds, less the amount on hand at the same time, in cash or investments authorized by law,

and the amount of taxes then levied and in the process of collection, which are irrevocably appropriated for the payment of such indebtedness. No such indebtedness shall be incurred by the state unless evidenced by a bond issue, which shall be authorized by a law providing for the levy of an annual ad valorem tax, or shall make other provision, sufficient to pay the interest semiannually and the principal within thirty years from the date of the issue of such bonds and shall specially appropriate the proceeds of such tax or of such other provisions to the payment of said principal and interest, and such appropriation shall not be repealed nor the tax or other provisions discontinued until such debt, both principal and interest, shall have been paid.

This article is self-executing, and shall become effective without the necessity of legislative action, except to the extent that such action is specifically referred to herein. Existing laws shall have the full force and effect which is permitted under this article. All actions taken pursuant to existing laws which would have been valid if this article had been in effect when they were taken are validated.

14Ca COLLECTION —

15C ALLOCATION OF REVENUE — APPROPRIATION.)

16C 1. There is hereby imposed, beginning on July 1, 1965, an

16Ca additional

17C tax of one per cent upon the gross receipts of retailers from all

19C additional tax of one per cent shall be collected by the tax

19Ca commissioner

20C in the same way that the tax imposed by section 57-39-02 is

20Ca collected,

21C and which shall be subject to all of the provisions for

21Ca definitions, de-
22C linquency, enforcement of collection, exemptions, assessments,
22Ca penalties,
23C refund, notice and appeals to which the tax imposed by section
23Ca 57-39-02
24C is subject. If any part of this Act is invalidated or disapproved
24Ca in any
25C way other than by action of the legislative assembly or by the
25Ca action of any
26C court, this section shall then have no effect.
27C 2. All monies collected and received by the tax commissioner
28C pursuant to this section shall be paid into the state treasury and

30Ca payment
31C of any refunds of the tax that are allowed. The net amount of
31Ca moneys
32C remaining in said personal property tax replacement fund are
32Ca hereby
33C appropriated for allocation and distribution annually as follows:
34C a. The state tax commissioner, with the aid and assistance of
35C the county auditor of each county, shall determine for each
36C of the years 1962, 1963 and 1964 the cost to the county to
37C the various political subdivisions in the county of assessing
37Ca and
38C of equalizing the assessments of all personal property as-
38Ca sessed
39C in the county on an ad valorem basis by locally appointed or
40C elected assessors or other officers performing assessment
41C duties and the cost of levying and collecting the taxes levied
42C thereon. The total amount of such costs in each political
43C subdivision in each county for each of the three years then
44C shall be added together and the total divided by three to
44Ca obtain
45C the average yearly cost of personal property tax admini-

51C county auditor of each county, shall, on or before the first
52C day of December, 1966, determine and certify to the auditor
53C of each county the following two kinds of proportions ap-

55C "proportion A" and shall be, as to the state, as to each
55Ca county,
56C and as to each taxing district or part thereof in each county,
57C the proportion of the assessed value of personal property in
58C such taxing district that is exempted from taxation by this
58Ca Act
59C to the assessed value of all taxable property within the taxing
60C district that is not exempted from taxation by this Act; the
61C second kind of proportion shall be known as "proportion B"
62C and shall be, as to the state, as to each county, and as to each
63C taxing district or part thereof in each county, the proportion
64C of the assessed value of the personal property in such taxing
65C district that is exempted from taxation by this Act to the
66C assessed value of all taxable property within the taxing dis-

- 67C trict; for the purposes of computing these proportions the
67Ca term
68C "assessed value" shall mean the value at which the assess-
68Ca ments
69C were finally equalized in the year 1964. These proportions
70C shall be used in computing the amount to be allocated and
71C distributed to each of the various taxing districts, including
72C the state, in the year 1967 and in each year thereafter until
73C changed by law and shall be calculated to the nearest five
73Ca place
74C decimal amount.
- 75C c. For the purpose of ascertaining the amount to be allocated
75Ca and
76C distributed in 1967 and in each year thereafter to the state and
77C its political subdivisions for replacement of taxes on the
77Ca personal
78C property exempted by this Act, the county auditor shall
78Ca increase
79C the total of the assessed value of all taxable property in such
80C political subdivision in 1966 and in each year thereafter by
81C proportion A for the political subdivision as determined in
82C subdivision b of this subsection. The county auditor shall
83C then multiply one half of the assessed value of the political
84C subdivision as so increased by proportion A by the mill rate
85C necessary to raise the amount in dollars of taxes actually
86C levied against such taxable property in the political
86Ca subdivision
87C for that year; the amount so obtained shall then be
87Ca multiplied
88C by proportion B to determine the amount allocable to the
89C political subdivision in the following year, which amount
89Ca for each
90C political subdivision in the county shall be certified to the
90Ca state
91C treasurer by the auditor of the county.
- 92C d. The state treasurer, after receiving the certificates
92Ca provided
93C for in the preceding subdivision and after correcting any
93Ca errors
94C that may have been made therein, shall transfer from the
94Ca personal
95C property tax replacement fund to the state general fund
95Ca ninety-
96C five percent of the total amount allocable to the state
96Ca pursuant
97C to the preceding subdivision; and of the amount so transferred
98C the part which is allocable to the North Dakota state medical
99C center and the part which is allocable to the Korean veterans
100C adjusted compensation bond principal and interest fund shall
101C be transferred to the credit of those respective funds.
- 102C e. The state treasurer shall allocate and distribute from the
103C personal property tax replacement fund to the treasurer of
103Ca each
104C county an amount computed as follows: the amount allocated
104Ca to
105C each taxing district in the county by the county auditor's
105Ca certi-
106C ficate furnished to the state treasurer pursuant to subdivision
107C c of this subsection shall be reduced by the cost of personal
108C property tax administration for that political subdivision as
109C certified by the state tax commissioner pursuant to
109Ca subdivision

110C a of this subsection; ninety-five percent of the difference so
 110Ca com-
 111C puted shall be allocated by the state treasurer for the credit
 111Ca of
 112C the political subdivision and the total of such amounts for the
 113C political subdivisions in the county shall be distributed by the
 114C state treasurer to the county treasurer, except that no part of
 115C the amount transferred to the state general fund pursuant to
 115Ca the
 116C preceding subdivision shall be allocated or distributed to the
 117C county. The county treasurer, after receiving the amount
 118C distributed by the state treasurer, shall credit to each
 119C political subdivision the amount allocated to the political sub-
 120C division in the certificate of the state treasurer and the
 120Ca amount
 121C so credited shall be apportioned and credited to each of the
 122C various funds in the proportion that the actual tax levies made
 123C the preceding year by the political subdivisions on the
 123Ca taxable
 124C property therein is apportioned to the various funds, except
 125C that any amount that would be apportioned and credited to
 125Ca the
 126C retirement of a bonded indebtedness existing in 1966 for
 126Ca which
 127C a tax levy was made in 1966 and in any year thereafter,
 127Ca shall be
 128C credited instead to the general fund of the political
 128Ca subdivision.
 129C f. The formula for allocation and distribution of moneys out of
 130C the personal property tax replacement fund shall be the same
 131C for each year after 1967 as that used for the year 1967 until
 132C such time as it may be changed by law. The allocation and
 133C distribution of moneys out of the personal property tax
 133Ca replace-
 134C ment fund shall be made as soon after January first of 1967
 135C and of each year thereafter as can reasonably be done.
 136C g. It is hereby provided that any political subdivision which
 136Ca has
 137C an existing bonded indebtedness for which a tax levy must
 138C be made in 1966 or any year thereafter shall reduce its levy
 139C in each such year for current operating purposes by the
 139Ca amount
 140C which its tax levy on taxable property in that year for re-
 140Ca tirement
 141C of the bonded indebtedness is increased because of the
 141Ca exemption
 142C of personal property by this Act.

Rep. Williamson moved that the House be on a special order of business at this time, which motion prevailed.

Rep. Williamson called Reps. Giffey, Streibel, Hoffner, Fossum, Solberg, Christensen, Davis, Miller, and Brown to the rostrum.

Rep. Williamson called on Rep. Christensen.

Rep. Christensen:

"Mr. Chairman, Mr. Speaker and Members of the Thirty-ninth Legislative Assembly. It is my privilege to present to Rep. Fossum an attache case from the members of this assembly. Rep. Fossum has known the responsibilities of majority and has known the frustration of serving with the minority and performed very well in both instances. I'm sure all of us have admired Chet's attention

to detail and we trust that this attache case will assist him in keeping his files in order. Good luck and best wishes."

Rep. Fossum:

"Thank you, Rep. Christensen, Speaker Link, Fellow Representatives, Desk Staff and Employees.

With the time of adjournment near, we no doubt will look back at our work as a legislative body with pride or disappointment, knowing our personal contributions to the activities and duties of this assembly were either recognized or lost in processing our legislative assignments.

Although we may have strong emotions when we share defeat or victory with other members of this body, we must keep in mind that we are holding one of the most ennobling offices in our form of government. Because of our position as members in this body, we find many forces prying upon us for decisions in the economic and social orders of our society; however, the greatest force before this body or any legislative body is the force to allow our children the opportunity to become stronger citizens from an economic, moral, and spiritual point of view.

At this point, I wish to express my gratitude and appreciation to Speaker Link, respected Floor Leaders and fellow Legislators for being able to serve as the Assistant Minority Floor Leader, and trust that my contributions to this legislative body will provide the necessary needs of our North Dakota people.

This gift will be accepted with humility and I extend to you my personal thanks."

Rep. Davis:

"Mr. Speaker and members of this House:

It is my privilege to speak for this body in presenting this gift to the Assistant Majority floor leader, Rep. Hoffner.

Rep. Hoffner, the members of the minority, as well as those of the majority party in this House recognize your effectiveness as an arm-twister and whip. You have done your job well.

It is natural that some of us should disagree on issues during the session. The important thing is that we be ladies and gentlemen while debating the issues. Although tensions do develop at times during this legislative process, I am sure we will all leave here grateful for the friends we have made on both sides of the political aisle.

On behalf of this assembly, I present you this gift as an expression of our appreciation of your efforts in the position to which you were elected at the beginning of this session."

Rep. Hoffner:

"It has been a most interesting experience for me to serve as assistant floor leader. The Speaker, Representative Link, has done a very commendable job. The desk force — Ruth, Donnell, and the rest have kept things well in order. The pages have been so helpful, presentable and pleasant, and the stenographers and other employees have displayed fine cooperation and efficiency in the performance of their duties. It is fine service to have our bill books kept up. I want especially to thank Representative Giffey for a fine job and for not overworking me, his assistant. It has been a pleasure working with Representatives Streibel and Fossum and I have certainly enjoyed getting to know all of you and serving with you. What I really want to say is you have been a wonderful bunch of characters. Thank you very much."

Rep. Solberg:

"Mr. Chairman and Members of the Assembly:

The term "Veteran Legislator" is often applied to those of us who have served in this body for several sessions. Today I feel like a

veteran, for when I entered the Legislature sixteen years ago, I served with the father of the man I am about to recognize.

One of the most difficult and trying jobs of the legislative session is that of minority floor leader. I speak from experience for I was the assistant both officially and unofficially for several sessions to the man now occupying the speaker's chair when he served as minority floor leader. It is a trying and often thankless position, but it is an important one. You represent a minority whose philosophy is somewhat different from the majority, but in our democratic form of government, that philosophy should be clearly expounded.

Representative Streibel, this has been an unusually busy session with tax programs, reapportionment, Constitutional revision, plus a great number of bills. It has left little time for visiting, even for members who sit in the same area of the house. But, I have often heard you behind me conferring with the majority floor leader suggesting to him and helping him. This is a sign of good leadership when you can fight one minute and be helping each other the next with the many complex parliamentary problems that come up.

Representative Streibel, it is an honor for me to present you with this gift from the members of this, the Thirty-ninth Legislative Assembly, in appreciation of the service which you have rendered in this session and with it goes our best wishes for you and for your family."

Rep. Streibel:

"Mr. Speaker and my fellow colleagues of the Thirty-ninth Legislative Assembly. Representative Solberg, I am sure your generous and kind remarks far exceed any small contribution I might have given in my role as Minority Floor Leader during this session. For this gift I thank each of you and it shall always be a fitting reminder of your many kind and tolerant considerations during the course of this Thirty-ninth Legislative Assembly.

There are many in this body that are more deserving of recognition than I and, if it were not for the position I hold, I am sure many of you would feel much like a certain examiner for the Department of Internal Revenue felt upon receiving a typed income tax return from a bachelor who listed one dependent son. The examiner returned the blank with a penciled notation, "This must be a stenographic error". The blank came back in the next mail with this notation, "You're telling me".

I would like to address myself first to the members of the majority. You could have on any given occasion out-voted us by a 65 to 44 margin, but never did you accede to this for the sole purpose of denying the minority the right of expression and representation. Mr. Speaker and Majority Floor Leader Giffey, your many courtesies and kind considerations in behalf of the minority and myself have been appreciated, you can be sure.

To you, the members of the minority, I have much to be grateful for indeed. Your unflinching dedication to our philosophy of government and your loyal response to my position has been inspiring to say the least. I know that on too frequent an occasion my human frailties perhaps supplanted judgments that should have been obvious.

The great lesson a legislative body collectively imparts to the member is that no one individual gets his way. This undoubtedly is the greatest "arena of compromise" known to man.

It has been a most gratifying experience to share with each member of this assembly the responsibility and concern for the well being of the citizens, and destiny of our state.

Undoubtedly we will be judged in varying degrees. Some will criticize our deliberations, others will be more tolerant and some perhaps will ask questions similar to the question a boy returning

home from school asked his father — "Dad, was the white man superior to the Indian?" The father thought a moment, then replied, "Well, son, when the Indians were running things, they had no taxes, they had no debts, and the women did all the work. Now how in the heck could you improve on that?"

It would be my fond hope that the portion of heritage we will transfer to generations to follow will in some small manner aid in the furtherance of the goals and objectives that all of us have and which bring us together as a body."

Rep. Miller:

"Mr. Chairman, Mr. Speaker, Friends: Rep. Giffey, most of the really meaningful gifts — those things of greatest value to be derived from your position are already yours. Yours is the honor of having been selected to be the floor leader of your party. The acquaintances made, the new friendships formed, the broadening of the services you have been able to render — all of these are the foundation for the memories that shall be yours. And pleasant memories are the real rewards for a successful life.

Now, Don, we seek one more favor from you. We ask that you accept this gift as tangible evidence of the esteem in which you are held by the members of this house. We want you to know that all of us admire you for the quiet and efficient manner in which you have taken care of your duties. We are all proud to consider you as our friend."

Rep. Giffey:

"I certainly want to express my sincere thanks and appreciation for this gift. It is wonderful to be remembered by one's friends, and I shall always be deeply appreciative of this remembrance.

I feel I have already received many gifts from the members and personnel of the Thirty-ninth Legislative Assembly, and those gifts are the new and the continuing friendships that just naturally grow out of legislative membership.

I think we all have one important characteristic in common to be interested in politics; to be willing to be political candidates and to leave our families and homes to serve here; that characteristic is a concern for people.

Without this concern for people, we each would have spent the past several months in our homes, working at our daily jobs and perhaps just simply protecting our own interests — oftentimes in a selfish manner. I am sure the members who are serving their first term in this Thirty-ninth Legislative Assembly will agree that most of the legislation and most of the decisions are non-political. The decisions that are political, or get political for some reason, and often times unfortunately, are still made for the benefit and concern of people. The difference of opinion comes for the difference of approach and method, not from the difference in the desired end result.

I want to express my appreciation to all the members and employees of this Thirty-ninth Legislative Assembly. Without your sincere desire to do your work and do it well, it would be impossible to get the tremendous task completed. While I have tried to treat each member and each employee with equal respect and consideration, I ask to deviate from that position just a bit at this time. Any member who has served as a committee chairman knows that with this position of honor also goes added responsibility and often added criticism. I believe, as usual, we have a fine group of committee chairmen this session, and I want to express my thanks for their extra efforts.

I would be remiss in my remarks if I didn't mention my respect and appreciation for Rep. Hoffner. He is truly a sincere and dedicated floor leader. The two gentlemen who sit across the aisle have

done their work well and have cooperated whenever it was necessary for us to ask for their cooperation. Rep. Streibel and Rep. Fossum, I wish you well in the future, and appreciate your friendship.

The desk force is of invaluable assistance to the floor leaders and to all of us, and I appreciate their usual cooperation beyond the normal call of duty. Of course, we all know it would be impossible to get our work completed without the help of the efficient and dedicated employees in all the supporting facets of the legislature. I am thinking now of the dedicated and sincere people all the way from the stenographers' office, postoffice and telephone ladies, to all those who work here on the floor of the House to the good people in the clerks' office and Speaker's office; and let's not forget the parking lot attendants, the doorkeepers and the crew of custodians who keep our chamber clean.

I am glad each of you has been a part of this Thirty-ninth Legislative Assembly.

I pray that the work done here and the decisions made here will be good for the people and State of North Dakota.

May God bless each one of you."

Rep. Brown:

"Mr. Speaker, Distinguished Guests, Members of the Thirty-ninth Legislative Assembly, my Colleagues:

It is a distinct privilege to have been chosen to make the presentation that I am about to give.

I have warned Ruth that I have no prepared remarks. The things I am about to say to this man, can only come from within the heart of one that has sat in the same position.

You have come to know Speaker Link at a distance, especially you freshmen — but it has been my privilege to know him intimately since I came into the legislature in 1953. He has served since 1947 so I would like to direct my remarks to four facets of this individual's life. When you put them all together you will realize the outstanding job he has done in this thirty-ninth legislative assembly.

As I stand here I think we have reached the point in this legislative session where party lines are joined together because the man whom we are now going to honor — and whom we did honor by unanimously electing as Speaker of the House.

So first I would like to speak of him as a politician.

Art Link is probably one of the most astute politicians it has been my opportunity to know or associate with because Art Link is a country politician and he did not get involved as did the big city representatives from the larger districts. So Art Link has had great influence which has shown up here for he is often sought out for his counsel and advice.

Next as a legislator as I have known Art Link. He has served here since 1947. In this regard I would like to quote from another little poem.

To each is given a Bag of Tools
 A shapeless Mass and a book of Rules
 Each must fashion ere life is flown
 A stumbling Block or a stepping stone
 Isn't it strange that prince and kings
 And clowns that caper in sawdust rings
 And common folk like you and me
 Are Builders of Eternity

That is the legislator — Art Link.

Now I would like to make a few remarks in regard to the Christian, Art Link.

In my association with him, although we sat on opposite sides of the aisle, I have become intimately acquainted with this individual.

About two weeks ago we had the pleasure of spending about two and a half hours together at dinner. I would like to tell you if Christianity was practiced with charity, from the heart, as Art Link does, there would be no strikes in this world. He is truly a Christian whose family life, and regard for his family, comes above all else.

Now — Art Link — the man.

Art Link is a man who toils in the soil. And he has taken his place in the legislative halls holding his head high because in his presiding over this chamber his first thought — his first consideration and his ever mindfulness has been of each of you as human beings.

I have another little poem here I would like to read to you.

THE MAN ON THE BENCH

Life is like a baseball game I saw the other day,
 With many a good man on the bench who would like to play.
 He doesn't hope some other man will fail upon his team,
 Yet while he sits and waits, he holds a hope and has a dream
 Of the time his chance will come to play in life's great game,
 And make first base at least; or a quick home run to fame.
 So if you're sitting on the bench, don't let it make you bitter,
 The time may come that you'll be needed as a good
 "pinch hitter"

When some player is struck out by the Umpire of us all,
 You'll get your chance to go out there and try to hit that ball.
 And the time you spend in waiting may give your heart
 a wrench,

But remember all great players spend some time upon the
 bench.

And it isn't the first inning which decides what score is made,
 The game is never over till the last one has been played.
 And the cause you're struggling for may not be the team
 that's winning

But you may be the one to change the score in that last inning.

Retta Revell —

So I am now about to present to him this remembrance which come from each and every one of us.

Mr. Speaker — will you please come forward?

In 1961 I stood in the same position that you do now. In my pocket I hold that gift that is one of the dearest, and most prized, possessions that I have. As I present this to you, Mr. Speaker — Art Link — and as this watch ticks off the sands of time, may it ever be that the heart beat of each of us, crops up in this little remembrance."

Speaker Link:

"Thank you so very much, Fay, for those very generous remarks. Friends of this Thirty-ninth Legislative Assembly: When I accepted the honor of this position, I made the following statement: "In order that I may properly discharge the duties of this office, I will need your understanding, your help, and your patience. To veteran members and newcomers alike, I solicit your counsel; and any help I can give will at all times be available at your request."

Each and every one of you has fulfilled that request by me. You have been understanding. You have been helpful, and above all, you have been patient. Without your patience and understanding my work as your Speaker would have been difficult indeed. As it was, while we may have had a trying day or two, I can truthfully say that I have enjoyed more than you know this opportunity of serving as your Speaker. My personal thanks to Rep. Streibel and Rep. Fossum and to Rep. Giffey and Rep. Hoffner as floor leaders for the many courtesies extended to me.

My only hope is that I have to some degree lived up to my promise to all of you.

I am sure all of you join me in expressing our sincere thanks to the many employees who contribute so much to the successful and efficient functioning of this assembly. To Ruth Smith, our faithful desk reporter, my everlasting gratitude. To Donnell Haugen and Dick Ista for loyal dedication as chief and assistant clerk, and to Lynn Runck, our audio sound operator, my sincere thanks.

The assistance of the bill clerks, the pages and floor clerks, the committee clerks and stenographers and all other employees and attendants has been excellent. Our appreciation also to the custodians who have taken such good care of the chambers and a thank you for the attention and many courtesies of our parking lot attendants. Without this total teamwork, little of value could have been accomplished.

We thank Governor Guy and his good wife, Jean, for their splendid hospitality. We cannot help but recognize the splendid cooperation shown the Legislature by all the personnel of the various departments of the entire state capitol, elective and appointed, both in this building and elsewhere.

We also recognize and express our appreciation to the people of Bismarck and Mandan for the very genuine and truly western hospitality again extended to the Legislature. For the many courtesies of those providing housing and living accommodations, both public and private, we again say, thank you.

Many of us develop strong feelings on certain issues or pieces of legislation. Many succeed and many fail. While the disappointments of each may seem paramount at the time each is as a small conflict of a larger battle. This is the battleground of democracy where when the debate is over, win or lose, each of us maintains respect for one another, we part as friends and thank God for the privilege of self-government.

As we make our way home to our respective communities, let us continue to hold the principles of representative government so high that all who see our example will experience a re-birth of enthusiasm for what continues to be man's greatest accomplishment in his efforts to live in a society where more people may enjoy God's gifts of the world, with human dignity and respect for one another.

My good wife, Grace, and our family share my appreciation, my gratitude and my joy today. For this wonderful and everlasting gift, we humbly say, "Thank you".

REMARKS BY REPRESENTATIVE OTTO HAUF, D-MAX,
CONCERNING HIGHER EDUCATION

These comments concerning proposed recommendations in the area of institutions of higher learning are based upon experience and are supported by estimates accumulated from past and present legislative assemblies. Briefly, the main points of consideration are:

1. Appointment of a Director of Higher Education;
2. Proposals that cities having Universities and Colleges absorb the costs of special assessments;
3. Reducing the number of institutions of higher learning;
4. A uniform school year;
5. A suggestion that members of the legislative assembly who reside in cities having institutions of higher learning be excluded from the Appropriations Committee.

The need for a separate Director of Higher Education is becoming more apparent every day. Any legislator who has served on either the State Budget Board or the House Education or Appropriations Committees is, I am sure, well aware of the absolute need for better coordination between the institutions of higher learning and a better understanding between these institutions and the legislature.

Each institution continually demands additional buildings or replacement buildings at costs running into the millions of dollars. I can agree that new buildings for higher education are needed at the present time and will be needed in the future.

But to insure that we, the legislature, have better control calls for a well-planned and organized approach to a building program — one not based or determined from one legislative session to the next, but one that is based on a long-range priority program.

We need to further insure that there will be no duplication in some areas of study and training. All this could fall in the province of a Director of Higher Education.

A further improvement would be noted if we would standardize the budgets and the presentation of the higher education budgets to the Appropriations Committee so that they would provide us with a more detailed financial report.

This would make it possible for us to work with a simpler and more clearly defined budget report, and eliminate the task, in the short period of sixty days, of having to spend considerable time trying to interpret the many areas of generalities within the budget reports of each institution of higher learning.

In regard to previous assessments, I have long felt that they should be absorbed by the cities in which our colleges and universities are located.

We have had the Chambers of Commerce from the cities where these schools are located testify before the Appropriations Committee on the needs for more money, salaries and so on. But not one of these cities is willing to assess themselves extra mill levies to offset even special assessments.

The advantage and the boost to the economy of the cities having these schools is immeasurable. Their children are right there.

The cost to these people of sending their children to these schools is considerably less than to parents of students in other parts of the state.

It is the students that come from outside of these cities, in the most part, who pay for building new dormitories and some buildings. Once they are paid for they belong to the state.

What about the large teaching staffs? And the large enrollments? All the payroll and spending done by these groups is spent in the cities having the schools.

Cities having Junior Colleges pay at least 4 mills for the schools because they know the money they will save by having their children go to these schools for at least two years. They are also well aware of what such a school does to the economy of their towns.

I think that the same people who plead for these colleges could use some good judgment and be willing to help.

There should also be further consideration given to reducing the number of institutions of higher learning. It is becoming more and more evident each day that we cannot adequately support the number we have now.

I would like to remind you of the recommendations made by the State Board of Higher Education concerning the closing of Ellendale State College.

I agree wholeheartedly with their recommendations and am at a loss to understand why we have not followed through on it. I feel we could even further reduce the number of institutions to perhaps five or six.

I can also see the need for greater uniformity in the make-up of our school year at the various institutions of higher learning. As they now stand we have some who go by quarters and others who use the semester system.

Such a system creates a great many difficulties with students who wish to transfer from one school to another, and for visiting professors. If the years were consistent we would be able to have professors who specialize in certain areas visit other schools. Such things as overall planning, purchases, and many other administrative facets of higher education would be greatly simplified by a uniform school year.

And lastly, I don't feel that legislators who reside in cities who have such schools should be allowed to sit on the Appropriations Committee. Or even those who represent a district in which such a school rests.

It places such legislators in an unfair position. They are subjected to extreme pressures from constituents back home concerning their own particular school that they find it difficult to keep an open mind concerning the needs of education across the whole state.

I feel that by excluding them from the Appropriations Committee they would be free from outside pressure groups and would be able to work in a better fashion for our state's education, although in an indirect manner.

Rep. Otto Hauf

Bismarck, March 5, 1965

The House reconvened at 2:00 p.m., with Speaker Link presiding.

Prayer was offered by Rev. A. E. Smith, St. Georges Episcopal Church, Bismarck, N. Dak.

Rep. Miller requested that the prayer given by Rector Smith be printed in the House Journal, which request was granted.

Rector Smith:

"The late Thomas Hall, Secretary of State for many years in North Dakota, was an intimate friend of Rector A. E. Smith, today's chaplain. Some 20 years ago when this chaplain first came to Bismarck, Mr. Hall had sent to him a copy of the prayers which had been said during the 1941 Session of Congress. Today's prayer was the prayer used at the closing session in 1941.

"Almighty God, Creator of all things visible and invisible, who art without beginning or end of days; into Thy holy keeping we commit ourselves as the sum of our endeavors in this momentous period of our state's history is about to be completed. Do Thou bless and strengthen all that has been ably done. Pardon whatever has been left undone or done amiss and grant, that we may learn wisdom from the past and find the comfort of Thy leading in the future. As we review the past we find no uniformity in days, for Thou didst touch some of them with shadow, allowing others to pass all shimmering with laughter, till, like the sea wave chased by cloud and sun, they broke in foam to pass away in the music of a sign along time's beaten sand. So teach us, O God, to number our days that we may apply our hearts unto wisdom. Through Jesus Christ Our Lord. Amen."

Rep. Brown requested that the following remarks by William G. Baar, Executive Director of the National Parking Association on Private vs. Municipal Parking, be printed in the House Journal, which request was granted.

"REMOVAL OF ON-STREET PARKING METERS.

For many years I have argued that parking meters are the most impractical device yet developed for the administration and control of parking spaces whether they be on-street or off-street. Every reputable city gave them up because of the revenue feature. In my opinion, North Dakota is the only state in the U.S.A. which has exercised good judgment regarding this subject. The State Legislature there has consistently refused to enact enabling adverse aspects of parking meters and made the point that if on-street parking could be permitted, meters were not necessary so long as "turnover" was effectively endorsed by "chalking tires."

SEVENTEENTH ORDER OF BUSINESS

Rep. Streibel requested that his remarks on reapportionment be printed in the House Journal, which request was granted.

Rep. Streibel:

"We have an obligation to reapportion. We must not allow this issue to be resolved by any other body.

No reapportionment plan can be devised by man that will satisfy the political whims of all. It is contingent upon us to compromise rather than allowing personal interests to predominate.

Justice Harlan has stated that should the Legislature fail to reapportion, it does not necessarily follow that the courts will. The situation could easily present itself whereby we will all run at large and this we all realize could prove tragic indeed, for our form of government.

If we fail to reapportion, it could render all LRC studies invalid, because we have operated as a de-facto body and will no longer exist when we adjourn "Sine Die".

If we fail to reapportion, we could perhaps be a vehicle toward creating chaos in governmental financing should a successful tax referral or other state emergency present itself.

This plan is not the Smith Plan, it is not the Johnson Plan, it is not the Farmers Union Plan, it is not the Dobson Plan, it is not the Democrat Plan, nor is it the Republican Plan — it is the Conference Committee Plan, period.

As spokesman for the Republican Minority in the House of Representatives, I appeal for a decision.

The Conference Committee, comprised of the four floor leaders of the House and Senate and the two chairmen of the Political Subdivisions Committees, has unanimously agreed on the plan before us.

Can another Conference Committee resolve this problem more judiciously? This question I cannot answer. I do know, however, that this is the first committee that has even come close to agreement.

I respectfully submit it is not perfect, it does not satisfy all, but it does have an excellent tolerance factor, it does recognize community interests, it does minimize wherever possible the division of counties and it does comply with many of the standards established by previous court decisions.

I would sincerely trust that we face this decision and uphold the trust that our electorate has placed in us!
