The Board of Trustees is unable to make an estimate of revenue at this time.

HB 1335 states the board shall determine the charge according to the members ability to pay.

To establish these charges a detailed survey must be completed individually, showing consideration for personal, dependency, and medical needs compared with the income available from the members.

Consideration must be given for the member who has no income, possible loss of membership due to a charge, and possibility of increasing income standards, since financial need is a prime factor concerning admissions at the present time.

It would be impossible for the Board to present a factual or reasonable estimate until a detailed survey was made. The Board would then discuss it openly with interested groups before a determination is made.
