Six months after any certificate has been revoked, an application may be made for another certificate in the same manner as a new certificate is obtained.

SECTION 21. CERTIFICATION TO NONRESIDENTS — RECIPROCITY.) To the extent that other states which provide for the certification of water well contractors provide for similar action, the state board of water well contractors may grant certification to water well contractors certified by other states, upon payment by the applicant of the required fee and the furnishing of a bond as provided by section 14 of this Act, after being furnished with proof that the qualifications of the applicant are equal to the qualifications of holders of such certificates in this state.

SPEAKER'S ANNOUNCEMENT CONCERNING RULING
ON HOUSE BILL No. 1299

House Bill No. 1299 was before the House for action on February 15th and received a vote of 52-41-5 and was declared lost. The chair ruled the bill required a two-thirds vote to carry due to two sections contained therein that had been voted on by the people.

Discussion on the Chair's ruling developed and the question was submitted to the Attorney General's office for an opinion.

Yesterday the opinion was received. The opinion is that —

1. House Bill No. 1299 passed with a majority vote except for that portion of the bill which amended section 6-09-12 and that portion of the bill which would have repealed chapter 13-03.
2. It is the Attorney General's opinion that the failure of the portion which amended section 6-09-12 is not of any particular importance to the bill.
3. It is the Attorney General's opinion that the failure of the portion which would have repealed chapter 13-03 may cause some confusion as to the exact state of the law relating to small loans (assuming House Bill No. 1299 passes and becomes law) but that this is not of major consequence and could be reconciled without too much difficulty.
4. The Attorney General's opinion is based on the view that a bill which has many parts, some of which require a two-thirds vote, passes on a majority vote unless the parts which fail are so integral to the bill that the bill is almost meaningless without them.

Therefore, the chair is changing its former ruling and in accordance with the Attorney General's opinion is now ruling that House Bill No. 1299 passed by a vote of 52 ayes, 41 nays, 5 absent or not voting except for that portion of the bill which amended section 6-09-12 and that portion of the bill which repealed chapter 13-03. The emergency clause failed.

Rep. Rundle moved that the House over-rule the decision of the Speaker concerning House Bill No. 1299, which motion was then withdrawn.

Rep. Rundle moved that the House reconsider the action by which House Bill No. 1299 was lost, which motion was ruled out of order.

Rep. Streibel moved that the House reconsider its action whereby House Bill No. 1299 was passed, and the motion to reconsider be laid on the table.

Rep. Jenkins requested a call of the House, which request was granted.

Rep. Streibel moved to suspend the call of the House, which motion prevailed.

The question then was on the motion of Rep. Streibel that the House reconsider its action whereby House Bill No. 1299 was passed, and the motion to reconsider be laid on the table, which motion prevailed on a division vote.

CONSIDERATION OF AMENDMENTS

Rep. Dornacker moved that the amendments to House Bill No. 1176 as recommended by the Committee on Finance and Taxation as printed on pages 772 and 773 of the House Journal be adopted.

POINT OF PERSONAL PRIVILEGE

Rep. Raymond: "Mr. Speaker: I rise on a point of personal privilege. This was my bill. I felt it was a very necessary bill. I do go along with the action of the Appropriations Committee. I rise on a point of personal privilege to point out to you that you keep in mind what is happening at our institutions of higher education in the next two years. The whole impact of growth has a different pattern and is a different picture than when we were in school. Now there are more graduate students and more married students on our campuses. This is a matter of requiring a different type of housing, and this is where these institutions are hurt. By 1980, the University of North Dakota will have 10,728 students, the State University will have 9,310, the School of Science 4,364 (our fastest growing institution); Dickinson will have 1,706.

"I would like to tell you that of these numbers of students, in Grand Forks 3,390 do not live in Grand Forks or their homes are

not in Grand Forks, and they have to live off-campus; in Fargo, 2291 students are forced to find rooms off-campus. In Wahpeton there are 876, and in Dickinson 411. I cannot speak for the town of Fargo, nor the town of Wahpeton, nor the town of Dickinson, but I do know what the conditions are in Grand Forks. I happen to live in that area. I own my own home, and at the beginning of school each fall, married students and single students and faculty are beating the streets looking for housing. When faculty members leave on a sabbatical or to study elsewhere, they do not give up their housing units, but sub-lease them. Housing is a critical factor in these towns.

"I appreciate the need for money, but I ask you to remember these things two years from now."

In determining the true and full value in money of agricultural lands, the value of all land, both tilled and untilled, which has been used primarily for agricultural purposes for at least five successive years immediately preceding the tax year for which an assessment is to be made shall be based upon a consideration of the following factors: The capacity of the land to produce agricultural products as herein-after defined; soil, terrain, and topographical conditions of the property; the present market value of such property as agricultural land; and the character of the area or place in which such property is located, and such other agricultural factors as may from time to time become applicable.

Any such person may elect to claim his retirement benefits according to the provisions of the retirement program for teachers in effect prior to the effective date of this Act.

15-39.1-05. MANAGEMENT OF FUND.) The fund shall be managed by a board of trustees, which shall consist of the state treasurer, the superintendent of public instruction and three persons to be appointed by the governor. One of the appointees shall be a woman and a majority of the board shall at all times consist of persons who are members of the fund. The term of the office of the appointees shall be three years with said terms fixed to terminate on June 30th of alternate years. The term of each appointee shall commence on July 1st next succeeding his appointment.

15-39.1-06. ORGANIZATION OF BOARD.) The board may hold meetings as may be necessary for the transaction of business and a meeting may be called by the president or any two members of the

board upon reasonable notice to the other members of the board. The president for the ensuing year shall be elected at the first meeting following July 1st of each year. The state treasurer shall act ex officio as treasurer and the board shall be empowered to employ a secretary, who need not be a member of the board and who shall perform such duties as the board may prescribe.

15-39.1-07. VACANCIES — RULE MAKING POWER.) Vacancies which may occur among the appointed members of the board shall be filled by the governor and the appointee shall complete the term for which the original member was selected. The board may adopt such rules as may be necessary to fulfill the responsibilities of the board.

15-39.1-08. COMPENSATION OF MEMBERS.) Members of the board, excluding ex officio members, shall be compensated for attendance at meetings from the fund at the rate of fifty dollars per day, plus actual expenses of travel, food and lodging.

Every governmental body employing a teacher shall pay to the state treasurer a sum equal to four per cent per annum of the salary of each teacher employed by it, but not to exceed a matching payment in excess of five hundred dollars annually. All such sums shall be paid quarterly to the state treasurer who shall set the same aside in the teachers fund for retirement.

15-39.1-10. ELIGIBILITY TO BENEFITS.) Any teacher having ten years of teaching credit in the fund and who has attained the age of sixty-five years, or who attained the age of sixty-five years and completed his final year of teaching in 1971, shall be entitled to receive monthly benefits from the fund, until death, in an amount equal to the following:

1. One per cent of the monthly salary of the teacher for the school year next preceding the effective date of this act for each year of service of said teacher prior to the effective date of the act; and
2. One and one-half per cent of the monthly salary of the teacher for each year subsequent to the effective date of the act.

Monthly salary within the meaning of this provision shall be deemed to be an amount equal to one-twelfth of the annual salary of the teacher. If for any reason the earnings of the teacher for the year next preceding the effective date of this act are shown to have been non-representative of his typical earnings, the board shall readjust the credit to be allowed for past years of service to the last year of typical earnings.

15-39.1-11. RIGHTS VESTED WHEN.) When any teacher has paid assessments for a period of ten years, he shall have a vested right to a retirement annuity but he shall receive no payments hereunder until he attains the age of sixty-five years unless he shall elect to claim an early retirement as hereinafter set forth.

15-39.1-12. EARLY RETIREMENT.) Any teacher who has acquired a vested right to a retirement annuity as set forth in section 11 of this act may retire at any time prior to the normal retirement age as set forth herein but the benefits to which he shall then be entitled shall be reduced to the actuarial equivalent of the benefit credits earned to the date of early retirement.

15-39.1-13. ANNUITIES EXEMPT FROM LEGAL PROCESS.) The annuities payable under the provisions of this chapter shall not be subject to attachment, garnishment, execution or other seizure or process, nor shall they be subject to sale, assignment, pledge, mortgage or other alienation.

15-39.1-14. **RETIREMENT NOT MANDATORY — WHEN RETIREMENT OCCURS.**) Nothing in this act shall be construed as requiring retirement at any specific age. If the teacher elects to teach beyond age sixty-five and is permitted to do so by the body for whom he works, he shall continue to earn credits at the same rate as prior to the age of sixty-five. Retirement shall be deemed to have occurred and benefits shall be payable from the date of last teaching prior to the filing of a written application for retirement benefits, except in the case of a teacher whose rights in the fund have become vested but who chooses not to retire prior to age 65, in which case the benefits shall be paid from the date such teacher attains the age of sixty-five.

15-39.1-15. **WITHDRAWAL FROM FUND — RETURN TO TEACHING.**) Any teacher who has withdrawn from the fund as set forth in this chapter may, upon returning to teaching in this state, regain credit for prior teaching by repaying to the fund, with interest, at a rate to be set by the board, the amount which was returned to him on withdrawal.

15-39.1-16. **OPTION OF TEACHERS ELIGIBLE TO RECEIVE ANNUITIES.**) At any time after his retirement under the circumstances provided in this chapter and before the first annuity payment shall become due, a teacher may elect to receive the actuarial equivalent, at that time, of the regular retirement allowance for life, in the form of a reduced retirement allowance payable throughout his life with either, but not both of the following additional provisions;

Option one. Upon the death of the teacher, the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as the teacher shall have nominated by written designation filed with the board at the time of retirement; or

Option two. Upon the death of the teacher, one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as the teacher shall have nominated by written designation filed with the board at the time of retirement.

The amount of the reduced retirement allowance payable upon the exercise of either of such options shall be computed upon an actuarial basis through the use of standard actuarial tables and based upon the ages of the teacher and his designated beneficiary.

15-39.1-17. **DEATH OF MEMBER.**) If the death of a member who has not acquired a vested interest should occur prior to retirement, a refund of his assessments accumulated with interest shall be made to such beneficiary as he may designate, or, if no beneficiary is designated, the same shall be paid to his estate. His assessments shall earn interest from the July 1 following the date the assessment is made with the interest credit each year determined at the current rate for one-year certificates then being paid by the Bank of North Dakota.

If the death of a member who has acquired a vested interest should occur prior to retirement, then his beneficiary may apply for a refund of his assessments accumulated with interest as described in the above paragraph. In lieu of such refund, the beneficiary may elect to receive a monthly annuity in accordance with option one as set forth in section 16 of this act, with the amount of such annuity being determined as though the deceased member had retired under the option on the first day of the month in which his death occurred. If any applicant for an annuity under this section has not paid into the fund assessments equal to the amounts required to be paid under section 15-39.1-09, he shall pay any deficiency into the fund before receiving the annuity.

15-39.1-18. **DISABILITY RETIREMENTS.**) Any teacher as defined in this chapter may also retire and receive a disability annuity

if after a period aggregating fifteen years of service as a teacher in this state, such teacher suffers from total disability. Such total disability to be determined by the board after an examination of such teacher has been made by two physicians appointed by the board. The fees of such physicians shall be paid by the applicant.

The amount of the disability annuity shall be equal to the retirement benefit credits which the member has earned to the date of disablement. The disability annuity shall continue until the death or prior recovery of the disabled annuitant. The board shall ascertain by examinations annually or as often as necessary to determine the continued disability status of a disabled annuitant.

If a disabled annuitant recovers and returns to active teaching, he shall retain the retirement benefit credits which he earned prior to the time of disablement and the credits which he earned after his return to active teaching shall be added to those earned prior to his disablement.

15-39.1-19. ANNUITIES DISCONTINUED ON RESUMPTION OF TEACHING.) Any person who has retired from teaching under the provisions of this chapter may become a teacher again in a public school or state institution and thereupon his annuity payments shall be discontinued during the time he continues to teach. Payment of the annuity shall be resumed upon his further retirement.

15-39.1-20. WITHDRAWAL FROM FUND.) When a member of the fund ceases to be eligible under the terms of this chapter to participate in the fund, he may withdraw from the fund and shall be then entitled to receive a refund of assessments accumulated with interest credited for each year as determined at the current rate for one-year certificates then being paid by the Bank of North Dakota. Such refund shall be in lieu of any other benefits to which the member may be entitled under the terms of this chapter.

15-39.1-21. EFFECT ON EXISTING OBLIGATIONS.) Nothing herein contained shall be construed to affect existing retirement benefits and all obligations of the teachers insurance and retirement fund existing on July 1, 1971, shall be assumed and paid from the teachers' fund for retirement. Amounts which persons retired on July 1, 1971, are receiving shall be frozen as of that date and shall not be deemed increased by this chapter.

15-39.1-22. ANNUAL REPORT OF BOARD.) On or before the first day of October of each year, the board shall report for the fiscal year ending the thirtieth day of June preceding. A copy of the report shall be submitted at the annual meeting of the members, which shall be at the time and place of the annual meeting of the North Dakota education association, and a copy of the report shall be included in the biennial report of the superintendent of public instruction to the governor.

15-39.1-23. FAILURE TO ACCOUNT AND REPORT DEPRIVES DISTRICT OF RIGHT TO PARTICIPATE IN STATE PAYMENTS.) No school district shall share in the apportionment of any money from the state for any year unless the school board, or an officer thereof, has made the reports required by the board as permitted by this chapter and has paid over for credit to the fund the amounts required to be paid by this chapter.

15-39.1-24. TEACHER ENTITLED TO ADDITIONAL CREDIT.) A teacher may receive additional credit for teaching toward retirement in the following instances and manner:

1. Any teacher who comes from a school or educational institution supported by public taxation out of North Dakota and who becomes a teacher within the meaning of this chapter may elect to have any or all years of out-of-state teaching credited hereunder, which credit may be claimed at any time prior to retirement and provided that interest shall be paid on all payments required under this subsection at a rate equal to

- the rate being paid on one-year certificates by the Bank of North Dakota. Every such teacher shall be advised of the provisions of this section by the school board in writing at the time of employment, and a copy of such notice with written acknowledgement thereof, shall be filed with the board. Before receiving any retirement annuity, such teacher shall pay into the fund an amount equal to the amount of assessments for the number of years of out-of-state teaching that he elects based upon his first annual salary in North Dakota, which shall also be the basis of the retirement benefits to which he shall be entitled to receive. He shall also pay the full amount which the employing body would have had to pay as matching funds for the years to be credited.
2. Any teacher who, within twenty-four months of entering the military service of the United States of America, was engaged in the occupation of teaching in the State of North Dakota, and who received an honorable discharge from such service, shall be entitled to have the time of such service credited under the terms of this chapter upon his return to teaching and the payment of the assessments, including the matching funds of the employing body, based upon his first annual salary on return to teaching in the state. Any teacher who has made such back payments for military service may elect prior to retirement, to receive the return of such payments, with interest at the rate being paid by the Bank of North Dakota on one-year certificates of deposit, and reject the military service credit and the board shall forthwith refund said amounts. The teacher, at retirement, may again elect to claim the benefits of this section. The same rights shall be available to a teacher who has been engaged in teaching in North Dakota prior to such time but was attending an institution of higher learning for the purpose of improving himself in such profession within twenty-four months of the time of entry into the armed services. All payments required under this subsection shall be made with interest at the rate being paid on one-year certificates by the Bank of North Dakota.
 3. A teacher who attends a college, university, or other recognized school during periods other than summer sessions, for the purpose of improving his qualifications in the teaching profession shall be entitled to have such periods while in attendance at such college, university, or school credited as teaching service under the provisions of this chapter upon the payment of the assessments which would have been collected from him if he had continued as a teacher during the time of such college, university, or school attendance, plus the payment by him of the amount that would have been paid to the fund in his behalf from the school district or state institution where he was employed. Such back assessments must be paid prior to or at the time of retirement under this chapter, provided that:
 - a. The teacher must have taught at least one full school year in North Dakota immediately preceding his entrance into the college, university, or school and that immediately following such training he shall have taught not less than one full school year in a public school or state institution of this state; and
 - b. The period of college, university, or school attendance that may be credited as teaching service shall not exceed three full academic years, exclusive of summer schools; and
 - c. Payments on back assessments shall be based on the salary received by the teacher during the first year of teaching following the college, university, or school attendance, together with simple interest at a rate equal to the rate being

paid on one-year certificates of deposit by the Bank of North Dakota, except that no interest shall be charged on assessments for the period while actually in attendance at the college, university, or school.

15-39.1-25. CERTAIN RIGHTS AND OBLIGATIONS FIXED.) Notwithstanding any other provisions of law, the laws pertaining to the teachers' fund for retirement, as contained in chapter 15-39.1, shall apply to teachers, superintendents, assistant superintendents, principals, assistant principals, special teachers, supervisors of instruction and other supervisors, presidents, deans, school librarians, and registrars employed by any state institution under the supervision and control of the board of higher education and the commissioner of higher education, only in the form and substance as chapter 15-39 existed as of July 1, 1967, and all such persons shall have only such rights, benefits, and privileges as provided in chapter 15-39 as it existed on July 1, 1967. Such persons shall be responsible or liable for only those costs or assessments provided for in chapter 15-39 as such laws and chapter existed on July 1, 1967. The board of higher education or any institution under the supervision or control of the board of higher education shall not be liable for any costs, assessments, or payments under the provisions of chapter 15-39 in excess of that provided or required under the provisions of chapter 15-39 as such laws and chapter existed on July 1, 1967. It is hereby declared to be the intent of the legislative assembly to freeze the rights, benefits, privileges, assessments, payments, and obligations of the persons, offices, and institutions specified in this section to those rights, benefits, privileges, assessments, payments, and obligations as they existed under the provisions of chapter 15-39 as such laws and chapter existed in form and substance as of July 1, 1967, and that all legislative enactments subsequent to such date shall not affect or apply to those persons, offices, and institutions specified in this section or their rights, benefits, privileges, assessments, payments, and obligations as fixed by this section.

15-39.1-26. INVESTMENT OF MONEYS IN FUND.) Investment of the fund shall be under the supervision of the state investment board in accordance with chapter 21-10, except that the state investment board shall have the authority to contract with insurance companies, trust banks, or other financial institutions to hold and invest fund moneys, provided that the total amount of all moneys so placed shall not exceed an amount equal to twenty percent of the total moneys of the fund. Such moneys shall be placed for investment only with a firm or firms whose primary endeavor is money management, and only after a trust agreement or contract has been executed. Such moneys may be expended by the state investment board by the preparation of an appropriate voucher and submitting such voucher to the department of accounts and purchases.

15-39.1-27. "YEAR" DEFINED — COMPUTING FOR PART-TIME TEACHERS.) In computing the terms of service of a teacher under the provisions of this chapter, a year shall be a legal school year at the time and place where such service was rendered. Where the service was rendered in schools not included within the provisions of this chapter, a time less than a legal school year in this state shall not be included as a full year but only as such proportion of a year as the number of teaching weeks in each year taught in such excluded school bears to the number of weeks required at such time to constitute a legal year in this state.

At least four hours per day for twenty days per month shall constitute a month's teaching credit toward a retirement annuity for part-time teachers.

SECTION 2. REPEAL.) Chapter 15-39 of the North Dakota Century Code is hereby repealed, provided that reference thereto may be made to fix rights of persons arising prior to the enactment of this act.

REP. DICK, Chairman

Rep. Weber moved that the report be adopted, which motion prevailed and the report was adopted.

Mr. Speaker: Your Committee on Finance and Taxation to whom was referred House Bill No. 1536 has had the same under consideration and recommends that the same be indefinitely postponed.

REP. DORNACKER, Chairman

Rep. Boyum moved that the report be adopted.

Rep. Dornacker requested his remarks in regard to House Bill No. 1536 be printed in the Journal.

Rep. Dornacker: “Mr. Speaker: As a legislator we have an obligation to seek solutions. The 21 mill levy has been a problem. Many of us here and at home have told us to try to eliminate the 21 mill levy so the State would fund all of the Foundation program.

“This now falls on real property, the other two choices are Sales or Income Tax.

“House Bill No. 1536 was introduced to take a look at using the income method. I had the bill drafted on the principle of the Social Security tax method.

“The bill placed a tax on the employee of one percent of the first \$3,000; two percent from \$3,000 to \$5,000; the maximum tax would be \$35.00. The employer would match the employee’s tax. The bill in the amendment excluded the first \$1,200.00 on people over 65. It also excluded the first \$600.00 on those under 21. Both the employer and employee would pay the tax on April 15th, when other income tax was due.

“To the self-employed we place a different rate, as does Social Security. This was one percent up to \$5,000.00, with a maximum of \$50.00.

“The 21 mill levy produces 15 million on state property; personal property pay back is three million. Thus real property produces 12 million.

“The bill said the educational tax was to go to a dedicated fund and upon July 1 the State Board of Equalization would reduce the 21 mill levy by the amount in the fund.

“The bill excluded the employer:

- (1) In case of state or political subdivisions.
- (2) Federal Government.
- (3) Churches or nonprofit religious organizations.

We did this because these employers paid nothing to the 21 mill levy fund.

"We did not exclude the employees of these agencies.

"The bill would have taken in eight million, and thus the 21 mill levy would be reduced from 21 to four mills.

"In most cases the reduction in taxes to the employer would have helped offset his contribution for the employees.

"In case of the employee if he owned property, his real property tax would be reduced by 17 mills likewise.

"In the hearing we had much opposition from the employers but very little from the employees.

"It all goes back to the eternal problem of tax reform. It is reform if it taxes somebody else.

"This bill had a good hearing. The committee felt it had merit, and both myself, as sponsor, and the committee felt we had exposed the public to this method and they did not like it, or at least they must prefer property taxes for education instead of income taxes.

"I feel that next session the exposure of this bill will result in the elimination of the 21 mill levy, possibly by a one percent increase in sales tax.

"We asked for indefinite postponement."

The question was on the motion of Rep. Boyum to adopt the Committee Report on House Bill No. 1536, which motion prevailed. House Bill No. 1536 was indefinitely postponed.

EXPLANATION OF VOTE

Rep. Atkinson: "Mr. Speaker: This afternoon we heard Rep. James Peterson explain an appropriations measure and he consistently referred to the position that the State of North Dakota holds in the pay scales comparing the various positions in the Highway Department in relation to the rest of the nation, and they ranged between 29th and 36th, although our population places us in a far lower category than that.

"What we have done is to show the pay of our elected officials to be \$16,000 per year, except for the Governor, Attorney General, Superintendent of Public Instruction and Tax Commissioner. As of December 31, 1969, there were forty-four persons in our State Highway Department who at that time were then receiving more than \$16,000 per year.

"By our vote today, we apparently made clear the fact that there is a tremendous disadvantage to being an elected state official in the State of North Dakota. If you seek an equitable salary — and I believe the salary sets the quality of the men it will attract — you don't want to get into an elected position. You had better seek an appointive one."

ANNOUNCEMENT REGARDING RULING OF THE CHAIR REGARDING HOUSE BILL No. 1507

Speaker Bier: "On Friday, Rep. Hoffner requested a further ruling on the decision of the Chair that House Bill No. 1507 was lost for want of a two-thirds majority. The Chair referred the matter to the Attorney General's Office for an opinion, which we have received. The opinion states that the sections of the bill are so inter-related that portions of it cannot stand alone. Therefore, the decision of the Chair that House Bill No. 1507 was lost due to lack of a two-thirds vote is sustained.

Rep. Hoffner requested that his remarks in regard to House Bill No. 1507 be printed in the Journal.

Rep. Hoffner: "Mr. Speaker: I feel that the portion of House Bill No. 1507 would have set up a Department of Correction and could stand with the Probation and the Parole Office and the State Youth Authority, and would still be a meaningful and a worthwhile division. I would like at this time to refer back to House Bill No. 1299, and the decision made there. For the record, I feel that we are setting a precedent that could be followed by future legislative sessions.

"I feel that no bill can be amended except by unanimous consent of the House, or a Committee of the Whole, or by Committee action.

"I also feel that the question was divided after the vote was called, and according to the rules of the House, this is not proper. I feel that the total membership should have an opportunity to vote on the divided question. On the question of House Bill No. 1299, it is very possible that when the interest rate portions were taken out, the bill might only have received forty-eight votes, and it is also possible that it would have received seventy or eighty votes, but the total membership did not have a right to vote on the divid-

ed question, and I would like to have the record show that we have set a new precedent, and I don't know how it can be changed now, but I hope in the future, this will not be a precedent which is followed."

Rep. Strinden: "Mr. Speaker, I am one hundred percent in favor of performance auditing. Rep. If we are going to follow the lead of many states, we will put this part of our audit-

ing in the Legislative Branch of the government. I registered my vote against this resolution, not because I was opposed to performance auditing, but because I felt this function should be in the Legislative Branch."

Rep. Atkinson: "Mr. Speaker: I request that the following Attorney General's Opinion in regard to Senate Bill No. 2067 be printed in the Journal.

"OPINION
STATE OF NORTH DAKOTA
Helgi Johanneson

ATTORNEY GENERAL
Bismarck, North Dakota 58501
February 24, 1971

"The Honorable Myron H. Atkinson, Jr.
House of Representatives, District 32
State Capitol
Bismarck, North Dakota

"Dear Mr. Atkinson:

"We have received your inquiry as to the constitutionality of Senate Bill No. 2067.

"This bill relates to regulations governing initiative and referendum petitions.

"This bill among other things proposes to require the Secretary of State to mail questionnaires or contact a certain percentage of the signers to a petition to verify their signature. It also provides that all signatures on each copy of a petition to which a false affidavit is attached shall be invalid. It requires a printed, typed list of all persons who signed a petition to be attached to each affidavit.

"Only the Supreme Court of this State has authority to declare a law unconstitutional, and we can only render opinions thereon. We further realize that if this bill passes and is signed into law by the Governor, we may have to defend its constitutionality. However, in view of the fact that inquiry has been made, we would be less than candid if we do not give the legislature our views on the matter.

"Section 25 of the Constitution provides in part as follows:

****This section shall be self executing and all of its provisions treated as mandatory. Laws may be enacted to fa-

cilitate its operation, but no laws shall be enacted to hamper, restrict or impair the exercise of the rights herein reserved to the people.'

"In view of this language, we have grave doubts that Senate Bill 2067 could withstand a constitutional test as it seems to us it does more than facilitate the operation of Section 25 of our Constitution.

"We trust this will be of some assistance to you.

Sincerely yours,
Helgi Johanneson
Attorney General"

Rep. Streibel requested that the remarks of Rep. Lundene in regard to Senate Bill No. 2221 be printed in the Journal.

Rep. Lundene: "Mr. Speaker:

"This bill would require that public school superintendents, ophthalmologists, oculists, optometrists, nurses, clinics, hospital and social welfare workers report to the Superintendent of the School for the Blind all those, under the age of 21, who are blind or whose vision is impaired. It would also require that the public school superintendents, physicians, otologists, audiologists, nurses, clinics, hospitals and social welfare agencies report to the Superintendent of the School for the Deaf all those who have severe hearing problems. No one appeared in opposition or in support of the bill before our Committee on Social Welfare. Most of us had to admit that we had given little, or no, thought to how those unfortunate children might obtain the services made available to them by our state.

"At this point, I would call your attention to the name of the sponsor of this legislation, Senator Lowe. A few days ago we stood here in a minute of silent tribute to his memory as his funeral was in progress.

"It took the alert and compassionate mind of our departed Senator to focus our attention so that we might correct a matter that most of us took for granted. Might I add that in checking the records, this was the last legislative contribution made by our departed Senator during the brief time he spent with us in this 42nd Session of the North Dakota Legislature.

"I recognize that as legislators, we consider all legislation on its merits and vote accordingly. In this case, I hope I have convinced you that this legislation is not only desirable, but necessary, and when you support this bill you will support not only your Social Welfare Committee, who gave this unanimous approval, but you will also create a memorial to a benevolent fellow legislator."

She first came to the attention of the Easter Seal Society this past summer. Vee Ann was one of the youngsters that participated in the "day camp" held in Minot. It was here that she learned to swim and enjoy the water.

MESSAGES FROM THE GOVERNOR

(Veto Message on House Bill No. 1136)

STATE OF NORTH DAKOTA

Executive Office

Bismarck

February 27, 1971

The Honorable Howard F. Bier
 Speaker of the House
 North Dakota House of Representatives
 State Capitol
 Bismarck, North Dakota 58501

Dear Mr. Speaker:

House Bill 1136 was introduced in order to provide a method of replacing legislative Emergency Commission members in case of death or resignation. This is desirable legislation.

However, the bill unnecessarily changes the make-up of the membership on the Emergency Commission without any resulting benefit to the conduct of its affairs.

I, therefore, veto House Bill 1136 in hopes that it can be re-introduced to carry out the intent of the original legislation without changing the membership on the Commission.

Sincerely yours,
 WILLIAM L. GUY,
 Governor

WLG:jp

(Veto Message on House Bill No. 1081)

STATE OF NORTH DAKOTA

Executive Office

Bismarck

February 27, 1971

The Honorable Howard F. Bier
 Speaker of the House
 North Dakota House of Representatives
 State Capitol
 Bismarck, North Dakota 58501

Dear Mr. Speaker:

In any large business organization or in large government organization, such as we have at the state level, there needs to be a clearly defined flow of responsibility to the chief executive. With that clearly defined flow of responsibility must also be clearly defined authority. House Bill 1081 disrupts the flow of responsibility and the flow of authority to and from the office of the chief executive.

It removes from the State Auditing Board the director of Accounts and Purchases who represents the Governor. It then retains other state officials who may act on the State Auditing Board or designate others to act for them. The director of Accounts and Purchases is maintained as secretary of the Auditing Board and his clearly defined responsibility under present law then becomes vague and undefined in House Bill 1081.

House Bill 1081 was originally submitted to abolish the State Auditing Board functions except in appeals. Such a proposal would have had considerable merit. However, the original intent of the bill was entirely eliminated and the resulting product weakens rather than strengthens the executive branch of government.

Therefore, I veto House Bill 1081.

Sincerely yours,
 WILLIAM L. GUY,
 Governor

WLG:jp

Rep. Streibel requested the unanimous consent of the House to expunge from the record the action taken on House Bills Nos. 1136 and 1081, vetoed by the Governor, and such request was granted.

Rep. Streibel moved that the House reconsider House Bill No. 1081, which the Governor has vetoed, which motion prevailed.

February 27, 1971

To the Members
of the House of Representatives
State of North Dakota
Capitol Building, Bismarck, N. D.

Greetings,

On behalf of myself and my family I should like to express thanks and appreciation for the many expressions of concern and sympathy from House members during the illness and after the death of Senator Kenneth C. Lowe. It has sustained and comforted us greatly to know that so many have shared our anxiety and grief.

Ken was devoted to the legislature and his service in the House and afterwards in the Senate were a source of pride and satisfaction to him from the beginning to the end. He prized highly the many friendships that developed from his association with men and women from all parts of the state. As all of you have come to realize there is a special fellowship between members of the legislative bodies that is unlike any other fraternity. Serving together here cements a bond that remains intact throughout the years. That he had to miss this session was the keenest disappointment to Ken and I am glad that he was able to make the short stay here early in January. It meant so much.

I expect to be at the capitol for the memorial service on Wednesday and hope to meet many of you personally at that time. With all good wishes and infinite gratitude, I remain

Sincerely,
Rosamond C. Lowe
Mrs. Kenneth C. Lowe
William, James and John Lowe
and Mrs. Patricia Pung

POINT OF PERSONAL PRIVILEGE

Rep. Stone: "I rise on a point of personal privilege and request that my remarks be printed in the Journal.

"In contemplating the Governor's vetoes of House Bills Nos. 1081 and 1136, two important points came to mind.

"First, it is accepted sound fiscal procedure for a finance officer to be audited by another auditor or an auditing board, of which he is not a member.

"Second, that by these vetoes, he has barred the State Treasurer, a woman, from serving on these boards.

"I hope that the Governor will consider both of these important points before he vetoes another bill."

SECOND READING OF A SENATE CONCURRENT RESOLUTION

Senate Concurrent Resolution No. 4019. A Concurrent Resolution urging the appropriate federal agencies to undertake a feasibility study relative to the development and improvement of the Missouri River for the purpose of utilizing that waterway for barge traffic and other navigational purposes.

Was read the second time.

The question being on the final adoption of the resolution. So the Senate Concurrent Resolution was declared adopted on a voice vote.

Rep. Reimers requested that his remarks regarding Senate Concurrent Resolution No. 4019 be printed in the Journal.

Rep. Reimers:

"Mr. Speaker: There appears to be no question that the marketing system in the upper great plains as it particularly applies to agricultural products is in serious need for study and evaluation. In North Dakota, this really boils down to a close look at our distribution system because the life of the agricultural marketing plant in our state is highly dependent upon a responsible transportation network. This examination can take one or both of two directions (1) to examine ways to improve the existing system and (2) to take a hard look at alternatives to the existing system (water transportation being one of those alternative systems).

"Just how dependent is our major industry — agriculture — upon transportation? Research shows that in 1969 railroads and commercial trucks hauled slightly more than 11 million tons of grains, livestock, milk and cream, potatoes, and sugar beets. Farmers re-

ceived about \$630 million from the market (not including government payments of several kinds) for selling it and railroads and motor carriers received slightly more than \$90 million to haul it. In other words, about 13% of the value of the North Dakota product delivered someplace else is composed of a transportation cost.

"We are primarily an exporting state and are **highly** dependent upon the transportation industry to survive and grow. It seems like survival and growth of North Dakota would be of paramount interest to the transportation industry and particularly the railroads that serve us. Obviously, our growth eventually becomes their growth through increased business.

"Let's briefly examine the status of this major industry of ours — agriculture — with regards to railroads. First we can pretty much ignore the livestock industry as far as railroads are concerned. Trucks haul about 96 percent of all livestock to market.

"Let's look at our major product — crops. Income from marketing crops 1965 through 1969 increased from \$438 million to \$476 million (plus \$38 million) an increase of 8.6 percent. In the meantime the cost of living was increasing by 17.8 percent (**twice as fast as income** from North Dakota's income from crops), so that North Dakota farmers had less purchasing power in 1969 than in 1965!

"If that is not convincing evidence of the trouble in agriculture — how about this? From 1963 through 1970 the rail transportation costs per acre for barley increased about 40 percent while the growing revenue per acre declined slightly more than eight percent. The transportation costs per acre for wheat 1963 through 1970 increased about 33 percent while revenue per acre (including certificates) was increasing a little less than nine percent. Most of us are familiar with the fact that railroads had rate increases amounting to about 30 plus percent since 1960. Obviously, railroads fared much better in the economy than farmers did!

"In testimony for rate increases, they stated "Some of the most hard pressed carriers in the west are heavily dependent upon revenue from grain and grain products. This includes the Milwaukee Road, the Rock Island, and the Northwestern." In 1969 only 7.8 percent of Western Rail Carriers gross revenues were from hauling grains. How can they be so 'heavily dependent' on revenue from grain and grain products? Further, the rail testimony on grain and grain products never mentions the problems of the railroads that serve North Dakota. How can they (the BN and the Soo) use the troubles of the Milwaukee, Northwestern, and Rock Island as an excuse for raising their rates on grain?

"Let's ask another question. What are North Dakota railroads doing for the North Dakota Grain farmer? The first obvious question is 'Have they reduced any rates?' The answer is no! Why not? Because they don't have to! Why? Because there isn't sufficient competition to merit rate reductions! In many other parts of the country rates on grain are reduced significantly when trucks and barges demonstrate an effective ability to take traffic away from railroads. Railroads have historically reduced rates in the face of barge competition and truck competition. The Southern railroad reduced rates drastically in the face of both kinds of competition several years ago by simply introducing more efficiency into their operations (the high capacity covered hopper car — known as 'Big John' — was introduced by the Southern as a basis for reducing rates). The Illinois Central reduced rates substantially by simply increasing the utilization of the hopper car (turning it around faster or loading it more times per year) through the unit train concept. Other railroads have since followed suit. Railroads serving the lower great plains states have **consistently offered lower rates for export of wheat** than our railroads have.

"Research recently completed at Nebraska shows that rail rates on wheat from North Dakota **contributed a greater margin of return to**

railroad overhead costs than wheat rates from any other wheat producing state. In other words, rates paid by North Dakota shippers provide more net profit for North Dakota railroads than do the rates paid by shippers from other states.

"In the face of this, have the railroads solved the boxcar shortage problem? That question hardly needs answering. We have all seen rail service deteriorate and the boxcar shortage story is and has been a perennial and increasing problem for many years. As early as 1907 the ICC held extensive hearings on freight car shortages. One thing we know for certain is that the proportion of the total capacity of the rail car fleet available for grain hauling has declined from 47 percent in 1902 to about 25 percent today. Obviously the decision over the years to reduce the grain carrying capacity of the fleet was a decision made by railroad management with the help of the ICC, not by grain farmers. Furthermore, the fact that boxcars are loaded fewer times per year now than in 1956 which increases the cost of handling the car is not the fault of grain farmers (more than likely the result of providing less and less available service. And yet the ICC concluded in a study it made of the boxcar situation between January 1968 and January 1969 that for every car ordered by shippers in the midwest there were three boxcars and covered hopper cars available someplace in the midwest. There really wasn't a shortage, but rather there was gross maldistribution! Further, they stated, "even in regions where the supplying of a type of car to fill shippers requests involved the greatest delay, availability in general was at least 'twice the current orders.'

"In other words, there really wasn't a shortage, but there was a great deal of 'bad management.' And yet, rail testimony on the need for increased rail rates on grain in 1970 said '... railroads must improve their equipment supply to handle the traffic presently being offered.' I submit to you, that the interstate commerce commission is a tool of the railroads, and not of the people.

"I'm not sure the railroads need the additional capital in any case. There is evidence that in several cases, stockholders equity has been increasing while operating reserves are being depleted. The testimony of one opponent to the recent rail rate increase suggested that there appears good evidence that many railroads were plowing retained earnings into stockholders dividends instead of into maintenance and technology. The request for rate increases then were merely to ask shippers to supply low — zero cost capital — for railroad investment purposes through higher freight rates. It's an interesting argument!

"Have we earned this treatment? Hardly! The railroads as a whole received about 182 million acres in land grants from federal and state government to help defray the costs of construction. The Northern Pacific Railway (now part of the BN) received the largest grant — 41 million acres.

"In several cases, the sale of this land to settlers, etc., did not cover the cost of construction. But, however, it has been estimated that the cost of construction of Northern Pacific was about \$67 million. Receipt from sale of lands up to December 31, 1927, by the NP amounted to \$138 million or about 2.7 times what it cost to build the railroad and then they didn't sell all the land!

"How do we treat them taxwise? In terms of property taxes, railroads in North Dakota rank about 40th in the nation relative to the amount paid per mile of railroad in the state. Surely that cannot be considered ill treatment! A study made at North Dakota State University by the transportation institute shows that in 16 north-central North Dakota counties, the total taxable value of all rail branch lines in 1968 was 1.64 percent of the total taxable value of all property. In no case are railroads overburdened with a heavy tax load for support of local services.

"What of the future? Well, there are some population experts

who are saying we may be 100 million more people in this country by the year 2000. This of course, will mean great pressures on the farmers of the country to produce more food and the transportation systems to get it to the urban centers they will be living in. There is no doubt that the farmers of North Dakota are capable of producing a great deal more food than we are now doing. But are the railroads and trucks capable of hauling more? It appears that railroads are having a difficult time managing their problems in 1970. Are they capable of handling additional pressure? At this stage it doesn't seem likely. Although motor carriers have so far done a commendable job in taking up the slack, it is doubtful that they can absorb North Dakota's share of the food production of 100 million more people. We must look to alternatives such as water transportation if we are going to continue as a major supplier of high quality food products."

Rev. McCoy: "It is an honor and a privilege for me to be here. I was looking on here now and see how you do the voting now. There are a few familiar faces here. I remember so many former members of the House, and members of the clergy I invited here when I could not be here myself. In those days we visualized how it would be. That was back in '35, when this was a pretty new place, there were great issues facing them as a state, nation and world, and we were then looking forward to this day, and we had faith in those men and women who made up the membership of the House and Senate then. We have faith today and

believe that in our approach or way of life you can well serve, and will accept the challenge of problems that must be solved and settled, and you will do this the best way you know how, and will reach out to the unseen and unknown. You will be able to accomplish these through faith, recognizing the same power that directed those before in the ways of God.

"I appreciate being able to come here. It is difficult for me not to preach when I have such a number before me. And, it is hard for me not to take up a collection. I do appreciate being given this honor, and I was pleased when Cecil Crandell called me and asked me to appear.

"'Backward, turn backward, oh time in thy flight' — with apologies to the poet. Backward, turn backward all times of the day, when we faced issues that were difficult, as you know, when the same God guided us as He does today, and I believe we can become more useful in His work as we realize we are dependent upon Him as we serve those whom we represent.

"God bless you, and thank you."

POINT OF PERSONAL PRIVILEGE

Rep. Dornacker: "Mr. Speaker: I rise on a point of personal priv-
ilege and request that my remarks be printed in the Journal.

"A recent release from the Tax Department stated that a quarter
million taxpayers were losers by the Legislature not passing the
postage card tax return law.

"I feel the people are entitled to more information. In the first

place, the post card return was only an image — you had to fill out both sides just as you do on the present form. The present form is one sheet with the second sheet as your copy. Very few of you would have mailed the post card unless you put it into a letter or you would have revealed your tax liability to postal people. I don't think the people are as sorry as the Tax Department for failure of their bill. You know what you have now. We killed the bill because it changed the amount you would have to pay by at least 50% of the taxpayers. These bills took away your right to use Federal income tax, hospital bills, joint returns where husband and wife both have to work, dividends where corporation paid state income tax along with pay where you serve in the Armed Forces as a deduction. I think the Legislature did our people a great favor."

POINT OF PERSONAL PRIVILEGE

Rep. Weber requested his remarks be printed in the Journal regarding a point of personal privilege.

Rep. Weber: "Mr. Speaker:

"When Legislators are confronted with a tough issue it is often too easy to postpone decisions. Yesterday, after this legislature killed both plans for simplifying our income tax laws, a representative of this House graciously stood up and called for a study of our income taxes during the next two years.

"Distortions, inaccuracies and general lack of understanding, often kill good legislation, but seldom have these elements been combined so effectively on one issue.

"A statement read into the House Journal yesterday was full of distortions and will apparently be pointed to in the months ahead by a number of legislators as justification for voting against this legislation.

"A complete discussion of the technical parts of the income tax proposal would be a waste of time at this point, however, I think several comments about the provisions of these bills are in order:

- 1) The right to use federal income tax paid was being abolished under the simplified income tax plan but the rate in all tax brackets was being reduced accordingly.
- 2) There is not now and has never been adequate justification for taxing a man who earns \$10,000.00 to pay over twice as much as a family who has the same \$10,000 income but is able to split that income between husband and wife.
- 3) The domestic dividends exemptions have outlived their usefulness as an incentive for North Dakota economic development. We now have a law in North Dakota to grant a complete five year exemption, upon application, for all property taxes and income taxes for a new business in this state.

"The average North Dakotan wants simple, fair tax laws which do not hide exemptions, deductions, exclusions, and benefits that accrue to only a few privileged citizens.

"I feel I must comment on the call for another study of our income taxes. Just three months ago the Legislative Council received the final report of a study of North Dakota's income taxes conducted by Dr. Libera and the Bureau of Business and Economic Research at the University of North Dakota. This study cost North Dakotans over \$25,000.

"Is the majority of this body willing to waste thousands of dollars of taxpayer's money to conduct another study? A thousand studies will not solve the conscience of those who can't make decisions on tough issues.

"North Dakotans sent us to Bismarck to make decisions, not to postpone them."

POINT OF PERSONAL PRIVILEGE

Rep. Kingsbury moved that the remarks of Rep. Hilleboe in regard to the Governor's veto of House Bill No. 1081 be printed in the Journal, which motion prevailed.

Rep. Hilleboe: "Mr. Speaker:

"In the paper today, there was a statement made by Ralph Dewing alleging that a change in the auditing board was political juggling. This auditing board change bill came out of my committee, and I

submit we did long and hard work on it. It was later vetoed by the Governor. We had two sub-committees out with both Republicans and Democrats on the sub-committees, the committee was accused of having put the State Treasurer on the Board for political purposes. The State Treasurer was asked to appear before the Committee. She stated she did not want to be on the auditing board. She did not want to be on the auditing board because it was to be an appeal board. This same committee then put the same State Treasurer, regardless of politics, on the emergency commission, and removed a present member who is a Republican, and the Governor vetoed that.

"Now Mr. Dewing has stated this is political juggling. He did this on his own. My committee consists of Republicans and Democrats. The floor of this House consists of Republicans and Democrats. The vote was 93 ayes, 0 nays, and 5 absent and not voting.

"He later criticized Representative Stone on a question of semantics on the word Auditing. The auditing board may be a misnomer. What Representative Stone undoubtedly meant to say was that the Director of Accounts and Purchases originally approves the voucher and has the voucher submitted to an auditing board of which he is a member, so he has an opportunity to audit his own original approval of the vouchers.

"I submit to you that a State Employee who makes a charge of political juggling or chicanery is very much out of order. He announced this to the paper. He as much as accused this committee and its members by some devious means of replacing him because of party affiliation. This was not the case. The Democrat members of the committee agreed. The Democrat members of this House agreed.

"All of the time Mr. Dewing was consulted by the sub-committee, and he had no major objections. It is stated in the minutes of the sub-committee he did not wish to appear, and he stated it was not necessary.

"I object to a State Employee who uses some format to accuse a standing committee of political juggling. This replacement was suggested strictly on the position. Mr. Dewing is a competent man. His office and staff are competent. We did not replace him because of his political affiliation. We replaced him with an elected official to review vouchers submitted through his office."

House Concurrent Resolution No. 3063 has been referred to the Legislative Council Resolutions Committee, and I am sure the committee, however it is made up, will be seeking advice from them, and we all know there are going to have to be some changes made in this method of distribution simply because the present plan has too many built-in inequities."

Rep. Dotzenrod: "Mr. Speaker:

"Yesterday we had a discussion of the merits of Senate Bill No. 2180. Today, I would like to add a few comments on why this bill is needed.

"We sit here in the Assembly in the latter half of the 20th Century and can look back on hardly more than a hundred years since our land was virgin sod — a very brief period of history. This land, this earth that sustains our civilization and on which we are but temporary custodians and beneficiaries, is the product of the vast ages in time. We have a duty and obligation during our brief tenancy to pass on to future generations the life sustaining crust of this earth in at least as good condition as we found it. But, what is happening in North Dakota? At the present time we have surrendered 500,000 acres of the land to leafy spurge alone. We are continuing to surrender 5,000 acres a year to these weeds. This

must be stopped or we will fail ourselves and fail those who follow us.

"This bill, the work of many dedicated and forward-looking men and organizations, can set up the machinery for a unified effort through control and cooperation, working with all interested departments and services, to reverse this trend. We are in a war on weeds, and we should face this war as we should face any war, with decisive action. War is not the place for the timid and timorous souls that resist change, and see dragons in every shadow.

"Our present weed laws are a hodge-podge of amendments and unworkable statutes. This bill can work because it provides the mechanics to make it work.

"I am reminded of an article I read recently about a writer visiting the late President Eisenhower at his Gettysburg Farm. The writer said, 'Mr. Eisenhower, would you tell me why after all your achievements you chose to settle down on this farm?' Mr. Eisenhower replied, 'It's true I have had many honors in my lifetime. Having served as Supreme Commander of the Allied Forces we won one of the most decisive wars in history; then being honored to serve as President of this great country. But, you know, all through my life I had always wanted the satisfaction of some day owning a piece of land, and when I die to know that I have left it in better shape than I found it!'

"Mr. Speaker, and members of this Assembly, this bill can be a step in that direction. This is the kind of motivation we need for the farmers of North Dakota from the members of this Assembly.

"There is not a farm organization in the state which has opposed this bill.

"If we fail to pass this bill, we will have let down ourselves, the farm organizations of this state, and worst of all, the generations of the future."

Rep. Streibel moved that the absent members be excused, which motion prevailed.

Rep. Streibel moved that the House stand adjourned, which motion prevailed.

POINT OF PERSONAL PRIVILEGE

Rep. Dornacker: "Mr. Speaker:

"We in this Legislative Body have the privilege of serving with five queens.

"We have Queen Corliss Mushik who serves on the Social Welfare Committee very ably. While she might appear sometimes a little shy, she really is a dedicated and charming person.

"We have Queen Fern Lee, who too is a member of Social Welfare. Very little gets by Fern and her eagle eye, not even her husband, Norman. She too, is a dedicated Legislator and an asset to our assembly.

"We have Queen Grace Stone. Grace came here last session a little timid, but it did not take her long to rise on issues dear to her heart. Grace is also an able Legislator, a fine lady. We all appreciate her.

"We have Queen Aloha. This queen is also an able Legislator. While she lost the Battle of Abortion, she won the War of Humanities.

"We now come to our Senior Queen, Representative Haugland. She has been a guiding force and one of much influence in the Legislative Body for many sessions.

"Today in our final meeting of the Committee on Social Welfare, we presented Miss Haugland, our chairman, with a plaque with our names inscribed as a means of showing our appreciation. I would like to have printed in the Journal our remarks at this presentation so you, like us, can have a part in honoring Miss Haugland, our Senior Queen of the 42nd Legislative Assembly.

"Miss Brynhild Haugland

Chairman of Social Welfare Committee:

"I have served many years along with you in the North Dakota Legislature. I have always had great respect and admiration for you. I have enjoyed your friendship, and have profited from your advice and judgment.

"The few times we have not pushed the same button have been on minor issues.

"In presenting this plaque to you, our Chairman, it provides me with much pleasure. I would like to say these words from myself and our committee.

"We present this plaque in appreciation of your guidance and friendship. We likewise present this to you as a great woman, who not only cares for all of us, but likewise the people of our State. Especially for those who are the unfortunate and need a friend. May this token of friendship always remind you of us all!"

"A concurrent resolution urging Congress to direct the United States Army Corps of Engineers to construct and maintain at Federal expense additional bank stabilization works on the Missouri River in North Dakota.

WHEREAS, as a part of the Missouri River Basin Development Project, dams and large reservoirs have been constructed by the Federal Government which occupy all the reaches of the Missouri River extending from Gavins Point Dam in South Dakota to Williston, North Dakota, with the lone exception of a seventy-mile stretch between the Oahe and Garrison Reservoirs in North Dakota; and

WHEREAS, the remaining channel between the Oahe Reservoir and Garrison Dam no longer performs its function as a natural river but is now acting as a regulated channel for the conveyance of water needed to meet the requirements of flood control, irrigation, navigation, power generation, municipal and industrial water supplies, pollution control, recreation, and wildlife purposes; and

WHEREAS, the stored water in the Garrison reservoir is released in such manner as to accommodate the downstream beneficiaries as evidenced by the following facts:

1. The water is virtually silt-free when it enters the channel and has tremendous ability to pick up its former bedload in the form of silt;
2. The releases are fluctuated to accommodate the hydro-electric generation demand with variations from four thousand to thirty-two thousand cubic feet per second, thereby causing surging conditions which aggravate any existing erosion problem and cause an annual loss of approximately six hundred forty acres of valuable agricultural bottom lands; and

WHEREAS, a portion of this threatened land is now being irrigated or has an irrigation potential which is of great economic value to the adjacent localities and to the State of North Dakota; and

WHEREAS, Federal lands, public parks, and historic sites of national prominence are a part of the area affected; and

WHEREAS, industries that desire to locate adjacent to the river are being forced to seek more distant sites because of the uncertainty of maintaining their plants at a permanent location; and

WHEREAS, some bank stabilization works already constructed by the Federal Government are effectively protecting the areas in which they are located and attest to the need for similar works at other locations;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Forty-second Legislative Assembly of the State of North Dakota recommends and respectfully urges the Congress to direct and authorize the United States Army Corps of Engineers to construct and maintain additional structures needed to stabilize the banks of the aforesaid segment of the Missouri River on an emergency basis; and

BE IT FURTHER RESOLVED, that copies of this resolution be transmitted by the Secretary of State to the members of the North Dakota congressional delegation; Chief of Engineers, Department of the Army, Washington, D. C.; Division Engineer, Missouri River Division, Corps of Engineers, Omaha, Nebraska; District Engineer, Corps of Engineers, Omaha, Nebraska; and Area Engineer, Corps of Engineers, Riverdale, North Dakota."

MESSAGE FROM THE GOVERNOR
STATE OF NORTH DAKOTA
EXECUTIVE OFFICE
Bismarck

March 12, 1971

The Honorable Howard F. Bier
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota

Dear Mr. Speaker:

House Bill 1299 seeks to bring uniformity between our state and some other states in the application of consumer credit rates and practices. Generally speaking, it is advantageous for states to adopt uniform codes so that the complexity of the burgeoning volume of law can be minimized.

We must voice our gratitude to the National Conference of Commissioners on Uniform State Laws for the substantial progress they are making to strengthen state government in the federal system by strengthening, through uniformity, the laws of the various states.

In my Message to the Legislature, I asked you to give serious consideration to the Uniform Consumer Credit Code. I recommended to its sponsors that it be introduced in this session, but with an adjustment in the Code's interest rates to existing North Dakota legal interest rate ceilings. There was an understandable reluctance to tamper with the Code, for in so doing its major feature, that of uniformity, would be breached.

House Bill 1299 is easily the most discussed piece of legislation in this session. It has generated by far the most communications to my office. The overwhelming reaction as reflected by communications to my office has been in opposition to the Uniform Consumer Credit Code. I do not believe all of the opposition is justified, for there seems to be misunderstanding and suspicion of what the Code would do.

There is a defensible point of view that the Code should be enacted and given a trial period to see if it would have beneficial application in North Dakota.

I called Governor Calvin Rampton of Utah to have his appraisal of the operation of the Uniform Consumer Credit Code in that state these past two years. Governor Rampton reported that the Code was implemented smoothly and that he knew of no problems or adverse reactions in its use.

The Code has been defended on the one hand and challenged on the other hand by many deep thinking individuals whose judgment I respect.

It has been very difficult to arrive at a decision in this legislation. I am, however, mindful that the North Dakota Attorney General's Office has advised the Speaker of the House that there is a strong legal possibility that the present North Dakota Small Loans Act was not repealed by the passage of House Bill 1299 because the Small Loans Act was enacted in 1960 by a vote of the people and would require a two-thirds vote of the Legislature to amend or repeal. A two-thirds vote was not obtained on House Bill 1299.

This leaves grave confusion as to the application of the interest rate section of House Bill 1299 as it applies to small loans and as it conflicts with the present North Dakota Small Loans Act. The interest rate section appears to be an all important part of House Bill 1299 and was of sufficient importance to the entire bill that its sponsors refused to amend it.

If House Bill 1299 had been in effect two years ago instead of the North Dakota Small Loans Act, it probably would have had a significant impact in higher interest rates for people in an income bracket who can least afford higher interest rates.

In the last fiscal year, there were 25,408 small loans made in North Dakota, for a total of \$15,725,212.66. The dollar interest cost of these loans in that year was \$2,358,786.88. Had the Uniform Consumer Credit Code been in effect in that year and had interest rates been at the ceiling as is usual under this Code, the interest rates paid by low income borrowers would have been \$2,692,168.24. This would have been an increase in interest costs for that year to low income borrowers of \$333,381.36.

It is obvious to me that the interest rates on small loans in the Uniform Consumer Credit Code, if implemented by legal opinion or decision, would work a substantial hardship on small loan borrowers, and while possibly justified in other areas, they do not appear to be justified in North Dakota.

But of even more importance in terms of total dollars involved is the increase in the maximum interest rates permissible on revolving charge accounts from 1½% per month under present North Dakota law to 2% per month under the Uniform Consumer Credit Code.

There is no source to which we can turn in this state or in the nation to accurately judge the volume of revolving charge accounts or the cost of revolving charge account interest payments, but all indications are that the amount of money is very, very substantial.

Since thousands of retailers would be making the interest rate decision on revolving charge accounts under the Uniform Consumer Credit Code, it would be fair to assume that many, if not all, would move their interest charges to the maximum permissible. There are indications that many major retailers already regard the 1½% per month ceiling on revolving charge accounts as a lucrative source of income which has caused them to encourage wherever possible the use of deferred payment rather than cash purchase. Revolving charge account interest rates under the Code could be exorbitant to thousands of North Dakotans if allowed to rise to the 2% per month ceiling.

Aside from interest rates, there may be some very defensible provisions of House Bill 1299 which have to do with consumer protection.

However, North Dakota is not as deficient in consumer protection as are some other states.

I have been informed that the National Conference of Commissioners on Uniform State Laws will submit a Uniform Consumer Protection Code to state legislatures within a year or two. It would appear to me that it would be advisable to wait until such consumer protection legislation is available as a companion measure to consider with the Uniform Consumer Credit Code.

I believe this state would benefit by observing the experiences in the next two years of such states as Utah and Indiana as they conduct credit business under the UCCC.

I, therefore, believe it is in the best interest of the public not to approve this legislation. Therefore, I veto House Bill 1299.

Sincerely yours,
WILLIAM L. GUY
Governor

MOTION

Rep. Streibel moved that the House reconsider House Bill No. 1299, which the Governor has vetoed, which motion prevailed.

SECTION 2. LEGISLATIVE FINDING.) The legislature was cognizant and has taken into consideration the methods and procedures employed by the census bureau in taking the census and the creation of enumeration districts, which do not necessarily coincide with the geographic boundaries of political subdivisions such as townships and smaller cities. The legislature in numerous instances was required to interpolate and intercalate the population in rural areas, including townships and small cities, on information available. It is also known that many persons maintained a dual residence, one for voting purposes and one where they physically resided. It has been common practice for many persons (farmers) upon reaching semiretirement age or upon retiring, to locate in a city, but retain their residence on the farm. However, for census purposes, they were listed in the city's population. Because of these items, mathematical exactness or precision in population is impossible, and because of the cost and effort to produce the necessary information to accomplish this, it is impractical.

SECTION 3. NUMBERING LEGISLATIVE DISTRICTS — CLASSES OF SENATORS TO PROVIDE STAGGERED TERMS.) Senators shall be divided into two classes; those elected in legislative districts designated by even numbers shall constitute one class, and those elected in legislative districts designated by odd numbers shall constitute the other class. The senators of one class elected in the year 1972 shall hold their office for two years, those of the other class shall hold their office four years, and the determination of which class shall be elected for four years and which class shall be elected for two years shall be by lot. The president of the senate shall perform the lot in the presence of the majority and minority floor leaders of the senate and shall certify in writing the results of such lot to the secretary of state within thirty days after the effective date of this Act.

SECTION 4. LEGISLATIVE SUBDISTRICTING — METHODS.) Upon a petition accompanied by a map showing the boundaries of the proposed subdistricts and accompanied by a written description thereof filed with the secretary of state containing the signatures of at least that number of qualified electors of the legislative district equal to ten percent of the electors of the legislative district that voted for the office of governor at the most recent general election at which such office was voted upon, asking that such legislative district be subdistricted into single-member representative districts or, in legislative districts with more than one senator, to be subdistricted into single-member senatorial districts, or both, the secretary of state shall determine and count the number of signatures and if such petitions contain the required number of signatures, such petition shall be submitted to the qualified electors of the district for their approval or rejection at the next special, primary, or general election held in such district.

SECTION 5. ELECTION ON PETITION — BALLOT FORM — VOTE REQUIRED.) The ballots used for submitting the question of subdistricting legislative districts in all cases wherein an election is required shall be in substantially the following form:

“Shall the (number of legislative district) legislative district be subdivided into (senatorial or representative districts or both) described as follows:
(here insert description of subdistrict as described in the petition)

YES
NO

If there shall be more than one petition for subdistricting of the same legislative district, each different description of the subdistricts shall be placed upon such ballot and the ballot shall be marked "VOTE FOR ONE ONLY".

If one of the subdistricting descriptions as presented on the ballot shall receive a majority of the legal votes cast at such election, the secretary of state shall issue a proclamation stating such legislative district to be subdistricted pursuant to such description. Thereafter, senators or representatives shall reside in and be elected from such subdistricts as set forth in the approved petition for subdistricting. The question of subdistricting a legislative district shall not be voted upon more than once every two years.

SECTION 6. REPEAL.) Section 1 of Chapter 338 of the North Dakota Session Laws of 1965 is hereby repealed."

POINT OF PERSONAL PRIVILEGE

Rep. Dornacker moved that the following communications be printed in the Journal, which motion prevailed.

A RESOLUTION

WHEREAS, for the past six years, in order to move toward uniformity and equity in real property assessment, the State Board of Equalization has arbitrarily established 25% level of assessment on real property as a goal; and

WHEREAS, the State Board of Equalization on May 5, 1970, reaffirmed the 25% of real and true value as the average state assessment goal on all classifications of property; and

WHEREAS, the new 1970 sales ratio study published in December 1970 shows that the inflationary pressures in our economy have driven the true and full value of property upward and as a result the statewide average level of assessment on real property has dropped to 21.1%; and

WHEREAS, the State Board of Equalization recognizes that because of certain conditions surrounding local political subdivision mill levy limitations and because some local officials do not voluntarily lower mill levies when the tax base is broadened or assessed valuations are raised, and that general increases in the levels of real property assessment to reach the goal of a 25% level of assessment would automatically increase taxes; and

WHEREAS, the objective of the State Board of Equalization is to equalize levels of assessments and not to increase taxes;

NOW, THEREFORE, BE IT RESOLVED that the State Board of Equalization will equalize the line property levels of assessment in the various counties to the state average of approximately 21%, and, the State Board of Equalization in considering the increases or decreases in levels of assessment necessary to reach the average, as a general guideline will accept a 2% point difference above and below the state average as a reasonable tolerance.

OPINION

STATE OF NORTH DAKOTA

HELGI JOHANNESON

Attorney General

Bismarck, North Dakota 58501

March 4, 1971

The Honorable Earl H. Redlin
State Senator, 28th District
State Capitol
Bismarck, North Dakota

Dear Senator Redlin:

This is in reply to your letter of March 3, 1971, relative to House Bill 1001 as amended by the House on pages 545 through 547 of the House Journal. You note the several pieces of legislation, both bills and resolutions, which have been introduced into the 42nd Legislative Assembly affecting the status of the institution of higher education at Ellendale. You note the effect of the legislation presently contained in House Bill 1001, as amended by the House, would require that UND — Ellendale Branch cease operation as an educa-

tional facility and that expenditures at the institution, for the period of July 1, 1971, to June 30, 1973, be limited to \$102,500 — consisting of an estimated income of \$70,000 and general fund monies of \$32,500 — with the funds to be used only for routine maintenance and custodial care. You then state the following question:

“Can the Forty-second Legislative Assembly, or for that matter, any legislative assembly, disregard the mandate of the North Dakota Constitution, in this case, section 216, by refusing to appropriate monies for the operation of a constitutionally established institution? Or, to put it another way, does not the existence of the institution in compliance with section 216 imply that the Legislative Assembly must appropriate funds for its operation in the manner and for the purpose for which it was established, specifically, higher education?”

Section 216 of the North Dakota Constitution provides in part: “The following named public institutions are hereby permanently located as hereinafter provided, each to have so much of the remaining grant of one hundred seventy thousand acres of land made by the United States for ‘other educational and charitable institutions’ as is allocated by law, namely:

Third: An industrial school and school for manual training or such other educational or charitable institution as the legislative assembly may provide at the town of Ellendale, in the county of Dickey, with a grant of forty thousand acres.

Seventh: (a) a state normal school at the city of Dickinson, the county of Stark. (b) a state hospital for the insane at such place within this state as shall be selected by the legislative assembly, provided, that no other institution of a character similar to any one of those located by this article shall be established or maintained without a revision of this constitution. (As amended by Articles 21 and 22 of the amendments to the constitution, both approved and ratified on November 7, 1916 S.L. 1913, cc. 96 and 99; S.L. 1915, cc. 84 and 85; S.L. 1917, pp. 407 and 408.)”

We note, in the first instance, that the institution at Ellendale need not under the Constitution necessarily be an institution of higher education. The above quoted constitutional provision specifies that it will be an industrial school and school for manual training or such other educational or charitable institution as the Legislative Assembly may provide. Thus the Legislature has permitted the institution to be made a branch of the University of North Dakota. See Section 15-11-02 of the North Dakota Century Code which permits the State Board of Higher Education to unite with the University of North Dakota, any college in the state and make such college a branch thereof. The Legislature could, if it so desired, prescribe that some other educational or charitable institution be situated at Ellendale. In reply to that portion of your question which indicates that the Legislature must appropriate money for the operation of an institution of higher education at Ellendale, it is our opinion that the Legislature could prescribe some other educational or charitable institution for that location without violating the provisions of the Constitution.

However, the Legislature has not, to our knowledge, prescribed any institution other than an institution of higher education for Ellendale. Therefore, we must consider that portion of your question which refers to the obligation of the Legislature to appropriate

moneys for the institution established at Ellendale, i.e., a branch of the University of North Dakota.

With respect to this question, we have no judicial precedents in this state which are directly in point and to which we can look for guidance. To our knowledge this is, insofar as the legal question is concerned, a question of first impression.

As to the proposition whether or not there is a mandate by the Constitution, Section 21 states that the provisions of this Constitution are mandatory and prohibitory unless by express words they are declared to be otherwise. This taken in itself indicates that the Constitution probably did contain a mandate to the Legislature to carry out the provisions of Section 216 of the North Dakota Constitution. Even though this is a mandate or can be considered as a mandate, Section 216 is not a self-executing provision of the Constitution and requires implementation by the Legislature. We must recognize a distinction between a self-executing provision of the Constitution and a provision which requires implementation by the Legislature. As an example, the North Dakota Supreme Court with reference to a provision contained in Section 25 of the North Dakota Constitution, relating to the publishing of the publicity pamphlet said that this provision was self-executing and needed no implementation by the Legislature. In *State ex rel. Byrne vs. Baker*, 65 ND 190, 262 NW 183, it was specifically recognized that Section 25 contained the following provision: "This section shall be self-executing and all of its provisions treated as mandatory." We do not have a similar provision in Section 216 of the North Dakota Constitution.

It might be argued with some success that the legislators are bound to follow the Constitution and have taken an oath to support the Constitution, but the ultimate question is what body in our three branches of government can compel the Legislature to act in a certain manner? We are satisfied that the courts may not issue a mandate to the Legislature because both are separate co-equal, coordinated branches of government. Therefore, even if the argument could be validly made that the Legislature should follow the dictates of the Constitution, there are no means available of enforcing the taking of certain action as distinguished from declaring action taken by the Legislature as being invalid or unconstitutional. It would appear in the final analysis that there is no way of compelling the Legislature to act.

We note that the constitutional provision above quoted does not refer to appropriations made by the Legislature. It provides that certain institutions, among them the one at Ellendale, are permanently located at the places named and grants to such institution a specified amount of grant lands for their support. Thus, it could be argued that the constitution only requires the location of a specific institution at the sites named and does not necessarily require that such institutions be operated or that moneys be appropriated for the actual operation of such institutions. While such a conclusion may be derived from a literal reading of the constitutional provision, we believe that such result would be impractical and therefore favor the position that the constitutional provision indicated that an operating institution would be situated at the sites named. One such institution had actually become operative.

Whether such a conclusion can be sustained legally may be subject to question. While we believe it is the most practical construction to give the constitutional provision, we must note there is authority for a contrary view. The Supreme Court of North Dakota in construing this provision (but with respect to a different question) stated: "There is still another principle bearing directly upon this question. It may be thus stated: When the legislative assembly repeatedly construes or interprets a constitutional provision, such construction or interpretation should be followed by the courts, when

it can be followed without doing violence to the fair meaning of the words used, in order to support the legislative action and give effect thereto, if the language construed admits of such construction." See *State vs. Taylor*, 133 NW 1046, 1051 (ND 1911).

In this respect we find there is precedent for this kind of action. The 1895 and 1897 sessions of the Legislative Assembly appropriated funds for the institutions of higher learning prescribed in the Constitution. The 1895 Session Laws indicate the only moneys appropriated were for janitor salary and maintenance of buildings. See e.g., Chapter 18 of the 1895 Session Laws with respect to the appropriation for the University of North Dakota. In fact, however, the Legislature had appropriated more funds including funds for salaries, etc., but such funds were vetoed by the Governor. In 1897 the funds for the operation of the institutions of higher learning were also vetoed, but the Legislature overrode the Governor's veto. See e.g., Chapter 8 of the 1897 Session Laws. Therefore, the institutions received no state support for actual operating costs in the biennium of 1895 to 1897. The institutions, such as the University of North Dakota, did operate through donations, etc. See Geiger, *University of Northern Plains*, University of North Dakota Press, 1958.

In 1923 the Governor vetoed the operating appropriation for the Forestry State Normal School at Bottineau leaving only the appropriations for maintenance of grounds, general repairs and dormitory maintenance, in the total amount of \$950 for the biennium in effect. See Chapter 58, 1923 Session Laws.

To our knowledge, these vetoes, which had the effect of denying the institutions the means with which to operate, were never challenged in the courts of this state. Whether such veto would have been sustained in the courts may be open to question in view of the decision of the North Dakota Supreme Court in *State ex rel. Dahl vs. Dewing*, 131 NW 2d 434 (ND 1964) in which the court held the Governor had no power to veto a line item appropriation for the salary of the director of the State Laboratory Commission, as the veto would have the effect of making an initiated measure ineffective in violation of Section 25 of the North Dakota Constitution providing that an initiated or referred measure may be amended or repealed only by vote of two-thirds of the Legislative Assembly. If we are to construe the provisions of the Constitution concerning the institutions of higher learning as requiring their actual operation rather than merely the location of same, the decision in the Dahl case, supra, would appear to be applicable with regard to the exercise of a veto of an operating appropriation by the Governor. If, on the other hand, the constitutional provision is merely considered to be a statement requiring the location of a specific institution at a specific site, then the decision would not appear to be applicable. As noted above, the exercise of the Governor's veto in 1895 and 1923 removing all operating funds from some of the institutions of higher learning was not challenged in the courts. The Governor's veto is a part of the legislative process. It may, therefore, be argued the construction of this constitutional provision by the Legislature in effect requires the location of a specific institution at a given location only and does not require the actual operation of such institution. This argument would apparently bring the question within the ruling of the North Dakota Supreme Court in *State vs. Taylor*, supra, and the Court, if this question were presented to them, could conceivably hold that Section 216 of the Constitution requires the location of the institutions at a specific site only and not the actual operation of such institutions, that being a matter for legislative determination.

The issue in the Taylor case concerned an amendment to the Constitution establishing a state normal school at Minot and involved the question of whether the provision in the Constitution that no other institution of a character similar to any one of those located

by Article XIX could be established or maintained without a revision of the Constitution (see Subdivision Seven of Section 216 of the North Dakota Constitution quoted above) meant the Constitution must be revised by Constitutional Convention or whether it could be done by amendment presented to the electorate by the Legislature. The Court also considered whether an appropriation for the school was valid insofar as it was based on a provision that it should become available only if the citizens of Minot should donate a suitable location of not less than sixty acres for the institution. The Court in this regard stated, Page 1052 of the reported case:

"The state contends that this is not a valid appropriation because not effective except upon the action of the citizens of Minot. It appears to us that this point is not well taken. The Legislature, in effect, said: 'It will require \$200,000 to put this school into operation during the next two years, and in addition to that, sufficient to procure a suitable site. The school is located by the Constitution at Minot, **but it is discretionary with the legislative assembly when to provide an appropriation and to determine the amount necessary to set the school in operation.** We have not sufficient money available for the purpose at this time. If the citizens of Minot are enough interested in the subject to furnish the site, and thereby relieve the state from that burden, we will make an appropriation of so much money as is available; the amount named to be subject to use if and when the site is furnished.' "We see no reason why this is not a valid exercise of legislative power, under circumstances like these.***" (emphasis ours)

Such statement does lend weight to the argument that the Constitutional provision only specifies the location of a given institution and does not necessarily require the actual operation of such institution. The provision does prohibit the operation of a similar institution at any other location without an amendment to the Constitution. In addition we have no doubt that the income from the forty thousand acres of grant land for the institution at Ellendale can be used for no other purpose. We assume the seventy thousand dollars appropriated for the maintenance of the institution at Ellendale is derived from that income although we have no specific evidence of that fact.

We further note that the 1889 Constitutional Debates also contain some statements indicating that the location of the institutions was directory and the Legislature would have the discretion as to when and how to operate same. See e.g., Page 483 of the 1889 Constitutional Debates. While these statements are not conclusive, they are indicative of the intent of the Constitutional Convention in adopting this provision of the Constitution.

Whatever the theoretical decision might be with regard to this entire question, i.e., whether the Constitution requires the location and actual operation of an institution at a given location, or whether the Constitution does not require the actual operation but only prescribes the location of a given institution and prohibits a similar institution to be situated anywhere else without a constitutional amendment, there is another aspect of the question which cannot be overlooked. Even if it is determined that the Constitution requires the actual operation of an institution, thus requiring the Legislature to appropriate funds for such operation, this does not answer the question of how the Legislature can be forced to appropriate funds, as a matter of law, for any given institution or the amount which is to be appropriated. Thus, if we were to hold the Constitution required the Legislature to maintain an operating institution at Ellendale and to appropriate the necessary funds therefore, we would be able to provide no answer to the question of how the Legislature could be forced to do so. We deem this observation

appropriate in this discussion since the question presented involves an appropriation measure.

In summary, we favor a view that once the Legislature has, in accordance with the Constitution, established an operating institution they have an obligation to continue that institution until such time as the Constitution might be amended. This view is based on the practical consideration which has been given the constitutional provisions in the past. However, as noted above, we realize the matter is by no means free from doubt and that there is considerable collateral precedent which supports a contrary view. In this respect should the Legislature enact the appropriation bill in its present form, we assume the Court, if the matter is presented to them, would, in view of the rules of constitutional construction, resolve every possible doubt in favor of the constitutionality of the bill. We must therefore candidly admit there is a good possibility the courts would construe the bill in its present form as constitutional.

Sincerely yours,
HELGI JOHANNESON
 Attorney General

POINT OF PERSONAL PRIVILEGE

Rep. Eagles: "Mr. Speaker:

"When this bill came up the other day, I took the time to look up the law and read it in full. I think at the next Session of this Legislature you should give some thought to taking this bill completely out of the books. During this Session, in every committee I have been in, we have made a point of erasing every distinction as to sex. Wherever it says one appointment shall be a woman, or both sexes shall be represented, we took that out. The Twentieth Century woman is well educated, and now wants to compete equally with men and should be free to compete equally with men. I believe this bill as it exists today is being used to keep women out of managerial positions. Rep. Gengler says he has had some calls in opposition to this piece of legislation, 2317. I have had no calls against 2317, but I do know that the women on the status of Women Conference have opposed Section 34-06-06. These are well educated women. They are women who can work, and it is rather a joke when I sit here some days twelve hours and work, that anyone says that a woman cannot work an equal amount of hours with men, and I hope that next Session you men will give serious consideration to taking this law out of the books."

MOTION

Rep. Reimers moved that Senate Bill No. 2480 be re-referred to the Appropriations Committee, which motion failed on a division vote.

 Governor

WLG:jp

The Honorable Howard F. Bier
 Speaker of the House
 North Dakota House of Representatives
 Bismarck, North Dakota

Dear Mr. Speaker:

The 1969 Legislature created the five-member Advisory Board to the Bank of North Dakota. The members of the Board are appointed by the Governor for terms of from one to four years. The Governor appoints a chairman, vice chairman, and secretary of the board.

The present law gives the Advisory Board the duty of formulating recommendations to the Industrial Commission relative to the operation of the Bank of North Dakota.

The Advisory Board to the Bank of North Dakota is made up of highly qualified and prestigious people in several fields of finance. It has been a very productive board and its influence is reflected in many policies now followed by the Industrial Commission as that Commission directs the activities of the Bank of North Dakota.

There may have been some advantages to be gained in amending the legal responsibility of the Advisory Board as the law relates it to the creation of a \$100 million capital pool. This directive in the law was pursued by the Advisory Board in the past year and it was not found feasible to create such a capital pool.

House Bill 1115 does nothing to improve the operation of the Advisory Board to the Bank of North Dakota. In fact, it weakens the activity of the Advisory Board and is another case of diluting the necessary line of responsibility and authority between the Governor and departments and agencies in his Administration.

House Bill 1115 unnecessarily enlarges the membership on the Advisory Board to the Bank of North Dakota from five to seven.

In the process, it includes the President of the Bank of North Dakota as an ex officio member and the Board's secretary.

Since the Advisory Board, in its studies, must remain independent from influence by the management of the Bank of North Dakota, the inclusion of the President as an ex officio Board member weakens the ability of the Advisory Board to approach bank policy, practices and personnel in a candid and frank manner.

The President of the Bank of North Dakota is further instructed

by this legislation to furnish personal services and information if the majority of the Board so request. The term "personal service" is very vague and questionable, but even more serious the law permits the Bank of North Dakota President to vote and thereby contribute to a majority decision as to whether or not he should furnish "personal services" and information. This is a ponderous arrangement which further underlines the inadvisability of the President of the Bank of North Dakota's being a member of the Advisory Board.

House Bill 1115 takes away the authority of the Governor to appoint Advisory Board members and places this authority in the three-member Industrial Commission.

There seems to be a constant effort by the Legislature to erode the authority of the Chief Executive of our state. Sometimes I believe laws regarding the Chief Executive are considered on the basis of the person holding the position rather than on the basis of long-range effect on state government.

The authority of the Chief Executive and his Administration should be made stronger and not weaker, and this authority should not be diluted or completely eliminated by spreading it over other elected or appointed officials.

It should be obvious to those who observe the operation of partisan politics within the Legislature that the same condition exists in the Executive Branch of government when some elected officials may differ in their political party and governmental philosophy from that of the Governor.

A Governor is expected to form an Administration and assume the responsibility and authority for that Administration. To dilute or diminish his authority is not in the public interest, nor is it consistent with responsible state government.

Of a minor nature, but still significant, is the requirement in HB 1115 that the Advisory Board meet once a month. This requirement presupposes that there will be enough work to warrant meeting once a month, and that the members have the time to devote to a meeting once a month. Neither of these suppositions is necessarily valid, and to include what should be administrative decision as a requirement fixed in law is not good legislation.

Because this legislation does nothing to strengthen an already productive Advisory Board to the Bank of North Dakota, I veto House Bill 1115.

Sincerely yours,
WILLIAM L. GUY
Governor

MOTION

Rep. Streibel moved that the House reconsider House Bill No. 1115, which the Governor has vetoed, which motion prevailed.

SECOND READING OF
A SENATE CONCURRENT RESOLUTION

Senate Concurrent Resolution No. 4086. A Concurrent Resolution commending the United States Secretaries of Agriculture and the Treasury for bringing the food bargains American consumers enjoy to the public's attention.

Was read the second time.

The question being on the final adoption of the resolution, as amended.

POINT OF PERSONAL PRIVILEGE

Rep. Henry: "Mr. Speaker:

"I rise on a point of personal privilege and request that my remarks be printed in the journal.

"I am opposed to resolution No. 4086. This resolution commends the Secretary of Agriculture for bringing the food bargains American consumers enjoy to the public's attention. The resolution goes on to state that the Secretary recently pointed out, that agricultural income is at a very low ebb or at the lowest percentage of income ever, and that the farmer does not have an adequate share of the economy. I do not believe that the Secretary is sincere in worrying about the farmers income.

"Within the last 2 years, he has lowered the loan rates of oats, barley, rye, and flax. If we take the average yield in these 4 commodities for the last 3 years, times the lowered loan rate, we will have a net loss of \$29,470,000.00 in 1971. This loss of gross income for the North Dakota farmer comes right off the top. This is a severe blow to agriculture of our state. The loan rate sets the bottom price of grain. This loss of income to our state will be reflected in the farmer's net income and will affect the reserve balance of our state.

"We worry about bringing in new industries, and there has been nothing done in this legislature so far, to bring to the attention of anyone what this 20 million loss means. Furthermore, when the Secretary called in our 1967-68 wheat, this decision lowered the price of wheat in North Dakota from 10¢ to 15¢ bushel, this call in of this

grain in early winter, had a disastrous effect on our grain market and is contributing to the final disposal of many more farmers and the destruction of our small towns and communities. The Secretary has not been friendly to North Dakota Agriculture. I therefore, cannot support this resolution."

So the Senate Concurrent Resolution was declared adopted on a division vote.

Rep. Streibel moved that the vote by which Senate Concurrent Resolution No. 4086 was adopted be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

Senate Concurrent Resolution No. 4087. A Concurrent Resolution urging the State to give consideration to the scenic, recreational, and conservational value of state land in leasing policies, and to withhold this land from sale.

EXPLANATION OF VOTE ON SENATE BILL No. 2512

Rep. Dornacker: "Mr. Speaker:

"I would like to explain my no vote on Senate Bill No. 2512.

"You will remember some time back I introduced a bill that school buildings should be insured for replacement value. I really believe that part of the problems at Ellendale have been caused by the State of North Dakota and not insuring the buildings for replacement value.

"You may think I am taking a particularly personal interest in this, but I do feel from the stand point of smaller schools, they do provide a service to the State of North Dakota. Bottineau may

be next to go, and Mayville next, but I do think these small schools have a place in North Dakota, and if you will look at Minnesota, they had to go to doing what we are doing, and had to build smaller schools rather than have their huge schools alone. That is the reason I voted No."

So the bill passed and the title was agreed to.

Rep. Atkinson moved that the vote by which House Bill No. 1436 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion failed on a division vote.

Rep. Streibel moved that the House reconsider Senate Bill No. 2066, which the Senate has passed over the Governor's veto, which motion prevailed.

Rep. Atkinson requested that his remarks in regard to the Governor's veto of Senate Bill No. 2066 be printed in the Journal.

"Mr. Speaker and Members of the House:

"In a few moments we will vote on the Governor's veto of Senate Bill 2066. As the Governor has chosen to make this a matter of partisan politics it seems likely that the House vote will not overturn the veto. However, it would not be fair to the people of North Dakota to let the misstatements of the veto message stand alone in

the Journal of this House. That is why I ask that these remarks be recorded.

"Senate Bill 2066 deals with the Corrupt Practices Act of North Dakota. This is the law which regulates the conduct of political candidates and their supporters. It has been in effect for many years for the purpose of defining what is improper and illegal conduct in political activities.

"Until the Governor's veto, this bill has not been a partisan issue. It was introduced with the unanimous support of the Judiciary Committee of the Legislative Council. It passed the Senate by a vote of 48 to 0. In the House the bill was approved by a vote of 66 to 13, a vote which clearly indicated support by members of both political parties.

"The bill was heard by the House Judiciary Committee on February 8. It was presented and explained by Mr. Paul Sand, the first assistant attorney general. Mr. Sand is an attorney who receives, and is entitled to have, the respect of all members of this legislature for his knowledge and legal abilities, and his neutral position regarding legislation, particularly so far as it might have any political implications.

"It has never been a secret that the need for this bill grew out of the Minot bank scandal, and certain court rulings which followed the grand jury investigation. It has never been seriously disputed that bank depositors' funds were being used in connection with political purposes including substantial contributions to candidates and political party activities.

"Following the grand jury investigation criminal charges were issued against a number of persons. These charges were later dismissed because of what the court viewed as a technical defect in the Corrupt Practices Act. Because of this dismissal no trial was ever held to determine the guilt or innocence of the persons who had been charged. The innocent had no trial to allow their names to be publicly cleared. The guilty, if some were found to be such, had no trial to assure justice for their offenses. The people of North Dakota were denied a public trial so as to understand the extent of involvement by public officials.

"The purpose of Senate Bill 2066 is to correct this technical defect. It is intended to assure that the intent of the Corrupt Practices Act is followed and that proper investigations of violations can be carried out. The bill would allow bringing to trial those who have been found by grand jury investigations to have possibly violated the law.

"The Governor, by his veto, has prevented effective enforcement of the Corrupt Practices Act and investigation by grand jury proceedings. By his veto he has attempted to assure protection to his political friends from further inquiry into the Minot bank scandal.

"Of even greater concern is the fact that by his veto the Governor of North Dakota has chosen to publicly associate himself with the Minot bank scandal and the events surrounding it. Every citizen of North Dakota will be expecting a full explanation from their Governor as to the meaning and full implications of this association."

Rep. Backes: "Mr. Speaker:

"I request that my remarks be printed in the Journal.

"There is a saying that let those with no sin cast the first stone, and I think it really applies here.

"I don't consider the Attorney General's office of North Dakota having been anointed or their pronouncements as being infallible, and just because they stood up and said this was needed in order to try certain individuals in a bank case, I don't think it is proper procedure on this floor. Everyone standing on this floor knows what he says here is protected by immunity, and we are going to try and repeal a statute of immunity that has been on the books for fifty or

sixty years. Is this within the meaning of justice? Or is this an attempt at vindication of the Attorney General of North Dakota and the Ward County States Attorney for their incompetence?

"What do we do when we repeal this immunity statute? It is like when you take a child and bring him to you and say you are going to whip him if he tells you what he did, and you are also going to whip him if he doesn't tell you. We would be saying that the Grand Jury is not useable with the immunity statute, and is even less useable when the immunity statute is removed.

"I think some of you do not understand what happens in a grand jury. I didn't know when I went before the grand jury. That was the first one I had been before, and I believe the last grand jury in the state was in 1937. You have the prosecutor in the room. Your attorney is not with you. There is no judge in the room, and your attorney has no voice in the selection of the jurors. If the prosecutor there doesn't like you, he brings the evidence to that jury that he wants to have before that jury. That is a case of railroading in a jury.

"I think that if we are going to talk about what happened up there, you should look at my own election. People in my home town didn't think I was guilty. They elected me by a margin of four to one. They know me better than the grand jury. If we are going to talk about who should be investigated, we should look at the \$21 million spent for President Nixon's campaign. He didn't raise that at bake sales. That came from somewhere other than dollar donations and bake sales. No one is perfect.

"There was an insinuation there is a scandal. Who makes it a scandal? The person who says it is. Can you say it is a scandal? Not me. I don't buy that. I think that if you want to eliminate the one thing that makes a grand jury workable, you are wrong. I introduced a bill this session to make a grand jury more workable. It would have allowed an attorney to be appointed by both political parties when we go into political fishing expeditions.

"If a grand jury is useless with the statute, then it is more useless without the immunity provision."

Rep. Atkinson: "Mr. Speaker:

"I have a great personal regard for my colleague Rep. Backes, and my remarks were not directed toward him.

"I believe the question remains unanswered and will remain unanswered until Governor Guy makes a public explanation of his veto of Senate Bill No. 2066. In support of that, I would like to refer to a copy of the criminal judgment dated September 24, 1970, and the criminal indictment dated December 8, 1969.

"I would like to make these a part of the Journal of this House.

"INDICTMENT

"Indictment under Section 16-20-08 of the North Dakota Century Code, as amended, making unlawful political contributions by a corporation in the years of 1966 and 1968, in which State-wide elections were held.

I.

The Grand Jury of the County of Ward, in the Fifth Judicial District, State of North Dakota, duly and legally impaneled, charged and sworn according to law in open Court at the special October term of the District Court in the year 1969, in and for the said County and State, in the name and by the authority of the State of North Dakota, does hereby charge that at different times in the years of 1966 and 1968, up to May 19, 1969, the First Western State Bank at Minot, North Dakota, a corporation organized and incorporated under the laws of the State of North Dakota, and doing business in this State, did directly or indirectly pay, use, offer, consent, or agree to pay or use, any money, property or anything of value to aid a political party, committee or organization, or to aid a corporation or association organized or maintained for political purposes, or to aid candidates for political office, which political contributions were in violation of the provisions of Section 16-20-08 of the North Dakota Century Code, as amended, and were made, wholly or substantially, by one or more of the following methods, or combinations thereof:

A. The said corporation acquired control of a license agency on or about October 9, 1967, and employed deceptive, circuitous methods in making political contributions by and through such license agency so as to make it appear that such contributions and secretarial services for political purposes came from the earnings of the license agency, whereas, in fact, the political contributions substantially exceeded the earnings of said license agency and consisted of funds of the First Western State Bank which were made available by allowing overdrafts on the License Agency's checking account, making available to said License Agency and allowing it to use proceeds of loans from said bank on notes executed by Jeannie Quick, with the oral

understanding and agreement that no demand or collection will be enforced by said bank against Jeannie Quick for such notes, by fictitious loans made by said bank on notes executed in the names of Leonard and Alfred Pietsch, the proceeds of which were used to remove from the bank records loans made by said Jeannie Quick and overdrafts of the License Agency, by using funds of said bank to pay the salary of Jeannie Quick while she was managing the License Agency and not performing any services for said bank.

B. The First Western State Bank encouraged the activation of and financed the North Dakota Secretarial Service the successor to the Ward County Research and Development Company, to perform stenographic and clerical services for political candidates or organizations which, as of May 19, 1969, had not paid for such services, but the costs were financed from the proceeds of a loan made by the First Western State Bank on a note executed by Glory Ann Dickinson with the oral understanding that no demand or collection will be enforced against said Glory Ann Dickinson on said note, and from proceeds of a loan on a note executed by the First Western Management Company in favor of Leonard Pietsch, for which a real estate loan with said bank by Leonard Pietsch was reduced in the amount of the Glory Ann Dickinson note, which was later removed from the records of the said bank from the proceeds of fictitious notes of Leonard and Alfred Pietsch, and in this manner the said First Western State Bank made political contributions in violation of law by and through such North Dakota Secretarial Service.

C. The said bank also expended its funds in making available for political purposes goods, materials, and typing equipment without charging or being reimbursed for same;

D. The said bank paid from its funds salaries, fees or wages to certain persons for performing political services; and

E. The said bank in certain instances allowed overdrafts on checking accounts, which accounts were known by said bank to be used solely or primarily for political purposes and activities.

The specific violations are, to wit:

COUNT 1.

That said First Western State Bank, as stated and charged in Paragraph I. above, did in the year of 1968 make political contributions in violation of Section 16-20-08 of the North Dakota Century Code to the campaign activities of Hubert H. Humphrey, the Democrat candidate for United States President, in the manner set forth in Paragraph A. above, by making a payment from the License Agency on June 22, 1968, in the amount of \$420.00 to the United Democrats for Humphrey.

COUNT 5.

That said First Western State Bank, as stated and charged in Paragraph I. above, did at different times in the year of 1968, make political contributions in violation of Section 16-20-08 of the NDCC to the campaign activities of William L. Guy, the Democrat-NPL candidate for Governor of the State of North Dakota, by paying the salary and expenses of Robert Larson as Chairman of "The Dakotans for Guy", from the funds of said bank through the License Agency as described in Paragraph A. and from funds described in Paragraph D. above.

COUNT 15.

That said First Western State Bank, as stated and charged in Paragraph I. above, did make political contributions in violation of Section 16-20-08 of the NDCC to the campaign activities of Douglas Sutter, a candidate for Alderman of the Fifth Ward of the City of Minot, in a special election originally scheduled to be held April 15, 1969, but which was actually held on June 17, 1969, by permitting the account entitled "Sutter Campaign Fund" to be created

by an overdraft on March 19, 1969, and continued to be overdrawn to July 16, 1969, in the amount of \$1,656.73, which amount has been charged off as a loss.

CONTRARY to the form of the statute in such case made and provided, and against the peace and dignity of the State of North Dakota.

POINT OF PERSONAL PRIVILEGE

Rep. Boustead moved that the following remarks of Rep. Strinden be printed in the Journal, which motion prevailed.

Rep. Strinden: "Mr. Speaker, Ladies and Gentlemen of this Assembly:

"I was a little bit amazed when I read the March R.E.C. magazine to see that several pages were devoted to House Bill No. 1377.

"This is a very honorable Legislature. We are citizens of the State of North Dakota, serving in a dual capacity, taking part of our lives to work on this matter of legislation and the business of our state. The rest of the time we work on the endeavors of our livelihood. I think we can be very proud of the way we work, honorably, truly dedicated to serve the best interests of the citizens of North Dakota. I would hope that the members of this Assembly who are members of the R.E.C.'s would voice their objections to the editorial printed on page 2 of the March R.E.C. Magazine. I think it is downgrading to this Legislature when any person would refer to Legislators as helpless puppets on strings for any interest group in this state. I would not accuse those members who vote for House Bill No.

1377 as puppets of R.E.C.'s. At the same time, I would not want anyone of those members who opposed 1377 to be accused of being puppets for any group.

"I think in this Assembly this particular matter was debated at length, not only in committee, but on the floor of the House. The members made up their minds not because of the influence from outside, but because of their judgment after studying this piece of legislation and what it would do or would not do for this state.

"I think it is unfortunate when the editor of this particular magazine would play on the emotions of the citizens of our state and the members of his organization to infer that the action taken here was taken in any other way than I have just decried.

"I would hope again that the members that can exert any influence on the editorial comment of this magazine would see that it would be a responsible type of publication that would truly tell a story and be of service and create an image for the fine organization it represents."

For the appointment to the Education Commission of the States, Rep. Reimers nominated Rep. Oscar Solberg. Rep. Streibel moved that nominations cease, and a unanimous ballot be cast for Rep. Solberg to serve on the Education Commission of the States, which motion prevailed.

Rep. Wagner moved that the Assembly go into a special order of business, and that Rep. Dick be asked to preside, which motion prevailed.

Rep. Dick came to the rostrum to preside.

Rep. Dick called Rep. Boustead to the rostrum.

Rep. Boustead: "Mr. Speaker and Members of the Assembly:

"I am most pleased to have been granted the opportunity to participate in this event. Particularly so because of the man to whom I am to make not one, but two, presentations. He is a good friend of both yours and mine. Politics is not unlike salesmanship, both professions are most exciting and dear to me. It is the science and art of dealing with people, of convincing them that your views are right and in the public interest, and of persuading them that it is to their advantage to join with you in getting your proposals accepted. We, as legislators, are of course familiar with the function of government — particularly state government, county government and city government. However, we have in our midst, a gentleman, one who, through dogged determination, has made each and every one of us cognizant of the importance to him of the function and place of township government within the entire scheme of government.

"It is perhaps not exactly necessary to call him by name but would Hank Weber please step forward to the rostrum?"

"Hank, on behalf of the Finance and Taxation Committee and the Transportation Committee of the 42nd Legislative Assembly, who have heard you expound on the merits of township government, we are most pleased to present you this little token.

"Now, Mr. Speaker and Members of the Assembly, I would like to be dead serious for a few moments.

"The basic responsibility of a self-governing people is to cast intelligent votes in the hope of electing thoughtful and hard working men and women to our State Legislature. This is exactly what happened when the citizens of rural Cass County, the 22nd District, elected Hank Weber. By the same token, such a basic responsibility exists when in our caucuses we cast intelligent votes in electing thoughtful and hard working men to provide the leadership necessary to cause their party to function properly and smoothly during the session. This was accomplished by the minority party when they elected Hank Weber to the position of Assistant Minority Floor Leader.

"I say, Mr. Speaker, a more outstanding characteristic is his friendship with so many, his friendly smile, firm handshake, manly bearing, and his sincerity reveals his strong character and leaves no doubt that he is a leader among men — an outstanding legislator."

Rep. Weber: "Rep. Boustead, Mr. Speaker, and Members of this Assembly:

"With all these fine words that have been said, I just can't believe they are true. Thank you very much."

Rep. Dick called Rep. Fleming to the rostrum.

Rep. Fleming:

"Mr. Speaker, Ladies and Gentlemen of the Assembly:

"As the session draws to a close, it is appropriate that we recognize the extra efforts required of the leadership of this House. The task which they have been assigned is indeed a difficult one. Their responsibilities are great. Their selection to leadership positions indicates the faith of the membership in their abilities.

"I have had the privilege to serve on the Political Subdivisions Committee with the Assistant Majority Leader. Certainly the discussion at times in that committee has been heated. More often than not, Rep. Strinden and I have been on opposite sides of the major issues coming before that committee. Rep. Strinden has not been timid in making his opinions known in those deliberations, nor have I. It is in this healthy atmosphere that the legislative process churns, hopefully producing the finest product that will benefit the people of our state.

"As Assistant Majority Leader, Rep. Strinden has on occasion cracked the whip in an effort to seek unity amongst the membership of the majority party on various issues. Even the most casual observer of this assembly recognizes that that task is a very difficult one. As a partisan of the opposite party, I would point out that he too often has been successful in those endeavors. But no man, regardless of his political persuasion, cannot help but respect and admire an individual who understands his job, accepts responsibilities, and makes a dedicated effort to meet those responsibilities. Rep. Strinden has certainly met that criteria.

"Certainly the memories of this session, Rep. Strinden, will remain with you throughout your lifetime. But to add to those memories, I am happy to present this gift to you on behalf of the entire membership of this assembly for your efforts as Assistant Majority Leader during this session."

Rep. Strinden:

"Mr. Speaker, Ladies and Gentlemen of the 42nd Assembly:

"First, I would like to say a special thank you to our desk staff and all of our House employees, and to Emerson Murray and the Legislative Council. Without the competent and dedicated service of all these fine people, our job would be impossible.

"Speaker Bier, you have done an outstanding job of presiding over this assembly. We are all most grateful to you. This is the second session I have had the honor to serve as the assistant to our Majority Leader Bryce Streibel. I would like to again express my appreciation to him for his unselfish, dedicated service. I am confident that history will prove him one of the strongest and most able legislative leaders ever in our state.

"A special tribute to Floor Leader Hoffner and Assistant Minority Floor Leader Weber. These gentlemen have served their party and this Legislature in a most responsible manner. Political bickering has been kept to a minimum. We have worked together in the best interests of the citizens of North Dakota.

"As we near the time for the sine die motion, all of us welcome the chance to return home and getting back to normal life. Yet, I am sure we all feel a tinge of sadness with the end of this 42nd Assembly. We are part of a great fraternity; friendships made here will be cherished and continued for a lifetime. It has been a real honor to serve with each and every one of you.

"Good luck. Best wishes to each of you.

"Thank you again for the privilege of being a colleague in the 42nd Assembly."

Rep. Dick called Rep. Hilleboe to the rostrum.

Rep. Hilleboe:

"Mr. Dick, Members of the Assembly:

"Members of the Assembly I have had a few problems when attending this Session — not while in the capitol, but in the City of Bismarck. There is one member of this Assembly who seems to bear a resemblance to me. His hair is quite long and he has sideburns. Well, it seems that this particular member has been covering certain watering spots in town and there are some people who have gotten the two of us mixed up. I hold in my hand a card I received in this chamber, a mash card addressed to me and signed by the name Virginia. I don't know anyone named Virginia. So, at this time, I should like to present a gift from the members of this Assembly and return the card that must belong to my good friend Slingshot Hoffman, and request that he reads the card to the members of this Assembly."

Rep. Hoffner:

"Thank you for those kind words, Pete."

"I want to thank the members of this Assembly for recognizing me as a leader. I want to thank the caucus for electing me as their leader. I don't know what is in this gift, but I will cherish it very much, you can be sure.

"Rep. Strinden mentioned that we have had a good session, and I would like to say, and I am sure I am speaking for all the Minority members, that we have been treated very fairly by the Speaker, by the Majority Floor Leader, Rep. Strinden and by all the Chairmen of all the Committees, and this is very important in making a democratic legislative process work. You know, when men and women can sit in the same Chamber — the reason I mention women is because we have started to treat these ladies like fellow legislators; and this noon at our luncheon, Rep. Mushik was pleased that we didn't treat her as a female legislator, and I told her we were disappointed she didn't turn her charms more often and try to tease us. It is amazing that legislators can move from document to document and be opposed to an individual across the aisle on one and then shift and be with him on the next bill. I can remember the session when we used to have some real political knifing, and some

days the Minority and Majority members couldn't talk to each other for three and four days.

"I have gotten to sort of enjoy this session when I can sit over there and oppose a big man like Art Bunker on the Uniform Commercial Credit Code, and then look up at him in the aisle, shudder and be friendly. I think you have conducted yourselves as real statesmen, and I mean that in all sincerity.

"People often like to criticize legislators, county commissioners, council supervisors, and this is natural for the people. If we don't do anything else when we leave here, I hope we all go back and defend the projects we have supported in this legislative process. I think we should all go back and be leaders. I am your leader and Rep. Streibel is your leader, and we are all leaders, and when you go home you must exert your leadership.

"I want to thank you everyone, the staff at the desk, the Speaker, and if everything would go right we could be going home in a few hours. If not, we can sit here and take a swing or two at the Senate.

"Thank you very much."

Rep. Dick called Rep. Lundene to the rostrum.

Rep. Lundene:

"I am really pleased to be selected to be part of this program today. It reminds me of the time I was invited to say something at a Labor Day exercise. I was informed that the program would include a talk by the Mayor, a recitation by a student, my remarks, and then the firing squad.

"Mr. Speaker, Members of the Assembly. This Assembly is made up of 98 persons, both sexes, both parties, several religious faiths, a number of nationalities, and a wide variance of ages and philosophies.

"It became the obligation of one of the majority party acting as their floor leader to assume the leadership and management of this entire Assembly. This is as it should be. Keeping these 98 persons, each one an individual in his own right, working toward a common goal for completion of an enormous work load in the sixty legislative days allotted to us, was part of his assignment.

"The Republican party, which is the majority party in this 42nd Legislature, chose this leader, and they chose well.

"Bryce Streibel, your ability to guide this maze of legislation through this House and within the framework of a set of complicated set of rules, has not gone unnoticed. I, for one, have marveled on how you have been able to keep every parliamentary situation at your fingertips.

"Ladies and Gentlemen of this Assembly, it was my privilege to watch the elder Streibel in operation on the Senate floor, and it wouldn't surprise me if Bryce cut his teeth on a legislative rule book, or Roberts Rules of Order.

"Majority Floor Leader Streibel, we of the minority recognize in you a man of fairness, and we want you to know that though we may differ on some questions, you have earned our respect and everlasting friendship.

"In behalf of the entire Assembly, it gives me a great deal of satisfaction to be able to give you this expression of our esteem in which you are held by this House of Representatives."

Rep. Streibel:

"As we approach the twilight hours of the 42nd Assembly we are prone to reminisce rather than to project. In this special order of business we exchange verbal bouquets and it's only fitting and proper that we should do this.

"I am indebted to each one of you for your unflinching attitude of cooperation which allowed us to expedite the work of the House

in an orderly and business-like manner. To Representative Hoffner and our 39 colleagues of the Minority, let me say that I consider our working relationship to be one of the highlights of this or any other Session. To my 57 colleagues of the Majority, my thanks for your loyalty and for overlooking my many shortcomings. I want to pay special tribute to Earl Strinden whose ability, capacity for work and dedication provided invaluable assistance to my office. To our Speaker, Howard, for your fairness, diligence and cooperation, a personal thanks.

"In the 14 years I have served in this House we have seen much change and most of it has been good. We have seen responsive refinement on every level. We have been a part of improved efficiency that has allowed for the processing of work loads that have doubled. We have been pleased by the minimization of political bickering. We have observed the application of more and more business management guidelines in state government.

"State governments are unquestionably on trial today! The States form the keystone in the arch of the federal system — the bridge between local governments concerned with community problems and a central government dealing with nationwide issues. Our three-level federalism leaves the National government with the money, local governments with the problems, and the States with the legal powers. If States do not adopt modern structural frameworks to replace archaic constitutions, if State Legislators do not become responsive to the needs and desires of people, if weak executive branches of government are not substituted for strong chief executive structures, if uncoordinated court systems are not rationalized to allow for more orderly process of caseloads, then State government's role in the federal system will continue to diminish and the urban-federal partnership will strengthen.

"To those of you who will return, let me caution you of this: If we are not willing to pay the price, if we cannot change where change is required, then we have only one recourse. And that is to prepare for an orderly transfer of our remaining responsibilities to the federal government.

"If we are willing to pay the price, if we do bring about change where change is required then we will truly live our role as Lincoln defined it when he said, and I quote, 'I like to see a man proud of the place in which he lives; and so live that the place will be proud of him.'"

Rep. Dick called Rep. Bunker to the rostrum.

Rep. Bunker:

"It is indeed my pleasure to present a token of our esteem and recognition to the Majority Party Caucus Chairman, and I speak for everyone when I say I don't know of anyone who conducts a caucus on a more fair basis when it is fair for Burleigh County than Vern Wagner does.

"I think you have heard this expression once in your life at least, Vern. This is a gavel for the Chairman, 'Walk softly, but carry a big stick.'"

Rep. Wagner:

"It seems strange that they would pick such a large man to make this presentation. Because of my height over the years, I have had a special stool built for a Speaker's platform, but one of the responses I must always give is that people are measured from the shoulders up.

"Thank you very much for this gift. I am sure that I will remember it for many years.

"And to the Minority, I will also say that this has been one of the finest sessions to work in and the accomplishments have been great. I appreciate the cooperation of the Majority in the office of

caucus chairman, and before the Majority Leader says, 'Unless we get out of here and get busy, we will be here another two weeks,' I shall now depart. Thank you."

Rep. Dick called Rep. Winge to the rostrum.

Rep. Winge: "I have had the opportunity of being up here a few times, and I really appreciate after serving about the first ten days of the session the leadership we have up here in our Speaker, the leadership we have sitting here in the middle aisle in the Majority and Minority Floor Leaders and their assistants. This really holds true when it comes down to your caucus chairman because so many of the decisions made on the floor come from information we get while in caucus, and this is what makes the caucus so important.

"When I was asked to make a presentation here a few minutes ago, I thought I would be making the presentation to Vern Wagner, and I was wondering at the time about the difference in our size — and then I was replaced with Art Bunker. It was a good choice.

"You know, the Democratic Minority here has been having a caucus at noon every day, and we prefer to call it the informational caucus because in most cases it doesn't really make much difference what we do down there. We can come back up here and vote, and the information we have gained has been very helpful in determining that vote, especially for the new members, and this is why we really appreciate the people of the Majority who have made it so easy for so many of us.

"The statement has been made let's hurry up and get this over so we can start campaigning again. One thing we have to do is let the people know us just well enough to vote for us, but not so well they won't vote for us.

"In just summarizing this Legislative Session and after having five others for experience, I felt that with my agricultural background, I would like to liken this Session to the tractor standing in the yard idling as beautifully as it can, and with the tractor idling we haven't worn out the plow. We have made a lot of decisions, and they were made a lot easier by our caucus chairman, and he has had several sessions' experiences at it. In fact, he has been with us since 1961, and he was Chairman of Finance and Taxation during the 1965 Session. You may have noticed that both parties have picked out some pretty sturdy characters for caucus chairmen. Our caucus chairman has done a wonderful job as far as caucus is concerned, and now as a little bit of appreciation to Dick Backes, we would like to present him with a gift.

Rep. Backes: "Thank you. I hope I am here two years from now and my caucus is this size. I am not going to make a speech. I think I got scared out when I first started in politics. The local editor at home wrote up a rally where both Rep. Backes and Rep. Glaspey attended, and a couple days following, it was reported that after we talked, we were followed by two good speeches.

"I want to thank the group very much for this, and at this stage in the session, I can let out a few secrets. Reimers wants to know what we do at noon, and he doesn't believe we are really meeting down there, but only do this to have the exclusive lunch cart so we would have something besides gooseliver sandwiches.

"Thank you very much."

Rep. Dick called Rep. Solberg to the rostrum.

Rep. Solberg: "Mr. Chairman and Members of the Assembly:

"It becomes my pleasant task to honor a man with whom I have served in the House of Representatives for many sessions. Serving in the Legislature develops a special kind of friendship that transcends party lines. There is a special kind of respect and fellowship that is unlike any other fraternity.

"It has been my privilege to serve many sessions in this beautiful chamber. Every session is different and every session somehow

takes on, in part, the character of the man who presides as Mr. Speaker.

"This session has been pleasant with a minimum of dissention and political bickering. No freshman legislator was made to feel uncomfortable by a rigid adherence to rules and, if mistakes were made, the Speaker was always willing to start all over again to get in the proper parliamentary motions.

"The honor to be Speaker of the House comes to relatively few individuals. To obtain this position one must first have gained the confidence and respect of his own party. After he is selected, and elected, he has the added responsibility of working with the minority who are always apprehensive of their consideration and fairness in rule interpretation. As a member of the minority, I have heard nothing but praise for you as an individual and as a presiding officer.

"In a few hours we will be adjourning sine die and will be on the way to our homes and families. This historical and stately chamber which has been so full of activity for the past sixty days will become once more a quiet empty room with clean desks and neatly placed chairs. But the friendships that have developed here will serve as a bond that will remain intact throughout the years.

"And so Mr. Speaker, I wish to present you with this traditional speaker's watch as a memento of the respect and admiration that your fellow Legislators have for you. And as you cherish this gift through the years, I hope it will bring back memories of your days of service as Speaker of the House in the forty-second Legislative Assembly of the State of North Dakota.

"Mr. Speaker, I congratulate you on a job well done."

Speaker Bier:

"Representative Dick, Fellow House Members, My Friends: Thank you Representative Solberg for your very kind words.

"Serving the past 60 days as your Speaker has been one of the nicest and most enjoyable experiences of my life. It has been an enjoyable experience because of the actions and wishes of each and every one of you. We have, without exception, always been courteous, friendly, and very cooperative. You have always had a cheery "Hello," a ready smile and a friendly word. You, members of the House, deserve the credit for making this a most harmonious session.

"I want to thank you again for selecting me your Speaker. I have tried to be fair, and if I failed at times, it was because of human weakness and I ask your forgiveness.

"To Rep. Streibel and Rep. Strinden, my heartfelt thanks for their ready assistance and support at all times. Their counsel and guidance helped me weather many a parliamentary storm. To Rep. Hoffner and Rep. Weber, the leaders of the "loyal opposition," who I am sure passed up opportunities to confuse and confound the Speaker, I am deeply grateful. I appreciate so much the wonderful cooperation you gave me.

"To the desk force, Barbara, Roy, Buck and Del, I am so grateful. None of you can realize how utterly dependent the Speaker is on these wonderful people. They are without equal in efficiency, cooperation and good humor.

"To Cecil, our genial and efficient sergeant-at-arms, and his crew of assistants and bill book clerks, to Clara and all the pages, to the committee clerks and stenographers and to the many other loyal employees, may I say many thanks for a job well done.

"To my secretary, Dorothy, who is always asking if there isn't more she can do to help, my sincerest thanks.

"I will always treasure this gift you have given me. Few of us are so lucky to receive it. I will always remember my years in the North Dakota Legislature. The friends I have made here will last a lifetime.

"From the bottom of my heart my most grateful thanks for the honor of being your Speaker.

"My best wishes for the future to each and every one of you."

Rep. Dick called Rep. DeKrey to the rostrum.

Rep. DeKrey:

"Speaker Bier, I am your legislative partner. You will remember when we met on July 1, 1966, when we decided to campaign together. I can't tell you you are a good fellow because you know that. I can't tell you that I have enjoyed campaigning, but this I am sure is mutual. I could remind you of two years when we sat together. We were together for two terms, and we would talk over the several bills, and decide that this is a good bill or that it is a bad bill, and we would vote accordingly. Now I sit out yonder and you are in this position of authority, and when I push that red button, invariably you would push the green.

"All fooling aside, on behalf of this same District No. 31, on behalf of your fellow legislator, our county chairman, part of the desk force, and all of the people of District No. 31, may I present you with this plaque?"

Speaker Bier:

"Thank you so very much, Rep. DeKrey."

Rep. Weber:

"May I have a few comments, Members of the Legislature. When I received the Gill Township sweatshirt I was just a little bit shook.

"This has really been an experience for me as Assistant Minority Floor Leader. I wish that all the people in North Dakota could have some part or be a member of this Legislative Body or be an employee. I am sure that they would have a greater and better understanding of what goes on. There are so many in our state that have not been in this capitol, let alone attend a Legislative Session. I think the ones who have been here are awed by what goes on and have a much greater appreciation when they do go back home.

"Mr. Speaker, Rep. Hoffner, the Minority Party and I want to congratulate you, and we appreciate the fairness of the Majority Party and Rep. Streibel and Rep. Strinden. You have been good to us as far as the rules go, and we really appreciate that, and this is shown, I recall, by one particular example when Rep. Gerl introduced that resolution, and he was allowed to take it back. We really appreciate it. I also think we accomplished a whole lot by the harmony between the Minority Floor Leaders and the Majority Floor Leaders. I think because of this we accomplished a whole lot more than if it had been the other way. I also want to offer my thanks to all the people, to the Speaker who has been honest and fair, to all the legislative employees, and to everyone who made this 42nd Legislative Session possible. I also want to thank the Legislative Council — without their help and dedication and long hours, it would have been very difficult to accomplish what we have. They do a good job.

"Thank you very much. It has been good to be a member of the 42nd Legislative Session."

Rep. Wagner moved that the special order of business be dissolved, which motion prevailed.

Speaker Bier returned to the chair to preside.

Rep. B. Miller moved that the House reconsider the action by which Senate Bill No. 2042 was lost, which motion prevailed on a division vote.

MOTION

Rep. Streibel: "Mr. Speaker:

"I have said we will never bind a caucus, and in the eight years I have been Floor Leader, we have not bound a caucus. That is Point No. 1.

"Point No. 2 is, who is the one accusing us of bringing this into politics? Is it a political party of North Dakota that has brought the private utilities vs. R.E.C.'s issue into the political arena? It isn't the Democratic Party or the Republican Party. I submit to you it is the R.E.C.'s that have brought this in by a vehicle that the patrons do not have a vote on the policy of the type of editorial being written; and the same editor who castigated Rep. Strinden and myself placed six sheets of paper on your desk which was slanted, biased material. That's okay? Where did he get his permission to do that? He didn't get my permission to put this on your desk.

"Mr. Ulmer can devote five pages of a monthly publication to a slanted, biased position, and I submit to you that when it comes to pressures, in their issues prior to election they publish the issues concerning them and our voting records. Of course, this is not political. This is just information for their people, but we should be denied from stating our position and placing on the desks of our fellow colleagues views expressed at caucuses.

"The democratic process is in jeopardy if we yield to that procedure. I applaud people who stand up and resist. We do not have a monthly publication with colored photos and beautiful covers in which to editorialize and castigate and condemn and ridicule. We do have the forum of the Assembly, and I excuse myself for using it today. Since 1957, when I sat in the chair now occupied by Rep. Winge, I can remember those people leaning across that brass rail and telling me 'You had better vote this way or else!' This type of pressure does not enhance the democratic type of government one bit. It does not strengthen their cause, and if they don't change their tactics, their cause will soon be forsaken."

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DESIGNATION OF BONDS.) Bonds to be issued under the provisions of this Act shall be known as state of North Dakota general obligation bonds, Vietnam conflict adjusted compensation series.

SECTION 2. AUTHORITY FOR ISSUING BONDS OF NORTH DAKOTA VIETNAM CONFLICT ADJUSTED COMPENSATION SERIES — PURPOSE OF ISSUE.) An issue of not to exceed fifteen million dollars general obligation bonds of the state of North Dakota is hereby authorized and directed under the conditions, in the manner, and for the purpose stated in the amendment to the Constitution of North Dakota, adopted by the forty-first legislative assembly of the state of North Dakota as Senate Concurrent Resolution No. 17 and approved by the people at the primary election held in September 1970, and the generally applicable provisions of the Constitution and the statutes of the state of North Dakota. The preparation, handling, issuance, sale, and delivery of such issue of bonds shall be under the supervision and control of the industrial commission of North Dakota, which commission is hereby authorized and directed to negotiate a satisfactory sale of such issue of bonds as soon after the effective date of this Act as may be necessary to provide funds for the payment of adjusted compensation to veterans of the Vietnam conflict. Such issue of bonds is authorized for the purpose of providing funds to be used in payment of adjusted compensation to North Dakota veterans of the Vietnam conflict and the administrative expenses resulting therefrom and such funds are hereby appropriated for such purpose.

SECTION 3. PREPARATION OF BONDS.) Bonds issued under this Act shall be executed by the governor and by the state treasurer under the great seal of the state of North Dakota and shall be attested by the secretary of state. The state auditor and secretary of state shall endorse and sign, on each bond issued, a certificate showing that such bond is issued pursuant to law and is within the state debt limit. The issue of bonds under this Act shall be of serial maturities, and the industrial commission shall fix the maximum rate of interest they shall bear. The first installment of principal of bonds sold at any one time shall fall due not more than two years from the date of the bonds, and the last installment shall fall due not more than fifteen years after the date of first issue. Annual installments of principal shall be such that the increase thereof from year to year approximately shall equal the decrease from year to year of the amount of interest on unpaid bonds, so that the aggregate of principal and interest shall be approximately equal year by year. All bonds issued under this Act shall be in denominations of not more than ten thousand dollars

each and shall be fully negotiable with semiannual interest coupons attached, except that the first interest payment shall be one year from and after the date of issuance of the bonds. Bonds issued under this Act from and after the year 1972 until the year 1981, inclusive, shall not be callable prior to maturity. Bonds issued under this Act from and after the year 1982 may be called prior to maturity, in inverse numerical order. All bonds issued under this Act shall contain a provision that interest thereon shall cease at maturity unless the holder thereof shall present the same for payment and payment is refused. The principal and interest of bonds issued under this Act shall be payable at the office of the state treasurer in Bismarck, North Dakota, or at the Bank of North Dakota, or at a bank or trust company in the city of Chicago or New York, as the industrial commission may determine.

SECTION 4. SALE AND DELIVERY OF BONDS BY INDUSTRIAL COMMISSION — DEPOSIT OF PROCEEDS.) The industrial commission shall act as agent of the state for the negotiation, sale, and delivery of all bonds issued under this Act. Such bonds shall be sold in whole or in part from time to time for cash at not less than par and accrued interest to the best advantage of the state. In offering such bonds for sale, the industrial commission shall reserve the right to reject any or all bids therefor. Purchasers and holders of such bonds may have ownership registered in the office of the state treasurer. All of the proceeds of such bonds shall be received by the industrial commission and by it placed in a separate fund in the state treasury in the custody of the state treasurer to be used only for the purpose for which such bonds are issued.

SECTION 5. BONDS TAX EXEMPT.) All bonds issued under the provisions of this Act and interest thereon shall be exempt from all state, county, and municipal taxes.

SECTION 6. BONDS A GENERAL OBLIGATION OF STATE OF NORTH DAKOTA.) Upon receipt of payment therefor, the industrial commission shall deliver to each purchaser of bonds issued under this Act, the bonds purchased by him, and upon the delivery of such bonds the full faith and credit and unlimited taxing resources of the state of North Dakota shall stand pledged for the punctual payment of each and all of such bonds and the interest thereon to the lawful holder and owner thereof as the same become due and are presented for payment.

SECTION 7. SINKING FUND.) The sinking fund for the payment of bonds issued under this Act and interest thereon shall be established and maintained in the office of the state treasurer who shall be custodian of such fund and shall at all times maintain adequate records thereof. The state treasurer shall make reports of the condition of such sinking fund to the industrial commission on request. All sums appropriated and transferred for the payment of bonds issued under this Act shall be deposited in the sinking fund therefor and shall be disbursed by the state treasurer in payment of such bonds and interest thereon directly or through a paying agent to be designated by the industrial commission. On request of the industrial commission, the state treasurer shall supply any deficiency of such sinking fund out of any available monies of the state in his custody, provided that all monies so used shall be returned at the earliest practicable opportunity.

SECTION 8. TRANSFER OF BALANCE.) Upon the retirement of all bonds provided for in this Act, together with the interest thereon, any balance remaining in the sinking fund shall be transferred by the treasurer to the general fund.

SECTION 9. INVESTMENT OF SINKING FUND.) Monies in the sinking fund for bonds issued under this Act shall be deposited in the Bank of North Dakota. The Bank of North Dakota shall pay interest thereon as directed by the industrial commission, which in-

terest shall be credited to the sinking fund and shall be used for the payment of the principal of the bonds or interest thereon.

SECTION 10. PROTECTION OF PURCHASER.) The purchaser of any bonds issued under this Act shall not be obliged to see to the application of the purchase price thereof but shall be protected fully in paying for such bonds by the receipt of the industrial commission or of its agent delivering such bonds as herein provided.

SECTION 11. LIMITATION OF ACTION.) No action shall be brought or maintained in any court in this state questioning the validity of any bonds issued under this Act unless such action shall have been commenced within sixty days after the adoption of the resolution of the industrial commission awarding the sale of such bonds.

SECTION 12. IRREPEALABLE.) All appropriations and transfers provided to pay bonds issued under the provisions of this Act and interest thereon shall not be repealed until such bonds and interest are fully paid.

SECTION 13. APPROPRIATION.) There is hereby appropriated out of any monies in the general fund in the state treasury, not otherwise appropriated, the sum of \$4,500,000.00, or such lesser amount as may be necessary for transfer upon order of the director of accounts and purchases to the Vietnam veterans' bonus adjusted compensation fund during the biennium beginning July 1, 1971, and ending June 30, 1973, for use in making bonus payments to Vietnam veterans as provided by law.

SECTION 14. APPROPRIATION FOR FUTURE BIENNIUMS — INTENT OF APPROPRIATION.) There is hereby appropriated out of any monies in the general fund in the state treasury, not otherwise appropriated, the sum of \$3,800,000.00, or so much thereof as may be necessary, for transfer upon order of the director of the department of accounts and purchases to the sinking fund for the payment of Vietnam veterans' bonus bonds during the biennium beginning July 1, 1973, and ending June 30, 1975, and a like amount, or so much thereof as may be necessary, is hereby appropriated during each biennial period beginning after June 30, 1975, to be transferred upon order of the director of the department of accounts and purchases to the sinking fund for the payment of Vietnam veterans' bonus bonds. Such transfers shall be discontinued by the director of the department of accounts and purchases at such time as he shall determine, in consultation with the industrial commission, that sufficient funds are available in the sinking fund for the payment of Vietnam veterans' bonus bonds to retire all bonds outstanding with interest thereon.

It is the intent of the legislative assembly that the amounts appropriated and transferred by this section shall represent the current proceeds of the two cents per-package cigarette tax and the eight cents per-gallon beer tax that was levied for repayment of bonds issued for bonus payments to veterans of the Korean Conflict, which tax was not discontinued following the repayment of such bonds.

SECTION 15. APPROPRIATION TO INDUSTRIAL COMMISSION.) REP. MIEDEMA, Chairman

Rep. Strinden moved that the House stand recessed for one and one-half hours, which motion prevailed.

The House reconvened with Speaker Bier presiding.

MOTION

Rep. Solberg moved that the following remarks of Rep. Giffey be printed in the Journal, which motion prevailed.

Rep. Giffey: "Mr. Speaker:

"House Republican Majority Leader Streibel and his assistant, Representative Strinden, have objected to statements made in an editorial that appeared in the March, 1971 Rural Electric Cooperative magazine and to the magazine's policy of publishing voting records.

"The two Republican leaders maintained they had not made the consideration of the REC's Consumer Power District Bill No. 1377 a political issue, although Representative Strinden admitted he was responsible for having placed on all Republican House member's desks, a few minutes before consideration of the committee report to indefinitely postpone the bill, the following memorandum:

"ATTENTION ALL REPUBLICAN HOUSE MEMBERS

HOUSE BILL No. 1377

ON THE 5th ORDER

Moved by the Committee on Business, Industry and Labor for indefinite postponement by a vote of 9 - 6. Although this bill has crossed political lines to an extent, the Republican leadership anticipates a solid Democrat vote against the Committee recommendation for indefinite postponement. House bill No. 1377 is a far reaching proposal that could lead to a state power system. The leadership urges support for an indefinite postponement!

"I submit to the members of this House that the very language used in the above memorandum does at least attempt to place the consideration of House Bill No. 1377 along party lines and not on the merits of the bill. The final vote on the committee report certainly indicates that this attempt was quite successful, as only four Republican House members chose to not follow their leader's request, and voted for the bill. The other 54 members of the Republican majority voted to indefinitely postpone the bill, along with 5 members of the Democratic party.

"House Bill No. 1377 was a bill to allow people to form consumer power districts if they wished. Upon formation of a power district, the district would become a political entity and would have power to issue revenue bonds for funding of generation plants and transmission lines. The low interest Federal funding has been declining and is not expected to meet the financial needs for power development in the near future. The consumer power district revenue bonds would be the next cheapest funding and we should prepare for it now. It takes about seven years to plan, design, and construct a power generation plant. Also, the power needs double about every seven years, so the need is here.

"I was disappointed and surprised to hear the two Republican floor leaders say they objected to the R.E.C. magazine publishing editorials and voting records of legislators I feel the R.E.C.'s have just as much right to editorialize and publish voting records as any other paper or publication. If the patron members feel the

leadership of the R.E.C. is not reflecting the views of the majority of the patrons, then it is the patron's duty to go to their annual meetings and elect new directors.

"It is obvious to me that most of the Republican House members and the Republican party feel they have an obligation to the investor owned utilities and they recognized their obligation in defeating the Consumer Power District bill."

MOTION

Rep. Gerl:

"Mr. Speaker: This session several pieces of so-called labor legislation were introduced. In looking up the meaning of the word 'labor' in Rep. Hentges' dictionary, I found two definitions that fit the situation. One is 'to work for wages,' and the other is the 'physical effort of child birth.' Perhaps it is needless to say that the preg-

nant ideas regarding labor legislation had an abortion performed on them. But this labor legislation was introduced for the purpose of effecting some social economic change for the working men and women in the state. The wage structure and working conditions of many North Dakotans are deplorable. This is true in much of the private sector as well as the public.

"Now I'm not going to expound on the virtue of labor. But why do so many in this Assembly fear labor and labor unions? Is it because of the big headlines given to people like the Dave Becks and unlawful strikes? I heard it so often in committee — some would quote verbatim certain headlines such as 'Cops on Strike,' 'Claim Blue Flu' or 'Teachers Strike in Chicago — 16,000 Children Out of School.'

"These are facts and they were reported as such, but too many people say 'All I know is what I read in the paper.' Well, there is a lot more to knowledge than just what we read in the paper.

"I hope that when most of you return to this Assembly in 1973, you will have made a small objective study in the labor area. And, when you read a paper or listen to the news where some union activity is involved, please look and listen objectively.

"When labor laws are concerned, North Dakota is in the Dark Ages. We have all but gone on witch hunts. I think that all of us are cognizant of the fact that some change is needed in our labor laws. Yesterday we heard some good advice from the majority floor leader when he used phrases such as 'government that is responsive to the needs of the people' and 'government must change where change is required.'

"I submit to you that if these needs are not met and our restrictive laws are not changed, we will continue to lose our most valuable assets — not wheat, lignite or electrical power — but our youth, who were educated and trained in North Dakota.

"Mr. Speaker and members of this Assembly, I wish to express my thanks for the friendship that all of you have extended to me. I only wish that it would have also extended to some of my bills."

Rep. Streibel moved that the House stand recessed for one hour, which motion prevailed.

The House reconvened, pursuant to recess taken, with Speaker Bier presiding.

POINT OF PERSONAL PRIVILEGE

Rep. Knudson: "Mr. Speaker:

"This afternoon, after the first vote on House Bill No. 1517, I was on my feet to make a few remarks before moving the clincher motion, but Rep. Kingsbury rose and moved the clincher before I had the opportunity.

"I carried this bill for the benefit of the teachers of North Dakota, not necessarily for the organization which represents them. I am not a teacher any longer myself. I have been in the profession, and in several different phases of it. I have been a teacher, an admini-

strator and a taxpayer. I think it is time teachers should be treated like white folks. This is why I introduced and worked for House Bill No. 1517 this session, and the professional negotiation bill last session.

"I agree wholeheartedly with a great many of the remarks made by Rep. Halcrow this afternoon about the organization that represents the teachers of North Dakota. It makes me unhappy to introduce bills with high numbers. Many of you have often heard me make unpleasant remarks about high-numbered bills being introduced on the last day that bills can be introduced. This year I was given three bills on the last day for bill introduction, House Bills Nos. 1485, 1501 and 1517. I do not approve of this nor do I feel this is good lobbying. On behalf of the teachers of North Dakota, I express my thanks to you for passing this bill."

MESSAGE FROM THE SENATE

Senate Chamber
Bismarck, March 16, 1971

Mr. Speaker: I have the honor to return:

House Bill No. 1331

Which the Senate has passed unchanged.

LEO LEIDHOLM, Secretary

MESSAGE TO THE HOUSE

Senate Chamber
Bismarck, March 16, 1971

Mr. Speaker: I have the honor to return:
House Bill No. 1177
Which the Senate has amended.

LEO LEIDHOLM, Secretary

PROPOSED AMENDMENTS TO HOUSE BILL No. 1177

Delete everything after the words "A BILL" and insert in lieu thereof the following:

"for an Act to amend and reenact section 57-58-01 of the North Dakota Century Code, relating to distribution of personal property tax replacement funds to counties and political subdivisions.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT.) Section 57-58-01 of the 1969 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

57-58-01. DISTRIBUTION TO COUNTIES AND LOCAL SUBDIVISIONS.) 1. It is hereby provided that any political subdivision which has an existing bonded indebtedness for which a tax levy must be made in 1970 or any year thereafter, shall reduce its levy in each such year for current operating purposes by the amount which its tax levy on taxable property in that year for retirement of the bonded indebtedness is increased because of the exemption of personal property by subsection 25 of section 57-02-08. On or before ((March 15)) **February 1, 1971**, the county auditor of each county shall certify to the state tax commissioner the total amount of taxes levied in the year 1968 for the state, county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes, and levies voted by the people, new or present levies increased by legislative action of such county on those items of personal property exempt under the provisions of section 57-02-08, and, in addition, the total valuation of real estate and taxes levied on real estate for the year 1968. On or before ((May)) **March 1, 1971** and each year thereafter the state tax commissioner shall certify for payment to the state treasurer **and the department of accounts and purchases** an amount for payment by the state treasurer to each county equal to fifty percent of the amount determined to be due such county based upon the personal property taxes levied in the year 1968 for the political subdivisions herein mentioned on the items of personal property exempt from the personal property tax under the provisions of section 57-02-08, the per capita school tax under the provisions of section 57-15-23, and the grain tax under the provisions of chapter 57-03, together with any adjustments to be made according to the manner hereinafter provided. The remaining fifty percent due each county shall be paid on or before ((June)) **May 1, 1971**, and each year thereafter. Within ((sixty)) **fifteen** days after the receipt of the revenue as provided by this section, the county treasurer shall allocate and remit to the county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes that amount of revenue which is received from the state in the same ratio as he would have distributed the revenue from the personal property tax, adjusting such amount by any increase or decrease in real property taxes as levied by each taxing authority according to the formula hereinafter provided. Any amount that would be apportioned and credited to the retirement of a bonded indebtedness existing in 1970 for which a tax levy was made in 1970 and in any year thereafter, shall be credited to the general fund of the political subdivision. ((In the years after 1971, payments to the counties under this section shall

be made based upon such payment for 1971 together with a growth factor which shall be based upon the dollar amount of increase or decrease in real property taxes levied within each county. For each four-dollar increase in real property taxation within a county, the state shall contribute an additional one dollar over that amount which was remitted in the base year. For each four-dollar decrease in real property taxation within a county, the state shall contribute one dollar less than that amount which was remitted in the base year.))

2. It is the intent of the legislative assembly to provide in the years after 1971 personal property tax replacement funds out of the state treasury for a county and the political subdivisions in it an annual amount that will be substantially the same as would have been levied in the county for the per capita school tax and grain tax and on locally assessed personal property in the county if the personal property tax repeal and revenue replacement act of 1969 had not been enacted, provided, however, that such annual amount shall not be less for any county and the political subdivisions in it, except under the conditions set out in subsection 3 of this section, then was distributed for that county and the political subdivisions in it in 1971.

The legislative assembly hereby finds that the amount of all ad valorem property taxes that would have been levied in 1970 and each year thereafter on locally assessed personal property in any county would have increased or decreased from the preceding year at approximately the average annual rate that it increased or decreased in that county during the ten year period of 1960 through 1969.

The legislative assembly further finds that the average annual rate of increase or decrease in all ad valorem taxes levied on annually rate of increase or decrease in all ad valorem taxes levied on locally assessed personal property in each county during the 1960-1969 period is as shown in the following schedule:

It is hereby provided that the amount to be distributed out of the state treasury in 1972 for each county, and the political subdivisions in it, for which a percentage increase is shown in the preceding schedule shall be one hundred two and one-quarter percent of the sum of the following:

- a. The total amount paid out of the state treasury in 1971 to that county for per capita school taxes, grain taxes and ad valorem taxes on locally assessed personal property that were levied in that county by all political subdivisions in 1968, as adjusted, if necessary, pursuant to subsection 3 of this section; and
- b. An amount that is computed by multiplying the total amount specified in subdivision a of this subsection by three times the percentage increase shown in the above schedule for that county.

It is further provided that the amount to be distributed out of the state treasury in 1972 for each county, and the political subdivisions in it, for which a percentage decrease is shown in the preceding schedule shall be one hundred two and one-quarter percent of the amount distributed for that county and the political subdivisions in it in 1971 as adjusted, if necessary, pursuant to subsection 3 of this section.

The amount to be paid to a county in 1973 and in each year thereafter shall be computed in the same way as the amount paid to it in 1972 except that for any county for which a percentage increase is shown in the above schedule the percentage shown for that county shall be multiplied by four for the year 1973, by five for the year 1974, and so forth.

Upon receipt of a payment from the state treasurer, the county treasurer shall within fifteen days allocate and distribute it as follows: the amount received for replacement of the per capita school tax shall be credited to the county equalization fund for distribution as provided in section 15-40-02; the amount received for replacement of the grain tax and ad valorem personal property taxes shall be allocated and distributed to each political subdivision in the county, including the county, in the proportion that taxes levied on real estate in the county by each such political subdivision in the

preceding year bears to the total taxes levied on real estate in the county by all political subdivisions in that year.

The annual amount allocated and distributed by the county treasurer to each political subdivision for replacement of grain taxes and ad valorem personal property taxes shall be allocated to the various funds of the political subdivision in the ratio that the real estate taxes levied by the political subdivision in the preceding year for each such fund bears to the total of all real estate taxes levied in the preceding year by the political subdivision for all funds, except that the amount of replacement revenue received by the political subdivision for retirement of a bonded indebtedness shall be credited to the general fund of the political subdivision.

3. On or before ((May)) March 1, 1971, and each year thereafter, the state tax commissioner shall certify to the state treasurer and the department of accounts and purchases the amount determined to be due to the state based upon the personal property taxes levied in the year 1968 for the North Dakota state medical center. In the years after 1971 the amount so certified shall be computed in accordance with the formula provided in this section for computing the amounts to be certified and paid to the counties. The state treasurer upon receiving the certification from the tax commissioner shall transfer from the general fund to the credit of the North Dakota state medical center the amount so certified."

POINT OF PERSONAL PRIVILEGE

Rep. Boustead: "Mr. Speaker:

"I rise on a point of personal privilege and request that my remarks be printed in the Journal.

"The past six weeks from time to time we have heard much about the Heritage Commission Foundation and proposed buildings. In view of this discussion, and perhaps due to some of the disappointments I would like to urge that the Heritage Commission again review the legislation that was commenced in 1965 establishing the concept and idea of a Heritage Center Foundation. It was thought at that time — and I know many of you in this Assembly will recall — that it was the intent of the Legislative Body that these funds necessary to construct a Heritage Foundation be raised through finance or a fund-raising campaign.

"We presently have in the bank \$1,142. I do not know from where it came, but I am happy to know we have a little seed, and I would like to ask at this time that the Heritage Commission put forth some effort to organize a statewide fund-raising campaign and inform the populace of the State of North Dakota what our objectives are, and then get down to being dead serious about raising some money. Should we then come up short, that is the time to come to this body for some help."

Rep. Streibel requested the unanimous consent of the House to withdraw House Bill No. 1547. There being no objection, the request was granted by the Speaker. House Bill No. 1547 was withdrawn.

REPORT OF CONFERENCE COMMITTEE

Mr. Speaker: Your Conference Committee to whom was referred House Bill No. 1492 has had the same under consideration and recommends that the Senate recede from its amendments and that House Bill No. 1492 be amended as follows:

Delete everything after the words "A BILL" and insert in lieu thereof the following: "for an Act to provide and appropriate funds for the payment of adjusted compensation payments to North Dakota veterans of the Vietnam conflict and to the industrial commission for the issuance of bonds; providing for the issuance, sale, and delivery of general obligation bonds; creating a sinking fund; and providing for a surtax and fund transfers for the servicing and retirement of such bonds; and declaring an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DESIGNATION OF BONDS.) Bonds to be issued under the provisions of this Act shall be known as state of North Dakota general obligation bonds, Vietnam conflict adjusted compensation series.

SECTION 2. AUTHORITY FOR ISSUING BONDS OF NORTH DAKOTA VIETNAM CONFLICT ADJUSTED COMPENSATION SERIES — PURPOSE OF ISSUE.) An issue of not to exceed fifteen million dollars general obligation bonds of the state of North Dakota is hereby authorized and directed under the conditions, in the manner, and for the purpose stated in the amendment to the Constitution of North Dakota, adopted by the forty-first legislative assembly of the state of North Dakota as Senate Concurrent Resolution No. 17 and approved by the people at the primary election held in September 1970, and the generally applicable provisions of the Constitution and the statutes of the state of North Dakota. The preparation, handling, issuance, sale, and delivery of such issue of bonds shall be under the supervision and control of the industrial commission of North Dakota, which commission is hereby authorized and directed to negotiate a satisfactory sale of such issue of bonds as soon after the effective date of this Act as may be necessary to provide funds for the payment of adjusted compensation to veterans of the Vietnam conflict. Such issue of bonds is authorized for the purpose of providing funds to be used in payment of adjusted compensation to North Dakota veterans of the Vietnam conflict and the administrative expenses resulting therefrom and such funds are hereby appropriated for such purpose.

SECTION 3. PREPARATION OF BONDS.) Bonds issued under this Act shall be executed by the governor and by the state treasurer under the great seal of the state of North Dakota and shall be attested by the secretary of state. The state auditor and secretary of state shall endorse and sign, on each bond issued, a certificate showing that such bond is issued pursuant to law and is within the state debt limit. The manner and form of execution shall be determined by the industrial commission. The issue of bonds under this Act shall be of serial maturities, and the industrial commission shall fix the maximum rate of interest they shall bear. The first installment of principal of bonds sold at any one time shall fall due not more than two years from the date of the bonds, and the last installment shall fall due not more than fifteen years after the date of first issue. Annual installments of principal shall be such that the increase thereof from year to year approximately shall equal the decrease from year to year of the amount of interest on unpaid bonds, so that the aggregate of principal and interest shall be approximately equal year by year. All bonds issued under this Act shall be in denominations of not more than ten thousand dollars each and shall be fully negotiable with semiannual interest coupons attached, except that the first interest payment shall be one year from and after the date of issuance of the bonds. Bonds issued under this Act from

and after the year 1972 until the year 1981, inclusive, shall not be callable prior to maturity. Bonds issued under this Act from and after the year 1982 may be called prior to maturity, in inverse numerical order. All bonds issued under this Act shall contain a provision that interest thereon shall cease at maturity unless the holder thereof shall present the same for payment and payment is refused. The principal and interest of bonds issued under this Act shall be payable at the office of the state treasurer in Bismarck, North Dakota, or at the Bank of North Dakota, or at a bank or trust company in the city of Chicago or New York, as the industrial commission may determine.

SECTION 4. SALE AND DELIVERY OF BONDS BY INDUSTRIAL COMMISSION — DEPOSIT OF PROCEEDS.) The industrial commission shall act as agent of the state for the negotiation, sale, and delivery of all bonds issued under this Act. Such bonds shall be sold in whole or in part from time to time for cash at not less than par and accrued interest to the best advantage of the state. In offering such bonds for sale, the industrial commission shall reserve the right to reject any or all bids therefor. Purchasers and holders of such bonds may have ownership registered in the office of the state treasurer. All of the proceeds of such bonds shall be received by the industrial commission and by it placed in a separate fund in the state treasury in the custody of the state treasurer to be used only for the purpose for which such bonds are issued.

SECTION 5. BONDS TAX EXEMPT.) All bonds issued under the provisions of this Act and interest thereon shall be exempt from all state, county, and municipal taxes.

SECTION 6. BONDS A GENERAL OBLIGATION OF STATE OF NORTH DAKOTA.) Upon receipt of payment therefor, the industrial commission shall deliver to each purchaser of bonds issued under this Act, the bonds purchased by him, and upon the delivery of such bonds the full faith and credit and unlimited taxing resources of the state of North Dakota shall stand pledged for the punctual payment of each and all of such bonds and the interest thereon to the lawful holder and owner thereof as the same become due and are presented for payment.

SECTION 7. SURTAX ON INCOME.) An additional tax, or surtax, is hereby imposed on the income of every individual, estate, trust, and corporation that is required to file an income tax return pursuant to the provisions of chapter 57-38. This surtax shall be placed on the state income tax return as a separate line item entitled "Vietnam bonus surtax", shall be paid annually by each such taxpayer, and shall be computed as follows:

1. For an individual, estate, or trust the tax shall be computed at the rate of one percent of the taxable income of such individual, estate, or trust as determined pursuant to the provisions of chapter 57-38, but shall not be less than two dollars and fifty cents nor more than twelve dollars and fifty cents.
2. For a corporation the tax shall be computed at the rate of one percent of the taxable income of the corporation as determined pursuant to the provisions of chapter 57-38, provided that the amount of tax shall not be less than ten dollars nor more than twenty-five dollars.

For purposes of administering the provisions of this section, the provisions of chapter 57-38, pertaining to the administration of income tax, including but not limited to the withholding of income taxes, the payment of income taxes and interest and penalties thereon, refunds, attachment of liens for failure to pay such taxes and interest and penalties thereon, and civil and criminal penalties for failure to comply with the provisions of chapter 57-38, shall

govern the administration of the surtax levied in this section. All of the proceeds of this surtax, including penalties and interest thereon, collected and received by the tax commissioner shall be paid by him into the sinking fund established for the payment of bonds issued under this Act. When the director of the department of accounts and purchases shall determine, in consultation with the industrial commission, that sufficient funds are available in the sinking fund for the payment of Vietnam veterans' bonus bonds to retire all bonds outstanding with interest thereon, he shall certify the same to the tax commissioner, whereupon the surtax imposed by this section shall terminate and the last taxable year of each taxpayer that ends before such certification shall be the last taxable year for which the tax shall be imposed on and collected from such taxpayer.

The provisions of this section shall be effective for all taxable years beginning on or after January 1, 1972.

SECTION 8. SINKING FUND.) The sinking fund for the payment of bonds issued under this Act and interest thereon shall be established and maintained in the office of the state treasurer who shall be custodian of such fund and shall at all times maintain adequate records thereof. The state treasurer shall make reports of the condition of such sinking fund to the industrial commission on request. All taxes levied and all sums appropriated and transferred for the payment of bonds issued under this Act shall be deposited in the sinking fund therefor and shall be disbursed by the state treasurer in payment of such bonds and interest thereon directly or through a paying agent to be designated by the industrial commission. On request of the industrial commission, the state treasurer shall supply any deficiency of such sinking fund out of any available monies of the state in his custody, provided that all monies so used shall be returned at the earliest practicable opportunity.

SECTION 9. TRANSFER OF BALANCE.) Upon the retirement of all bonds provided for in this Act, together with the interest thereon, any balance remaining in the sinking fund shall be transferred by the treasurer to the general fund.

SECTION 10. INVESTMENT OF SINKING FUND.) Monies in the sinking fund for bonds issued under this Act shall be deposited in the Bank of North Dakota. The Bank of North Dakota shall pay interest thereon as directed by the industrial commission, which interest shall be credited to the sinking fund and shall be used for the payment of the principal of the bonds or interest thereon.

SECTION 11. PROTECTION OF PURCHASER.) The purchaser of any bonds issued under this Act shall not be obliged to see to the application of the purchase price thereof but shall be protected fully in paying for such bonds by the receipt of the industrial commission or of its agent delivering such bonds as herein provided.

SECTION 12. LIMITATION OF ACTION.) No action shall be brought or maintained in any court in this state questioning the validity of any bonds issued under this Act, or of any tax levied under this Act, unless such action shall have been commenced within sixty days after the adoption of the resolution of the industrial commission awarding the sale of such bonds.

MESSAGE TO THE SENATE

House Chamber

Bismarck, March 16, 1971

Mr. President: I have the honor to inform you that the House has adopted the conference committee report on:

House Bill No. 1492

Very respectfully,
ROY GILBREATH, Chief Clerk

REPORT OF CONFERENCE COMMITTEE

Mr. Speaker: Your Majority of Conference Committee to whom was referred Senate Bill No. 2509 has had the same under consideration and recommends that the House recede from its amendments and that Senate Bill No. 2509 be amended as follows:

Delete everything after the words "A BILL" and insert in lieu thereof the following: "for an Act directing the legislative council to prepare a redistricting plan for the legislative assembly and for legislative intent.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. LEGISLATIVE INTENT.)

WHEREAS, recent decisions of the North Dakota supreme court, the United States supreme court, and the federal district court for the North Dakota district have clearly espoused the principle that representatives of the people elected to state legislature must be elected on the "one man - one vote" principle so that as nearly as practicable, the vote of each elector is equal in weight to the vote of each other elector; and

WHEREAS, the forty-second legislative assembly has strived diligently to adopt a plan which would redistrict the state of North

Dakota into legislative districts that would meet guidelines established by the courts, but has found the task to be impossible in the time available; and

WHEREAS, the forty-second legislative assembly is aware of the provisions of section 35 of the Constitution of this state which would require that in the event any legislative assembly shall fail to redistrict itself at the session following any federal decennial census, the same shall be performed by a board consisting of certain officials of the state and of the house of representatives; and

WHEREAS, this section has been declared unconstitutional by the federal district court for the North Dakota district in Paulson v. Meier, 232 Federal Supplement 183, and it appears that the North Dakota supreme court, in the recent case of Stockman v. Anderson has supported this ruling by finding that since the people voted on the amendments to section 35 of the North Dakota Constitution, among other sections, as a "package", the entire contents of this section were declared unconstitutional by the federal district court and are null and void and of no force and effect; and

WHEREAS, it is therefore clear to the forty-second legislative assembly that the portion of section 35 of the North Dakota Constitution requiring redistricting by a board consisting of officials of the state and of the house of representatives is rendered inoperative, ineffectual, and unconstitutional, and such board cannot be required or permitted to redistrict the state into legislative districts, nor is it the intent of the legislative assembly and the people of this state that the board perform such redistricting; and

WHEREAS, it is imperative that the state be redistricted into legislative districts meeting constitutional requirements set by the North Dakota supreme court, the United States supreme court, and the federal district court for the North Dakota district.

SECTION 2. REDISTRICTING PLAN TO BE PREPARED BY LEGISLATIVE COUNCIL.) The legislative council is hereby directed to study and develop a plan for redistricting the legislative districts of the state, such plan to be developed in accordance with the "one man - one vote" principle and to be free from obvious constitutional deficiencies. The plan shall be presented to the forty-third legislative assembly, together with such legislation as may be necessary to enact such plan into law, and in the event any court shall assume jurisdiction for the purpose of legislative redistricting and reapportionment, the legislative council shall make such plan available to such court."

POINT OF PERSONAL PRIVILEGE

Rep. Mushik requested that her remarks as follows be printed in the Journal.

Rep. Mushik: "Mr. Speaker:

"I want to thank Rep. Boustead for reminding us of our committment to the youth and future generations of our state.

"Our past history is the legacy we receive from the generations who have preceded us. How well we preserve that heritage will determine the future of our free society. Indeed, the future of the free world may well be determined by our respect and understanding of the great free ideals our ancestors fought and labored to achieve.

"A heritage center is a living monument where we can visibly preserve and interpret the momentoes of the past which our pioneers used to help build our free society.

"We North Dakotans have a wonderful heritage — one in which we can truly take pride. Many of us are second and third generation North Dakotans and would like to preserve those records and mementoes of our pioneer grandparents.

"I believe it is the legislature's responsibility to establish the building of a heritage center as a goal for our state. Further, it is up to us to take the first step in achieving this goal by providing some initial funding.

"It will encourage potential donors to our heritage center to know that the leaders of our state government have committed themselves and their dollars to preserve our history for future generations.

"In 1976 the United States celebrates its 200th Anniversary. We in North Dakota have five short years to match the national effort to celebrate our independence by building our own heritage center. It is a magnificent opportunity. If we have vision we will grasp it. We must act. We need a heritage center."
