In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

The costs involved in implementing this proposed legislation can only be estimated. The examination and approval of policy forms and rates appear to be the additional work-load necessary to implement the bill. This additional work-load would be absorbed as a regular duty of a casualty actuary were the department authorized such in the biennial appropriation. If no department actuary is available we can only estimate costs of a consulting actuary and additional personnel at \$10,000.00 to implement the bill.
