(List bill or resolution and number)

Requested by: Legislative Council Date of receipt: January 10, 1973

In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

The fiscal effect, insofar as the state of North Dakota is concerned, as a result of Senate Bill No. 2173 is impossible to estimate. It could only result in a dollar amount equal to 5% of unemployment compensation benefits paid to employees of North Dakota institutions of higher education and state owned hospitals, who have been covered only since January 1, 1972. Record of benefit payments to date is \$3,935.40 and 5% of that is \$196.77. Until a full years experience can be utilized it is futile to attempt to estimate. There would be no additional cost of administration by this agency, which is defrayed by federal funds.
