"I request that my brief remarks be printed in the Journal.

"For many years the people in our individual states have exercised their sovereignty and have enacted certain protective legislation in behalf of women. With the ratification of the proposed amendment, we would close the door on any state and the people therein wishing to exercise their sovereignty in passing protective legislation on behalf of women and would also nullify any protective legislation enacted up to date, throwing our women to the mercy of the courts. I do not believe that when our political parties cited equality in their platforms, they meant to destroy the rights of the people within the individual states from enacting protective legislation on behalf of a segment of society.

"I hope you see fit to protect the sovereign rights of our people and preserve their rights of self-determination in this matter by rejecting the report of the Minority."

RECOGNITION

Rep. Solberg announced that the Hon. Earl McKellar, member of the Manitoba Legislative Assembly, along with H. F. Howard, Superintendent of the International Peace Garden and Mr. MacMuir, a cousin of the Hon. Earl McKellar, were visiting the House today.

Rep. McKellar was escorted to the rostrum and Rep. Solberg moved that the following remarks of member of Legislative Assembly McKellar be printed in the Journal, which motion prevailed.

The Hon. Earl McKellar:

"Mr. Speaker, and Members of the House:

"It is indeed a pleasure to be back in North Dakota again. I was here four years ago, and Rep. Solberg introduced me then too. It is good to see my good friend Miss Haugland here, too, in the same seat she was in when we were here before. These two Representatives of yours are good friends of ours. I am also a member of the Executive Committee of the Peace Garden, and for that reason I am glad to be back in Bismarck to visit your city, and to say a few words to you on this.

"It was mentioned by Mr. Solberg that I am playing hookey. We opened our session last Thursday. Our rules are not the same; we begin our session on the day the Premier of our Province suggests, and quit when we decide to quit. I am now a member of the opposition after having been on the governing side for eleven years. In 1969 the people in the province of Manitoba decided to change that particular form of government, thus we have the New Democrats running our province at the present time. I am a Conservative, and we are second. The Liberals are third, and the Social Credit, the right wing conservatives, are fourth; we also have a couple of independent parties.

"We allow forty minute speeches, but I am pleased to learn that you allow only ten minute speeches. You can see how long it would take for fifty-seven members to get through talking.

"I congratulate you on your attendance here, and I am pleased to see that you have a large number of ladies in the House. Our women feel that even if they would run, they would not get elected, but you have proven that to be not true. I understand you have ten ladies in your House; we have one out of fifty-seven members, and she happens to be in my particular party. We have had only two ladies serving at any particular time, so the ladies are far out-numbered.

"Ladies and Gentlemen, I want to congratulate your House for your support of the International Peace Gardens. I would like Mr. Howard to come forward and talk to you, but he does not care to, so I will take the privilege of thanking you for your assistance to the Peace Garden. I understand an important bill was passed yesterday. I don't know if it was in this body or in the Senate, but I do know both houses must act on it.

"We are most happy to have Mr. Solberg and Miss Haugland seated at our meetings because we do find out what is going on in the United States. Your problems are the same here as in our province. In the Senate this afternoon, they were talking about

getting rid of old cars, and here your discussion is on getting rid of garbage. Pollution is one of our greatest problems. Another is how to use our resources in the North American continent, whether it be in the United States or in Canada. The next ten years will decide how our resources will be dealt with. It will be very important for us as Legislators to make the right decisions. We are finding out now that our resources are not as plentiful as we thought, and we must be sure that our resources are dealt with in a manner to take care of the generations to come.

"Mr. Speaker, I want to thank you for the privilege of speaking here this afternoon, and I bring greetings from our Premier of the Province of Manitoba — I neglected to do this in the Senate — he is a member of the party of the far left. They are Liberals going in a hell of a hurry. I don't know if I am far right — I think I am like Miss Haugland, I am independent.

"I want to thank you for the privilege of saying these few words, and if any of you come to Winnipeg in the next ninety days, send word in to the chamber, and we will bring you into the chamber. Our rules do not allow you to speak, but we will give you a good time.

"Thanks again."

"I rise on a point of personal privilege.

"I am sure that by this time the majority of you have opened a letter on your desk sent to us by the N.D.E.A. It says, 'The galleries were packed with citizens Thursday, eager to watch the battle between the Christians and the lions.'

"I know for sure I am not a lion. I also know for sure only the God in the heavens knows who are the Christians.

"When the people use such innuendos, I wonder how and if they have the right to teach our children.

"This is the third time in the six sessions I have been here this kind of intimidation has been placed on my desk — two of these times it was placed there by the N.D.E.A. people. I believe this organization owes this body an apology, and I hope this never happens -again.

"Each time I have placed material or figures on your desks, I have signed it, and the figures show the source, including the department which provided the figures. This allows you to check the source and provides responsibility.

"When you take this print-out home, if you do, when you show it to your school board, you had better explain that you are not sure if these figures are accurate. If you don't, you may not be back here next session. These figures in many cases are not the dollars your school will get come next year.

"Until these are documented by the department, I am going to keep throwing them in the waste basket."

SECOND READING OF SENATE BILLS

Senate Bill No. 2392. A Bill for an Act to amend and reenact subsections 17, 25, 26, 27, and 28 of section 1, and subsections 17, 25, 26, 27, and 28 of section 3, as contained in House Bill No. 1042, as approved by the forty-third legislative assembly, relating to state legislative apportionment.

Which has been read.

POINT OF PERSONAL PRIVILEGE

Rep. Backes: "Mr. Speaker, Members of the Assembly:

"I rise on a point of personal privilege, and ask that my remarks be printed in the Journal.

"Mr. Speaker and Members of the Assembly, should the House adopt Senate Bill 2392, the majority party will have succeeded in carrying the protection of incumbent legislators to the extreme.

"Senate Bill 2392 is a blatant attempt to satisfy incumbent Senators from the 26th and 27th Districts who would have to oppose each other under provisions of House Bill No. 1042. To satisfy these two incumbent Senators and still maintain two incumbent House members in each district, the reapportionment map is amended to look like alphabet soup in the southeast part of the State. There is an L-shaped district, a T-shaped district, and a district that looks like the number seven.

"In all, five districts and eight counties are affected by Senate Bill No. 2392. The adverse affect of this gerrymandering is particularly visible in the proposed new District 27, where narrow strips of Dickey and McIntosh are included in a district with LaMoure and Logan Counties.

"Should Senate Bill No. 2392 receive approval by the Legislature, the majority party will have succeeded in devising a plan protecting all Republican Senators and all but one Republican House member. Surely the courts will take a dim view of this kind of gerrymandering.

"It should be noted that Senate Bill No. 2392 was introduced by the Senator from District 29, who is co-chairman of the Joint Reapportionment Committee, prior to final action on House Bill No. 1042. This indicates to me that every effort was made to stave off criticism and line up support for passage of House Bill No. 1042, the main reapportionment plan.

"In conclusion, I submit that Senate Bill No. 2392 further gerrymanders a reapportionment plan that is already drawn for the exclusive benefit of the Republican Party."

POINT OF PERSONAL PRIVILEGE

Rep. Rice moved that the following remarks of Rep. Reimers be printed in the Journal, which motion prevailed.

Rep. Reimers: "Mr. Speaker and Members of the Assembly:

"I rise on a point of personal privilege on this last question.

"I did not vote for this question because I don't support the rural electric people in their efforts to take care of the rural community. I voted against it because they put this in apparently for only one reason — on the last page in line six, 'BE IT FURTHER RESOLVED that the Legislative Assembly pledge its continued support of the rural electric and rural telephone programs.'

"We pledge our support, but one of the things that we seem to have missed over the years, and particularly in this effort, is when you give something to somebody long enough — for years and years and years — they now think when you take it away from them, you are taking away something they are entitled to, and so it is with the rural electric cooperatives and their 2% interest rate.

"Now the government would like to charge them 5%, and because somebody supports that effort, we are the bad guys. I don't think that is the case at all. I think the United States Government saw the need to take care of the rural areas with electric power and telephone, and they did that. They did it very well. I don't know

a single solitary soul in this Assembly who did not support that effort and still does now. If there is a reason why they should get something for nothing forever to help the program, I don't know what it is.

"I definitely dislike having these things placed before the Legislature for political reasons. These are good programs. I don't quarrel with them, but it bothers me to think that you can expect something forever simply because you have gotten it for twenty years.

"I apologize for taking so much time, but this thing doesn't seem necessary to be acted on by this Legislature."

POINT OF PERSONAL PRIVILEGE

Rep. Strinden:

"Mr. Speaker, Members of the Assembly:

"I rise on a point of personal privilege.

"I am sorry the motion to end debate was made and passed. I had my light on for quite some time to speak in support of the motion to reconsider the action by which Senate Bill No. 2394 was lost. When I spoke earlier about this matter, I mentioned that of the three bills that were presented to the Joint Committee after we passed our Reapportionment Plan, this one had the most merit. It did not in any way change the situation, whether by Republicans or Democrats. It did not in any way change the boundaries to protect incumbents, and in honesty with the Representatives from this area who wanted this matter before the Assembly, they are as much entitled to do this as the people who had their interest in Senate Bill No. 2392. It is very unfortunate that we ended the debate."

SIXTH ORDER OF BUSINESS

Rep. Erickson has moved that the amendments to Senate Bill No. 2026 as recommended by the Committee on Education as printed on pages 1069 and 1070 of the House Journal be adopted.

Rep. Streibel requested that the following remarks be printed in the Journal:

Rep. Streibel:

"Allow me to set the record straight and I ask that this portion of my remarks be entered in the Journal. On February 28th, Senator Litten criticized me and I quote, 'It is interesting to note that Rep. Streibel, at a Republican meeting held in Bismarck last year, told the candidates they could run on a platform of property tax relief.'

"It is also noteworthy that he participated in many of the committee deliberations and, as Chairman of the Legislative Council,

enthusiastically endorsed the concept of the Senate plan at the Council meeting last November at Camp Grafton.' Unquote.

"My speech note files contain no mention, I repeat no reference whatsoever, with regard to property tax relief. I did give the legislative candidates the assurance that they could run on the plank of no new taxes and in all probability if revenue projections held and our economy remained healthy we could perhaps be in a position to offer tax relief. I did not specify the area of relief. It is amusing to note that Senator Litten wasn't even present to hear my talk, yet he can quote from it.

"Now let's review my so-called enthusiastic support of Senate Bill No. 2026 at Camp Grafton, and I repeat from Senator Litten, quote, 'It is also noteworthy that he participated in many of the committee deliberations and, as Chairman of the Legislative Council, enthusiastically endorsed the concept of the Senate plan at the Council meeting last November at Camp Grafton.'

"Here is a quote I gave in an interview by Fraser Sorlie of the Bismarck Tribune datelined Camp Grafton, November 14, 1972, and I quote from it. 'Rest assured,' Streibel told the Council, 'that if this bill passes the Legislature, it won't be the same bill.' I will now read from another interview by Phil Mathews, datelined Camp Grafton, November 14, 1972, and I quote from it. 'Council Chairman Bryce Streibel said the new school aid plan was in the formulative stages and likely would be changed considerably before enacted.' Unquote.

"Members of this Assembly, is there one of you that construes this to be an enthusiastic endorsement? If there is would you please rise and give that indication to this body. Is there one of you? Senator Litten's remarks and so-called quotes are despicable and do not lend anything to the legislative process."

Rep. A. Hausauer suggested that the question of the adoption of the amendments to Senate Bill No. 2026 be divided.

Rep. Strinden suggested that the question be divided on Senate Bill No. 2026 as follows:

E.

On page 4, line 35 of the re-engrossed bill, following the period insert the following, "Payments shall be made to the high school district in which the student is enrolled for graduation and units of approved vocational education in accordance with the provisions of chapter 15-20.1, and other courses approved by the Superintendent of Public Instruction, earned in another high school district shall be included to meet the minimum four required units. 2. The detailed conditions and provisions for certification shall be prescribed by rules of the personnel department.
3. If the appropriate lists do not contain the names of a sufficient number of eligibles willing to accept appointment to make possible the certification provided for in this section, the names of all eligibles on such lists who are willing to accept appointment shall be certified.

SECTION 40. REMOVAL OF ELIGIBLES FROM LIST.) The names of persons who have been certified for appointments three times to the same appointing authority and who have not received appointment, and the names of persons who have expressed unwillingness to accept appointment may, at the discretion of the administrator, be removed from a list.

SECTION 41. PROVISIONAL APPOINTMENTS.) If there is no appropriate list available, the administrator may authorize the provisional appointment of a person meeting at least the minimum prerequisites for the class to which the position is allocated.

SECTION 42. TEMPORARY APPOINTMENTS.) All employees, officers and other personnel not otherwise exempt by law, who, prior to the effective date of this Act, have served continuously for a period of six months or more, or as regular seasonal employees have satisfactorily served in such positions through one seasonal service period, shall be certified to comparable positions, and grades and classifications, under the personnel system, and shall not be subject to trial service periods of employment.

3. At such times during the trial service period and in such manner as the administrator may require, the appointing authority shall report to the administrator his observation of the employee's work, and judgment as to the employee's willingness and ability to perform his duties satisfactorily, and as to his habits and dependability.

MESSAGE TO THE SENATE
House Chamber

Mr. President: I have the honor to return:
House Bill No. 1429
Which the Senate has requested.

ROY GILBREATH, Chief Clerk

POINT OF PERSONAL PRIVILEGE

Rep. Stone: "Mr. Speaker:

"I rise on a point of personal privilege on the last bill we passed, Senate Bill No. 2007, with the Highway Patrol part of it.

"It brings to mind a very important part of this government of ours. I notice we have given an appropriation for two patrolmen

when four were asked for, for examination of service for public safety. I am concerned, and I am sure everyone of us is concerned about the accidents on our highways, but I think we inadvertently have built in to our practice and policy — not in our statutes — a way which almost makes it impossible for us to add to our number of highway patrolmen.

"I have been over to the Highway Department and I have been down to see Ralph Wood, and I am concerned about this. It is the logical way for us to decrease the accidents on our highways, and we are not even up to the level of patrolmen that we had in 1959. We added patrolmen then, but we provided a five day service — each patrolman serving only five days. Thus we have reduced the number of patrolmen on the highways, and have needed to add to their number since. This is not the fault of our appropriations committee. At one time this was funded from the license fees collected and general fund, but when the general fund was low they saw fit to take it from the highway funds, so now when we want to enlarge our highway patrol service, there is a built-in group fighting that appropriation, and that is naturally the highway department.

"I believe that somewhere along the line we should look into this, and determine how we can improve it.

"Thank you."

POINT OF PERSONAL PRIVILEGE

"I rise on a point of personal privilege.

"Rep. Dornacker was playing with \$500,000 a little bit ago, and it probably needs some explanation and it probably has to do with Senate Bill No. 2026.

"Some years ago we passed a personal property tax repeal on a formula. We got in so much trouble the next session back

here, we had to change the formula for pay back, as we could not possibly make the payment. Now we find we are still \$500,000 short.

"When we do pass gyration legislation like we are talking about, it might be a lot worse than \$500,000."

REPORTS OF STANDING COMMITTEES

Mr. Speaker: Your Committee on Finance and Taxation to whom was referred Senate Bill No. 2125 has had the same under consideration and recommends that the same be amended as follows:

On page 1, line 1 delete everything after "A BILL" and insert in lieu thereof the following:

"for an Act to provide a real property tax exemption for improvements to commercial buildings and structures.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DECLARATION AND FINDING OF PUBLIC PURPOSE.) The legislative assembly hereby declares and finds that the present method of assessment and taxation of real property discourages the investment of private capital in the rehabilitation and remodeling of commercial buildings and structures with the result that such properties have been allowed by their owners to decay, become in need of repair, modernization, and replacement, and that such conditions have resulted in a decreased tax base. The legislative assembly further finds that it is in the public interest and for the welfare of the state of North Dakota, its political subdivisions, and its citizens to encourage the investment of private capital in improvements to commercial buildings and structures, thereby encouraging the production of wealth, improving the volume of employment, and preserving and increasing the property tax base. It is the intent of the legislative assembly that the exemptions from taxation provided for in this Act provide an alternative to the property tax exemptions provided for in chapters 40-57 and 40-57.1.

SECTION 2. IMPROVEMENT DEFINED.) In this Act, unless the context or subject matter otherwise requires, the term "improvement" means the renovation, remodeling, or alteration, but not the replacement, of an existing building or structure for use for commercial purposes, and use for commercial purposes shall not include use for residential purposes. An addition constructed to an existing building or structure to enlarge it shall not be regarded as an improvement for the purposes of this Act.

SECTION 3. TAX EXEMPTION FOR IMPROVEMENTS TO COMMERCIAL BUILDINGS AND STRUCTURES — PROPERTY OWNER'S CERTIFICATE.) Improvements to commercial buildings and structures as defined in this Act may be exempt from assessment and taxation for three years from the date of commencement of making the improvements. The exemption provided by this Act shall apply only to that part of the valuation resulting from the improvements which is over and above the assessed valuation, exclusive of the land, placed upon the building or structure for the last assessment period immediately preceding the date of commencement of the improvements. Any person, corporation, association, or organization owning real property and claiming an exemption pursuant to the provisions of this Act shall file with the assessor a certificate setting out the facts upon which the claim for exemption is based. The assessor shall furnish a copy of the certificate to the county director of tax equalization. The assessor shall determine whether the improvements qualify for the exemption, and if he determines that the exemption should apply, upon approval of the governing body, the exemption shall be valid for the three year period and shall not terminate upon the

sale or exchange of the property but shall be transferable to subsequent owners for such three year period. If the certificate is not filed as herein provided, the assessor shall regard the improvements as nonexempt and shall assess them as such. The decision of the assessor shall be subject to correction, abatement, and appeal in the manner provided by law for other assessments."

POINT OF PERSONAL PRIVILEGE

Rep. Hilleboe: "Mr. Speaker:

"I rise on a point of personal privilege and request that my remarks be printed in the Journal, and then forwarded to the Attorney General for appropriate action.

"Yesterday I appeared before the Industry and Business Committee in the Senate. We have heard of problems before on lobbyists. A man flew in from Chicago to appear against the bill. He stayed in this chamber and in the capitol with other members appearing on his behalf to lobby. The gentlemen in question is Edward H. DeHart. He represents book publishers, and he lives in Washington, D. C. He registered as a lobbyist this morning. Our state statutes state that you shall register as a lobbyist within one week after your date of employment. I have a letter in front of me which this gentleman wrote on February 20. He registered as a lobbyist this morning, to my knowledge because I complained yesterday about the fact that he and some of his associates were button-holing legislators — specifically senators. They followed them in here and down the halls and kept it up with them in later hours.

"Section 54-05-09 states that the Attorney General, upon information, shall bring prosecutions for the violation of this law. I wish to have this forwarded to the Attorney General for his observations.

"I further relate to the same group of people, or anybody else concerned, that Section 12-09-17 of our Century Code states specifically it shall be unlawful for any person acting as legislative counsel or legislative agent to attempt personally and directly to influence any member of the legislative assembly to vote for or against any measure pending therein, otherwise than by appearing before the regular committees thereof when in session, or by newspaper publications, or by public addresses, or by written or printed statements, arguments, or briefs, delivered to each member of the legislative assembly. I further relate from 12-09-18, in the last sentence, 'It shall be unlawful for any person to solicit support of or opposition to any measure from any member individually anywhere within the capitol.' This is punishable by the attorney general, upon information, to prosecute violations of said section. I ask that this be brought to the attention of the attorney general.

"I heard in this Assembly a talk — or a speech, if you wish — by one of the members complaining about certain lobbyists. I don't know who they were. They didn't affect me. But, they were button-holing people. This time I was involved. I object, and I hope our attorney general takes appropriate action.

"I think it is too bad when some of our better lobbyists who are doing an excellent job are going to have to be black-marked with this. It is high time that if we have these laws and statutes on the books that we enforce them and keep our Legislative Assembly free to make its own determinations rather than be intimidated with threats and general harrassment."

POINT OF PERSONAL PRIVILEGE

Rep. Atkinson: "Mr. Speaker:

"I rise on a point of personal privilege and ask that my remarks be printed in the Journal.

"Mr. Speaker, I do not take issue with my good friend, Rep. Hilleboe. What he says is no doubt correct, and I would agree with each statement he has made. I do rise on behalf of R. W. Wheeler, an attorney in Bismarck and a former member of this House, who has asked me to explain that the failure of this gentleman to register was due entirely to Mr. Wheeler's over-sight. He wanted the House to understand he accepts the responsibility for this over-sight, and deeply regrets it, and when it came to his attention, he had the gentleman register, which took place this morning in the office of the Secretary of State. I tender Mr. Wheeler's apologies to each member of this House for this over-sight."

The Honorable A. G. Bunker
Speaker of the House
North Dakota House of Representatives
Bismarck, North Dakota 58501

Dear Mr. Speaker:

The Industrial Commission Act was passed in 1919 (House Bill 17, Chapter 151 of the 1919 Session Laws). Section 4 of the Act reads, in part: "All orders, rules, regulations, by-laws and written contracts, adopted or authorized by the Commission shall, before becoming effective, be approved and signed by him." This Act, therefore, gave the Governor implied power to disapprove any action of the Industrial Commission.

The Act was amended in 1933 (Senate Bill 195, Chapter 191 of the 1933 Session Laws): "In the creation of the Industrial Commission, it was the intention of the Legislature, and it is the intention of this Legislature, that the Governor shall have full veto power and that any Act vetoed, or not approved and signed, by him, shall be null

and void and of no effect." This amendment made it very clear that the Governor was to be responsible for the actions of the Industrial Commission.

In the 54 years since the passage of this Act, there has been no substantive change in the basic Industrial Commission Act. The Governor, as chairman of the three-man commission, has never had the power to adopt or change policy without the concurrence of at least one other member. Yet, the Industrial Commission Act gave the Governor, as the chief executive officer of the state, the veto authority over all activities of the commission. The Governor is thus responsible for the actions of the Industrial Commission.

But now, at a period when the Industrial Commission is as successful as it has ever been, an attempt is being made to make the Commission much less responsive to the people of North Dakota by stripping the Governor of his veto power. The result would be a triumvirate of three state officials — leaving no single elected official responsible to the people for the policy and operation of the Industrial Commission. This is neither satisfactory or desirable.

Therefore, I veto House Bill 1206.

Sincerely yours,
ARTHUR A. LINK
Governor

Dear Mr. Speaker:

The Natural Resources and Environmental Management Council was established in 1961. It was a far-sighted approach to our environmental and ecological problems at a time when there was little emphasis in these matters. The stated purpose for the Council was:

to promote the welfare of the state by providing a method of collecting, analyzing and interpreting information and of making recommendations to the several state agencies responsible for some phase of resource management, on matters relating to the soils, waters, forests, fish and wildlife and other natural resources of the state, and to provide a means whereby such agencies may better coordinate their efforts and activities in managing and regulating such resources and the protection, development and use thereof. (N. D. C. C., Section 54-49-02)

Now the people of North Dakota are acutely aware of the interest and concern in environmental affairs. This has been especially evident to me in the two months that I have held the office of Governor of North Dakota. Therefore, it appears to be entirely inconsistent that we should disband the Natural Resources and Environmental Management Council at this time.

The 1973 Report of the North Dakota Legislative Council stated that the principal reason for introducing House Bill No. 1045 was that the coordination of the various department's efforts could be accomplished by agreement and need not be authorized by statute. This may be true, but it might also prove to be extremely difficult to have thirteen agencies and five elected officials agree to meet regularly without statutory direction.

The Natural Resources and Environmental Management Council is an inexpensive, but valuable, tool in our struggle to maintain a clean environment and a workable ecological program. It has no

appropriation nor cost to the state except for the regular salary and expenses, if any are incurred, of the agencies' representatives attending its meetings (N.D.C.C., Section 54-49-05). It is required, by statute, to prepare biennial reports of its activities for the executive and legislative branches of state government which would not be mandatory if they were to enter into a voluntary agreement (N. D. C. C., Section 54-49-08). It is required, by statute, to be an information and data gathering tool for the benefit of all concerned (N. D. C. C., Section 54-49-09). For these reasons, I suggest that we retain the statutory authority for the Natural Resources and Environmental Management Council.

Therefore, I veto House Bill No. 1045.

Sincerely yours,
ARTHUR A. LINK

The Honorable A. G. Bunker

Dear Mr. Speaker:

House Bill No. 1401 would lower to 19 years the legal age for the purchase and consumption of alcoholic beverages.

It is generally conceded that it would be highly undesirable to permit use of alcoholic beverages by high school students. The Department of Public Instruction, at my request, ran a computer survey of this state's high school juniors. The survey revealed that 664 (5.3%) will be 19 years of age at some time during their senior year of high school. If our concern is real and deep, as I believe it is, to keep liquor out of high schools, this bill falls short of that goal.

Proponents contend that the right to purchase and consume alcoholic beverages should be granted along with the right to vote and other adult responsibilities that have recently been granted. They consider it illogical to consider certain youth adults for some purposes, then deny them the right to purchase and consume alcoholic beverages. However, this approach overlooks several other factors which are extremely important. I believe the vast majority of our youth from 19 to 21 years of age are responsible citizens, mature enough to handle the responsibilities of adulthood. But, the very act of lowering the drinking age to 19 would bring the legal consumption of alcoholic beverages much closer to youth who may not be as responsible and mature.

Those in favor of the bill have neglected to mention the risks involved in the use of alcoholic beverages. But, the risks are real, and to emphasize this point, I will share part of a letter from a respected North Dakota physician at one of our large clinics:

I practice Adolescent Medicine and am well aware of the drug problem. Much as I'm opposed to drug misuse in any form, none can equal alcohol in extent and proven hazard to life.

Proponents of this bill have generally dismissed the statistics which indicate that lowering the drinking age may cause an increase in the number of traffic deaths for North Dakota. This was recently discussed in the November 13, 1972 issue of the U. S. News & World Report:

In at least two states where the legal age for drinking has been lowered to 18 from 21, officials are having second

thoughts about the change.

MICHIGAN. Records show that highway deaths in Michigan rose to 1,030 in the first six months of this year — after drinking at 18 became lawful — compared with 959 fatalities in the same period of 1971. The number of fatal accidents involving drinking drivers in the 18-to-21 group was 62 — up by 88 percent from 33.

Richard R. Dann, executive vice president of the Automobile Club of Michigan, blames the enfranchisement of young drinkers for the “shocking” rise of 110 percent in half year’s span. Mr. Dann says drivers 16 and 17 years old are supplied with liquor by slightly older friends, which tends to lower the age at which alcohol-related accidents occur.

TENNESSEE. Statewide records of the impact of younger drinkers on highway safety are incomplete, but Memphis is troubled by its findings since it began compiling data on January 1. Ron Marshak, director of the Memphis and Shelby County traffic-safety coordinating committee, says that accidents among 18-to-21-year-olds are up by about one quarter from last year. Of 511 accidents in which drinking was suspected as a cause, 56 — or 10.9 percent — involved “new adults.”

The law, which has been in effect more than a year, was “a drastic mistake” in the opinion of Major George Currey, commander of the youth-guidance division of the Nashville police department. He says it has had bad results on younger teenagers . . .

Although these statistics on the drinking driver and motor vehicle accidents are somewhat sketchy and incomplete, they do indicate that there is a correlation between lowering the drinking age and increased accident fatalities. Should we run the risk of more highway deaths by lowering the legal age to purchase and consume alcoholic beverages?

Proponents of the bill contend that the youth are drinking anyway so it should be legalized — and the problem will be solved. Let us briefly consider this argument. Should we set the precedent of legalizing popular illegal activities merely for the benefit of those who are committing the acts? If we carry this argument to its logical conclusion, we should also have to approve of the use of illegal drugs.

Proponents point to South Dakota’s lower legal age for the purchase and consumption of alcoholic beverages. Although South Dakota has lowered the drinking age for 3.2% beer, they still retain the 21 year age limit for other alcoholic beverages.

Finally, I wish to cite one of the existing problems being faced by many North Dakota communities — the sale of alcoholic beverages to minors. Numerous solutions have been proposed, but none appear acceptable. Recently, the Bismarck City Commission investigated this matter. During testimony before the Commission, one tavern operator warned, “When this 19-year-old law goes through, we’re going to have trouble — real trouble.” Rather than solve our existing problems, this testimony seems to indicate that our problems would increase if the legal drinking age is lowered.

For the above reasons, I believe that the risks involved far outweigh any benefits which could be received from the passage of this legislation.

Therefore, I veto House Bill No. 1401.

Sincerely yours,
ARTHUR A. LINK
Governor

I think the Tax Commissioner with his computer has been able to control the honesty if there was a desire on the part of the grocer to be dishonest. We have operated under a lot of problems, and there has been a lot of time consumed in separating the foods as we have gone through it. PRESENTATION OF PETITIONS AND COMMUNICATIONS

Speaker of House
State of North Dakota
Bismarck, N. Dak.

Knowing of your deep concern for traffic safety, I wish to bring to your attention my alarm over the rejection of legislation providing for a state motor vehicle inspection system. We urge your reconsideration of legislation that will allow a comprehensive approach to highway safety in North Dakota. Continued absence of activity in this area of highway safety will force me to recommend that the sanctions contained in the highway safety act of 1966 be imposed against North Dakota which include loss of all highway safety funds as well as loss of 10 percent of federal highway construction funds. I regret that such action appears necessary but the NHTSA considers motor vehicle inspection to be an important element of the state's highway safety program.

Frank D. Altobelli, Acting Director
Office of Standards Development and Implementation
National Highway Traffic Safety Administration
U. S. Department of Transportation
Washington, D. C. 20590

CC: Honorable Arthur A. Link

POINT OF PERSONAL PRIVILEGE

Rep. Atkinson:

"Mr. Speaker: I rise on a point of personal privilege and request that my remarks be printed in the Journal.

"At 11 a.m. on Sunday, March 11th, St. George's Episcopal Church, Avenue B at Fourth Street in Bismarck, will mark the 100th anniversary of the first Protestant service to be held in the pioneer community which ultimately was named Bismarck*.

"Confirmation will be administered by the Right Reverend George Masuda, Bishop of North Dakota.

"The preacher will be the Rev. Canon A. E. (Ted) Smith, who for 23 years was rector of the church, 1943 to 1966, when he accepted a Canonry at Gethsemane Cathedral in Fargo. He retired in May of this past year. He is currently serving as one of the four assistant Sergeant-at-Arms in the North Dakota House.

"With the permission of the North Dakota House and Senate a few years ago the old church, which stood at the corner of Third and Thayer, was moved to Fort Hancock, opposite Corwin Churchill's garage. It is in the process of restoration by the State

Historical Society which seeks to restore it to its condition when first built in 1776.

"The new church is located at the corner of Avenue B and Fourth Street, opposite the old Governor's mansion and was erected when Smith was rector of the parish."

*(The service was held in an upper hall of the old "Capitol Hotel" and was the baptism of Jamie, the infant son of Lieutenant and Mrs. Humbert of Fort Hancock, by the Reverend H. Swift.)

Rep. Solberg has moved that the amendments to Senate Bill No. 2026 as recommended by the Committee on Appropriations as printed on page 1181 of the House Journal be adopted.

Rep. Knudson requested that the question of the adoption of the amendments to Senate Bill No. 2026 be divided as follows:

A.

In amendment D of the re-engrossed bill as adopted by the House, following the words "shall be levying at least a" delete the word "fifty" and insert in lieu thereof the word "seventy-five"

B.

On page 8 of the re-engrossed bill, delete all of line 28 and on line 29 delete the following: "twenty-mill school district levy,"

C.

On page 10, line 11 of the re-engrossed bill, after the period insert the following: "Provided, however, that the authorization for

unlimited levies under this subsection shall terminate on July 1, 1975, and any school district making such levies prior to that date shall be required to comply with the tax levy limitations otherwise provided by law after that date."

D.

On page 11, after line 22 of the re-engrossed bill, insert the following:

"SECTION 12. ELIGIBILITY FOR RECEIPT OF FOUNDATION PROGRAM PER PUPIL PAYMENTS.) The superintendent of public instruction shall only make disbursements pursuant to this Act to school districts for schools where school boards certify to the superintendent of public instruction that, except for vocational and special education programs and new programs related to new facilities, courses of study eliminated in the last two years, no new programs will be implemented during the biennial period covered by the appropriation set forth in this Act."

Speaker Bunker ruled that a division on the question of the adoption of the amendments to Senate Bill No. 2026 was in order.

Rep. Knudson requested a division vote on each section of the amendments as they are acted upon, and moved for a recorded roll call vote on the final passage of all of the sections of the amendments as passed, which motion prevailed.

The question then was on the adoption of Section A of the proposed amendments, which are as follows:

In amendment D of the re-engrossed bill as adopted by the House, following the word "shall be levying at least a" delete the word "fifty" and insert in lieu thereof the word "seventy-five"

So Section A of the amendments was declared adopted on a division vote.

The question then was on the adoption of Section B of the proposed amendments, which are as follows:

On page 8 of the re-engrossed bill, delete all of line 28 and on line 29 delete the following: "twenty-mill school district levy,"

So Section B of the amendments was declared lost on a division vote.

The question then was on the adoption of Section C of the proposed amendments, which are as follows:

On page 10, line 11 of the re-engrossed bill, after the period insert the following: "Provided, however, that the authorization for unlimited levies under this subsection shall terminate on July 1, 1975, and any school district making such levies prior to that date shall be required to comply with the tax levy limitations otherwise provided by law after that date."

So Section C of the amendments was declared lost on a division vote.

The question then was on the adoption of Section D of the proposed amendments, which are as follows:

On page 11, after line 22 of the re-engrossed bill, insert the following:

"SECTION 12. ELIGIBILITY FOR RECEIPT OF FOUNDATION PROGRAM PER PUPIL PAYMENTS.) The superintendent of public instruction shall only make disbursements pursuant to this Act to school districts for schools where school boards certify to the superintendent of public instruction that, except for vocational and special education programs and new programs related to new facilities, courses of study eliminated in the last two years, no new programs will be implemented during the biennial period covered by the appropriation set forth in this Act."

So Section D of the amendments was declared adopted on a division vote.

ROLL CALL

The question then was on the adoption of Sections A and D, excluding Sections B and C which previously failed.

The roll was called and there were ayes, 87; nays, 14; absent and not voting, 1.

On page 1, line 17 of the engrossed bill, after the word "exceed" delete the word "four" and insert in lieu thereof the word "three"

Senator Larson

For the House:

Rep. Dick
Rep. Liebhan
Rep. Gronneberg

Rep. Dick moved that the report be adopted, which motion prevailed.

House Bill No. 1291 was placed on the Sixth Order.

FIRST READING OF SENATE BILLS

Senate Bill No. 2421. A Bill for an Act to amend and reenact section 12-48-14 of the North Dakota Century Code, relating to the compensation of inmates at the state penitentiary.

Which was read the first time and referred to the Committee on State and Federal Government.

Senate Concurrent Resolution No. 4077. A Concurrent Resolution directing the Legislative Council to carry out a comprehensive study and investigation of the State's correctional institutions.

Which was read the first time and referred to the Committee on Legislative Council Resolutions.

POINT OF PERSONAL PRIVILEGE

Rep. Reimers:

"Mr. Speaker, Ladies and Gentlemen: I rise on a point of personal privilege, not for myself, but for the Legislature as a whole.

"I have the print-out that Rep. Streibel alluded to earlier, and I only got a few of them, and I gave them to members of the Appropriations Committee as far as they would go. I visited with Rep. Streibel, and we thought the Legislature was entitled to know where we stand on this Friday night when we go home.

"I might say, a week ago Rep. Streibel was quoted in the Fargo paper that he said we would have \$25 million deficit spending. He was wrong by \$750,000. We are only at \$24,250,000 in deficit spending. We have a budgeted general fund balance of \$29,159,103 for June 30, 1975. That includes the \$3 million increment over the \$41 million you looked at when you came here, for a \$44 million projected general fund balance for June 30, 1973. It includes the \$3.3 million increase in sales tax and income tax figures that have been adjusted since you came, for a \$6.6 million increase over and above what we thought we were going to have when the session started.

"It seems to me that for a Legislature that came here with \$44 million projected general fund balance and \$25 million revenue sharing to go home with \$24 million plus deficit spending is something. Those of you who had thought we had been extremely conservative, you are going to have to take another look at that.

"I refer to Rep. Streibel once more, only because he has said many times that this is the way this thing was shaping up if we spend this kind of money for a 1¢ sales tax increase. We started out with \$9.3 million left in the revenue sharing in this biennium that is not recurring, and it will not be back. We are looking right now this afternoon at just about \$30 million with the changes that have been made since this thing was printed. If anybody thinks the Legislature has been tight-fisted, they are badly mistaken."

POINT OF PERSONAL PRIVILEGE

Rep. Herman:

"Mr. Speaker: I rise on a point of personal privilege.

"I just want to make one comment on Senate Bill No. 2149. I don't think the vote was truly a reflection on how this body thinks. I think that they do have a sense of responsibility for those who work for them. I have had the experience of running for this office from a rural district, and it is totally different from running from the district I represent today. I certainly understand the reasons for your vote on Senate Bill No. 2149."

APPOINTMENT OF CONFERENCE COMMITTEE

Speaker Bunker appointed the following to a Conference Committee, on:

Senate Bill No. 2075

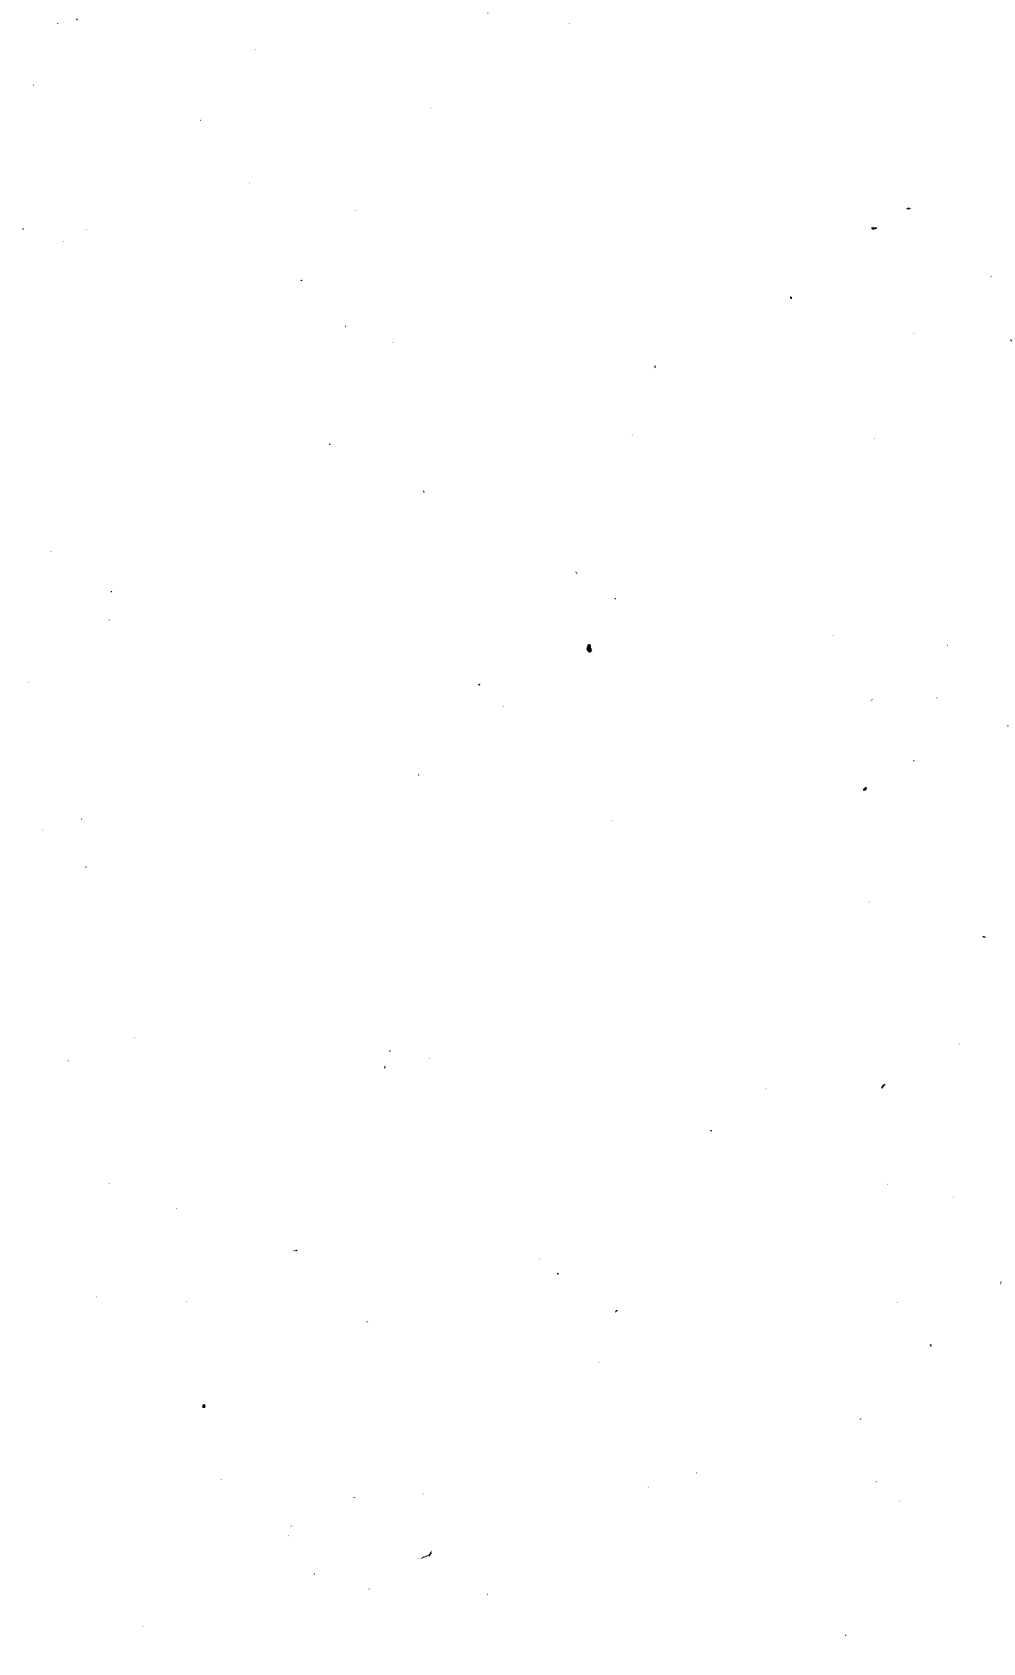

Rep. Timm

Rep. Rau

Rep. Langley

Rep. Streibel moved that the House stand recessed until 8:00 a.m., Monday, March 12, 1973, which motion prevailed.

ROY GILBREATH, Chief Clerk

FORTY NINTH DAY AFTER RECESS
AND FIFTIETH DAY

Bismarck, March 12, 1973

 House of Representatives

The Hon. A. G. Bunker, Speaker
 North Dakota House of Representatives
 State Capitol
 Bismarck, North Dakota 58501

Dear Representative Bunker:

Thank you for your letter of February 21 extending an invitation to visit Bismarck.

As I am a native of North Dakota I am well aware of the attractions of our neighbor to the northwest. I plan to visit my mother in Crosby this summer.

Insofar as the Minnesota legislature will continue in session until May, we must regretfully decline your most gracious invitation.

I am acquainted with Lieutenant Governor Wayne Sanstead and am sure with his qualifications that he rates a salary of more than \$2,000 per year.

Warmest regards and best wishes for a successful winding up of your 43rd legislative session.

Sincerely,
 MARTIN O. SABO
 Speaker

POINT OF PERSONAL PRIVILEGE

Rep. Lee: "Mr. Speaker:

"I rise on a point of personal privilege.

"I have just received a copy of the new 1973 Highway Map. It isn't too long ago in this body we gave a resounding defeat to the slogan 'Rough Rider State.' The new highway map states 'Rough Rider Country.' Most of the pictures on the inside have to do with cowboys and buffaloes and a certain hotel in the western part of the state with a very visible identification. It gives very little recognition to the Peace Garden. It mentions Devils Lake, but barely mentions Ft. Totten. It barely mentions other portions of the state. We would like to be known as the 'Peace Garden State' and I think the Traffic Department could do a little better job of publicizing the Peace Garden, and devote less time to the Rough Rider slogan and the Rough Rider area."

POINT OF PERSONAL PRIVILEGE

Rep. Hildebrand: "Mr. Speaker, Ladies and Gentlemen:

"I rise on a point of personal privilege.

"When the vote on Senate Bill No. 2035 was taken, I was off the floor at a meeting. Even though this bill passed by a vote of 74 to 35, I would like my opposition to its passage registered."

POINT OF PERSONAL PRIVILEGE

Rep. Mertens: "Mr. Speaker:

"I rise on a point of personal privilege.

"When Senate Bill No. 2035 was acted on, I was in a meeting of the Appropriations Committee, but had I been here, I would have voted no on that Senate bill."

PRESENTATION OF PETITIONS AND COMMUNICATIONS

Byron L. Dorgan

STATE TAX COMMISSIONER

State of North Dakota
State Capitol Building
Bismarck, N. Dak. 58501

March 12, 1973

The Honorable Bryce Streibel
State Representative
State Capitol
Bismarck, N. D. 58501

Dear Representative Streibel:

After a series of meetings today, Northwest Airlines and Trailer Train Company have both consented to withdraw a portion of their lawsuits which challenge the levels of assessment in North Dakota.

This action relieves the clear and present danger of local governments losing \$9 million dollars during the next biennium as a result of the state losing a lawsuit of this kind.

Accordingly, it would be my recommendation that you withdraw House Bill No. 1538.

Sincerely,
Byron L. Dorgan
TAX COMMISSIONER

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT.) Section 61-16-22 of the 1971 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-16-22. FINANCING OF SPECIAL IMPROVEMENTS - PROCEDURE.) When it is proposed to finance in whole or in part the construction of a project by issuance of warrants or with funds raised through the collection of special assessment taxes levied against lands and premises benefited by construction and maintenance of such project, and after such project is approved by the commission as provided herein and by the board of county commissioners of each of the counties wherein the district lies, the board, by resolution, shall declare that it is necessary to construct and maintain such project therein. Such resolution shall state briefly the nature and purpose of the proposed project, and shall state the time and place within said district where the board will meet to consider any protests to the proposed project, and, (((under the conditions specified in))) **if the board of commissioners so determines under section 61-16-23**, shall include provision for protesting the levy of the general tax provided in section 61-16-35 to be made by the board of county commissioners. Such resolution shall be given by publication thereof once each week for two successive weeks in a newspaper of general circulation in the district. If within twenty days after the first publication of such resolution, the owners of property liable to be specially assessed for the proposed improvement shall file written protests with the secretary of the board, protesting against the improvement, the board at the time set for such hearing shall determine the sufficiency thereof. If the board finds the protests to contain the names of the owners of a majority by taxable value of the land subject to assessment for construction of the proposed project, then the protests shall be a bar against proceeding further with such improvement. If the protests are found to be insufficient or invalid, the board may proceed to determine damages, if any, which will be sustained by owners of affected property and the board may proceed to contract or provide for the construction or maintenance of the project in substantially the manner and according to the forms and procedure provided in title 40 of this Code, and acts amendatory thereof, and supplemental thereto, for the construction of sewers within municipalities. When any district has entered into an agreement pursuant to the provisions of this chapter, under the terms of which the contract for such work is to be let by the United States government or by the state of North Dakota, or by both jointly, the board, after hearing protests and determining to proceed with the improvement, may dispense with the balance of the requirements of this chapter relating to plans for, bids upon, contracts for, construction of, and any other steps leading up to the construction of an improvement by the special assessment method, and the board may proceed to cause assessments to be made as in other cases provided.

SECTION 2. AMENDMENT.) Section 61-16-23 of the 1971 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

61-16-23. RESOLUTION OF BOARD TO INCLUDE PROVISION FOR PROTESTING AND REFUSING AUTHORITY TO MAKE GENERAL TAX LEVY IN CERTAIN CASES - ELECTION TO BE HELD.) (((In any case in which that part of the cost of a project allocated to a county shall exceed fifty thousand dollars, the))) **The resolution of the board of commissioners provided for in section 61-16-22 ((shall)) may state that any deficiency or probable deficiency in the special fund for the payment of project warrants of the district shall be forestalled and the ability of the fund to pay principal and interest punctually shall be restored by a general tax levy upon the taxable property in the counties wherein the district**

(((If such written protests are found by the board of commissioners to carry a sufficient number of signatures, the board by resolution shall thereupon call a special election in the county or counties from which such protests were received for the purpose of having the electors of the county vote upon the question of whether such general tax levy shall be permitted))) **There shall be no authority to pay any such deficiency or probable deficiency in this special fund by a general tax levy unless the electors of the county or counties included in the district, approve the levy of the tax at the next countywide election or the special election called for such purpose by resolution of the board of commissioners.** The date of such election shall be not less than twenty days from the date of the resolution calling for the election. The board shall cause notice of such election to be published once each week for at least two weeks prior to the date thereof in the official newspaper of the county. Such notice shall specify the date, polling hours, and the polling places of such election which shall be the same as for general elections and shall contain a copy of the resolution calling the special election and a statement of the question to be voted upon as it shall appear upon the ballot. The board shall appoint an inspector, two judges, and two clerks of election for each polling place.

The ballot for such election shall be separate from other ballots used on the same day for other elections, and shall be printed, and shall state the question in substantially the following form:

Yes
No

Spoiled or blank ballots cast at such election shall not be counted for or against the question voted upon.

If a majority of the votes cast at such election are "Yes" votes, authority to make such a general tax levy shall be deemed approved.

If a majority of the votes cast at such election are "No" votes, authority to make such a general tax levy shall be denied, **but said board of commissioners may nevertheless issue warrants and levy special assessments against land and premises benefited by the project as otherwise provided for in section 61-16-22.**

The election officials shall be compensated in the manner provided by law for general elections, and the costs of such election shall be borne by the district concerned."

In the Senate amendments, as printed on page 944 of the Senate Journal, in the second sentence of Section 61-16-22, following the words "proposed project, and," delete the triple parentheses around the words "under conditions specified in" and immediately after delete the following: "**if the board of commissioners so determines under**"

Altovelli of the National Highway Traffic Safety Administration addressed to Governor Link in regard to motor vehicle inspection programs in North Dakota and their compliance with federal standards in the highway safety field.

As you know, the North Dakota Highway Patrol conducts a random motor vehicle inspection program covering approximately 10 percent of the motor vehicles in North Dakota. As the Chairman of the Committee on Transportation of the House of Representatives, I am recommending that the Legislative Council's Committee on Transportation conduct a study and review of the current North Dakota motor vehicle inspection program for the purpose of recommending and implementing an improved and upgraded motor vehicle inspection program for the State.

Sincerely,
 Representative I. O. Hensrud
 Chairman
 Committee on Transportation

POINT OF PERSONAL PRIVILEGE

Rep. Stoltenow: "Mr. Speaker, Members of the Assembly:

"I just want to call your attention to two conversations that have come my way. During the past ten days, I have had the privilege of working with various members of the Education Committee in regard to Senate Bill No. 2026, and through that I have come in contact with school boards and individuals throughout the various sections of North Dakota. Therefore, I can speak on these as not being from the schools from my district, but these particular schools and communities happen to be in some of your districts and not mine. In the two conversations I want to bring to your attention, one is with a member of a city board in a particular community who said that after the passage of 2026, they would really not be too concerned about raising the valuation in their particular city because every time they did raise the valuation of property in their city, they would then get that much less funding from the Equalization Fund for education for that particular school district.

"The second conversation came about when an individual happened to see some of the material that has come to your desks, and that was in regard to educating children in various sized schools.

With the passage of 2026, this school board was giving real consideration to moving part of the high school students into another building so that they could get the higher payments available to them for those students that would be enrolled in that particular school with less than 74 students in attendance.

"I want you to take a real good look at 2026 in the next couple of days, and see some of the ramifications that are involved."

SECOND READING OF HOUSE CONCURRENT RESOLUTION

House Concurrent Resolution No. 3091. A Concurrent Resolution urging the Commissioner of Insurance to rescind his order prohibiting claim-free credits on crop hail insurance policies.

Was read the second time.

Rep. Fleming requested that the following remarks be printed in the Journal.

Rep. Fleming: "Mr. Speaker, Members of the Assembly:

"The farmers of North Dakota have been dealt a serious financial setback by actions taken by the Insurance Commissioner of North Dakota. Beginning March 9, 1973, every farmer who buys crop hail insurance in North Dakota will eventually be paying more for his insurance due to an administrative action taken by him. The Commissioner has decreed that no company may give the farmers of North Dakota a discount or deviation from the published rates on new crop hail policies written after March 9, 1973, and on existing policies as they expire. For the past ten years the department has allowed up to a 15% claim free discount for not reporting losses. This is represented by a multi-million dollar savings to the North Dakota farmer during this period of time. Further the Commissioner has decreed that all term policies in force cannot carry coverage over for the following season unless a new endorsement has been signed. This will cost the farmer more money in uncovered losses. One company paid more than \$25,000 to farmers who had not endorsed their crop hail policies for 1972 at the time of loss but yet were paid. Multiply this by all of the other companies and you can readily see that this action alone could put some farmer out of business due to an uninsured loss.

"Further the Commissioner has decreed that no company may offer immediate coverage. The Commissioner on March 1, 1973, issued a nine-point set of guidelines to all crop hail insurance companies to be effective March 9, 1973, that all business written after that date must be on an annual policy and at annual rates. With that deadline in mind one company told their agents to go out and write new business before March 9. On March 8, Deputy Commissioner Hull called this company and told them they could not issue these policies. A direct reversal from the March 1 directive.

"The actions taken by Commissioner Wigen and his Deputy Hull will make the crop hail companies more money at the direct expense of the North Dakota farmer. In Mr. Wigen's directive, he referred to these actions as to be in the best interest of the insured, but it is not, it is in the best interest of the company. Here is why: The discounts granted last year by one crop hail company in North

Dakota saved farmers a total of \$60,774 from the published rate used by the majority of all companies in North Dakota. This company wrote about 5% of the total premiums in 1972 in North Dakota. Multiply this figure by the rest of the companies giving discounts and the amount would easily exceed one million dollars. After March 9, the North Dakota farmer will be obliged to pay this money in additional premiums.

"A filing was made in February by a rating organization with new rates and loss free credits, but the Commissioner has disapproved this and ordered the rating organization to refile in accordance with his guidelines.

"Mr. Wigen justifies his action by saying there will be a 5% overall reduction in hail insurance rates in North Dakota. However there are companies doing business in North Dakota who would be willing to offer the claim free discount even though the general hail rates will be reduced 5%.

"In a nutshell, Commissioner Wigen proposes, in the long run, by elimination of the 15% claim free discount to increase the crop hail insurance rates in North Dakota by 15% of what they otherwise could be, and to restrict the crop hail insurance condition and coverages.

"Mr. Speaker and members of the Assembly, I ask for your support to pass this resolution to urge the Commissioner to rescind Insurance Department Bulletin, Number 13. It is the insurance companies doing business in North Dakota who will gain, not the farmers. Why increase crop hail premiums by one million dollars, restrict policy conditions and victimize the North Dakota farmer. It is high time Commissioner Wigen listen to the farmer's side of this matter."

Rep. Weber requested a recorded roll call vote.

ROLL CALL

The question being on the final adoption of the resolution, the roll was called and there were ayes, 48; nays, 45; absent and not voting, 8.

POINT OF PERSONAL PRIVILEGE

Rep. Backes requested that the following Memorandum be printed in the Journal.

MEMORANDUM

TO: All Members of the Legislature
 FROM: House and Senate Minority Leaders
 SUBJECT: Reapportionment

The attached plan was prepared in light of the recent U. S. Supreme Court decision which upheld a 16.4% deviation for the legislative reapportionment in the State of Virginia.

HB 1042, which passed this Session, provoked a great deal of debate and partisan division. One thing I think everyone regretted, however, was the many county lines that were broken in order to adhere strictly to the concept of one-man one-vote. Now that the Supreme Court has relaxed this requirement somewhat, we have a great opportunity to re-evaluate the issue of reapportionment. Some may argue that it is too late to reconsider reapportionment plans. But remember that the Legislature will not have the same opportunity for another 10 years.

The modified "Winge Plan" is an honest, non-partisan attempt to reapportion without disrupting communities of interest or breaking county lines. The Plan maintains 44 county lines intact and has a population deviation of 16.2%. The total population variance between the high and low districts is about 2,000 people.

We think this is a sound and reasonable reapportionment plan which the Court would consider favorably. We hope you will give it your serious consideration.

Sincerely,
 Senator L. D. Lee Christensen
 Representative Richard J. Backes

Rep Streibel moved that the House stand recessed until 4:00 p.m., which motion prevailed.

The House reconvened at 4:00 p.m., pursuant to recess taken, with Speaker Bunker presiding.

POINT OF PERSONAL PRIVILEGE

Rep. Knudson: "Mr. Speaker:

"I rise on a point of personal privilege, and request that the following be printed in the Journal in regard to Senate Bill No. 2026. This is in compliance with a request by the House that this information be placed in the Journal."

STATEMENT OF THE INTENT OF SENATE BILL NO. 2026

On the floor of the House on Wednesday some questions were raised concerning one of the amendments in the Conference Committee Report for Senate Bill No. 2026. The sentence which gave rise to the questions reads as follows: "No high school district shall receive less for general school operating purposes in state and county foundation program payments, personal property replacement funds, and general fund and special levies for current operating expenses for any year of the 1973-75 biennium than such district received from the combined total of these sources for general school operating purposes during the 1972-73 school year, and the superintendent of public instruction shall increase the state payment by such amount as may be necessary to ensure that each high school district receives such amount." The questions which were raised concerned the reference to personal property replacement funds, and some members believed there could be some question as to the legislative intent of this statement in light of the fact that Senate Bill No. 2026 provides that the portion of personal property tax replacement payments which is now going to school districts will be added to the

Foundation Program and distributed to school districts on the basis of student enrollments rather than on the basis of the personal property payback formula.

"The sentence in question is a revision of an amendment made by the House Education Committee and further amended by the House Appropriations Committee. The Conference Committee had no intention of changing the concept of this amendment, but did intend to clarify the language in that amendment which referred to "total state and local payments" received by a high school district by listing the sources of school district operating revenue. Therefore, in order that the legislative intent on this matter is clear, I want to state that the sentence in question refers to the combined total of the sources of school district revenue which are listed and provides that no high school district shall receive less from the combined total of these sources for any year of the 1973-75 biennium than such district received from the combined total of these sources for general school operating purposes during the 1972-73 school year if the other requirements are met."

The House reconvened at 11:00 a.m., pursuant to recess taken, with Speaker Bunker presiding.

POINT OF PERSONAL PRIVILEGE

Rep. McGauvran requested that the following article be printed in the Journal.

**EDITORIAL FROM THE TOWNER COUNTY RECORD HERALD
TITLED "40" YEARS OF ECOLOGY"**

This week we enthusiastically salute the Towner County Conservation service. It had come to be one of the things we have taken for granted through the years, but now with the abrupt killing of the program by President Nixon, it is time to stop and see just what has been accomplished.

Any of us who were children in the dirty thirties know that this 40 year program has done more to change the face of North Dakota than any other single factor. Former residents who return after many years are astounded at the beauty of the state, and tell us that this is not as they remembered it.

In 1933 the first shelterbelts were planted, some of them in this county. They are still things of beauty with many kinds of trees, shrubs and fruit trees. The farmer planted them himself with the first government help to preserve the land, sharing the cost in the beginning as he still does. From that day literally tens of millions of trees have been planted and grown to maturity, with fields carefully sheltered from the prevailing winds. Many folks remember crawling the mile long fields as the seedlings were weeded. The government provided a conservationist and our county has had such a specialist since. These men came to know the county well, the ponds, the marshes, the types of soil that drifted, and the gullies of erosion. Their advice was listened to and appreciated.

Since 1933 these practices have benefited the whole nation. Farmers have dug deep to spend for practices that saved their soil and made it more productive, not just for themselves but everyone. Not by our wildest dreams as children did we think people would be hunting deer and game that live in our shelterbelts, or that our ponds would be nesting places for millions of ducks and geese.

Never did we dream that our people could drive a few miles to fish winter and summer, and freezers would be full of fish caught in our own county. This is how the prairie state of North Dakota has changed. Not with drastic expensive programs, but each farmer knowing his own land and with professional help doing what was best for it. This is ecology at its finest, practiced for 40 years before the great "ecology shouters" thought they were the first to be con-

cerned about preserving our natural resources. This is the program that President Nixon says is not worth the 200 million it cost, and our legislature commended him for it.

No one will ever be able to put a price tag on what the conservation program, now known as REAP, has accomplished in saving the precious natural resources of this nation, plus adding millions and millions of trees, refuge for the preservation of game and restoring its soil to the most productive in the world.

This program operated as we might ideally hope all government aid would operate. First with equal cost sharing, on something the farmer had to feel was worth accomplishing. The cost of dredging and planting equipment was for the most part either borne by the local districts or by 1800 small private contractors who made the conservation of the soil their full time profession. The conservationist came and made his home in the communities he worked in, watching and assessing the fruits of the program.

Quite a different practice than the cost plus contracts of hundreds of billions of dollars handed out by the Pentagon, with no accounting, 100% cost over-runs and often dismal failure. Those are the programs which did not work and still do not work.

Hopefully, the Conservation of our land will again be made a high priority, with the beauty of our natural resources encouraged with wisdom and cooperation. If it isn't now, we cannot believe that it will be long before the mistake is rectified.

"I don't think that any of us involved in the work on House Bill No. 1050 at this point are particularly proud of our results. We didn't get the job done, and for that I am sorry. I do hope that the 44th Legislative Assembly would re-address themselves to this because there are many problems left on this fund. For those of us on the Conference Committee — Rep. Langley, Rep. Gackle and I — all feel that we did not get the job done, and I hope we can get it done at the next session.

MOTION

Rep. Streibel moved that Senate Bill No. 2062 be placed on second reading and final passage for the purpose of its reconsideration as a vetoed measure pursuant to Section 79 of the Constitution of the State of North Dakota, which motion prevailed.

STATE OF NORTH DAKOTA

Executive Office
Bismarck

The Honorable Wayne G. Sanstead
President of the Senate
North Dakota State Senate
State Capitol
Bismarck, North Dakota 58501

Dear Mr. President:

Senate Bill No. 2062 provides that the vendor of certain pre-packaged, preserved sandwiches would not be required to purchase a restaurant license. This bill, therefore, would exempt such vendors from adhering to the basic health, sanitation, or safety standards which are required of others dispensing food for consumption in this state. This is neither desirable nor acceptable.

Currently, those dispensing sandwiches must obtain a restaurant license for a minimal fee of \$5 per year. The license may be granted only after the vendor's facilities are inspected and certified to meet statutory health and sanitation requirements (N. D. C. C.

Chapter 23-09). But, this bill would exempt prepackaged preserved sandwiches from similar regulation. Minutes of the Senate Committee of Industry, Business and Labor (January 3, 1973) reveal the reason for requesting the exemption:

Mr. Lowell Harris, District Manager for Stuart Sandwich Company of Minneapolis, appeared on behalf of the bill stating they do business in 13 surrounding states and would like to expand their business to gas stations, motel lobbies, etc. This bill was introduced because the demand for sandwiches in small businesses and towns which have no cafes has been so great. Many places wish to serve these sandwiches but do not want to have to obtain a restaurant license. Senator Reiten asked whether the cost of such a license is a factor. Mr. Harris stated it was not but many of the establishments would not be able to meet the qualifications for a restaurant license. The fee for such license is \$5.00. He went on to say the Stuart route men maintain the cleanliness of the vending machines and normally reach these establishments every two weeks. He added that most of their customers have vending machines but there are those who would like to go into refrigeration type operations since vending machines are so costly.

The testimony points out several fatal errors in the bill:

1. The bill was introduced because certain establishments cannot meet the existing basic sanitation and health standards to secure a restaurant license.
2. Cleanliness of the "vending machines" is to be maintained by the "route men" during visits which may "normally" occur every two weeks. But, basic sanitation and health standards demand daily — or more frequent — attention.
3. The testimony reiterated that there would be no statutory regulation of the types of "vending machines" to be used: the bill would allow sales "from any vending machine or appliance or any other medium, device, or object designed or used for vending purposes." This could apparently include everything from a refrigerated vending machine to a cardboard box in a cool room.

Perhaps the statutory requirements for restaurant licenses are too stringent for the vendors selling prepackaged preserved sandwiches. However, in the absence of other safeguards to guarantee a wholesome product to the consumer, I believe it would be much better to require adherence to strict standards rather than to none at all.

Therefore, I veto Senate Bill No. 2062.

Sincerely yours,
ARTHUR A. LINK
Governor

MESSAGE FROM THE SENATE

Senate Chamber

Mr. Speaker: I have the honor to inform you the Senate has reconsidered its action in requesting return of House Bill No. 1503. Subsequently, cancel the request.

LEO LEIDHOLM, Secretary

Rep. Peterson moved that the Assembly go into a special order of business, and that Rep. Haugland be asked to preside, which motion prevailed.

Rep. Haugland came to the rostrum to preside.

Rep. Haugland called Rep. Miedema to the rostrum.

Rep. Miedema: "Madam Chairman, Mr. Speaker and Members of the House:

"The tall, but soft-spoken voice of the townships is always welcome in all groups.

"Rep. Francis 'Hank' Weber started his House service in 1963. A short venture into the Senate in 1965 was just long enough to remind him what a wonderful body the people's House is, and he returned here in 1967.

"Hank has spent a lot of time on various township bills and we are all aware of a lot of the results he has gotten.

"I was wondering how Hank got so smart. He is a neighbor of mine, living in Imperial Cass, and I live in Barnes County. I checked with Rep. Winge, and I found Hank was graduated from Valley City College.

"As Assistant Minority Floor Leader, Hank has the respect of each of us. It is a pleasure to present a recognition of that respect to him at this time."

Rep. Weber: "Madam Chairman, Members of this Assembly:

"To hear such complimentary remarks as those from Rep. Miedema, I don't know if I actually accomplished that much, but I am involved and concerned about the township political subdivision. There are probably 1300 townships in North Dakota, and they have problems, and they have never had an organized lobby representing them, but until we get rid of them, I want to work on their behalf.

"I would also like to say that this has been one of the fastest moving legislative sessions I have attended. I have been here since 1963. We have gone through more bills, more resolutions, and of course, we have spent more money than any other I have served in. In the first session in 1963 when I served, we had some 750 bills introduced; in 1973 there were close to 1000 bills. In 1963, we handled about 131 resolutions. This year, there were about 175 of them. The amount of money involved in 1963 in the elementary and secondary education bill was \$27 million. In 1973, that bill was about \$100 million. You can see what has happened in the last ten years, and in the general fund appropriation in 1963 it was \$105 million, and now it will be \$300 million. You can see how far we have come, and you can see what you can expect in the future.

"At this time I would like to commend the Majority Party, the Majority Floor Leader Bryce Streibel, the Assistant Majority Floor Leader, Rep. Strinden, and Speaker Art Bunker. You have been very fair and honorable to us as the Minority Party. We appreciate that and we commend you for it. Of course, in two years when we become the Majority Party, I hope we treat you as well.

"I also would like to pay my respects to my colleague, Rep. Poyzer. It is just a week ago he was walking around this Assembly, and he was the last individual I visited with before he left for home. It is hard for me to accept the fact that we don't have him around here today. Rep. Poyzer and I were good friends. He worked hard on his campaign and he deserved to win.

"I also want to commend all the employees that we have helping us. They have been tremendous, the clerks, the stenos, the Chief Clerk, and even the attendants on the parking lot. They have done a wonderful job, and we appreciate it.

"It has been really a great session. I suppose we will find out how great it really is at the next general election.

"Thank you very much."

Rep. Haugland called Rep. Jacobson to the rostrum.

Rep. Jacobson: "Representative Haugland, Members of the Assembly:

"It is an honor for me to have been chosen to recognize the Majority Whip of the House, Representative Earl Strinden. I have had the pleasure of working with Representative Strinden in committee meetings and know him to be a hard working, conscientious and fair-minded person, well deserving of his position.

"We are all aware, however, that Representative Strinden knows a bit about hardware — and in more ways than one. He deals skillfully with the nuts and bolts of the legislative process, and the

loyal opposition has seldom been able to nail him. He seems to have a steel-reinforced backbone, but so far as we can tell he is only the slightest bit screwy.

"Representative Strinden also has a rather novel way of dealing with a minority party bill. He first praises its sponsor to the skies and then rips the bill to shreds. This sometimes leaves the sponsor with the confusing feeling that he has been assaulted with a friendly weapon.

"Seriously, though, in spite of disagreement, we of the minority have the greatest respect for Representative Strinden. He has certainly kept us on our collective toes, and we hope we have performed the same service for him."

Rep. Strinden:

"Rep. Haugland, Mr. Speaker, Rep. Jacobson, Members of the 43rd Legislative Assembly:

"Mr. Jacobson, thank you for your very kind remarks. I have enjoyed serving with you on the Political Subdivisions Committee, and I want to personally attest to the fine job you have done in that committee and in the Assembly.

"I am sure we all come to this point in the session with mixed emotions. First, we are relieved that the hectic pace and schedule we have been on for the past two and one-half months is almost over. However, I think all of us also have a feeling of regret. Serving our citizens in the legislature is an honor as well as a great and wonderful experience.

"The pressure and activity of being involved in the daily legislative battle is a stimulating experience. We have differed with each other on many issues. We have all lost some battles and won others. This is the nature of the legislative process, and I am confident that we have always respected this right to differ. The ultimate decision of this body is always the result of blending the input of varying views, experiences, and background, and have faith in the collective judgment of the citizen legislature.

"Thank you for the honor of serving with all of you, my colleagues, in this 43rd Assembly.

"To the desk force and all of the legislative employees, a special thank you for your dedicated and very competent service."

Rep. Haugland called Rep. L. Hausauer to the rostrum.

Rep. Hausauer:

"Rep. Haugland, Mr. Speaker, Members of the Assembly:

"You may or may not have heard about the gal who, for the lack of something to do, decided to raise chickens. Well, each month she would find one or more of her chickens dead in her yard. Now, this gal heard politicians knew everything, so she wrote to her esteemed state representatives and said, 'Each morning I find one or more of my chickens laying out in my yard stiff and cold. Tell me, what's wrong.' The Representative wrote back and said, 'Dear Madam, I think your chickens are dead.' Well, this Representative may not have known all there was to know about chickens, but he was an intelligent and sincere guy.

"The gentleman we wish to recognize next is a dedicated and determined one who portrays a friendly manner and does an excellent job in his leadership spot for the Minority. Would the nice Representative, Richard Backes, please come forward?"

Rep. Backes:

"Rep. Haugland, Members of the Assembly:

"When you hear accolades about yourself, it reminds you of the story about the fellow who was to be guest speaker at the ban-

quet, and when the M.C. got up to introduce him, he spoke about all the degrees and qualifications the speaker had. The guest speaker nudged his wife and said, 'There are a lot of great men in this world.' His wife said, 'Yes, but there is one less than you think.'

"I want to thank the Assembly for this gift. I don't know what it is, but it is about the same size as Rep. Weber's.

"I want to say it has been a tremendous pleasure for me to serve as Minority Leader. I want to thank my colleagues for giving me the opportunity to serve in this capacity. It has been a pleasure to work with my counterpart across the aisle and the rest of the Republicans. At no time was I ever disgusted or in any way felt bad about any decision made by the Chair, nor at any time did any member of the Minority complain about any decision from the Chair. At no time did the leadership do anything that was not honorable, and I appreciate it very much.

"Thank you."

Rep. Haugland called Rep. Lundene to the rostrum.

Rep. Lundene:

"Madam Chairperson, Speaker Bunker, Boys and Girls:

"On the first day of the seventy-third year of the Twentieth Century, the duly elected members of the Forty-Third Legislative Assembly of North Dakota headed for the Capitol City. One hundred and two found their respective places in this spacious chamber.

"Some came here because they were chosen by Republicans, some came because they were chosen by the Democrats, others came because they had fewer enemies than their opponents.

"Every one came, veteran and freshman alike, imbued with high ideals and noble plans that North Dakota should be a better state because they had served in the law making process of our state.

"Every group that hopes to accomplish anything must have leadership and the majority party and the minority party chose theirs and they chose well.

"By long established legislative custom the arduous and often complicated daily legislative process becomes the responsibility of the majority floor leader.

"In poetry and in prose we have read of the hesitant and sometimes backward male spending much time admiring his counterpart, a woman, from a distance but never finding the courage or opportunity to say so.

"Let me now standing before this assembly and in behalf of the minority party, take this opportunity to express our deep appreciation to the majority leader for the fairness he has displayed — for the leadership he has demonstrated and for the friendship and fellowship that has emanated across party lines during this session of the legislature of North Dakota.

"In behalf of the entire Assembly, Majority Leader Bryce Streibel, will you please come forward to accept this gift from your fellow members — a simple token of the high esteem in which you are held by all of us.

"Representative Streibel, we salute you."

Rep. Streibel: "Madam Chairman, Ladies and Gentlemen:

"Far out in the South Pacific there is a little island where there are no taxes, no unemployment, no welfare, no crime, no vice, no television, no rock 'n' roll — and no inhabitants.

"During these hectic days we have been exposed to quite the contrary — we do have taxes, unemployment, welfare, crime, vice, television, rock 'n' roll and we do have inhabitants, who on occasion made their presence very much known.

"Multitudes have converged upon us seeking favor and advantage — to join them appeared to be popular and the call of the hour. Too many legislative decisions in our nation are over weighted by the component we call 'popularity'. Legislative bodies must be careful not to seek the favor of the multitude; it is seldom got by honest and lawful means. But seek the testimony of few; and number not voices, but weigh them. It is an eternal truth in the political, as well as the social body, that where one member suffers, all the members suffer with it.

"Disraeli once said, 'No government can be long secure without a formidable opposition'. Believe me, using the yardstick of Disraeli, and the ingredient of our good friends of the Minority in the House, North Dakota's government is secure. To Rep. Backes, Weber, Solberg and each member of our respected Minority in the House I want to pay special tribute. You gentlemen served your party well and on occasion I had the feeling it was too well, especially on Senate Bill No. 2026. Someone once defined a political machine as a united minority working against a divided majority and I would be the last to dispute that definition.

"After those five tie votes I felt a little like a certain prominent Republican who was in Miami during the National Democrat Convention. There had been an enthusiastic banquet at one of the beach front hotels and the next morning this prominent Republican met one of the Democrat delegates who had attended the banquet and said, 'I understand there were some Republicans at the dinner last night'. 'Oh, yes,' replied the Democrat delegate, kindly, 'One waited on me.'

"The Speaker of our House has been eminently fair and extremely capable. He has played his role much like the official at a bullfight whose main function is to open and close the gates to let the bull in and out.

"I never cease to marvel at our Speaker's anatomy, especially those two parts that are daily tested when we go into Session at one o'clock and do not recess until six o'clock — namely the waste disposal system and that part that makes continuous contact with the leather of the high Speaker's chair.

"How he withstands the test of the latter can perhaps best be explained by that lovely fable they have in old western Europe which says that when a baby is born, its guardian angel bestows upon it a kiss. If the kiss is on the brow, the child is destined to be an intellectual; on the eyes, it will be a great beauty; if it is on the fingers, he will be a great artist. Now I am not in a position to tell you where the angel kissed our presiding officer, but you'll have to admit he looks very distinguished sitting in his high-backed chair.

"My appreciation and respect are given in their fullest measure to Majority Whip, Rep. Strinden, who has so capably assisted me for the past three sessions. I had always thought that Rep. Strinden epitomized a well-adjusted person until I came across a certain definition of 'well adjusted person' which is someone who can play golf as if it was a game. One round of golf with Rep. Strinden will soon teach you that it is anything but a game, it is an emotional testing ground of the first order which even the best psychiatrist would have trouble unraveling.

"Likewise I had always viewed Rep. Strinden as the admired head of the household and loving husband and father until the Third House and the Grand Forks Chamber of Commerce chose to schedule a party and legislative visit that happened to coincide with Valentine's Day. Several late hour unanswered telephone calls caused an upsurge in the floral deliveries to supplement a beautiful Valentine azalea plant already delivered to the Strinden residence. Having pinned many a white carnation boutonniere on pallbearers I could especially appreciate the added meaning of the white carnation arrangement delivered to the Strinden home the next day.

"One cannot mention the Third House without sharing a very deep and genuine appreciation for Roy, Bobby, Del, Clara and Cecil whose input into the Legislative process is so vital and yet not fully noticed or credited. And yes, I would be totally remiss if I did not present a verbal bouquet to Mavis — the pleasant, efficient and attractive half of the Majority Leader's office who is tested daily to offset the many shortcomings of yours truly.

"Leadership, be it Legislative, Social, Business, Political or Religious, receives more than its share of credit or blame. Someone once asked a famous conductor of a great symphony orchestra which orchestral instrument he considered the most difficult to play. The conductor thought a moment, then said: 'Second fiddle. I can get plenty of first violinists. But to find one who can play second fiddle with enthusiasm — that's a problem. And if we have no second fiddles, we have no harmony!' To you seventy-eight colleagues of our Majority my personal thanks for your tolerance and forbearance of my many frailties. Should history credit us, it will be yours to share.

"We are told that in politics — winning is all important. None have broadened in political victory — endless numbers have in political defeat. In politics, merit is rewarded by the possessor being raised, like a target, to a position to be fired at. People vote their resentment, not their appreciation. The average man does not vote for anything, but against something.

"We settle things by a majority vote, and the psychological effect of doing that is to create the impression that the majority is probably right. Of course, on any fine issue the majority is sure to be wrong. Think of taking a majority vote on the best music. Jazz would win over Chopin. Or on the best novel, many cheap scribblers would win over Tolstoy. And any day a prizefight will get a bigger crowd, larger gate receipts and wider newspaper publicity than any new revelation of goodness, truth or beauty could hope to achieve in a century.

"Our records in this great chamber will be recorded in deeds, not years; in thoughts, not breaths; in feelings, not figures on a roll call sheet; we should count time by heart-throbs not by legislative years."

Rep. Haugland called Rep. Backlin to the rostrum.

Rep. Backlin: "Mr. Speaker, Gentlemen and Ladies of the Assembly:

"I am exceedingly pleased to have been given the opportunity to extend to Representative James Peterson, Chairman of the Majority Caucus, the recognition of this body, and to, in some measure, express the esteem in which he is held by members of both caucuses. As Ward County's fourth-term legislator, he was an experienced member of this body when on the first day of the Organizational Session the current crop of freshmen legislators entered the scene. His courtesy, sense of humor, and above all, his assistance and experienced judgment, has helped us immensely. He has presided over the Majority Caucus with fairness and consideration. With Jim's physical size, he needed no sergeant-at-arms. Even though I am a member of the stronger sex, I am still a bit in awe of him.

"I simply express the sentiment of every member of this body when I present this gift and tell you, Jim, that in our eyes, you are not six feet, but rather 10 feet tall."

Rep. Peterson:

"Madam Chairman, Members of the Assembly, Rep. Backlin, thank you.

"As in the past, it was a genuine pleasure for me to serve with you this session. As we draw to a close, I think we can reflect on this session as one of the hardest working I have ever had the privilege of participating in. I have especially enjoyed serv-

ing the last four terms with the Appropriations Committee. I was as proud as I have ever been of them in some of their decisions they have made this year. This assembly proved one thing more, that the North Dakota State Fair is your fair, and I think that I will conclude my remarks and invite you up to attend.

"Thank you."

Rep. Haugland called Rep. Winge to the rostrum.

Rep. Winge:

"Rep. Haugland, Mr. Speaker, and Members of the Forty-third Legislative Assembly:

"We are gathered here to recognize the extra efforts that some of the members here have assumed to assure all of us a smooth and congenial Legislative session. It is with grateful appreciation that we give an extra pat on the back to those who gave the extra pull to get us over the rough spots.

"The caucus chairmen on both sides seem to have had a little easier job this session. I have never seen a session with as few caucuses as this one.

"I am sure that Rep. Wilkie could have made excellent use of this gift during the session and we hope that he will find many uses for it in the future. We are confident that the 73-23 will become the 75-57. Bring this little gift back with you in 1975, Gerhart.

"As further token of our appreciation is this gift, a briefcase. We hope, Rep. Wilkie, that you will carry your dead bills home in it and return next session with a clean-up bill that will call for self destructing containers for all sorts of drinks."

Rep. Wilkie:

"Rep. Haugland, Members of the Assembly:

"I have about two hours to make my speech, but for some reason I can't remember a word of it.

"It has been a pleasure for me to serve as Caucus Chairman of the Democrat members. They have treated me real well, and I have enjoyed it.

"With that I will just say, thank you."

Rep. Haugland called Rep. Solberg to the rostrum.

Rep. Solberg:

"Madam Chairman and Members of the Assembly:

"A few years ago I heard former Speaker of the House, Jesse Unruh, describe a legislative session of his State of California. He ended his description by saying — 'And then the legislature adjourns sine die, the members leave for their respective homes, and the state heaves a collective sigh of relief — thankful that the damage has been slight.' We have come to this stage in our session when we will pack our books, say our final farewells, and take leave of this beautiful Chamber. But before we leave we always have this pleasant ceremony where we honor and show our appreciation to the members who have accepted leadership roles during the session.

"Mr. Speaker, it is somewhat ironical that I should be chosen to honor you for I placed in nomination the name of your opponent at the start of this session. However, it was without any qualms that the Minority saw you chosen as Speaker, for Majority and Minority alike knew well of your fairness and capability from serving with you in prior sessions.

"Your sense of humor has served to lighten our long days, and relieve tensions that build up in the fast pace of legislative sessions, and although there were groans in the Assembly a few days ago when you stated a farmer was a man outstanding in his field, I know these quips have been appreciated.

"It has been my privilege to serve in this Assembly for many years, and this has been an efficient and hard working session. You, as Speaker, have bent over backwards to be fair and patient with everyone. You have chosen rather than a strict interpretation of rules, that everyone should have the opportunity to express themselves. It is with these thoughts in mind that I want to present you with the traditional engraved watch, so that you may, when you wear it or look at it, reflect upon the many associations you have had in your position as Mr. Speaker of the Forty-Third session of the House of Representatives.

"Mr. Speaker, I wish to congratulate you for a job well done."

Speaker Bunker: "Madam Chairman, Fellow Members of the Legislative Assembly:

"Rep. Solberg, it was quite an experience exchanging chairs with Rep. Haugland. Regardless of what chair I have been sitting in here, I did have a terrific impulse, first to rise on a point of parliamentary procedure, and then to make a substitute motion.

"I do want to thank all of you for giving me the opportunity to serve as your Speaker. It has really been a pleasant and gratifying and very rewarding experience, and I do want to thank you for that. I also want to express my appreciation to all of you for the courtesy and consideration you have shown me.

"It has been said by all of the Speakers in every session I have been here, that this has been the hardest working session ever, and I believe it was true then, and it is now, and it will be true in the next session.

"As a former colleague of mine said, 'As the days dwindle down to a precious few, we still have a lot of work to do.' Probably all of you have been asking what our biggest issues were facing us this session. I always say it is appropriation and taxation. The rest of the issues of the over 1000 bills and resolutions may be of great consequence to some people and some individuals, but I guess this is what it really comes down to — where we take the money from and where we take it go.

"Thank you for the honor you have bestowed upon me, and I hope we will be out of here very shortly.

"Thank you."

Speaker Bunker then presented gifts from the Assembly to Sergeant-at-Arms Cecil Crandall, Chief Clerk Roy Gilbreath, Desk Reporter Barbara King, Bill Clerk Clara Wendt, and Assistant Chief Clerk Del Wawers.

Rep. Peterson moved that the special order of business be dissolved, which motion prevailed.

Rep. Olson then presented the following poem which she had written.

LEGISLATIVE DAYS 1973

Rep. Alice Olson

"I would like to subject
To a little bit of rhyme
If you will kindly allow me
A few moments of your time.

"The session is now about ended
The hour is drawing nigh
For we in the 1973 Legislature
To bid these regal halls good-bye.

"Many good minds have been assembled
For fifty and some odd days,
Now the day has again arrived
For us to go our separate ways.

"We've performed as a lawmaking body,
Oh, we've occasionally fumed and fussed,
We've made many important decisions
As all good legislators must.

"Committee meetings — seemed they'd never end,
Trying to arrive at a logical solution,
What should we do about ERA and ETV
And how to stop unending pollution.

"We've worked on legal fences
To confine the cattle herds,
We've even tried to provide for
The poor "non-resident" birds.

"We tried to implement pre-marital counselling
And lowered the age to drink
I hope this permissive legislation
Made us all stop and think.

"The school bells can keep on ringing
They are assured of sufficient funds
I'm sure we will be questioned
About the good or the bad things we've done.

"As one representative so ably stated,
We've confronted a lot of "big butts"
I really don't believe he was referring,
To taxation or budget cuts.

"A wisdom tooth causing some trouble
Was the reason one representative of note —
Failed to respond to roll call,
And cast the deciding vote.

"I've observed a few of our studious representatives
Taking a little snooze,
The days were long and toilsome,
And the napping was in no way related to booze.

"We've worked, wine and dined together
And now that the sessions through
My parting wish for each member
Is may God bless all of you.

"Now that we've acted on all bills
And taken care of each cause for concern
If a motion is now in order,
I would like to move we adjourn."

Rep. Dotzenrod read the following poem which he had written:

"Some from this hall, we set our pace,
To other tasks then those of state.
Our lives have touched here for a space
In friendship, work and in debate.

"One empty chair, one voice is mute
We lately heard upon this floor
In hearty assent or dispute,
But now is mute forevermore.

"Farewell to Floyd, a colleague here
We pause to give you tribute now,
Accept this wreath upon your bier
As we our heads in sadness bow.

"This empty chair reminds us still,
How fragile, are the ties that bind
Us to our tasks; and that God's will
Rules o'er the fate of all mankind."
