So Cecil Crandall was declared elected Sergeant-at-Arms, and Acting Speaker Bier administered the oath of office to Mr. Crandall.

Speaker Bier announced the next item of business would be the nomination of the Speaker of the House.

Rep. Haugland:

"Mr. Acting Speaker and fellow members of the House of Representatives:

"The leadership that can be exerted by the Speaker of the House makes it one of the most important positions in the State.

"The man who is chosen must have certain definite qualifications.

"He must be a man of ability.

"He must have experience, and above all, he must be honest, fair, and sincere.

"The man whose name I am about to place in nomination possesses all of these qualifications.

"He is able, as all of you well know who have served with him in the House. He is fair to all members and factions.

"He is experienced.

"He knows the wants, the desires, the needs of our people for he is one of them.

"Rep. Art Bunker is a Veteran of World War II and the Korean Conflict. He is a graduate of North Dakota State University.

"He served as Vice Chairman of the Committee on Industry and Business in the 1969 Session and was Chairman of the Committee on Industry, Business and Labor in the 1971 Session.

"He was a member of the Majority Policy Committee in the last Session. He is a member of the Legislative Council.

"He will be an able leader who will give fair and equal treatment to each and every member of the House.

"I deem it an honor and a privilege to place in nomination as Candidate for Speaker of the House the name of a fine gentleman, Rep. Art Bunker of the 21st District, and ask your support for him." Rep. Knudson:

"Mr. Speaker, Ladies and Gentlemen of the Assembly:

"It is my privilege to second the nomination of Representative Art Bunker for the office of Speaker of the House. Representative Haugland has left me little to say about him. I merely wish to reiterate her remarks about his qualifications. I am confident he will perform with distinction as our Speaker, and will be most fair in making difficult decisions and rulings as the presiding officer. It is a privilege to second the nomination of Art Bunker." Rep. Solberg:

"Mr. Speaker:

"The greatest honor this Assembly can confer on one of its members is to nominate him or her to be the presiding officer. To be a candidate for Speaker one must have demonstrated his capability, honesty, fairness, and a thorough knowledge of the process of our representative government. The man I have the honor of nominating possesses all these requirements. He knows our State well for he was born and raised in the western part of North Dakota at Van Hook where he attended grade school and high school. After this he attended North Dakota State University where he received his degree in Agricultural Economics. He farmed in the Van Hook area until his farm was inundated by the Garrison Dam and then moved to a farm at Litchville, North Dakota, in 1953.

"He was first elected to the State Legislature in 1958 and has served in this Assembly in the 1959-61-63-65-67 and 71 Sessions, and is now serving his seventh session. He served as Chairman of the Transportation Committee in the 1965 Session and was a member of the Legislative Council for six years, where he served as Chairman of the Legislative Council's Transportation Committee during the 1967-69 biennium. His services to his community have been as generous as his services to the State. He is a member of the Litchville First Lutheran Church and has served as Trustee, Secretary, and President of the congregation.

"It is a pleasure and a privilege for me to place in nomination for Speaker of the House the name of a personal friend and a highly respected member of this Assembly, Representative Ralph Winge of the 24th Legislative District."

Rep. Weber:

"Mr. Speaker and Members of this Legislative Assembly:

"I have known Rep. Winge since the 1963 Session, and I have known no more honorable or conscientious Legislator than Ralph Winge and at this time I would like to second the nomination of Ralph Winge as Speaker of the House."

Rep. Streibel moved that nominations cease, which motion prevailed.

Winge passed.

Rep Winge:

"Mr. Speaker:

"It was an honor and a pleasure for me to receive the nomination

of my party for the Office of Speaker. I know Rep. Bunker to be a formidable opponent, but he has outgrown me in both directions.

"This leaves me without any kind of speech because I had one prepared for accepting. I am not sure but what the same thing did not happen to some of my partners on November 7, when, as they say, 'A strange thing happened on our way to Bismarck.'

"When Rep. Bunker and I were down there on the mat wrestling it out and Rep. Wagner was the referee and about to slap the three counts for the fall, we were all about the same height.

"My congratulations and the congratulations of the Majority certainly to Rep. Bunker with the best wishes for a smooth running session.

"Now, Mr. Speaker, I move that the Chief Clerk be instructed to cast a unanimous ballot for Rep. Bunker for Speaker of the House."

Rep. Winge's motion prevailed, and Rep. Bunker was declared unanimously elected as Speaker of the House of Representatives.

Rep. Streibel moved that a committee of two be appointed to escort the newly elected Speaker to the rostrum, which motion prevailed. Speaker Bier appointed Representatives Eagles and Herman.

Rep. Streibel moved that a committee of two be appointed to escort Associate Justice Teigen to the rostrum to administer the oath to the new Speaker, which motion prevailed, and Representatives Hildebrand and Mertens were so appointed.

Associate Justice Teigen administered the oath of office of Speaker Bunker.

Former Speaker Bier:

"Your Speaker, Rep. Art Bunker."

Speaker Bunker:

"Thank you, former Speaker Bier. It is with a great deal of feeling that I accept this position that you have elected me to. I consider it to be an extreme honor. I want to thank all of you who helped me achieve this position, and I want to again compliment my Republican opponent, my good friend Rep. Wagner, and also, I want to commend for his excellent race Rep. Ralph Winge. We have sixty long, hard days ahead of us, and a couple of more this week, and I am looking forward with anticipation to being able to work with all of you, every one of you, in the greatest possible way.

"I would like to take this opportunity at this moment to acknowledge the outgoing Speaker, Rep. Bier.

"I have known Rep. Bier all the time I have been in the Legislature. He served with a great deal of distinction in those three terms, and several terms before.

"I should say that he is retiring by his own choice. His electorate did not choose to retire him, as he was a very popular Legislator from his district, and each time he sought the seat, he was elected to it. There are many things you can say about this man. He is one of the finest gentlemen I have known, and one of the most respected legislators ever to serve in this body. He is a man of great intelligence, energy and fairness, and with a fine, genuine, sincere, warm personality.

"Howard, would you step up here, please. It is my pleasure to present to you the gavel that you used in the last session, to represent the feelings of the House and the State of North Dakota, and we wish you well in whatever you intend to pursue."

Former Speaker Bier:

"Thank you, Mr. Speaker. This will be a wonderful moment of the past session. I will treasure it always among the wonderful memories of the people I have worked with and known here

throughout the state. They have been very kind to me, and Mr. Speaker, as I present you, in turn, with this gavel to be used in presiding over the 43rd Session, the nicest thing and nicest wish I can make for you is that you receive the same kind of cooperation, good fellowship and the kind things that the people have done for me in the past. It has been a real pleasure, and I wish you all the luck in the world, and I know you will have a very successful session, and that you will be a very successful Speaker."

A special committee from the Senate, consisting of Senators Holand, Rait and Roen, were received and reported that the Senate was organized and ready for business.

Rep. Streibel moved that the House adopt as its temporary rules for the 43rd Legislative Assembly the Rules of the 42nd Session with the following amendments:

 10a shall be
 11 substituted for the regular committee report. **A member may**
 11a **also move**

23 the Majority and Minority Floor Leaders, set a time certain for
23a floor

24a calendar

25 for consideration during the eleventh or fourteenth orders of
25a business.

26 The Committee Chairman shall request the Speaker to set an

1 on which the ayes and nays were not recorded, may move a re-
1a consideration of

2a of the

3 members-elect. In case of a bill, joint resolution, or amendment
3a to

4 the Constitution, the motion to reconsider, if made after the end
5 of the next legislative day, shall require a two-thirds vote of the

GOVERNOR'S MESSAGE to ORGANIZATIONAL SESSION 43rd Legislative Assembly December 5, 1972

"Once again the halls of this beautiful Capitol hum with excitement and expectancy — the Legislature is back!

"I congratulate each one of you for having been chosen by the voters of your district. To be elected to the North Dakota Legislature is a distinct honor and a personal achievement.

"I have run for the Legislature myself and I know the amount of effort that you have expended to be elected a working member of this all-important branch of state government.

"You will soon begin a sixty-day period that will be filled with the kind of intense activity that only a legislative session can provide. During those days that so often stretch on into working nights, your emotions will feel frustration, elation, disappointment, and deep satisfaction as issues and decisions ebb and flow like the tides.

"At the end of the session, you will be glad to leave these chambers. If this is your first session, it won't take long for you to look back and say it was the grandest experience of your life. And with a little rest and a change of pace, you will be ready to try it again.

"How well I remember the term I served in the Legislature. It was the most interesting sixty days of my life.

"You have selected your leadership, and you will organize your committees and arrange your work loads for the coming session in January. You are fortunate that exceptionally good leadership is in your midst on both sides of the political aisle. The coming session bodes well for our state.

"The Governor of North Dakota is involved in the legislative process. You are the seventh legislative body I have been privileged to speak to as Governor.

"There are many new faces in this chamber today. I especially welcome you here. Your new thoughts and new vigor are essential ingredients in the legislative process. I urge you not to hesitate because you might think you lack seniority. Your opinions and your voices are sorely needed as we seek to adapt our state and local government to these rapidly changing times.

"I welcome back my old friends from past sessions. You and I have heard great issues debated in these chambers. We know that great issues will again be debated in the months ahead.

"All of you are here because you have won an election race. The

majority of those who went to the polls picked you, but when we win an election we should never lose sight of the fact that we represent not only those who voted for us but also those who voted for our opponents.

"To a new legislator, it may appear that conflicting political philosophies are constantly at work on all issues. This is not true because the vast majority of legislation does not involve political philosophy. There is too much to be done to allow unnecessary political controversy to interfere with progress.

"You will occasionally hear people voice concern about what person or which political party will get credit or blame. We can move mountains if we do not worry about who gets the credit. Credit and blame are such transitory things that they fade in memory as fast as yesterday's newspaper.

"There will be proposals made in the coming session whose proper moment is not yet here. But to paraphrase Theodore Roosevelt, it is far better to try and fail than to live forever in the grey twilight of knowing neither victory nor defeat.

"I will present an executive budget to you. This budget has been in the making ever since the last legislative session adjourned. It is the result of painstaking work by Budget Analyst Dale Moug and Budget Director Ralph Dewing. It will be a balanced budget with projected expenditures held within the money you will have to work with from existing tax and revenue programs.

"The budget I will present will continue state services pretty much as they are in the present biennium. It is not appropriate for me to innovate at the close of my term, but rather to present you a basic program. Innovation should be left to you and the Governor-elect.

"I am sure Governor-elect Link will have specific recommendations that will deviate from the proposals which, under the law, I must make to you in budget form. I urge you to view Governor-elect Link's budget as the blueprint to meet the problems of state government in the coming biennium.

"I emphasize that because new ideas in such areas as the school foundation program, revenue sharing fund use, and others are not a part of the budget I submit to you, this does not mean I support the status quo. I do not.

"We are fortunate in North Dakota that our state government is in sound financial condition. You will have less financial pressures on you than any Legislature in recent decades.

"The anticipated balance in the General Fund at the end of the biennium, June 30, 1973, will be substantially above that at the end of the last biennium. This will be true, in part, because of inflation, which has increased prices and tax collections.

"Also, we have enjoyed good agricultural crop years, with commodity prices and livestock prices this past year at a higher level than usual.

"Not to be minimized, too, are the increased collections that have resulted from efficient Tax Department administration and greater auditing of out-of-state corporations.

"You can expect a sizeable increase in total revenues to the General Fund in the next biennium without increased tax rates. This will be true because of continuing inflation and a reasonable expectation of a strong agricultural economy.

"It is also noteworthy that profits to the Bank of North Dakota these past two years will allow you to make the greatest transfer to the General Fund from that institution that has ever been made.

"In addition to these factors is the state's share of federal revenue dollars which will amount to \$22,250,000 by the end of the coming biennium.

"These new or increased sources of revenue to support the state budget will amount to an estimated \$82 million. The careful use and preservation of these dollars will be a challenge. The 1973-75 budget will, of course, be swelled by inflationary pressures and the unavoidable need to be competitive in salaries and wages.

"But I urge you to maintain tight control over any expansion of existing programs. Any time that a new higher plateau of operational spending is established, it is almost impossible to make overall reductions in future years.

"There are certain capital investments which are badly needed and which if approved and constructed would actually increase the economic activity in the state, or improve the efficiency of government. These kinds of capital investments should be made when there is some surplus of funds as there is now. I am talking of such Investments as buildings, parks, historic preservation sites, and water resource development.

"The primary and secondary education support program will be a major issue in this session. There will be a need to increase the amount of state funds for this purpose. But in order to encourage a continuation of more efficiency in school district organization, there should be mandatory reductions in local educational taxes to offset a substantial share of increased state aid.

"I am preparing a report to you and to the people of our state setting forth some of the major changes and happenings during the twelve years that I have been in office. I hope the report will help you peer into the future by examining some of the significant changes that have taken place in this state's recent past.

"While I will be in office only a few weeks more, I welcome any advice you may wish to give me, and my office door is always open to you if I can be of help."

 18a Speaker
 19 may also permit extra seats on the floor of the House chambers
 19a to be
 20 utilized by members of the press, and may reserve certain seats for
 21 that purpose.
 22 When two or more members have exactly the same seniority as
 23 determined pursuant to the first sentence of this Rule, seniority
 23a as
 24 between those members shall be determined by their birth dates,
 24a with
 25 the oldest of the group being most senior, and so on until all
 25a members
 26 of the group are ranked.
 27 In making committee assignments pursuant to Rules 7 and 40, the
 28 Speaker shall first consider the best interests of North Dakota, and a
 29 member's individual committee assignment preference shall be given
 30 second consideration.
 31 In making appointments of Committee Chairmen and Vice
 31a Chairmen,
 32 the Speaker shall give no less weight to ability, knowledge of
 32a subject
 33 matter, and experience than he gives to seniority.

 27a of the
 28 bill or resolution, it shall make an estimate of the impact
 28a according to
 29 such available information it may have or be able to obtain
 29a and shall
 30 state that the figures provided are an estimate. If such agency
 30a or
 31 department is not able to make an estimate it shall state such
 31a fact.
 32 All fiscal notes shall be prepared in triplicate and shall be
 33 returned to the Legislative Council or the Committee Chairman
 33a making
 34 such request, whichever the case may be, not later than five
 34a days from

REMARKS

By Governor William L. Guy

"Speaker of the House Bunker, Governor Link, Lt. Governor Sanstead, distinguished Judges and state officials, Representatives, Senators, guests:

"We are gathered today in a time honored ceremony to inaugurate the state officials who will administer our state government for the next four years — and to begin the work of the 43rd Legislative Session, which will determine what laws must be enacted or amended to make our state an ever more desirable place in which to live.

"State government is not a mechanism that is wound up for a two or four year period only to stop and wait for the next winding when that period draws to a close. State government is always in motion — it never stops.

"The truth is that state government is in such continuing and accelerating motion that those new to the business of legislating or administering will find themselves having to run if they want to catch up.

"When I speak of running to catch up, it is appropriate that I recognize the work of the Legislative Council and its fine staff, because if it were not for them, there would be no catching up.

"The Legislative Council has been working hard in the last eighteen months to carry out the studies needed to prepare legislation for this session. Without that preparation by the Legislative Council, the next sixty days would be nonproductive chaos.

"Many of you new legislators will be required to consider legislation which your immediate predecessor just finished helping to shape after much study and public hearings. Does it strike you as strange that our system would have legislators prepare legislation that many of them do not vote on? How much easier it would be if all legislators, and especially new legislators, had the benefit of participating in interim Legislative Council work before they considered major bills in a full session.

"This desirable situation could be possible if the sixty-day Legislative Session were held fourteen months after the General Election rather than two months after the election, as is now the case.

"Such a change in Legislative Sessions would benefit the electorate, too, because a Legislature would complete its sixty-day term only eight months before the next General Election.

"The work of the Legislature then could be more easily remembered by the voters when they pull the curtain behind them in the voting booth.

"But we must work by the rules as they exist until they are changed.

"As we meet in these beautiful chambers, we pause today in an historic moment. But even as we pause, government is continuing on in this building and out in the field without any pause.

"There are thousands of people working hard in state government. Being a government worker has its disadvantages. How well I know those disadvantages for I, too, have been a government employee for twelve years.

"We in government are often derisively referred to as bureaucrats. But I know that North Dakota has at this moment an exceptionally qualified and dedicated body of public servants.

"I take this closing moment in my term to express my admiration and gratitude to those fellow state employees who have labored with me these past twelve years. The achievements of many, many people in our state government are well documented and I am extremely proud of what the record shows.

"We are in the midst of fast moving evolution all around us. National policies are coming into being in the economic, social, and political fields. These national policies will affect us in North Dakota for decades to come. The next session of Congress will be crucial to all of us.

"We in North Dakota must sit up and pay attention to what is happening, for not all that is happening will be good for us. There is cause for apprehension that small rural states and their problems will be subordinated to the pressing problems of the congested industrial states.

"As legislators and government leaders of a small population state, we need to stand together wherever possible in a united front. This unity has not always happened and it may not happen in the days ahead.

"There will be a natural tendency for North Dakota Democrats to defend a Democratically controlled Congress and claim that it can do no wrong. There will also be a natural reaction by North Dakota Republicans that a Republican President's policies must be defended and that he can do no wrong.

"But I say to you now that the interests of North Dakota are so important to us today and for generations in the future that our state's interests transcend the need to defend a Republican President or a Democratic Congress with blind disregard for the effects of that which is being defended.

"If the leaders of this state accept that which is harmful to us simply because it was proposed or carried out by their political party leaders on the national level, then the very essence of the state's important role in the federal system will have been subverted.

"Don't be afraid to let the President of the United States or his Bureau of the Budget know that you approve or disapprove of his actions. Don't be afraid to let Congress know what you think of its action or inaction.

"Rural development, population shift, farm policy changes, natural resource conservation, and environmental management are examples of areas of special concern that are far too important to us in North Dakota to accept any policy relating to them simply on the basis of political sponsorship.

"The public expects a basic honesty from all of us in the Legislative and Executive Branches of government. And even though we are state officials, the public rightfully expects us to be active participants in the making of national policy rather than acquiescent defenders of national policy handed down to us from on high.

"These last twelve years have given me the wonderful experiences that come with being a part of the biennial legislative proc-

ess. I have been privileged to speak to seven sessions of our North Dakota Legislature.

"I have also had the rare opportunities of speaking to the Legislatures of Minnesota, South Dakota and Oklahoma — and an even more rare privilege was extended me when I spoke to the Manitoba Legislative Assembly. I can tell you that the rumbling of thumping fists on desk tops instead of applause in the Manitoba Legislature is unnerving if you are not prepared for it.

"I should also state with considerable pride that no legislative chamber that I have ever visited can match the austere elegance of our North Dakota legislative chambers.

"I step down today as Governor with no regrets and with the satisfied feeling that the results of the last twelve years have been worth the effort. I have prepared a lengthy report to you covering the changes that have taken place in state law and state government these past twelve years. It will be distributed to you tomorrow.

"My family and I have enjoyed our official position, and we have considered ourselves very fortunate to live in and grow up in this beautiful Capital City community.

"As we leave this post, the most important thing we can take with us is the host of new friends we have been able to make from one end of the state to the other.

"I wish the new Administration of Governor Link the very greatest success and I wish the 43rd Legislative Assembly a careful, orderly session in which you dare to risk making mistakes.

"My wife and I intend to follow the activities of the session as closely as possible, and we want you to know that we will be thinking of all of you as we soak up some sunshine on the white sand of some palm-studded southern beach resort.

"But when that is over, we will be scurrying right back home to North Dakota."

Chief Justice Alvin C. Strutz addressed the session on "The State of the Judiciary," and Rep. Streibel moved that the address be printed in the Journal, which motion prevailed.

THE STATE OF THE JUDICIARY

Message by

Alvin C. Strutz

Chief Justice of the State of North Dakota

"This is a wonderful yet awesome time in the history of man. We are living in a period of world crisis and change, and many people have difficulty in trying to cope with the rapid fluctuation in the important things in their lives. Alvin Toffler, in his recent book, "Future Shock," tells of one modern social philosopher who claims that the world of today is as different from the world of some fifty years ago as that world was from the world of Julius Caesar.

"Today, we are witnessing a change right here in North Dakota. This is the first time that the courts have been privileged to report to a joint session of the Legislative Assembly on the state of their affairs. Some of you may have previously appeared before a judge, but no judge has had an opportunity of appearing before the Legislative Assembly to report on the state of the judiciary. We of the judiciary appreciate this opportunity of outlining to you very briefly a few of the many problems facing the courts and of advising you how we have tried to meet these problems.

"In the last fifteen or twenty years, there has been a tremendous increase in crime in America. We need only glance at our daily newspapers or listen to a broadcast of the news to realize that we are living in an age of violence. Accidents on our highways main

and kill many persons each year, resulting in a great deal of litigation. We are constantly facing the effects of the vast social explosion which has created problems for the courts never dreamed of twenty years ago. Many of our young people have rebelled against 'the establishment' and against all forms of authority and have engaged in rioting and violence. We even have had some members of the legal profession flout the discipline of judicial procedures, trying to turn the courtroom into a circus.

"In order to regain their liberty after conviction, more and more prisoners have been making post-conviction attacks upon supposedly final judgments against them. The legislatures of the various States and the Congress have been passing more and more laws. These laws have created new rights and new obligations. So great has been the demand for new laws to create or to protect real or imagined rights of the people that many legislatures now meet every year instead of every two years and many are meeting for longer periods of time. All of this has flooded the courts with litigation, and court calendars in many parts of our country are hopelessly crowded. Citizens with grievances have found that they often have to wait for years to have their grievances heard. Such delay has resulted in much criticism of the courts, and the public has begun to wonder just what is wrong with the entire legal system.

"Many remedies have been suggested but, all too often, hastily contrived solutions do not cure our problems and actually may aggravate them.

"Many things have tended to increase the volume of litigation. For example, a few years ago, the only issue a litigant could raise on a petition for habeas corpus was to inquire whether the judgment or order being attacked was within the jurisdiction of the court which had rendered it. The writ would not lie to correct mere irregularities or errors which might have been committed during the trial. But this no longer is true. Today, in both Federal and State courts, the writ is used to correct constitutional errors which may have occurred anywhere along the judicial trail. A convicted person now has the constitutional right, under decisions of the United States Supreme Court, to raise these issues by use of the writ, and State courts must follow those decisions. By permitting use of the writ of habeas corpus to correct errors in the judicial process, the courts have invited claims of error by hundreds of persons whose convictions should have been final when the time for appeal in their cases had expired.

"Notwithstanding the many problems facing the judiciary in all parts of the land, the people have the right to expect reasonable, if not perfect, performance by their courts. If the causes of delay are not remedied, public confidence in our judicial system will break down and the system itself will collapse.

"In the light of these problems and changes facing the courts of the Nation, I would like to have you look at the situation here in North Dakota for a few moments, with special reference to the District and Supreme courts.

"In spite of the additional rights which have been granted to those who have run afoul of the law, and all the other changes that have taken place, there is no great delay in the trial courts of North Dakota, even though the workload of these courts has greatly increased in the past few years. You, as members of this Assembly, are entitled to a portion of the credit for this situation. You recently enacted a law which gives to the Supreme Court the power to compel a trial judge to make a decision if he should fail to decide a case within a reasonable time after hearing. We cannot, of course, tell him how to decide the case, but we can order him to render a decision and thus prevent a long delay. We have had to use this power on just two or three occasions, but I believe that the mere fact that this law is on the books has perhaps had a salutary effect

on any trial judge who otherwise might have been inclined to delay his decisions. In any event, most of the trial courts today, so far as our information discloses, are quite current in their work. Our trial courts, on the whole, have been doing an excellent job. Because of the low salaries being paid to our judges, however, we have lost one of our most competent judges in the past few months and others contemplate leaving.

"Fifteen years ago, the entire work of the Supreme Court consisted in hearing and deciding appeals and in disciplining attorneys. That, however, no longer is the case. Today, only about one-half of the time of the Court is spent on those duties which took all of our time just a few years ago.

"There are many matters other than appeals which now occupy the time and attention of the Supreme Court. For example, we have held hearings on amendments to the Rules of Civil Procedure. Numerous conferences have been necessary for the purpose of considering, reconsidering, and finally adopted these amendments.

"On petition of the State Bar Association we also have held numerous hearings and conferences on and finally have adopted new Rules of Appellate Procedure, the first revision of the appellate rules in this State in many years.

"A committee on revision of our Rules of Criminal Procedure, consisting of several district judges, judges of county courts of increased jurisdiction, and members of the Bar, with Judge Erickstad of our Court as chairman, has spent a great deal of time on new Rules of Criminal Procedure, attempting to bring our criminal process into conformity with recent decisions of the United States Supreme Court that have laid down new rules governing the rights of individuals charged with public offenses. We hope to be able to hold the necessary hearings for consideration and adoption of these rules before the 1st day of July of this year.

"With all these additional duties, we never would have been able to keep our calendar nearly current if the Legislature had not provided us with two law clerks to assist in our necessary legal research. You also have contributed to a portion of the expense in providing for an Executive Secretary of the Judicial Council, who doubles as Court Administrator. He has rendered valuable services to the Court and to the Judicial Council despite the fact that since his appointment in October of 1971 it has been necessary for him to devote much time to the learning process and to organize our court administration in accordance with that of other States. He now is in a position to relieve this Court of the burden of considerable administrative work so that it can devote more time to judicial matters and thus do a more effective job in the future.

"I am sure that I need not point out to you the importance of the Judiciary in our system of government. The Executive, the Legislative, and the Judicial branches were intended to be equal partners in our system of checks and balances. Each plays an extremely important role. The courts provide a forum for those who feel they have a grievance, to settle disputes between our people; they protect persons unjustly accused of crime, and punish those who are justly accused regardless of their social or economic standing. They protect society against the wrongdoer and, in reality, are the difference between order and chaos.

"Thus, in spite of all the demands on the time of the courts, with your assistance we have managed to keep our work fairly current; and I can report to you today that we have no case on our calendar that was argued more than six months ago, and all but one of the cases remaining for decision were argued less than four months ago.

"We appreciate the opportunity of making this brief report to the Legislative Assembly, and we trust that with your continued assistance and with the blessing of Almighty God we may be able to continue to render reasonable service to the people of North Dakota."

Chief Justice Strutz administered the Oath of Office to Governor-elect Arthur A. Link.

Governor Link addressed the session, and Rep. Streibel moved that his remarks be printed in the Journal which motion prevailed.

GOVERNOR'S MESSAGE TO THE
FORTY-THIRD LEGISLATIVE ASSEMBLY

January 2, 1973

by

Arthur A. Link, Governor

"Members of the 43rd Legislative Assembly,
State Officials, Friends:

"Close to one-third of those of us here today who were elected are serving in our present role for the first time. Many of you with whom it has been my privilege to serve in the Legislature must know how difficult it is for me not to address this assembly as 'Fellow Legislators.'

"I treasure my years of serving in this beautiful chamber in our stately capitol. I treasure the bonds of friendship and understanding that this experience has afforded me. But most of all, I value the strength and re-assurance in the democratic process of representative government that can be most fully appreciated by actual participation in it. The rewards to each of us and those we represent will be in proportion to the personal dedication, commitment and effort we put into our work.

"The very nature of our two party political campaign process cast each of us into a partisan political image. If we now are to fulfill our true role, the partisan political image must give way to that of representation of all the people. This is not to suggest that we ignore or divorce our respective parties — but rather that in carrying forth the commitment of our party, it be done on a positive note — with personal or partisan political consideration held to a minimum.

"Each of us presented ourselves in some way that instilled confidence in us by the electorate.

"In a lighter vein, the voters were very considerate of me. In effect they said, 'Art, we will send you back to Bismarck as our Governor, we will even send Senator Sanstead back as our Lieutenant Governor — but beyond that we want to make you feel very much at home by electing a substantial majority of the Legislature from the opposite party.'

"But in a serious vein, and with a louder voice to all of us, I think they said, 'We expect you to work together for the good of the people in our State.' We are too small a state in terms of population, resources and national muscle to dissipate any of our efforts in opposing constructive legislation or programs that might be sponsored by the opposite party just because they might get the credit.

"Nor can we afford to wait two, or four, or more years for the wheels of political fortune to install 'our party people' in office so that whatever credit or patronage may enure from a proposed bill or program will come 'our way.'

"How many know the star-shaped game of 'Chinese Checkers'? Each player moves his marbles from his star point across to his opponent's star point. By strategic moves, one could often block his opponent. A player who used to come to my folks' house always attempted to block his opponent, while the opponent took the positive approach and moved his marbles as far as possible with little concern for blocking. Our visitor won fewer games than anyone I can remember.

"Our resolve to work together should not preclude the need or

desire to enter into honest debate on issues of importance, for often only in this way can both the majority and minority view be considered. It is not uncommon for a single voice to so bring to light that which becomes the majority position upon final consideration of an issue.

"So as we once again embark upon the biennial meeting to attend the affairs of state, let us do so with the resolve that if we have differences of opinion they will be honest differences and if we make mistakes they will be honest mistakes. For there is no disgrace in one's failure to find the solution to a problem — disgrace lies in one's failure to attempt the solution. I know that your commitment is the same as mine — to make every attempt possible to find solutions to our problems.

"I need and solicit the help and counsel of you and your leadership from both the Senate and House and from both sides of the political aisle. I look forward to a hard working and productive session. It will be so if each of us assumes our full share of the responsibilities of the office to which we were elected. We can offer no more than that to the people of our state — they deserve no less.

IN REVIEW

"We are blest in our Nation and our State with many of the good things in life because of the heritage of those who planned and worked before us.

"It is proper and fitting that we recognize those who have made significant contributions to the future betterment and progress of our state. Not too often do we have the opportunity to do so in the presence of one such person.

"Our retiring Governor — William L. Guy — has prepared a most significant and comprehensive report to the 43rd Legislative Assembly of North Dakota. It covers the period from January 3, 1961 to January 2, 1973. It is a thirteen section chronological documentary of our ever changing state government with introductory and concluding statements. We are indebted to him for compiling the necessary information, with the assistance of the various departments, and coordinating it into this valuable report.

"Nor is it **only** a report — it serves in many areas as a springboard for numerous recommendations. I commend this report by Governor Guy to each of you, and particularly to students of government. Many of the issues cited and recommendations given are of such timely nature that we would be remiss if we did not give consideration to them.

"We should not permit new ideas aimed at solving old or existing problems to go untested when the architect of those ideas has for so long been so much a part of our state and its government and is actively in our midst. We should rather implement as many of them as we can agree upon.

QUALITY OF LIFE

"We in North Dakota enjoy an exceptional quality of life. The natural qualities of clean air, water, rich topsoil and natural resources above and beneath the surface of our land have not yet been spoiled or exploited to the same extent as in heavily populated states.

"Neither do we have many of the more serious social ills, with the accompanying lack of discipline and respect for one another, that in many places makes life an ordeal rather than one of order. It is little wonder that many who grew up in our state, as well as those who have come to know our state, want to stay or return.

"But the task is great. While I have seen one prediction that North Dakota will experience a 6% population increase by 1985, it is a statistical fact that if North Dakota is to maintain its present

population level, the net out-migration of people during the 1970's must be reduced to one half of the net out-migration by the 1960's.

"I am convinced that our quality of life is our greatest asset and that any programs to increase our population can and must be accomplished under conditions to fully protect this quality of life.

RE-APPORTIONMENT

"This session of the legislature once again comes to grips with re-apportioning our state's legislative districts. The courts have ruled in favor of the one-man, one-vote concept and equal representation in both Houses of a bi-cameral legislature. Yet we continue to accept multi-member districts in each succeeding re-apportionment plan which does violence to the one-man, one-vote rule. Lack of time or sufficient data cannot be continuing reasons for not dividing multi-member districts into single member districts or sub-districts. Even though these new districts were less than perfect, they would nevertheless be much more equitable for the people than the present multi-member districts.

"I commend the efforts of the Reapportionment Committee for focusing attention on the need for more accurate census figures.

"The United States Supreme Court has said, 'When district courts are forced to fashion apportionment plans, single-member districts are preferable to large multi-member districts as a general matter.'

"We should not wait for the courts to tell us to do that which we know is right.

EDUCATION AND CULTURE

"A well educated and highly literate society is the foundation of freedom. We must maintain our excellent school system at all levels and improve it where necessary and possible. Education is not an event in one's life that can at some magic point such as 'graduation' be considered complete. It is rather a continuing experience that provides the stimulus for improvements of one's intellectual and manual skills.

"The ability to transfer credits between our institutions of learning should be constantly improved wherever possible. While we continue our support of an excellent academic program, vocational-technical education still has not fully come into its own.

"In order for North Dakota to adequately serve its people, our educational program must be relevant in meeting their needs. To implement and develop an educational program that meets the needs of a changing technology, we must provide all people of our state with a system of education that is practical and meaningful based on present and emerging employment needs.

"Only 17% of the jobs in our nation require a baccalaureate degree. Therefore, the majority of our citizens can profit from vocational-technical education. I encourage adequate financial support to meet the increased needs of this phase of our educational program.

"Nor must we overlook the special educational needs of the handicapped whose entire role in life might center around minimal intellectual or manual accomplishments that, without development, would forever lay dormant, committing that person to a lifetime of extreme limitations.

"Educational television for all can tremendously extend the arm of a good educational program.

"Often we become so engrossed in the materialistic, economic and financial aspects of life that we overlook some of the basic ingredients that nurture our mind, body and soul.

"We can and should encourage the appreciation of the finer and nobler forms of activities and entertainment. Few are those indeed who do not find comfort and joy in good music — whether it be

folk, popular, classical, country-western, or rock. The same is true of singing, poetry, drama, painting, sculpturing, carving, picture study, yes, or even reading a good book, magazine or newspaper.

"Go about the state as we have — see the fine craft shows at art exhibits, Boy Scout exhibitions, 4-H and Home Demonstration shows, a Diamond Jubilee home-talent pageant, the young wood carver, the middle aged painter, ceramic moulder or rock carver or the aged woman crocheting, knitting or rug weaving, while her husband excels in woodcraft or leatherwork.

"North Dakota has a wealth of hidden talent and abilities that need only to be awakened with a little stimulation and encouragement.

"We should lend support to programs of the Arts and Humanities, lest we permit cheap, violent, sadistical programs to completely capture the attention and warp the minds of our people. The fruits of our orchards or the grains from our fields will be no better than the seeds we planted or the care and cultivation we gave them while growing.

"All the material economic gains of a lifetime are meaningless if in the process we permit our social and moral fiber to decay into the dust.

TAXATION AND REVENUE SHARING

"Who are the taxpayers? All of us.

"I know of no group of people more acutely conscious and sensitive to the impact of taxes and taxation than those in the Legislature. They not only feel the tax bite on their pocket book the same as most everyone else, but in addition they take it on the chin from everyone back home who during the session kept asking for more appropriations for more services.

"But I must hasten to also applaud our North Dakota people, who while they may wince a bit, do pay their taxes with a minimum of complaints.

"So satisfactorily have tax collections been that as of June 30, 1973, we will have an estimated General Fund balance of \$38,500,000, which together with estimated Federal revenue sharing of \$9,300,000 for North Dakota results in a total of \$47,800,000.

"No legislature and Governor during all the years of my service has had the opportunity to do what we can during this session. We should now show our consideration for the efforts of taxpayers by enacting meaningful tax reductions. I am aware that many demands will be made upon this balance — some justified to be sure.

"But if we are to maintain the credibility of the people to their government we must show this concern at this time. In 1969 when we repealed the personal property tax, we also repealed the sales tax on meats and dairy products. I recommend that we repeal the sales tax on the rest of the food items. This gives tax relief to everyone and is of special importance to low income people and those living on fixed incomes.

"In addition thereto, the state's share of revenue sharing funds should be added to the support of elementary and secondary education through the Foundation Aid program with the requirement that mill levies be reduced to effect property tax reduction at the local level.

"We would not only thus be affording much needed and long overdue tax relief but also reduce the challenge of the equal support for education that brought on the adverse California decision.

"Nor are the opportunities limited to those of us at the state level for new, creative and tax saving effort. On a biennial basis, North Dakota will receive approximately 45 million dollars in Federal revenue sharing. One third comes to the state with no

strings attached, and two thirds will go to local units of government — cities, counties and townships — for use in eight categories of public service. With many local units of government receiving 200 to 300 dollars, it would seem logical that these could be pooled together with others in a county or area in order to properly fund any one or several necessary public programs within the guidelines. With this in mind, I asked the Legislative Council to prepare a summary of the possible areas of inter-governmental cooperation that might result in beneficial pooling of funds. The resulting five page report is recommended for your study and action.

"The wise use of local revenue sharing funds can result in less need to depend upon or raise local taxes to pay for necessary public services. While we cannot tell local units how to spend their revenue sharing funds, I believe we can and should assist in pointing out the means by which they can best utilize them.

"I present this information for your use and solicit the leadership of the entire Legislature to pursue whatever course of action you deem expedient to present a meaningful program of action for the hundreds of local units of government who may benefit by it. The services of my office and staff are available toward this joint effort.

ORDERLY DEVELOPMENT

"Earlier, I referred to our Quality of Life. If we are to encourage an expanding population it must not be done at the expense of this Quality of Life. Many of the shortcomings and problems of the congested areas of our country are the results of either no planning or inadequate planning. Too many decisions are made simply upon the short-time economic importance of an industry, a project, or program. Too many times increased population has been equated with prosperity, only to find quite the opposite true.

"As we contemplate the development of our mineral resources, we must ask ourselves penetrating and basic questions. Will the development seriously impair future beneficial use of mined areas? Are we willing to forego development which would mean new jobs and the related economic stimulus in order to maintain the land for its present use?

"In all cases where the original topography is desirable and the productive capabilities are beneficial for future generations, I believe we must fully reclaim, or the land should not be disturbed.

"The immediate economic importance should not be the sole determining factor. Whenever we neglect mined lands, or pollute the air or water, we are merely cheating ourselves. The price of total reclamation in the case of mined lands and the cost of anti-pollution installations to prevent discharges of plant wastes into the air and water must be charged to the selling price of the manufactured or refined products.

"Orderly development requires adequate planning. The State Planning Council should become the overall coordinating agency in all areas affecting the human and natural resources of the state.

"For example, there is increasing need to coordinate the many housing programs that are presently available to North Dakota communities.

"Our state is rich with water, productive soil, minerals, and natural beauty. Development of these resources must be for the maximum benefit of all our people. Land use planning must become an integral part of orderly development.

"It is increasingly important if small population states are to assert their proper role in the development of the upper midwest region, of which we are a part, that we speak in a unified voice.

"North Dakota is a member of several important regional com-

missions such as the Souris - Red - Rainy River Basins Commission, the Missouri River Basin Commission involving ten states, the five-state Old West Regional Commission, the Old West Trail Foundation and the Explorers Highroad — the latter two tourist promotion bodies.

"These regional commissions are extremely important since they give member states a stronger voice in state-federal relations. To be properly and effectively represented on the commissions requires coordinated state input that can only come through the State Planning Council. This program deserves the full support of all of us.

CONSTITUTIONAL REVISION

"The human and financial effort put forth over the last two years in drafting and submitting a new state constitution need not be lost. I propose the creation of a Constitutional Revision Commission composed of members representative of the several interest groups in our state.

"This Commission would be charged with the responsibility of reviewing the recently proposed new constitution and recommending to the legislature those parts that in their judgement should again be submitted to the people for approval. Variations in scope and depth of research could be specified.

MEDICAL NEEDS

"We must come to grips with the shortage of health services in our communities. As we study the feasibility of providing full medical educational opportunities for our people, we should consider the possibility of an Old West Regional Health Center. Several states pooling their financial and human resources may be able to provide the kind of training and health service program that we need.

"The rising costs of health insurance and medical care is a matter of grave concern to each of us. Resolving the depressing effect these expenses have on our families must be given a high priority.

HERITAGE CENTER

"The North Dakota Heritage Commission was established to plan and design a Heritage Center. Our state is so young that many truly historical artifacts still remain intact in many homes and places of storage and safekeeping.

"Thousands of other valuable historical pieces and documents, however, are being sold or carted out of the state, and much is deteriorating due to poor and inadequate care. Many of the owners would welcome a chance to donate or loan priceless articles for display. This would afford present and future generations the opportunity to share the heritage of their state.

"Such a heritage center could cause thousands of tourists each year to spend one more day or night in North Dakota that they might not otherwise do, resulting in hundreds of thousands of dollars in additional money spent in our state. I recommend no less than \$500,000, and preferably \$1,000,000 of state appropriations to be placed in a Heritage Center trust or construction fund, with expenditures contingent upon sufficient additional funds, either public or private, to assure completion.

"I believe with this kind of 'seed' money committed by the state we could realize a 1976 target date, as North Dakota's contribution to the 200th birthday of our Nation.

ECONOMIC DEVELOPMENT AND JOB OPPORTUNITIES

"These two go hand in hand. Again North Dakota must utilize its total intellectual, physical and financial resources in a coordinated, well-planned effort to develop the kinds of enterprises com-

patible with both the resources at hand and the needs of our people.

"An excellent example is the current sugar beet refining facilities. I plan to work closely with the Business and Industrial Development Department and the Bank of North Dakota in an effort to expand the service they might be able to render for either existing or new businesses. We must develop in-depth feasibility studies to determine the factors that spell success or failure for many small ventures. We must dare to ask why private millers have left North Dakota, why we do not fatten more of our feeder cattle in our state and slaughter them in our own plants?

"Expanding opportunities for fuller participation of our youth in meaningful pursuits is of prime importance. Profits of the Bank of North Dakota are sufficient so that we should use a portion of them to underwrite a Summertime Youth Employment Program.

"We should consider utilizing the provisions of the National Youth Conservation Corps Act which authorizes 'gainful employment during the summer months of American youth'. The program applies to Federal Public Lands, and on a 'Pilot Grant Program for State Projects,' to non-federal public lands and waters within the states.

"Jobs and increased economic value are created where raw agricultural products are processed. If in-depth studies indicate that high transportation costs, laws that are not fair to workers or employers, adverse tax policies, or inadequate public services, to mention a few, are serious deterrents, then we should set about correcting whatever can be corrected. We cannot expect out-of-state interests to find reasons to move here so long as we are willing to sell most of our production out of the state at wholesale, and buy back what we need as manufactured goods.

AGRICULTURE

"With from 80 to 85% of our economy based upon agriculture and related services, North Dakota continues to have a major stake in federal farm legislation. With so much of the nation's economy operating under protective federal legislation, farmers and livestock growers cannot compete without similar consideration.

"The recent order of President Nixon to continue the suspension of beef import quotas poses a serious threat to the livestock industry of our state. Livestock growers are only now realizing a comparable return with other segments of our economy. Likewise, his more recent orders terminating the REAP and Water Bank programs and low interest REA-RTA loans are body blows to rural America.

"Time and space prevent further elaboration upon the reasons for and values of these programs. I urge the legislature to adopt concurrent resolutions at once indicating the adverse effects of the above actions, with a request that the President reverse his decision in each case.

"We cannot permit the higher farm prices of today, largely due to short crops in foreign countries, to cause the termination of a sound federal farm program. I urge adoption of a concurrent resolution petitioning the President and the Congress to adopt a sound and meaningful farm program to take the place of the present one that expires this year. Emphasis should be given to supporting the basic income of the family-type owner-operator unit.

"I cannot emphasize too strongly the need for us to work closely with our own Congressional delegation and those other members of Congress sympathetic to the needs of rural states. We must work together through all avenues open to us to promote and realize a sound federal farm program.

"At the state level, we should continue to support adequate research including weather modification studies and diagnostic services, to assure the continued improvement of our agricultural production.

LABOR

"All people who perform some task or service are laborers.

"We have many in public and private employment whose income is below acceptable minimum standards. We need to give special attention to widows' benefits under Workmen's Compensation and to the State Employees' Disability Retirement Program. We should provide a grievance service that would permit employees to clear modest claims and disputes without excessive delay and cost.

"The able administration of North Dakota's Employment Security Bureau, with the all important Manpower Council, is of inestimable benefit to a large number of our people. Through this office, the employment needs of all our communities can be registered. Training programs and labor pools can then be effectively programmed to satisfy these needs.

"Organized labor, exercising rights and responsibilities for members and communities constitutes a part of mainstream America as do other organized socio-economic groups of our country.

TRANSPORTATION

"Our state highway system is among the best in the nation, yet there is much still to do. Wherever possible, highways must be made safer. We must strive to connect many smaller towns to adjacent state highways with a hard surfaced road.

"A study conducted by the State Highway Department disclosed that it would cost \$19,000,000 to provide every city in the state with a hard surfaced, all weather access road to the nearest state highway or paved county road.

"Recognizing the difficulty in the state or local governments coming up with such an amount, I am considering various methods of determining priorities to enable an immediate start on a program that will give every city in the state a paved access to the state highway system.

"State parks and recreation areas are in need of surfaced access roadways for the benefit of local citizens as well as tourists. Co-operation between township, city, county, state and federal units should be encouraged when desirable to effect improvements. Within the state, we need to give attention to the need for adequate public transportation. Many of our elderly are often stranded due to the lack of adequate public transportation.

"We must continue our efforts to insure satisfactory airline service to cities now served and some of those not now served.

"Further rail line abandonment should not be permitted without hearings and, if permitted, adequate alternate service roads should first be provided.

"Fair freight rates continue to be of top priority in our state.

PUBLIC HEALTH, SOCIAL SERVICES, SAFETY AND SECURITY

"Our public health facilities and services have improved as the result of proper planning and coordination of available resources. This must continue.

"Programs to improve the economic and community life for our Indian people have been long in coming. Much progress is being made and where problems exist, we must help find solutions rather than cast blame and criticism.

"Attempts by some to fix blame for shortcomings in present funding of Social Services does little to alleviate the problem. It

will take the best judgement, understanding and consideration for the needs of recipients of public assistance by all of us wherever we serve to develop the proper approach and solution. We must face the problem head-on in a responsible manner in order to find a solution — a solution we can conscientiously live with and support.

"Our North Dakota National Guard has set a record of public service and national achievement that we can all be proud of.

"All facets of public safety and security are enhanced under the North Dakota Combined Law Enforcement Council. We must never relax our efforts to accomplish even greater cooperation between our law enforcement agencies at every level — federal, state and local. We cannot afford to rest our oars because we have the comforting distinction of the lowest crime rate in the nation. We must curtail the traffic in drugs and excessive use of alcohol and encourage those who desire to correct these problems by voluntary and educational means. For the habitual offender, we must offer cure if possible and rehabilitation.

"Hidden under the cloak of personal shame and embarrassment, a never-ending traffic in get-rich-quick schemes continues to operate in the gray twilight of legality, and flaunt the best efforts of those who have the interest and courage to challenge the practices.

"Meaningful and effective consumer protection laws are very much in order.

"Nor are consumers the only victims of abuse. American businesses suffer a \$16 billion dollar annual property crime thievery. Obviously, to make up those losses, the consumer pays for them by crime-inflated prices.

CONCLUSION

"I claim not to have covered or addressed myself to all of the important issues or services of our state, or those that will be considered by this 43rd Legislative Assembly. We can expect some 1,000 to 1,500 individual bills and resolutions to be introduced and disposed of, which gives us some insight of the number of issues considered important enough for legislative consideration.

"I have attempted to indicate broad general areas of concern, with accompanying observations and comments, to indicate the tone and direction that I believe will best meet the present and future needs of our people.

"I look forward to working with you for the good of the people of our state.

"Permit me to make one final observation. In the United States Congress, as in our own Legislature, we open each daily session with a Prayer. By these acts and public expressions we profess our faith in God. Government can be no better than the many individuals who make it up or the beliefs by which they live. It follows then that we must say what we believe and do what we say.

"In closing, I share with you a Prayer for Guidance — by Helen Steiner Rice.

"Our Father up in heaven, hear this humble prayer,
 May the people of all nations be united in Thy care . . .
 For Man's peace and his salvation can come only through Thy
 grace,
 And not through bombs and missiles and our quest for outer
 space . . .
 For more than Guided Missiles we need Guided Men today —
 Men who seek God's guidance and who follow in His way."

Benediction was pronounced by Rev. Robert Strutz, Pastor, Cavalry United Methodist Church, Fargo.

Rep. Streibel moved that the Joint Session now be dissolved, which motion prevailed.

LEO LEIDHOLM, Secretary

POINT OF PERSONAL PRIVILEGE

Rep. Dornacker requested that the following remarks be printed in the Journal.

Rep. Dornacker:

"Mr. Speaker — Members of the House:

"Today I speak to you, not only as a member of this Legislature, but also the chairman of a state-wide organization to preserve the Two House System of government.

"Our people less than a year ago overwhelmingly said we want the two house system.

"The Two-house System calls for and provides for a hearing on a bill in each house plus passage of both houses and the signature of the governor.

"The practice of joint committee hearings on a bill which is only in one house and has not passed as yet either house we feel advocates unicameralism, consumes committee time, and will result in a lesser hearing in the second house should the bill pass the first house.

"Joint Rule 13 allows this practice for the convenience of the public and information of the members of this legislature, so far as practical.

"I know the chairman of committees and our leadership do not favor unicameralism nor are they promoting it.

"It would be our hope in the future that this practice would be used for meetings after the session adjourns in the afternoon, as far as practical.

"All members and public would be free to attend."

EXPLANATION OF VOTE

Rep. Dornacker: "Mr. Speaker, Members of the Assembly:

"I would like to explain my vote on House Bill No. 1177. First, I would like to read to you an article from the Montana Oil Journal by the U. S. petroleum refining industry:

Montana Oil Journal
December 30, 1972

"REFINERS FACE STAGGERING PROBLEM TRYING TO MEET INCREASING DEMAND

"TULSA — The U. S. petroleum refining industry has begun a precarious supply-demand tightrope walk that could have the entire nation watching before it's over.

"Faced with rising demand for their products, refiners must get through 1973 and 1974 almost certainly without the addition of a single new grass-roots refinery and yet be in a position to meet 1975 demand. Expected demand for that year is 19.7 million barrels of products daily, about 3.7 million barrels a day more than present levels, The Oil and Gas Journal reports.

"The Journal's article says refining capacity of 14.8 million barrels of crude daily will be needed in the United States in 1975, but sees it doubtful that current capacity of 13 million barrels daily can be boosted that much that fast by new construction.

"The difference between what U.S. consumers want to buy and the volume domestic refiners can supply is furnished by imports. And the prospect of increasing imports to meet domestic demand could lead to further erosion of the U.S. foreign trade balance, already the subject of mounting comment in Washington. Unless some concerted government action is taken soon, the U.S. oil import bill may well rise from \$3 billion in 1970 to an estimated \$8.5 billion by 1975.

"Although two new refineries are completed or are nearing completion this year, not one major plant project has been contracted for more than two years. Environmentalists' objections to proposed plant sites and uncertainty of equipment requirements to meet government clean-air standards of the future have blocked most construction plans.

"Among expansions of existing plants, the Journal's nationwide survey of refinery construction lists no project of any size due for completion after the end of this year. Not a single project is scheduled to add a barrel of crude capacity in 1973 or 1974.

"The reason I voted no is that I felt this bill did not go far enough. We are not going to have a shortage only with fuel oil, but we are going to be faced with a shortage of gasoline in the next few years. I believe this Assembly has an obligation to set up an energy commission. I am disappointed that the Governor has not used his authority to call for an emergency. It is the duty of the Legislature to set up the rules to be used by such a commission and to set up the guidelines for such a commission. These should not only contain fuel, but also electricity, gas, etc. We have a potential in our state with the Basin Electric to use exported electricity for heat. We have an obligation to the people who elected us to represent them to set up an energy commission to control and keep some of the things we have in North Dakota for ourselves.

"This is the basic reason I voted no, hoping that by that vote we would go back and take the step to set up a commission which would be responsible to this body, rather than delegating such authority to a single person."

MOTION

Rep. Hildebrand moved that House Bill No. 1133 be returned to the House from the Committee on Transportation, which motion prevailed.

Rep Hildebrand requested permission to withdraw House Bill No. 1133. There being no objection, it was so ordered by Speaker Bunker.

Rep. Streibel moved that the following communication received from the North Dakota Public Service Commission be printed in the Journal, which motion prevailed.

"TO: FORTY-THIRD LEGISLATIVE ASSEMBLY OF NORTH DAKOTA.

"Pursuant to House Bill No. 1205 enacted by the Legislative Assembly March 27, 1971, the Public Service Commission of the State of North Dakota has conducted a study considering the problem of the liability of common carriers for damages incurred to property in the course of shipment, and to consider alternative methods of fixing responsibility and ascertaining the possible damages due consignees. The following is the report of the Public Service Commission containing its findings and recommendations to the Forty-third Legislative Assembly.

"Pursuant to the mandate of the legislature, the North Dakota Public Service Commission through its President, Richard A. Elkin, convened a committee of representative members of the industry, the Public Service Commission, and the legislators directly concerned with the problem and commenced a continuing study.

"The first meeting was held July 12, 1971, in the State Capitol and discussion was had as to the procedure being used by the various carriers operating in North Dakota. The committee then determined the scope of the study and defined the problem area. It was the unanimous decision of the committee to restrict the study to less than carload lot shipments.

"The next meeting was held September 27, 1971, to which claims people from various companies including the railroad were invited. Carl Boustad of the transportation committee was invited along with other members of his committee. A representative group attended this meeting and it was decided to conduct a survey of business men in the state.

"A meeting was held May 15, 1972 at 10:00 a.m. in Commissioner Elkin's office in the State Capitol Building at which time representatives of the North Dakota Wholesalers, North Dakota Retailers,

and others were present. C. W. Burgess, Director of Motor Carriers of the North Dakota Public Service Commission, reported on a survey that had been conducted by the Public Service Commission of business men in the state. This survey was conducted during the month of November, 1971, in which a number of merchants in North Dakota were visited to ascertain whether or not the problem in the settlement of loss and damage claims resulting from the hauling of motor freight was a serious problem. The survey revealed that 91.4% of all claims registered for loss and damage was for freight transported in interstate commerce.

"Mr. Elmer Klipstein reported on a survey that had been conducted by the North Dakota Wholesalers and Manufacturers Association. Mr. Ed Bashus also gave a report of the survey made of the members of the North Dakota Retail Association. Mr. I. E. Solberg gave a report on the types of loss and damage claims being filed with carriers. He also reported on reasons why loss and damage claims are not always settled promptly. After a discussion of the general problem, the group decided that consideration should be given to possibly adopting rules for carriers to follow in handling loss and damage claims.

"In the interim and during the time with which we are concerned, the Interstate Commerce Commission initiated Ex Parte No. 263 which was an investigation into the rules of practice of motor carriers in interstate commerce and specifically the problems with respect to the processing of loss and damage claims. These proceedings conducted by the Interstate Commerce Commission were lengthy and commenced in the latter part of 1969 and early spring of 1970. The North Dakota Public Service Commission prepared and filed an initial statement on behalf of the Public Service Commission of the State of North Dakota in Ex Parte No. 263 in which we set forth the nature and extent of the problem in North Dakota.

"In the same interim period, several states have adopted rules and regulations with respect to loss and damage claims in their respective jurisdictions.

"As a result of the hearings conducted by the Interstate Commerce Commission, Part 1005 of the Interstate Commerce Act entitled 'Principles and Practices for the Investigation and Voluntary Disposition of Loss and Damage Claims and Processing Salvage', was adopted. These rules became effective April 20, 1972. These rules have been closely studied by the Public Service Commission and it was the recommendation of the Public Service Commission to all members of the committee on loss and damage claims to meet once again to determine the course of action. An agenda was selected and notice was given October 4, 1972 to the committee including a recommendation of the Public Service Commission with respect to the handling of the subject of loss and damage claims. Pursuant to the notice a meeting was held on October 4, 1972 at 1:30 p.m. in the Gold Room of the State Capitol Building for the purpose of adopting a recommendation.

"It was the unanimous decision of the committee that the North Dakota Public Service Commission proceed with the promulgation and adoption of rules of practice for the disposition of loss and damage claims to be submitted for approval to the Attorney General and adoption as required by the Administrative Practice Act. It was likewise the recommendation of the Committee that the report herewith enclosed be submitted to the North Dakota Legislative Assembly at its Forty-third Session for consideration and constituting the findings and recommendations of the Public Service Commission with respect to the problem.

"Pursuant to committee recommendations, the North Dakota Public Service Commission proceeded to prepare loss and damage claim rules and regulations patterned after the rules then in effect in interstate commerce. On November 21, 1972, the rules were submitted to the Attorney General for an opinion as to legality. Under date

of November 29, 1972, the Attorney General issued his opinion approving the legality and advised that when such rules and regulations had been duly promulgated, adopted, filed and mailed in accordance with the provisions of Section 28-32-03, they would be valid and binding rules and regulations of the Public Service Commission having the force and effect of law. Under date of December 8, 1972, the rules were adopted on the minutes of the North Dakota Public Service Commission. The rules are presently being printed and will be filed and mailed in accordance with the provisions of Section 28-32-03 of the North Dakota Century Code.

"For your information, a copy of the rules as adopted is attached.

North Dakota Public Service Commission
Richard A. Elkin
Ex Officio Chairman"

PRINCIPLES AND PRACTICES

FOR THE INVESTIGATION AND VOLUNTARY DISPOSITION OF LOSS AND DAMAGE CLAIMS AND PROCESSING SALVAGE.

"R-8-07-1: APPLICABILITY OF REGULATIONS. The regulations set forth in this part shall govern the processing of claims for loss, damage, injury, or delay to property transported or accepted for transportation in intrastate commerce by each railroad, express company, motor carrier, water carrier and freight forwarder (hereinafter called carrier), subject to the Public Service Commission of the State of North Dakota.

R-8-07-2: FILING OF CLAIMS.

"(a) CLAIMS IN WRITING REQUIRED: A claim for loss or damage to baggage or for loss, damage, injury, or delay to cargo, shall not be voluntarily paid by a carrier unless filed in writing, as provided in paragraph (b) of this section, with the receiving or delivering carrier, or carrier issuing the bill of lading, receipt, ticket, or baggage check, or carrier on whose line the alleged loss, damage, injury, or delay occurred, within the specified time limits applicable thereto and as otherwise may be required by law, the terms of the bill of lading or other contract of carriage, and all tariff provisions applicable thereto.

"(b) MINIMUM FILING REQUIREMENTS. A communication in writing from a claimant, filed with a proper carrier within the time limits specified in the bill of lading or contract of carriage or transportation, and (1) containing facts sufficient to identify the baggage or shipment (or shipments) of property involved, (2) asserting liability for alleged loss, damage, injury, or delay, and (3) making claim for the payment of a specified or determinable amount of money, shall be considered as sufficient compliance with the provisions for filing claims embraced in the bill of lading or other contract of carriage.

"(c) DOCUMENTS NOT CONSTITUTING CLAIMS. Bad order reports, appraisal reports of damage, notations of shortage or damage, or both, on freight bills, delivery receipts, or other documents, or inspection reports issued by carriers or their inspection agencies, whether the extent of loss or damage is indicated in dollars and cents or otherwise, shall, standing alone, not be considered by carriers as sufficient to comply with the minimum claim filing requirements specified in paragraph (b) of this section.

"(d) CLAIMS FILED FOR UNCERTAIN AMOUNTS. Whenever a claim is presented against a proper carrier for an uncertain amount, such as '\$100 more or less', the carrier against whom such claim is filed shall determine the condition of the baggage or shipment involved at the time of delivery by it, if it was delivered, and shall ascertain as nearly as possible the extent, if any, of the loss or damage for which it may be responsible. It shall not, however, voluntarily pay a claim under such circumstances unless and until a formal

claim in writing for a specified or determinable amount of money shall have been filed in accordance with the provisions of paragraph (b) of this section.

“(e) **OTHER CLAIMS.** If investigation of a claim develops that one or more other carriers has been presented with a similar claim on the same shipment, the carrier investigating such claim shall communicate with each such other carrier and, prior to any agreement entered into between or among them as to the proper disposition of such claim or claims, shall notify all claimants of the receipt of conflicting or overlapping claims and shall require further substantiation, on the part of each claimant of his title to the property involved or his right with respect to such claim.

“**R-8-07-3: ACKNOWLEDGEMENT OF CLAIMS.**

“(a) Each carrier shall, upon receipt in writing of a proper claim in the manner and form described in these regulations, acknowledge the receipt of such claim in writing to the claimant within 30 days after the date of its receipt by the carrier unless the carrier shall have paid or declined such claim in writing within 30 days of the receipt thereof. The carrier shall indicate in its acknowledgement to the claimant what, if any, additional documentary evidence or other pertinent information may be required by it further to process the claim as its preliminary examination of the claim, as filed, may have revealed.

“(b) The carrier shall at the time each claim is received create a separate file and assign thereto a successive claim file number and note that number on all documents filed in support of the claim and all records and correspondence with respect to the claim, including the written acknowledgement of receipt and, if in its possession, the shipping order and delivery receipt, if any, covering the shipment involved. At the time such claim is received the carrier shall cause the date of receipt to be recorded on the face of the claim document, and the date of receipt shall also appear in the carrier's written acknowledgement of receipt to the claimant.

“**R-8-07-4: INVESTIGATION OF CLAIMS.**

“(a) **PROMPT INVESTIGATION REQUIRED.** Each claim filed against a carrier in the manner prescribed herein shall be promptly and thoroughly investigated if investigation has not already been made prior to receipt of the claim.

“(b) **SUPPORTING DOCUMENTS.** When a necessary part of an investigation, each claim shall be supported by the original bill of lading, evidence of the freight charges, if any, and either the original invoice, a photographic copy of the original invoice or an exact copy thereof, or an extract made therefrom certified by the claimant to be true and correct with respect to the property and value involved in the claim; or certification of prices or values, with trade or other discounts, allowance, or deductions of any nature whatsoever and the terms thereof, or depreciation reflected thereon; **PROVIDED HOWEVER,** That where the property involved in a claim has not been invoiced to the consignee shown on the bill of lading or where an invoice does not show price or value, or where the property involved has not been sold, or where the property has been transferred at bookkeeping values only, the carrier shall, before voluntarily paying a claim thereon, require the claimant to establish the destination value in the quantity, shipped transported, or involved and to certify the correctness thereof in writing.

“(c) **VERIFICATION OF LOSS.** A prerequisite to the voluntary payment by a carrier of a claim for loss of an entire package or an entire shipment shall be the securing by it of a certified statement in writing from the consignee of the shipment involved that the property for which the claim is filed has not been received from any other source.

"R-8-07-5: DISPOSITION OF CLAIMS.

"Each carrier subject to the Public Service Commission which receives a written claim for loss or damage to baggage or for loss, damage, injury, or delay to property transported shall pay, decline, or make a firm compromise settlement offer in writing to the claimant within 120 days after receipt of the claim by the carrier; PROVIDED HOWEVER, That, if the claim cannot be processed and disposed of within 120 days after the receipt thereof, the carrier shall at that time and at the expiration of each succeeding 60-day period while the claim remains pending, advise the claimant in writing of the status of the claim and the reason for the delay in making final disposition thereof and it shall retain a copy of such advise to the claimant in its claim file thereon.

"R-8-07-6. PROCESSING OF SALVAGE.

"(a) Whenever baggage or material, goods, or other property transported by a carrier subject to the provisions herein contained is damaged or alleged to be damaged and is, as a consequence thereof, not delivered or is rejected or refused upon tender thereof to the owner, consignee, or person entitled to receive such property, the carrier, after giving due notice, whenever practicable to do so, to the owner and other parties that may have an interest therein, and unless advised to the contrary after giving such notice, shall undertake to sell or dispose of such property directly or by the employment of a competent salvage agent. The carrier shall only dispose of the property in a manner that will fairly and equally protect the best interest of all persons having an interest therein. The carrier shall make an itemized record sufficient to identify the property involved so as to be able to correlate it to the shipment or transportation involved, and claim, if any, filed thereon. The carrier also shall assign to each lot of such property a successive lot number and note that lot number on its record of shipment and claim, if any claim is filed thereon.

"(b) Whenever disposition of salvage material or goods shall be made directly to an agent or employee of a carrier or through a salvage agent or company in which the carrier or one or more of its directors, officers, or managers has any interest financial or otherwise, that carrier's salvage records shall fully reflect the particulars of each such transaction or relationship, or both, as the case may be.

"(c) Upon receipt of a claim on a shipment on which salvage has been processed in the manner hereinbefore prescribed, the carrier shall record in its claim file thereon the lot number assigned, the amount of money recovered, if any, from the disposition of such property, and the date of transmittal of such money to the person or persons lawfully entitled to receive the same.

"TO: The Forty-Third Legislative Assembly of North Dakota

"FROM: J. O. WIGEN, Commissioner of Insurance

"SUBJECT: House Concurrent Resolution No. 3026 Passed by the Forty-Second Legislative Assembly of North Dakota

"With respect to the first resolve of said Concurrent Resolution, the Commissioner of Insurance and staff of the Insurance Department have worked closely with the professional and management

staffs of the nonprofit hospital service and nonprofit medical service corporations, during the biennium now being completed. This united effort has resulted in considerable improvement in many important aspects with respect to the efficient and equitable operation of such nonprofit corporations.

"With respect to the second resolve of said Concurrent Resolution, the Actuary of the Insurance Department has worked in cooperation with the Actuary and other professional and management personnel of such nonprofit corporations, during said biennium. The result has been a major revision of the rating formulas of the nonprofit hospital service corporation. Such revision, which became effective January 1, 1972, significantly improved the equity and credibility of the rating formulas as they are applied to the respective categories of groups and individuals covered.

"The Insurance Department will continue to observe the magnitude of the total surplus, assigned and unassigned combined, of each of such nonprofit corporations, together with the relationship of such total surplus to other measures such as the total of claims and operating expenses for one month. The objective of the Insurance Department will be to require that such total surplus be maintained at a level that is adequate and reasonable, considering all contingencies and circumstances, but not redundant.

LEO LEIDHOLM, Secretary

MOTION

Rep. Streibel moved that the following remarks of Rep. Gackle be printed in the Journal, which motion prevailed.

Rep. Gackle: "Mr. Speaker and Members of the Assembly:"

"In reference to the motion made by Rep. Streibel recorded on page 145 of the House Journal in which a study is printed on the following pages submitted by the Public Service Commission, I wish to comment briefly on the contents.

"This study was done and report submitted to the Forty-Third Legislative Assembly by the Public Service Commission pursuant to the passage of House Bill 1205 of the Forty Second Legislature.

"It is not my intention to review this report in its entirety but rather bring it to your attention as members of this Assembly.

"House Bill 1205 was introduced by former Representative Donald Halcrow, who was certainly sincere in his objectives as he recognized a problem that existed regarding freight damages. The original bill would have made the last delivering carrier fully responsible for any damage incurred to the property in the course of shipment.

"The transportation committee considered this bill and recognized that its passage would not have corrected the problem. Concluding it would have no effect upon goods carried in interstate commerce because the state has no authority to regulate movement of goods or carriers thereof in interstate commerce. The burden placed upon the delivering carrier would be insurmountable. It would have also resulted in increased costs to the local carrier in intrastate traffic in order for him to cover the costs plus other effects that may have come to the state should the bill have passed in its original form.

"The committee, however, recognized the problem and accepted its responsibility to do something. Thereby amending the bill and directing the Public Service Commission to study during the 1971-73 biennium, the problem of the liability of common carriers for damage incurred to property in the course of shipment and further to consider alternative methods of fixing responsibility and ascertaining the possible damage due consignees.

"The report on pages 145 through 147 of the House Journal reveal that the commission held several meetings with those involved. At the conclusion of the meetings it was the unanimous decision of the volunteer committee that the North Dakota Public Service Commission proceed with the promulgation and adoption of rules of practice for the disposition of loss and damage claims.

"Upon the approval of the Attorney General and being properly promulgated, the rules and regulations became officially adopted on December 8, 1972. Herewith listed on page 147 of the House Journal as Principals and Practices for the Investigation and Voluntary Disposition of Loss and Damage Claims and Processing Salvage.

"With the adoption of these rules and regulations we recognize that there may still be problems arising. However, it should go a long way in dealing with such matters in an orderly fashion.

"In behalf of this body and the entire legislative process, it is my pleasure to give a little recognition to those who gave of their time, at no expense to the state, to help solve problems which we as legislators are faced with as we convene to resolve state affairs.

"First of all, our appreciation goes to the Public Service Commission. Commissioner Richard Elkin, who acted as chairman and Commissioners Ben Wolf and Bruce Hagen, along with their able staff. They utilized their facilities by giving advice and information during the meetings along with making contacts with those involved. Gratitude is also extended to those representing the Wholesalers and Manufacturers Association, Mr. Elmer Klipstein; the Retail Assn., Mr. Ed Bashus; the Motor Carriers Assn., Mr. I. E. Soberg; and the Railroad Companies, Mr. Frank Magill, who all conducted surveys among those whom they represent. We would be remiss if we would not include Rep. Don Halcrow, who met consistently with the committee, as author of the bill.

REP. PETERSON, Chairman

Rep. Miedema moved that the report be adopted.

Rep. Backes: "Mr. Speaker:

"I would request that my remarks be printed in the Journal.

"This is rather a peculiar way to argue against a committee report, without a Minority Report, but I want to explain why. There was not a problem in committee or with the Chairman Rep. Peterson that I could not file a Minority Report with an amendment as we would have wanted, but I did not do it because of the Council's time and staff and the work involved. A Minority Report would have represented a completely new bill listing all new district lines and everything else, and it was my feeling that defeat of this committee report would have the same effect, and we could send the bill back to committee by another motion to have it amended, and then such a report could come out.

"I cannot support this bill because of three basic reasons, and I suppose the first would have to be because it contains multi-senatorial districts. There is no basis whatsoever that we can find for having multi-senatorial districts other than political control of the district and for political control of the state legislature. They make the point that they have a common interest in these cities and that they should be multi-senatorial districts. If we are going to follow that analogy that they have a common interest and that gives the right for multi-senatorial districts, then why don't we have multi-senatorial districts West of the river? They have a common interest. It is agriculture country or cowboy country, as we call it, and their interests are as similar as in Fargo or Minot or other cities. We could take the six or eight districts in the Northwest corner. We have a common interest. It is agricultural land, we have some oil, and if we are going to use that analogy, we have a common interest.

"We can carry this further, and why not just have one statewide election with no districts. We all have a common interest. We are all North Dakotans and we have a common interest in North Dakota. I don't think that having a common interest justifies having multi-senatorial districts.

"Now, there are some other problems to multi-senatorial districts that I feel are real. One is the identification of candidates. Nobody, not even in a rural district, would have more than fifty percent recognition on the street in his district — even people who have been in the legislature quite a while. How in the world could anybody know the candidates when you have thirty on the ballot. It is impossible. You just can't know the people. I don't believe that is right.

"There is also an inconvenience factor. It is possible to have thirty people knocking at your door and passing out campaign literature. Most people don't like this — although some say they do. It is ironic that you would have to go through thirty people.

"I say again that multi-senatorial district have but one reason and that is political control of the area and the exclusion of minority representation.

"Now, there is another point that I wish to make — that we can't break down the cities, that we can't break them down to a single legislative district. We can do that. It is no tougher to do that to a city than to a rural area. In rural areas we go down county lines or township lines. It does not make any difference how disruptive it is. We can do the same thing with cities. We have had reapportionment in the rural areas where the population gets all chopped up, and the cities sit back and think they should not get disrupted one bit. The political organization goes on, and we don't have to work for a new organization or commit-

tee. There is no problem in breaking these cities down into single senatorial districts.

"The reapportionment plan you have in front of you is an interpolation of 1960 and 1970 census figures done by R. R. Smith, but there are districts showing no population where this plan shows they have ten people left, and the same thing could have been done in the cities. It might not be exact to the block, but it isn't exact in rural areas either. The R. R. Smith Report broke down these figures for the rural areas and it could be done in the cities for council seats and precinct lines, and these can be broken down for legislative seats.

"There is one other argument before I yield to Rep. Winge, and that is the argument about areas. I think it is wrong. For some reason the cities feel they should have all the representation from the air bases. I don't think the rural people should have it either. If we have single senatorial districts, then neither one of us will have it, because the air bases will be a single senatorial district. Why should the cities have the extra two senators and four house members from the air bases?

"By the way, when the census was taken, the college students were counted in the cities where they go to college — some 20,000 students. They were counted in the cities, but they come home for the summer to get money from mom and dad to go to school, but their representation goes to the cities. You have the 20,000 in the colleges and the people at the air bases, and you are talking about giving these extra four senate seats and eight house seats in the house to the cities. Aren't the rural people just as important? If we are going to have multi-senatorial district, the air bases should be given to the rural areas to offset the college student population. Now people will say, why do you even count the air bases? We have no choice in that. We must count them and we must give them representation. The only way we can get around that is with voter registration, and if that had been used in the past we could possibly reapportion on the voters registration. They have done that in Hawaii because of their transitory population. We could get by with it here because of the transitory nature of our people at the air base. In the recent special election for senator in the Fifth District only nineteen votes were cast by the 12,077 people at the air base. The votes just aren't there.

"Mr. Speaker, I will close with this without going into the last point because Rep. Winge has proposed a plan. This is a plan that we had in committee and was considered by the committee — I will say lightly, and I would prefer to have Rep. Winge further explain the plan."

Rep. Backes requested a recorded roll call vote on the motion of Rep. Miedema to adopt the committee report on House Bill No. 1042.

MOTION

Rep. Streibel moved that the following Supplemental Budgetary Message to the 43rd Legislature by Governor Link be printed in the Journal, which motion prevailed.

SUPPLEMENTAL BUDGETARY MESSAGE TO THE 43RD LEGISLATURE

BY

Governor Arthur A. Link

"In considering my budget recommendations to the 43rd Legislature, I recognize the months of work and careful consideration that have gone into the Executive Budget of my predecessor, Governor William L. Guy. Little would be gained if I were to question every item or recommend dozens of changes without the benefit of hearing the opinions of the many department heads, administrators, budget analysts and their staff. I have therefore chosen to leave the recommended executive budget intact, using it as a base for additions or deletions depending on the nature of my recommendations.

"It is appropriate at this point to quote a paragraph from Governor Guy's budget message:

The budget is extremely important. We assign priorities and indicate the degree of support of programs through the budgetary process.

"Because this is so, I am issuing this special message to the legislature to outline several additional appropriations to support needed programs along with several suggested areas of tax reform.

"This does not mean that these will be the only items that the legislature may consider. I know that dozens of other proposals designed to accomplish similar objectives will receive the careful consideration of the legislative assembly and some will eventually reach my desk. I will attempt to be objective as I analyze each measure and its relationship to the overall goal of providing adequate services within income limitations and tax equity.

"In this spirit I solicit the support of the legislature for the following additional appropriations:

I.

"I propose that sufficient general fund monies be added to the

state's revenue sharing funds to provide \$42 million to fund elementary and secondary education above the expenditures of the present biennium. In addition, I propose mill levy adjustments to provide for a \$15 million a year (\$30 million per biennium) local tax reduction. Such proposals would allow a \$12 million per biennium increase in support for education through the Foundation Aid Program. (Page 6, Message to the Legislature.)

II.

"I propose an additional \$500,000 appropriation for the Heritage Center. This would bring the total appropriation to \$1 million which would exhibit the state's resolve to complete a Heritage Center for its people. (Page 9, Message to the Legislature.)

III.

"I propose the restoration of \$9,400 to the Arts and Humanities budget which was deleted from the original executive budget. (Page 5, Message to the Legislature.)

IV.

"I propose a \$2 million appropriation for the summer youth work program which will provide needed employment for North Dakota's young people during the summer months. (Page 9, Message to the Legislature.)

V.

"I propose \$956,000 to more adequately fund vocational education. The State Board for Vocational Education needs this assistance in order to carry out its responsibility of providing quality vocational education to a far greater degree than is presently possible under the current executive budget. Notwithstanding the commendable 96% increase, the numbers of students in need of this educational opportunity justifies the additional request. (Page 4, Message to the Legislature.)

VI.

"I propose an additional \$42,500 appropriation for the Business and Industrial Development Department. This department is, in my opinion, inadequately staffed and funded, and if we are going to create meaningful opportunities in North Dakota, then we have to adequately fund this most important agency. (Page 9, Message to the Legislature.)

"At the same time that additional appropriations are being requested, it is also possible within existing budget recommendations to enact a meaningful program of tax relief. The most recent estimates of tax collections by the Department of Accounts and Purchases indicate that the state will end this biennium with a general fund balance of \$41 million in addition to \$9.3 million in the revenue sharing fund. Anticipated revenues during the next biennium will be \$282,075,000 (including revenue sharing funds). The present executive budget would recommend expenditures of \$267,895,000 during the 1973-1975 biennium to leave a general fund balance of \$64,480,000. My proposals would reduce the balance to nearly \$37 million.

"For that reason, I propose that the legislature pass legislation granting substantial tax relief to North Dakotans. When North Dakota taxpayers pay more than is needed to operate state government, then they are entitled to a refund.

I.

"The first priority in a program of tax relief should be the elimination of the sales tax from grocery food items. This will provide meaningful tax relief to every North Dakotan. It is estimated that exempting groceries from the sales tax would cost \$10 million a biennium. However, during the first biennium, only 7 quarters of sales tax collection would include the reduced base and therefore the first biennium cost would be \$8,750,000.

II.

"I also propose legislation to grant substantial tax relief to our senior citizens. There are instances in this state where senior citizens are asked to pay up to 20% of their rather meager retirement incomes in property taxes. The Homestead Credit Act of 1969 has not been an effective solution. Therefore, I propose additional tax relief to senior citizens in the form of tax credits. Such a program would cost \$1.3 million for the first biennium and \$2.6 million per biennium thereafter. What could be more appropriate than to assist some of the people who have supported our schools and local governments for years through their property tax dollars?

"These recommendations will provide almost \$29 million in tax relief while allowing necessary funding for needed programs. They also provide a proposed general fund balance on June 30, 1975, of over \$27 million.

POINT OF PERSONAL PRIVILEGE

Rep. Hilleboe:

"Mr. Speaker: I rise on a point of personal privilege.

"Following the vote on House Bill No. 1176 — I voted nay, not because of the bill, but because I did not have adequate information to discuss the bill. It is the one where we made the bill

retroactive which Rep. Winkjer discussed, and is to be retroactive to January 1, 1973. This means that the Code will go into effect July 1, and could mean that anyone in violation of this section will not know he is in violation. The specific point I wanted to check out is the penalty, and I find it is possible he could be declared a misdemeanor or fined, depending on the problem. We do have in this House an emergency device, and I think we should be very cautious in passing any retroactive bill where a citizen could be held in violation of a law that he did not know exists by insertion of January 1.

"We have a section in the Code 1-02-10 which states the code is not retroactive unless so declared. When you come to the income tax section, I don't think there should be any retroactive bills passed, and we should use the emergency clause. I think we are acting very dangerously by acting on a bill that people can violate without knowing the law exists."

MOTION

Rep. Winkjer moved that the Clerk of the House be instructed to send a complete set of bills, resolutions, calendars and Journals to the Law Library of the University of North Dakota at Grand Forks, which motion prevailed.

Rep. Streibel moved that the House be on the Ninth Order of Business, and at the conclusion of the Ninth Order the House stand recessed until 1:00 p.m., Wednesday, January 17, 1973, which motion prevailed.

FIRST READING OF HOUSE BILLS

Rep. Murphy introduced:

House Bill No. 1264. A Bill for an Act to create and enact section 10-15-33.1 of the North Dakota Century Code, requiring a cooperative association to provide the holders of certain of its certificates the option, when the holder reaches age sixty-five, of redemption for cash, or tangible personal property; and to provide for automatic redemption upon the death of the holder.

Was read the first time and referred to the Committee on Industry, Business and Labor.

Rep. Atkinson introduced:

House Bill No. 1265. A Bill for an Act to amend and reenact subsection 2 of section 27-20-05 of the North Dakota Century Code, relating to Juvenile court personnel.

Was read the first time and referred to the Committee on Judiciary.

Reps. Atkinson and Winkjer introduced:

House Bill No. 1266. POINT OF PERSONAL PRIVILEGE

Rep. Gackle requested that the following information be printed in the Journal, which request was granted.

Rep. Gackle: "Mr. Speaker, Members of the Assembly:

"The following remarks are in reference to the motion made by Representative Streibel in which the report submitted to the Forty-Third Legislative Assembly, from the Commissioner of Insurance, listed on pages 167 and 168 of the House Journal.

"This report was made to this legislature pursuant to the passage of House Concurrent Resolution 3026 passed by the Forty-Second Legislative Assembly.

"House Concurrent Resolution No. 3026 was the result of House Bill No. 1123 which was introduced last session. This bill would have subjected the Hospital and Medical Corporations to regulation by the Insurance Commissioner. Upon committee hearings and a sub-committee from the House Industry and Business Committee, along with the sponsors of the bill, it was recommended for indefinite postponement. However, a substitute motion to place House Bill No. 1123 on the calendar failed by only two votes. It became very obvious that the legislative body did not want some types of legislation pertaining to this.

"This action brought about the adoption of House Concurrent Resolution No. 3026 by which it directed the Commissioner of Insurance to conduct a study in the field of Nonprofit Hospital and Medical Insurance Plan Corporations.

"House Concurrent Resolution No. 3026, instructed the Insurance Department and the Nonprofit Insurance Corporations to work in a united effort to attain an efficient and equitable operation of such nonprofit corporations. The resolution also directed the Commissioner to conduct a study relating to rating formulas and rating systems.

"The third phase of the resolution requested the Commissioner to submit recommendations for possible introduction to this assembly, appropriate revisions to the statutes relative to the operation of the various nonprofit service corporations in North Dakota.

"The recommended changes are not printed in the Journal but have been printed in bill form and introduced as House Bill No. 1317.

"In behalf of the Legislature, we wish to extend our gratitude to the Insurance Department, Commissioner J. O. Wigen and his

able staff, for their fine work in submitting this report for recommendation for improved legislation. We also wish to express our appreciation to those representing the Nonprofit Insurance Corporations for their cooperation and assistance."

Mr. Speaker: I have the honor to transmit:

Senate Bill No. 2041

Which the President has signed.

LEO LEIDHOLM, Secretary

MESSAGE FROM THE SENATE

Rep. Streibel moved that the House stand recessed until 12:30 p.m., Friday, January 19, 1973, which motion prevailed.

ROY GILBREATH, Chief Clerk

THIRTEENTH DAY AFTER RECESS AND
FOURTEENTH DAY

Bismarck, January 19, 1973

The House reconvened at 12:30 p.m., pursuant to recess taken, with Speaker Bunker presiding.

MOTIONS

Rep. Freborg moved that House Bill No. 1211 be returned to the House from the Committee on Industry, Business and Labor, which motion prevailed.

Rep. Freborg requested permission to withdraw House Bill No. 1211. There being no objection, it was so ordered by the Speaker.

Rep. Rundle moved that House Bill No. 1134 be re-referred to the Committee on Veterans' Affairs, which motion prevailed.

Rep. Rundle moved that House Bill No. 1164 be returned to the House from the Committee on Political Subdivisions, which motion prevailed.

Rep. Rundle requested permission to withdraw House Bill No. 1164, and requests that the following remarks be printed in the Journal.

Rep. Rundle: "Mr. Speaker, Ladies and Gentlemen:

"House Bill No. 1164 was introduced in an attempt to do something about the way the railroad taxes have been cut in recent years. Since 1960, the taxes of the Milwaukee Railroad in southwestern North Dakota have been cut more than half; while the taxes of most property have doubled in the same period. The valuation of the Milwaukee Railroad's property was set at \$24,800 a mile in 1960 and now it is \$9,800. This was done by the state board of equalization, headed by the Governor and steered by the Tax Commissioner, who really has a soft spot in his heart for the railroads.

"Railroad officers — not working men — of the Milwaukee were paid \$8,690,868 last year as shown by the figures of the Interstate Commerce Commission. This includes pay to at least one at the rate of well over \$100,000 a year.

"The city of Marmarth's general fund in 1960 received over a thousand dollars in railroad taxes and in 1970 the amount was slightly over \$400. This bill was introduced at the request of R. C. Rushford, mayor of the city of Marmarth, and other officials of the cities along the Milwaukee Railroad. However, at a meeting recently, city officials and their attorneys decided that the bill doesn't do what they want it to. The citizens' committee working on the matter now feel that the new Governor may not be so lenient with the railroads and they are going to appeal to him. Therefore, Mr. Speaker, I ask permission to withdraw House Bill No. 1164."

There being no objection, Speaker Bunker ordered that House Bill No. 1164 be withdrawn.

MOTIONS

Rep. Streibel moved that there be 200 extra copies printed each of House Bill No. 1048 and House Bill No. 1150, which motion prevailed.

ROY GILBREATH, Chief Clerk

FOURTEENTH DAY AFTER RECESS
AND FIFTEENTH DAY

Bismarck, January 22, 1973

The House reconvened at 1:00 p.m., pursuant to recess taken, with Speaker Bunker presiding.

POINT OF PERSONAL PRIVILEGE

Rep. Gronneberg requested that the following remarks be printed in the Journal:

"Mr. Speaker:

"I rise on a point of personal privilege and ask that my remarks be recorded in the Journal. I have them transcribed.

"As you all know we have been having difficulties with the wonderful electronic age machine we use for voting.

"We have seen instances where pushing the green button produces a red light, where when even present and voting are recorded as not voting, but over the weekend I was amazed to see I had voted according to the Journal the opposite of what I intended.

"In fact I even spoke against one bill, House Bill No. 1042, and I am recorded as voting for that bill. I am also paired, according to the Journal, as for House Bill No. 1206 relating to veto power of the governor on the Industrial Commission with 70 republicans.

"Now it is possible that a person can push the wrong button but I always check my light to make sure it registers according to my wishes.

Also my partner, Rep. Laughlin, and I usually cross-check our votes.

"I even asked the minority floor leader if he notice my peculiar voting and he said he hadn't.

"I am not going to request a new vote on these two bills since the change of my vote would not change the outcome anyway but I am asking that this be recorded in the Journal to clarify my position on these two bills.

"Mr. Speaker, I am also going to ask for verification of my vote for the next few bills and possibly on some of the more important legislation in the future."

The Chief Clerk explained that investigation has disclosed that in the reprinting of the tally sheets from the voting machine, the names of Rep. Grubb and Rep. Gronneberg had been reversed, thereby showing Rep. Gronneberg's vote after Rep. Grubb's name and vice versa. Also the names of Rep. Watkins and Rep. Wagner were similarly reversed with the vote of one registering after the name of the other. The situation now has been corrected, and a correction of the votes will be made in the Revision and Correction Report, and further, the correct votes will be shown in the permanent Journal at the completion of the session.

POINT OF PERSONAL PRIVILEGE

Rep. Winkjer:

"Mr. Speaker: I rise on a point of personal privilege.

"House Bill No. 1293 was the infamous no cashing of checks in bar bill, and it was introduced by me — at least to my understanding — at the request of the North Dakota States' Attorneys Association. The kitchen got warm and everybody has abandoned the bill and the concept of the bill. The questions as to constitutionality are very serious, but nevertheless North Dakota did get some notoriety — favorable or unfavorable.

"As a result of this, last Saturday morning, I had a call from KABC, a radio station in Los Angeles, interviewing me about this bill, thinking it was quite a deal. I had a great deal of fun in talking to them about North Dakota — greener and cleaner in the summer, and whiter and brighter in the winter, and no smog.

"We did get a little publicity as to our great environment in North Dakota."

POINT OF PERSONAL PRIVILEGE

Rep. Dornacker: "Mr. Speaker, Ladies and Gentlemen:

"This afternoon we voted on seven House bills. If I kept track properly, three of these came in the area where we were told, 'This is necessary because of Federal Law, or if we do not do this, the Federal Government will.' I voted for the bills, but I wondered as I sat here, do I represent the 20th District or am I a hybrid Representative of Washington and the 20th District. I also wondered how soon we may become a Washington branch — or are we now.

"Maybe somewhere we should try to exercise our State's Rights, if we want to keep them — or have we already lost them?"

HOUSE CONCURRENT RESOLUTION NO. 3030

Introduced by Representative Jenkins

- 1 A Concurrent Resolution urging the National Water Commission
- 2 to delete from the final draft of its proposed national water
- 3 policy the conclusions and recommendations of the Iowa State
- 4 University study which adversely affect agriculture and
- 5 reclamation development.
- 6

7 WHEREAS, in order to assist the National Water Commission
8 to formulate a proposed national water policy, the Iowa State
9 University has, through its Center for Agricultural and Rural
10 Development, made a study entitled "Agricultural Water De-
10a mands"
11 (PB 206 790) which could, if adopted as a national policy, be
12 seriously detrimental to the future development and economic
13 growth of North Dakota; and

14 WHEREAS, many of the conclusions and recommendations of
15 this study are not based on facts, but instead on subjective
16 analysis, and lack an unbiased knowledge and understanding of
17 agriculture in North Dakota and its past and present contri-
17a butions

18 to the Nation's economy; and

19 WHEREAS, the results of such study are not consistent with
20 the United States Department of Agriculture's recent order
21 cancelling the requirement that farmers decrease their wheat
22 acreage; and

23 WHEREAS, such study assumes a position highly unfavorable
24 to the use of water for the irrigation of crops and could

Page No. 2

1 adversely affect reclamation not only in North Dakota but
2 throughout the entire Nation; and

3 WHEREAS, the ever-expanding foreign market of our
4 agricultural produce has been the most encouraging aspect of
5 the President's goal to achieve a balance of trade; and

6 WHEREAS, North Dakota has led the Nation in the production
7 of hard spring wheat, durum, flax, and sunflower seeds; and

8 WHEREAS, this study has given no apparent consideration to
9 the crisis the Nation would face should it once again experience
10 a drought similar or worse than that which was suffered in the
11 1930's;

12 NOW, THEREFORE BE IT RESOLVED BY THE HOUSE OF
12a REPRESENTA-

13 TIVES OF THE STATE OF NORTH DAKOTA, THE SENATE
13a CONCURRING THEREIN:

16 the conclusions and recommendations of the Iowa State Univer-
16a sity

17 study which adversely affect agriculture and reclamation
18 development; and

19 BE IT FURTHER RESOLVED, that copies of this resolution

Axles spaced forty inches apart or less shall be considered as one axle and on axles spaced over forty inches and under eight feet apart, the axle load shall not exceed sixteen thousand pounds per axle. The wheel load, in any instance, shall not exceed one-half the allowable axle load. Spacing between axles shall be measured from axle center to axle center.

((((2))))

2. Subject to the limitations imposed by the above subsection on tires, wheel and axle loads, no vehicle or combination of vehicles shall be operated whose gross weight, including the load, exceeds sixty-four thousand pounds or that determined by adding the distance in feet between the first axle and the last axle of such vehicle or combination vehicles, to the factor forty and multiplying this sum by seven hundred fifty, whichever is lesser. Such gross weight limitation shall not apply to such equipment as the state highway commissioner or his agents may approve for exemption, but gross weights shall not exceed seventy-three thousand two hundred and eighty pounds. The decision on exemption shall be determined on the basis of improved equipment design, which, in his opinion, will better distribute the load and reduce roadway damage; provided further that where the distance between the first axle and the last axle of any group of axles of such vehicle or combination of vehicles is eighteen feet or less the gross weight on the group of axles under consideration shall be determined by adding the distance in feet between the first axle and the last axle of the group under consideration to the factor of forty and multiplying this sum by six hundred fifty.

2. Subject to the limitations imposed by the above subsection on tires, wheel, and axle loads, no vehicle or combinations of vehicles shall be operated whose gross weight exceeds that determined by the formula of:

$$W = 500 \left(\frac{LN}{N-1} + 12N + 32 \right)$$

where W equals maximum weight in pounds carried on any group of two or more axles; L equals distance in feet between the extremes of any group of two or more consecutive axles; and N equals number of axles in the group under consideration. Such gross weight limitation shall not apply to such equipment as the state highway commissioner or his agents may approve for exemption.

POINT OF PERSONAL PRIVILEGE

Rep. Atkinson:

"Mr. Speaker, Ladies and Gentlemen:

"I rise on a point of personal privilege and ask that my remarks be printed in the Journal.

"In 1971, Mr. Herman J. Bischof of Bismarck composed the words to a lovely song entitled 'North Dakota — Promised Land.' This song has received nationwide recognition primarily through the Shrine 'El Zagal Plainsmen' under the direction of Mr. Harold Kepler, North Dakota Teacher of the Year in 1971. I would ask that the words of this song be printed in the Journal."

NORTH DAKOTA — PROMISED LAND

North Dakota promised land,
 Land created by God's hand,
 Land where skies are blue and bright
 And stars twinkle all the night;
 Land where prairie roses grow
 And the wide Missouri flows;
 Land where peace and love prevail,
 Friends are true and never fail.

Land where men are kind and good,
Love and cherish brotherhood;
Where Roughriders ever stand
Ready to defend this land;
May we ever keep this land
A peace garden great and grand;
Grant that we may always be
Truly grateful unto Thee;
North Dakota promised land,
Land created by God's hand.

Rep. Dotzenrod:

"Mr. Speaker and Members of the Assembly:

"I request that my remarks be printed in the Journal.

"I rise to speak in defense of women and against this amendment.

"Like many of you, this has not been an easily arrived at decision. This amendment has much in it that is good. It was sup-

ported by large majorities in Congress. You may wonder about that as I did. Why are we, the states, asked to ratify? Congress did not pass this legislation. They agreed to propose this 27th Amendment to the states and let the states decide this issue. Congress could have passed a statutory law and assumed full responsibility as they did in passing the Civil Rights Act of 1964. They have said in effect, 'Let the states decide it'.

"How far can we go toward full equality of the sexes? There is a point beyond which we cannot legislate equality. It seems this amendment chooses to ignore completely the emotional and physical differences between men and women — these differences could have been taken care of if Senator Erwin's amendment had been included. This amendment reads:

"Neither the United States nor any State shall make any legal distinction between the rights and responsibilities of male or female persons unless such distinction is based upon physiological or functional differences between them.

This was not included and no recognition is given for these differences. Women will no longer be entitled to protective laws that now, and should, exist.

"Since history began, women have borne the children, and no law will change that, and they have set the harmony on the home. To offset this burden of women, men have had the role of provider, defender of the home, and fighting in the wars for home and country. I believe in this division of responsibility. Women cannot change their role as mothers. Therefore, men should provide and defend. Until such time as we produce babies in a test tube, that is the way it should be.

"I whole-heartedly believe we should extend to women every opportunity and all compensation that is available to men, but not to withdraw protection and exemption in those areas which by their nature pertain to their sex only.

"It is well for us to realize there are differences not created by law, and these cannot be abolished by laws. Those differences or discriminations that are created by law should be treated with corrective legislation, and it is to those areas that we should direct our attention. The good the Equal Rights Amendment would tend to do is not selective, and would carry with it constitutional confusion and psychological danger. Instead of treating the disease, we are endangering the patient. The reputable surgeon, in removing an appendix, does not slice away at the heart. In times of drought the farmer does not open the floodgates of the dam. Nor would a farmer use a weed spray in his wheat field that would seriously damage the grain in order to eradicate the weeds.

"This is largely represented as woman's rights amendment, when in reality it is more beneficial to men.

"The Equal Opportunity Act of 1972, forbids discrimination in every aspect of employment, including hiring, pay and promotions. Let us use the laws already enacted which are not being generally followed. Do we need more legislation until we enforce those we now have?

"During the hearing, Lana Tyrre, a lady attorney from Oklahoma, mentioned that she had taken 290 cases to court in the interest of women and won them all. Is not that evidence that we have the laws now, but are dragging our feet in enforcing them? This lady attorney was in favor of this amendment at one time, but after studying it closely is now firmly opposed to it.

"It has not been the practice of this legislature to pass or approve legislation that is as vague and uncertain in its possible implication as this amendment before us. Many in this body have not taken a studied look at this proposal. The states have seven years

to ratify. Let us take at least another two years to take a better look at this revolutionary amendment.

"Some have taken a stand for this amendment mainly because some conservatives are for it. I am sorry to see this reaction. Can anyone today be a complete conservative or a complete liberal and meet the problems that confront us with a genuine regard for the rights of all? I think not. Whether these problems are social, political, economic or of a religious nature should we not be ready to meet change as change is required, but should we not hold fast to those things that have proved good through the test of time?

"Finally, let us not be swayed in our decision because men in authority supported this amendment. We have long thought that men in authority were usually right, now we have learned they are just as probably wrong. The Tonkin Gulf Resolution, which committed us to a disastrous war that has shattered our nation, was made by men of authority. It has been said that this amendment can be as disastrous to our society as the Tonkin Gulf Resolution was to our nation.

"Let us remember specific problems, where they exist, require specific treatment. Where inequalities exist let us strive to remove them without wiping out all the benefits and privileges that apply to women. Regardless of what we hear in this assembly today, the majority of the women of this nation want those protective laws and privileges that have been secured after many years of effort. These privileges extend into all areas of human endeavor and social contact.

"Women trying to approve this amendment are being lured into a trap by the magic words 'equal rights'. In the words of Susan Sharp, Associate Justice of the North Carolina Supreme Court, 'If this is ratified, women who advocated its passage all have ambushed themselves'.

"Speaking in the defense of women, I have an obligation to resist this amendment."

Rep. Rundle:

"Mr. Speaker, Ladies and Gentlemen:

"I request that my remarks be printed in the Journal. I have the utmost confidence in the Desk Reporter to take notes as fast as I can talk. I think women are wonderful. I want that in the record. I think their judgment is good and in my district — I have every blooming letter I received from my district. I couldn't keep all the letters from the cities, my desk is too small, but from my district, the mail has run five or six to one in favor of the defeat of this amendment.

"The women in my district think we have treated them quite well. It used to be — my folks were on a ranch before the land was surveyed in 1897 — and it was said then the men were hard on their women and horses. Since then we have corrected that. The women — five or six to one — do not want this amendment, and this is a good reason for me to oppose it, plus the fact I am not considered a coward, and I feel the same way after listening to all the discussion on the rights they have now.

"I urge you to defeat the motion before the House, the motion that the Report of the Minority be substituted for the Majority."

Rep. Jaeger requested a recorded roll call vote on the motion of Rep. Kretschmar that the report of the Minority be substituted for the report of the Majority.

On page 1, line 3, after the word "population" insert the following: ", providing a statement of legislative intent"

On page 1, line 10, delete the numerals "10,000" and insert in lieu thereof the numerals "6,000"

POINT OF PERSONAL PRIVILEGE

Rep. Eagles: "Mr. Speaker:

"I rise on a point of personal privilege and request that my remarks be printed in the Journal.

"It is always difficult to lose, but it is twice as difficult when you are not truly out-voted — you are out-smarted, and on a measure of such importance to so many people, it is especially difficult.

"The vote today has been most interesting. We went from a 55-46 vote in favor of the Minority Report to a 51-49 on the measure. At this point of time, one of the members who we knew had voted for the amendment was absent for a doctor's appointment. The clincher motion at this point was a very clever move, but I am sure that this legislative body, which has repeatedly spoken out on the right of the people to vote on issues, did not want to deny this man his vote.

"Did you really want to win in this manner?"

Rep. Streibel moved that 250 more copies be printed of House Bills Nos. 1026 and 1496, and 250 copies be printed of the engrossed House Bills Nos. 1183 and 1170, which motion prevailed.

POINT OF PERSONAL PRIVILEGE

Rep. Stone: "Mr. Speaker, Members of the Assembly:

"It seems to me that this would be a very good time for the statement which I would like to have recorded in the Journal.

"Yesterday a clincher motion was put on House Concurrent Resolution No. 3009, better known as the Equal Rights Amendment to the United States Constitution. The clincher won — the record stands. I have no criticism of the procedure or even the results. However, may the record show that three people pushed the green button thinking they were voting for a clincher on the vote on House Bill No. 1050 — a close vote which removed the controversial amendments to the Highway Tax Fund bill. Perhaps there were more who misunderstood. May this fact remind each of you to speak into your mikes for the benefit of all. Then, and then only, will the official record in the Journal accurately reflect the decisions of this assembly.

"Thank you"

POINT OF PERSONAL PRIVILEGE

Rep. Strinden: "Mr. Speaker, Members of the Assembly:

"I rise on a point of personal privilege.

"I think all of us are alarmed by comments made that would pit

the bigger cities against the rural areas, and suggestions by some that larger population districts are trying to take unfair advantage of the rural districts. All of us here are trying to do a good job for the people of North Dakota.

"Yesterday we had a major piece of legislation before us, House Bill No. 1050, which dealt with the distribution of the highway user funds. As you know, it was based on an interim study and is an attempt to bring a certain amount of equity to the distribution of highway user taxes to the cities and counties. I would like to point out to the members of the Assembly that there will be many other pieces of legislation that will come before us that will affect various factions within this state. There will be a major piece of legislation allocating funds for elementary and secondary education. When we consider the total picture, then we can evaluate whether there is equal treatment for all section of North Dakota or not. I, for one, am going to be willing to vote for more money per pupil for the smaller school districts, recognizing they have certain problems that we do not have in the larger districts.

"In past sessions, I have noted that the members of the larger school districts — districts without school buses — have voted to give more assistance for transportation to the smaller districts, recognizing that they do have transportation problems that we do not have in the larger districts.

"Frankly, I deplore some of the editorials and some of what I consider very irresponsible talk about the larger communities trying to deal in an unfair manner with the Representatives of the rural communities in North Dakota."

Governor

STATE OF NORTH DAKOTA
Executive Office
Bismarck

February 2, 1973

The Honorable A. G. Bunker
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, North Dakota

Dear Mr. Speaker:

The Fourteenth Amendment to the United States Constitution provides that no state shall "deny to any person within its jurisdiction the equal protection of the laws." I do not believe that House Bill 1042 observes the command of this cherished amendment.

I do not favor a bill that does not give each person an equal voice in government. I do not favor a bill that is contrary to the

expressed will of the people of North Dakota. I do not favor a bill that is unfair. Therefore, I veto House Bill 1042.

As I stated in my "Message to the Legislature":

The courts have ruled in favor of the one-man, one-vote concept and equal representation in both Houses of a bicameral legislature. Yet we continue to accept multi-member districts in each succeeding reapportionment plan which does violence to the one-man, one-vote rule.

Lack of time or sufficient data cannot be continuing reasons for not dividing multi-member districts into single member districts or sub-districts. Even though these new districts were less than perfect, they would nevertheless be much more equitable for the people than the present multi-member districts.

* * *

The United States Supreme Court has said, "When district courts are forced to fashion apportionment plans, single-member districts are preferable to large multi-member districts as a general matter."

We should not wait for the courts to tell us to do that which we know is right.

This reapportionment plan fosters the continuation of five multi-senatorial legislative districts and the continuation of unequal representation in state government. Voters of the thirty-two single-senatorial districts are underrepresented in relation to the five multi-senatorial districts in the state. Whereas a voter in each of the thirty-two districts may choose only one senator and two representatives, a voter in District 29 may vote for two senators and four representatives; a voter in District 32 may vote for three senators and six representatives; a voter in District 5 or District 18 may vote for four senators and eight representatives; and a voter in District 21 may vote for five senators and ten representatives. Should the ballot of a voter in these five multi-senatorial districts be two, three, four, or five times as valuable as that of most other North Dakotans?

Multi-senatorial districts also tend to underrepresent minority groups. Experience has clearly shown that the interests of all minority groups are submerged in a winner-take-all pattern which emerges in a multi-legislative district. The unfortunate result is that the voice of the minority is virtually unheard in the public legislative forum.

I believe the increasing costs of campaigning could be significantly reduced by eliminating the multi-senatorial districts. It simply costs more for a candidate to run and to communicate with the people in a multi-senatorial district than it does in a single-senatorial district of similar size or population.

Is it reasonable to have a candidate campaign to 60,000 citizens in our most populous district whereas a legislator in any single-senatorial district must communicate with only about 12,500 people? The increased costs of campaigning in a multi-senatorial district may prevent many citizens from seeking elected office.

And on the other hand, is it reasonable to ask voters of one district to familiarize themselves with the positions of thirty potential legislators when the voters of a single-senatorial district need only to choose from six candidates? Effective government demands a close communication between the elected officials and the people they represent. The multi-senatorial concept does nothing to attain this objective.

Other aspects of House Bill 1042 are equally undesirable. For example, this reapportionment plan violates the boundaries of sixteen counties. A defeated substitute plan would have retained the county-line integrity of forty counties and yet comply with court-ordered population ratios.

This bill would attach the Air Force bases to the closest urban area by long, narrow district elongations. This bill divides Barnes County into three oddly shaped districts and into a pattern contrary to the traditional district boundaries of the past seventy years. This bill dissects Walsh County into three elongated districts with tails trailing off to Pembina and Grand Forks Counties. This bill suggests the impossibility of intra-city or intra-county subdistricts when experience has clearly shown boundaries can be equitably drawn for precincts and wards to elect county commissioners, aldermen and council members. It therefore appears that this bill does not attempt to assure every voter an equal voice in electing legislators.

It should be noted that single-senatorial districts were constitutionally required in North Dakota from 1889. The original constitutional text carried a simple, clear provision for single-senatorial districts:

Each district shall be entitled to one senator and no more, and shall be composed of compact and contiguous territory. . . .

This was amended by vote of the people in 1960 to:

Each existing senatorial district as provided by law at the effective date of this amendment shall permanently constitute a senatorial district. Each senatorial district shall be represented by one senator and no more.

In 1964, a three judge Federal Court (**Paulson v. Meier**, 232 F. Supp. 183) held that the first sentence of the new Section 29 violated the Equal Protection Clause of the Fourteenth Amendment to the Federal Constitution. The amendment was thereby invalidated.

The North Dakota Supreme Court (**State ex rel. Stockman v. Anderson**, 184 N.W. 2d 53, 1971) reaffirmed that the entire Section 29 was invalid — but not because of any criticism of single-senatorial districts. Unfortunately the court did not address itself to the question of whether the invalidity of the entire 1960 amendment to Section 29 of the Constitution reinstated the original version of Section 29 — a version which is completely consistent with the Constitution of the United States.

As the people and the North Dakota Constitution have consistently favored the single-senatorial concept, why must the people of North Dakota be burdened with multi-senatorial districts?

Finally, a 1972 Federal District Court case (**Graves v. Barnes**, 343 F. Supp. 704) explains that "courts have invalidated plans containing unexplained mixtures of single and multi-member districts. In . . . 1966 . . . the Iowa Supreme Court declared unconstitutional a reapportionment plan making one county a multi-member district while dividing the other counties into single-member districts. The court held that the scheme would not be sustained without reasoned justification." I believe that House Bill 1042 also fails to provide a rational justification for multi-senatorial districts.

Therefore, the Legislature must now provide for an equitable method of producing a single-senatorial reapportionment plan before the next general election.

Sincerely yours,
ARTHUR A. LINK
Governor

POINT OF PERSONAL PRIVILEGE

Rep. Backes: "Mr. Speaker:

"I rise on a point of personal privilege.

"A few weeks ago when Rep. Streibel was condemning the press, I sat and thought to myself I know how he feels because I went through it for quite a while, but I think that was more than a personal thing.

"Over the last few weeks we have seen the news do some strange things. About two weeks ago the Governor proposed a budget, and in that he had some \$38 million in tax relief. This was diligently pointed out by those of us in leadership and in the Governor's office that this was not a spending increase but a tax decrease, and yet the newspapers came out one after another with the headline that Link's budget added \$32½ million more than Guy's — not one word about tax relief. **The Pioneer** comes out with Link asking for \$32½ million more. **The Grand Forks Herald** comes out with Link's budget exceeds Guy's proposal by \$32½ million. They all had the same amount anyway.

"I was dismayed because the headlines were misleading. But this week-end I picked up the **Fargo Forum** and the **Minot Daily News** — I have the Fargo Forum here — both of which state that the North Dakota GOP unveils tax relief program. We are talking about the same \$32½ million. One is a spending increase and the other is a tax relief program. It is hard to conceive of how this can be done. I think the only thing I can say is that it is either gross ignorance on the part of the press on budgetary matters, or it is plain intentional biased reporting — one or the other or both."

MOTION

Rep. Wagner moved that House Bill No. 1015 be re-referred to the Committee on Appropriations, which motion prevailed.

POINT OF PERSONAL PRIVILEGE

Rep. Hilleboe:

"Mr. Speaker, Members of the Assembly:

"It was stated by the Majority Leader but a few minutes ago that we shouldn't send bills back to committee. We cannot amend from the floor without unanimous consent. The two bills I asked be sent back to committee were mill levy bills. There are only two ways to vote on the floor — for or against. In that event, I would have had to vote against the bills, and I believe both bills were needed if amended. When a bill passes, it gets messaged to the Senate and is assigned to committee. On the back of the bill there is listed the ayes and nays.

"When a House Committee considers Senate bills, somebody will ask you how they voted in the Senate, and it will be 49 to 2 or 48 to 1, and this does have a bearing on their action.

"I don't care to have my name go to the Senate in favor of a bill that I didn't agree with when there were major changes that should be made on the bill.

"It is the duty of the legislative body to get out good, solid, sound legislation. My main interest is not to get out of here on March 13."

SECOND READING OF A HOUSE BILL

House Bill No. 1042. A Bill for an Act to provide for state legislative apportionment, and to repeal sections 54-03-01, 54-03-01.1, 54-03-01.2, 54-03-01.3, and 54-03-01.4 of the North Dakota Century Code, and chapter 338 of the North Dakota Session Laws of 1965, relating to state legislative apportionment.

Which has been read.

POINT OF PERSONAL PRIVILEGE

Rep. Streibel: "Mr. Speaker, Members of the Assembly:

"I request that my remarks be printed in the Journal.

"The veto message on House Bill 1042 could well be termed the 'Sermonette on the political evils of multi-senatorial districts'. Approximately three of the three and one half pages of the veto message deal with this subject matter and this one alone.

"A number of editorials have appeared in weekly newspapers criticizing the legislature for not adopting the single-senatorial concept. They, and others, have charged us with gerrymandering to save incumbent Republicans. These same individuals have accused us of partisan politics in our support of the multi-senatorial concept. Let's reverse the question — is it true that the single-senatorial advocates have nothing but the loftiest of ideals — is their concern only for the multitude of minority groups we have in North Dakota, and according to their criteria a closer adherence to the one man one vote principle.

"I submit to you that partisan political concerns are running rampant among the opponents of House Bill 1042 under the camouflage of

single-senatorial districts. Allow me to illustrate. On how many occasions are Republican House members, more especially first term Republican House members, called in by appointment to the Governor's office? Is the Governor's office completely void of any partisan concern in this matter? For any one of us, or for any editorial critic, to accuse only the majority of partisan politics is an injustice of the first order.

"My recollection of the 1965 Re-apportionment is still very vivid. That Session saw a Democrat majority in the House and if you think for one minute that there were not advantages given to incumbents of that majority, guess again! There are no great tirades about partisan politics, we as a minority joined with the Democrat majority to pass a reapportionment plan. In fact you might be interested to know that 39 of our 44 Republican House members voted for House Bill 566 in the 1965 Session.

"Twice in the past eight years the courts have seen fit to reapportion the North Dakota Legislature. In neither instance did they choose to use the single-senate district concept. The Governor, as I have already mentioned, opposes the multi-senatorial concept and used almost his entire veto message in citing various court rulings to back his contention.

"For every such contention you can find several that state precisely the contrary in support of the multi-senate concept. The court held in the Indiana case of **Chavis vs. Whitcomb** the use of multi-member districts was quite permissible. The courts further spelled out its reasoning on multimember districts in the Georgia case, **Fortson vs. Dorsey**. It held that the use of multimember districts in the State of Georgia was permissible.

"The Governor in his veto message criticized HB 1042 because it violated the boundaries of sixteen counties. Here is what the courts have to say on this matter. In a pair of opinions; one from the State of New York **Wells vs. Rockefeller** and another from Missouri, **Kirkpatrick vs. Preisler** this is what they had to say about preserving county lines. The court said the preservation of county lines, observance of natural boundaries, like rivers or mountain ranges, and even compactness were not valid excuses for any deviation whatsoever. Exact population equality is required.

"The 21st Legislative district receives the brunt of the attack by the opponents of HB 1042. The reference is made to 30 legislative candidates, 15 legislators, 60 thousand people, etc. The people of Cass County elect their Commissioners at large. The City of Fargo elect their city Commissioners at large and evidently the residents of Fargo and Cass County do not object or else we would have heard from them long before this.

"The Governor criticized the manner in which Barnes County was cut-up. The plan that he evidently favors does a fair dissecting job in itself, the only difference being the political make-up of the surgeon wielding the scalpel.

"In a televised press conference the Governor had harsh words for, and I use his words, 'an elongated district stretching from Mandan to New Salem'. Ironically a reapportionment plan he presumably favors contains that identical district along with others that are even more elongated in geographic composition.

"Of the hundreds of cases brought and many thousands of pages of legal opinion written on reapportionment and specifically on preservation of county lines and multi-member districts we could summarize what the courts have said as follows:

- 1) In **Wells vs. Rockefeller** and **Kirkpatrick vs. Preisler** that preservation of county lines and observance of natural boundaries are not valid excuses for any deviation in exact population equality.
- 2) That multi-member districts per se are not unconstitutional.

House Bill No. 1042 leaves 37 county lines intact. It has a deviation ratio of 1.07 - 1, which is determined by taking the high percentage of the mean population (District No. 31 - 12,763 per Senator - +3.3%) and dividing it by the low percentage of the mean population (District No. 33 - 11,923 per senator - -3.5%). House Bill No. 1042 calls for 50 Senators and 100 Representatives in 37 legislative districts.

"House Bill No. 1042 adheres to the one-man, one-vote requirement established by the Court. It maintains the 'Communities of interest' philosophy to a great degree.

"The plan meets all the courts' tests for acceptability. It breaks fewer county lines than many plans submitted. It keeps legislative representation pretty much as it is. It does not reduce the number of legislators. House Bill No. 1042 is the product of an interim study. HB 1042 was unanimously submitted by the Legislative Council's Committee on Reapportionment and subsequently unanimously adopted by the Council and recommended to the 43rd Legislative Assembly. Reapportionment is a legislative responsibility and not a job for the Courts. As elected representatives of the people, legislators can express the wishes of the voters regarding reapportionment better than appointed judges.

"No reapportionment plan can be devised by man that will satisfy the political whims of all. It is incumbent upon us to compromise rather than allowing personal interests to predominate. I urge your support of the motion to reconsider the veto of House Bill No. 1042."

Rep. Streibel requested a call of the House, which request was granted.

Rep. Streibel moved to suspend the call of the House, which motion prevailed.

Senate Bill No. 2016. A Bill for an Act making an appropriation to the Social Services Board for the purpose of making payments to all welfare recipients and declaring an emergency.

Which has been read.

Rep. Kingsbury moved that the remarks of Rep. Reimers be printed in the Journal, which motion prevailed.

Rep. Reimers: "Mr. Speaker, Members of the Assembly:

"In regard to House Bill No. 2016, I want to give you a little history.

"The original request by the Social Services Department to the Budget Director, Executive Office, was \$76.5 million. That was reduced by the Executive Office to \$71.1 million, for a net reduction of \$5,452,881. The Legislature further reduced that appropriation an additional \$490,000. At no time did the Social Services Board or anyone from that department request any additional funds for their budget over and above the \$71.1 million recommended by the Executive Budget.

"The budget passed out by the North Dakota Legislature was \$70,-622,976.

"On June 20, 1972, the Emergency Commission met and they received a request to accept Federal funds of \$3,197,711 — those to be matched by the revolving Counties Funds. The surplus of those revolving Counties Funds was used on July 1 — funds left over from the preceding fiscal year — were used on July 1, to pay July bills,

thereby increasing the percentage ratio of state-federal match so they could as a matter of fact receive the \$3.1 million additional.

"The Emergency Commission granted these additional federal funds. At that time I considered, as the Chairman of the Interim Budget Committee of the North Dakota Legislature, calling the Budget Committee together to discuss the problems that I saw on the horizon of the Social Services Board, and in July we did meet. In our meeting in July, the Social Services Board presented us with figures of a \$900,000 state deficiency appropriation if they continued expenditures at the present level. After hearing their problems and much discussion with our Budget Committee, we had a show of hands of those who would be in favor of a deficiency appropriation, and there were no hands. The Social Services Board decided to make no requests for a deficiency appropriation and, as a matter of fact, did decide to execute cuts that would allow their budget to stretch until the end of the fiscal year. After that the Social Services Department met with Governor Guy and explained their problem, and he recommended that the adjustment be delayed until January 1, to let the Legislature face the problem. As the Chief Executive of the State of North Dakota, Mr. Guy, as a matter of fact, told the Social Services Board to go ahead and spend money until it was gone, and thereby blackmail the North Dakota Legislature into coming up with a deficiency appropriation, or let those people simply run out of money.

"I say to you, the fiscal responsibility of the State of North Dakota has never been in the Executive Branch, and never will be. It has been in the Legislative Branch.

"I do not intend to spend any more time on this piece of legislation. These people need this deficiency appropriation, and I sincerely hope that you will vote for the bill."

POINT OF PERSONAL PRIVILEGE

Rep. Winkjer: "Mr. Speaker:

"I rise on a point of personal privilege and ask that my remarks be printed in the Journal.

"With the passage of House Bill No. 1084 we have taken one of the final steps in terminating the program of the State Tuberculosis Sanatorium. I believe the record of this assembly should reflect the service this institution has given the people of this state.

"San Haven was opened in November of 1913 — at a time when a great white plague was sweeping across the world. A highly contagious, communicable, incurable disease that wiped out families and shattered the hopes and futures of millions. The established hospitals were unable to cope with the contagious problems of the disease. The state was called upon to provide a medical facility which it did and which served thousands and thousands of those afflicted with the medicine of our clean northern air.

"Early records are vague — but in 1925 the death rate in North Dakota rose to 309. Medical science has now reduced the death rate to a minimum eliminating the need for any further state sanatorium for the tubercular.

"I believe our record should give brief homage to the people of the state of North Dakota who with their tax dollars had social compassion in building and operating the sanatorium, but also to the people who performed the services there — the doctors, nurses, orderlies — at great personal risk. Many of whom were afflicted and gave their lives as they served their fellowman.

"My personal reflections remember Dr. Dodds, a superintendent, Blondie, a nurse, Scotty, an orderly, Pete, the barber, the Sheepshed — the Masonic Cottage — my gratitude, and on behalf of the thousands of others who were cured there, our eternal thanks."

POINT OF PERSONAL PRIVILEGE

Rep. Atkinson: "Mr. Speaker:

"I rise on a point of personal privilege and ask that my remarks be printed in the Journal.

"Yesterday afternoon Rep. Streibel, as our Majority Floor Leader, announced that the Senate Concurrent Resolution that dealt with the proposed 27th amendment to the United States Constitution, unless some objections were made, would come before the House this afternoon for final determination.

"First, we should direct our respect to Rep. Streibel for the openness and fairness with which the matter was handled. In a lot of state legislatures, probably through a series of quick bone crunching motions would have disposed of what is a difficult issue to the legislature, and it would have been over. This speaks well for the process of this House that advance notice was given so those who feel another procedure should be followed could express their feelings. It is going back to the House Judiciary Committee and will be heard.

"North Dakota is probably unique in the nation in the degree of public involvement that we have in the legislative process. In the last few years we have made tremendous advances in the openness with which this body handles those measures which comes before it and the opportunity the people of our state have to participate in our decisions. A very major part of this process is in our public hearings, and to my knowledge, North Dakota

stands alone on the absolute unbendable rule that every measure is entitled to a public hearing and must be reported back to this body.

"I am sure as a matter of theory that in regard to the 27th amendment to the United States Constitution that little more possibly could be given in such a hearing. We are not here to legislate for the convenience of the legislators, but for the people of our state, and if there is one other person who wants to explain one further point, they will have the right assured them by the rules of this House."

Rep. Streibel moved that the following remarks of Senator Milton R. Young be printed in the Journal:

"I deeply appreciate your convening this joint session, and especially knowing how busy you are now. I have spoken briefly to both the House and Senate every session since I left here in 1945, but this is the first time I have been accorded this honor. This is very special to me, too, since this is the 40th anniversary of my being elected to this State House of Representatives.

"My first election was no landslide victory. I won by 37 votes. This was during the depth of the drought and depression when we were all broke. Like most people, my debts were far greater than my assets.

"About everyone was broke, including the state and almost every political subdivision. Most people then sought answers to many of their problems through politics.

"1932, when I was elected to the House, was the year of the greatest victory for the Non-Partisan League. Most of their candidates received a two-thirds majority or more. Probably the major reason for my survival politically all these years is that I learned a lot about politics from these old Leaguers. It was a must. I would have been out of business long ago if I hadn't been a good student.

"Serving in the United States Senate has been an honor and a challenge, but the years I spent here in the House and Senate were more enjoyable. I would not have been a member of the United States Senate if it had not been for this experience and my friends here. Even though legislators took their politics more seriously then, there was always a very close friendly relationship. I still have a very special and warm feeling toward this Legislature and you who serve here. Somehow I still think I belong here.

"I will always have some interesting memories of my first sessions here. For example, Representative Ben Fedje of Williams County, in one of his many colorful and earthy speeches, tried to tell some of the more conservative members of the House from the eastern part of the state why they were more radical out west where he lived. His major point — and it was a good one — was that if the conservatives from the eastern part of the state had no crops and were broke, they would be radicals too. There is a lot of truth to what Ben had to say. Financial circumstances seemed to make a difference in people's political philosophy then as now.

"As I said previously, if it hadn't been for some of the friends I made here — and particularly one — I would never have been

a member of the United States Senate. The late Governor Fred G. Aandahl, one of the great men of my time, was President of the Barnes County Corn and Hog Board in 1934 when I was Chairman of the same committee in LaMoure County. This was the first of the farm Triple A programs. We became close friends then and later when we were both members of the Senate. Probably one of the major reasons why he appointed me was because his views on most issues were much the same as mine, and we often conferred on legislative matters when we were both members of the State Senate.

"No one in those drought-stricken depression years ever dared hope that this state could again become financially solvent, so productive, so beautiful with all the trees, and all the tremendous progress that it has made since then. All of the great changes in North Dakota have been for the better.

"I wish I could say as much for our Federal Government. When I first went to the United States Senate in March of 1945, our national debt was approximately \$259 billion. Today it is estimated to be \$482 billion. In great contrast, North Dakota has practically no indebtedness — thanks to level-headed people like you.

"When I went to the Senate during the closing months of World War II we were the richest, most powerful nation in the world. Every nation, even our adversaries in that war, respected us. We were the friends of people everywhere on earth. Today we are severely criticized all over the world, even by some we helped the most. At least a part of this has been the misfortune of leading nations throughout history. We are the greatest and wealthiest nation and, naturally, are envied. As a leader, we are forced to take positions that are sometimes unpopular.

"I can't help but feel that we have gone much too far in intervening, particularly militarily, in the problems of the nations all over the world. We have extended ourselves far beyond our capabilities. During my comparatively short time in Congress we have been engaged in three major wars — the one in Vietnam the longest in history. Fortunately, at long last we have gotten out of this unfortunate unnecessary war. I hope we as a nation have learned something from this sad and costly experience.

"I wonder sometimes if we aren't fast reaching the situation of Great Britain — that of having had too many costly wars and being forced to accept a position of a third-rate power with far less influence in world affairs.

"With our huge national debt and literally hundreds of new and costly domestic programs — the costs of which are escalating by billions each year — can we be the strong, viable power of the past?

"Right now our money is again being devalued in foreign markets. We face another financial crisis.

"For the current fiscal year our estimated Federal expenditures, if not cut by the President, would have been \$258 billion. We have reached the point where 20 percent of our entire gross national product now goes to pay for Federal Government and fourteen percent for state and local government.

"President Nixon is now attempting, as you know, to reduce these Federal expenditures to \$250 billion. I can't help but believe many of the cuts he is making are unwise and in the wrong programs. Some are justified. Even after the cuts he is making, we will still have a Federal deficit of approximately \$20 billion.

"Let me give you some of the reasons why our national expenditures and budget deficits have increased so sharply in recent years.

"The cost of the war in Vietnam, this fiscal year ending July 1, will still be in excess of \$8 billion. With the cease-fire this cost

will be cut, but this may be partially offset by expenditures for the rehabilitation of Indo China, much the same as after World War II.

"While we have reduced our military forces by nearly three million in the last four years, the cost of personnel still represents 53% of the total defense budget. The average annual pay for military personnel has risen from \$5500 in 1968 to an average now of \$10,000. Most of the increased cost for personnel is due to the all-volunteer military force, which is now almost a reality. Draft calls are ended.

"The ever-increasing interest on our national debt is now in excess of \$24 billion this year.

"The cost for family feeding such as Food Stamps, the School Lunch Program and others in the Agriculture Bill alone have risen in the last four years from less than \$1 billion to more than \$4 billion now.

"Environmental costs have risen from less than \$1 billion in 1968 to over \$3.5 billion now. The overall cost now is much higher.

"Last year President Nixon asked for \$8 billion to deal with water pollution for a three-year period — but Congress authorized and appropriated in the same bill \$24.8 billion for the next three years.

"The cost of all health, education, and welfare programs has increased sharply.

"Revenue sharing to the states — a new drain on the Treasury — represents approximately another \$6 billion a year.

"A law enacted in 1971 reduced revenue from Federal income and other taxes by \$24.6 billion. This, plus the \$6 billion revenue sharing, would have left a sizable Federal surplus rather than a big deficit.

"Most of these programs I mentioned have merit and are necessary, but if we are to have a viable, strong economy either the President or the Congress, or both, will just have to reduce Federal expenditures or increase taxes.

"This Administration, or any other Administration, in its efforts to more nearly balance the budget, will invariably make the deepest cuts where the least number of people are affected. This is one reason why some good farm programs were emasculated.

"As the result of huge exports of farm commodities, farm prices have improved. One of the brighter spots in the budget is that when farm prices increase farm price support program costs automatically decrease considerably.

"One of the most encouraging things about our whole economy is that we have a very efficient agriculture and can more than compete with the rest of the world. Our world trade deficit would be far worse if it were not for our \$10 billion in farm exports this year.

"The easiest answer for a Member of Congress to the financial mess we are in is to advocate balancing the budget by making deeper cuts in defense spending. We can and will make sizable cuts in defense spending, but to follow the course advocated by many would soon make us a second-rate power to Russia.

"If a Member of Congress were only concerned about his reelection, the easiest way to be successful would be for him to vote for all Federal expenditures and against all the taxes to pay for them. Far too many follow that policy now. I will continue to support all good and necessary programs, but will continue to oppose many which have little need and often do more harm than good. I will continue to support whatever expenditures is necessary for our national security whether it is popular or not.

"I have only the highest commendation for your frugality in meeting the sharply increasing costs of State Government without going into debt or increasing taxes. If the Federal Government followed your policies a little more closely, we would not be in so much trouble.

"In closing, may I say a word about recent seniority changes in Congress which you have been hearing so much about. Most of the changes proposed by John Gardner, the great liberal head of Common Cause, would sharply reduce the power and influence of the smaller states. A Senator from a small agriculture state would have little chance of ever becoming a chairman or ranking member of a major committee such as Appropriations. He would have a pretty small base to start from since there are only three farmers in the Senate and agriculture now represents only about 4½% of our total population. No one in the Senate, spearheading this Common Cause anti-seniority drive, has ever expressed any sympathy or concern for agriculture.

"Under the new Senate Republican rules, any ranking member or chairman of a committee has to be elected by the members of that committee. This does not affect me as those who held ranking positions at the start of this Congress are given permanent status. A Common Cause proposal which was defeated would have permitted seven members of the Senate Republican Conference Committee to select the chairmen and ranking members of all the committees.

"Common Cause and their friends — and they have a following in North Dakota — would not only prohibit anyone from being a candidate for Congress after he reached the age of 65, but they would have to retire when they reached that age during a term of office. At least these great reformers are bi-partisan. They would not only get rid of me now — but my colleague, Senator Burdick, later this year!

"Supporting farm programs is becoming increasingly unpopular in Congress and, to some extent, in North Dakota. Popular or unpopular, my position will remain unchanged. I am going to find out the hard way. As you have undoubtedly noted, I am going to be a candidate for re-election."

Rep. Streibel moved that the Joint Session be dissolved, which motion prevailed. Lt. Governor Sanstead declared the Joint Session dissolved.

The House reconvened, with Speaker Bunker presiding.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT.) Section 54-27-19 of the 1971 Supplement to the North Dakota Century Code is hereby amended and reenacted to read as follows:

54-27-19. HIGHWAY TAX DISTRIBUTION FUND — STATE TREASURER TO MAKE ALLOCATION TO STATE, COUNTIES, AND CITIES.) A highway tax distribution fund is hereby created as a special fund in the state treasury into which shall be deposited the moneys available by law from collections of motor vehicle registration and related fees, fuels taxes, special fuels taxes, use taxes, and special fuels excise taxes. Any moneys in the highway tax distribution fund shall be **allocated and transferred monthly** by the state treasurer, as follows:

1. Sixty-three percent of such moneys shall be transferred monthly to the state highway department and placed in a state highway department fund.
2. Thirty-seven percent of such moneys shall be allocated to the counties of this state in proportion to the number of motor vehicle registrations credited to each county. Each county shall be credited with the certificates of title of all motor vehicles registered by residents of such county. The state treasurer shall compute and distribute the counties' share monthly after deducting the incorporated cities' share. All the moneys received by the counties from the highway tax distribution fund shall be set aside in a separate fund called the "highway tax distribution fund" and shall be appropriated and applied solely for highway purposes in ac-

cordance with article 56 of the North Dakota Constitution. The amount transferred each month into the highway tax distribution fund of any county shall be the difference between the amount allocated to that county pursuant to this subsection and the total amount allocated and distributed to the incorporated cities in that county as computed according to the following formula:

- a. Twenty-seven percent of the amount allocated to all of the counties under this subsection shall be the incorporated cities' share and shall be divided by the total population of all of the incorporated cities in the state to determine the statewide per capita average.
- b. The share to each city having a population of less than one thousand shall be determined by multiplying the population of that city by the product of 1.50 times the statewide per capita average computed under subdivision a.
- c. The share to each city having a population of one thousand to four thousand nine hundred ninety-nine, inclusive, shall be determined by multiplying the population of that city by the product of 1.25 times the statewide per capita average computed under subdivision a.
- d. The share to each city having a population of five thousand or more shall be determined by multiplying the population of that city by the per capita average for all such cities, which per capita average shall be computed as follows: the total of the shares computed under subdivisions b and c for all cities having a population of less than five thousand shall be subtracted from the total incorporated cities' share as computed under subdivision a and the balance remaining shall then be divided by the total population of all cities of five thousand or more.

The (((state treasurer shall compute and distribute monthly twenty-seven percent of the sums allocated to each county to the incorporated cities within such county on the basis of the per capita))) population of all of the incorporated cities (((situated within such county))) shall be as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 of the North Dakota Century Code in case of a city incorporated subsequent to such census. The moneys (((sent))) allocated to the incorporated cities shall be distributed to them monthly by the state treasurer and shall be deposited by the cities in a separate fund and shall only be used in accordance with article 56 of the North Dakota Constitution, provided that any incorporated city may use such fund for the construction, reconstruction, repair and maintenance of public highways within or outside such city pursuant to an agreement entered into between the city and any other political subdivision as authorized by section 54-40-08."

The appropriation to the Department of Public Instruction is reduced by \$535,968 in federal funds to discontinue the administration by the Department of Public Instruction of Titles III and IV of the Elementary and Secondary Education Act, as amended. The House Appropriations Committee takes such action after much review and study including discussions with elementary and secondary education school administrators. The information, testimony, and materials presented to the Committee supporting the continuation of the title programs were not sufficient in the opinion of the Committee to justify the continued supervision of such programs by the Superintendent of Public Instruction; or to justify provision of much needed space within the Capitol for the personnel needed to administer those programs.

The money appropriated to the Commissioner of Agriculture is to allow participation in the interstate pest control program. Equipment was reduced by \$4,260 because the milk-o-tester, which is no longer needed, will not be purchased.

And renumber the pages, lines, and subdivisions accordingly.

And when so amended recommends the same do pass.

Statement of the Purpose of the Amendment:

Director of Institutions - the fees and services as well as supplies and materials figures were reduced the amount agreed upon by the department as sufficient. The capitol grounds item was reduced by keeping center parking on the west lot instead of changing to a mall in that area. Improvements and repairs were reduced by eliminating the estimate for repair of the Plaza since no contractor would guarantee the job. Other means to correct this area are being investigated. Improvements for other state agencies was reduced by eliminating carpeting for the Department of Agriculture deemed not a necessity at this time.

State Library Commission - The Appropriation Committee found that the federal government did not intend in all probability to supply monies for the State Library in the coming biennium. It was decided that the budget of the commission be reviewed. The amendment budget represents the results of that review.

Radio Communications - salaries were increased to allow them to continue operations with the present staff.

State Industrial School - lines 17 through 22 were combined in one figure so that they are not bound to spend according to the individual line items.

Grafton State School - salaries and wages were increased to provide sufficient funds for a 5% increase for the first year of the biennium and a 4% increase for the second year of the biennium. Salaries and wages were reduced to reflect the funding of certain new positions from federal sources on a 75% federal and 25% state

basis. A total of \$105,975.00 in federal funds would be provided by the Department of Social Services and a total of %35,325 in state funds would come from the Grafton State School budget for the following positions: Program Aides - 8, Psychometrist - 1, Psychology Department secretary - 1, Rehabilitation Work Evaluator - 1, and Rehabilitation Part-time Secretarial Service - 1.

The Deaf-Blind appropriation in this bill was incorporated into the Grafton State School appropriation. A total of \$69,042 added to the Grafton budget for use in the deaf-blind education program provides funds for Grafton to support the program at the level proposed in this bill. The Deaf-Blind program, therefore, will be funded in the following amounts:

Salaries and wages	\$114,387
Fees and services	12,100
Supplies and materials	25,900
Equipment	40,000
<hr/>	<hr/>
Total	\$156,387
Less: estimated income	126,387
<hr/>	<hr/>
General fund	\$ 30,000

To reflect future gas utility cuts in the correct classification \$185,-800 was transferred from supplies and materials to fees and services.

To provide for sufficient electrical power at the school, \$70,000 was added for a project increase the for the school's electrical substation capacity.

State Penitentiary - It is the Committees' intent to increase salaries and wages to supply six additional correctional officers to correct security problems at the penitentiary.

San Haven State Hospital - a new position of social worker at a biennial cost of \$16,200 is added to the appropriation for San Haven. Only \$12,000 was added to the Executive Budget for the position since it was determined that \$4,200 is available from amounts already approved in Executive Budget.

Rep. Hilleboe: "Mr. Speaker:

"I wish to explain my vote.

"I voted yes on this bill because it is a good one. I did not get up before because it might have hurt the bill.

"The matter discussed about the discrepancy of age will have to be cleaned up in the Senate. If you will look under Section 1-02-09 of the North Dakota Century Code, the latest bill passed takes precedence. If this does not get changed in the Senate, a male under the age of twenty-one years will have to have his parents' consent to marry."

POINT OF PERSONAL PRIVILEGE

Rep. Schindler: "Mr. Speaker:

"I rise on a point of personal privilege.

"A few days ago I voted no on House Bill 1533, an act to provide that participation in the performance of an abortion is not mandatory.

"I am 100% against abortion, but in our case, we have two fire departments to operate an ambulance. These are manned by the firemen who have taken First Aid courses. If we were to pick up a lady who is hemorrhaging — which might only happen once in a million times — and take her to one hospital, they now would have the privilege of refusing to help her. Then when we are taking her to another hospital, the lady could pass away.

"Volunteers for this ambulance service are hard to get. We do our best to get the patients to the hospital.

"That is the reason I voted against this bill. There are two of us in the ambulance, one to drive and the other to take care of the patient, and the one thought you have in mind is to get the patient to the hospital as fast as possible to keep her alive. When we get to the hospital, we expect the doctors there to save the woman's life. This could happen some time, and that is the reason I voted no on the bill.

"Thank you."
