No new funds or positions will be required to pursue the program under this proposed law. The solid waste program in the State Health Department is presently financed by a solid waste grant from the Environmental Protection Agency and State and local matching funds. We estimate that about \$35,000 per year Federal funds will be available for this program. These funds must be matched on a one-to-one basis. Matching funds will come from local district health units' efforts in solid waste management in the amount of about \$14,500 per year and the balance from the State effort in conducting the abandoned auto program.
