Mileage reimbursement is increased from twelve to fifteen cents per mile.

The amendments to the legislative organizational session appropriation reflect the increase necessary to reimburse members of the 1976 organizational session at a rate of \$60 per day rather than \$50 per day as is currently provided by law.

The amendments to the legislative council appropriation bring legislative council employee salaries up to a five percent increase per year. The amendments to the fees and services line item provide for an increase in per diem from \$30 to \$45 per day for committee members, as provided in House Bill No. 1177 and for increased travel expense reimbursement as provided in House Bill No. 1189.

SECTION 6. APPROPRIATION.) There is hereby appropriated to the social service board the sum of \$7,806,700.00 in federal funds, \$5,139,301.00 to be contributed by individuals, organizations, governmental units, or other sources, and \$36,500.00 under plan 4 as proposed by the board from the general fund in the state treasury, or such lesser amounts as may be necessary, for purposes determined to be eligible for funding as provided by state and federal law during the biennium beginning July 1, 1975, and ending June 30, 1977.

Should the social service board initiate purchase of service agreements between individuals, organizations, governmental units, or other sources which are determined to be eligible for funding as provided by state and federal law during the biennium beginning July 1, 1975, and ending June

30, 1977, area social service centers shall submit to the social service board proposal requests from their jurisdictional area.

The tax commissioner, upon request and a proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for

paying the tax, and when such a request is granted, the tax shall not be delinquent until the extended period has expired. The tax commissioner shall require a report to be filed quarterly by each owner or operator of a coal mine, in such form as the tax commissioner may specify, to list a full description of the mine, the number of tons of coal severed, the amount of tax due and remitted, and any other information deemed necessary by the tax commissioner for the proper administration of this Act.

Any coal mine operator or owner receiving notice from the tax commissioner that he has filed an incorrect return or remittance shall remit the tax assessed by the commissioner within fifteen days of such notice. Any owner or operator aggrieved by a decision of the tax commissioner may make application in writing within fifteen days of notification for a hearing which shall be granted not later than fifteen days after receipt of the application. SECTION 5. PENALTY ON DELINQUENCY — FAILURE TO FILE REPORTS.) Where the severance tax provided for in this Act shall become delinquent, it shall, as a penalty for such delinquency, bear interest at the rate of nine percent per annum. If the quarterly report is not filed within thirty days after the end of any quarter and taxes due paid, the tax commissioner shall notify the delinquent owner or operator of such delinquency, and if such report and remittance are not filed within an additional fifteen days, the tax commissioner shall notify the public service commission, which shall forthwith suspend such owner's or operator's license or permit until such time as payment is received, or the issues settled to the satisfaction of the tax commissioner.

In all cases where such tax is not paid, it may be recovered at the suit of the state, upon relation to the state tax commissioner, in any court of competent jurisdiction of the county where any such property, assets, and effects are located.

SECTION 7. APPEAL FROM DECISION OF TAX COMMISSIONER.) Any person aggrieved because of any action or decision of the tax commissioner under the provisions of this Act may appeal therefrom to the district court of Burleigh County.

EXPLANATION OF VOTE

Rep. Rylance: "Mr. Speaker:

"I would like to explain my vote on House Bill No. 1001.

"I voted against House Bill No. 1001 for two reasons. I do not favor a tuition increase for college students. Second, I oppose the five percent increase for state employees of higher education without knowledge or opportunity to vote on the contingency fund for the next biennium."

POINT OF PERSONAL PRIVILEGE

Rep. Thorsgard: "Mr. Speaker, Members of the Assembly:

"I request that my remarks be printed in the Journal.

"Today you witnessed some fine presentations. Much concern and hard work has gone into many of them. The chairman and committee members have worked above and beyond the call of duty.

"I want to appraise the body of some structural problems in the organization of our committee.

"I do not believe it is fair to the man, the committees or this body, that any person should have the budget of his school or institution in whose district his or her constituent must decide whether or not to return that legislator to this Assembly.

"Your popularity in that community will be in proportion to the funds you can procure for that institution.

"I am not insinuating that the committee is not composed of responsible people; but I am reminding you that there are enough persons on this committee who are in the same situation and who in order to get for their community what they want, are vulnerable to be agreeable to others to the extent that these same members can very probably control the committee.

"We have a good chairman and committee members; but I do not believe a legislator should be subjected to that kind of pressure nor to the prejudice that under these circumstances is inevitable.

"I am happy to know that our committee chairman has developed and will propose some changes for the 45th Assembly."

Rep. Bunker moved that the Committee Report for indefinite postponement on House Bill No. 1522, as printed on page 816 of the House Journal be adopted.

Rep. Cann: "Mr. Speaker:

"I would like my remarks recorded in the Journal.

"I rise to oppose indefinite postponement of House Bill 1522 only to urge some of you to express your disapproval of the recent unwarranted rise in Northern States Power Co. rates in the middle of the winter, in the middle of a depression, without a hearing.

"The bill was presented to emphasize the power of the Public Service Commission to supervise utilities rates — a power they have, but which is too often used in behalf of the utilities companies and not in the best interest of the public.

"The bill also would change the rate structure which has traditionally made low-level users pay high rates and high-level users pay low rates so that in effect the public subsidizes business and industrial users. In view of the current energy shortage this rate structure should be changed to encourage less use of electricity.

"House Bill 1522 as amended reads: 'The commission shall ensure that every customer is entitled to purchase the first four hundred kilowatts of electricity per month at a lower charge than succeeding kilowatt usage.'

"But this is only one possible way to change the rates. There are several ways the rates could be restructured to protect the public and to insure more economical use of electricity.

"Something should be done right now so that they are all explored."

POINT OF PERSONAL PRIVILEGE

Rep. Rundle: "Mr. Speaker:

"I rise on a point of personal privilege.

"In regard to Senate Bill No. 2211, we just passed and raised the fees. I couldn't get an answer about non-profit corporations, but I got an answer from an esteemed attorney in the House, and he said it pertains to non-profit corporations and raises their fees too. So, if you want to start a baseball park and want to file articles of incorporation with the Secretary of State, you would pay \$20 instead of \$16, and then if you wanted to amend the articles, you would pay \$20 instead of \$12. If you wanted to restate them, it would cost \$20 instead of \$12, so you have raised the fees of non-profit corporations of all kinds in Senate Bill No. 2211."

GOVERNOR'S REMARKS

**Special Message
To the 44th Legislative Assembly**

Tuesday, March 4, 1975

I appreciate the opportunity to come before the Legislative Assembly to share with you my deep concerns regarding legislation of long lasting significance to the future economic, social and environmental well being of the people of North Dakota.

I am here not to confront the Legislature or to find fault or criticize what has or has not been done to date. In these Legislative Chambers, you, the duly elected representatives of the people, debate the issues of the day as you perform your duties of enacting legislation deemed necessary and desirable to run the future affairs of our state. Following your action, however, the Governor in a sense becomes your co-equal in that I am required to pass judgment on the results of your deliberations. Because of this grave responsibility, a feeling of increasing urgency has developed in my mind to the point of requesting this person-to-person meeting.

A Matter of Urgency

The urgency I am referring to is that of establishing an adequate severance tax on coal for future decades in North Dakota. This legislative session will soon be over, and, frankly, I am concerned that we may be selling North Dakota's coal resources and risking North Dakota's clean air, productive land, and water at cut rate prices.

In January I proposed a severance tax plan that called for a graduated approach to a 30 per cent severance tax in 1979. I believed then that North Dakotans deserve at least a 30 per cent severance tax during the period of expanded coal development.

You have disapproved that proposal and are considering a flat fee per ton tax. I emphasize once again that I believe it is our responsibility to enact a severance tax of at least 30 per cent of price per ton in anticipation of future accelerated coal mining in our state.

A flat fee per ton tax in the 30-40- or 50 cent per ton range is simply not enough. We must lay the foundation for the future by establishing a reasonable percentage severance tax in the legislation you pass now. Postponing the job won't make it easier — it could make it impossible.

I have asked to speak to you today to underscore the seriousness of this issue. We are facing expanded coal development, and with it, risks to our quality of life.

In the development of our coal, you are the business agents for the people. The resources of air — land — water — coal belong to the people of North Dakota. If we sell these products too cheaply, we risk economic and environmental depression in the decades ahead. The people are depending on this legislature. You are drawing the blueprint which will establish the selling price of our resources. Don't underprice that which belongs to the people.

I am going to re-emphasize some of my thoughts about a coal severance tax and I hope that you will weigh them very carefully as you make your decision in the days ahead.

1. Risks for North Dakota.

Energy production is a unique industry with substantial risks for our state and its people.

While we have a responsibility to share our natural resources, I will not sit back and watch the people of North Dakota assume all of the risks without adequate compensation while others reap most of the benefits.

The scientists that have appeared before the Governor's Energy Council indicate that technology is not currently available to fully reclaim strip mined land in North Dakota. We are being asked to risk the productivity of some of the best agricultural land in the country.

The reclamation risk is emphasized in a recent New York Times article which quotes Terry Dudley, reclamation specialist for North American Coal at Bismarck: "We have the technology to turn the land back to productivity if it is just grazing land or pasture. But if you're talking about cropland, agricultural soil — and that's maybe 50 per cent of the area we are going to strip — we just don't know yet if we can do it. The deeper you go after lignite — 80, 90, 100 feet — the more you bring up a lot of very bad stuff. And the rainfall here, it's not anything like what we're used to in the East. But, on the other hand, if you go to irrigation, with the saline seep problem we've got out here, you could be creating a monster."

Also, there is the possibility of substantial degradation to North Dakota's clean air. The conversion of coal, unfortunately, produces emissions of hundreds of tons of noxious gases daily. Additionally there are risks to our water tables and to our water supply.

2. Can we learn from our neighbors? What information can we rely upon in developing an energy taxation program?

Minnesota has a taconite range which is barren and lifeless and suffers from a troubled, local economy. Minnesota now realizes that their taxation policies on taconite were not adequate, and now, after the fact, they are considering changing from a flat rate per ton to a percentage tax which will quadruple the tax on taconite ore pellets. Governor Anderson has said and I quote "the future could bring a barren landscape of deserted cities and empty mines. We must insure that our citizens are protected from such disaster and that the people of our state derive adequate compensation as this non-renewable resource is depleted."

Montana's elected leaders are taking a strong stand on a coal severance tax. The state Senate in Montana has just passed a 30 per cent severance tax on coal. They are planning wisely for the future and North Dakota must do likewise. A severance tax significantly below that levied by Montana would invite out-of-state developers to come in and purchase North Dakota resources at cut-rate prices and that's not fair to the North Dakota citizens.

3. A severance tax makes good economic sense for the North Dakota citizen.

For years North Dakota has been producing and selling low priced agricultural products to the rest of this nation. Additionally, we have been sending oil, coal and electricity to locations outside of North Dakota. At

the same time, we have imported many consumer goods and have always paid the taxes imposed by producing states which they add to the finished products to be sold in North Dakota. Yet, when we export our low priced, raw products to be processed out of state, it creates jobs and generates taxes for other states to provide services that our people are denied.

Why is our pay scale in the field of education and in other related services, near the bottom of the list? Why is it difficult for us to fund public kindergarten (one of three states in the nation without) or educational television or adequate state and institutional buildings or adequate agricultural experiment stations?

It's because for too long we've been sharing the agricultural and natural resources of our state with the rest of the nation for too cheap a price. Let's not repeat this error. In order to not repeat this error in our future coal development, we need an adequate severance tax and it should be a percentage of the price per ton of coal. Nothing less than that will give our citizens future economic protection. North Dakotans will be sharing a state product that can never be replaced. Once this coal is gone, we'll have to look elsewhere for a comparable resource. This is more than a tax, it represents a selling price of a physical material part of our state, and as negotiators for the North Dakota citizens we had better make sure we get an adequate price for it. The coal industry will generate substantial economic activity and then cease altogether once the coal is mined. Because of this boom-bust situation, North Dakota must raise sufficient revenue through taxation to build an alternate industrial base. The energy industry has stated many times that lignite is only a short term energy source. Without adequate foresight we may bequeath our future generations with a declining energy industry, no available lignite reserves and no developing alternate industry.

Possible alternatives are fertilizer manufacturing and liquid petroleum production from lignite — both of which would compliment our tremendous agricultural industry. However, planning — which costs money — must begin now since both industries would require huge capitalization, lengthy research, and available lignite reserves.

4. Why must a severance tax be a percentage of the price of a ton of coal?

A percentage severance tax will keep up with inflation. We know by the double digit inflation we have faced in past years that the state's buying power is subject to the same inflation as all other purchasers. A tax rate once established is difficult to increase and I think we are kidding ourselves if we really believe that we can establish a tax rate during this session of the legislature and then increase it in any succeeding session. History tells us differently. A 30 to 33 per cent severance tax coupled with the repeal of the sales tax from electricity will not cost the North Dakota electrical users one additional penny. In fact, it will save them money. Let's not postpone the day of reckoning for an adequate severance tax. It should be a percentage severance tax in the neighborhood of 30 to 33 per cent so that industry can plan and the North Dakota citizen can be assured that you exacted a fair, but reasonable price for the risks they are going to assume. We have established a percentage tax on oil; a percentage sales tax, and a percentage income tax. If the percentage tax concept is proper for North Dakota citizens, it is certainly proper for the coal industry.

5. What will the consumer states get from a ton of North Dakota coal?

Plain logic should tell us that the coal producing state (where all the risks are incurred) should benefit at least as much from the taxation of coal as the consumer state. One ton of North Dakota coal will produce 7.5 MCF of synthetic natural gas which will sell in Michigan for \$37.50 and raise \$1.50 sales tax for the State of Michigan (at a 4 per cent sales tax rate).

The gas from one gasification plant sold in Michigan will yield over \$18 million in sales tax to help run their state government each year. The ten million tons of North Dakota lignite used to produce that gas at a 30 per cent tax would yield our North Dakota treasury only \$12 million if coal were selling at \$4 per ton. And a flat 50 cent per ton rate would yield North Dakota a low \$5 million per year.

It is also interesting to note the \$12 million represents only 2.64 per cent of the retail cost of synthetic gas. This modest increase to consumers could be more than offset by a sales tax repeal by the consumer state — as is being contemplated in North Dakota.

If Michigan is going to reap \$1.50 in retail taxes from the product of one ton of North Dakota coal, why should North Dakota assume all of the environmental risks and socio-economic impact and receive only a 30-40-50 cent a ton coal severance tax? It just doesn't make sense. Similar results apply to out of state tax earnings on North Dakota produced electric energy. Must we settle for less than one-third of what consuming states will earn on our coal?

6. Will the type of severance tax I discussed cost the North Dakota consumer more money?

The answer is no. It is estimated that with a 30 per cent severance tax and a concurrent sales tax exemption on electricity the consumer will realize a net annual saving of nearly \$10 by 1980. The North Dakota consumers will clearly benefit from this program.

7. A trust fund or environmental insurance for future generations.

The environmental risks, the boom-bust development, the use of a non-renewable resource, and other reasons make the creation of an endowment fund or a trust fund critically important as we enter the threshold of a new kind of large-scale coal development in our state. I believe we should place 50 per cent of the severance tax into the trust fund. A meaningful severance tax on the extraction of coal will protect future generations from the unpleasant side effects that we know have historically accompanied large scale coal development in other parts of this nation.

I know some in this state have said "Well, we've lived with coal development for years and it's been good for our community and our state." We are entering a period of coal development of a size and scale that none of us have ever seen or perhaps imagined. Giant electric generating plants and giant coal gasification plants will very likely play a significant role in North Dakota's future. Today's coal development is miniature compared to the coal development of tomorrow. History has taught us across this country that as coal development increases, the environmental risks increase in proportion. I liken the coal development and its accompanying risks to medicine. Applied in a proper dosage, development can be stimulative and good for our economy and our way of life, but, applied in too large a dose without a careful prescription it could be fatal to our economy and our way of life.

You and I were elected by the people of North Dakota and we are serving their interests in this capitol. We must act on their behalf. In my opinion, the establishment of an adequate severance tax is the most important issue facing this legislature. No legislation will affect the future of this state more in the coming decades. I am convinced it is possible to protect the best interests of the North Dakota people and to be fair to the energy needs of this nation at the same time. The severance tax once imposed, will be very difficult to change. Experience proves this in every energy taxation area.

We have one chance to do this right. Let us do it now for the benefit of all North Dakotans.

I. To amend the title to exclude those portions not adopted and to include those portions adopted by the above action.

Speaker Reimers called Rep. Bunker to the rostrum to preside.

The question then was on the adoption of that portion of the amendments designated as Section A above, which reads as follows:

A. That part of the amendments which reads as follows: "On page 2, following line 18, insert the following new language:

'SECTION 3. FOUNDATION PAYMENTS FOR BASIC CURRICULUM AFTER JULY 1, 1977.) So Section A of the amendments to Senate Bill No. 2026 were adopted, on a verification vote.

Speaker Reimers returned to the rostrum to preside.

The question then was on the adoption of that portion of the amendments designated as Section B above, which reads as follows:

B. That part of the amendments which reads as follows: “On page 3, line 5, delete the word ‘thirty’ and insert in lieu thereof the word ‘forty’
 “On page 3, line 7, delete the words ‘six hundred eighty’ and insert in lieu thereof the words ‘seven hundred five’ ”

Section B of the amendments to Senate Bill No. 2026 was adopted on a verification vote.

The question then was on the adoption of that portion of the amendments designated as Section C above, which reads as follows:

C. That part of the amendments which reads as follows: “On page 3, line 28, after the period insert the following new language:
 ‘Provided however that this section shall not include 3B students in lieu thereof in tax-exempt, federally owned mobile homes.’ ”

Section C of the amendments to Senate Bill No. 2026 were adopted on a verification vote.

POINT OF PERSONAL PRIVILEGE

Rep. Strinden: “Mr. Speaker, Ladies and Gentlemen:

“I rise on a point of personal privilege.

“Two years ago we passed 2026 which said in effect that there will not be double payments. If you receive impact monies, this will be deducted from the Foundation payments. It will be considered as tax raised locally in lieu. The Federal Government said this does not conform with our rules and regulations, but their rules were changed. We have just said in passing this amendment that if people live on a military base where there is no taxation at all, their children go to our school and there is impact money, it will be deducted, but if these children come from trailer or mobile homes owned by the government and paying no taxes, the impact monies received for these students will not be deducted.

“Ladies and gentlemen, as I said earlier, this is grossly unfair, and if we want to chop up this education bill and divy a little here and a little there, it makes a mockery of any source of equity in school funding.”

The question then was on the adoption of that portion of the amendments designated as Section D above, which reads as follows:

D. That part of the amendments which reads as follows: “On page 3, line 28.

‘6. It is the intent of the Legislative Assembly that school districts give first consideration in the use of state school foundation program funds to increasing teacher salaries.’ ”

Rep. Watkins requested that she be excused from voting on this portion of the amendments because of a conflict of interest.

Rep. Olin moved that Rep. Watkins and all others with a conflict of interest be allowed to vote on Section D, which motion prevailed.

Section D of the amendments to Senate Bill No. 2026 was adopted on a verification vote.

The question then was on the adoption of that portion of the amendments designated as Section E above, which reads as follows:

E. That part of the amendments which reads as follows: "On page 8, following line 10, insert the following new subsection:

'6. Rep. Bunker: "Mr. Speaker, Ladies and Gentlemen:

"Section 54-52-02 of the North Dakota Century Code dealing with the formulation of the North Dakota Public Employees Retirement System states in part:

"All departments, boards . . . shall participate in a retirement system which will provide for the payment of benefits to state employees or to their beneficiaries thereby enabling the employees to care for themselves and their dependents and which by its provisions will improve state employment, reduce excessive personal turnover and offer career employment to high grade men and women."

"Our fund, quite to the contrary, encourages turnover. Contributions are relatively minimal and benefits provided are at the base of the spectrum.

"The North Dakota Public Employees Retirement plan is the only public fund in the country on a money-purchase plan, and the benefits to retirees are at an extremely low level.

"An employee's retirement annuity is solely dependent upon the dollar accumulation in his fund at the time of retirement. Varying conditions of the market are not conducive to a stable retirement account under the money-purchase concept.

OBJECTIVE OF THE NORTH DAKOTA PUBLIC EMPLOYEES RETIREMENT SYSTEM

"The objective of the North Dakota Public Employees Retirement System is to provide the plan participants with the best possible retirement benefits within the parameters established by the approved level of contributions and future earnings on these contributions. At no time are benefits to be increased without the proper actuarial cost calculations and subsequent approval. (This is in keeping with the minimum requirements of the new pension reform legislation.)

PROPOSAL

"The actuarial estimate report prepared by the Martin E. Segal Company has shown that we can best meet these objectives by converting our present money-purchase plan to a fixed benefit plan.

"Under a fixed-benefit plan, assets are valued on an aggregate basis rather than on an individual basis. Funding is over many years and the benefits to the plan participants are based on a specified formula and not on the amount of money in the participants account at the time of retirement.

"This is a strong plus for a fixed benefit plan. Margins created in a plan over a period of time are used to protect participants from severe market fluctuations.

"Section 25 of the North Dakota Constitution vests the legislative power in a Legislature consisting of a Senate and a House of Representatives. The Supreme Court of North Dakota has ruled on several occasions that delegation of that authority to another body is contrary to this constitutional provision. Thus a 1965 enactment of this Legislative Assembly delegating to the Board of HIGHER Education the power to determine what facilities should be constructed at the different institutions and the amount of money, if any, to be expended at each was declared invalid as an attempt to delegate legislative authority. (Nord v. Guy, 141 NW2d 295) This bill would delegate the authority of the Legislature to determine what type of benefit-formula plan should be adopted for the State Employees as well as all the details thereof.

"The Legislature must declare the policy of the law and fix the legal principles which are to control in given cases, but an administrative body may be vested with power to ascertain the facts and conditions to which the policy and principles apply. It is difficult, if not impossible, to lay down exactly the line that marks the distinction between administrative and legislative functions.

"The difficulty in determining what powers may or may not be delegated seems in part due to a confusion between such strictly legislative powers coming within the constitutional limitation prohibiting delegation of legislative authority and such other powers as are not strictly legislative and may be exercised in proper cases by persons belonging to other departments of government. It has been stated that the power to make a law and the conferring of authority and discretion as to its execution, which authority is to be exercised under and in pursuance of law, marks the true distinction between the powers which the legislature can, and those which it cannot, delegate.

"The problem with the bill appears to be there are not sufficient legislative standards established by which the benefit-formula is to be adopted. Another problem is found in the provision permitting the Board to suspend the money-purchase plan since it is well established that the Legislature cannot authorize the suspension of a law by another agency even in cases where it has the power to suspend the law.

"The 1965 session of the Legislature authorized the State Employees Retirement Plan and it started functioning in 1966. It is mandatory that all employees participate in the plan. There is a strong desire of many of the state's employees to convert the present money-purchase plan to a fixed-benefit plan as expressed by the Retirement Board, the Employees Association, and many individual employees.

"House Bill 1612 would mandate the implementation of the new plan on January 1, 1976.

"Senate Concurrent Resolution 4025 directs a Legislative Council study with the assistance and cooperation of the North Dakota Public Employees Retirement Board to make a comprehensive study of the Public Employees Retirement System for the purpose of determining the feasibility of a change in the Public Employees Retirement System from a money-purchase plan for receiving retirement benefits to a benefit formula plan.

"There are approximately 100 state employees who may retire at normal retirement age during the next year. It is felt that retrospective application could apply to these retirees by legislation approved by the next Legislative Assembly.

"Therefore, Mr. Speaker, your Industry, Business, and Labor Committee recommends indefinite postponement of House Bill 1612."

MOTION

Rep. Strinden moved that Senate Bill No. 2320 be laid over one legislative day, which motion prevailed.

SECOND READING OF A SENATE BILL

Senate Bill No. 2444. A Bill for an Act to create and enact chapter 4-30.1 of the North Dakota Century Code, relating to the establishment of central milk testing, creation of a state milk testing board, the basing of all payments for raw milk on the tests thereby made, acquisition of the necessary facilities and equipment therefor, location of the facilities, fees to be charged for tests and providing an appropriation therefor.

Which has been read.

Rep. Bye requested a call of the House, which request was granted.

Rep. Bye moved to dispense with the call of the House, which motion prevailed.

Rep. Unhjem: "Mr. Speaker:

"I ask that my remarks be printed in the Journal.

"1972 and the Presidential election that year were followed by the ravages of Watergate and the destruction of several political figures in our nation. One of the prominent organizations involved was the American Dairy Association and the resulting milk scandals and illegal financial contributions.

"A man elected to the Presidency resigned partially because of this scandal and a former Governor of Texas is now in federal prison as a result of milk money.

"Mr. Speaker, Members of the Assembly, I was elected to represent the people in my district, Stutsman County, and the events of this weekend make it imperative that I speak.

"Officials of the North Dakota Dairy Association approached the Stutsman County Fair Board, and Mr. Jack Wilkinson in particular, stating that the North Dakota Dairy Fair would be taken from the city of Jamestown if Senate Bill 2444 failed and if our delegation was involved in that failure. Mr. Dan Schorch, President of the Jamestown Chamber of Commerce and President of First National Bank of Jamestown, was also contacted to deliver the message to our delegation. Mr. Russell Melland, father of Senator Robert Melland, was also contacted to deliver the same threat to our delegation. I must stand here and commend these gentlemen. They told us to follow our own minds and to vote on the merits of the bill, not the pressure of certain groups.

"Mr. Speaker, and Members of the Assembly, is this politics in North Dakota? Is this the way to get bad legislation passed? As a newcomer to this Assembly the thought of this action sickens me to the core.

"I stand here today and ask you and plead with you to defeat this corrupt legislation and put these power-hungry people in their place.

"I also stand here and promise this Assembly that I will take every possible course of action to begin legal proceedings. This is not Government of, by, and for the people."

Rep. Rau: "Mr. Speaker and Members of the Assembly:

"I'm going to make a statement about Senate Bill 2444 and I request my remarks be printed in the Journal.

"Sunday morning while I was out in the barn a call came from a director of the Stutsman County Fair Association. He said, Duane, a person from a North Dakota Dairy Association called me and said to contact you because if Senate Bill 2444 does not pass the House of Representatives, the State Dairy Show will be moved out of Jamestown.

"The Jamestown Chamber of Commerce also received the same message. Quiet those guys down or lose the Dairy Show.

"I have the highest regard for the Stutsman County Fair Association, and the Jamestown Chamber of Commerce because when they learned the facts about Senate Bill 2444 both organizations said "go ahead and do what you have to do."

"Mr. Speaker, and Members of the Assembly if Senate Bill No. 2444 needs this kind of pressure to be passed then I claim there is something very wrong.

"Most of you have felt the arm twisting by the Agriculture Commissioner and the State Dairy Commissioner on this measure. I say they are promoting this legislation to increase the size of their department."

Rep. Strinden moved that the House stand recessed until 9:00 a.m., Thursday, March 20, 1975, which motion prevailed.

ROY GILBREATH, Chief Clerk

FIFTY-SECOND DAY AFTER RECESS
AND FIFTY-THIRD DAY

Bismarck, March 20, 1975

The House reconvened at 9:00 a.m., pursuant to recess taken with Speaker Reimers presiding.

APPOINTMENT OF A CONFERENCE COMMITTEE

Speaker Reimers appointed the following to a Conference Committee on Senate Bill No. 2022:

- Rep. Peterson
- Rep. Freborg
- Rep. Mertens

SIXTH ORDER OF BUSINESS

Rep. Hildebrand moved that the Report of the Minority of the Committee on Natural Resources on Senate Bill No. 2088, which report is for Indefinite Postponement, as shown on page 1358 of the House Journal, be substituted for the Report of the Majority, which report is for amendment, which report prevailed on a verification vote.

Rep. Bunker: "Mr. Speaker: "I request that these remarks be printed in the Journal.

"Passage of Senate Bill 2088, as introduced, would have provided enabling legislation for the creation of a West River Diversion Conservancy District. I believe we should recognize the meritorious purpose of this legislation and be mindful of its intent to provide the people of the area an opportunity to participate in the decision-making process. Unfortunately, the Bill has been amended to such an extent that its passage would no longer accomplish its original intent. For this reason, and because there is considerable misunderstanding over its intent among the people who live in the West River Area, I am recommending indefinite postponement."

Rep. Dick moved that the Committee Report for indefinite postponement on Senate Bill No. 2088, as printed on page 1358 of the House Journal be adopted.

ROLL CALL

The question being on the adoption of the Committee Report on Senate Bill No. 2088, the roll was called and there were 90 yeas, 8 nays, absent and not voting 4.

SPECIAL ORDER OF BUSINESS

Rep. Strinden moved that a committee of two be appointed to escort the Hon. Rep. Haugland to the rostrum and a committee of two be appointed to escort to Hon. Rep. Solberg to the rostrum, which motion prevailed.

The Speaker appointed Reps. Peterson and Kermott to escort Rep. Haugland to the rostrum, and Reps. Wilkie and Mushik to escort Rep. Solberg to the rostrum, and thereupon Reps. Haugland and Solberg were escorted to the podium.

Rep. Strinden requested permission for Rep. Backes and himself to come to the rostrum for the purpose of a presentation, which request was granted.

Rep. Strinden: "Mr. Speaker, Rep. Haugland, Rep. Solberg:

"It is a pleasure to rise for a purpose in which I know in advance that I represent a full 102 votes and can speak for all members with one voice. The honoring of the all-time Dean of the North Dakota Legislative Assembly, and the Dean of all women legislators in the country is a privilege we all share, but it is also one that is personal with each of us. We take pride not just in the fact that Rep. Brynhild Haugland has served her community and State in the Legislative Assembly longer than any legislator since statehood, but that her contributions in so many fields have made her a Dean in accomplishments for the betterment of the State and our citizens. No one will ever be able to measure the value of her efforts to assist those in our society who need special help in the social welfare field, but the members of our society who because of her live better and more fulfilling lives as useful and productive citizens numbers in the thousands. Her approach to government and services to our people has involved a soft heart, but not a soft head. Consequently, North Dakota ranks among the highest in productive services in the social welfare field, and among the lowest in the dollars expended in providing these services. Yet, this is only one of many fields of interest and accomplishment for Brynhild.

"We have no way of measuring the impact that Brynhild has had on the members of this Chamber over the years, but she has set high standards that have done much to make service in the House of Representatives one in which we all take great pride.

"About 10 years ago, when Brynhild returned to the Session with a delegation from her district made up mainly of freshmen legislators, those freshmen took pride in terming their delegation as 'Brynhild and her boys'. Today, whether man or woman and with the full consent of our lady legislators, we all take pride in having the entire House of Representatives termed as 'Brynhild and her boys'.

"This plaque is given with real respect, appreciation, and affection to Rep. Brynhild Haugland from "Her Boys" with the hope that it will in a small way signify the warmth and esteem in which she is held by each and every one of us."

Speaker Reimers presented a plaque to Rep. Haugland in recognition of her many years of devotion to the North Dakota Legislature.

Rep. Haugland: "Mr. Speaker, Rep. Strinden, Members of the Assembly:

"Thank you.

"I can truthfully tell you I am more surprised than I have ever been in

my life. I deeply appreciate the kind words spoken by Rep. Strinden, although you know and I know that I do not deserve them. It has been a great joy to work with you and to be a part of the North Dakota Legislative Assembly this time and in previous sessions, and I shall strive to merit some of the good things he has said. I value and respect your personal opinions on all of the bills we are discussing. You have been very kind to me, and you have been very good to me.

"I did not think I would live to see the day when this kind of recognition would be given to me. I have seen this type of recognition given in previous years to former legislators, but never did I expect to be so honored.

"I thank you all very much."

Rep. Backes: "Mr. Speaker, Rep. Haugland, Rep. Solberg, Ladies and Gentlemen:

"A floor leader actually has few perks that he can exercise in spite of generally held views to the contrary. But, in this instance, I am pleased to assume the perk of speaking for the House of Representatives in recognizing and honoring Representative Oscar Solberg, the Senior Member of the Minority Party and the second Senior Member of the Legislative Assembly.

"Oscar's legislative career is full of accomplishments too numerous to list, ranging from chairing an interim committee that is the only legislative committee to ever sell an entire state college, to his session after session contribution to state and local government through his persuasion as Senior Member or Chairman of the House Appropriations Committee. We could pick many words to attempt to describe Oscar's legislative service such as dedicated, unselfish, knowledgeable, untiring, principled, consistent, innovative, leader, and many others. Yet, while all are true, they somehow don't tell the whole story or fully describe the man. They don't describe his modesty, his stabilizing influence, his helpfulness to others, his consistent placing of the best interests of the State above self or party. They don't describe the respect and the warmth of affection in which he is held. They don't describe a friend.

"But, they do describe the highest standard of service to the citizens of the State and the type of legislator we all aspire to be. This plaque is only a symbol of our respect, but please accept it as a token of the esteem of the 101 other members of the House of Representatives and of all those who know you. Oscar, the State of North Dakota is better, and we are better because you are here."

The Speaker presented a plaque in recognition of his years of service to the state of North Dakota to Rep. Solberg.

Rep. Solberg: "Mr. Speaker, Floor Leaders, Rep. Haugland, and Members of the Assembly:

"This is a complete surprise to me, and I am overwhelmed.

"A couple of weeks ago we were considering the budget for the State Historical Society, and the man making the presentation brought with him two newspapers, yellowed with age and so fragile he did not want them passed around and be handled. He also brought in a picture of the Legislature in 1900, and I believe it was Rep. Unhjem who asked where I was on this picture. I think he was trying to tell me something.

"I can tell you what was happening in 1949 when I first entered this Assembly. We had the worst winter in the history of North Dakota. The roads were snowed in, the trains couldn't run, communications were broken down, and I sat here and worried for sixty days about what was happening back on the farm.

"So many things have happened and so many things have changed. The volume of the laws of the state when I entered the Legislature in 1941 was small. Now the volume has greatly increased, and in fact, they are

talking about two volumes. You know our work load has increased. You are working long, hard days. When I first entered the Legislature, we were snowed in in the winter. No cars drove up to the Capitol, and a bus brought the members up to the Capitol. There were no groups of people or bands of any kind, and the legislature moved in a quiet leisurely pace — we even broke for coffee every afternoon. This is where Rep. Haugland got the habit of breaking for coffee in the afternoon.

“These changes have come with the faster pace we are living with now.

“I wish to express my thanks to each and everyone of you. The time I have spent in the legislature has been my greatest experience.

“Thank you everyone.”

SECOND READING OF A SENATE BILL

Rep. Strinden moved that Senate Bill No. 2497 be placed at the head of the calendar, which motion prevailed.

SECOND READING OF A SENATE BILL

Senate Bill No. 2497. A Bill for an Act to provide for state legislative

apportionment, and to repeal sections 54-03-01, 54-03-01.1, 54-03-01.2, 54-03-01.3, and 54-03-01.4 of the North Dakota Century Code, relating to state legislative apportionment.

Which has been read.

Rep. Halmrast: "Mr. Speaker, Ladies and Gentlemen:

"I request that the following remarks be printed in the Journal.

"Mr. Speaker, Members of the Assembly, I believe that Senate Bill 2497 is a perfect example of why this Legislative Assembly is incapable of reapportioning itself. Given the political makeup of the select committee that drafted this plan I'm reminded of John Winthrop's famous statement, 'The foxes were made the administrators of justice to the poultry'.

"Generally, this plan is the same as the one struck down by the courts recently. It makes no attempt to deal with unacceptable population variances in rural districts. The only problem it deals with is Single Senate Districts.

"I will speak only to the plan advanced for District 32 — Bismarck. This is the so-called 'Citizen's Plan'. Inasmuch as Senator Lips, Representative Atkinson, and one highly-paid official of the Department of Higher Education are citizens, I suppose the designation was appropriate. I believe the most difficult problem the sponsors had with this plan was keeping a straight face when they introduced it. Elbridge Gerry, the father of Gerrymandering, would have been proud of the efforts of these citizens.

"Apparently, this plan was the only one of the five multi-Senate Districts to become a controversial political issue and was decided by strictly party line votes of 6 to 4. The Bismarck plan violates every principle ever put forth as criteria for good reapportionment. Commonality or community interest was thrown to the winds. Who could imagine any degree of commonality between the low-income housing units, low-rent apartments, and elderly housing in the southwest portion of the city and the \$100,000 mansions of Highland Acres and Homan Acres or Washington Heights thrown together in a district that meanders for 12½ miles?

"Natural barriers were not considered at all for criteria. The only real natural barriers in this city are the Burlington Northern Railroad tracks and Interstate Highway 94. Washington Street is cut in half by the railroad tracks and you've got to do some fancy maneuvering to get on Memorial Highway to Front Street before getting back on Washington Street, and even if Washington Street overpassed the railroad tracks it would not present any barrier of the type that we're concerned with in reapportioning.

"The Naaden-Mutch Plan was superior in every way but after a perfunctory hearing, was rejected out-of-hand. Allegedly, it was rejected even before its hearing at a dinner party by the majority members of the committee.

"In denying a charge of Gerrymandering, one member of the committee stated that if they had wished to Gerrymander, they wouldn't have put three Republican strongholds into the same district. You would have to have been born yesterday politically not to realize that Bismarck has had only one Democratic Representative in 36 years and I'm sure I don't have to give you two guesses as to whose district those three Republican strongholds were squeezed into.

"Talk about growth projections has been double-talk if you compare the projected growth of the city, the present enumeration districts, and the Naaden-Mutch Plan versus the Citizens Plan.

"I realize my opposition to this plan is like so much whistling in the

wind, but if it gets past this body and the Governor, it is my belief that the courts will again strike it down.

"To speak for this bill I think would require speaking with a 'forked tongue'. I now will relinquish the floor to anyone with a 'forked tongue'."

POINT OF PERSONAL PRIVILEGE

Rep. Winkjer: "Mr. Speaker:

"I rise on a point of personal privilege.

"In the two sessions that I have served in the North Dakota Legislature, I have never before heard any member of this Assembly challenge the honesty and integrity of another member of this Assembly. I have never in these two sessions ever heard a member of this body charge another honorable person within this group of speaking with a forked tongue."

Rep. Rylance: "Mr. Speaker:

"I rise on a point of personal privilege.

"Mr. Speaker, as you probably know, a couple of weeks ago I wrote you a note regarding a problem I had with how we could use votes on bills in this Assembly. It is my firm understanding that the votes of the other House should not determine how we should vote in this House. This is something we should think about, and I would ask you for a ruling from the chair about the use of a vote in the Senate for use on the floor of this House."

Rep. Halmrast: "Mr. Speaker:

"I rise on a point of personal privilege.

"I would like to set the record straight in regard to Rep. Winkjer's remarks.

“As you know, my statement was entered in the Journal; therefore, it was prepared long before I knew Rep. Atkinson was going to stand and speak for this bill. I made no reference to a particular person in this body. My statement was made in reference to the Tribune article which was read by Rep. Atkinson.”

Rep. Strinden moved that House Bill No. 1101 be placed at the head of the calendar, which motion prevailed.

SECOND READING OF A HOUSE BILL

House Bill No. 1101. A Bill for an Act to provide that all electors must be registered prior to being authorized to vote in any statewide special, primary, or general election; supervision of the registration process by county auditors; and the method of registration; and to amend and reenact sections 16-04-25, 16-04-26, 16-10-14, 16-11-10, 16-11-13, 16-11-16, 16-12-14, 16-13-02, 16-13-07, and 16-13-09 of the North Dakota Century Code, relating to maintenance and distribution of pollbooks and challenging the right of any person to vote; and providing a penalty.

POINT OF PERSONAL PRIVILEGE

Rep. Thorsgard: "Mr. Speaker, Members of the Assembly:

"I rise on a point of personal privilege and ask that my remarks be printed in the journal.

"Fellow representatives, rather than take up a great deal of valuable time by introducing a resolution, I would like to express my appreciation to an outstanding young man from my district in this means.

"Keith Bjerke, a young Northwood farmer, has been selected by the national organization of U.S. Jaycees as one of the four Outstanding Young farmers in America. He is well deserving of this honor, as he raises purebred hogs of exceptional quality, and he has been honored several times by the North Dakota Pork Producers for his outstanding contributions to the industry.

"He operated his farm in partnership with his father until his father's retirement in 1961, and has since purchased the farm from his father. He is a graduate of North Dakota State University.

"Mr. Bjerke is an outstanding representative of a group of young farmers in North Dakota which is helping revolutionize the agricultural industry, and the North Dakota legislature can be proud of him and his accomplishments.

"Incidentally, he recognizes the true value of women in our society when he refers to his wife as a 'full partner' in his farming operation and once again, he is an outstanding example of what is good in our state and our nation."

So the bill passed and the title was agreed to.

ministrative rules whose purpose would be, among other things, to study and review administrative rules and regulations to assure that executive branch agencies are following legislative intent.

I consider this legislation objectionable for three primary reasons:

1. It is contrary to the separation of powers doctrine inherent in the North Dakota Constitution. Section 25 of the Constitution states that "legislative power of this state shall be vested in a legislature" while section 75 states that the Governor "shall take care that the laws be faithfully executed." The relationship is clear: the legislature establishes policy and law, but the Governor supervises execution of the law. Here, however, Senate Bill 2175 would create a legislative oversight committee to supervise the details of executive branch operations.

2. Section 1 of the bill states that the committee shall "assure that administrative agencies are properly carrying out the intent of legislation enacted by the legislative assembly." Legislative intent should be readily discernable from statutes or from the expressions of the legislature at the time of passage (e.g., journals and committee minutes), rather than interpreted and reinterpreted by a legislative committee at a later date.

3. The bill contains no express legislative statement justifying the need for this kind of government expansion.

For the above reasons, I veto Senate Bill 2175.

Sincerely yours,
 ARTHUR A. LINK
 Governor
