#### MOTION

Senator Stroup moved that the President appoint a committee of three

to act with a like committee from the House as a Conference Committee on House Bill No. 1161, which motion prevailed.

The President appointed as a Conference Committee on House Bill No. 1161, Senators J. Schultz, Stroup, Barth.

#### PERSONAL PRIVILEGE

Senator Nething: Mr. President, I rise on a point of personal privilege.

Mr. President, Ladies and Gentlemen of the Senate:

Last evening's paper carried an article wherein the Republican Majority was alleged to be delinquent in their handling of the affairs of the Senate. What the Minority Leader has done in these charges and I guess the best way I can answer them is to say that they are ridiculous.

The Minority Leader has insulted every Committee Chairman in this body, each of whom have been extremely courteous to his party's members. He apparently does not believe in freedom of expression as not once have we enforced the limit on debate within our limitation rule even though certain Senators choose to speak at great length on certain issues. He also forgets we are handling a record number of bills and resolutions. I believe that he has also forgotten that the Minority attempted to amend SB 2031 with the concept that had never had a public hearing in the Senate and which took more than an hour of precious time on the 33rd Legislative Day. It appears his vision is very limited if he believes he can attack the Majority Committee Chairmen, the Majority Leaders and continue to maintain the work relationship he has enjoyed. Publicity obtained this way can only diminish his role as Minority Leader. Mr. President, Ladies and Gentlemen of the Senate, it must be a bitter disappointment to the Senators from the Minority party as well as the senators from the Majority party when the Minority Leader, who in the press champions open government, now chooses to express himself by press release rather than to confront on the Senate floor those that he chooses to attack.

#### PERSONAL PRIVILEGE

Senator Hoffner: Mr. President, I rise on a point of personal privilege.

Mr. President and Members of the Assembly:

I think it is only fair that I read this statement. I wasn't going to take the time of this assembly to express my views last Saturday and so I spent the weekend thinking about what a rough three days we had. First of all I'm going to read my statement and then I have a few comments. I intend to hound the Majority party to distribute the legislative work load, I have no qualms about charging the Republicans with poor management during the first 33 legislative days. The log jam we experienced at the cross-over deadline was unfortunate and absolutely unnecessary. The Senate acted on 155 bills in the last 3 days of the cross-over week. Legislative committees faced a February 19 deadline for reporting out the bills. March 13, the 47th legislative day will be the next deadline for all bills to move to the floor for final action. The North Dakota House of Representatives passed 344 bills that must now move through Senate committees and onto the floor. Senate committees will have fewer bills before them in this last half of the session, there is no reason for having another weary 11th hour cram session. I am firmly convinced that if the Majority party handles the major legislation in an orderly fashion, we can finish our business within the 60-day constitutional limit. However, if we experience the same foot-dragging and inability of the Majority to make committee decisions, we will surely have another last minute stack up of bills on the Senate floor. In the closing weeks of the session, conference committees will be formed to negotiate the compromises necessary for ironing out conflicts. I feel that many of the major decisions are still left to be made and will require numerous conference com-

mittees. Now it is possible that we could run out of senators in these closing weeks, it has happened, to serve on conference committees. It takes alot of time. Such time pressure is unfair to our members, unfair to the proposals being considered, and definitely unfair to the North Dakotan's who's lives are affected by these legislative decisions. We had about 496 bills in the Sénate that we disposed of, the House had 610 bills. The House adjourned Friday, it was forced to wait for their adjournment till Monday. Now when I left here Saturday, I was weary. As Minority Floor Leader, it is my responsibility to check all these bills and make sure that nothing slips through as a minority party that we vote on or vote against that hasn't been brought to our attention. We went into session at 12:30, now I maintain that during this first half of the legislative session that there were times when we had a very short day, that a lot of these bills could have been moved out, there were even times when the Majority party had caucuses, I think, on a couple of occasions. I didn't complain about that, although our members were sitting around waiting for the Majority party and their caucuses. Now I feel that this criticism and this statement that I have made is not chopping up the Majority leader or the chairmen, I am just giving constructive criticism and I do feel it is justified. The tax bill that we acted on that was referred to by the Majority leader that were amendments presented to came out after the bill had laid in committee over 21 days, a rule had been broken. We could go on and on and accuse, but what I am saying is that I hope that we get these bills out soon enough, get them on the Governor's desk and if he agrees with them, sign them, if he disagrees with them send them back with a message, we can work out our differences between the Legislative and Executive branches of government. We have a sixty day constitutional limit, I think it is important that we get the bills out before that deadline and move onto our business.

Senator Nething moved that after the reading of House Bills Nos. 1072, 1095, 1097, 1108, 1131, 1198, 1212, 1217, 1315, 1358, 1363, 1414, 1445, 1459, 1472, 1508, 1579, HCR's 3022 and 3041, that the Senate recess until 1:00 P.M., February 27, 1975, which motion prevailed.

### THIRTY-EIGHTH DAY

Bismarck, February 27, 1975

The Senate convened at 2:00 p.m., the President presiding.

Prayer by Robert Fisher, Pastor, Bismarck Wesleyan Church.

"Dear Father in heaven, we are Your creation, the object of your Divine affection, the apple of Your eye. While our thoughts try to understand Your boundless love, our hearts melt in devotion and adoration. We give ourselves to Thee! Through troubled times, difficult tasks and heavy demands on our time; help us to quiet our hearts until we can clearly see the beauty of Your attention toward us and our every frustration.

You know our needs. You know our efforts to solve those problems we are trying to be responsible to. You know how everyone of us is burdened with the task of communicating to others those values that have become so important to ourselves. You know how we are trying to listen to others, to our conscience, and to Thee, O God.

We ask of You those things which we need for the tasks of today. We ask for wisdom, for peace, and for the ability to understand one another.

We thank You. We love You.

Amen"

"God, our Father, look kindly upon us this day, as we gather here under the laws of Your Sovereignty and of our State, as we seek, liberty, justice, equity and charity for you people.

We have come here to consider the needs of the people of the State of North Dakota who have made us their mouthpiece in our representation. We have come here to consider and adopt legislation that will make it possible for these needs to be filled.

Throughout our deliberations we ask you, heavenly Father, to give us Your spirit of wisdom, knowledge, understanding and the vision that will enable us to legislate for the good of Your people in accordance with Your manifest eternal will.

Help us realize that the authority we exercise here is a sacred gift of trust, none other than a share in the authority which is Yours from the very beginning of time.

Over the years we all gather a collection of memories from experiences and from people. This is a treasure which we have that no one can take away from us and, if you think about it, these memories are really what give life meaning. Many of you remember the former senators that we are honoring today, especially those of you who have been in the Senate for many sessions.

We are happy to have with us today many of the relatives of those we are honoring. I would like to mention that John Williams, who is one of those being honored, was the father of Senator Shirley Lee. He goes back the farthest into our history having served in the 12th and 13th Legislative Assembly — 12th goes back to 1911.

I might also mention that Jack Coughlin, the most recent member, was a member of this body during the last session.

#### A PSALM OF LIFE

#### What The Young Man Said To The Psalmist

Tell me not, in mournful numbers,  
Life is but an empty dream! —  
For the soul is dead that slumbers,  
And things are not what they seem.

Life is real! Life is earnest!  
And the grave is not its goal;  
Dust thou art, to dust returnest,  
Was not spoken of the soul.

Not enjoyment, and not sorrow,  
Is our destined end or way;  
But to act, that each tomorrow  
Find us farther than today.

Art is long, and Time is fleeting,  
And our hearts, though stout and brave,  
Still, like muffled drums, are beating  
Funeral marches to the grave.

In the world's broad field of battle,  
In the bivouac of Life,  
Be not like dumb, driven cattle!  
Be a hero in the strife!

Trust no Future, howe'er pleasant!  
Let the dead Past bury its dead!  
Act, — act in the living Present!  
Heart within, and God o'erhead!

Lives of great men all remind us  
We can make our lives sublime,  
And, departing, leave behind us  
Footprints on the sands of time;

Footprints, that perhaps another,  
Sailing o'er life's solemn main,  
A forlorn and shipwrecked brother,  
Seeing, shall take heart again.

Let us, then, be up and doing,  
With a heart for any fate;  
Still achieving, still pursuing,  
Learn to labor and to wait.

— Henry Wadsworth Longfellow

It is a truism to say that it is not how long you live, how fast you live . . . "How" you lived. It would be well if time permitted us to recount the contributions made by all nine of the persons we honor today. I'm sure the list would be long. May their lives inspire us to bigger and better things.

we need You. We need Your strength, Your guidance, Your wisdom for problems far greater than any wisdom of man can solve. Lord Jesus, when we get sick of ourselves, ashamed of our littleness, our selfishness, and the petty things that irritate us, then let it be the beginning of spiritual health by making us willing to have you create in us clean hearts and renew right spirits within us. In our differences may we be kind. Where we are wrong, make us willing to change, and where we are right, make us humble, easy to live with. Where we differ in approaches to a problem, may we be open to consider another and a better way, guided not by whether it be popular, or expedient, or practical, but always whether it be right. O God, forgive the poverty and pettiness of our prayers. Listen not to our words but to the yearnings of our hearts. Hear beneath our petitions the crying of our need. We pray in Jesus' Name, Amen."

**RECOGNITION**

Senator Nothing moved that the President appoint a committee of two to escort the Honorable Arthur A. Link to the rostrum to present his message to the Senate, which motion prevailed.

The President appointed as such committee, Senators Jacobson and Berube.

Governor Link addressed the Senate and Senator Nothing moved that his remarks be printed in the Journal, which motion prevailed.

Governor Link:

I appreciate the opportunity to come before the Legislative Assembly to share with you my deep concerns regarding legislation of long lasting significance to the future economic, social and environmental well being of the people of North Dakota.

I am here not to confront the Legislature or to find fault or criticize what has or has not been done to date. In these Legislative Chambers, you, the duly elected representatives of the people, debate the issues of the day as you perform your duties of enacting legislation deemed necessary and desirable to run the future affairs of our state. Following your action, however, the Governor in a sense becomes your co-equal in that I am required to pass judgment on the results of your deliberations. Because of this grave responsibility, a feeling of increasing urgency has developed in my mind to the point of requesting this person to person meeting.

#### A Matter of Urgency

The urgency I am referring to is that of establishing an adequate severance tax on coal for future decades in North Dakota. This legislative session will soon be over, and, frankly, I am concerned that we may be selling North Dakota's coal resources and risking North Dakota's clean air, productive land, and water at cut rate prices.

In January I proposed a severance tax plan that called for a graduated approach to a 30 per cent severance tax in 1979. I believed then that North Dakotans deserve at least a 30 per cent severance tax during the period of expanded coal development.

You have disapproved that proposal in favor of a flat fee per ton tax. I emphasize once again that I believe it is our responsibility to enact a severance tax of at least 30 per cent of price per ton in anticipation of future accelerated coal mining in our state.

A flat fee per ton tax in the 30-40- or 50 cent per ton range is simply not enough. We must lay the foundation for the future by establishing a reasonable percentage severance tax in the legislation you pass now. Postponing the job won't make it easier — it could make it impossible.

I have asked to speak to you today to underscore the seriousness of this issue. We are facing expanded coal development, and with it, risks to our quality of life.

In the development of our coal, you are the business agents for the people. The resources of air — land — water — coal belong to the people of North Dakota. If we sell these products too cheaply, we risk economic and environmental depression in the decades ahead. The people are depending on this legislature. You are drawing the blueprint which will establish the selling price of our resources. Don't underprice that which belongs to the people.

I am going to re-emphasize some of my thoughts about a coal severance tax and I hope that you will weigh them very carefully as you make your decision in the days ahead.

#### 1. Risks for North Dakota.

Energy production is a unique industry with substantial risks for our state and its people.

While we have a responsibility to share our natural resources, I will not sit back and watch the people of North Dakota assume all of the risks without adequate compensation while others reap most of the benefits.

The scientists that have appeared before the Governor's Energy Council indicate that technology is not currently available to fully reclaim strip mined land in North Dakota. We are being asked to risk the

productivity of some of the best agricultural land in the country.

The reclamation risk is emphasized in a recent New York Times article which quotes Terry Dudley, reclamation specialist for North American Coal at Bismarck: "We have the technology to turn the land back to productivity if it is just grazing land or pasture. But if you're talking about cropland, agricultural soil — and that's maybe 50 per cent of the area we are going to strip — we just don't know yet if we can do it. The deeper you go after lignite — 80, 90, 100 feet — the more you bring up a lot of very bad stuff. And the rainfall here, it's not anything like what we're used to in the East. But, on the other hand, if you go to irrigation, with the saline seep problem we've got out here, you could be creating a monster."

Also, there is the possibility of substantial degradation to North Dakota's clean air. The conversion of coal, unfortunately, produces emissions of hundreds of tons of noxious gases daily. Additionally there are risks to our water tables and to our water supply.

2. Can we learn from our neighbors? What information can we rely upon in developing an energy taxation program?

Minnesota has a taconite range which is barren and lifeless and suffers from a troubled, local economy. Minnesota now realizes that their taxation policies on taconite were not adequate, and now, after the fact, they are considering changing from a flat rate per ton to a percentage tax which will quadruple the tax on taconite ore pellets. Governor Anderson has said and I quote "the future could bring a barren landscape of deserted cities and empty mines. We must insure that our citizens are protected from such disaster and that the people of our state derive adequate compensation as this non-renewable resource is depleted."

Montana's elected leaders are taking a strong stand on a coal severance tax. The state Senate in Montana has just passed a 30 per cent severance tax on coal. They are planning wisely for the future and North Dakota must do likewise. A severance tax significantly below that levied by Montana would invite out-of-state developers to come in and purchase North Dakota resources at cut-rate prices and that's not fair to the North Dakota citizens.

3. A severance tax makes good economic sense for the North Dakota citizen.

For years North Dakota has been producing and selling low priced agricultural products to the rest of this nation. Additionally, we have been sending oil, coal and electricity to locations outside of North Dakota. At the same time, we have imported many consumer goods and have always paid the taxes imposed by producing states which they add to the finished products to be sold in North Dakota. Yet, when we export our low priced, raw products to be processed out of state, it creates jobs and generates taxes for other states to provide services that our people are denied.

Why is our pay scale in the field of education and in other related services, near the bottom of the list? Why is it difficult for us to fund public kindergarten (one of three states in the nation without) or educational television or adequate state and institutional buildings or adequate agricultural experiment stations?

It's because for too long we've been sharing the agricultural and natural resources of our state with the rest of the nation for too cheap a price. Let's not repeat this error. In order to not repeat this error in our future coal development, we need an adequate severance tax and it should be a percentage of the price per ton of coal. Nothing less than that will give our citizens future economic protection. North Dakotans will be sharing a state product that can never be replaced. Once this coal is gone, we'll have to look elsewhere for a comparable resource. This is more than a tax, it represents a selling price of a physical material part of our state,

and as negotiators for the North Dakota citizens we had better make sure we get an adequate price for it. The coal industry will generate substantial economic activity and then cease altogether once the coal is mined. Because of this boom-bust situation, North Dakota must raise sufficient revenue through taxation to build an alternate industrial base. The energy industry has stated many times that lignite is only a short term energy source. Without adequate foresight we may bequeath our future generations with a declining energy industry, no available lignite reserves and no developing alternate industry.

Possible alternatives are fertilizer manufacturing and liquid petroleum production from lignite — both of which would compliment our tremendous agricultural industry. However, planning — which costs money — must begin now since both industries would require huge capitalization, lengthy research, and available lignite reserves.

4. Why must a severance tax be a percentage of the price of a ton of coal?

A percentage severance tax will keep up with inflation. We know by the double digit inflation we have faced in past years that the state's buying power is subject to the same inflation as all other purchasers. A tax rate once established is difficult to increase and I think we are kidding ourselves if we really believe that we can establish a tax rate during this session of the legislature and then increase it in any succeeding session. History tells us differently. A 30 to 33 per cent severance tax coupled with the repeal of the sales tax from electricity will not cost the North Dakota electrical users one additional penny. In fact, it will save them money. Let's not postpone the day of reckoning for an adequate severance tax. It should be a percentage severance tax in the neighborhood of 30 to 33 per cent so that industry can plan and the North Dakota citizen can be assured that you exacted a fair, but reasonable price for the risks they are going to assume. We have established a percentage tax on oil; a percentage sales tax, and a percentage income tax. If the percentage tax concept is proper for North Dakota citizens, it is certainly proper for the coal industry.

5. What will the consumer states get from a ton of North Dakota coal?

Plain logic should tell us that the coal producing state (where all the risks are incurred) should benefit at least as much from the taxation of coal as the consumer state. One ton of North Dakota coal will produce 7.5 MCF of synthetic natural gas which will sell in Michigan for \$37.50 and raise \$1.50 sales tax for the State of Michigan (at a 4 per cent sales tax rate).

The gas from one gasification plant sold in Michigan will yield over \$18 million in sales tax to help run their state government each year. The ten million tons of North Dakota lignite used to produce that gas at a 30 per cent tax would yield our North Dakota treasury only \$12 million if coal were selling at \$4 per ton. And a flat 50 cent per ton rate would yield North Dakota a low \$5 million per year.

It is also interesting to note the \$12 million represents only 2.64 per cent of the retail cost of synthetic gas. This modest increase to consumers could be more than offset by a sales tax repeal by the consumer state — as is being contemplated in North Dakota.

If Michigan is going to reap \$1.50 in retail taxes from the product of one ton of North Dakota coal, why should North Dakota assume all of the environmental risks and socio-economic impact and receive only a 30-40-50 cent a ton coal severance tax? It just doesn't make sense. Similar results apply to out of state tax earnings on North Dakota produced electric energy. Must we settle for less than one-third of what consuming states will earn on our coal?

6. Will the type of severance tax I discussed cost the North Dakota consumer more money?

**FORTY-SECOND DAY**

Bismarck, March 5, 1975

The Senate convened at 2:00 P.M., the President presiding.

Prayer by Rev. Donald DeKok, Pastor, Bismarck Reformed Church.

"Our most gracious Father in heaven, Your Bible tells us that our chief end in life is to glorify You. Your Word tells us that You are the one who chooses the officials who will rule in the land. And so before the votes were ever taken, You knew exactly who would be sitting in this chamber. And so the responsibility of office does not end with the people represented or the bills that must be decided upon, but the responsibility of office ultimately is to the living, just, and true God.

Therefore it is our prayer to the God who sees all our actions, who knows all our thoughts, that the actions of these men and women here assembled with be actions of justice and righteousness in the sight of the living God. Bearing in mind that it is for the personal actions of injustice and unrighteousness that we will be held personally accountable to the living and just God.

Dear Father, forgive us this day of the sins of the past, and prepare us for the future, that we may today glorify the name of Jesus Christ Your son.

We offer this prayer not on our own merits, but on the merits of Jesus Christ who died that we might live. AMEN."

EXPLANATION OF VOTE

Senator Ringsak:

The reason I voted "no" was that we had a real good hearing on this bill, as our chairman said, and we never did get the purpose of this bill. We asked the Attorney General's Office, who drew this bill, why we had this bill before us. I was never satisfied with the answer because it never got answered.

I asked him what he meant by non-Indian lands he couldn't explain it. Also asked what he meant by legislative jurisdiction and that wasn't answered by the Attorney General's Office. And, therefore, I voted "no."

**EXPLANATION OF VOTE**

Senator Lashkowitz: Mr. President, I would like to explain my vote. My reasons ladies and gentlemen for voting nay on the indefinite postponement is based on Section 2 of the bill that was before us. It is my feeling that in a criminal action where a person has been wrongfully accused and ultimately acquitted then that person should be indemnified and made whole and I thought that probably 1207 would accomplish that.

EXPLANATION OF VOTES

Senator Kautzmann: I voted no on House Bill No. 1295 fully realizing that the courts of our nation have indeed ruled that abortion under certain circumstances is permissible. I do not subscribe to that decision because I subscribe to the theory that abortion puts to an end, with absolute irreversible finality, both the existence and the destiny of a developing human being.

Senator Freed: I wish to state, Mr. President, that I know and am aware of the drive to overturn to legislation the Supreme Court decision on abortion, and if that is done, I would be the first in line to re-do our abortion law.

Empower these persons, to lead us to sound government and just laws. Give to our nation a clean, honest, and charitable press. And empower all of us, that our relationship with one another may be ruled by simplicity and justice.

**MOTION**

Senator Lashkowitz moved that the Senate reconsider the action by which House Bill 1430 passed and explained his reasons as follows:

My primary reasons in asking for reconsideration include the following: First, I honestly and humbly admit that I made a mistake when the matter was before the Senate originally, second, since that time further and more complete research has indicated that House Bill 1430 could have a devastating impact on the personal freedoms and rights of thousands and thousands of North Dakota citizens, unincorporated associations of an organizational or professional nature being listed with the Secretary of State, and third, careful research has uncovered a 1947 Supreme Court case squarely on point indicating that this proposed legislation could very well be unconstitutional, a violation of the rights guaranteed citizens under the amendment of the United States Constitution relating to the freedoms of speech, press and association.

I respectfully ask this distinguished body for the right of reconsideration to enable us to examine the findings of this research and to perhaps correct a regrettable mistake.

Senator Holland requested a roll call vote on the motion to reconsider House Bill 1430.

Which request was granted.

**ROLL CALL**

The roll was called and there were 23, ayes; 28, nays; absent and not voting 0.

may wish to raise funds or engage in political activities totally apart from the usage of membership dues. Let me stress that: what happens to the rights of an association that uses funds or participates in political activities apart from such usage of membership dues? Are these associations to be stripped entirely of their political rights?

The further question arises under the court's decision that what happens when an association or organization expends its funds with the concurrence or unanimous consent of its membership to take a position on a public issue of interest or concern to the membership? Is such an organization and its membership to be stripped entirely of their political rights?

the associations and organizations to publish newspapers or monthly trade journals or magazines and to sell these trade journals or magazines by subscription voluntarily given? The court carefully points out the difference between the broad total sweeping away of political rights exercised through membership dues as contrasted with use of separately gathered funds voluntarily given for political or legislative purposes. The court followed the case *Pennekamp vs. Florida* 328 US 331, 346 which states "Free discussion of the problems of society is a cardinal principle of Americanism — a principle which all are zealous to preserve".

Also quoted favorable is the case of *Bridges vs. California*, 314 US 252, 263 "For the First Amendment does not speak equivocally. It prohibits any law abridging the freedom of speech or of the press. It must be taken as a command of the broadest scope that explicit language, read in the context of a liberty-loving society, will allow."

The court further reasons that the basis for legislation is undue influence not influence per se.

Justice Rutledge continues at page 143 "...any asserted beneficial tendency of restrictions upon expenditures for publicizing political views whether of a group or of an individual, is certainly counter-balanced to some extent by the loss its democratic processes resulting from the restrictions upon free and full public discussion. The claimed evil is not one unmixed with good. And its suppression destroys the good with the bad unless precise measures are taken to prevent this.

The express of bloc sentiment is and always has been an integral part of our democratic electoral and legislative processes. They could hardly go on without it. Moreover, to an extent not necessary now to attempt delimiting, that right is secured by the guaranty of freedom of assembly, a liberty essentially coordinate with the freedoms of speech, the press and conscience. . . . It is not by accident, it is by explicit design . . . that these freedoms are coupled together in the First Amendment's assurance. They involve the right to hear as well as to speak, and any restriction upon either attenuates both."

Rutledge points out that an effect in restricting expenditures for the publicizing of political views, not inherently present as that it "necessarily deprives the electorate, the persons entitled to hear, as well as the author of the utterance, whether an individual or a group, of the advantage of free and full discussion and of the right of free assembly for that purpose."

Rutledge also examines the somewhat vague term "undue influence" in the political sense which need not be correlated with wrong doing or corruption, but may simply imply "no more than convincing weight of argument fully presented, which is the very thing the Amendment (First Amendment) and the electoral processes it protects were intended to bring out. Rutledge further states that "one may question how far legislators may go in accurately assessing undue or disproportionate weight as distinguished from making substantially accurate findings and conclusions concerning corruption." Rutledge further speaks at page 153 of the "vagueness and uncertainty so vast and all-pervasive seeking to

restrict or delimit First Amendment freedoms one wholly at war with the long-established constitutional principles surrounding this delimitation."

In the name of traditional American freedom of expressions of speech, press, associations and conscience, I respectfully ask that we defeat this bill as a threat to the basic freedoms of thousands and thousands of North Dakota Citizens.

May I assure the members of the Senate that I do feel as I stated before the vote that 16-20-08 and 16-20-09 are repugnant to the first amendments and I will carry out my word and prepare a repealer to these two sections of the law that are restrictive of the rights of citizens of this state and I will present this to the Delayed Bills Committee.

#### PERSONAL PRIVILEGE

Senator Nothing:

Mr. President, Ladies and Gentlemen of the Senate:

It seems to me that we have very short memories of what has happened in the past, particularly, in our nation's capital and in the surrounding areas. Much of the problem that was brought about came from the unregulated control of political contributions and because of that legislation on the federal level has been passed contrary to what Justice Rutledge might have written in 1947. We are living now in 1975 and the circumstances are different. I think that we do not have to worry about these associations because they will learn to live just as the corporations and the cooperative corporations have learned to live with 16-20-08. I think they do have the opportunity to influence legislation so long as they comply with the lobby requirements of chapter 54-05. I don't think that we are placing a hardship on anyone. It becomes a sad day in our country when the slogan is "Don't make political contributions, drink milk instead."

Senator Pyle moved that the absent Senators be excused, which motion prevailed.

Senator Nothing moved that the Senate adjourn, which motion prevailed.

Bismarck, March 10, 1975

The Senate convened at 2:00 P.M., the President presiding.

The prayer was presented by President Sanstead on behalf of Reverend Dave Steinfeld, Bismarck Baptist Church.

"Our Father in Heaven, The question that comes to our minds, Lord, is "Why are we praying now? What is really on each of our minds and in our hearts? Is this a time in which we truly are seeking your guidance, or fulfilling a state law requirement? Will we forget you after "Amen" in order to get on with "our" business? . . . or are we truly pausing now in order to begin each session in the right perspective: looking first to you, our Lord and God, in all that we think, say, and do. May all our business, no matter whom we are representing, be your business and pleasing in Your sight!

We ask in the privilege of Your Son's Name. The Name of Jesus Christ, our Lord. Amen."

Roll Call: All Senators present except L. Christensen, Homuth and Strand.

A quorum was declared by the President.

#### FORTY-SIXTH DAY

Bismarck, March 11, 1975

The Senate convened at 2:00 P.M., the President presiding.

Prayer by Rev. J. Adin Mann, Pastor, Episcopal Church of the Advent, Devils Lake, North Dakota.

"Dearly Beloved:

Let us pause for just a moment in this busy life of ours for a few quiet moments of God thanks.

This is a day that the Lord has made. Let us rejoice and be glad in it — Glad that another day has been added to our lives.

O God, we would always remember that the earth is the Lord's and the fullness thereof, the world and those that dwelleth therein for He has founded it upon the seas and established it upon the fields.

Oh Lord, we would ask that You look down with favor upon these Thy servants of the North Dakota Senate. We would ask that day by day You give them the strength, wisdom, and courage to make the right decisions regarding the needs and desires of the people of this favored State of North Dakota.

Bless the homes in which these Thy people dwell Almighty God Our Heavenly Father, Who settest the solitary in families, we commend to Thy continual care the homes in which Thy servants dwell. Put far from them, we beseech Thee every root of bitterness, the desire of vain, glory and the pride of life. Fill them with faith, virtue, knowledge, temperance, patience, and godliness.

We would ask Thy blessings upon this much loved and beautiful State of North Dakota. We thank Thee for all those early pioneers who came from across the seas, from Eastern homes to establish their homes here, and for all the faithful who have served as governing bodies through the years.

We do thank Thee for our mineral wealth, for our fertile fields, the plenty of this land, in the great resource of our children, we would ask You for the wisdom to preserve and keep our blessings.

We do thank You, Lord for this beautiful United States of America. We would ask that You give to our national leaders the wisdom and courage to manage all well.

Oh God — we will try this day to live a simple, sincere, and serene life, repelling every thought of discontent, anxiety, discouragement, and self-seeking, cultivating cheerfulness, charity, and the habit of holy silence, exercising economy in expenditure, generosity in giving, trust, and a child-like faith in You, our God — and as I cannot in my own strength do this, now even with hope of success attempt it, I look to Thee, O Lord our Father, in Jesus Christ my Saviour, and ask for the daily consolation of Thy grace. Amen".

LEO LEIDHOLM, Secretary

FORTY-SIXTH DAY AFTER RECESS  
AND FORTY-SEVENTH DAY

Bismarck, March 12, 1975

The Senate convened at 1:00 P.M., pursuant to recess taken, the President presiding.

PERSONAL PRIVILEGE

Senator Nething:

Mr. President, ladies and gentlemen of the Senate:

I want you to know that the motion that I am making is not that I am in accord with the House amendment, but rather that in an effort to expedite their business, it is important that we pass it. Senate Bill 2026 had several amendments offered which were accepted by the House. As a matter of fact, they turned out to be some four pages. After the amendments were adopted, they referred the bill to their Appropriations Committee. And it is my understanding that the Appropriations Committee is desirous of offering some further amendments. Now the problem is that in its current form without being re-engrossed is that they have no reference points to utilize in making their amendments. And so, by us taking action at this time, and just for the sake of procedure and for clarity for the House Appropriations Committee to work, we can then set it in the form so that they will have proper points with which to refer their amendments to. So I would ask your support in passing this motion.

MOTION

Senator Nething moved that the rules be suspended and that Senate Bill 2026 as amended by the House of Representatives on pages 1157 to 1160 of the House Journal be deemed properly re-engrossed, which motion prevailed.

MESSAGE TO THE HOUSE

Mr. Speaker: I have the honor to inform you that the Senate has adopted the following motion:

Our Divine and Gracious Heavenly Father, we thank you for the privilege of our way of government and that which you have given to us these many, many years and we would thank you, Father, for the great liberty that we have in Him who has made it possible, the Lord Jesus Christ, and faith in his blood there on the cross of Calvary. As we approach the Easter season we pray that we as citizens of this great state will recognize this great event in our hearts and in our lives. We pray for these men today that they would be able to seek your divine guidance and certainly, Father, in these days in our state and in our country, those that stand in authority as these men do that they certainly need to seek your divine guidance in their decisions they make, may they represent well the great citizens of this state of North Dakota. Explanation of Vote

Senator Barth:

Mr. President: I'm rather baffled as to what really the thinking of this body is and I would like to explain my vote. I voted for this bill hoping to keep it alive. I do realize there are ramifications in the bill and I believe in the concept but I can't for the life of me imagine that this body, just a few weeks ago passed out a bill which would have created a Department of Natural Resources — it was called an umbrella thing as this is. We passed this bill to the House, the House killed it. The same person in the House worked so hard to kill the Department of Natural Resources introduces a bill that is just the same or basically is the reorganization of government in the Department of Human Services, brings it back and the Senate kills it. I can't imagine what the thinking is. It is inconsistent and I don't know what's going on. I do think that we need to re-evaluate our thinking and I think we ought to straighten it out because something is wrong.

Response

Senator Nething:

Mr. President: If I may respond to the question, I think we made a mistake on the first bill.

PERSONAL PRIVILEGE

Senator Homuth: Mr. President, I rise on a point of personal privilege.

Mr. President, ladies and gentlemen of the Senate, I'm not up here to do a sour grapes thing, but I think I have good news for those of you who yesterday got up to say that you supported the concept of House Bill 1527 but had some problems with the funding. A little judicious poking around in the Congressional Record and the Federal Register and a call to the FHA office in Minneapolis has brought forth good news, that there are two pieces of legislation currently introduced in the Congress. One in the House and one in the Senate. I don't presently have the numbers but I'll be happy to supply you with them which deal with FHA funding of solar energy projects. I'm sure that those of you who very carefully protected the Bank of North Dakota from this financial problem yesterday will be happy to hear that and will want to take this opportunity to write to your congressman and senators supporting those pieces of legislation. Unfortunately, it's another example of the Federal government taking that kind of power away from the states, but I guess we all know how that happens.

MOTION

Senator Melland moved that the committee report for Indefinite Postponement on House Bill No. 1468 be laid over one legislative day, which motion prevailed.

Senator Lips moved that the Committee Report on House Bill No. 1567, as printed on page 1038 of the Senate Journal be adopted.

**EXPLANATION OF VOTE**

Senator Melland:

I just want the Senate to understand that my "no" vote indicates no lack of sympathy for this industry, but it does indicate an opposition to this general type of legislation unless there is no other way to give protection to our North Dakota people. I suggest to you that the provisions of the implement bill in North Dakota are reaching now across the nation and in many cases in Minnesota for example, they passed a law where in the case of some manufacturers, they get less when the manufacturer follows the state law than they would under the contract and manufacturers are taking the attitude that they will conform to state law and the passage of this sort of thing is not always in the interest of the people that it intends to protect.

We are often tired by our own choosing. We are sometimes weary, but not always from well-doing. We are deeply concerned about the things happening within our society. Here we are today in Bismarck by our own choice to work out with fear and trembling the gigantic tasks that have found their way into our portfolios. We have much to read and think about and so little time it seems to do either. We must spend our time, not as we choose, but as duty demands. All this is quite cumbersome — but we are servants, whether we like the idea or not. Help us to know where our strength really comes from. Help us always to understand the not-so-easy-to-understand issues with which we must deal. Help us to know how to untangle the real issues there are with exactness and with finesse. May we always be mindful of the trust and confidence placed in our leadership. May our concern match our ability to think great thoughts and make honorable and just decisions. May we never trifle with a vote.

God, be with us, today for all of us stand in need of divine help. May we not turn from our best — to our second best. May we never falter in the pathway of duty. May we always determine to do the right as we have been given knowledge to know the right, God being our helper. In the name of Christ the Lord, we pray. Amen."

Roll Call: All Senators present.

A quorum was declared by the President.

PERSONAL PRIVILEGE—HOUSE BILL No. 1147

Senator Melland:

Mr. President, members of the Senate, I have a conflict of interest in this bill and I do request under Rule 24 to be excused from voting upon it. I may have a couple of conflicts in this bill. First of all, loosely worded and poorly drafted as it may have been, I was the one who had it drafted. It was introduced in the House of Representatives by another person in the same industry who has an interest in the bill. I was happy to have him do that. I have no objection to the amendments as I think they strengthen the bill. I operate an appliance business and in many instances we make installations contrary to existing law. That is my conflict in the bill. However I would like to state to you that I have taken the time of this body on many instances indicating conflicts of one kind or another. I point out to you, and I think we took an outstanding position the other day, the distinguished Senator from District 36 amended and then passed a pre-election personal interest disclosure bill. I believe that bill will result in future legislatures not having to be concerned about Rule 24. I think conflict is a healthy condition. Those people with conflicts indicate to you they have broad interests. Their very conflicts indicate to you they have knowledge and experience that may be pertinent to the discussion and judgment of this body. I'm not going to rise under Rule 24 any more this session. I'm going to violate Rule 24 for the balance of this session. I will be voting on several bills of significance to the utility industry. I'm a director of the electrical utility that was mentioned by name in the passage of HB 1578 only a few minutes ago. I'd like you to know I'll be voting contrary to my personal interest — contrary to the interest of the utility company. Utilities don't want the provisions of all the measures we will be voting upon. The costs of coal taxes and production taxes will raise the price of the product of utilities to consumers. They will pass the costs along — they have to and it's the utility who will bear the responsibility and absorb the public abuse of those whose costs for utility services increase. I'll not be rising any further this session under Rule 24. I wanted you all to know that I think the provision of the disclosure act are very important but I hope there will always be members in this Senate who have conflicts of interest-disclosed conflicts. Their involvement makes them effective.

The Senate convened at 2:00 P.M., the President presiding.

Prayer by Joe Agee, Jr., Pastor, Washington Heights Community Church, Bismarck.

"Our blessed Heavenly Father, we bow before you this afternoon in humble adoration. We confess that we are a people of great need, our sin is ever before us, but we know as we confess them you will forgive, for you are a forgiving God. We thank you for your gracious forgiveness.

Jesus, I bring before you this body of government, asking you to give them the courage and strength to serve the people well. May their greatest service be turned toward you and to your righteous cause.

You have ordained government for the purpose of helping people, your creation, to walk more perfectly through this world. I pray that this body gathered here will have the knowledge and the wisdom to use that knowledge for the purpose of a better ordered state of North Dakota. Father, it is so easy for us to lose sight of the right, the good, and the better, but as we allow You to have Your rightful place in our individual and community lives, our vision will be made clear by Your mighty Holy Spirit. Your Helper, the Holy Spirit has been sent into this world and lives in men to teach how to live and love in the peace of God.

May Your blessing rest here today, I ask in the name of the ever living Saviour, Jesus Christ.

AMEN"

So the bill passed and the title was agreed to.

1. From the establishment of the Bank in 1919, the activities and operations of the Bank have expanded to a \$389 million operation. The cashier's department has expanded to handle over 9,000 individual accounts, savings accounts, and certificates of deposit with total individual deposits of over \$20,284,000. The loan department presently has over \$32 million in loans made directly to farmers or farm-related industries out of a total amount of \$53,828,000 in the loan portfolio. In addition, the Bank has over \$38,200,000 in housing loans and over \$27 million in student loans.

2. The present management structure of the Bank of North Dakota is not organized so as to present a strong chain of command from senior management down to the employees. There appears to be no senior management officers between the various department heads and the president of the Bank.

3. The present structure of the management of the Bank gives department heads substantial authority over their individual departments. The securities department has complete control over its transactions. The loan department can loan up to \$50,000 without prior approval from the investment committee, while the investment committee can approve transactions of up to \$250,000 without prior approval of the Industrial Commission. Loans over \$250,000 presently receive prior approval from the Industrial Commission.

4. The responsibilities of the president of the Bank of North Dakota have expanded in recent years to the point that managing the operations of the Bank is a full-time job and non-Bank responsibilities of the president should be reduced.

5. There exists no procedure within the Bank to ensure that the Bank receives the full amount of profit from a securities transaction. However, after the disclosure of questionable securities transactions at the Bank, the previous procedure was changed so that the securities department and the cashier's department are both involved in a securities transaction.

6. The importance given to profit motivation and Bank operations may, in some instances, result in limiting the services of the Bank to the citizens of the State.

7. The number of people in the cashier's department relate directly to the expanded activities the Bank has undertaken in the private account business. This business of the Bank is, to some extent, in direct competition with the private banking institutions in the Bismarck-Mandan area.

8. The expanding operations of the Bank of North Dakota in its loan department, student loan department, and computer service require additional operating space.

As the result of the findings of the Committee, the Committee makes the following recommendations concerning the operations of the Bank of North Dakota:

1. The Committee recommends that Senate Bill No. 2453 be amended to provide that each member of the Industrial Commission should be able to appoint three members to an operations board of the Bank of North Dakota. This nine-member board should represent the three groups dominant in their relationships with the Bank — agriculture; industry, business and small manufacturing; and banking institutions. The board should reflect more than a review board in that it should take an active part in establishing policies and recommending procedures to be followed by Bank personnel in their transactions. The board should be utilized as a board of directors of the Bank of North Dakota, subject to final authority of the Industrial Commission.

2. The Committee recommends that the Industrial Commission employ

a qualified auditor whose responsibilities would be to the Industrial Commission. The auditor would act as the executive director of the operations board and would review the operations of the industries under control of the Industrial Commission.

3. The Committee recommends that the president of the Bank of North Dakota promulgate and put into effect a manual of standard operating procedures for Bank of North Dakota personnel. This manual should list job descriptions and qualifications, should describe the procedures to be followed in handling loans, and should establish the responsibility of the various personnel to management.

4. The Committee recommends that the Industrial Commission and the operations board review the loan policies of the Bank, including loan approval authority, and establish procedures to be followed by Bank personnel in making loans.

5. The Committee recommends that the Industrial Commission and the operations board review the standards and qualifications of investment firms with which the Bank does business.

6. The Committee recommends that the Industrial Commission restructure the senior management at the Bank of North Dakota. Senior management of a bank the size of the Bank of North Dakota should include qualified senior vice presidents and other staff personnel, including a qualified investment specialist and a representative whose primary responsibilities would be to contact the private banking institutions in the State.

7. The Committee recommends that the Industrial Commission and the operations board establish a policy that the Bank be expanded as a service institution for political subdivisions and financial institutions in the State.

8. The Committee recommends that the Industrial Commission and the operations board establish a policy that primary emphasis of the Bank of North Dakota should be its relationship with other financial institutions in the State and with political subdivisions, and that retail operations of the Bank with private depositors should be de-emphasized towards the goal of elimination of private accounts.

9. The Committee recommends that the Industrial Commission and the operations board establish a policy for the Bank that interest rates on overlines and on participation loans should not exceed prevailing rates charged by private financial institutions.

10. The Committee recommends that the space of the Bank building be totally utilized by the Bank in its operations.

11. The Committee recommends that the Legislative Council conduct an interim study of the Bank of North Dakota to determine the extent the recommendations of this Select Senate Committee are followed and to determine if anything further is needed for improvement in Bank operations.

Theron Strinden  
State Senator  
Chairman, Select Senate Committee  
on the Bank of North Dakota

Senator Strinden moved that the report be adopted, which motion prevailed.

Senator J. Schultz moved that the remarks of Senator Strinden and the report of the Select Committee be printed in the Journal, which motion prevailed.

#### PERSONAL PRIVILEGE

Senator Nething: Mr. President, I rise on a point of personal privilege. I think all of us owe a debt of gratitude to the senators who were so willing

to serve on this select committee, for the work that they did. I think, that as near as I could gather, that during the course of the study that was made, that it was an absolute bi-partisan effort. There was no attempt at all to embarrass any individuals and I think that it was the type of a study that the Senate and the citizens of this state can be very proud. I think also, that the recommendations that they have made to us are particularly significant and I sincerely hope that we will be able to set up the vehicle to see that these recommendations are followed through. The Bank of North Dakota is the type of an industry that is unique, not only in the business world but to us who are legislators because we have nothing to which we can relate in the study of its operations except that which we learn by ourselves as we have a committee we have had function. It's my sincere hope that when these proposals are put into bill form; and I do believe that they will be; one bill and one resolution that comes before this body; will be received with unanimous support and I again certainly want to commend not only the senators, chairman and the vice-chairman, but all the members who gave all those hours, and believe me there were times when we left this capitol, that these people stayed here afterwards because they felt that the work that they were doing was that important and it truly is. Again, thank you to these committee members for their fine efforts.

MOTION

Senator Strinden moved that the Committee of the Bank of North Dakota be discharged, which motion prevailed.

Senator Melland moved that House Bill 1189 be moved to the head of the calendar, which motion prevailed.

SECOND READING OF HOUSE BILLS

COMMUNICATION  
STATE OF NORTH DAKOTA  
EXECUTIVE OFFICE  
BISMARCK

March 18, 1975

The Honorable Wayne G. Sanstead  
President of the Senate  
Senate Chambers  
Bismarck, North Dakota 58505  
Dear Mr. President:

Senate Bill 2175 would create a Legislative Council committee on administrative rules whose purpose would be, among other things, to study and review administrative rules and regulations to assure that executive branch agencies are following legislative intent.

I consider this legislation objectionable for three primary reasons:

1. It is contrary to the separation of powers doctrine inherent in the North Dakota Constitution. Section 25 of the Constitution states that "legislative power of this state shall be vested in a legislature" while section 75 states that the Governor "shall take care that the laws be faithfully executed." The relationship is clear: the legislature establishes policy and law, but the Governor supervises execution of the law. Here, however, Senate Bill 2175 would create a legislative oversight committee to supervise the details of executive branch operations.

2. Section 1 of the bill states that the committee shall "assure that administrative agencies are properly carrying out the intent of legislation enacted by the legislative assembly." Legislative intent should be readily discernable from statutes or from the expressions of the legislature at the time of passage (e.g., journals and committee minutes), rather than interpreted and reinterpreted by a legislative committee at a later date.

3. The bill contains no express legislative statement justifying the need for this kind of government expansion.

For the above reasons, I veto Senate Bill 2175.

Sincerely yours,  
ARTHUR A. LINK  
Governor

#### MOTION

Senator Nething moved that Senate Bill 2175 be placed at the foot of the calendar and that a vote be taken to over-ride the veto of the Governor, which motion prevailed.

#### ROLL CALL

The question being on the final passage of the bill, as amended, the roll was called and there were ayes, 24; nays, 25; absent and not voting, 2.

one of the most serious problems facing the Legislative Assembly, i.e. that is the problem of excessive, highly pressurized lobbying by constitutional officers, state department heads, agency heads, and their representatives.

If I do not succeed in introducing the bill at this late hour to the Delayed Bills Committee, I will either as a citizen or through a member of the Legislative Assembly take some action.

We have heard a great deal about alleged, excessive abuse of the various private lobbyists.

Yet, perhaps the largest most organized most accessible lobbyist group is that of government itself.

During this session and immediately prior thereto, some of us have witnessed an almost brazen attempt of some constitutional offices to overwhelm this Legislative Assembly in an effort to sell their pet projects, even at the expense of the taxpaying public.

My proposed delayed bill will be designed to restrict this over-reaching, highly pressurized lobbying of the Legislative Assembly by some constitutional officers, department heads, division heads, and their representatives.

My proposed legislation will make it unlawful for any of the aforementioned governmental officials or representatives to make untruthful representation to any legislators and further it shall provide that it's unlawful to solicit support to secure the enactment or defeat of legislation on behalf of any economic interest at the expense of the taxpaying public.

I shall further propose that the said state officials shall not engage in legislative activities during the business hours during which their office is open to serve the public nor shall they appear before any legislative committee except by invitation. Further, I shall propose that any state official, in his or her contacts with legislators, shall give equal time to those favoring or opposing any proposed legislation.

Government in North Dakota is growing. It is perhaps one of our largest businesses in that it sustains itself by the expenditure of tax dollars. Therefore, the purpose of my proposed legislation is that state constitutional officers, department heads, division heads, or their representatives shall not in effect be seeking the promotion or the defeat of legislation by using tax dollars by utilizing their office forces and the time during which they are required by law to be serving the public.

Big government is here and we've all heard about it. We as a Legislative Assembly must take positive steps to see that big government does not overwhelm or consume the resources of a taxpaying public as a result of over-zealous, highly pressurized governmental lobbying, particularly during the hours that the said governmental officials and officers are expected to be administering their respective offices.

Thank you ladies and gentlemen.

**EXPLANATION OF VOTES**

Senator Schuster: Mr. President, I rise on a point of personal privilege. I wanted to explain my vote on that and I don't think that I voted against the executive branches. Rather, my feeling that we don't have three branches of government. I somewhat feel that we have four branches of government and the administrative agencies are the fourth branch of government and it is somewhat my feeling that this body does have the authority and should inquire into the rules and regulations they promulgate. I would only point out that I was a co-sponsor earlier on a bill to investigate the rules and regulations promulgated by one of the particular agencies and I think I'm being consistent.

Senator Holand: Mr. President, I rise on a point of personal privilege. Mr. President, members of the Senate, I would like to explain my vote

Representative Strinden: Mr. President, I move that you appoint a committee of two to escort the Honorable Arthur A. Link, Governor of the State of North Dakota to the rostrum, which motion prevailed. The President appointed as such committee, Senator Hoffner and Representative Backes.

Representative Strinden: Mr. President, I move that you appoint a committee of two to escort the Honorable Elton Ringsak and Mrs. Ringsak to the rostrum, which motion prevailed. The President appointed as such committee, Senator Nothing and Representative Strinden.

President Stanstead: Ladies and Gentlemen, it is my pleasure to introduce to you today the 27th governor of the State of North Dakota, the Honorable Arthur A. Link.

Governor Link:

Thank you Mr. President, Speaker Reimers, Senator Ringsak, Mrs. Ringsak, members of your family, who we hope are fortunate enough to be here with us this morning, members of the 44th Legislative Assembly, ladies and gentlemen. This is indeed a distinct honor and privilege for me to announce to this group to the State of North Dakota and to the entire nation, that Senator Ringsak has been named the Handicapped American of the year for 1974. I should like to read a portion of a letter from Harold Russell, Chairman of the President's Committee on Employment of the Handicapped. This letter was written to Senator Ringsak. "It is a great pleasure to inform you that the President's Committee on Employment of the Handicapped has chosen you the handicapped American of the year for 1974. Speaking for the entire committee, and personally I congratulate you. Your activities have done much to make legislators, businessmen

and citizens aware of the rights of handicapped people. At the same time you effectively demonstrate that handicapped people have the talent to make contributions to their fellow men. What is equally important, however, is the fact that through your efforts to make North Dakota a better place for those with handicaps. You have challenged other persons with impairments to make every effort to become contributors to their communities. We plan to present the President's trophy which is awarded annually to the handicapped American to you on Thursday morning, May 1, at the opening session of our annual meeting in Washington, D.C."

Senator Ringsak, I want you to know how pleased everyone in North Dakota is over your selection. Our sincere congratulations from all the people of this state, and a sincere "thank-you" for the many contributions you have made in the cause of handicapped people nationwide. This is a great tribute to you personally, to North Dakota and to all handicapped people. It is with pleasure that I present to you a book of letters, testimonials and endorsements from your many supporters and friends that went into the receiving of this award. I know it will bring to you hours of delight in reading it and pleasant memories throughout your entire life. So, to you and your family, from me personally, all of the people of North Dakota, from this assembly, and persons throughout the nation, and I'm sure throughout the world, we extend to you our sincere and personal congratulations.

Governor Link then presented Senator and Mrs. Ringsak with the book.

President Sanstead introduced the Honorable Elton Ringsak:

Senator Ringsak: Governor Link, Lt. Governor Sanstead, Speaker of the House Reimers, he called me the all-American kid Wednesday night and I wondered what he was talking about, and he told me that he was going to give Peterson and I a citation on Friday morning for being the two best arm pushers in the Senate and the House and I thought he was pulling my leg so I liked that. I don't know what to say here except that the good Governor and I have been friends for a long time, I was planning to run for Governor two years from now, but now that everybody knows that I have a handicap, I can't run, and to all the legislators, House members and Senators, I want to especially tell you that I appreciate the fact that you have never looked at me as handicapped, that you just accepted me as one of your fellow men. You have given me hell when I have had it coming, your chairmen have been nice to me, but they have been tough, I have appreciated that, and I think the biggest thing that a handicapped person wants is to be recognized as if he had no handicap at all, and just treated just like anybody else. I know that you people open the door for me downstairs and I know what you are doing it for, but the only time I feel bad is when you run ahead of me and then open the door. If you just walk with me and then open the door, why I feel a lot better, and I think that I am speaking for all the handicapped people, if you just treat them just like an equal, they are all happy, and thanks for everything you have done for me.

this is about 60 per cent over the last biennium. I don't see how we can go beyond this. I would rather have seen cuts made in other areas, but this has not been done. Inflationary pressures will be here two years from now and we will be thinking in terms of going up from \$440,000,000. This is a sobering reality that we will have to face too soon. I think we have been good to education. This body has passed a \$33,000,000 increase in the foundation program for this biennium which is an increase of about 30 per cent. We have increased the special education budget and the higher education budget. I favor educational television, but I am concerned about the financial condition the state may find itself in after this biennium. I hope grain prices are high and times are good and the legislature can come here in 1977 with plenty of money, but we can't be sure of that. A 60 per cent increase in a state budget in one biennium is rather substantial and is more than is wise and prudent. As recently as last week, I have told people that I still planned to vote for public TV and I did. I favor it, but there is almost nothing left to cut. I feel as badly today as most of you who voted yes, but I think we have done the responsible thing.

#### PERSONAL PRIVILEGE

Senator Barth: Mr. President, I rise on a point of personal privilege. I perhaps feel as though as I have been very unnecessary around here this session. I certainly don't like to hear the remarks around here on the floor, we've got to go on with business, we're worried about appropriations, the farmers need to go to the field. This I think is a terrible lever to use to convince this body that we've got to get home. I can't believe that this is the lever that we would use so that we get this session over with. We have some of the major pieces of legislation still in conference committee, now we're saying that we've got to move on with business, the pressure is on. This is not a pressure bill. The pressure is on those bills still in conference committee. I would hope that each and every citizen of North Dakota would hope that we would take a second look at what we've really done. I think we should take a look at what we are going to do. We hear all kinds of figures in relation to a \$4,000,000.00 appropriation that we can't afford it. Had we moved educational television, SB 2109 to the bottom of the calendar when all the conference committees had been in, I wonder if the figures that had been thrown around this chamber a few minutes ago, would be real. We don't know what's coming out of this, and I can certainly agree with the Senator from Grand Forks when he said, "Is there really that much difference between 80 million and 70 million. I really wonder. Have we done what the people of North Dakota want?" I submit to you that we've really gone against the wishes of them. I live in a rural area. I live in western North Dakota, an area where educational television would be an asset to our people. I believe that my people are people. They are just as worthy to give them whatever we can. I really believe that we have dealt them a blow that they will never forget. I do hope that we remember this as we go on in this session.

#### PERSONAL PRIVILEGE

Senator Freed: Mr. President, I rise on a point of personal privilege. I also am from Western North Dakota and I want to state that I support educational television. I would like to see educational television. I would hope that someone in the Bismarck-Dickinson area can put up an educational television as they did in Fargo and Grand Forks area. I further hope that it is not a state-owned industry.

SENATE CHAMBER  
Forty-Fourth Legislative Assembly  
STATE OF NORTH DAKOTA  
BISMARCK

The Honorable Wayne Sanstead  
 Lieutenant Governor  
 State of North Dakota  
 State Capitol  
 Bismarck, N.D. 58505

Dear Lieutenant Governor:

I am sure you are aware of a rather unique situation regarding a particular lady volunteer in the Senate during this past session.

Early in January this young lady, Mrs. Coleen Pearson, came to learn more about the legislative process. She did not want to be placed on the payroll because her home responsibilities would not permit her a regular time schedule.

She has continued her volunteer work since the last week in January and I thought it would be interesting for you to recognize this type of person in your official position.

She has performed voluntarily in the offices of the Legislative Council as well as on the floor of the Senate and other areas to give her the widest experience possible in learning what the Senate does and what the law making process is all about.

I thought this so unusual, I wanted to call it to your attention.

Sincerely,  
 I.E. (Esky) Solberg  
 State Senator  
 Chairman, Employment Committee  
 District 32

Senator Nething moved that the President's remarks be printed in the Journal, which motion prevailed.

Senator Nething moved that the Senate recess until 5:30 P.M., which motion prevailed.

The Senate reconvened, the President presiding.

A permit for the construction of a transmission facility within a designated corridor may supersede and preempt any county or city land use, zoning, or building rules, regulations, or ordinances upon a finding by the commission that such rules, regulations, or ordinances, as applied to the proposed route, are unreasonably restrictive in view of existing technology, factors of cost or economics, or needs of consumers whether located in or out of the county or city. PERSONAL PRIVILEGES

Senator Lips: Mr. President, I rise on a point of personal privilege.

Mr. President and Ladies and Gentlemen of the Senate, I am somewhat disappointed that the State Health Department was not given the authority to site plants. We will soon have two environmental departments; one in the PSC and one in the Health Department. The Health Department has the responsibility now under present law. I voted for the bill, but two years from now every effort should be made to change this law.

Senator Lashkowitz:

In as much as I happen to be the only vote against 2050 the basis of my vote against the bill was that I felt the Health Department should have concurrent jurisdiction if not exclusive jurisdiction in this siting bill. Thank you.

Senator Fritzell:

Mr. President and fellow Senators, in the interim committee last summer I was one of maybe one or two that wanted to put this in the Health Department. At our subsequent meeting I asked for reconsideration to put it in the Health Department. It was decided during that committee to put it in the Public Service Commission. During all this session we have worked with the Public Service Commission people, we worked with the energy committees, and it isn't that the Health Department shouldn't have it, it's the fact that everything should be in one agency. Possibly it should have been the Health Agency but it shouldn't have been split.

Who gains the respect of intelligent men and the love of little children.

Who fills his niche and accomplishes his task and he leaves the world better than he found it.

Whether by an improved poppy, a perfect poem or a rescued soul.

Who never lacks appreciation for the earth's beauty and who never fails to express it.

Who always sees the best there is in others and gives the best he has. This man is an inspiration and his memory shall become a benediction."

PERSONAL PRIVILEGE

Senator Schuster:

Mr. President, Ladies and Gentlemen of the Senate, having a little time in the last day, I have been pursuing the Declaration of Independence and I ran across something that may be of some interest to you. It relates somewhat to our presence here today, not totally but a little bit. It's one of the grievances against the King of England. He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public records for the sole purpose of fatiguing them into compliance with his measures.

Senator Pyle:

I wish our leader was here at this moment, I'm sure he would have an answer to that.

### PERSONAL PRIVILEGE

Senator Stroup: Mr. President, I rise on a point of personal privilege and request that my remarks be printed in the Journal.

This is on the basis of Senate Bill 2095 and the section of the Senate Bill 2095 that has caused so much of a problem is subsection 2 of section 7 and that is that the operator shall in such a manner as be required by the commission, save, segregate, and respread suitable plant growth material within the permit area up to a maximum of five feet; provided, however, that if up to five feet of such material is not available within the permit area, all suitable plant growth material that is available shall be spread over the regraded area as prescribed by the commission. In the interest of achieving the maximum reclamation provided for in this chapter, the operator may, or at the direction of the commission shall, utilize such soil amendments as described in subsection 17 of section 38-14-02.

This is where the problem and the question that just arose a few moments ago is over the definition of the amount of soil that is to be saved, segregated, and respread. There seems to be much apprehension as to what is suitable plant growth material. It was defined in the chapter and is to be accompanied by the soils maps prepared by a professional soils classifier and the analysis also prepared by a professional soil classifier and the soil conservation service. These are submitted to the Public Service Commission reclamation director. After consultation with these agencies that demonstrate their expertise themselves, then they determine the depth of the soil and the types of the soil that should be saved, segregated and respread. In most of the plans and premise this will be undoubtedly less than the 5 foot of desirable, suitable plant growth material available in the area. Therefore, they would only be requiring that depth that is determined by the Public Service Commission. Thus, it is not our intent to require the operators to secure any more suitable plant growth material than existed within the permltal area. Further, it is our intent that the Public Service Commission in their rules and regulations would clarify another problem that has developed and that is the movement of suitable soil and material from one surface owner's leasee's property to another owner's leased land during the process of mining and reclaiming the land. As many of you know, a many affect is developed over who owns the fence and whose going to maintain it. You can well imagine the problems that may exist when you are going to try to move one pound of one man's dirt over on to the other one's and this is one of the problems that the rules and regulations I believe should specify along with that of the amount of soil that is suppose to be moved.

#### REPORT OF CONFERENCE COMMITTEE

Mr. President: Your Conference Committee to whom was referred House Bill No. 1541 has had the same under consideration and recommends:

That the Senate recede from its amendments and that House Bill No. 1541 be amended as follows:

On page 1, line 1 of the engrossed bill, following the words "A BILL" delete the remainder of the line and the remainder of the bill, and insert in lieu thereof the following words: "for an Act to provide for the liability of political subdivisions, to set limitations upon such liability, to establish a political subdivisions liability fund and to limit the liability of the fund, to provide for notice and a statute of limitations, to provide a procedure for making payments from the fund for claims and judgments against political subdivisions, to allow the attorney general to administer and defend the fund, to authorize the state and political subdivisions to purchase insurance coverage, to declare legislative intent, to provide an appropriation, to declare an emergency and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DEFINITIONS. ) As used in this Act, unless the context or subject matter otherwise requires:

1. "Claim" means any claim brought against a political subdivision, as permitted by this Act, for an injury caused by an act or omission of a political subdivision or an employee of the political subdivision acting within the scope of his employment or scope of his office.

2. "Employee" means any officer, employee, or servant of a political subdivision, whether elected or appointed and whether or not compensated, but shall not include an independent contractor, or any person performing tasks, the details of which the political subdivision has no right to control.

3. "Fund" means the political subdivisions liability fund, as provided by this Act.

4. "Injury" means death, injury to a person, damage to or loss of property, or any other injury that a person may suffer to his person or estate that would be actionable if inflicted by a private person or his agent.

5. "Political subdivision":

a. Shall include all counties, townships, park districts, school districts, cities, and any other units of local government which are created either by statute or by the Constitution of this state for local government or

other public purposes, including, but not limited to, county fair associations, county hospital associations, county park districts and joint county park districts, county special service districts, Garrison diversion conservancy district, health districts, irrigation districts, reclamation districts, rural fire protection districts, soil conservation districts, and water management districts, except that no new units of government or political subdivisions are created or authorized by this Act.

b. Shall not include, nor shall be construed to mean, either the state of North Dakota or any of the several agencies, bureaus, boards, commissions, institutions, councils, courts, departments, or offices of government which collectively constitute the government of the state of North Dakota.

#### SECTION 2. LIABILITY OF POLITICAL SUBDIVISIONS — LIMITATIONS.)

1. Each political subdivision shall be liable for money damages for injuries when such injuries are proximately caused by the negligence or wrongful act or omission of any employee acting within the scope of his employment or office under circumstances where such employee would be personally liable to a claimant in accordance with the laws of this state, or injury caused from some condition or use of tangible property, real or personal, under circumstances where such political subdivision, if a private person, would be liable to the claimant.

2. Such liability is subject to the provisions of this Act, and liability shall not extend to punitive or exemplary damages. The liability of political subdivisions under the provisions of this Act shall be limited to twenty thousand dollars per person and one hundred thousand dollars for any single occurrence for injury.

A political subdivision shall not be liable for any claim based upon an act or omission of an employee of a political subdivision, exercising due care, in the execution of a statute or regulation, whether or not such statute or regulation be valid, or based upon the exercise or performance, exercising due care, or the failure to exercise or perform a discretionary function or duty on the part of a political subdivision or its employees, whether or not the discretion involved be abused. The sovereign immunity of the state is not waived in any manner by this Act, and the provisions of this Act shall not be construed to abrogate the immunity of the state. Nothing contained in this Act shall be construed to obligate the fund or political subdivisions for an amount which is more than the limitations upon liability imposed by this Act. Any payments to persons under the provisions of this Act shall constitute payment in full of any compromised claim or judgment or any final judgment under the provisions of this Act.

SECTION 3. POLITICAL SUBDIVISIONS LIABILITY FUND — FUND NOT LIABLE FOR MOTOR VEHICLES.) There is hereby created in the office of the state treasurer a political subdivisions liability fund which shall be used to pay compromised claims and judgments and final judgments against any political subdivision of this state as provided by this Act, and which shall be administered by the attorney general. No payment from the fund for a compromised claim or judgment or a final judgment against a political subdivision shall exceed the liability limitations imposed by this Act. The fund shall not be liable for any claims for injuries arising out of, or by reason of, the use or operation of motor vehicles or aircraft by a political subdivision. Political subdivisions using or operating motor vehicles or aircraft may purchase insurance coverage for their own protection and for the protection of their employees in the manner provided by section 39-01-08, except that political subdivisions shall be liable for such injuries to the extent of the liability limitations imposed by this Act, irregardless of whether such

political subdivision has purchased such insurance coverage. In any action arising out of, or by reason of, the use or operation of motor vehicles or aircraft by a political subdivision, the provisions of sections 5 through 10, inclusive, shall not apply.

SECTION 4. NOTICE — STATUTE OF LIMITATIONS.)

1. Except as otherwise provided, any claim against a political subdivision for injuries alleged to have arisen under the provisions of this Act shall be filed, within ninety days after the alleged occurrence of such injury, in the office of the county auditor. Such claim shall be signed and verified by the claimant and shall describe the time, place, cause, and extent of the damage or injury, shall contain an abstract of the facts upon which the claim is based, and shall specify the amount of damages claimed therefor. If it shall appear by the affidavit of a reputable physician that the injured person was rendered, by the injury complained of, mentally incapable of making the claim within the time specified in this section, the claim may be filed, if the claimant survives, within ninety days after the claimant becomes competent to make the same. The affidavit of the physician shall be prima facie evidence of mental incapacity, and may be controverted on the trial of an action for such damages. If the injured person shall die within ninety days after the happening of the injury, or before he shall become mentally competent to make the claim, the claim may be made within ninety days after the death of the injured person by any person having knowledge of the facts, and the person making such claim shall set forth therein specifically the facts relating to the injury of which he has personal knowledge and shall verify such facts positively. The facts of which the person making the claim has no personal knowledge shall be verified to the best of his knowledge, information, and belief. Notice of such claim shall also be given by the claimant to the political subdivision concerned and to the attorney general within ten days of filing such claim with the county auditor.

2. An action brought under this Act must be commenced within three years after the cause of action has accrued.

SECTION 5. POLITICAL SUBDIVISION TO DEFEND SUIT — APPROVAL OF ATTORNEY GENERAL.) Upon receipt of notice of a claim for injuries alleged to have arisen under the provisions of this Act, a political subdivision shall retain an attorney to represent and defend the political subdivision in any proceedings concerning such a claim. The attorney for the political subdivision may propose a compromise of such a claim and may defend the political subdivision in any action brought upon the claim. The attorney general shall review any such proposed compromise, and if the attorney general, in his discretion, determines that the alleged facts concerning the claim warrant such a compromise agreement, he shall authorize a compromise agreement in the manner prescribed by section 9.

SECTION 6. CLAIMS AGAINST FUND.) When any person shall obtain a final judgment in any court of competent jurisdiction against any political subdivision pursuant to this Act, such person shall, upon notice to the attorney general, file an application in the court in which the judgment was entered for an order to direct payment of such a judgment from the fund. The court shall conduct a hearing upon the filing of the application, which may be continued within the discretion of the court for such period as the court may deem appropriate. The applicant shall show that he has obtained a final judgment against a political subdivision pursuant to this Act and shall state the amount thereof. After a hearing upon the filing of an application, the court may order payment of a final judgment from the fund only upon a determination that the person has a valid cause of action against a political subdivision pursuant to this Act

and has otherwise complied with the provisions of this Act. The judgment shall be only prima facie evidence of such a cause of action and for the purposes of this Act shall not be conclusive. The attorney general may appear and be heard on any application from the fund and may show cause, if any there be, why an order should not be made, pursuant to this section and sections 7 and 8.

**SECTION 7. ORDER FOR PAYMENT.)** If, after a hearing, the court finds that said claim should be levied against the fund, the court shall enter an order directing the state treasurer to pay from said fund the amount of the judgment against a political subdivision, within the limits provided by this Act.

**SECTION 8. APPEAL FROM JUDGMENT OR ORDER.)** A judgment or order made pursuant to this Act shall be subject to appeal to the supreme court by the political subdivision or the attorney general in the manner provided by law.

**SECTION 9. COMPROMISE OF CLAIM OR JUDGMENT.)** At any time prior to payment of a final judgment from the fund, the attorney general, in his discretion, may enter into an agreement with a person making a claim against a political subdivision or a holder of a final judgment against a political subdivision for a compromise of such a claim or judgment for a sum which is less than the amount of the claim or judgment. The attorney general shall reduce such an agreement to writing and shall certify the agreement to the state treasurer, who shall pay the amount specified in the agreement, not to exceed the limitations imposed by this Act.

**SECTION 10. CLAIMS SATISFIED IN ORDER OF FILING.)** In the event that there is insufficient moneys in the fund to satisfy the order or compromise agreement at the time such order or judgment is filed, the order shall be registered by the state treasurer and shall be paid when the moneys are available in said fund. Subsequent orders or agreements shall be paid therefrom in the order of registration.

**SECTION 11. STATE AND POLITICAL SUBDIVISIONS AUTHORIZED TO PURCHASE INSURANCE.)** The state of North Dakota or any department, agency, or bureau, and any political subdivision of the state, is hereby authorized to insure against claims of loss, damage, or injury for its own protection and for the protection of any employee. Except as provided by section 3, the limitations on claims against political subdivisions payable by the fund, as provided by this Act, shall be deductible from any insurance coverage purchased by a political subdivision in the manner provided by this section, and no political subdivision shall be required to purchase insurance coverage for amounts for which the fund may be held liable. If a premium savings will result therefrom, such policies of insurance may be taken out for more than one year, but in no event beyond a period of five years.

1. If the state or any department, agency, or bureau thereof shall purchase insurance pursuant to this section, then the purchaser shall waive its immunity to suit only to the types of insurance coverage purchased and only to the extent of the policy limits of such coverage.

2. If a political subdivision shall purchase insurance pursuant to this section which shall exceed the limitations upon liability imposed by this Act, the political subdivision shall waive the limitations of the liability imposed by this Act only to the extent that such coverage exceeds such limitations. Where a political subdivision has purchased insurance coverage pursuant to this section, the fund shall be liable for a claim or judgment in the manner and subject to the limitations provided by this Act, and the political subdivision which has purchased insurance coverage shall be liable for any amount contained in a final judgment which shall exceed the limitations imposed by this Act, but only as to the types of coverage purchased.

If any dispute exists concerning the amount or nature of the insurance coverage, the dispute shall be tried separately. This Act confers no right on a claimant to sue an insurer directly. The insurance coverage authorized by this Act may be in addition to insurance coverage which may be purchased by the state or any department, agency, or bureau thereof, or a political subdivision under any other provision of law.

SECTION 12. APPROPRIATION.) There is hereby appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$500,000.00, or so much thereof as may be necessary, to the political subdivisions liability fund for the purpose of paying compromised claims and judgments and final judgments according to the provisions of this Act for the period beginning on the effective date of this Act, and ending June 30, 1977.

SECTION 13. LEGISLATIVE INTENT.) It is the intent of the legislature that this Act is to provide the political subdivisions of this state with temporary protection only until July 1, 1977. This Act is deemed to be in the best interest of the people of this state and is an exercise of the police powers. This Act is a temporary response to the recent judicial decision which held that the doctrine of governmental immunity from tort liability as it applies to political subdivisions should not be sustained in this state. It is the policy of the legislature to encourage political subdivisions to continue to maintain present liability insurance coverage pending a legislative council study of governmental immunity and to encourage political subdivisions to maintain insurance coverage for motor vehicles and aircraft.

SECTION 14. EMERGENCY.) This Act is hereby declared to be an emergency measure and shall be in full force and effect from and after its passage and approval.

SECTION 15. EXPIRATION DATE.) The provisions of this Act shall remain in effect through June 30, 1977, and shall thereafter be of no force and effect."

And renumber the lines, pages, and sections accordingly.

And when so amended recommends the same do pass and be re-referred to the Committee on Appropriations.

## REPORT OF CONFERENCE COMMITTEES

Mr. President: The majority on your Conference Committee to whom was referred Senate Bill No. 2031 has had the same under consideration and recommends:

That the House recede from its amendments and Senate Bill 2031 be amended as follows:

On page 1, line 1 of the engrossed bill, delete everything after the words "A BILL" and delete the remainder of the bill and insert in lieu thereof the following: "for an Act to provide for a severance tax upon all coal mined; to provide procedures for the imposition, collection, and administration of such tax; to provide for the allocation of moneys collected and to provide an impact program for impacted school districts, cities, counties, and other taxing districts; to provide for the creation of a coal development impact office in the office of the governor; to provide for a legislative council coal development review committee to approve or disapprove impact grants; to provide that certain sections of this Act shall be temporary; to provide a penalty; and to provide an appropriation.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. SEVERANCE TAX UPON COAL — IMPOSITION — COMPUTATION OF INCREASES — IN LIEU OF SALES AND USE TAXES — PAYMENT TO THE TAX COMMISSIONER.) There is hereby imposed upon all coal severed for sale or for industrial purposes by coal mines within the state a tax in an amount to be determined as follows:

1. Fifty cents per ton of two thousand pounds; and

2. For every three points increase in the index of wholesale prices for all commodities prepared by the United States department of labor, bureau of labor statistics, the amount of the severance tax provided in subsection 1 shall be increased one cent per ton of two thousand pounds. For the purposes of this computation, a fractional point increase shall be disregarded if less than one-half point and treated as one full point if one-half point or more. The state tax commissioner shall determine such increases based upon increases in the wholesale price index from the level of such index as of January 1975 to the level of such index as of the last month of the quarter immediately preceding the quarter for which any taxes are due. At no time shall the amount of the severance tax be reduced. If the wholesale price index declines, the severance tax shall remain at the highest level determined prior to such decline, and shall remain at such level until further increases are warranted because of further increases in the wholesale price index beyond the point at which the last increase was determined.

Such severance tax shall be in lieu of any sales or use taxes imposed by law. Each coal mine owner or operator shall remit such tax for each calendar quarter, within thirty days after the end of each quarter, to the state tax commissioner upon such reports and forms as the tax commissioner shall deem necessary. If the method of determining increases in the amount of the severance tax provided in subsection 2 is for any reason held to be invalid, such decision shall not affect the validity of the amount of the tax provided in subsection 1.

SECTION 2. WHEN TAX DUE — WHEN DELINQUENT.) The severance tax as provided in this Act shall be due within thirty days after the end of each quarter, and if not received by the thirtieth day, shall become delinquent and shall be collected as herein provided. The tax commissioner, upon request and a proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for paying the tax, and when such a request is granted, the tax shall not be delinquent until the extended period has expired. The tax commissioner

shall require a report to be filed quarterly by each owner or operator of a coal mine, in such form as the tax commissioner may specify, to list a full description of the mine, the number of tons of coal severed, the amount of tax due and remitted, and any other information deemed necessary by the tax commissioner for the proper administration of this Act.

**SECTION 3. POWERS OF STATE TAX COMMISSIONER.)** The state tax commissioner shall have the power to require any person engaged in such production, and the agent or employee of such person, or purchaser of such coal, or the owner of any royalty interest therein, to furnish any additional information by him deemed to be necessary for the purpose of correctly computing the amount of said tax, and to examine the books, records, and files of such person, and shall have power to conduct hearings and compel the attendance of witnesses, the production of books, records, and papers of any person, and full authority to make any investigation or hold any inquest deemed necessary to a full and complete disclosure of the true facts as to the amount of production from any coal mine or of any company or other producer thereof, and as to the rendition thereof for taxing purposes.

**SECTION 4. TAX COMMISSIONER TO COMPUTE TAX ON INCORRECT RETURNS.)** The state tax commissioner shall have the power and authority to ascertain and determine whether or not any report or remittances filed with him are correct, and if the owner or operator has made an untrue or incorrect report or remittance, the commissioner shall ascertain the correct amount of taxes due, and give immediate notice to the owner or operator filing the incorrect return or remittance. Any coal mine operator or owner receiving notice from the tax commissioner that he has filed an incorrect return or remittance shall remit the tax assessed by the commissioner within fifteen days of such notice. Any owner or operator aggrieved by a decision of the tax commissioner may make application in writing within fifteen days of notification for a hearing which shall be granted not later than fifteen days after receipt of the application. The tax commissioner may grant or reject, in whole or in part, the contentions of the owner or operator and upon conclusion of the hearing shall proceed to make a final determination of taxes due. Such taxes assessed by the commissioner shall become delinquent five days after the conclusion of the hearing, except in such cases where an owner or operator shall appeal such assessment to the district court of Burleigh County, in which case they shall become delinquent five days following final judicial determination.

**SECTION 5. PENALTY ON DELINQUENCY — FAILURE TO FILE REPORTS.)** Where the severance tax provided for in this Act shall become delinquent, it shall, as a penalty for such delinquency, bear interest at the rate of eight percent per annum. If the quarterly report is not filed within thirty days after the end of any quarter and taxes due paid, the tax commissioner shall notify the delinquent owner or operator of such delinquency, and if such report and remittance are not filed within an additional fifteen days, the tax commissioner shall notify the public service commission, which shall forthwith suspend such owner's or operator's license or permit until such time as payment is received, or the issues settled to the satisfaction of the tax commissioner.

**SECTION 6. LIEN FOR TAX.)** The severance tax herein referred to shall, at all times, be and constitute a first and paramount lien against the producer's property as the case may be, both real and personal. In all cases where such tax is not paid, it may be recovered at the suit of the state, upon relation to the state tax commissioner, in any court of competent jurisdiction of the county where any such property, assets, and effects are located.

**SECTION 7. APPEAL FROM DECISION OF TAX COMMISSIONER.)**

Any person aggrieved because of any action or decision of the tax commissioner under the provisions of sections 1 through 8 of this Act may appeal therefrom to the district court of Burleigh County.

**SECTION 8. RULES AND REGULATIONS — BOND.)** The tax commissioner is hereby authorized and empowered to prescribe and promulgate all necessary rules and regulations for the purpose of making and filing of all reports required hereunder and otherwise necessary to the enforcement of sections 1 through 8 of this Act, and may, at his option and discretion, require a sufficient bond from any coal mine operator or owner charged with the making and filing of reports and the payment of the taxes herein imposed, and said bond shall run to the state of North Dakota and shall be conditioned upon the making and filing of reports as required by law or regulation, and for the prompt payment, by the principal therein, of all taxes justly due the state by virtue of the provisions of sections 1 through 8 of this Act.

**SECTION 9. PENALTY.)** Any person intentionally violating any of the provisions of sections 1 through 8 of this Act is guilty of a class A misdemeanor.

**SECTION 10. COAL DEVELOPMENT FUND ESTABLISHED.)** Moneys collected by the state tax commissioner pursuant to the provisions of sections 1 through 9 of this Act shall be paid to the state treasurer and shall be credited to a special fund in the state treasury, to be known as the coal development fund. The moneys accumulated in such fund shall be allocated as provided by law and as appropriated by the legislative assembly.

**SECTION 11. DEFINITIONS.)** As used in sections 11 through 15 of this Act, unless the context or subject matter otherwise requires:

2. Thirty percent shall be credited to a special fund in the state treasury to be held in trust to be administered by the board of university and school lands, which shall have full authority to invest such funds and may consult with the state investment board as provided by law. The income

from such trust shall be deposited in the state's general fund. Such trust fund shall be perpetual and held in trust as a replacement for depleted natural resources.

3. Five percent shall be allocated to the coal-producing counties and shall be distributed among such counties in such proportion as the number of tons of coal severed in each county bears to the total number of tons of coal severed in the state during such quarterly period. Such allocations shall be credited to the county general fund.

4. The balance shall be deposited in the state's general fund.

**SECTION 13. COAL DEVELOPMENT IMPACT OFFICE — APPOINTMENT OF DIRECTOR.)** There is hereby created in the office of the governor a coal development impact office. 2. Increase such price by any of the following amounts that are not included in the contract price:

(a) any mining costs, including payments required for labor union funds;

(b) reclamation costs for restoring the mined areas;

(c) royalties on coal mined;

(d) costs of ordinary treatment processes applicable to the mining of coal, including cleaning, breaking, sizing, dust allaying, treating to prevent freezing, and loading for shipment;

(e) costs of transporting such coal to any point within fifty miles of the mine.

After adjusting the average price of coal that is provided for in each contract, the committee shall determine the average price per ton of all such adjusted average contract prices by the weighted average method.

In determining the average statewide contract price of coal the committee shall always have as its objective the determination of an average price that most nearly represents the fair market value of coal as established from contracts entered into as arms length transactions; and any contract for the sale of coal which the committee determines does not represent an arms length transaction shall not be used in computing the average statewide contract price.

The coal pricing committee shall have power to require any person engaged in the production of coal, and the agent or employee of such person, or the purchaser of such coal, or the owner of any royalty interest therein, to furnish any information deemed by such committee to be necessary for it to carry out its duties under this section.

The tax rate provided for in this section shall be applicable for all coal mined on or after January 1, 1976. The tax for coal mined during the period beginning on July 1, 1975, and ending on December 31, 1975, inclusive, shall be imposed at the rate of sixty-five cents per ton of two thousand pounds."

The Minority report to Senate Bill 2031 was not adopted.

**PERSONAL PRIVILEGE**

Senator Hoffner: Mr. President, I rise on a point of personal privilege. We have again seen a display of power-clubbing by the majority party, although they have two-thirds of the vote. Time and time again they have seen fit to either lay issues on the table to shut off debate, or ask for the previous question, and I for the life of me, cannot understand why the Minority party shouldn't be given some time to discuss a matter as urgent as the one on coal severance and the other day we had a matter on construction of our buildings, we saw the Majority overrule the president, again, to shut off debate, to brake a rule, and if this type of thing is going to continue, this type of display, no wonder the people of North Dakota are very discouraged with what is happening in this legislative assembly.

**PERSONAL PRIVILEGE**

Senator Nething: Mr. President, I rise on a point of personal privilege. It is the responsibility of the Majority at all times to get the work done that's before them. Now, I think that when this bill was before us, 2031, some time ago, the minority came in with amendments that had not been heard in committee, but had been explained but by two people at a joint meeting, had no public input, we let them have their say I think we have over-extended our courtesies to them, particularly within a very short while afterwards we were criticized for not getting our work done. I don't think there is a great deal more to learn about this issue before this legislature insofar as severance is concerned. We've seen at least four plans now that I can think of that the Minority has presented on one side or the other, it's difficult from day to day to keep up with what they want to do, and I disagree with them when he says the general public is discouraged by what's being done.

I think all you have to do is look at your mail recently from a plea that the Governor made to the public, and I think if they would have been discouraged, the mail bags would have been full. Frankly, unless my mail is different from yours, I think it is an indication that the people have trust in the majority and what we are going to be doing. And it is for that reason, and the reason that we do have many other issues that need to be resolved, particularly in the area of fiscal responsibility, which is the number one concern of the people of North Dakota and the number eight concern of the minority party, that it's about time that we get this coal matter resolved here and get it over to the House so it can be again worked on over there.

**PERSONAL PRIVILEGE**

Senator Barth: Mr. President, I rise on a point of personal privilege. I've been around this chamber as long as anybody in the majority has. I've attended every Finance and Tax Committee hearing that has had anything to do with coal production, power production or what have you. I can recall, and my figures might be wrong, give or take one or the other, eight proposals brought in by the majority party and I can recall majority reports coming in when everything was removed but "A BILL". We have had this happen and double the amounts. We've had it from the minority

party but I think as a member of the minority party I have a right to defend my position. I think I have a right, the majority party has a right to explain to this body what their proposals really are.

If there is a change of mind then they should be expressed, and I might mention to you, Mr. President, Ladies and Gentlemen of the Senate, I have never dreamed when I decided to become politically involved, and after I was elected to this august body, I never dreamed that 51 people could be so rude as I have been treated and as the minority party has been treated this session. We have been kicked around, we've been told that we don't have time to discuss issues, we've got to get home. Just two days ago our able Majority Leader said that it's time to go farming, we've got to get out of here. But I submit to you that it's different today, very different. I wasn't concerned then. My concern was to do what's right and good for the people of the state of North Dakota, and I'm still here for that purpose. I want you to know I have a responsibility back home that's very great. My cattle haven't seen hay for three days but I'm here, Ladies and Gentlemen, I didn't move home to worry about my business whether it's a law firm or whatever. I'm here to legislate and that's why I'm here.

Last Saturday we had a Saturday session which was uncalled for, but we were here. We were told then that we had five minutes to come up with a report. That the Finance and Tax Committee to come out with a report which would place a severance tax on coal, a vast industry such as this in the state of North Dakota. We had five minutes. I want you to know I walked out of that conference committee because I thought it was the most irrational thing I had ever seen. I have never been so hurt in my life as I have been in this session. Been treated very, very poorly by the majority, and today I proposed a minority report, not one person was allowed, whether he was from the majority or minority, to ask a question on the proposal I have made. We couldn't debate the issue and this is it. If this is the way we are going to keep on legislating then perhaps we should go home and tend to our business because we aren't doing it here.

Senator J. Schultz moved that the report of the Majority be adopted, which motion prevailed.

#### PERSONAL PRIVILEGE

Senator Melland: Mr. President, I rise on a point of personal privilege.

Several days ago when we reviewed the bill on which I had a conflict of interest, I asked to have some remarks recorded in the journal wherein I indicated that I didn't propose to bother the Senate by constantly rising and indicating that I am indeed a director of a utilities company who will be required to pass along what I believed to be a rather onerous tax to consumers in the way of higher rates on electricity. I am not about to indicate that I didn't have a conflict of interest on this bill, because I am going to vote for it. I think that if I do have a conflict of interest, I'm voting contrary to my conflict which certainly would negate that conflict in my judgment.

Senator Stroup moved that the rules be suspended, that Senate Bill No. 2031 be deemed properly re-engrossed and placed on the calendar for second reading and final passage, which motion prevailed.

#### SECOND READING OF SENATE BILLS

It is the intent of the legislative assembly that the expansion of the Indian studies program from a minor to a major be funded from federal and private funds which may become available for such purpose. No general fund moneys shall be expended for such purpose during the biennium beginning July 1, 1975, and ending June 30, 1977.

SECTION 8. APPROPRIATION.) There is hereby appropriated to the board of higher education out of any unappropriated funds in the general fund in the state treasury the sum of \$640,000, or so much thereof as may be necessary, for the biennium beginning July 1, 1975, and ending June 30, 1977, for the purpose of installing power plant emission control systems at the university of North Dakota and North Dakota state university and for conversion to fuel for heating purposes at North Dakota state university-Bottineau branch. The amounts to be allocated to the institutions shall be as follows:

University of North Dakota .....	\$350,000
North Dakota state university .....	\$270,000
North Dakota state university— Bottineau branch .....	\$ 20,000

SECTION 9. UNIVERSITY OF NORTH DAKOTA MEDICAL CENTER.) STATEMENT OF PURPOSE OF AMENDMENT:

The estimated income was also adjusted to reflect the Board of Higher Education reciprocity agreement with Minnesota.

The University of North Dakota appropriation for major improvements was increased \$100,000 for renovation of Babcock Hall, Budge Hall, and the Old Science Building.

A contingency fund of \$500,000 was added to the medical center appropriation to be used for meeting accreditation requirements. Estimated income was also increased by this amount to reflect the amount of money available for this purpose.

Funds, in the amount of \$640,000, as recommended in the executive budget, in order to comply with environmental laws, were appropriated to the Board of Higher Education for installing power plant emission controls at the University of North Dakota and North Dakota State University and for conversion to fuel for heating purposes at NDSU-Bottineau Branch. It is the intent of the Legislative Assembly that state institutions comply with the Air Quality Standards Act, and that the State Health Department grant extensions in complying with such Act so long as the plant equipment at the institutions is functional; however, when present equipment needs to be replaced, it is the intent of the Legislative Assembly that such improvements be in compliance with such Act.

Except as otherwise provided by law, it is the intent of the Legislative Assembly that plant improvements at the institutions of higher education be made within the limits of legislative appropriations at the discretion of the Board of Higher Education and the administration of the institutions.

#### PERSONAL PRIVILEGE

Senator Barth: Mr. President, I rise on a point of personal privilege. I just had the pages hand out a copy of a proposal that I made on the floor on the Minority report to Senate Bill 2031 and there was a mistake in the total figures and I would like to have these corrected for it was an unintentional mistake. I sent this down to the council to get them run off and they were very busy yesterday and I didn't get a chance to review this until it got on the floor. If you look at the second attached sheet, the front clarifies the exact figures I had proposed, and I did not catch the mistake on the second attached page. If you look on the second line, under the Stroup amendment, the second figure on the general fund, instead of reading \$2,305,107 it should read \$3,879,282. It was a mistake; the figures were carried down and the subtractions were not made. I apologize, but wanted to bring this out for clarification.

House Bill No. 1221 has had the same under consideration and recommends:

That the Senate recede from its amendments and that House Bill 1221 be amended as follows:

On page 1, line 1 of the engrossed bill, delete everything after the words "A BILL" and delete the remainder of the bill and insert in lieu thereof the following: "for an Act to provide for a privilege tax on certain coal conversion plants, to provide that such tax shall be in lieu of certain other taxes, to provide a credit against such taxes for certain other taxes paid, to provide for the administration and collection of such taxes, to provide powers and duties of the state tax commissioner, to provide for the allocation of revenues collected, and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DEFINITIONS.) As used in this Act:

1. "Gross receipts" means all revenue valued in money, whether received in money or otherwise, derived by a coal conversion facility subject to the provisions of this Act from the production of products of a coal conversion facility, but not including any revenue derived from transportation, transmission, distribution, or other items which occur after the process of production of the products of such facility is completed;

2. "Coal conversion facility" means either:

a. A plant, other than an electrical generating plant, together with all additions thereto, which processes or converts coal from its natural form into a form substantially different in chemical or physical properties, including but not limited to coal gasification, coal liquefaction, and the manufacture of fertilizer and other products, and which uses or is designed to use over five hundred thousand tons of coal per year; or

b. An electrical generating plant, together with all additions thereto, which processes or converts coal from its natural form into electrical power and which has at least one single electrical energy generation unit with a capacity of one hundred twenty thousand kilowatts or more;

3. "Coal gasification" means the production of methane or other commercial gas products from coal;

4. "Commissioner" means the state tax commissioner;

5. "Person" means any individual, estate, trust, corporation, cooperative corporation, or association; and

6. "Synthetic natural gas" means methane and any admixed gaseous products produced by coal gasification.

SECTION 2. IMPOSITION OF TAXES.) Each coal conversion facility shall pay an annual tax for the privilege of producing products of such coal conversion facility. The rate of the tax shall be computed as follows:

1. For all coal conversion facilities, other than electrical generating plants and coal gasification plants as provided in subsections 2 and 3 of this section, the tax shall be measured by the gross receipts derived from such facility for the preceding calendar year and shall be in the amount of two and one-half percent of such gross receipts;

2. For electrical generating plants, the tax shall be at a rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale; and

3. For coal gasification plants, the tax shall be either the amount provided in subsection 1 or ten cents on each one thousand cubic feet of synthetic natural gas produced for the purpose of sale, whichever is greater.

SECTION 3. MEASUREMENT AND RECORDING OF SYNTHETIC NATURAL GAS OR ELECTRICITY PRODUCED.) The production of synthetic natural gas or electrical power shall be measured at the place

of production or generation, and any person subject to the imposition of the taxes provided by this Act shall maintain devices to measure and record the cumulative periodic totals of synthetic natural gas and electrical power generated. Any person subject to the taxes imposed by this Act shall maintain accurate records of the daily and monthly totals of synthetic natural gas and electrical power generated and subject to such taxes. The commissioner shall have access to such records at reasonable times and places.

**SECTION 4. PAYMENT OF TAXES ON PLANTS OTHER THAN ELECTRICAL GENERATING PLANTS — WHEN TAXES DUE — WHEN DELINQUENT.)**

1. The taxes imposed by this Act on coal conversion facilities other than electrical generating plants shall be levied by the tax commissioner on or before April fifteenth of each year. Each coal conversion facility subject to the taxes imposed by subsections 1 and 3 of section 2 shall annually on or before April first file a report with the commissioner in such form and containing such information as the commissioner may prescribe and demand. Such report shall state the total amount of gross receipts derived and synthetic natural gas produced by such coal conversion facility during the preceding calendar year. On or before May first of each year, the commissioner shall notify in writing each coal conversion facility subject to the taxes imposed by subsections 1 and 3 of section 2 of the amount of tax imposed. Any person aggrieved by the amount of tax levied against any facility may make application in writing within fifteen days of notification to the commissioner for an abatement hearing which shall be granted not later than fifteen days after the receipt of the application. The commissioner may grant or reject in whole or in part any plea for abatement, and upon conclusion of the hearing shall proceed to make a final levy against the applicant.

2. The taxes levied under subsection 1 of section 2 shall become due and payable to the commissioner on the fifteenth day of June in the year in which such taxes are levied. Such taxes shall become delinquent on the first day of July following, and, if not paid on or before such date, shall be subject to a penalty as provided in section 9.

**SECTION 5. PAYMENT OF TAXES ON ELECTRICAL GENERATING PLANTS — WHEN TAXES DUE — WHEN DELINQUENT.)** The taxes imposed by this Act on electrical generating plants shall be due within thirty days after the end of each calendar quarter, and, if not received by the thirtieth day, shall become delinquent and shall be collected as herein provided. The commissioner, upon request and a proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for paying the tax, and when such a request is granted, the tax shall not be delinquent until the extended period has expired. The tax commissioner shall require a report to be filed quarterly by each person subject to the taxes imposed by subsection 2 of section 2, in such form as the commissioner shall prescribe, to provide such information as the commissioner deems necessary for the proper administration of this Act.

**SECTION 6. PROPERTY CLASSIFIED AND EXEMPTED FROM AD VALOREM TAXES — IN LIEU OF CERTAIN OTHER TAXES — (CREDIT FOR CERTAIN OTHER TAXES.)** Each coal conversion facility shall be classified as personal property and shall be exempt from all ad valorem taxes except for taxes on the land on which such facility is located. The taxes imposed by this Act shall be in lieu of ad valorem taxes on the property so classified as personal property. The taxes imposed by this Act shall also be in lieu of those taxes imposed by chapters 57-33 and 57-33.1 on cooperative electrical generating plants that qualify as coal conversion facilities as defined in this Act for gross receipts derived from the operation of such plants on or after July 1, 1975. Each cooperative

electrical generating plant shall receive a credit against the taxes imposed by this Act for any taxes imposed pursuant to chapters 57-33 and 57-33.1 and payable after July 1, 1975. Such credit shall apply only for such taxes actually paid, and shall be applied against the taxes imposed by this Act in the years in which such payments are made.

**SECTION 7. POWERS OF COMMISSIONER.)** The commissioner shall have power to require any person subject to the taxes imposed by this Act to furnish any additional information deemed by the commissioner to be necessary for the purpose of correctly computing the amount of the tax, and to examine the books, records, and files of such person, and shall have power to conduct hearings and compel the attendance of witnesses, the production of books, records, and papers of any person, and full authority to make any investigation or hold any inquest deemed necessary to a full and complete disclosure of the true facts as to the amount of production or generation from any coal development plant, and as to the rendition thereof for taxing purposes.

**SECTION 8. COMMISSIONER TO COMPUTE TAX ON INCORRECT RETURNS.)** The commissioner shall have the power and authority to ascertain and determine whether or not any report or remittances filed with him are correct, and if the person filing such report has made an untrue or incorrect report or remittance, the commissioner shall ascertain the correct amount of taxes due, and give immediate written notice to the person filing the incorrect return or remittance. Any persons receiving notice from the commissioner that he has filed an incorrect return or remittance shall remit the tax assessed by the commissioner within fifteen days of such notice. Any person aggrieved by a decision of the tax commissioner may make application in writing within fifteen days of notification for a hearing which shall be granted not later than fifteen days after receipt of the application. The commissioner may accept or reject, in whole or in part, the contentions of the applicant at the hearing, and upon conclusion of the hearing shall proceed to make a final determination of taxes due. Such taxes assessed by the commissioner shall become delinquent five days after the conclusion of the hearing, except in such cases where a person shall appeal such assessment to the district court of Burleigh County, in which case they shall become delinquent five days following final judicial determination.

**SECTION 9. PROCEEDINGS AND PENALTY ON DELINQUENCY.)** Where the tax provided for in this Act shall become delinquent it shall, as a penalty for such delinquency, bear interest at the rate of nine percent per annum, and shall be collected in the manner hereinafter provided. If any person shall fail to make any report herein required, within the time prescribed by law for such report, it shall be the duty of the commissioner to examine the books, records, and files of such person to ascertain the amount and value of such production to compute the tax thereon as provided herein, and he shall add thereto the cost of such examination, together with any penalties accrued thereon.

**SECTION 10. LIEN FOR TAX.)** The tax herein provided for shall, at all times, be and constitute a first and paramount lien in favor of the state of North Dakota upon all property and rights to property, whether real or personal, belonging to the taxpayer, and such lien may be foreclosed in the manner provided in chapter 32-20.

**SECTION 11. APPEAL FROM DECISION OF TAX COMMISSIONER.)** Any person aggrieved because of any action or decision of the commissioner under the provisions of this Act may appeal therefrom to the district court of Burleigh County.

**SECTION 12. RULES AND REGULATIONS — BOND.)** The tax commissioner is hereby authorized and empowered to prescribe and promulgate all necessary rules and regulations for the purpose of making

and filing of all reports required hereunder and otherwise necessary to the enforcement to this Act, and may, at his option and discretion, require a sufficient bond from any person charged with the making and filing of reports and the payment of the taxes herein imposed, and said bond shall run to the state of North Dakota and shall be conditioned upon the making and filing of reports as required by law or regulation, and for the prompt payment, by the principal therein, of all taxes justly due the state by virtue of the provisions of this Act.

SECTION 13. MONEYS TO BE DEPOSITED WITH STATE TREASURER.) It shall be the duty of the commissioner to immediately deposit with the state treasurer all moneys collected by him under this Act and to accompany each remittance with the necessary information to allow the state treasurer to allocate the moneys received as provided by this Act.

SECTION 14. ALLOCATION OF REVENUE.) The state treasurer, on or before July fifteenth of each year, shall allocate all moneys received pursuant to the provisions of this Act and moneys received for those taxes for which a credit is allowed pursuant to section 6, notwithstanding the provisions of section 57-33.1-08, in the following manner:

1. The first one hundred thousand dollars of annual revenue received from the taxation of each coal conversion facility in each county pursuant to this Act shall be allocated one hundred percent to the county.

2. The second one hundred thousand dollars of annual revenue received from the taxation of each coal conversion facility in each county pursuant to this Act shall be allocated fifty percent to the county and fifty percent to the state general fund.

3. All annual revenue in excess of two hundred thousand dollars but not in excess of five hundred thousand dollars received from the taxation of each coal conversion facility in each county pursuant to this Act shall be allocated twenty-five percent to the county and seventy-five percent to the state general fund.

4. All annual revenue in excess of five hundred thousand dollars but not in excess of one million dollars received from the taxation of each coal conversion facility in each county pursuant to this Act shall be allocated fifteen percent to the county and eighty-five percent to the state general fund.

5. All annual revenue in excess of one million dollars received from the taxation of each coal conversion facility in each county pursuant to this Act shall be allocated ten percent to the county and ninety percent to the state general fund.

SECTION 15. DUTY OF COUNTY TREASURER—ALLOCATION TO POLITICAL SUBDIVISIONS.) Moneys received by counties under the provisions of section 14 shall be apportioned as follows:

1. Fifteen percent of all revenues allocated to any county shall be paid by the county treasurer to the incorporated cities of the county based upon the population of each incorporated city according to the last official decennial federal census;

2. Forty percent of the revenues allocated to any county shall be deposited by the county treasurer in the county general fund to be used for general governmental purposes; and

3. Forty-five percent of all revenues allocated to any county shall be apportioned by the county treasurer to school districts within the county on the average daily attendance distribution basis, as certified to him by the county superintendent of schools.

So the bill passed and the title was agreed to.

Senator Nething moved that the vote by which House Bill No. 1221 was passed, be reconsidered and the motion to reconsider be laid on the table. Which motion prevailed.

#### EXPLANATION OF VOTE

Senator Barth: I would like to explain my vote. Mr. President, I voted no simply because I disagreed with part of the bill and that's the part that I wanted to get back to conference committee to amend. It has been stated previously in all the committee hearings we heard that the consensus was that this is what should be done in order to keep electrical rates in line as much as is possible. I want the Senate to know that what we just did is going to increase electrical rates; there is no way it can be avoided. This is of course why I voted against it, and I do feel that I will have to go home and tell my people "Get ready for another electrical increase because the North Dakota Legislature just did it to you."

#### PERSONAL PRIVILEGE

Senator Stroup: Mr. President, I rise on a point of personal privilege. I think along with that, I agree wholeheartedly, we just increased the electrical rates to most of the consumers in the state of North Dakota, and I think we should also tell the people of North Dakota that along with this we have provided one large increase in all of the electrical rates to all consumers in the state of North Dakota through all of the bills we have been passing these last few days. That the severance tax at the level that it was passed very definitely is going to increase the electric rates to every consumer in the state of North Dakota where they are receiving their electric power through the generation of lignite coal facilities. That along with this, this is the plant tax, that too increases it. Along with this is the fact that the electric generating costs and electric costs were raised through the reclamation bill that was passed. In that that too, is going to very definitely have its effect on the electric facilities. Along with this is another one; and that was that we had a labor strike in the mines and we still have one going on. That the one that was settled very definitely increased, and there are some labor increased costs, involved in that one, and we have a federal reclamation law that also is going to add too. And I think the people of North Dakota should be prepared for a very healthy increase in their electric rates in the state of North Dakota as well as we've noticed that they've been experiencing them nation-wide.

FIFTY-SIXTH DAY

Bismarck, March 26, 1975

The Senate convened at 2:00 P.M., the President presiding.

Prayer was presented by Senator Solberg

TO

JOHN MAXSON STILLMAN  
IN TOKEN OF GOOD CHEER

A darkening sky and a whitening sea,  
And the wind in the palm trees tall;  
Soon or late comes a call for me,  
Down from the mountain or up from the sea,  
Then let me lie where I fall.  
And a friend may write -- for friends there be,  
On a stone from the gray sea wall,  
"Jungle and town and reef and sea--  
I loved God's Earth and His Earth loved me,  
Taken for all in all."

Let us join our hearts in prayer:

By Adaptation from Jordan

"Dear God we recognize today is your day and mine, the only day we have, the day in which we play our part. What our part may signify in the great whole, we may never understand, but we are here to play it, and now is the time. This we know, it is a part of action, for winning. It is a part of love, not cynicism. It is for us to express love in terms of human helpfulness. This we know, for we have learned from long experience that any other course of life leads toward decay and waste."

So help us complete the duties assigned to us. Make this a great day in accomplishment for North Dakota and a fulfillment of the desires of the body politic. We ask it all in Jesus' name. Amen."

Roll Call: All Senators present except Freed, Goodman, Kautzmann, Mutch, Ringsak, J. Schultz, Smykowski.

## PERSONAL PRIVILEGE

Senator Stroup: Mr. President, I rise on a point of personal privilege.

Members of the Senate in a little different vein we did not realize that the previous bill was going through just as rapidly as it had and it was going to be accepted because we thought it was going back to another conference committee and meantime we of the area that were not fortunate enough to be on the first list have devised one of our own that we would have liked to propose and we weren't quite ready with it, so for the benefit of the members of the Senate why we'll go down through a few of the buildings that we had but we don't have it in proper form and since that was clinched well we're not going to be able to present it. But we did have a few buildings and the first one was the Plainsmen Heritage Hall for \$3,000,000.00 at Mott and a \$3,000,000.00 gasification refugee center that would be located in Beulah and another \$3,000,000.00 building that would be the Bowman Bubble at Bowman and another \$3,000,000.00 appropriation would be needed for the West River Memorial Cemetery to be located in Dickinson. We needed \$2,000,000.00 for the Underwood Museum at Underwood and this is supposed to be the site of the last ton of lignite coal that is going to be mined. (That has an emergency clause on it). Then we have the civic center at Lignite City and that has a seating capacity of 1 million. 6 million of that appropriation is to be taken from the impact fund. We have the rehabilitation center at Grassy Butte, North Dakota. That is to rehabilitate the coal industry dropouts and last but not least the retirement home at Litchville, North Dakota. That is the site for west river legislators who will retire from public office and this is to be completed by 1977.

## PERSONAL PRIVILEGE

Senator Lashkowitz:

In view of the hard work and dedicated service of Senator Elton Ringsak and to promote and advance the causes and needs of the Grafton State School, I think it would be appropriate and fitting that the new building just authorized at Grafton be named in honor of our colleague, the Honorable Elton Ringsak, the distinguished State Senator from the 16th District.

In this legislative non-bicentennial year, I wish to make a timely and hopefully an appropriate statement.

Perhaps one of the less dramatic but yet more meaningful struggles in the 44th Legislative Session was the effort to restrict the right of citizens

or citizen groups to present their case for legislation without being subject to being singled out for scorn, humiliation and even degradation to an extent.

While all decent citizens have been repelled and sickened by the events reported out of our nation's capitol under the heading of Watergate, we here in North Dakota have sought to maintain open government where the citizens have ready access to the government. This means that the citizens — whether he or she is called a lobbyist or a political action group — should have the right to honorably and openly present his or her case for legislation without being subjected to degradation and even to some extent second class citizen status.

There were two bills before the current legislative assembly that could have far reaching implications as they related to the rights guaranteed citizens under the First Amendment to the Constitution of the United States assuring a citizen the right to speak, the right to print, the right to assemble and to associate and even the right of conscience needed to develop legislation and political activities.

I objected strongly to House Bill 1430 which began as an attempt to restrict labor groups in the exercise of their political rights. This attempt in House Bill 1430 ultimately was extended to occupational and professional associations, farm organizations, cooperatives as well as labor organizations. Further, House Bill 1430 as extended to apply beyond the use of membership dues to apply also to any and all funds which are given voluntarily for political or legislative action and consequently would in effect shackle and silence thousands of North Dakotans in the exercise of their personal and political rights. I was pleased to strenuously resist and oppose House Bill 1430 in the Senate which passed through by a narrow margin. Fortunately, Governor Link has since vetoed this bill and the House of Representatives has sustained the Governor's veto.

In the meantime another measure entitled Senate Bill 2368 designed to control "lobbying" moved through the Senate and House and then came back via the conference committee and was overwhelmingly approved by the Senate by a vote of approximately 47-4. My vote being amongst those in opposition. The following day, I sought to generate a move to reconsider Senate Bill 2368 and with the able assistance of Senator Evan Lips and Senator Elton Ringsak within the short space of two hours sought reconsideration and we were narrowly defeated by a vote of 26-25. This bill is now headed for the Governor's desk.

I feel that I have taken a consistent position by respecting the individual citizen in his or her right to freely petition one's government to seek redress of grievances and to lawfully and legitimately promote legislation.

It was my position that Senate Bill 2368 suffered deficiencies in being vague, indefinite, and too broad and sweeping in its purpose. The question arises under Senate Bill 2368 is "when is a citizen a lobbyist and when is a lobbyist a citizen?" The attempt to draw a distinction is quite unclear.

My position is that we must continue to exercise vigilance under existing laws and to keep the legislators and the citizens in a discreet, honorable relationship. This is certainly possible under existing laws. An offending citizen or a public official can be charged with bribery which is still a crime under North Dakota law. Whenever such a situation exists it should be ferreted out and dealt with severely under existing law.

In the guise of so-called reform, we may be over re-acting and perhaps in the name of reform abridging and crippling fundamental rights guaranteed our citizens under the First Amendment to the Constitution of the United States.

My position has been consistently that we should direct our energies

towards the development of a code of ethics for the guidance of the conduct and action of our legislators and other public officials.

Let us curb government — not the citizen in their rights to freely petition their government. My move in the current legislative assembly stems solidly from my long term personal commitment to our precious personal freedoms of redress of grievances under the Constitution of the United States.

Any attempt to make a judgment concerning the motivation of those of us who led this fight is to do a disservice to a sincere belief that the rights guaranteed by our Constitution are far more precious than an effort to enact a politically expedient piece of legislation which could only apply to a hand-full of miscreants while at the same time restricting thousands of people in their lawful contacts with their government.

If the legislative assembly and other segments of our government are so easily tainted and subjected to sordid influence, then all of the legislation that we might enact would be of no avail. The Bill of Rights in our Constitution must remain the bulwark of the American people and the people of North Dakota in their right to freely and honorably petition their government for justice, legislation, and redress of grievances.

Legislation of the moment must not be allowed to endanger basic American rights guaranteed by the Constitution to speak, to write, to freely assemble and the right to associate and to petition one's government for redress of grievances which includes the lawful request for legislation to correct inequities.

#### MESSAGE FROM THE HOUSE

Mr. President: I have the honor to inform you that the House has adopted the conference committee report on:

House Bill No. 1002

House Bill No. 1011

ROY GILBREATH, Chief Clerk

#### COMMUNICATION STATE OF NORTH DAKOTA EXECUTIVE OFFICE BISMARCK

March 25, 1975

The Honorable Wayne G. Sanstead

President of the Senate

Senate Chambers

Bismarck, North Dakota 58505

Dear Mr. President:

Senate Bill 2435 would preclude state government from providing maximum services to the citizens of North Dakota at minimal direct cost. It would prohibit state agencies, departments, or institutions of the Executive Branch (note that this does not include the legislative branch) from utilizing 100 percent federally-funded employees through such programs as the Public Employment Program (PEP) and the Public Service Employment component of the Comprehensive Employment and Training Act of 1973. During fiscal year 1975 alone through these two programs, some 450 persons have been employed in the legislative, executive, and judicial branches of government at a saving to North Dakota in excess of \$2 million. These dollars, instead, are provided through these programs because the state is willing to make available short-term training opportunities for citizens of the state who are disadvantaged or who are in need of work experience.

A report on public service employment in state government for six months ending December, 1974, indicates the following:

a. "With \$379,000 available to State agencies to hire personnel under the Public Employment Program (PEP) since July 1, 1974, 26 state agencies have hired 84 full-time employees through the first six months of the nine-month program. These people are working for salaries between \$400-\$1000 per month; the average full-time salary is \$570 a month. Student-veteran part-time positions, totalling 87, have also been filled. The average salary for these part-time positions is under \$250 per month. State agencies taking advantage of this 100 percent federally-funded program include State Radio, Highway Department, Employment Security Bureau, State Health Department, School for the Deaf, State Hospital, Vocational Rehabilitation, State Planning Department, Governor's Office, State Laboratory, State Historical Society, State School of Forestry, Heritage Commission, School for the Blind, North Dakota State University, North Dakota State School of Science, University of North Dakota, Dickinson State College, Veterans Affairs, UND-Williston, Minot State College, State Park Service, Vocational Education, Valley City State College, Motor Vehicle and Department of Agriculture. Those hired are working as bookkeepers, accountants, computer programmer, clerical aides, research and administrative assistants, maintenance men, secretaries, psychiatric aides, cooks, teachers, equipment operators and in similar capacities."

b. "Utilizing \$540,000 of federal funding available under Title II of the Comprehensive Employment and Training Act of 1973, 24 state agency requests for personnel have been approved. Some 67 people have been employed full-time as teachers, building supervisors, secretaries, administrative assistants, ward attendants at state institutions, correction officers and in similar positions. An additional 23 positions for part-time student veterans have also been filled. Full-time employees receive between \$350-\$825 a month. Full-time salaries average \$600 a month, while part-time position salaries average under \$250 a month. Agencies requesting and hiring public service employees under this 100 percent federally-financed program include Industrial School, State Highway, Legislative Council, State Penitentiary, State Health, State Hospital, Governor's Council, Indian Affairs, Social Services, Dickinson State College, Energy Management, State Laboratory, Bicentennial Commission, Office of the Governor, Water Commission, UND-Williston, State School of Forestry, Lt. Governor, Minot State College, Mayville State College, NDSU, School for the Blind, Grafton State School, and ND State School of Science."

The current law provides, among other things, that participants in various federal public employment programs may be allowed to work for state government provided no obligation is incurred on the part of the state:

54-16-04.1 MAY AUTHORIZE ACCEPTANCE AND DISBURSEMENT OF CERTAIN MONEYS. — The emergency commission with the advice and counsel of the executive office of the budget may authorize the state treasurer to receive, between legislative sessions, any moneys for new programs not appropriated by the legislative assembly that are made available by the federal government, or any agency thereof, which the legislative assembly has not indicated an intent to reject. The emergency commission may authorize any state agency, department, board, or institution to expend such moneys from the date such moneys become available until July first following the next regular legislative session; provided such expenditures must be consistent with state law and with the terms of the grant, and provide further that the program shall not commit the legislative assembly for matching funds for future bienniums unless the program has first been approved by the legislative assembly. No department, institution or agency shall expend funds received from

the federal government which have not been specifically appropriated by the legislative assembly except as provided in this chapter.

This statute provides adequate safeguard against unchecked growth in the size of state government while permitting state agencies, departments, and institutions to take advantage of federal dollars which may be made available for public service employment programs.

With limited employers in the state, it is appropriate that state government be included among the employment opportunities for our citizens. The state should have the opportunity to train these individuals when federal funds are available so qualified, experienced personnel will be available to fill vacant and necessary new positions in public and private sectors.

Therefore, I veto Senate Bill 2435.

Sincerely yours,  
ARTHUR A. LINK  
Governor

Senator Nothing moved that consideration to over-ride the veto of the Governor on Senate Bill 2435 be placed at the foot of the calendar, which motion prevailed.

#### PERSONAL PRIVILEGE

Senator Barth:

Mr. President and Ladies and Gentlemen of the Senate: I voted yes on this bill very reluctantly. We passed the bill out of the Finance and Tax Committee with a different fiscal note on it and I voted for it simply because the bill was going to pass anyway. I do believe that we have reversed our priorities and we are now thinking that we have offered some tax relief and we did in a sense if you look at a total figure of this bill, but I submit to you we are going to go back home with the mill levies we passed and we offered no tax relief whatsoever. I think we've just shifted the load from the income tax to the personal property tax but I have always had the feeling and suppose my thoughts will remain the same that I do believe the fairest tax we have is an income tax because that we do not pay unless we've earned a profit. We are going to shift the tax load to the property holder whether the business makes a profit, the farm, the ranch or what not the tax remains. So I think we've shifted our priorities. I do believe that it is in reverse of what the people back home really want. I did vote for the bill, it was going to pass anyway but it is not my thinking that this is the right bill.

#### PERSONAL PRIVILEGE

Senator Goodman:

Mr. President: I rise to a point of personal privilege.

I submit that we have now the figures that have all passed through both houses. We've now arrived at a point of just about \$43,000,000, closer to 44, in tax relief on income tax, business privilege tax, estate tax and the Vietnam bonus surtax, however you want to put that, and I submit that we've also in this session given \$38,000,000 or very close to it in property tax relief through passage of Senate Bill 2026 because if we hadn't given our state support to elementary and secondary education, they would have had to raise their money back home and the only way they can raise it is through property taxes. I think that is probably tax relief and I will stand to hang that on any occasion. I really think we've given a total of about \$80,000,000 in tax relief. You maybe can't subordinate Senate Bill 2026 and call it a tax relief package but believe me it held down your real estate taxes.

#### MOTION

Senator Melland moved that the absent Senators be excused, which motion prevailed.

#### MOTION

Senator L. Christensen moved that the Senate reconsider the action by which Senate Bill 2453 lost, which motion prevailed.

Senator Naaden moved that the Senate reconsider the action by which we adopted the Minority conference committee report on Senate Bill 2453, which motion lost.

President Pro-Tem Melland presiding

Senator Nothing: Mr. President, I rise on a point of personal privilege and request that Senator Lee be recognized.

Senator Lee: Mr. President, ladies and gentlemen of the Senate. It gives me a great deal of pleasure to have the very distinct honor of talking with you just a few moments this afternoon. We have come to the "Eleventh hour" of the 44th Legislative Session, it's the time when we have our little "love fest", I guess you could perhaps call it that. It gives me a great deal of pleasure to just say a few words about a friend of mine, I think he's my friend, we've disagreed in some areas, but we've agreed in many areas. I've served on the Finance and Taxation Committee with this gentleman, we have shared the same dormitory at night, I respect this man. He has fought hard for what he believes in; in fact he's fought with all his might, but once he leaves the Senate floor these animosities are left behind. It gives me a great deal of pleasure at this time to present to the Assistant Minority floor leader, Senator Francis Barth, a little token from your fellow Senators.

A gift was presented to Senator Barth.

Senator Barth: Mr. President, certainly by surprise, I want to thank Senator Lee for the kind words and I do want to say that many mornings it was real cold and Senator Lee and I would perhaps be leaving our building about the same time and I'd say "Senator Lee, do you need a ride?" She would say, "No, my car will start", and it did. And I recall one morning when my car didn't start and I immediately looked to see if I could see this little yellow car parked out there and Senator Lee was gone. I know if I had needed a ride, I certainly would have had a ride. It is with deep gratitude that I accept this, I might say to all the Senators that I realize we have some very serious debate and I certainly believe that we all believed in what we debated on, it has been a pleasure working with you and I certainly look forward to perhaps coming back and working with not all of you, but most of you. Thank you.

Senator Lee: Mr. President, I now yield the floor to Senator Holand.

Senator Holand: Mr. President, members of the Senate, I rise at this time to pay tribute to the very distinguished Senator from the 22nd district, who served so capably as the Assistant Majority leader, Senator Ernie Pyle. Senator Pyle is currently serving his fifth session in the Senate and he truly does represent his district of rural Cass County very effectively. Following in the lead of our distinguished President Pro-Tem and mastering the art of seconding every motion, Senator Pyle has mastered the fine art of moving that the absent Senators be excused. Seriously, Senator Pyle has been an effective Senator and like all of the more veteran members of this body has been most courteous, gracious and helpful to freshman members as well as the veterans. Senator Pyle, we members of the Senate all want to say "Thank-you" and present you with this gift as a token of our appreciation.

A gift was presented to Senator Pyle.

Senator Pyle: Mr. President, members of the Senate, I want to thank all you people for this. I haven't given many speeches and most of them have been short. Some of them have been when I've been irritated, so it's probably just as well I haven't given too many. I do appreciate working with you people; I have tried to do what my leader has told me to, I did miss today, I forgot to excuse the absent Senators, and the lady at the desk took care of it for me. I've enjoyed it, and thank you.

Senator Holand: Mr. President, I ask that you now recognize Senator Strinden.

Senator Strinden: Mr. President, it gives me a great deal of pleasure to rise on this occasion of the wrap-up of another session of the legislature. The man I am about to ask that a gift be presented to has glared at me on occasion, he has passed me a note on occasion; I've looked over and have seen the smile on his face and read the note and then I saw the halo kind of rise and I forgot about everything that he had written to me, which has not always been good, but in this two-party system that we have, it is a feeling that I think none of us can disregard. When the gavel sounds ending the session, we all know that we belong to a fraternity and after the session ends, the party is secondary; wherever we go throughout the state we can stop in and visit with a friend. I would state that Senator Hoffner has played the role of Minority leader in a commendable manner and it would be my wish that he would continue to play this role in a commendable manner. Mr. President, members of the Senate, it is with a great deal of pride that I have the privilege of presenting Senator Hoffner this token as a remembrance of the 44th Legislative Session. Congratulations to you Senator Hoffner.

A gift was presented to Senator Hoffner.

Senator Hoffner: Mr. President and members of this Assembly, I am going to mention some names today even if the Majority leader thinks we should talk in terms of district numbers. Senator Strinden, thank you very much and I have glared at you a few times, and there have been others. This is the time of the session that I really don't look forward to, because I enjoy the legislative session, and I enjoy the little differences we have. I don't enjoy the big differences we have, of course, as much as the little ones and I've had some disappointments, it's true, but I want to say that I do believe in a strong two-party system, I wish the Minority party was a little stronger, of course. There was one time, early in the session, about half way through the session, that I thought of forming a coalition with the conservatives; and I thought of going to Senator Mutch and asking him to come to my office and wouldn't you know the timing was really bad, because just then the Northwood Gleaner came out and my rating was so darn bad that Senator Mutch wouldn't even come in the office. But seriously, I have enjoyed working with this assembly, I've

enjoyed working with the leadership, my Minority assistant here, who I've had trouble holding down once in a while (I haven't really), Senator Nething, Senator Pyle, and all the chairmen. On behalf of the Minority, I want to assure you that we may go back and try to increase our numbers. I am sure you will understand, but it has been an enjoyable session and with the differences we have had, this is understandable, but we'll all go home and hopefully we'll all come back two years from now, but I want to thank you all and I certainly want to thank the desk force and all who have worked in this session, because I have enjoyed it very much.

Senator Strinden: Mr. President, I would ask, Mr. President, that you recognize Senator Lee Christensen.

Senator Lee Christensen: Mr. President, ladies and gentlemen of the Senate. The activities and the challenges of being a member of the legislative assembly, and particularly of the Senate, is a very stimulating experience. Few men or women have the opportunity to serve in the position of leader of the Majority party. I am certain it is a responsibility that at times seems awesome, that the problems seem insurmountable and that the Minority seems to be insufferable. Senator Nething has weathered all of these storms and has successfully kept the Majority on its designated course. Now it's my pleasure on behalf of the members of the Senate to present this gift in appreciation, Dave, of your service to the North Dakota State Senate. We have all appreciated the efficient and courteous manner in which you have managed and directed the business of the Senate. We have appreciated the humor which at times you have used to lighten some of the tight situations that develop in the legislative process and so as we pack our books and papers and memorabilia of this legislative session and say our farewells, I again want to express our appreciation for the diligent and effective manner the Majority leadership has used in processing all the legislation that passes through this Senate. Our congratulations to you.

A gift was presented to Senator Nething.

Senator Nething: Mr. President, ladies and gentlemen of the Senate, I have a tendency when nice things happen to get a little bit moved, so you have moved me. Mr. President, ladies and gentlemen of the Senate, in December when I was elected by our party to be the Majority leader, it was one of real mixed emotions, because I had never been involved in a leadership role as my counterpart in the House had, and as you know those days were quite hectic. Frankly there were times when I had to counsel with some of the other individuals who had been in leadership before to really try and find a direction. But there was an incident that happened about the second day here that really kind of made me feel that I would be comfortable, even though in a new job, and that was when one of the new Senators came up to me and asked if I could tell him where the rest room was. You know that was really about the only thing I knew for sure at that time. A couple of other things have happened, it's funny the different kind of nicknames you take on down here, and contrary to rumor, the Pillsbury people have not contacted me, but I could probably handle their "dough". There is another Senator that has been very respectful. I started out as the "great white father" and lately it has been just plain old "g.w.f." Mr. President, ladies and gentlemen of the Senate, I would hope that everyone would have the opportunity to be a Majority leader. Then on the other hand, I am not so sure that all of you would feel very comfortable doing it. Your work with me has made me feel comfortable and I sincerely appreciate all the help that's been given to us and to the Minority members, I want you to know that I have prepared a press release, tentative of course, depending upon how the rest of the day goes, thanking you publicly for your efforts during this legislative session. There are so many people that, you know, they see us visiting with the

Minority members, and they kind of wonder, well you know, what's the matter, are they going soft, or what's the deal, but really the Minority has a role in the legislature to play and you have played it well, I think we've at times, perhaps when we irritated you, it hasn't been with the intention of irritating you per se, it has been more an expression of feeling at the time and in leaving this session, I must admit that I will miss all the members of the Minority as well as the Majority, and if at any time you come through Jamestown, I would appreciate your stopping and saying hello.

Senator Lee Christensen: Mr. President, I now ask that you recognize Senator Berube.

Senator Berube: Mr. President, about this time of the session, every year when it comes around, it reminds me of the first session that I was here, that was in 1953, a little different than what it's now. We had a 25-24 vote that time, and there were tempers flying from morning til night and there wasn't a moment that there wasn't a fight of some kind, and at the end of the session about like this time, Senator Day got up and said, looking back at this last sixty days, he said, I just wonder if we can approach each other at arm's length for gifts and tokens. I think we might just as well give them at the end of a fishpole. And now, Mr. President, I am privileged to be able to express the tremendous regard we of the Senate have for the gentleman to whom I am to make the next presentation. I am speaking of Lt. Governor Wayne Sanstead who has wrapped the gavel loud and clear when calling this body to order. The Senate has chosen today to recognize him with a small token of appreciation. Each of us have had some difference of opinion at times and he has handled these well, and in all fairness to the best of his ability. He has performed admirably and we extend our best wishes to him and his family in the future.

A gift was presented to Lt. Governor Wayne Sanstead.

Lt. Governor Wayne Sanstead: Mr. President, Senator Berube, ladies and gentlemen of the Senate, it has been a real privilege to serve you in the role of presiding officer. I have really gained a lot myself from the experience in being in that chair, and I can only liken it to sitting on a ton of dynamite each and every hour of the day that goes by. I want to express my deep appreciation to each of you, who I think have been ladies and gentlemen, who have been a credit to those persons who sent you here as elected officials of the State of North Dakota, and I express my appreciation too to the Majority leader with whom I have worked closely in seeing that this body did its business in an efficient and effective manner. I know that he hasn't told us the whole story about the "Poppin' Fresh" doll because from where I sit, I can see that it says "soft, washable, non-toxic and movable". I have been corrected, "movable head". I want to say that it has been a real privilege for me to have this opportunity to preside over the Senate the second time, I have enjoyed it very much. I appreciate all the assistance that has been given me, particularly by the desk staff, and by those who have worked with us, seeing that this 44th legislative session of the Senate was a success. Thank you.

Senator Berube: Mr. President, I now ask that you recognize Senator Goodman.

Senator Goodman: Mr. President, fellow Senators, I am really pleased this afternoon to make this presentation to our President Pro Tem, Senator Melland, and for some reason I think, I am even more pleased this afternoon than I would have been if this had happened yesterday afternoon. I am sure that Senator Melland is the only President so far in this session, so far, that hasn't had any problem in identifying Senator Nething even when he had his red coat on. But, you know, Bob Melland has a mastery of words, he's truly a man of words, and because of that it

kind of makes me a little nervous making this presentation and then I stop and then I realize as Senator Solberg also realizes that Bob is really nothing but the verbosity of a conspicuously articulated neuritis which eludes the complexities of the "something like that". Well, anyway, Bob is really a man of words. But very seriously, as our President Pro Tem, Bob Melland has indeed been an outstanding Senator as he is also an outstanding leader in the business world and in his own community, and we thank you, Bob, for the contribution you have made to this assembly.

A gift was presented to Senator Melland.

Senator Melland: Mr. President, ladies and gentlemen of the Senate, the privilege that you have given me of presiding in the absence of our President is one that I'll always cherish. I would just like to say a couple of things about it. For one thing, it really is a privilege and I think the Lt. Governor will concur in this, to be able to sit up here and with a slow glance, take all of you in, and you truly are a marvelous body, you are alert, you're intent, you care what's happening and you make it easy to preside for one who's not necessarily familiar with doing it and I thank you very much for that. The other thing I would like to say to you is that you have been very tolerant about many things, and Senator Goodman I am, like you, glad that this is happening today instead of yesterday afternoon and I was going to say that you could have avoided all of this difficulty if Lt. Governor Sanstead would have just left town the day that I introduced the amendments to House Bill 1468. Then I would have been presiding and I don't know which of you would have introduced those amendments. So thank you very much.

Senator Goodman: Mr. President, I ask that you now recognize Senator Solberg.

Senator Solberg: Mr. President and members of the Senate, I have a distinct pleasure and have had that pleasure all this session to serve as chairman of an excellent Committee on Employment. They have worked well together, I think we have had responses from you that indicate that we have had real success in our relationship and communications between the employees and those of us that must serve the people directly, and I couldn't help, but as I walked by one of the doors sometime back, and Senator Nothing made the comment he was moved, I heard them say "Let's move Nothing". So that is not new. Also I think sometimes, that we feel like there needs to be some moving around and it kind of reminds me of Ole, Mr. President, if I may illustrate that way in this august body because it indicates that sometimes we have to move quickly and we don't quite know what moved us. "Ole was a fellow who lived on a farm and had no conveniences, he moved into town, and he forgot that he didn't have to strike the match to light the lamp and so he always struck the match and lighted his way and then pulled the switch on the electric lights. This day his house had filled with gas and the minute that he lit the match, the house blew to smithereens. Up went Ole, up went the house and he landed out there in time behind the back yard of his neighbor and he looked over and saw the empty space where his house was and his neighbor ran out very quickly and said, 'Ole, are you hurt?', No, but I'm glad I got out of there when I did." So, I'm quite sure some of our employees felt that way too, Mr. President. Now I'm going to need several of the pages, if they will please, come to my desk, because I have several people that we want to recognize at this time. If the pages will come and help, why we will do this as quickly as we can and with expedition. This is for Doris at the desk, then we want to recognize Al, we call them by their first names, now you see. And we want to recognize Olger, we want to recognize Art, and to Vern, we have a gift too, and to the man who coordinates it all and makes the things function properly and keeps the employment committee happy and we know also many of the employees are happy — our good friend and efficient Secretary, Leo.

Senator Solberg: Mr. President, will you recognize the Secretary of the Senate, Leo Leidholm.

Leo Leidholm: Mr. President, members of the Senate. First of all I would like to thank you on behalf of the desk force and our sergeant-at-arms, for the treatment and the tokens that have been given to us, and now Mr. President, on behalf of the employees of the 44th Legislative Assembly, we wish to present the members of the Employment Committee with a small token of our appreciation. We sincerely hope we have served you well and offer to each of you our best wishes for the future. If the pages will come forth and receive these gifts and present them to the members of the Employment Committee. Thank you.

Gifts were presented to Senator "Esky" Solberg, Senator Ken Morgan, Senator Shirley Lee, Senator Harry Iszler, Senator Ernest Sands, Senator Lester Larson, Senator Pam Holand and Senator Roland Redlin.

The "President" would like to recognize the President to come back up and we will return to another order of business.

Senator Morgan: I indeed appreciate the employees' giving me this present, but I received another one today. Since 1961, it has been my privilege to sit beside, who I think is the most intellectual man in the Senate. We have had our differences, but we have always gotten along well most of the times we have worked together. Today I was quite surprised with a gift from Senator Ringsak and his wife Ruth, of a real nice bracelet with my name engraved on it, and I want to thank the Senator for the privilege of being able to sit next to him.

Senator Vosper: Mr. President, I would like to just take a few moments to thank the Majority leader for telling me where the bathroom was that day.

Senator Solberg: Mr. President, having acted as a lobbyist, I know that the true definition of a hangover is the burden of too much proof. On behalf of the Employment Committee, I thank the employees for the souvenir cup that they have presented each of us. This is nice, and it's going to be something that will help us remember you, too.

Senator Nothing: Mr. President, I would like to thank all of the employees and the desk force on behalf of all of us for the fine work that they have shown us and the cooperation.

Senator Nothing: Mr. President, I move that a committee of three be appointed to notify the Governor that the Senate has completed its current business and is about to adjourn sine die, which motion prevailed.

The President appointed as such committee:

Senator Clarence Schultz

Senator Kent Vosper

Senator Lee Christensen

Senator Nothing: Mr. President, I move that a committee of three be appointed to notify the House that the Senate has completed its current business and is about to adjourn sine die, which motion prevailed.

The President appointed as such committee:

Senator Ernest Pyle

Senator Stanley Wright

Senator Rolland Redlin

Senator C. Schultz announced that the committee appointed to inform the Governor that the Senate had completed its work and is about to adjourn sine die, had completed its work and asked that the committee be discharged, which request was granted.

Senator Pyle announced that the committee appointed to inform the House that the Senate had completed its work and is about to adjourn sine die, had completed its work and asked that the committee be discharged, which request was granted.

Senator Nothing moved that the Senate adjourn sine die, which motion prevailed and the Senate stood adjourned sine die.
