In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

The proposal to increase the levels of assessments and contributions in House Bill 1075 is a combined effort with House Bill 1073 to provide the North Dakota Teachers' Fund for Retirement with additional income necessary to address a projected unfunded liability of \$68.3 million over a 40 year period. In the 1977-79 biennium, this proposal would increase the net income to the fund by approximately \$3,386,861. The additional cost it would create for counties for the 1977-79 biennium would be \$33,162.

The costs of implementing and maintaining the provisions of this bill will require that an additional \$98,000 be appropriated to the operating budget of the North Dakota Teachers' Fund for Retirement.

If it appears this legislative proposal may have a fiscal effect upon one or more of the cities and counties of this state but your agency does not have the information available, or cannot gather the information on a timely basis, to allow a dollar estimate, please check one or more of the following:

\_\_\_\_\_ The measure does have a fiscal impact in an unknown amount

\_\_\_\_\_ The measure does have a fiscal impact in a dollar amount estimated on the basis of inadequate information. (Enter dollar estimate in space above).

\_\_\_\_\_ The fiscal impact of the measure is unknown.
