In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

The objective of S.B. 2189 is to permit the State to acquire civil and criminal jurisdiction over the Veterans Administration hospital grounds. The effect would be to allow the State to arrest and prosecute the perpetrator of a crime committed on the hospital grounds, for example. The State has no such present authority. Its only significant fiscal impact appears to be on the law enforcement system. The anticipated frequency of incidents requiring such State action is low. The present Cass County State's Attorney's office would undoubtedly be able to prosecute those violations without any special increase in personnel or funds. The Fargo police department patrols the general area in question at present and, therefore, this bill, if passed, would not appear to have any significant increased economic consequences in that regard.

If it appears this legislative proposal may have a fiscal effect upon one or more of the cities and counties of this state but your agency does not have the information available, or cannot gather the information on a timely basis, to allow a dollar estimate, please check one or more of the following:

_____ The measure does have a fiscal impact in an unknown amount

_____ The measure does have a fiscal impact in a dollar amount estimated on the basis of inadequate information. (Enter dollar estimate in space above).

X _____ The fiscal impact of the measure is unknown.
