In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

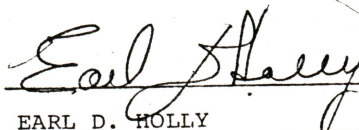

It is impossible to project a dollar amount associated with this bill. We have absolutely no way of determining how many qualified North Dakota servicemen were involved with the cited activity during the period in question until each serviceman submits an application for compensation.

Even if we were able to determine the number of North Dakotan's who were in the various services during that period, there is no way in which we could determine their location of assignment which could have been anywhere in the world.

Only one factor can be determined at this time with respect to this bill. In the event that the phrase, contained in the bill on line 15, "shall be eligible for foreign service payments" is construed to mean that the payment will be based on the amounts specified for the Vietnam Adjusted Compensation Act, the maximum amount payable for the three month period would amount to \$52.50 per individual. This figure is as a result of payment based upon \$12.50 per month for being in the service and \$5.00 per month for foreign service duty.
