“Our Heavenly Father, give us, in these moments, an awesome sense that it is not our business, nor even the State of North Dakota’s business we are about—but Your business. And may we remember that all we do here will have reverberations around Your world. Give us a healthy sense of time, that we may use it as the precious gift it is. In the midst of our busyness, let us take time to set our priorities, knowing with the saint of old, that ‘except the Lord build the house, they labor in vain that build it.’ We would rely on your strength to sustain us according to our need—and we give You thanks for the bountiful graces which surround us. Amen.”

“I rise to place in nomination the name of one of our distinguished colleagues for the important position of the President Pro-Tem of the North Dakota Senate, the Honorable Howard A. Freed. Our colleague is a

native of Dickinson, North Dakota and received his early education in that area. He is a graduate of the law school of Marquette University. He served his nation ably in World War II. Senator Freed was elected to the North Dakota Senate and served in his first session in 1967 representing the 37th legislative district. During his career in the Senate he has served ably on the Senate Committee on Judiciary, on Political Subdivisions and the committees on Social Welfare and Veterans Affairs. In the legislative sessions of 1973 and 1975 he served as chairman of the Committee on Judiciary. Senator Freed served as a member of the Legislative Council in 1973, and has been chairman of numerous committees of the Council, all pertaining to the work of the Judiciary Committee. When I became a member of the North Dakota Senate in 1957, Howard Freed's father, the Honorable Amos Freed, was a member of this body. It has been my great privilege to have served in this Senate with these great individuals, first Senator Amos Freed, and later years his son, the Honorable Howard Freed, who is now one of our trusted colleagues. The late Senator Freed, Amos, served as President Pro Tem of this body in 1959. During the Fifth Order of Business, the Secretary shall announce that committee reports have been received, if such is the case, and shall list the bill or resolution number, or other identifier, and state the accompanying committee recommendation. When a measure is on the calendar on the Tenth, Eleventh, or Fourteenth Order of Business, the Secretary shall again announce the committee recommendation concerning that measure. If the committee report is divided pursuant to Rule

#### 47. DIVIDED COMMITTEE REPORT

In case all the members of any committee, including a conference committee, required or entitled to report on any subject referred to them, cannot agree upon any report, the majority and minority may each make a special report, and any member or members dissenting in whole or in part, from the reasoning and conclusions of both the majority and minority may also present to the Senate a statement of his or their reasonings and conclusions; and all reports, if decorous in language, and respectful to the Senate, shall be entered at length in the journal, and shall be announced by the Secretary as provided in Rule 46.

If one or more of the reports presented pursuant to this rule recommend an amendment to the legislative measure under consideration, the Secretary shall, during the Fifth Order of Business, announce the fact that a divided committee report has been received, including a report, or reports, for amendment. The amendments shall then go on the calendar under the Sixth Order of Business in accordance with Rule 46.

If more than one amendment is recommended by divided reports relating to a particular measure, the President shall direct that they be placed on the calendar in order in accordance with the number of members signing the report, with the amendment recommended by the report signed by the largest number of committee members being placed on the calendar first. In the event that the reports recommending amendment are signed by an equal number of members, the President shall determine by some other equitable method the order in which they will be placed on the calendar during the Sixth Order of Business. The President shall also rule, in the case of a divided committee report recommending two or more amendments, as to the effect of the passage of the first amendment on each subsequent amendment recommended to that particular legislative measure.

The provisions of the Senate Rules 46 and 53 shall not prohibit the ((adoption))) reading of a conference committee report ((, together with))) and adoption or rejection of any amendments therein recommended, nor the placing of any bill or resolution affected by such conference committee report on the calendar for final action on the same day the conference committee report is received ((by majority vote of members-elect))), nor shall the requirement of placing a full mimeographed or printed copy of ((a committee report))) recommended amendments in the hands of all members apply to conference committee reports ((, or amendments, bills, or resolutions affected by the conference committee report))) for amendment.

The chairman of the conference committee representing the house of origin of the bill or resolution under consideration shall ensure that minutes of the meetings of the conference committee be kept in the same manner as other standing committee minutes. Conference committees appointed pursuant to this rule shall confine their conferences and recommendations to consideration of the stated difference which gave rise to the appointment of the committees. The conference committee report shall first be submitted to the house having possession of the bill over which the difference has arisen, where it shall be acted upon and notice of such action transmitted to the other house. When the other house shall have also acted upon the report, it shall notify the house having possession of the bill, which house shall, if appropriate, proceed to take action on the bill and transmit it to the other house for appropriate action.

The fiscal notes required by this rule may be requested by the Legislative Council staff or committee chairmen in the same manner as fiscal notes are requested under Joint Legislative Rule 14.

2. Report that the measure does have a fiscal impact in a dollar amount estimated on the basis of inadequate information.
3. Report that the fiscal impact of the measure is unknown.

#### 24. JOINT CONSTITUTIONAL REVISION COMMITTEE

All resolutions proposing amendments, additions, or repeals to the Constitution of the State of North Dakota shall be referred to the committee. The committee will report on those resolutions in the same manner and in accordance with the same time schedules as do other standing committees. A resolution shall be first reported back to its house of origin.

No))) **no** measure enacted or approved by a vote of the electors shall be repealed or amended by the legislature, except by a two-thirds vote upon roll call of all members elected to each House. Forty-fifth Legislative Assembly

## FIRST DAY

Bismarck, January 4, 1977

At the hour of twelve o'clock noon of the fourth day of January, 1977, according to the Constitution of North Dakota, the North Dakota Senate convened in its regular session, President Wayne Sanstead presiding.

Prayer was offered by Rev. Norman Winkelman, Calvary United Methodist Church, Bismarck.

"Let us pray. God of our Fathers, in whose name this nation was born, we thank You that this land is still governed by persons chosen by the people. As these chosen persons fulfill their duties, guide them, O God, in the decisions they must make. Give them clear minds, compassionate hearts, and an openness to Your wisdom and guidance. Help them to follow the example of the servanthood of Your Son, Jesus Christ, who came into this world 'not to be served, but to serve.' May truth, justice and honesty be guiding lights for us all as individuals, as a State, and as a nation. We pray in the name of Jesus Christ, our Lord. Amen".

Roll Call revealed all Senators present except Christensen, Lodoen, Orange and Tennesos.

A quorum was declared by the President.

### MEMO

To: President, North Dakota State Senate, Speaker, North Dakota House of Representatives; Majority Floor Leader, North Dakota State Senate; Minority Floor Leader, North Dakota State Senate; Republican Floor Leader, North Dakota House of Representatives; Democrat Floor Leader, North Dakota House of Representatives.

From: Allen I. Olson, Attorney General, State of North Dakota  
Gentlemen:

The purpose of this memo is to remind you of the policy we initiated in 1973, pursuant to Subsection 8 of Section 54-12-01 of the North Dakota Century Code, regarding opinions when the Legislative Assembly is in session.

Subsection 8 of Section 54-12-01 reads as follows:

"8. Give written opinions, when requested by either branch of the legislative assembly, upon legal questions;"

To further clarify our policy, Subsection 6 of the same section reads as follows:

"6. Consult with and advise the governor and all other state officers, and when requested give written opinions on all legal or constitutional questions relating to the duties of such officers respectively;"

Our policy is to comply with Subsection 8 when the Legislative Assembly is in session and when not in session to consider all legislators as state officials so that when the Legislative Assembly is not meeting as a body, legislators are still entitled to receive opinions from this office. Pursuant to Subsection 8, individual legislators' questions must be presented as a question from either of the Houses through the respective presiding officers.

I recognize that this procedure is somewhat cumbersome, but it does comply with what we believe to be the intent of the statute and it does tend to provide for continuity and quality of opinions from this office.

Thank you for your cooperation and best wishes for a productive session. I assure you of our total cooperation toward that goal.

1 A concurrent resolution urging acceleration of the Garrison

2 Diversion Project.

3

4 WHEREAS, the Garrison Diversion Project envisions  
5 movement of water from the Missouri River watershed over the  
6 continental divide into the watersheds of central and eastern  
7 North Dakota; and

8 WHEREAS, the waters will augment the normal rainfall for  
9 irrigation, for municipal and industrial use, for fish and  
10 wildlife, and for recreation; and

11 WHEREAS, the mainstem dams and hydroelectric plants  
12 constructed under the plan cost North Dakotans more than  
13 500,000 acres of land through the construction of the Oahe and  
14 Garrison reservoirs; and

15 WHEREAS, the Garrison Diversion plan, with its provision  
16 for 250,000 acres of irrigation in its initial phase and more  
17 than a million acres for irrigation in later phases, plus water  
18 for municipal and industrial uses, for fish and wildlife, and  
19 for recreation, is the commitment and consideration for the  
20 loss of those half-million acres of rich Missouri River  
21 bottomland; and

22 WHEREAS, many central and eastern North Dakota cities and  
23 rural areas lack adequate supplies of usable water due to  
24 deposits of iron, sulfates, alkali, salt, nitrates, and other

1 hazardous substances which make water unsuitable for human use;  
2 and

3 WHEREAS, severe drought conditions which periodically  
4 strike North Dakota are presently being experienced in the

6 water supplies for human purposes and needs even more critical;  
7 and

8 WHEREAS, the Garrison Diversion Project will provide  
9 municipal and industrial water supplies for large population  
10 areas of central and eastern North Dakota; and

11 WHEREAS, only 20 percent of the total project has been  
12 completed due to repeated delays; and

13 WHEREAS, public opinion polls have shown citizen support  
14 for the Garrison Diversion plan growing in recent years and  
15 have shown continued strong North Dakota support for the  
16 project;

17 NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF

18 OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES  
18a CONCURRING

19 THEREIN:

20 That the Forty-fifth Legislative Assembly strongly urges  
21 acceleration of the Garrison Diversion Project without delay to  
22 enable the citizens of North Dakota and the region to benefit  
23 from the additional, critically needed water supplies which  
24 would become available to the region to sustain and maintain  
25 life; and

26 BE IT FURTHER RESOLVED, that copies of this resolution be  
27 forwarded by the Secretary of State to the Chairman of the U.S.

We who are gathered here this day, know that we cannot do our task without your help.

Collectively we can see Your hand and perceive your spirit as the panoramic history of our state flows quietly by.

We detect a glimpse in our historical scan of the faith of some tall people. People who found faith in you, faith in themselves, and faith in each other.

In still in each one of us here this day a new sense of direction; a new set of values; a new stance in an understanding of devotion that will further the cause of freedom and deepen our trust in you — that your name may be glorified through our humble efforts in this corner of your vineyard.

In Your Name we pray, Amen."

#### RECOGNITION

Senator Nething announced to the Senate that Dr. Jonathan B. Weisbuch, State Health Office was in the chamber and moved that the President appoint a committee of two to escort Dr. Weisbuch to the rostrum to explain the emergency medical program available in the State Capitol building. The motion prevailed and the President appointed as such committee, Senators Berube and Lips. Dr. Weisbuch was escorted to the rostrum and addressed the Senate.

Dr. Weisbuch:

Thank you Mr. President. Honorable members of the Senate of North Dakota, ladies and gentlemen and guests: Speaking with you this afternoon is on the Capitol Emergency Medical system is a real privilege for me, and it is one that I very much appreciate. The importance of this program certainly cannot be underestimated or understated. For the correct use of this system will reduce any kind of pain and anguish that might come from any one of you or any visitor in the capitol who may fall

ill. And it certainly, in some instances, may in fact prevent death. We have made available to you through the Division of Emergency Medical Services in my department a series of handouts, which I think appear on your desk, which describe in some detail the structure and the function of the emergency medical service that exists here in the capitol. I would like to take the opportunity, however, to go through some of this material and then, if time is available, maybe we can even test the system to see if, in fact, it does function as it has been designed. There are seven basic elements in the Emergency Medical Services system that exists here in this building.

1. Management
2. Training
3. Equipment
4. Communications & Dispatch
5. Transport
6. Public Access
7. Financing

These elements function as described below:

1. **MANAGEMENT** — A Capitol Building EMS Committee has been formed through the State Department of Health. This was done upon the Governor's request. The committee deals with such issues as training, refresher training, equipment, financing, and other areas as may be necessary.

2. **TRAINING** — Training was provided by the Division of Emergency Health Services to an average of three persons per floor of the Capitol Building. The initial training program was 40 hours in length, with emphasis on the types of medical emergencies most likely to be found in the building. Care of the cardiac patient received special attention. The course was an adaptation of the Emergency Medical Technician (EMT) training course. Four hours of refresher training is provided every two months. Elevator operators have also been provided instructions as to their role in a medical emergency.

3. **EQUIPMENT** — Four identical sets of medical equipment were purchased. The equipment is stored on rolling carts for ease of mobility. Carts are housed on the ground, 6th, 11th and 16th floors. Additionally, a folding cot, spine boards, and necessary splints are housed on the ground floor to serve the entire building.

4. **COMMUNICATIONS & DISPATCH** — A Capitol extension telephone number (2121) can be dialed to report a medical emergency and request further aid or an ambulance. The dialed number is answered by State Radio personnel, who are medically trained (EMTs) and are experienced in handling emergency calls. All medically trained Capitol Building personnel are on file at State Radio and can be dispatched accordingly, as can an ambulance. State Radio operates on a 24-hour, 7-days-a-week basis.

5. **TRANSPORT** — Arrangements have been made with the Bismarck Ambulance Service to transport patients to the hospital of the patient's choice. The ambulance utilizes the tunnel entrance to the Capitol. Personnel attending the patient will continue treatment after arrival of ambulance personnel if appropriate, and accompany the patient in the ambulance to the care facility.

6. **PUBLIC ACCESS** — On each floor of the Capitol Building is a large poster (see attachment) indicating the trained persons on that floor plus

those trained on the floor above and the floor below. The poster also indicates where the medical equipment is stored, the emergency telephone number to call, and explicit instructions on what to do in a medical emergency.

7. **FINANCING** — Upon request of the Capitol Building EMS Committee, the State Emergency Commission made \$2,500.00 available to provide the necessary training aids and equipment. Funds are monitored by the State Department of Health.

#### HOW THE SYSTEM WORKS

Upon discovery of a medical emergency, the person discovering the emergency does the following: (See attachment)

A. Locates an emergency medically trained person on the floor as shown on the poster. If not available on that floor, he goes to the floor above or the floor below to locate an appropriately trained person who renders patient aid.

B. Takes directions from medical personnel responding, such as:

1. Summons emergency elevator. Elevator operator has instructions to do the following:
  - a. Immediately discharge all passengers on the nearest floor.
  - b. Responds to floor summoned to await instructions.
2. Obtains or directs someone to obtain medical equipment at closest location for the medical attendant. (Equipment storage locations are listed in emergency elevator.)
3. Contacts State Radio for additional assistance as appropriate. (Additional medical aid, ambulance, police, etc.)

After the above steps have been completed, the patient is transported accordingly.

The emergency number throughout the state is 1-800-474-2121.

#### RECOGNITION

Senator Nething: Mr. President, members of the Senate, we are honored today to have with us the Chairman of the Legislative Compensation Commission to submit his communication on behalf of the commission and Mr. President, I move that a committee of two be appointed to escort Chairman Gorman King to the rostrum for his report. The motion prevailed and the President appointed as such committee Senators Melland and Larson. Chairman King was escorted to the rostrum and addressed the Senate.

#### REPORT

of

#### THE LEGISLATIVE COMPENSATION COMMISSION

submitted to

The Forty-fifth Legislative Assembly

January 1977

Mr. Gorman King, Chairman

The Legislative Compensation Commission created by the 1969 Legislative Assembly consists of five members appointed by the Governor to four-year terms. The Governor also appoints one of the members as chairman of the commission. The current commission membership is: Mr. Gorman King, Bismarck, Chairman; Mrs. Mavis Couchigian, Grand Forks; Dr. James Mahoney, Devils Lake; Mr. Edward Nesemeier, Casselton; and Mrs. Florence Olson, Enderlin.

The commission's principal responsibility, as outlined in Sections 54-03-20.2 and 54-03-20.3 of the Century Code, is to make recommendations concerning the appropriate rates of expense allowance and reimbursement for legislators during legislative session, and for interim legislative work.

The commission believes rates of compensation and reimbursement should be designed to permit citizens to hold legislative office without undue financial sacrifice or disadvantage, but should not be designed to work a detriment to the citizen-legislator concept.

The commission is required by law to report to each Legislative Assembly within 10 days after it convenes in regular session. The commission is also authorized to seek the assistance of the Legislative Council staff, which assistance has been provided during this biennium. The 1975 commission report contained three specific recommendations concerning legislative expense reimbursement, and a fourth recommendation that the Constitution be amended to create a Legislative Standards Commission. The three specific reimbursement recommendations were that the daily session unvouchered expense allowance be increased to \$60 a day; that the interim mileage reimbursement be increased from 12 cents to 15 cents per mile and the lodging and meals allowance be increased to a total of \$30; and that the monthly un-

vouchered expense allowance be increased from \$50 to \$150 per month. The latter recommendation was amended to increase the monthly allowance from \$50 to \$75 per month but the first two recommendations were adopted by the Legislative Assembly. The resolution amending Section 45 of the Constitution to provide an independent commission to set legislative pay and compensation was indefinitely postponed. A similar resolution was defeated at the general election on November 5, 1974.

The commission considered "typical" legislators compensation and expense reimbursement during the current biennium before it formulated its recommendations. It was assumed that the typical legislator served on one interim committee of the Legislative Council, that he lived 100 miles from Bismarck, that he was not the chairman of the standing or interim committee, and that his interim committee met four times during the interim.

Section 45 of the North Dakota Constitution sets the salary for legislators at \$5 a day and allows 10 cents per mile of necessary travel to and from the place of meeting of the Legislative Assembly. The compensation for a 60-day legislative session, including the maximum of round trips to and from the Capitol, calculated at an average round trip of 200 miles, amounted to \$440. Compensation for an 80-day session including travel would amount to \$540.

In addition to the salary level set by the Constitution, the legislature has provided unvouchered expense allowance for its members. In 1975 the Legislative Compensation Commission recommended and the legislature passed a measure providing that the daily session unvouchered expense allowance be increased from \$50 to \$60 a day. This amount is to be paid for each calendar or natural day during an organizational, special, or regular session as well as for each day or portion of a day spent in traveling to or returning from those sessions.

The 45th Legislative Assembly convenes on January 4, 1977, and the 60th legislative day ends on Monday, March 28, 1977. Including two days travel to and from the session, the 1977 Session would cover 86 natural or calendar days. Under the current language, Section 54-03-20, the expense allowance for living, which includes meals, lodging, uncompensated travel, and other necessary expenses would amount to \$5,160. If the legislature uses the 80-day session as authorized by the voters in November, natural or calendar days for the session would be 114 days and the expense allowance would amount to \$6,840.

The 1975 Legislative Assembly raised the monthly unvouchered expense allowance to \$75 per month. The total for the monthly expense allowance for the biennium amounts to \$1,800.

With respect to reimbursement of specific current expenses, Sections 44-08-04 and 54-06-09 of the North Dakota Century Code provide interim mileage reimbursement of 15 cents per mile and lodging and meals allowance of \$26 per day. During the interim a typical legislator attended eight days of meetings and made four round trips at 200 miles per trip. At \$45 per day for 10 days (included four half days for travel), 15 cents per mile for 800 miles and eight days at \$26 per day and two days claiming third and fourth quarter expenses, the average reimbursement for the interim was \$820.

The typical legislator's total biennial compensation and expense reimbursement during 1975-76 would be \$8,220. The average amount received per month would be \$342.50. Of this amount the actual com-

pensation received (i.e., daily constitutional salary during the session of \$5 and interim per diem of \$45) equals \$890 per biennium, and the average compensation per month equals \$37.08. The average compensation per day spent on legislative work, excluding work in the legislative district for constituents or while campaigning, was \$11.86 per day.

North Dakota is ranked 42nd among the states with regard to legislative compensation, according to a publication prepared by the Citizens Conference on State Legislators, September 1975. In 1974-75 North Dakota ranked 45th, and ranked 47th in 1971, in estimated biennial compensation paid its legislators.

North Dakota's neighboring states are ranked as follows: Minnesota is ranked 13th with an average total biennial compensation of \$23,895, and South Dakota ranks 45th with an average total biennial compensation of \$6,825. The legislatures of Minnesota and South Dakota meet annually. Montana ranks 44th with an average total biennial compensation of \$6,954. Its legislature meets biennially for 90 legislative days. These figures do not include salary or expenses for special sessions, per diem while on legislative business in the interim, nor vouchered expenses. North Dakota's average total minus these expenses is \$7,400 for a 60-day session and \$9,180 for an 80-day session.

The commission reasserts the belief that the prime responsibility of the Legislative Assembly is to respond to the needs of the people of North Dakota. The commission believes that if this response is not forthcoming from the legislature, governmental power will assuredly continue to flow to the federal government and away from state and local government. One method of assuring that the legislature is responsive to the needs of its constituency is to attempt to make sure that the legislative body is made up of highly motivated and competent men and women.

Although the commission hopes that its compensation recommendations, if adopted, would aid in motivating competent men and women to seek or remain in legislative office, the commission realizes that the compensation factor is only one of the combination of factors which motivate people toward public service. The commission in its 1975 report recommended that improvement in the total range of legislative compensation and expense reimbursement should be added to improvement of physical facilities available, to additional professional staff services; and to the length of time available for legislative business. The 1975 Legislative Assembly increased legislative compensation and expense reimbursement and approved an appropriation for the remodeling of the physical facilities in the Capitol. Additionally, the professional staff of the Legislative Council was increased, and the voters approved a constitutional amendment increasing the length of the legislative session to 80 days in the 1976 general election:

It is hoped that the improvements made in all four of these areas will motivate even greater numbers of highly qualified people to seek legislative office.

#### Specific Compensation Recommendations

The commission recommends that Section 54-03-20 of the North Dakota Century Code be amended to increase the monthly unvouchered expense allowance from \$75 a month to \$150 a month. Each legislator receives the monthly allowance during the term for which he was elected, for uncompensated expenses incurred in the execution of public duties during the biennium, payable every six months. The commission's recommendations will result in an increase of \$1,800 per legislator during the

biennium and a total monthly unvouchered expense allowance during the biennium of \$3,600. The commission believes that the increase is justified by the corresponding increase in the cost of living and increased demands on legislators' time.

The commission makes no further recommendations regarding legislative compensation as it is believed that the economic conditions in the state do not warrant across the board raises in all the unvouchered and vouchered expense allowance items.

However, the commission recommends to the legislature that, in its consideration of constitutional amendments that may be proposed to the people, it consider submission of a constitutional amendment to create a Legislative Standards Commission, which would be a constitutional body authorized to establish legislative compensation and expense allowances, among other duties. The commission is having a concurrent resolution to accomplish this result prepared for introduction into the Senate.

#### General Recommendations

The commission believes it is proper to make general recommendations in other areas of the legislative field. This is so because it is impossible not to consider other means of challenging and encouraging citizens to serve in the legislature, while studying legislative compensation for those same purposes. Further, the commission believes that if a legislator's working conditions are deemed by that legislator to be atrocious, or if the possibility of accomplishing anything worthwhile is remote, then no amount of money will induce them to run for, or continue to serve in, the Legislative Assembly.

The commission discussed several general recommendations, and in the past has made many, to which the Legislative Assembly could refer. However, in this report, the committee is limiting its general recommendations to two.

The first recommendation is with respect to legislative space needs. The commission recommends that the Legislative Assembly as one of the three major branches of government should be given priority for space over the other departments of government. The commission believes the Legislative Assembly should give serious thought to providing different facilities for executive branch agencies, so that adequate space could be made available in the Capitol proper for the legislative use during any session, and during the interim. The commission's recommendation does not include specifics on whether this space should be provided by construction or rental.

The second recommendation concerns a consideration of retirement benefits for members of the legislature. Presently members of the legislature may join the retirement program for state employees; however, their low base pay and the structure of the program precludes legislators from benefiting under the program. Thus the commission recommends that an interim study of a retirement program for state legislators be conducted in the 1977-79 interim.

Finally, the commission recommends that Section 54-03-20.3 be amended to provide \$35 per diem for days spent on commission business for commission members. This recommendation is in keeping with the commission's philosophy that compensation is one motivating factor to encourage qualified and competent citizens to serve as advisory members to the Legislative Assembly. Further, it is believed that volunteer citizen participation in government, while an idealistic concept, is not realistic in terms of today's economy.

SEVENTH DAY

Bismarck, January 12, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

Prayer was offered by Gerald Ruelle, Chaplain, St. Alexius Hospital, Bismarck.

O God You are present to us here and now in this assembly — because You are God; because You have given us the mission to extend Your message of truth, principle, justice and charity. Belief in You is not poetic fancy nor static and lifeless creeds. Our faith in You; our service of You arise out of the concrete experience of this day, this moment. Your revelation, O Lord, does not disregard this world we live in nor provide us with a shortcut out of ordinary human experience.

These legislators, Lord, are indeed a sign of Your presence to us here and now — committed as they are thru election to be faithful stewards of their constituency: Your people.

May their vision; their enthusiasm and ambition; their leadership ability; their loyalty to our government and their own party; their many difference; — all serve to make them effective signs of Your message to the world and help us preserve a proper balance of human rights and governmental duties. Amen

The roll was called and all Senators were present.

A quorum was declared by the President.

**PERSONAL PRIVILEGES**

Senator Mehand: Mr. President, I rise on a point of personal privilege. Today, many of you seemed to be very concerned about the rules of the Senate. Several things have been drawn to our attention and people are rising and stating conflicts. I want to point out to the members of the Senate that under Rule 24 I feel a compulsion to tell you that I am a stockholder in a private bank, but I don't feel that I have a conflict of interest and I am not going to state it on this bill. This bank is not a

private bank, it is a public bank, it is not competitive to a private bank; however there may be a bill coming up later where I may feel such a conflict. The bank in which I am a stockholder cannot in my mind ever be competitive in the Bank of North Dakota and I feel no personal conflict, so I take this point of personal privilege to explain it.

Senator Goodman: Mr. President, I also did not rise earlier on a conflict of interest and I do own stock in a bank and I am a director in a bank. I do not see it as a conflict. I think if there were such a conflict I would have to rise on every bill that came up having to do with the Bank of North Dakota. I don't see that. I also don't intend to rise as a conflict of interest on all the agricultural bills that will face this session even though I own farmland. I just do not see a conflict of interest.

### NINTH DAY

Bismarck, January 14, 1977

The Senate convened at 2:00 P.M., President Pro Tem Freed presiding. Prayer was offered by James M. Butler, First Presbyterian Church, Bismarck.

"Lord, we are so hurried, and so impressed with our place and our importance. Let us not be so harried that we run on without You, or forget our responsibility to You, true source of all power and all authority.

Ever sensitive to one another, help us also to be sensitive to the grieving of Your spirit when we give ourselves to lesser things, or make judgements from motives we know to be wrong.

Amid all the pressures on us, may we ever hear that still small voice not to be denied; and follow Your guidance for the good of your people. Increase our faith until we are no longer awed by difficulties, nor frightened by problems.

Make us servants of your kind of liberty — not to do what we please, but the chance to do what is right in Your sight. Amen"

The roll was called and all Senators were present except Erdman, Smykowski and Thane.

A quorum was declared by the President.

#### RECOGNITION

The Sergeant-at-Arms announced that Paul Ott, a representative of the National Wildlife Federation was in the chamber. President Pro Tem Freed appointed Senator Fritzell to escort Mr. Ott to the front desk. Mr. Ott was escorted to the front desk and entertained the members of the Senate with his songs and guitar.

PAUL OTT, of Dixie Springs, Miss.

Paul Ott grew up in the backwoods of Mississippi — and has sung his way across the United States and its territories — singing about what he loves most — conservation of our natural resources.

Everybody loves a song — and this traveling balladeer has told the story of conservation across the land in his own simple but moving way. His message is that "Conservation and industrial progress have a meeting ground, and they must work together to achieve a healthy balance."

## TENTH DAY

Bismarck, January 17, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by D. Josh Nelson, Lutheran Church of the Cross, Bismarck.

"Psalm 8. O Lord, our Lord, how majestic is Thy name in all the earth.

We thank and praise You, dear Lord, that You have revealed Yourself to us through Your creation. We thank and praise You for Your artistic and creative design on everything You have made. We confess that we are sometimes slow to recognize and appreciate Your order and balance of things. We confess that sometimes our desires and needs blot out long range planning. We ask for Your guidance because it is an awesome task to be given charge and dominion over Your creation.

I pray that You will bless this 1977 North Dakota Legislature.....both Senate and House, and that Your watchful eye and helping hand will penetrate and guide all of her actions. I pray that the laws that are enacted upon will benefit the common populace.....thereby making our life and living joyous and productive.

I pray for these blessings in Your name. Amen."

The roll was called and revealed all Senators present.

A quorum was declared by the President.

## TWELFTH DAY

Bismarck, January 19, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

Prayer was offered by Bob Fisher, Wesleyan Church, Bismarck.

"O God, our Lord and Master, allow us to visualize Your presence here today. As we do we see Your compassion and Your Love as You watch over us as individuals.

We cannot help wondering why our lives are so fully blessed when we think of the four billion people on earth, all of whom are important objects of Your love and interest. Most are not so fortunate as we are. If it is Your special favor to us which has made the difference, we pray You'll help us to know how to be worthy of Your continual favor as we thank You, Lord, for the past. If our lives are blessed because of intelligent actions and God honoring decisions that we, and those before us, have made; please show us the wisdom and courage, so we can still know what to do to make our future bright.

It is not this structure, these halls, or this room that reaches out for Your love and guidance, but rather it is the spirit of each individual, who while inwardly struggling with our minds for often illusive facts, weighing alternatives and reaching for decisions which will determine our future and record our history; it is these souls whose individual lives you have ordained for leadership in this hour who reach out and open their consciousness to God; that they might receive Your peace and strength within. As You have promised may our reaching for You not be a disappointment to any. Amen."

The roll was called and all Senators were present except Hoffner and Jones.

A quorum was declared by the President.

**PERSONAL PRIVILEGE**

Senator Strinden: Mr. President, I rise on a point of personal privilege.

Mr. President, members of the Senate, as we are drawing to the close of another day, we are also drawing to the close of another week. We are well into the third week of the session of the 45th Legislative session body.

The executive, through the Governor, listed many of his aims, many of his requests in his executive message to the Legislature and this is as it should be. The Executive Branch of government should certainly give his aims for the next two years. I feel very strongly that it is also the responsibility of the Legislative Branch to voice concerns. I have concerns that have come to light during the past three weeks. The Appropriations Committee has certainly heard many requests that are over and above the call of the Governor's budget.

Another concern that I have is the, one point that the Governor has made, and that is, his "go slow" policy. This concerns me very much. As I point out Mr. President and members of the Senate, it is just as dangerous to go too slow on a busy highway as it is to go too fast. The reason I bring this out, in the 24th District, and particularly in Valley City, as we look over the Highline Bridge that gives a perfect view of the railroad trains crossing the prairies of North Dakota, crossing the Cheyenne Valley and on out of the state. I have heard many comments that people as they view this, of the concern they have for the western part of North Dakota being torn up, never to be replaced again. I bring this up at this time for only one reason. The "go slow" policy presently has three trains of North Dakota coal crossing the State of North Dakota each week. We have thirty-five trains of Montana coal passing through the state. The estimate is this: It is forecast for the 1980's there will be 91 trains of Montana coal passing through Bismarck each week. There will be little or no increase in North Dakota coal. And let us note that these trains are all 100 cars each, hauling 10 thousand tons, the destination, Chicago, Duluth, St Louis, Hammond, Indiana, St Paul, Minneapolis. I think that I have attempted to point out, Mr. President and members of the Senate, the "go slow" policy that the State of North Dakota had adopted in my opinion has stymied industry, the growth and wealth of the State of North Dakota. I have other concerns as I have viewed the budget and the Governor's message. We are experiencing a growth of bureaucracy through the establishment of organizations by executive order. I am not going to dwell on these many things. We have our differences of opinion and is as it should be. I think what concerns me most are the many things that were not listed, the many concerns that the Governor has, he is honest in this, the same concerns we have. But of the concerns, no mention was made, I believe, as to the monetary need and the teachers' retirement system. We as legislators have no legal obligation whatever to take care of the teachers' retirement system. We do have a moral obligation because it is through the laws passed by the body that has put this system in bad shape. We have other things and I am not going into them other than the lack of a sound building policy. Two years ago we established our second, I believe it was, priority list. This has been disbanded so we are starting from scratch once again. I think the things that concern me the most and rather than take your time, we are going to go right into them. My main concern is the fiscal responsibility of the Executive Branch and of the Legislative Branch. The Executive branch in all honesty has certainly listed their estimates. I personally believe the estimates are too high. The reason I say this is this: I am speaking only now of general fund appropriations. The Governor's budget calls for expenditures of \$538,000,000.00, projected revenue \$465,000,000.00, or a deficit of \$72,655,000.00. The reason I say it is a deficit, in any business if you spend more than you take in, it certainly is

a deficit situation. My main concern, I think, and you all have the budget book, would you check the revenues, the estimated revenues, and here is where I voice concern. We lost \$86,000,000.00 in revenue through the vote on the sales tax. Much as we dislike to, I think we have to face the situation and the future as it exists at the present time. We are experiencing severe drought over much of North Dakota. We are experiencing low prices thereby we are going to experience a lack of sales tax dollars coming into the treasury. When the Governor's estimates of revenue are only \$1,000,000.00 less than the next biennium as they were the past, this in spite of the fact that we have gone through the best possible times the state of North Dakota has seen. I am going to make my predictions and I certainly hope I am wrong, I hope the Governor and the Executive branch are correct. I see anywhere from \$23,000,000.00 to \$40,000,000.00 less in revenues unless we are willing to assume the responsibility of fiscal activity, unless we are going to be responsible for the taxpayer of North Dakota, \$538,000,000.00 will not cover the expenditures of the next two years. Unless we are careful and I have been overly cautious with the dealings of the government, we are going to see the balance of \$180,000,000.00 as projected next July, we are going to see that balance almost depleted in 1979. Mr. President, members of the Senate, as one member of the Legislative body, as one member elect, I feel it incumbent upon all of us to voice our opinions, to voice our concerns, to differ with the Executive when we feel it necessary. Thank you.

#### PERSONAL PRIVILEGE

Senator Shablow: Mr. President, I rise on a point of personal privilege. Mr. President, I am not rising to reply to the good senator. I want to make one thing clear though in relation to the coal trains. I sit in on the Finance and Taxation committee and I have heard all the testimony in relation to coal and coal development and this should be made clear to the members of the assembly. Montana coal being of its quality, and the lack of moisture really in it, lends itself to be shipped to distant points, whereas North Dakota coal does not, and in lieu of that we are using and developing our coal within the state through generation rather than shipping it out of state for use in other places. I just wanted to make that point, so that in relation to the trains and the number of trains that will be passing through, I don't see any reason to believe that this will change; however there is a good reason for it. Thank you.

LEO LEIDHOLM, Secretary

FOURTEENTH DAY,

Bismarck, January 21, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.  
 Prayer was offered by D. Josh Nelson, Lutheran Church of the Cross, Bismarck.

Our devotions and opening prayer for this day have a back ground in the book of the prophet Micah, the 6th chapter, verses 6-8. Micah was a contemporary of Isaiah, (740-700 B.C.), but unlike Isaiah, he was from peasant stock...the oppressed. He had a message for the leaders of his day. It was this: God is not impressed with Religiosity, but with Relationships. He said "offerings are easy to do, but doing the offerings is what is required."

So, five questions are asked, and the fifth question contains the answer to the first four. This was the part of the Bible President Jimmy Carter placed his hand upon yesterday for his oath of office.

Micah 6:6-8

With what shall I come before the Lord, and bow myself before God on high?

Shall I come before him with burnt offerings, with calves a year old?

Will the Lord be pleased with thousands of rams, with ten thousands of rivers of oil?

Shall I give my first-born for my transgression, the fruit of my body for the sin of my soul?

HE HAS SHOWED YOU, O MAN, WHAT IS GOOD: AND WHAT DOES THE LORD REQUIRE OF YOU BUT TO DO JUSTICE, AND TO LOVE KINDNESS, AND TO WALK HUMBLY WITH YOUR GOD?

"Dear Lord and Father,

We give you praise and thanks for our United States and especially for our state of North Dakota. Thank you for the privileges that go with being a citizen of a free society. Forgive us when we get bogged down and satisfied with a religiosity of mere offerings that require no 24 hour relationships with you. Help us to learn from history and apply our hearts and minds to Biblical admonitions. Help us to do what is good, to do justice, to love kindness, and to walk humbly with you, our God. Help us to do this in the political arena as well as in our status of everyday citizens. I pray this so that your name will be honored and that our names will be remembered as faithful.

Amen"

The roll was called and revealed all Senators present except Hoffner, Jacobson, Jones and Naaden.

A quorum was declared by the President.

#### REMARKS OF MR. AMIN EL-HASSAN

##### IRAQ'S CHARGE d'AFFAIRS

It is certainly a great honour to have this opportunity to speak to you. This is my second visit to the beautiful state of North Dakota and I continue to be impressed with the economic and agricultural growth of your state. I truly have felt the generosity and warmth of the North Dakotans on my previous visit, for this state is the heart of the midwest, the bread basket of the U.S., if not for the whole world.

I am a farmer, therefore I am in a position to understand the difficulties and uncertainties of an agricultural economy. During my last visit to Bismarck, I toured Melroe, I met with the honorable Dick Backus, and discussed the electrical co-operative system. I also had the pleasure of visiting Garrison Dam, Steiger Tractor Company of Fargo, the State Mill and Elevator of Grand Forks, and wheat farms in Minot. Because of the initiative of my friend, the honorable Governor Link and the Business & Industrial Development Department, I was able to see for myself the great development taking place in the state of North Dakota.

I would like to say, that in my country of Iraq & in the Middle East, we have the oil & here you have the wheat. What a winning Combination! Certainly, the possibilities of trade & economic ties are vast & should be explored further.

We in the Middle East would like to believe that the U.S. is evenhanded in its foreign policy with a sense of justice & fairness, especially in the Middle East. The torch of the American Revolution in 1776 is still glowing, carrying equality & justice to the whole world. Since 1948 the Arabs have been constantly under aggression. Many people had to leave their homes, their land & their farms, never to return. At this time they are scattered all over the world.

Let us carry the principles of justice & equality of the American revolution to bring peace in that troubled area of the world.

Governor Link's visit to the Arab world meant a great deal to us, not only in the countries he visited, but also to all the countries in the area.

PERSONAL PRIVILEGE

Senator Lashkowitz: Mr. President, I rise on a point of personal privilege: I would like to convey my congratulations to the distinguished senator from the 49th district, the very able Chairman of the Transportation Committee, for having brought to the calendar today successfully three repealers of archaic language and obsolete features of the code. By this type of leadership the Chairman of the Transportation Committee and his colleagues are rendering a public service in helping to clean up and cleanse the code of the archaic, obsolete and confusing language. I would also comment to my colleagues that as a somewhat restricted Notary Public I am happy to note that some of the hypocrisy of some of the existing laws are now coming under scrutiny so that we will not be in the position of perpetuating some of the hypocrisy that is buried in the code, thus I would like the record to reflect my congratulations of the distinguished Senator from the 49th district who is leading the Transportation Committee.

PERSONAL PRIVILEGE

Senator Solberg: Mr. President, members of the Senate, I am a little bit embarrassed, but I also must be honest. Ego is the essence of living, so I would like to recite to you from Pascal who once wrote, but I didn't know that my distinguished member of a committee was going to do what he did, so I'm prepared now without knowing it, which is what he referred to.

Pascal once wrote: What a chimera is man! What a confused chaos he is! What a subject of contradictions a professed judge of all things. And yet just a feeble worm of the earth—the great depository and guardian of truth, and yet a mere bundle of uncertainties — the glory and the shame of the universe.

Rousseau wrote: Every age has its different inclinations, but man is always the same —

At ten he is led by sweetmeat,  
 At twenty by a mistress,  
 At thirty by pleasure,  
 At forty by ambition, and after that by avarice

#### SIXTEENTH DAY

Bismarck, January 25, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

Prayer was offered by Rev. Ron Norman, Bismarck Baptist Church, Bismarck.

"Dear God, our Heavenly Father, we are pausing at this time in the busyness of our activities and agendas to acknowledge our dependence upon and need of Your strength and guidance. We want to praise You for all the attributes which You manifest to us on a daily basis. We confess our sins to You, the greatest of which are unbelief and unthankfulness. Help us to apply faith and belief to those areas of our lives and responsibility where we many times are over-come by frustration and depression. May the 'light at the end of our personal tunnels' be seen as coming from You and Your strength. Help us to keep our eyes upon You in the midst of our darkness that we too, someday, will enjoy the radiance of Your glory. Thank you for the sacrifice of Your Son, Jesus Christ, who has forgiven us and made us free. It is in His name that we pray. Amen".

The roll was called and revealed all Senators present except Goodman. A quorum was declared by the President.

we so decisively defeated today concerning the Veterans Hospital at Fargo was passed two years ago in essentially the same form by both houses and was vetoed by the Governor.

SEVENTEENTH DAY

Bismarck, January 26, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. Tom Sullivan, Church of St. Anne, Bismarck.

"Heavenly Father, You have given mankind the grace to govern himself, personally, and in his dealings with his neighbor. Included in this grace is Your call to stewardship of the powers and resources of nature — the wise use and planned development of these bounties. And Your greatest gift which gives meaning to all other graces is freedom.

At this time, in these chambers are gathered leaders of the citizens of North Dakota, elected and now meeting in this session to ponder and weigh matters of vital concern to their constituents and to all who are served by their decisions. Send down your spirit upon them: Your spirit of justice and wisdom that they might deliberate the delicate balance between immediate needs and eternal values in the matters presented here: Your spirit of mercy and peace, to help them to decide how best to legislate for the good of all men and the best concern for the needs of the individual. We ask that Your spirit be felt by each one as they speak to and listen to the needs for legislation presented for consideration in this session, and in all their efforts to serve You by serving their fellow man.

This we ask in the name of Your Son, Jesus, and in the spirit of Your presence, now and forever more. AMEN.”

17 Little did he know at that point in life the Senate was  
18 to become his second wife;

19 Through fights and skirmishes, thick and thin, he still  
20 loved all that maddening din;

21 But thirty-two years of toil and strife is enough to take  
22 in any one life;

23 Through seventeen sessions he kept his cool, but Art Herk  
24 of Fingal is no one's fool;

Page 2

1 As assistant secretary he served so well, but after  
2 session last he said the hell;

3 I've had enough, it's time to go; I've better things to  
4 do than hear them blow;

5 We'll miss you Art but we understand; the North Dakota  
6 Senate gives you a hand.

7 BE IT FURTHER RESOLVED, that the Secretary of the Senate  
8 is hereby directed to send a copy of this resolution to good  
9 ol' Art Herk.

**PERSONAL PRIVILEGE**

Senator Holmberg: Mr. President, I rise on a point of personal privilege. Mr. President, members of the Senate:

We've all heard the statement "the idea was good, but the bill was bad."

A bill is no more than a vehicle with which an idea is transformed into legislation. If the vehicle is faulty, and consequently the bill fails, it does not necessarily follow that the idea behind the bill was bad.

This bill on unit pricing is a case in point. I voted for the bill because I believe in the concept of unit pricing. The bill was not perfect. It had some faults.

I would strongly urge the proponents of unit pricing not to give up. The question they face is how to establish unit pricing in North Dakota in the face of the vote taken here today.

Let me offer a suggestion. I want you, ladies and gentlemen of the Senate, to keep in mind that the retail grocer of today is in a very competitive market and that grocer is keenly aware of this market. I suggest that the proponents of unit pricing work cooperatively with the retailers to set up some pilot projects in which you introduce unit pricing. If the assumptions of consumer interest are correct, and I think they are, it should become an easy matter to convince the retailer, with statistics gathered in his own store, that he or she should adopt a total program of unit pricing.

What happens if the retailers don't cooperate in any way. If that is the case then I urge you to bring that information to the next legislature. For their consieration.

**SECOND READING OF SENATE BILLS**

Senate Bill No. 2277. A Bill for an Act to create and enact a new section to chapter 47-16 of the North Dakota Century Code, relating to lease security deposits on real property and dwellings; the return of such deposits with interest upon termination of a lease; deposit amounts which may be withheld by a lessor and conditions under which amounts may be withheld; recovery by a lessee for wrongful withholding of security deposits; providing for transfer of security deposits upon a change of ownership; and binding the lessor holding the lease at the time of termination to return the security deposit.

### PERSONAL PRIVILEGE

Senator Strinden: Mr. President, I rise on a point of personal privilege. There's a copy of the tenure as established by the Board of Higher Education on each of your desks and, inasmuch as we had apparent interest in this with a 24-24 tie, I'd like to go into some of the objections and some of the problems we have. Under Section E of Termination, Section 1 is excellent. I believe that the Board had adopted Section 1 only we would have no cause for alarm or problem. But we go to termination of an appointment with tenure and you all have it, it could be based upon demonstrable financial existency, loss of legislative appropriation, loss of enrollment, consolidation of a farm appropriations and eliminations of courses as such, and that is excellent.

But then we go down to Section 2 and here an administrator has to give 12 months prior notice. This makes it almost impossible to terminate a members appointment during the first and second school year, because if it would happen in mid-term, you would be through the next mid-term before anything could take place.

In Section 3, in addition, the institution shall insure that fair consideration is given to the faculty member during the period of the terminable appointment for any vacant academic position in the institution. Well, here again, in most cases if termination is necessary it is probably due to the fact that the person involved may not be suitable to the institution to the course of study therein; so that makes it almost impossible.

Under Section 4, a position terminated under this section will not be filled with a replacement within two years unless the released faculty member has been offered an appointment with tenure and a reasonable time some place else. This again, makes it impossible for an administrator to switch instructors to take care of the course of study that he may have. So according to the present tenure system that we are using, it could take from three to four years to institute proceedings against an instructor. It also leaves the way open for legal recourse and long lasting litigation. So I did bring it to your attention, Members of the Senate, and I do hope that the Board of Higher Education will rewrite their termination contract or notification. The issue was closed, but I did want to bring this to your attention. Thank you, Mr. President and Members of the Senate, for your time.

## TWENTIETH DAY

Bismarck, January 31, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

Prayer was offered by Delmar F. Becker, Inter-denominational pastor, Mandan.

"Heavenly Father, we thank Thee that Thou hast granted us access into Thy presence; that, though Thou art holy, and the veil of sin stood between us and Thee, though among us there is none righteous, no not one, Thou didst in amazing Grace send Thy Son to take away that veil, when He Himself became sin for us and bore our penalty on the cross. Now, as we trust in Thee, all we think and do and plan is in the light of this, and to glorify Thy Name, because we serve not ourselves first, nor our constituents, but THEE.

Lord, here in these chambers Thou hast given us important work to do. Keep us ever mindful that this work is to be done only to glorify Thee, and let us act accordingly. Some issues before us may seem to be quite clear-cut and easy to determine because of the practicality, the moral rightness of their nature. In these, and especially in those that do not seem to be so clear, give wisdom and guidance, Lord, that we may do Thy Will in them. We recognize what Thou hast told us in Thy Word: "It is not in man to direct his steps." So, Lord, please do Thou direct us. More to the point, Lord, give us ears and hearts attuned to Thee, so that we will hear and know Thy Will, and purpose in our hearts to carry it out.

In Jesus' Name, Amen"

The roll was called and all Senators were present except Freed, Hoffner and Nothing.

JANUARY 31, 1977

Senator Nething: Mr. President, ladies and gentlemen of the Senate. Yesterday, the Senator from the 12th District and myself represented the North Dakota Senate in a Tri-State Water Forum in Fargo, and at this time, if the Senate will let us indulge, we would like to give you a brief report as to our views on this Water Forum. Mr. President, ladies and gentlemen of the Senate, I am sure that you have read much about the Water Forum in the newspaper, because there was rather extensive press coverage on both the television media and the printed media; however, I would like to report to the Senate that we believe that while it was a learning session for us, there were also some other benefits that I think might well lead to some broad and extensive cooperation with our neighboring states.

On Sunday evening, we were invited to a dinner with legislators representing South Dakota and Minnesota, as well as the four representing the North Dakota legislative branch, and we began to approach them in a — well first of all we had kind of a semi-private session. We had an opportunity to sit around the table and to be briefed on the Garrison Diversion Project, and as we started talking about water we got into other areas which I think are as much a mutual concern to the three states as water was. Particularly so in the area of energy.

Now we have kind of a thought that when we think of energy we might

be thinking of just in terms of the electrical energy that is generated in North Dakota and other states look at it in that light as well as the food energy, and so that kind of led us into some other areas of concern which involve the areas of education, the areas of taxation, reclamation, recreation, and many of these. As an outgrowth of that discussion, we learned that the State of Minnesota does have an Interstate Commission of which one of the legislators that met with us is a member of, and he asked, and extended an invitation to us to come to St. Paul and to meet with their group to continue the discussion that we had, and the legislators from South Dakota indicated that they would like us to come to Pierre and to visit with them, or they would be happy to meet us at another location because all of a sudden it dawned on those of us present that we do have many, many concerns of a regional nature, and all of us while representing both political parties realized that we can do a much better job of solving those problems if we work at it ourselves instead of turning to the Federal Government and permitting them to solve it. So I think we laid the groundwork for some good sessions to come; I think they learned a lot about what Garrison Diversion is all about, and its problems; we learned about the Oahe Project in South Dakota; we learned about the energy concerns that Minnesota has, and I think that we will now have an opportunity to continue this dialogue and, hopefully, through the form that we have established through the Garrison Diversion Over-view Committee. So at this time Mr. President, I would like to yield to Senator Hoffner and he can share with you some of his thoughts as to what took place at the meeting.

Senator Hoffner:

Mr. President and Members of the Senate: I was really impressed with the Forum the way it was conducted. It was a very informative session. We thought it would be more of a re-hash of what we heard in committee hearings, but they had some very good panelists from the different areas. We heard from the Lieutenant Governor of South Dakota, and he happens to be a farmer; and he understands the problems of irrigation and other concerns, and he mentioned one thing that happens quite often when legislatures meet in different states and some resolutions are passed that sort of, in some ways, could be taken in a wrong way and we legislators as such, get upset over other states and he thought it was necessary for states to communicate more often, and certainly I am. We did have a very good meeting, a visit with other legislators. I was impressed with the number of legislators that attended from South Dakota and Minnesota and their interest and concern about water and water related problems. Everyone is sure that just because the border is there doesn't mean the water stops there and the problems stop there, and I am totally convinced that the bordering legislators, even though they border North Dakota, do not understand the Garrison Diversion Project. They feel strongly about the development, but they want more information because if they go to their legislative committees that they are going to have to know more about them, so I think what's going to happen, and also from this meeting of ours, that we go to these other meetings, not necessarily the same people, but informed members of the legislature to meet with other legislators from those states and get into detail on the different projects. The Forum, I guess was one of the better attended Forums, and, again, shows the concern for water development by not only legislators but the people, the mayors, the county commissioners and the general public. I

On page 1, line 1, delete everything after "A BILL" through the end of the bill and insert in lieu thereof the following: "for an Act to regulate the appearance of salvage yards and automobile graveyards, and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. LEGISLATIVE INTENT.) The Legislative Assembly hereby finds and declares that unscreened salvage yards and unscreened automobile graveyards constitute a public nuisance and a hazard to the health, safety, and general welfare of the people of the state because such areas can harbor disease, furnish shelter and breeding places for vermin, present physical dangers to the safety and well-being of children and other citizens, and cause a detriment to the environment and the natural beauty of the state. It is therefore in the public interest and the intent of the Legislative Assembly that the maintenance of such areas be regulated as provided in the Act.

SECTION 2. DEFINITIONS.) For purposes of this Act:

1. "Salvage material" means old or scrap paper, copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, or junked, dismantled, or wrecked automobiles, or parts thereof, iron, steel, and other old or scrap ferrous or nonferrous material, regardless of the volume maintained.

2. "Automobile graveyard" means any establishment, place of business, or any other location which is maintained, used or operated for storing, keeping, buying, or selling wrecked, scrapped, abandoned, ruined, or dismantled motor vehicles, motor vehicle parts or machinery of all types, regardless of the number of vehicles or volume of parts or machinery maintained or stored.

3. "Salvage yard" means a business establishment or any other place which is maintained, operated, or used for placing, storing, keeping, buying, or selling salvage material, or for the maintenance, use or operation of an automobile graveyard, regardless of the volume of material maintained.

4. "Highway" means any highway as defined in subsection 20 of section 24-01-01.1.

SECTION 3. EXCEPTIONS.) The provisions of this Act shall not apply to any state agency or political subdivision which acquires, collects, dismantles, or disposes of salvage material, or abandoned motor vehicles pursuant to a program of solid waste disposal.

SECTION 4. SCREENING SALVAGE YARDS AND AUTOMOBILE GRAVEYARDS FROM PUBLIC VIEW.) The owners of all salvage yards and all automobile graveyards, which are located within the boundaries of any incorporated city or any part of which is within ordinary public view of any highway, shall, within one year from the effective date of this Act, either cause the removal of such graveyards and salvage accumulations, or completely screen such areas from ordinary public view by means of a fence, trees, shrubbery, or other appropriate means. If the screening is done by means of trees, shrubs, or other plantings, it shall be sufficient for the purposes of this Act if the natural growth of the plantings will result in the complete screening of the area. If because of death of the plantings or other reason, the screening effect of any tree, shrub, or other planting used to comply with this Act is lost, the planting shall be replaced within one year of its loss of screening ability.

SECTION 5. VARIANCES.) The board of county commissioners of the county in which the yard or business is located or is proposed to be located, or the city governing body, if the yard or business is located or proposed to be located within the boundaries of any incorporated city may issue a variance to exempt any salvage yard from the provisions of this Act if that authority feels that the required screening is unnecessary or impractical. In considering the variance, the board of county commissioners or city governing body shall take into account the nature and development of surrounding property, the proximity of churches, schools, hospitals, public buildings, or other places of public gathering; the health, safety, and general welfare of the public; and the suitability of the operator to establish, maintain, and operate the yard or business. The variance may be revoked if the operation changes in nature or magnitude or if the facility is not operated according to the provisions indicated in the application for exemption.

SECTION 6. PENALTY.) Any person, corporation, or other business entity which fails to comply with the provisions of this Act shall be guilty of a class A misdemeanor.

**PERSONAL PRIVILEGE**

Senator Tennefos: Mr. President, I rise on a point of personal privilege. Mr. President, and ladies and gentlemen of the Senate. I voted "red" on 2213 for the main reason that I feel we are being mandated by the Federal Government to do things that the State Government, this body, should have the privilege of deciding to do. I call it an encroachment. The old term in football used to be "off-side". I think the government is "off-side" in this case, and the government I refer to is the Federal Government. The Act that we were just visiting about is Public Law 94566, and it does require the states to extend the Unemployment Compensation coverages to certain previously uncovered workers. But it also in this Act says that this should be done by December 31, 1977, and I would say in this assembly that there isn't a municipality or any other organization within this state that is abiding by that Act. We heard this same situation on public transportation committee years and years, the threat of the Federal Government taking highway funds from North Dakota. The Legislature saw fit to continually upgrade and provide inspection for our safety vehicle laws for the safety vehicles. I feel as though this type of legislation is passed under duress, and I as a legislator representing my district, feel that that's not out here as a legislator that I'm a rubber stamp. And I just don't like being a rubber stamp. Thank you.

Senator Thane moved that the absent Senator be excused, which motion prevailed.

Senator Nothing moved that the Senate adjourn, which motion prevailed.

LEO LEIDHOLM, Secretary

TWENTY-SECOND DAY

Bismarck, February 2, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. George Walker, Evangelical Free Church, Bismarck.

"Our gracious Father, God, we pause at the beginning of this legislative day to bow our heads and hearts before You. We thank You for this great Nation, and for this great State in which we live. We are thankful for the freedoms and blessings that we enjoy. We are mindful that Your mercies and compassions, which fail not, are new every morning. For this we give You thanks.

"We ask for Your grace and guidance upon these men and women who have been given the responsibility to represent the people of this State here in the Senate. Give them mental clarity and a sensitive spirit. Give them wisdom sufficient to meet the test that is before them. May they recognize that they not only represent the people of North Dakota, but that they are your ministers to serve for the good of the people. We thank You for this high calling and for Your promise of wisdom and guidance. In the name of Christ we pray. Amen.

The roll was called and all Senators were present except Freed.  
A quorum was declared by the President.

#### MOTION

#### PERSONAL PRIVILEGE.

Senator Tennefos: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate. I have found myself in an embarrassing position here when I made some comments earlier today and I want to make sure that this Assembly is not misled by one of those comments. I guess everyone is entitled to a mistake now and then. I made a comment that the municipalities and others would not be under this particular piece of legislation until 1977. I hastily read my little public law and that is December 31st of 1977, so that would give us all this year to get those people covered. I apologize for that and I want to make sure that the record shows that those municipalities and others that are not involved in that at this point are not in violation. Then I also at that time mentioned something about our Safety Act. I failed to mention the fact that we did preclude government mandate and we did remove some 60,000 odd dollars from our budget today out of the Highway Patrol that was part of a mandate that we objected to, objected to, objected to, and finally got rid of. Thank you.

**PERSONAL PRIVILEGE**

Senator Sandness: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate, last Thursday and Friday, I attended a twelve state conference in Kansas City on education for the handicapped and listened to discussions on what our state legislature and the State Department must do to comply with Public Law 94-142. This is that congressional act, and it must be good because in the day and a half that I was there, I was given four copies of it. The people we met with from Washington told us that in the Congress the work on the rules and regulations of this Act is second only to the work done on the Civil Rights Act.

The people we met with from Washington (or the purpose of the conference) was for us from these mid-central states to express our concerns and problems we would have to comply with this Federal law, so they could go back to Washington and bring these concerns to the Congressional Committee working on the rules and regulations of this Act.

The people from the states, North and South Dakota, Iowa, Oklahoma, Missouri, Nebraska, Kansas, Colorado, I believe those were the ones represented, were legislators, people from the Department of Education and people from the Governor's Office. There were four of us from North Dakota and I left the conference feeling that our state is in a fairly good position to face the Federal Mandate to provide a free education to our handicapped children. However, we had several questions, as did all the others and most all of their questions and concerns were much the same as ours. One thing we all stressed and tried to convey to them that we don't have millions of people, we aren't like New York. We are very rural and transportation is a major problem and a major cost.

We were asked if we generally knew where our handicapped people are

and a legislator from Nebraska said that they had 257 school districts and they didn't even know where they all were.

So one of the areas of discussion was:

A. Data — collection of information — how many — where are they — to whom have they been referred, have they been evaluated or given any service.

B. Another was age range — and according to the Act now — all handicapped must receive an education free of cost to the parents for ages 3 to 18 by September 1, 1978 and for all 3 to 21 by September 1, 1980. There were some exceptions in the 3 to 5 and the 18 to 21 age categories that would be under some state laws. Kindergarten laws in some states include all handicapped children now in the 3 to 6 age bracket.

C. Another area was costs and excess costs of normal education was discussed at length.

D. Evaluation, comparability — what does educating the handicapped mean — where does education start and at what point does it cease — Where does Social Services come into this program or the Mental Health, and who determines that?

Where can Vocational Education be a service for those mildly handicapped, etcetra, etcetra.

E. How about Administration? Who all are involved — besides those already mentioned — local schools, state school board, state institutions. Insurance was even discussed some.

There was expression of concern that often the child gets lost, with agencies fighting over rules, regulations and costs, and I'm sure that's a possibility.

After a day and a half of listening to rules and regulations in the Federal Act — which is a mandate on every state, sometimes I felt like the parents who received a note from their school superintendent. It read "Our school's cross-graded, multi-ethnic, individualized learning program is designed to enhance the concept of an open-ended learning program with emphasis on a continuum of multi-ethnic academically enriched learning using the identified intellectually gifted child as the agent or director of his own learning. Major emphasis is on cross-graded, multi-ethnic learning with the main objective being to learn respect for the uniqueness of a person." The parent wrote back to the superintendent: "I have a college degree, speak two foreign languages and four Indian dialects, have been to a number of county fairs and three goat ropings, but I haven't the faintest idea as to what the hell you are talking about. Thank you.

EXPLANATION OF VOTE

Senator Solberg: Mr. President, I rise on a point of personal privilege to explain my vote on the recording bill, Senate Bill 2366. I did not like the wording on lines 5 through 16, page 3, because it permitted exemptions. I have had considerable experience with reproductions of this type, not that kind of sound maybe, but it was sound anyway. Some artists carve their careers, others chisel them, but this is going to lead to a great many litigations because of the copyright law on Federal areas, because once you have made a tape, a company has recorded it, it is used for their personnel or for their organizational meetings which they do from time to time. Then you come under the copyright laws and still it is a recording and it has sound attached to it. I did not like that particular wording, because it may cause problems and I wanted to explain my vote.

Senate Bill No. 2375. A Bill for an Act to amend and reenact sections 21-03-47, 40-22-43, 40-35-04, 40-35-05, and 40-57-07 of the North Dakota Century Code, relating to the limitation of actions regarding the validity of certain bonds, certain taxes, and special assessments and to procedures pertaining to such bonds and special assessments.

**PERSONAL PRIVILEGE**

Senator Iszler: Mr. President, I rise on a point of personal privilege. Mr. President, members of the Senate:

In the next couple of weeks we, as members of the North Dakota Senate, are going to be asked to make funding decisions of new programs and additional funding on other programs. So let me caution you now. What's wrong with more new state programs, new offices and agencies, and more state bureaucrats? In my opinion, a lot of things are. The choice of local destiny was placed as the cornerstone of our American freedoms. It accounts for the settling of America, the founding of our states and cities, but somehow we have lost our way and grown too dependent on our government. We have tried to solve our problems at the top rather than at the bottom.

I think state government should cease being a parent and instead be a partner.

Unless we take a bold, new approach and face our problems now, the demands will far outstrip our ability to pay. We must get our house in order. We must take a stand. I have watched our government expand on both a federal and a state level. In fact, we have seen an unbelievable growth in size and scope, but the greatest danger is in a parallel shrinking of the people's voice in making those decisions that affect their every day lives.

As a result of this expansion, a deep frustration has set in. People feel the government has moved beyond their grasp. Together, they see an absence of accountability.

I think the time has come when the state government cannot continue to act as a giant school board, a city council and a county government, because the people are not only losing touch with the state government, but the government is losing touch with people. It is now time for the people to make those rules. It is time for them to decide what services they want and how to provide them.

TWENTY-FOURTH DAY

Bismarck, February 4, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. William T. King, Pastor, United Presbyterian Church, Jamestown, N. Dak.

"Let us pray: Dear Lord, we ask for Your presence at this Assembly,

acknowledging that You are the Ruler of all, and that our wisdom is limited and imperfect. O God, we ask for Your Guidance in making decisions involving the people of our state. Please show us the path that will honor their wishes, and yet will cause us to do that which we believe to be right. Help us to represent our people but also to lead them. O God, there are many perplexing issues before us. Help us to so persevere in seeking the truth that we do not run with easy answers for the sake of convenience. Help us to hold in balance the well being of our people and of our environment; fiscal responsibility and the welfare of the oppressed; progress and preservation. O God, we thank You for Friday; and its promise of a week-end of rest and re-creation. Please hear our prayer and cause us to be willing and cheerful servants. Amen."

The roll was called and all Senators were present except Thane. A quorum was declared by the President.

Bismarck, February 7, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. Marvin Klemmer, Chancellor, Diocese of Bismarck.

"Let us pray.....

God, our Father, in You we live and move and have our being. May we live this day in such a way that we bring help to others, credit to ourselves, and honor to this great State and to Your name.

Make us able, by your Spirit, to be helpful to those in difficulty, kind to those in need, sympathetic to those whose hearts are sad. Grant that we may be cheerful when things go wrong, persevering when things are difficult, calm when things are irritating. Make us be at peace with ourselves, with others and with You.

In Jesus' name, this is our prayer. Amen."

MOTION

Senator Nothing moved that Senate Bill No. 2354 be re-printed, which motion prevailed.

Senate Bill No. 2355. A Bill for an Act to amend and reenact paragraph 15 of subdivision a of subsection 3 of section 39-06.1-10 of the North Dakota

and I'm more convinced that the legislature should play a greater role in the federal system since so much of what we do does have federal influence.

#### POINT OF PERSONAL PRIVILEGE

Senator Jones: Mr. President and Members of the Senate, I want to take this opportunity to thank the Senate for honoring me when you appointed me as your representative to the Inauguration, January 20, in Washington, D.C., of our new President, President Jimmy Carter.

Inaugurations will mean much more to me in the future. Witnessing the actual turning over of the reigns of government at high noon on the given day really brought home to be again what a great country we live in. Not only did the outgoing President, President Ford, turn over the reigns, but he got in his helicopter and left town.

I wish to report also that my cohort, Senator Hoffner, and myself personally turned over the Senate Resolution passed in support of Garrison Diversion to Ms. Billy Jappeson, the Executive Assistant to the Secretary of Interior, Secretary Andrus. We also had a short visit with the outgoing Secretary of Interior, Mr. Kleppe.

Again, I wish to thank the members of the Senate for the honor of representing you at the Inauguration. It will be something that I shall remember and cherish forever.

#### POINT OF PERSONAL PRIVILEGE

Senator Lashkowitz: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate, in regards to the bill that was just decided by this distinguished body, allow me to share with you this observation. The situation that was depicted by my colleague from the 45th District regarding the hearing, I can make no comment nor inference, yet I can sympathize with his sense of frustration. However, I think a little background in this matter, I hope, will lead to a situation where the various communities that are involved in this type of tug of war will try to resolve them by negotiations rather than legislation. Frankly, I agonized this decision out with great and deep reflection. I was impressed by the distinguished chairman of the Education Committee's commentary in that the proposed legislation could mean the end of the West Fargo School District. That would be regrettable. I would hope that we will not be obliged to re-live history from legislative session to legislative session inviting political reprisal after political reprisal. I believe that the legislative process requires the preface of laying the ground work, doing some intense educational work, and adroit salesmanship, not simply introducing a bill and ending up with the results that we have just seen showing on this board. The legislative process is a long term process. I tried to show local solidarity in my vote. I have a great deal of affection for the people in both of our communities and I hope that ultimately that we can launch a new era in which we can come together and join in building a united, cooperating educational district in which there will not be simply one group raiding another group, then raids on top of raids until there is disarray and chaos. May I just share with you one of the burdens of past years. How well can I recall some of our efforts to achieve annexation. I think these efforts must be shared with you, albeit briefly. I can recall those in my area of the state that wanted it both ways. They wanted to be in the Fargo School District and they wanted to stay out of the city of Fargo. Now you see the results. I don't intend to indulge in recriminations what happened in 1973. That is history. We can only draw on its lessons. I can appreciate the effort of my colleague and yet I think all of us can do better to actively promote good will, understanding and cooperation between school districts rather than indulging in endless competition for coveted land. I pledge to this assembly that when I go home, I will continue my efforts to promote understanding and cooperation in the sincere hope that we can have long range cooperation between two great school districts. Mistakes have been made. God only knows we are only human, but I pray that we can settle our problems at home and not burden this assembly every two years or every four years; so I pledge to all my colleagues, the legislative assembly, the municipal officials, school district officials, and the citizens of our two communities and those who are in between those two communities that I will do my best to continue my efforts to bring us together and not to drive us further apart.

#### COMMUNICATION

President Sanstead announced he had received a communication from the Governor's Office and requested the Secretary to read it as follows:

STATE OF NORTH DAKOTA  
EXECUTIVE OFFICE  
BISMARCK

February 8, 1977

In my State of the State Message to the Forty-fifth Legislative Assembly I said:

I had hoped to recommend that kindergarten be funded on a statewide basis, but budget constraints have prevented me from doing so. I do believe it to be an important new program we should look at on a statewide basis if the financial picture during the legislative session appears to improve.

I have been advised by the Tax Department that the \$29,400,000 in the Executive Budget for the Personal Property Replacement Program will exceed the need. Current replacement levels indicate that the appropriation should be \$26,000,000. With the \$3,400,000 change in this item, I am now recommending that \$3,500,000 be appropriated for public kindergarten on a statewide basis.

Sincerely yours,

ARTHUR A. LINK, Governor

ANNOUNCEMENT OF GOVERNOR'S APPOINTMENT  
STATE OF NORTH DAKOTA  
EXECUTIVE OFFICE  
BISMARCK

February 4, 1977

The Honorable Wayne Sanstead  
President of the Senate  
North Dakota State Senate  
Bismarck, North Dakota 58505

Dear Mr. President:

This is to inform you that, pursuant to Section 50-06-02 of the North Dakota Century Code, I have appointed Ms. Evadne B. Gillette to a regular six year term on the Social Service Board of North Dakota effective April 6, 1977, and extending to April 6, 1983, subject to Senate confirmation.

Enclosed is a resume of Ms. Gillette.

Sincerely yours,  
ARTHUR A. LINK  
Governor

President Sanstead referred the above appointment to the Committee on Social Welfare and Veterans Affairs.

## POINT OF PERSONAL PRIVILEGE

Senator Nething: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate, you have just heard a message from the Governor of North Dakota, which will now be printed in our Journal and become part of the history of this State. I rise to express to you my disappointment in the position that has been taken by our Governor.

Mr. President, ladies and gentlemen of the Senate, without referring specifically to the program to which the Governor now endorses, I would like to point out to you some of the problems with which this Legislature is confronted with which are now going to be compounded. I think all of you have been aware of the financial constraint that has been placed upon us

and of the diligent efforts of each member of the Appropriation Committee and of the membership of the Legislature to tolerate the situation that we have, and to attempt to establish programs and balance the budget with the funds that exist. We know each of us have particular concerns that we would like to see. We would like to see appropriations provided for, they vary from ongoing programs to one-shot type of program that takes funding only for this current biennium. The Governor has recommended to us an ongoing program, which means that in the future, if we adopt this program that it will be with us in our dollar and cents approach. I would like to point out to you that there are several areas where this money might have been categorized as opposed to where it is. For example, the Senate recently made an appropriation of 1.3 million dollars to assist in providing fringe benefits to our state employees. We had building requests before it and the same amount of money could have been used to provide a library on our NDSU campus, or it could have been used to provide a maximum security building for the Jamestown State Hospital, or it could have been used to provide an office facility and classroom laboratory at the University of North Dakota, or it could have been used to provide a physical education activity center at Minot State College, all of which were adopted as part of a program by this Legislature establishing priorities two years ago and which the Governor has now chosen to ignore. Yes, it might have even been used to help in that vital area of assisting and resolving the problems of the teacher's retirement program, or if we wanted to establish another ongoing program, it's not in the budget, perhaps it could have been used to fund a bill which would provide medical assistance for needy children. I point these out to you to show you the options that were open and the one that was chosen. Then, this is in addition, these are examples of additions to the budget over and above the opposite budget recommendation. And then there is another problem that has come up in most recent days that I think is probably more critical than any I have mentioned and that is the conversion of our heating plants at our institutions of higher education, which carry with them a six million dollar price tag to accomplish but when that conversion is accomplished, not only would it save money for the State of North Dakota, but it would also save on the oil that is currently being burned and instead permit us to burn coal. So when I express my disappointment over the Governor's recommendation, I hope that you realize the options that were open and the one that was chosen and I am confident that we'll be able to debate that option that he chose at a later time. Some place along the line we asked the Minority Party in this Senate, and we asked the Democrat Party in the House and we asked the Governor, let's be constant and consistent when we approach fiscal matters and not talk one day in the newspaper about the fiscal conservative policy of your party and the next day another statement that you're going to spend only 10 million dollars more than the Governor's recommended or the following day after that have the Democrat Party in the House spend an additional \$4 million or request the spending of an additional \$4 million dollars for public transportation system, which was not even included in the budget or the \$10 million over and above the budget that was recommended to be spent. I think the people in North Dakota are entitled to know where you are going to be fiscally responsible and I think the Senate welcomes your help in establishing fiscal responsibility for all of the State of North Dakota.

## POINT OF PERSONAL PRIVILEGE

Senator Hoffner: Mr. President, I rise on a point of personal privilege. Mr. President, members of the Senate, in view of the long calendar, I won't take quite as long but I think it's important to point out some additional information to the Chamber that there are definitely the Executive and Legislative branches of government and that the Executive has the responsibility of presenting the budget to this Legislative Assembly, and that budget process is a very long and detailed process over a period of six months. We don't talk enough about this executive budget and how its developed, that the executive analysts has hearings with every department of state government, detailed hearings, into what the needs and what their requests are for the next two year period for that budget. Then the Governor takes and reviews that budget after it's presented to him by the executive budget analyst. This last budget, the requests were \$100 million over the \$538 million that the Governor's executive budget finally arrived at — a \$100 million. Now, if you can imagine having to trim \$100 million off those requests in many of the areas that the Majority Leader was talking about, believe me, I don't envy the executive's position to have to do this. Now, he had to set priorities and what he felt should be a message to this Legislative Assembly. He did that, he presented the budget with a \$100 million reserve and I think that it's a healthy reserve. We, in the Minority, have been working at a number of caucuses, working out what we consider our priorities, and we haven't exactly followed the Governor's executive recommendations. I am sure the Majority Party will do the same. I haven't seen the program that the Majority Party has and we have had considerable time that this program should have been developed and should have been presented. Now, in addition to the \$100 million request, that these agencies are going back to the Appropriations Committee and they're asking that these monies be restored, that the Executive Budget cut back and I don't envy the Appropriations Committee one bit, so it's not an easy job, and I'm sure when it's all over, we're going to be moving around within the Governor's budget, but we're all going to be very thankful that we have this guide that the executive budget has given us, and remembering that there are these branches of government, the executive and the legislative, and that just because we're of the same party that the executive is that we're not going to necessarily follow rubber stamp that executive budget, but we have a caucus position that we're going to stay about \$10 million or not exceed the executive budget by more than \$10 million and that would leave the reserve of \$90 million. I hope they can stick to that and call it what you like, conservatism, fiscal responsibility whatever, but that is my message today.

Senator Nething moved that the Senate adjourn, which motion prevailed.

LEO LEIDHOLM, Secretary

TWENTY-SIXTH DAY

Bismarck, February 8, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. Eldred Johnson, Pastor, Trinity Lutheran Church, Turtle Lake, N. Dak.

"Be still and know that I am God", is Your exhortation unto us, O Lord. We pause for a moment in this legislative session to call upon You in prayer.

We thank You for this day and the opportunities for service that it presents.

We have chosen, O Lord, these men and women assembled here to represent us. Help us to hold them in our daily prayers.

We pray that they may be mindful of those whom they represent. While they come from the different legislative areas in our state, may they be guided to serve unselfishly for the common good.

Protect, we pray Thee, those liberties of rule by representation which are the cornerstone of our government.

To us, to whom there has been given, among other things, freedom of religion, freedom of speech, freedom of the press, grant us grace to proclaim Your Word and use every opportunity to serve our fellow men. May our actions give proof to our words. Bless, O Lord, the communities from which we come, our State and our Nation.

I want to thank you for the good day, thank you for the sunshine, I want to thank you for the many good things that you are doing for the State of North Dakota. Thank you for the people, thank you for these Senators. I thank you Father that you always smile upon us with your loving care. Now, Lord, today we ask your wisdom and blessings upon these men, upon the ladies, upon their families, and bless them where they are. I ask, Father, your wisdom that the Senators would be able to separate the important from the unimportant, be able to understand the things that would help the State of North Dakota to become a better place to live. EXPLANATION OF VOTE

Senator Lips: Mr. President, I rise on a point of personal privilege to explain my vote on Senate Bill No. 2418. I have been in the insurance business for about thirty years and what we really did here, you will notice I voted "no", we're turning over the condition of a license to a private organization, and if you're going to make this a condition of licensing insurance agents, then it should be in the Insurance Department and those examinations should be conducted by the Insurance Commissioner, and not by some private organization.

The motion prevailed and the President appointed Senator Strinden, who escorted Miss Grotberg to the rostrum, whereupon she entertained the members of the Senate with vocal solos accompanied by Kevin Sorenson from Mandan.

#### TWENTY-NINTH DAY

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. Blaine R. Cook, Pastor, Corpus Christi Church, Bismarck.

"O, almighty God we stand here with heads bare, but unbowed — as we ask that your will may be done in our lawmaking.

May we see our legislative acts as the process of guiding the change that must take place in changeable people.

Please provide us with our daily bread of courage to find new ways to deal with the flood of bills in their complexity and in their opposition; to find different means to become more knowledgeable about the content of the measures; to find new procedures to slow down the rush — to give more time to sometimes shortsighted caucuses — so that the deliberations may be more objective and with more understanding.

Lead us away from the temptations of political horse-trading and compromise for the sheer sake of affirmation.

May we always be guided by the principle that "good legislation must

be concerned primarily about the common good, and not just personal or vested good. Amen”.

The roll was called and all Senators were present except Wenstrom. A quorum was declared by the President.

**CORRECTION AND REVISION OF THE JOURNAL**

#### EXPLANATION OF VOTE

Senator Strinden: Mr. President, I would like to explain my vote. Mr. President, members of the Senate, I don't know the limits of the bill that we just passed. I am aware, however, that this State of North Dakota, and this Legislative body has gotten in to serious trouble by passing legislation affecting the teachers retirement fund by not having sound actuarial advice. We have taken actuaries' advice at various times and we still have gotten into problems. We are talking now of the teachers retirement fund of as much as a \$64 million deficit that is going to have to be made up. I voted "no" because there was no actuarial accounting of what might happen. I am fearful of any retirement fund without a sound basis of change.

**POINT OF PERSONAL PRIVILEGE**

Senator Albers: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate, this body has just

indefinitely postponed Senate Bill 2387, which I introduced. While I accept the indefinite postponement, I feel I must take a few minutes to comment about the bill.

First, Senate Bill 2387 was introduced on behalf of a group of my constituents. I was proud to introduce it because these people and I were sincerely concerned about potential noise and dust problems associated with mining activities.

Secondly, I feel I must thank Senator Solberg, the distinguished Chairman, and the other members of the Transportation Committee who were most understanding and courteous to the sponsor and my constituents. I feel certain each of them — Senator Iszler, Senator Lashkowitz, Senator Schirado, Senator Strand and Senator Tennesfos — gave us and the bill the sincerity and attention we wanted.

Yesterday, the committee was indulgent enough to reopen their discussion of this bill, and Chairman Solberg invited Mr. Gene Christianson of the State Health Department, Mr. Ray Walton of the Public Service Commission and Mr. John Smith of the North Dakota Lignite Council to discuss the concerns which caused this bill to be introduced.

Mr. President, ladies and gentlemen of the Senate, during this most informative discussion, we learned:

1. That the State Health Department, by law, must monitor and control dust emissions;
2. That the federal mine safety regulations establish maximum dust emission standards and noise levels;
3. That amendments proposed to the present reclamation law — which amendments are now in the House — will give the Public Service Commission authority over the siting, construction and reclamation of haul roads.

So, Mr. President, ladies and gentlemen of the Senate, it seems apparent that for the moment at least, the dust problems can be minimized or even eliminated.

With respect to noise, I am informed that the law has for some time directed the State Health Department to develop standards for control of noise levels, but that the legislature has never funded such a program. Further, that the House has killed such an appropriation during the present session. This is unfortunate.

I am satisfied that Senate Bill 2387 is probably not necessary at this time. But I would put the Senate on notice that my district and I will be watching the situation closely during the near future. If we are not satisfied, this type of legislation will be introduced again.

Thank you.

### POINT OF PERSONAL PRIVILEGE

Senator Christensen: Mr. President, I rise on a point of personal privilege:

I would like to explain my vote on Senate Bill 2377, the bill to legalize Laetrile. Many sincere people feel that the legislature is simply being stubborn and unresponsive to the wishes of their constituents. They honestly believe Laetrile is effective against cancer and their government is trying to stop its use.

Most of the patients who claim that Laetrile is keeping them alive have already had surgery, cobalt, or chemotherapy or all three...yet they give the credit to Laetrile. Cancer remissions come for many reasons—some totally unexplainable. Many attribute their recovery to divine healing. I personally believe the Lord is a more effective healer than Laetrile is.

Most of us respect modern medicine as well. I suppose half of us are here today because at some time in our life we had an operation or had need of some modern drug. This progress has come from the research lab. That is not the route taken by Laetrile.

There are thousands of drugs that are either harmful or ineffective or both. If we approve Laetrile, which one will be next? The patient is in no position to prescribe for himself. The practicing physician also is involved in a practice and not research. Which brings us to the Food and Drug Administration...which has been pictured as an arbitrary bureaucracy which is determined to keep a valuable drug from being used to save lives. It was the Food and Drug Administration which kept thalidomide out of this country. It originated in Germany where they began selling it over the counter in 1958. Canada made it available for prescription in 1961.

The Food and Drug Administration confined the drug to medical

researchers for investigational research only. However, some American women bootlegged the drug in from foreign countries. At one time Thalidomide was suggested as the reason for the remission of cancer in a patient in Israel. Thalidomide caused babies to be born with flippers rather than arms and legs. Before Thalidomide was withdrawn from the market in the early 1960's, it is estimated to have caused 2,500 birth defects in West Germany, 430 in Britain, 200 in Japan, and 5,000 elsewhere. What if some state had decided to legalize Thalidomide?

Legislation by us on a specific drug is rather strange procedure in any case...and if we did pass the bill, Laetrile would still be an illegal drug in the United States including North Dakota...and we would seem to be encouraging the violation of Federal Law. These are the reasons why, Mr. President, I felt I should vote against Senate Bill 2377.

POINT OF PERSONAL PRIVILEGE

Senator Lashkowitz: Mr. President, I rise on a point of personal

privilege, and request my remarks be printed in the Journal. Mr. President, ladies and gentlemen of the Senate, yesterday this Assembly may have made history. A cursory check of the records of past legislative assemblies has indicated that a constitutional officer was challenged in the exercise of his constitutional and statutory duties. I would like to state that our Lieutenant Governor has passed through a difficult week and he has emerged with renewed and enhanced stature. He has firmly and courageously exercised his duties under the Constitution and the statutes of the State of North Dakota. In regard to Senate Bill 2135, he had previously obtained the Attorney General's opinion; thereby following Article 82 and Article 83 of the North Dakota Constitution and the sections of the Code adopted pursuant to the Constitution of the State of North Dakota or particularly Section Section 54-12-01 of Chapter 54-12, that portion of our Code dealing with the duties of the Attorney General and his powers. I would like to cite Subsection 6 which provides that the Attorney General shall consult with and advise the Governor and all the state officers and when requested, give written opinions on all legal or constitutional questions relating to the duties of such officers respectively. Sub Section 8 the Attorney General shall therein, "give written opinions, when requested by either branch of the legislative assembly upon legal questions." In short the Attorney General is the legal advisor of the State of North Dakota. This has been re-affirmed by the Supreme Court of North Dakota many many times, but most impressively in a case entitled State vs Baker cite as 21 N.W. 2d 355, decided on May 26, 1945 by the Supreme Court. I would like to quote for this body's consideration page 364 of that opinion in part. "Thus the attorney general is made the legal adviser of both the legislative assembly and the state officers and it is particularly to be noted that he shall give written opinions to the legislative assembly upon legal questions and shall consult with and advise the governor and all other state officers and, when requested, give opinions not only on all legal questions but also on all constitutional questions relating to the duties of such officers. And the opinions so written must be recorded in a book which must be delivered to his successors in office. Reading this statute we can reach no other conclusion than that the legislature, thus imposing these duties upon the attorney general, made him the chief law officer of the state — the responsible legal adviser for the state auditor as well as for the other state officers, whose opinions shall guide these officers until superseded by judicial decision; that it took note of the fact that these officers are not required to be learned in the law and contemplated that when any constitutional or other legal question arises regarding the performance of an official act their duty is to consult with the attorney general and be guided by the opinion that officer, if requested to do so, must give them. If they follow this course they will perform their duty, and even though the opinion thus given them be later held to be erroneous, they will be protected by it. If they do not follow this course, they will be derelict to their duty and act at their peril."

Members of the Senate, the Lieutenant Governor of North Dakota had no other choice than to cast his vote, either "aye" or "nay" because this was his duty to so act, and may I state further, it is my considered judgment that on an appeal of the Chair on a substantive matter that the Chair cannot abrogate his right to cast his vote. That the only portion of the rules of this Senate that relate to appeal of the Chair is contained in

Rule 11 which relates to procedural matters concerned with order and decorum.

There is absolutely nothing in the rules of this body that the President of the Senate can abrogate or abandon his right to cast his vote because it is his constitutional duty to break a tie when it exists; therefore I would raise the question that the action taken yesterday when the Lieutenant Governor, as presiding officer of this Senate cast his vote, he thereby relieved this body of its responsibility in regard to 2135 unless they move for reconsideration on some other basis. I do not believe that reconsideration would be necessary to fortify the Lieutenant Governor in his decision as the 26th vote in that decision. Therefore members of the Senate I believe that the question is moot unless the Senator wishes to have the matter further considered; because as I understand decisions of the State of North Dakota as promulgated by the Supreme Court in interpreting the Constitution of this state and the statutes of the State of North Dakota, mandate the Lieutenant Governor to act as a deciding vote on substantive matters and that that matter should be properly be dispatched to the House of Representatives for their attention and consideration. Thank you.

## THIRTIETH DAY

Bismarck, February 14, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. Lionel P.A. Muthiah, United Methodist Church, Bismarck.

"Our Father God, at yet another beginning of this Senate session, we acknowledge you as Lord above all, there is none other but you to whom we owe ultimate responsibility. Indeed this very moment we once again submit ourselves to you.

We thank you for our heritage as Americans and especially for the freedom of expression.

Guide us as we deliberate over the affairs of this State. Help us to be sensitive to one another and to those who elected us above others as their Senators.

Enable us to be courageous in our convictions and yet sympathetic enough to listen to those with whom we disagree. May our human concerns find us rising above our political inclinations.

May time not govern us and prod us to hasty conclusions, but rather may we be slow to arrive at our conclusions and if needs be, lengthy in our discussions.

May we intelligently weigh the pros and cons of each issue, that we might be aware of the wide moral, ethical and physical impact our decisions will have upon our citizens of this state, the State of North Dakota, to which some of us were born into, and to which others of us have chosen to live in.

Help us to be above self and filled with integrity to the higher claims you have placed upon us of honest and sincere service.

Let us see each child, youth, young adult, middle aged, Senior Citizen, male and female, as people who have rights, as people for whom you are concerned, as people whom you have entrusted to our particular care as elected representatives involved in the legislative process. May we always be conscious of the lives which will be affected by our vote. May our minds be at ease in the knowledge that we have done our best.

Receive, O Lord, this prayer and may it rise above mere verbiage and find fulfillment even as your Spirit sensitises us. We ask this in the name of Him who has given all of us dignity, Jesus the Christ. Amen."

The roll was called and all Senators were present.

A quorum was declared by the President.

#### REMARKS BEFORE NORTH DAKOTA SENATE

SENATOR MILTON R. YOUNG

February 14, 1977

It is a pleasure to be with you again today. Although all the members here are new since my time here in the Senate, I still feel a close friendship with you.

I have been following your proceedings very closely and especially those involving Garrison Diversion. You have been going a good job handling this and other difficult problems. I have a feeling there has even been some improvement here since I left!

Your strong support of Garrison Diversion, as well as that of all of our public officials and almost every organization in the whole state—and especially the press, has greatly strengthened our position. Keep it up.

I need not tell you that we are in deep trouble with the Garrison Diversion Project. Most of the opposition is coming from a small minority of environmental extremists who are well financed and well organized. It is alarming to me that such a minority can be so powerful and have so much influence both here and in Canada. This is not to say that environmentalists haven't done some good—they have. It is the extremists that are so unreasonable and it is they who have been quite effective in arousing unjustified opposition.

Garrison Diversion isn't the only major Federal project in trouble. At least 16 other major water and power projects throughout the United States have either been stopped entirely or have had construction held up by court injunctions sponsored by these same environmentalists.

Only two weeks ago, on February 1, construction on a TVA Dam in Tennessee was halted by court action. This \$116 million Tellico Dam near Knoxville was all but completed when all work on it was halted by court injunction. Just the power generation from this dam alone would be sufficient to heat a city of 20,000 homes.

What happened was that environmentalists recently found a little three-inch Snail Darter Fish in this river. This little fish wasn't listed as

an endangered species until recently when the construction of the dam was almost completed. TVA even offered to relocate these little fish, but that wasn't enough. The court imposed injunction has been appealed to the Supreme Court. I cite this case, because it is so similar to the problems of Garrison Diversion and most water projects all over the United States.

The list of endangered species of much similar fish, snails and shrimp, has now grown to over 120. Thus, a great many more water projects that people want so badly and on which a considerable amount of money has already been spent, will face the same court injunctions.

Until recent years—and long after large amounts of money had been spent for investigations and construction, we encountered practically no opposition to Garrison Diversion. Only recently have some environmental extremists decided it didn't meet their own brand of standards, and as you know, they are now seeking a court injunction to stop construction of the project. If they should succeed, we will have no alternative but to appeal to a higher court. This project has long been a hope and dream of our people and the most important in the history of our state. We will continue our fight no matter what it takes.

The long delays and slowdown in construction have already added at least \$150 million to the cost of this project. Our most serious problem of all is to reconcile our differences with Canada. Our own environmentalists have been presenting an inaccurate and distorted picture of Garrison Diversion to our friends in Canada for years. Far too many supporters of Garrison Diversion didn't realize the damage these environmentalists were doing to our project in Canada. We must do a better job from now on. I can't help but feel that once the Canadians have all the facts, most of our problems with them will be resolved.

Nationally, our most serious problem now is energy and we have made very little progress in solving it. The severe shortages of natural gas and other energy sources of the last few months ought to, and I believe have, instilled in our people a greater determination to do more to become self-sufficient in energy.

As serious as the energy problem has been, some good may come from it. Maybe some of these environmental extremists won't be as effective in the future in blocking the development of new sources of energy.

It wouldn't be too difficult to solve our energy problems if it weren't for the unreasonable obstacles placed in the way of almost every attempt undertaken to find new energy sources and to make present energy reserves available.

We have huge natural gas reserves in Alaska, but we need a means of getting it to our people in the lower 48 states. Japan is now getting practically all of the natural gas now being produced in Alaska.

It took four years to get the Alaska Oil Pipeline approved by Congress and to overcome all the roadblocks placed in its way by environmentalists. After nearly ten years, we will finally be getting oil from Alaska later this year.

Congress has authorized a pipeline to get the huge Alaskan gas reserves to the lower 48 states, but it may take another three years or more before this pipeline even gets under construction because of the same opposition that held up construction of the oil pipeline. We wouldn't have had the serious energy problem now if the Alaska reserves had been available.

We have huge reserves of oil shale. Again, mostly because of the environmental requirements, this energy source may not be used for years to come.

Almost every nuclear power plant has been involved in long drawn out court action. Some have been stopped entirely and especially on the East Coast where they are most needed.

Only last Friday the Virginia Power and Light Company stopped work on two of its eight nuclear plants. They stated in this country that sired the nuclear industry, it takes eleven years to build a nuclear power generating station. They said in other countries it takes half that time at no sacrifice in safety. This is another example of how environmental sponsored requirements have caused long and unnecessary delays, and greatly increased the cost of power.

If we were permitted to go ahead with the so-called fast breeder reactor process in using waste atomic fuels, we would have an almost inexhaustible supply of energy. Some of the objections to this new process have merit, but I can't help but feel that they can be overcome.

We have enormous supplies of coal that could be converted into almost any kind of energy. No one knows better than you in this legislature the problems of expanding use of this energy resource North Dakota has passed one of the best strip mining laws of any state. We have made reasonable progress but we haven't broken any speed records!

I could go on and on in discussing this energy problem and possible solutions. I haven't even mentioned solar power — one of the greatest potential sources of all. We will continue to be at the mercy of a few oil rich countries and environmental extremists unless we do much more than we have to solve our energy problems. North Dakota and the surrounding area is most fortunate in having an abundant supply of cheap power. One of the great sources of power is from the five big hydroelectric dams on the Missouri River.

The construction of these dams, too, has ended the almost yearly destructive floods all along the Missouri River. They have many other benefits such as water for irrigation, municipalities, recreation and navigation. There was strong opposition to the construction of these dams, too. I was right in the middle of all the many problems and objections to the Garrison Dam. Some of these objections were justified. Many lost their land—both Indian and White. Regardless of the great benefits of these dams, they could never be constructed today under present environmental requirements.

We are fortunate, too, in having considerable oil and even some gas production in North Dakota. Even though we in North Dakota have few energy problems, we do have an obligation to help solve this critical national problem.

In closing, I would be remiss if I didn't give just a little recognition to some of my old friends among the environmental extremists. My association with them began several years ago when I succeeded in getting an Omega Navigational System installation located near my home town of LaMoure. This Omega Station is one of eight located throughout the world and part of a very important new navigation system. These same extremists did everything they could to stop this project.

They were able to get a great amount of statewide publicity charging, among other things, that this 1200 foot Omega tower could cause a

massive bird kill. They even tried to get the Canadians to oppose this project claiming that it violated some bird agreement we have with Canada.

After considerable investigation by some of the best authorities on bird migrations, they came to the conclusion that this little tower was not the menace they claimed. The birds and all the waterfowl had more sense than they were given credit for. They have been avoiding this tower ever since—but the environmental extremists are still in my hair!

Thank you for permitting me to be your guest again today.

#### POINT OF PERSONAL PRIVILEGE

Senator Larson:

Mr. President: I rise on a point, of personal privilege, and request that my remarks be printed on the Journal. In my 20 years of service in the legislature I have rarely taken the time of the Assembly on a personal statement but, I am very much concerned about the fact that we are not getting a decision on whether the Lt. Governor has a Constitutional duty to vote in this Assembly or not. It's now been over two weeks since this case was argued before the Supreme Court. Last week we had a tie vote in this assembly, causing a question to be raised whether a bill has passed or not, this could happen time and time again during the remainder of this session or even today.

I am concerned for the people of the State of North Dakota — whom we represent. My concern is that some very important legislation, could well be defeated on a tie vote. I firmly believe that the Supreme Court should disqualify themselves in this case due to the vested interest they now have in pending legislation such as their ten thousand dollar salary increase and the proposed Supreme Court building.

We need a decision now on whether the Lt. Governor must follow the Attorney General's Opinion and vote, or the rules of the Senate and not vote. We don't need this decision after this session is over. Thank you.
