"As individuals who represent many other individuals in the State of North Dakota, we have the responsibility and the obligation to legislate for the welfare of the people we represent. Father, give us the vision to see the needs of others, the wisdom to know how to answer these needs, and the courage to legislate accordingly. Father, we are asking, therefore, to share in your vision of what is good for mankind, to share in your wisdom that truly knows the right from the wrong ways to answer these needs. We ask for your strength and power and authority to put into effect in our State those laws which will effect growth and happiness in our people.

Much it is that we ask of you — but even greater are the blessings you wish to grant unto us, if we but ask. We do so now in the name of Christ our Lord. Amen."

Roll was called and all Senators were present.

A quorum was declared by the President.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DEFINITIONS.) As used in this Act:

1. The "board" or "state board" means the state board of equalization.
2. The "fair market value of the coal" means, in the case of each individual sales contract for coal, a price per ton for coal which has been sold under an arms-length contract and which includes all costs as herein provided. Such costs must include but are not limited to the following:
  - a. Market value of the rights of the coal mine operator in the coal before severance or, when the unsevered coal is owned wholly or partly by the user, the market value of the owner's rights therein.
  - b. Any rents, royalties, or bonuses paid with respect to the coal.
  - c. All mining costs, including the costs of extraction of the coal from the earth, costs of loading and hauling such coal from the place of extraction to the various points of processing and loading for shipment, costs of coal treatment processes such as crushing, sizing, and oiling, costs of loading the coal onto transportation equipment for shipment, and costs of reclamation of mined land, all of which costs shall include, but shall not be limited to, the following:
    - (1) Labor and management costs, including but not limited to salaries

and wages, payroll and other taxes, payments to labor union funds and retirement plans.

(2) The cost of owning and financing or of leasing equipment used for the purposes described in this subdivision and the cost of operating that equipment.

(3) The cost of electricity and fuel, or the equivalent value thereof when not purchased, required to operate all mining equipment.

Fair market value of the coal shall not, however, include the amount of severance tax imposed by this Act and shall not include transportation costs other than those described in subdivision c of this subsection.

3. "Coal development" shall mean the mining of coal and industries directly related to the processing of coal, including, but not limited to, the generation of electricity from coal or coal products, coal gasification, coal liquefaction, and the manufacture of fertilizer from coal, and shall also include the transportation of coal and products therefrom.

4. "Impacted city or other political subdivision" shall mean a city or other political subdivision which demonstrates actual or anticipated extra-ordinary expenditures caused by coal development or the growth incidental thereto.

5. "Impacted county" shall mean a county which demonstrates actual or anticipated extra-ordinary expenditures caused by coal development and the growth incidental thereto.

6. "Impacted school district" shall mean a public school district which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

7. "Coal" means a dark-colored compact and earthy organic rock with less than forty percent inorganic components, based on dry material, formed by the accumulation and decomposition of plant material. The term shall include lignite in both oxidized and nonoxidized forms as well as any coal bodies enriched in radioactive materials.

8. "Person" includes any individual, firm, partnership, joint adventure, association, corporation, estate, business trust, receiver, or any other group or combination acting as a unit and the plural as well as the singular number.

9. "Fiscal year" means a twelve month period beginning on July first and ending on the following June thirtieth.

## SECTION 2. IMPOSITION OF TAX—PAYMENT OF TAX—COMPUTATION OF COAL PRICE.)

1. There is hereby imposed for the privilege of severing coal in North Dakota from the earth for sale or for industrial purposes a tax in the amount hereinafter provided. Such tax shall be in lieu of any tax imposed by law upon the sale or use of such coal in this state. Each coal mine owner or operator shall remit such tax for each calendar quarter year, within thirty days after the end of each quarter, to the state tax commissioner upon such reports and forms as the tax commissioner shall deem necessary.

2. The amount of tax imposed shall be a flat rate per ton of coal determined annually as follows: on the first Tuesday in June and each day thereafter as necessary the state board of equalization shall hold a public hearing at the state capitol at which any person interested may appear and present evidence relating to the statewide average contract price of a ton of coal, after which the state board shall, as soon as reasonably possible, determine the statewide average contract price of a

ton of coal of two thousand pounds prevailing in this state on June first of that year; the statewide average contract price per ton as so established by the board shall then be reduced by ten percent of such price as an exemption for costs of reclamation of mined land, and the rate of tax imposed for each ton of coal severed in the following fiscal year shall then be thirty-three and one-third percent of such statewide average contract price per ton as reduced by the ten percent exemption which the board shall certify to the state tax commissioner as the rate of tax for the next fiscal year. The tax rate per ton as certified by the board shall be rounded to the nearest tenth of a cent. The tax rate for any fiscal year, however, shall not be less than one dollar per ton.

3. For purposes of determining the statewide average contract price per ton of coal prevailing in the state on June first of any year the state board of equalization shall, if necessary, adjust the price of coal that is provided for in each contract so that the price represents as nearly as possible, the fair market value of the coal as defined in this Act. In any case where the coal before severance is owned, wholly or partly, by the person who will use it after severance in an energy conversion process or for any other purpose or where a person neglects or refuses to furnish to the state board any information required by it as provided in this section, the state board may determine a fair market value of such coal for use in establishing the statewide average contract price.

4. When adjusting contract sales prices to determine the fair market value of coal mined under a contract, the board may utilize the factors authorized by the federal Internal Revenue Code, 26 United States Code, section 613, or that provision as it may be labelled or amended, and the regulations thereunder, for determining gross income from mining property, or the board may utilize any other or additional criteria that are appropriate. Each coal mine owner or operator and each buyer and seller of coal shall, upon request made by the board at any time, furnish to the board copies of the contracts under which it is then buying or selling coal and any other information deemed necessary by the board for the performance of its duties. The board may also take into consideration the reports or other information filed by any coal mine owner or operator or any buyer or seller of coal with any other agency of government, federal, state or local which such agency is not prohibited by law from disclosing to the board.

5. In establishing the statewide average contract price per ton of coal as of June first of any year the state board shall take into account the fair market value of coal under contracts which provide for the production of more than twenty-five thousand tons of coal per year and shall use the weighted arithmetic mean price of such coal, except that no contract for the production of that type of coal known as leonardite shall be taken into account for the purposes of this subsection.

6. The board's certification of the annual tax rate to the state tax commissioner shall be prima facie evidence of its correctness. The tax rate provided for in this section shall be applicable for all coal mined on or after July 1, 1977.

7. The state board of equalization is hereby authorized and empowered to prescribe and promulgate rules and regulations in accordance with the procedure provided in chapter 28-32 of the North Dakota Century Code that are necessary and advisable for the administration of its duties under this section.

8. An appeal from the determination of the annual tax rate by the state board may be taken to the district court of Burleigh county within thirty days after the certification of that tax rate by the state board to the state tax commissioner. The appeal shall be heard and determined de novo by the district court.

SECTION 3. WHEN TAX DUE—WHEN DELINQUENT.) The severance tax as provided in this Act shall be due within thirty days after the end of each quarter year period, and if not received by the thirtieth day shall become delinquent and shall be collected as herein provided. The tax commissioner, upon request and proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for paying the tax, and when such request is granted, the tax shall not be delinquent until the extended period has expired. The tax commissioner shall require a report to be filed quarterly by each owner or operator of a coal mine, in such form as the tax commissioner may specify, to list a full description of the mine, the number of tons of coal severed, the amount of tax due and remitted, and any other information deemed necessary by the tax commissioner for the proper administration of this Act.

SECTION 4. POWERS OF STATE TAX COMMISSIONER.) The state tax commissioner shall have power to require any person engaged in the mining of coal, and the agent or employee of such person, or purchaser of such coal, or the owner of any royalty interest therein, to furnish any additional information deemed by him to be necessary for the purpose of correctly computing the amount of tax due, and to examine the books, records, and files of such person, and shall have power to conduct hearings and compel the attendance of witnesses, the production of books, records, and papers of any person, and full authority to make any investigation or hold any inquest deemed necessary to a full and complete disclosure of the true facts as to the amount of production from any coal mine or of any company or other producer thereof, and as to the rendition thereof for taxing purposes. In case of refusal by a person to comply with a requirement of the state tax commissioner to furnish information or to produce books, records or files for examination, the tax commissioner may invoke the aid of any court of competent jurisdiction and such court may issue an order requiring the person to appear before the tax commissioner and give evidence or produce books, records and files, as the case may be, and any failure to obey such order of the court may be punished by the court as contempt thereof.

SECTION 5. TAX COMMISSIONER TO COMPUTE TAX ON INCORRECT RETURNS.) The state tax commissioner shall have the power and authority to ascertain and determine whether or not any report or remittance filed with him is correct, and if the owner or operator has made an untrue or incorrect report or remittance, the commissioner shall ascertain the correct amount of taxes due, and give immediate notice to the owner or operator filing the incorrect return or remittance. Any coal mine operator or owner receiving notice from the tax commissioner that he has filed an incorrect return or remittance shall remit the tax assessed by the commissioner within fifteen days of such notice. Any owner or operator aggrieved by a decision of the tax commissioner may make application in writing within fifteen days of notification for a hearing which shall be granted not later than fifteen days after receipt of the application. **SECTION 7. LIEN FOR TAX.)** The severance tax herein imposed shall, at all times, be and constitute a first and paramount lien on the coal mine owner's or operator's property, as the case may be, both real and personal. In all cases where such tax is not paid, it may be recovered at the suit of the state, upon relation of the state tax commissioner, in the district court of the county where any such property, assets, and effects are located.

**SECTION 8. APPEAL FROM DECISION OF TAX COMMISSIONER.)** Any person aggrieved because of any action or decision of the tax commissioner under the provisions of this Act may appeal therefrom to the district court of Burleigh county.

**SECTION 10. DISPOSITION OF REVENUES.)** All moneys collected by the tax commissioner pursuant to this Act shall be turned over by him as soon as practicable to the state treasurer for deposit in the state treasury to the credit of the coal development fund.

The income from such trust fund shall be deposited in a special account within the trust fund which shall be known as the "environmental protection research and alternative energy development fund", and income earned by such special account shall also be deposited in that account. Expenditures from such fund may be made, as the legislative assembly directs, for the following purposes:

(2) Research to determine methods of alleviating such problems and for assistance in their alleviations; and

(3) Research and development of other energy sources that are viable alternatives to obtaining energy from fossil fuels and nuclear fission. Such trust fund, but not the income therefrom, shall be perpetual and held in trust as a replacement for depleted natural resources.

c. Two-thirds of each such distribution to a county shall be allocated to the county coal development impact commission for the making of grants as provided in section 15 of this Act. One-third of each such distribution to a county shall be promptly distributed within a county as follows:

(2) Thirty percent shall be distributed and credited to the general fund of the cities in the county on the basis of the per capita population of all the incorporated cities situated within the county as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.

(3) Thirty percent shall be distributed and credited to the school districts within the county on the basis of the average daily membership as certified to the county treasurer by the county superintendent of schools.

d. In addition to the amounts allocated pursuant to subdivision c of this subsection, ten percent shall be allocated to a special fund in the state treasury for distribution, as hereinafter provided, within those counties in which the coal was mined. Any county in which coal is mined or any city or school district in such county which upon application to the coal development impact office establishes to the satisfaction of that office, subject to the approval of the coal development impact commission, a

need for funds that is in addition to those provided in subdivision c of this subsection shall receive such percent, but not exceeding a total of ten percent for the county and the cities and school districts therein, of the severance tax revenue from coal mined in that county during such period of time as the coal development impact office and the coal development impact commission shall approve. Any funds allocated pursuant to this subdivision but not distributed as herein provided within one year after their deposit in the coal development fund shall be allocated and credited to the special fund established by subdivision a of this subsection for distribution as provided in that subdivision.

e. Twenty-five percent shall be deposited in the state's general fund.

2. Moneys deposited in the coal development fund that are from coal mined after December 31, 1983, shall be apportioned quarterly by the state treasurer as follows:

b. Thirty-five percent shall be credited to a special fund in the state treasury to be held in trust to be administered by the board of university and school lands, which shall have full authority to invest such funds and may consult with the state investment board as provided by law. The income from such trust fund shall be deposited in the special account established by subdivision b of subsection 1 of this section and expended and used as therein provided, or expanded and used to alleviate other problems created by coal development as may be determined by the legislature. Such trust fund, but not the income therefrom, shall be perpetual and held in trust as a replacement for depleted natural resources.

c. Fifteen percent shall be allocated to the coal-producing counties and shall be distributed among such counties in such proportion as the number of tons of coal severed in each county bears to the total number of tons of coal severed in the state during such quarterly period. Two-thirds of each such distribution to a county shall be allocated to the county coal development impact commission for the making of grants as provided in section 15 of this Act. One third of each such distribution to a county shall be promptly distributed within a county as follows:

(1) Forty percent shall be credited to the county general fund and may be expended for county general fund purposes or may be, by resolution of the board of county commissioners, transferred to other county funds for expenditures authorized by law in such amounts as the board deems necessary.

(2) Thirty percent shall be distributed and credited to the general fund of the cities in the county on the basis of the per capita population of all of the incorporated cities situated within the county as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.

(3) Thirty percent shall be distributed and credited to the school districts within the county on the basis of the average daily membership as certified to the county treasurer by the county superintendent of schools.

FIFTY-SECOND DAY

Bismarck, March 17, 1977

The Senate convened at 2:00 P.M., President Sanstead presiding.

The prayer was offered by Rev. Albert Soderberg, Church of God, Bismarck.

"Dear Heavenly Father, we ask you to bless and guide this Senate session. Give each member wisdom and understanding to act in all matters in accordance with your divine will. We thank you for this great State, which allows personal freedom and liberty. We say with the Psalmist, "Blessed is the nation whose God is Jehovah!" Give us strength to worship and serve you, that your blessing may continue upon us. May we never forsake you and face punishment and judgment, like the nations of Israel and Judah in Old Testament history. We need your help in the governing of the State of North Dakota, just as we need your aid in our individual homes. Prepare us, as a nation, for the soon return of the Lord from heaven. We ask these favors in the name of Jesus Christ, the Son of God, and our risen Savior, Amen!"

#### POINT OF PERSONAL PRIVILEGE

SENATOR ALBERS: Mr. President, ladies and gentlemen of the Senate, I rise on a point of personal privilege, and ask that my remarks be printed in the journal.

Mr. President, ladies and gentlemen, today we indefinitely postponed House Bill 1569, which was intended to provide a vehicle by which distribution cooperatives might receive some relief in situations where lines may have to be moved so that coal mining may occur.

The bill in its original form went beyond my understanding of the intent, at least so far as my own local coops are concerned, because it included all transmission lines. Senator Barth offered amendments, and did so sincerely, but apparently those amendments, which I believe he was requested to offer, perhaps did not solve all of the problems involved in the bill.

Mr. President, ladies and gentlemen, there was one aspect of Senator

Barth's proposed amendments which I believe we, as a legislative body, should endorse in spirit and intent, and I wish to address that aspect in my remarks.

The last paragraph of Senator Barth's amendments dealt with the promotion and encouragement of communication and cooperation between the distribution cooperatives and the mining companies, relative to planning, construction, and so forth.

Mr. President, ladies and gentlemen of the Senate, it may not be good law to "encourage" or "promote" this type of cooperation. But I say that we as a body should, in some way, do just that. If it were earlier in the session, I would introduce a resolution which would encourage such cooperation and communication. I feel confident Senator Barth would join me in sponsoring that type of resolution.

Because of the lateness in this session, Mr. President, ladies and gentlemen, I am taking this opportunity to hopefully send a message to the managers of the cooperatives in mining areas as well as to management of the mining companies, and I hope each of you in some way would join me in getting the message across.

The message is: "Over the next two years, your cooperative managers and mining company managers or executives open lines of communications with each other; let each other know where you will have mines and lines in the future; try to work out routing which will minimize probability of moves on one hand, and on the other, let the other side know where you intend to mine.

"More importantly, try sincerely to arrive at some rule of thumb involving compensation for line relocation which is acceptable to each side."

Mr. President, ladies and gentlemen, there may be no need to enact laws to address this particular question or potential problem. It is my belief that if the two sides involved in this potential problem will, over the next two years, attempt to resolve what now seem to be anticipated problems, there may never be a need for legislation such as House Bill No. 1569.

In the absence of the cooperation and communication I suggest, I would remind the parties involved that there will be a legislative session in 1979, and they may rest assured that legislation to correct problems, if they exist at that time, will again be introduced.

#### MOTION

Senator Hoffner moved that House Bill No. 1262 be moved to the head of the calendar.

Senator Barth requested a roll call vote on the motion, which request was granted.

**REPORT OF THE 1977  
SELECT SENATE COMMITTEE ON  
THE BANK OF NORTH DAKOTA**

The 1977 Select Senate Committee on the Bank of North Dakota was created pursuant to Senate Resolution No. 2 to study and review the administration and operation of the Bank of North Dakota and legislative proposals for use of the Bank. The members of the committee were Senators Theron Strinden, Chairman, Francis Barth, Bonnie Miller, Curtis Peterson, Rolland Redlin, Chester Reiten, Gilman Strand, and Kent Vosper.

The committee held eight meetings over its 45-day period of study. The committee toured the Bank facilities and received testimony from Bank officials, the Department of Banking and Financial Institutions, and representatives of banking organizations.

As a result of testimony received at its meetings, the committee made the following findings:

1. As of December 30, 1976, the total resources of the Bank of North Dakota exceeded \$448,572,780.

2. In 1976 the loan activity of the Bank substantially increased: agricultural overline loans increased approximately \$10,113,100; farm real estate loans increased approximately \$2,320,180; Small Business Administration participation loans increased approximately \$2,157,130; and Bank participation loans increased approximately \$20,519,660.

3. The Bank of North Dakota follows a specific, clearly defined operating policy establishing lending limits for personnel in the Bank, the investment committee, the advisory board of directors to the Bank of North Dakota and the Industrial Commission. Loan officers may make or commit loans up to \$100,000. The investment committee of the Bank may make or commit loans or industrial revenue bonds up to \$400,000. Loans or industrial revenue bond issues over \$400,000 and up to \$1,000,000 require approval of the advisory board of directors to the Bank. All loans or industrial revenue bond issues over \$1,000,000 and up to the legal lending limit (\$5,000,000) require the approval of the Industrial Commission.

4. From 1962 through 1976 there were four loans charged off by the Bank in the total amount of \$238,113.37 and there were four municipal industrial development revenue bond issues charged off in the total amount of \$443,074.15.

5. The Bank of North Dakota is involved in an extensive program (referred to as federal funds) with approximately 100 banks in North Dakota, with the Bank purchasing excess funds from 90 percent of these banks and selling excess funds to the others on a day-to-day basis.

6. The Municipal Bond Bank of the Bank of North Dakota is in the process of issuing its first bonds in the amount of \$14,000,000, which reflects approximately 97 separate municipal bond issues.

7. Eighteen bills were introduced into the 1977 Legislative Assembly concerning the authority of the Bank of North Dakota. The bills ranged from prohibiting private deposits at the Bank to using Bank profits to provide loans for various purposes.

8. The 1977 Legislative Assembly approved House Bill No. 1440 which would authorize the Bank of North Dakota to make bank stock loans to qualified state residents. The effects of the bill are unknown, especially with respect to the transfer of ownership of banks in the state.

9. The Industrial Commission, by motion, authorized the Bank of North Dakota to provide whatever services were authorized by law to assist the residents of Towner, North Dakota, during the period the Pioneer State Bank was closed and a new bank was opened.

10. The Bank of North Dakota substantially reduced the adverse effects the closing of the only bank in Towner had on the residents of the community by opening a paying and receiving station during the interim when the community had no banking institution.

11. The services provided by the Bank of North Dakota to Towner residents were limited to those authorized a paying and receiving station. The station was closed when the new State Bank of Towner opened. Towner customers opened 121 accounts with the Bank of North Dakota during its operation in Towner and the bank cashed or remitted approximately \$50,000 of business each day it was in operation.

As a result of these findings, the committee makes the following recommendations:

1. The committee recommends passage of legislation to specifically delineate the authority of the Bank of North Dakota in providing emergency services to a city which has temporarily lost its banking institution. The Industrial Commission may authorize such emergency services only when a bank is in possession of the Commissioner of Banking and Financial Institutions, the State Banking Board, a conservator, or a receiver, under state or federal law, and there is no other bank in the city where the closed bank is located. The authority of the Bank to provide banking services in the city would be limited to that authorized a paying and receiving station under state law, with the exception being that the Bank could provide up to six-month personal loans of not more than \$2,500. The emergency services provided by the Bank of North Dakota would be discontinued when the conservatorship or receivership of the closed bank is terminated, the closed bank resumes business, or another bank commences business in the city.

2. The committee recommends passage of a concurrent resolution directing the Legislative Council to conduct an interim study of the feasibility and desirability of regulating the transfer of control of banking institutions.

3. #### POINT OF PERSONAL PRIVILEGE

Senator Lashkowitz: Mr. President, I rise on a point of personal privilege and request my remarks be printed in the Journal. I believe that it is in the interests of this assembly that we dispatch our business without undue delay. I think this is consistent with the principle of fiscal responsibility, because every day of delay is costly to the taxpayers of the State of North Dakota. I would hope that we would put partisanship aside and get on with the substantive business of the State of North Dakota.

#### MESSAGE TO THE HOUSE

##### Senate Chamber

Mr. Speaker: I have the honor to inform you that it is with regret that the return of Senate Bill No. 2004 has been denied.

LEOLEIDHOLM, Secretary

#### POINT OF PERSONAL PRIVILEGE

Senator Thane: Mr. President, ladies and gentlemen of the Senate: I

am sure all of you know that I am a farmer and I know you are also aware that I am a part of the Republican Majority. It is very rare that I use a point of personal privilege.

For the past 29 years, I have been a consumer-owner-member of RSR Electric Cooperative of Milnor and can vividly remember how happy we were when the lights came on for the first time. Therefore, I am pleased and proud to say that I believe in and support the Rural Electric Cooperative I belong to.

Obviously, I am not the only Republican who believes in and supports REC's. Over the years these REC's have been treated very well by the legislature, which by the will of the citizens of North Dakota has held Republican majorities. Many of these same citizens belong to REC's and vote Republican. But each time I read the "REC Magazine" I am disturbed by the efforts of the editor and some writers to brand Republicans as the "villains". The most recent example of such efforts appeared in the March issue of the magazine. The magazine's editor, in his column, writes about "tricking Democrats", "dirty trick politics", "playing political games", funny little games like — who gets the credit and how can I get a piece of the credit?". He also refers to a certain Senator by saying, "his problem is to get a piece of the action before his people study his record on water too closely".

Mr. President, ladies and gentlemen: Each of us was elected by the voters of our district to come to Bismarck and do the best we can for them and for the State of North Dakota and we do this regardless of whether we are Republicans or Democrats!

I do not believe that either political party has a "corner on the market" for honesty or sincerity. We have always had our differences and will continue to have them as part of the political process. Part of that process could be called "political games" and if so it is played on both sides of the political aisle. Any attempt to deny this would be less than honest. Neither party has a "corner on this market" either.

The editor of the "REC Magazine" carefully avoids direct reference to either party. He leaves that work to his lobbyist who in an article called "Legislative Observations" berates directly or indirectly all of the Republicans in the Senate by his criticism of our leadership, and by his direct reference to certain Senators.

The REC lobbyist, who is the same person who leaves little notes on our desks suggesting how we vote, refers to "civilities", "political expediency", "shenanigans" and "Watergate". He writes about how the Majority Leader... "took advantage of the Minority" and how this was done to "satisfy a personal and political power play".

Now, Mr. President, ladies and gentlemen of the Senate: I ask you: "How does this self-inspired young lobbyist think he can publicly attack Republicans and still expect us, the Majority party, to be sympathetic to the messages in his little notes?" More importantly, I ask: "When will this publication admit that both parties have helped the rural electric movement over the years and who can decide which party can take any special credit?"

Mr. President, ladies and gentlemen of the Senate: I submit to you that I believe it is time for the "REC Magazine" to become representative of all loyal REC members instead of being a forum for spouting these two men's personal political philosophies.

#### POINT OF PERSONAL PRIVILEGE

Senator Hoffner; Mr. President, I rise on a point of personal privilege to explain why I am forced to vote no on House Bill No. 1049.

North Dakota election law is presently arbitrary, unfair and unconstitutional.

— It is arbitrary because the arrangement of names on the ballot is arbitrarily set up so that the Party that receives the most votes for Congress has the advantage of being on the left side of the ballot.

— It is unfair because no one should have an advantage on an election ballot.

— And, a recent California Supreme Court decision, the Council of State Government reports, suggests that a voting system like ours is unconstitutional and asked that the names be rotated or chosen by lot.

The people of North Dakota have elected 50 Democratic State Representatives, 18 Democratic State Senators and 8 Democratic executive department heads. For anyone who doubts the presence of the Democratic Party, let him take a look at the record. The Democratic Party is a major force in State Government and will continue as a major force. We will not permit our Party to be discriminated against in the election process.

To eliminate election unfairness, I favor the Minnesota ballot. But, since our present type of ballot has been chosen, I think we can make it fair by rotating the Party position on the ballot. In this way, no Party will consistently be in a favored ballot position.

I also feel that we owe it to the less fortunate citizens of our State who are shut-in to allow an agent to obtain a ballot for them. In a Democratic process it is essential that every effort be made to allow all citizens to vote.

The whole area of campaign contributions by corporations, cooperatives and associations was an area the interim study committee considered carefully. I felt that this issue was dealt with properly in the interim committees recommendation to this assembly. The bill that came over from the House also dealt with this question properly. Unfortunately, this body has seen fit to insert Section 16.1-08-02, which totally changes the law in this area.

Another section of the law would eliminate the Governor's right to appoint a person to fill a vacated Senate seat. This has been a traditional right of the Governor in North Dakota law. To change it now, is a clearly political move that would subject our State to the costs of a special election.

Although I definitely recognize the need for election reform, I will not tolerate reform at any cost. I cannot support this bill as it is now. I feel compelled to read these objections into the record so that if this bill ends up in conference committee, a record of my objections can be referred to. Most of these objections were corrected by the interim committee in their recommendations to the Legislature. But, unfortunately, election reform has become a partisan fight.

We have an opportunity to make some meaningful changes in election laws this Session. We must not lose this chance. An election law that is fair to everyone must be drafted and passed. Let us make this final step.

## POINT OF PERSONAL PRIVILEGE

Senator Lashkowitz:

Mr. President, I rise on a point of personal privilege, and request that my remarks be printed in the Journal. Members of the Senate: A meaningful election reform doesn't merely mean mechanical change. Rather it means making the electoral process more accessible and convenient for the people. Some of the amendments that were proposed, having been rejected by the Senate, makes it incumbent upon myself to restate these very briefly, so that if this bill does go into conference, that these objections can be readily available to the conferees in the journal.

First, I regret that the bill 1049 does narrow down the franchise, making it more difficult for some of our citizens to have access to the right to vote. More particularly, by eliminating the right of the agency we are making it less accessible for the handicap citizen, the shut-in, and for those who are inconvenienced for good and justifiable reasons. By so rejecting the principle of the agency, we have shown a lack of trust and respect for people and we are treading on fear, distrust and suspicion. There has been no demonstrable showing of misuse of this principle of the agency, rather there is an unfounded fear and distrust of people who try to help people in a lawful and rightful manner in this exercise of this precious right of the vote.

Secondly, meaningful election reform should contemplate making the polling places less congested, and one of the rejected amendments provides that in precincts where voting machines are used, paper ballots shall be made available to voters upon request in accordance with provisions of titles 16.1 governing the use of paper ballots. Any governing body providing voting machines for more than one voting precinct in its jurisdiction shall apportion the machines to the voting precincts within its jurisdiction on the basis of the most recent official population figures. It is unfortunate that that amendment was rejected.

Thirdly, we have found that voting machines are like humans subject to error, and one of the amendments that was rejected was a provision that the state supervisor of elections, namely, the Secretary of State, shall, "assure that the machines are adequate to set forth the candidates and issues in an illusive and intelligent manner, and that said machines are the most practical and effective devices available." If standardization were brought into the voting machine selection process, we could avert some of the unfortunate ballot mistakes that are made through this lack of standardization.

Fourthly, the provision that the sample ballots be printed twice is simply a matter of making the electorate more aware of who will be on the ballot in the primary elections.

Fifth, it is unfortunate that a proposed amendment which would provide, "that if a voter is obliged to stand in line more than thirty minutes to vote on a voting machine, he may request to vote by paper ballot which shall be made available by the County Auditor" was rejected. I believe that this proposed amendment would have been helpful to almost any citizen in any station in life in North Dakota. Because by having the polling places congested for sometimes two and three hours we're making it very difficult for mothers with children, fathers with children, women expecting children, handicapped citizens, tired workers, busy executives, to have the chance to vote in a convenient and accessible manner. There are many other potential amendments

that we had proposed. To be exact, eight pages of amendments, but due to the time of the session and the limited amount of time of the members of the legislature, we have distilled these proposed amendments to two short pages, each one we felt represented a step forward for all of the citizens and having more readily access to the electoral process. For these and other reasons, members of the Senate, I find it incumbent upon myself, unfortunately, to vote "no" on 1049, and if this bill should go into conference, I would hope that some of the matters that I have set forth herein can be respectfully considered by the conferees. Thank you.

**POINT OF PERSONAL PRIVILEGE**

Senator Nothing: Mr. President, I rise on a point of personal privilege and I wish to have my remarks printed in the journal.

My purpose, and if the Minority Leader wants to view that as a threat, I

have no qualms about what I explained to you, and if any of you feel threatened, then I presume I should be the one to feel threatened because it appears now that there will be action that may be brought under Section 40, if that's the purpose of reciting it. I simply want you to know, and I've always tried to be as open as I could with you, which is something, incidentally, the Minority Leader has not done because he would not explain to us on Friday as to what effort was being made and what was to be amended to that bill when we asked, but I'm trying to explain to you the reason that we are not going to be presenting 1262. Now, you should know, everyone of you on this floor that over in the House of Representatives the Democrat Leader and other people in his party, said they wanted that REAP taken out because they wanted it as a bargaining ship. I think, Mr. Minority Leader, you ought to talk to those people. They are the ones that are being open and talking about threats. We are accused of trickery and deceit and things of this nature, yet the Minority Leader, when asked to explain a reason that they want to take a bill back, he knew what it was all about. He knew what they were trying to do. He knew they were trying to kill REAP, but he didn't tell anyone on this floor when we asked him. So I'm simply trying to be open with you. The paper has reported that the Democrat Leader in the House is going to request the Governor to veto REAP. And that's his privilege, and it's the Governor's privilege, but I just want you to have a vehicle to view and if you care to adopt, which in fact if he does decide to veto REAP, then it's simply a matter that the severance tax would be reduced by an amount of money that we intended to pay it with. And those amendments will be presented to you at that time for your consideration, because I think if you believe in the legislature as the people's branch of government, and if you believe in the legislature as a policymaker for the State of North Dakota, and if you believe in the rule that we have as legislators, then it's important that we have all the tools available to us. And if other people disagree with it in the Executive Branch, that's fine, they have their right to disagree. But I do not want to be part of an increase in tax designed to pay for a specific tool that I think we should have as legislators and then to not have that tool available. So the purpose is to make sure that if the tool is not available, the tax will be decreased by an appropriate amount, and, frankly, I think that's good legislation.

Senator Nething — Mr. President, I rise again on a point of personal privilege. What the Minority Leader is attempting to do again is to tell you half a story and we presented information, if you will recall when Senate Bill No. 2500 was adopted. We do believe that there is about a nineteen million dollar cost to the general fund of North Dakota because of energy development. But what the Minority Leader fails to tell you is that because of that energy development there is another sum of money that comes back to the state which, when coupled with, the allocation formula that now is in 1262, will make us at about a stand off. That they are paying our way and what is not being paid through increased sales tax, through increased income tax, through increased gas tax, and the other taxes that are paid, cigarette, liquor, and so on, that that money does come into the general fund, it doesn't just disappear into the county coffers, or any place else. I think all of you, as you evaluate the arguments that are being presented, make sure both sides are being presented. That's the responsibility on not only the person presenting an argument he has but it is also your responsibility to ask.

## POINT OF PERSONAL PRIVILEGE

Senator Hoffner; Mr. President, I rise on a point of personal privilege. I was willing to bring 1262 before the body and get it into conference committee. Now I cannot interpret this move any different than a stalling, delaying tactic, and I am going to label it as just that, because when are we going to get this issue in a conference committee? This is the most important issue that we are going to be dealing with and we are down to that goal that we were talking about, that sixty day goal, to finish our business, and we don't even have this major issue in conference. Now just sort of a reminder as to what's happened here, let's not just talk about this REAP issue, but let's talk about 1262, let's talk about 2500, let's talk about all the bills, all the things that have happened. I for the life of me don't understand. Friday, we killed 2500. We didn't even have the courage to deal with the bill as we deal with other normal bills. We lay them on the table so there would be no record of dealing with the bill as such. We dealt with the amendments. Now we are talking about amending 1262, and apparently afraid to get this bill into conference. I am willing to right at this time, regardless if I've seen those amendments or not, let's put the bill in conference committee and deal with those amendments later on. I don't understand this stalling tactic and I'm going to call it just that.

## POINT OF PERSONAL PRIVILEGE

Senator Nething: Mr. President. Perhaps I can enlighten the body. The only way a bill goes into conference committee is when the other body does not concur in the amendments, and we have every reason to believe at this point, that the amendments that we are making to 1262 will be concurred in and that there will not be a conference committee. And for that reason it is our belief that we should make that bill just as exacting as we can and to carry out the intent of the legislature to the best of our ability. We do not believe that it will be going into conference committee, and, consequently, we must take the additional time to make sure that it properly addresses the concerns that we have.

## POINT OF PERSONAL PRIVILEGE

Senator Lashkowitz: Mr. President, I rise on a point of personal privilege, and request my remarks be printed in the Journal. Winter has passed, spring is upon us. I believe that it is in the interests of this assembly that we dispatch our business without undue delay. I think this is consistent with the principle of fiscal responsibility, because every day of delay is costly to the taxpayers of the state of North Dakota. I would hope that we would put partisanship aside and get on with the substantive business of the state of North Dakota.

## MOTION

Senator Lips moved that the Senate do not concur in the House amendments to Senate Bill No. 2007 as printed on page 1268 of the Senate Journal, and that a conference committee be appointed to meet with a like committee from the House, which motion prevailed.

## APPOINTMENT OF A CONFERENCE COMMITTEE

The President appointed as a conference committee on Senate Bill No. 2007:

Senator Lips  
 Senator Wenstrom  
 Senator Larson

## FIFTY-FIFTH DAY

Bismarck, March 23, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Pastor Carl Coffman, Chairman, Dept. of Religion, Andrew's University, Berrien Springs, Michigan, a Seventh-Day Adventist College.

Our Heavenly Father, we live today because we have received from You the Touch of the Divine Hand. We approach the responsibilities of this day seeking the Guidance of the Divine Spirit. Our responsibilities are great as we sense the trust placed in us by the people of our state whom we serve. Might our service to the citizens who placed us here be noble, and effective, and in fairness to all, as we realize again today, Father, The Gracious Blessings that we receive continually from Your Hand. Deal generously with the farmers who need moisture as planting season is here. Deal kindly with the senior citizens whose lives are largely past, but whose industry in younger years has contributed to much of what we enjoy. Deal graciously with us as we have sought to do our part, but with some failure as well as success. Guide us this day that it might be to the good of all, and with your approval, Dear God. In Our Lord's Name, Amen."

The roll was called and all Senators were present except Senator Sandness.

A quorum was declared by the President.

Senator Lee gave a report of her trip to the Western States Seminar on energy at Salt Lake City and requested her report be printed in the Journal, which request was granted.

#### REPORT OF

#### WESTERN STATES SEMINAR ON ENERGY

Salt Lake City, Utah

March 18 & 19, 1977

Senator Lee:

I would like to say thank you to the Senate, first of all, for excusing my absence last Friday and secondly, for appointing me to represent this august body at the Western Conference of States Seminar on Energy in Salt Lake City, Utah, on March 18 & 19, 1977. In order to set some of your

minds at rest, I would like to report that the trip was pleasant, the seminar rewarding, and I returned with my virtue intact.

This Conference was comprised of legislators and others from the western states. Its purpose was two-fold. (1) to hear comments made by F. Scott Bush from Dr. Schlesingers staff and (2) to draft positions of the western states on (a) energy conservation, (b) water, (c) land, and, (d) energy development to be taken back to President Carter prior to the unveiling of his energy plan on April 20. Mr. Bush assured the Conference that the President's position, as of now, is not cast in concrete, but is more the consistency of warm jello and that the views of the western states would most certainly be taken into account.

I left Bismarck early Friday morning, arrived in Salt Lake City about an hour before the Conference started at 2 p.m. and left about an hour after it concluded at 4 p.m. Saturday.

Friday afternoon and Saturday morning were spent working in four groups on the four topics under consideration. My group was on energy development, and it was by far the most heavily debated and well attended of the groups.

Ray Davidson, of Denver, Colorado, from the Western Governor's Regional Energy Policy office, presented a paper outlining the governor's position in these areas.

One thing that came through loud and clear from all areas from both the governors and the conference of legislators was the emphasis on state and local control over energy related developments. They favored increased state input into federal research and development programs. They cautioned about interference with the free market system. They felt that conservation was a cornerstone in reaching the goal of a balanced energy supply and in any reasonable energy policy. The states believed that they should be allowed to provide the federal government with utilization standards which are unique to each state's energy impact and development. The Conference urged water development projects be reinstated to their former status. 85 percent of water use in the west is for irrigated agriculture and in the production of energy and these agricultural uses must be protected.

By being extremely persistent, I was able to secure the four drafts of the policy adopted at the Conference, and if anyone would like a copy, I will have them run off for you.

Representative Metzger taped Mr. F. Scott Bush's remarks and a summary of these remarks as well as the tape is also available.

Mr. Bush presented a number of alternatives. He stressed conservation and said that it would be necessary to have building codes for new constructions, labeling and efficiency standards for appliances, some standards for cars, whether it be a gasoline tax or excise tax on miles per gallon over a certain rate. There will be a shift from gas and oil to coal. There will be a federal strip mining bill. There will be off-shore leasing. There may be de-regulation of interstate gas supplies and incentives for new gas and oil. There will be emphasis on new methods of energy; solar, wind, coal gasification, geo thermal and liquifaction.

How will the cost of these programs be paid? There are various proposals forwarded: an automobile tax, a tax on oil and gas using industries, a BTU tax, a crude oil production tax. All will be unveiled on April 20 of this year.

The rate of energy consumption must be slowed from 4 percent to 2

percent. Oil imports are up to 50 percent. The United States cannot live economically or politically with such situations. Federal policy with input by the state and the free market will formulate the new energy plan.

Again, thank you for the opportunity to represent you in Salt Lake City.

Mr. Russell was escorted to the rostrum and addressed the assembly.

Senator Nothing moved that the remarks of Mr. Russell be printed in the Journal.

## REMARKS OF BARTON D. RUSSELL

Mr. Russell: Thank you Mr. President. Thank you Honorable Senators. I know that it's about time to close shop for the evening and I won't keep you, and I'm on my way to Ohio.

I think it is a great honor to be in this state. I have never been further west in this United States than Virginia until about three days ago, so that the splendor and beauty of North Dakota was a sight to behold. I've got to say that I think the most attractive thing that I saw was the fact that there was no snow on the ground. I was deathly afraid that I would be snowed in. I know you can use the moisture, so I guess you are all rooting for it.

The National Association of Towns and Township Officials was established in 1963, but really just came before their December meeting of 1976, and as you probably know, Leo Gray is North Dakota's representative on the National Association's Board of Directors. He is in essence a founding father of our group. We exist to promote intergovernmental cooperation at the Federal, State and substate levels, and also to develop programs to encourage effective and efficient and economical delivery of services to local government citizens. I think I was surprised to find out that a very famous, national figure is from North Dakota, and I found out in a very reputable magazine, U.S. News and World Report, recently. It was kind of a speech or profile of Lawrence Welk. The fellow who blows the bubbles and plays the music, and Mr. Welk apparently is a resident of a township, former resident of a township in North Dakota, and his statement was that he felt that so many of the values that we go out into the world with are developed in the home, in the small towns and carry right on into the city life. And we feel pretty strongly about maintaining local government, close to the people. We have some very strong township states, as you probably know in New England, New York, Pennsylvania, the Mid-Atlantic States. They have full general purpose government authority and I guess their citizens feel pretty good about the services they get. North Dakota, along with Michigan and some others, is considered by the Census Bureau to be, I guess, less a strong township form of government. So we are looking right now into ways to improve the capacity of local elected officials in our several North Central States to become possibly better able to carry out their roles of local elected officials, and we are exploring, for example right now, the possibility of developing an annual road show which Michigan has now put together with the Extension Service to go around the state and conduct annual seminars for local elected officials to fill them in on their responsibilities and perhaps to prepare them for what I understand is going to be some fairly important major problems that the rural folks are going to feel in this country, with the out-migration of citizens from urban areas. Land use planning, it is a naughty and nasty word sometimes, but it carries with it some real meaningful messages, are just some of the things that are involved. And we feel pretty strongly about. You mentioned taxation. I wouldn't touch it with a ten foot pole. And I am sure that there have been some lively debates about that. We discussed this morning at the Township Officers Meeting, the whole problem of assessments that they are experiencing, and I think that it is fair to say that we could use some education and improvement in that area to make us a little more effective in that responsibility. I won't keep you much longer, I just wanted to again recap what I said and thank you for a very warm-hearted welcome, and we look forward to working with the State Legislature in the future. Thanks very much.

stories, again I say they have the right to run them. I say it was very poor, sloppy reporting, and I would like to ask for a written apology laid on my desk and on any other desk they wish. If they know the names of the people who were on that bus I am sure they don't have to lay that apology on their desks, if they don't know the names, why then it was worse reporting than I thought it was. When somebody asks me back home whether I was involved in that incident, I'm not going to say a word, I would just like to hand them that apology. Now I also know when I ask for that apology laid on my desk, I am sure they have the right not to lay it there, that's their privilege, and I am sure that I don't have any other recourse except to know that they lacked the guts to lay it there, and I will then promptly forget the whole incident.

#### POINT OF PERSONAL PRIVILEGE

Senator Shablow: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate, since the Senator from the 18th district spoke to the assembly, in relation to the bus trip to Jamestown, I took the time to read the newspaper reports that were laid on my desk, and I am somewhat disturbed, of course, that this was reported in this manner. I also went to Jamestown. I drove down so I wasn't one of those on the bus, and while I was in Jamestown, I didn't see any indication of anyone that had over imbibed or misbehaved in any manner. I went down to Jamestown to indicate to the review committee and help indicate the solidarity of this legislative assembly in favor of the Garrison Diversion Project, but as I read these reports, that it is going to cost the state money in relation to the daily allowance for expenses. I did not think at any time that I was going to collect this money. I thought that this assembly was excused for this purpose, it was a day off, and I thought I was contributing my time and my effort, as little as it may be, to this worthwhile purpose. But if I am going to receive that \$60.00 as I understand we are, or at least it has been reported, then I want to indicate to this assembly that I will donate those \$60.00 to some worthwhile cause, and I can't think of a better one than to donate that to the North Dakota Heritage Center, and that is what I will do.

## FIFTY-SEVENTH DAY

Bismarck, March 25, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Fr. Stanley Sticka, Corpus Christi Church, Bismarck.

"Let us be thankful for the divine presence and for the effort on our part and the work accomplished thus far. As we are in the latter days of this arduous session, we need your special assistance, Father Almighty. May the final decisions truly promote the spiritual and temporal welfare of the people this State.

Where there were human failings or insincere acts on our part, we now humbly beg pardon, Lord God of mercy.

In an assembly of this kind there are bound to be conflicting opinions and judgments concerning matters that are vital to some people. May no deliberate ill feelings remain and mar the charity among members of this Senate. No government composed of human beings is ever perfect. But, Lord, reward the members of this legislature for the effort they expended to ensure the greater good for the people, especially those in real need.

May the Word of God dwell in us in all its richness. Whatever our life situation is, we will turn to you, Lord, and give you glory now and forever.

Amen."

The roll was called and all Senators were present except Senator Smykowski.

A quorum was declared by the President.

#### POINT OF PERSONAL PRIVILEGE

Senator Barth:

I rise on a point of personal privilege and request that my remarks be printed in the Journal.

Mr. President, Ladies, and Gentlemen of the Senate, I learned this morning that the Republican Floor Leader of the House, Representative

Earl Strinden, instructed some employees of our phone pool to deliver copies of all messages relating to the "fun bus" to him. I learned that the content of a phone message, intended for me, was delivered to Representative Strinden.

This is a serious breach of privacy. It is no different than if Representative Strinden opened my mail and read it secretly before I got it.

I request that a joint meeting of the employment committee be called immediately, a hearing be held, witnesses called and a thorough investigation of this matter be conducted. A report should then be delivered to both Houses of this Assembly on the results of this investigation by no later than Tuesday, March 29, 1977.

All members of the Legislature should be concerned about the implications of this irresponsible act. Yesterday's incident leads me to wonder whether Representative Strinden has been using the phone pool as a means of obtaining information on other matters before this assembly.

Does Representative Strinden have all messages for Legislators copied and delivered to him?

Do others use the phone pool to obtain information for political purposes?

These are the same type of tactics used by Haldeman and Ehrlichman to blackmail their enemies.

This is a private communication between two people. It is not meant for anyone else's ears. Does Representative Strinden use the phone pool to obtain messages on the coal severance tax or other political matters.

I submit to you that this is a very serious matter that demands investigation.

#### MOTIONS

Which has been read.

Senator Goodman offered the proposed amendments to House Bill No. 1262:

On page 1, line 1, delete everything after the words "A BILL", delete the remainder of the bill and insert in lieu thereof the following: "for an Act to provide for a severance tax upon all coal mined; to provide procedures for the imposition, collection, and administration of such tax; to provide for the allocation of moneys collected; to provide an impact program for impacted school districts, cities, counties, and other taxing

districts; to provide for the establishment of a coal impact office in the office of the governor; to provide for impact loans to be administered by the board of university and school lands; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. SEVERANCE TAX UPON COAL — IMPOSITION — COMPUTATION OF INCREASES — IN LIEU OF SALES AND USE TAXES — PAYMENT TO THE TAX COMMISSIONER.) There is hereby imposed upon all coal severed for sale or for industrial purposes by coal mines within the state a tax in an amount to be determined as follows:

1. Sixty-five cents per ton of two thousand pounds; and
2. For every three points increase in the index of wholesale prices for all commodities prepared by the United States department of labor, bureau of labor statistics, the amount of the severance tax provided in subsection 1 shall be increased one cent per ton of two thousand pounds. For the purposes of this computation, a fractional point increase shall be disregarded if less than one-half point and treated as one full point if one-half point or more. The state tax commissioner shall determine such increases based upon increases in the wholesale price index from the level of such index as of June 1977 to the level of such index as of the last month of the quarter immediately preceding the quarter for which any taxes are due. At no time shall the amount of the severance tax be reduced. If the wholesale price index declines, the severance tax shall remain at the highest level determined prior to such decline, and shall remain at such level until further increases are warranted because of further increases in the wholesale price index beyond the point at which the last increase was determined.

Such severance tax shall be in lieu of any sales or use taxes imposed by law. Each coal mine owner or operator shall remit such tax for each calendar quarter, within thirty days after the end of each quarter, to the state tax commissioner upon such reports and forms as the tax commissioner shall deem necessary. If the method of determining increases in the amount of the severance tax provided in subsection 2 is for any reason held to be invalid, such decision shall not affect the validity of the amount of the tax provided in subsection 1.

SECTION 2. WHEN TAX DUE — WHEN DELINQUENT.) The severance tax as provided in this chapter shall be due within thirty days after the end of each quarter, and if not received by the thirtieth day, shall become delinquent and shall be collected as herein provided. The tax commissioner, upon request and a proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for paying the tax, and when such a request is granted, the tax shall not be delinquent until the extended period has expired. The tax commissioner shall require a report to be filed quarterly by each owner or operator of a coal mine, in such form as the tax commissioner may specify, to list a full description of the mine, the number of tons of coal severed, the amount of tax due and remitted, and any other information deemed necessary by the tax commissioner for the proper administration of this chapter.

SECTION 3. POWERS OF STATE TAX COMMISSIONER.) The state tax commissioner shall have the power to require any person engaged in such production, and the agent or employee of such person, or purchaser of such coal, or the owner of any royalty interest therein, to furnish any additional information by him deemed to be necessary for the purpose of

correctly computing the amount of said tax, and to examine the books, records, and files of such person, and shall have power to conduct hearings and compel the attendance of witnesses, the production of books, records, and papers of any person, and full authority to make any investigation or hold any inquest deemed necessary to a full and complete disclosure of the true facts as to the amount of production from any coal mine or of any company or other producer thereof, and as to the rendition thereof for taxing purposes.

**SECTION 4. TAX COMMISSIONER TO COMPUTE TAX ON INCORRECT RETURNS.)** The state tax commissioner shall have the power and authority to ascertain and determine whether or not any report or remittances filed with him are correct, and if the owner or operator has made an untrue or incorrect report or remittance, the commissioner shall ascertain the correct amount of taxes due, and give immediate notice to the owner or operator filing the incorrect return or remittance. Any coal mine operator or owner receiving notice from the tax commissioner that he has filed an incorrect return or remittance shall remit the tax assessed by the commissioner within fifteen days of such notice. Any owner or operator aggrieved by a decision of the tax commissioner may make application in writing within fifteen days of notification for a hearing which shall be granted not later than fifteen days after receipt of the application. The tax commissioner may grant or reject, in whole or in part, the contentions of the owner or operator and upon conclusion of the hearing shall proceed to make a final determination of taxes due. Such taxes assessed by the commissioner shall become delinquent five days after the conclusion of the hearing, except in such cases where an owner or operator shall appeal such assessment to the district court of Burleigh County, in which case they shall become delinquent five days following final judicial determination.

**SECTION 5. PENALTY ON DELINQUENCY — FAILURE TO FILE REPORTS.)** Where the severance tax provided for in this chapter shall become delinquent, it shall, as a penalty for such delinquency, bear interest at the rate of eight percent per annum. If the quarterly report is not filed within thirty days after the end of any quarter and taxes due paid, the tax commissioner shall notify the delinquent owner or operator of such delinquency, and if such report and remittance are not filed within an additional fifteen days, the tax commissioner shall notify the public service commission, which shall forthwith suspend such owner's or operator's license or permit until such time as payment is received, or the issues settled to the satisfaction of the tax commissioner.

**SECTION 6. LIEN FOR TAX.)** The severance tax herein referred to shall, at all times, be and constitute a first and paramount lien against the producer's property as the case may be, both real and personal. In all cases where such tax is not paid, it may be recovered in a civil action by the state tax commissioner, brought in the name of the state, in any court of competent jurisdiction of the county where any such property, assets, and effects are located.

**SECTION 7. APPEAL FROM DECISION OF TAX COMMISSIONER.)** Any person aggrieved because of any action or decision of the tax commissioner under the provisions of sections 1 through 8 of this Act may appeal to the district court of Burleigh County.

**SECTION 8. RULES AND REGULATIONS — BOND.)** The tax commissioner is hereby authorized and empowered to prescribe and

promulgate all necessary rules and regulations for the purpose of making and filing of all reports required hereunder and otherwise necessary to the enforcement of sections 1 through 8 of this Act, and may, at his option and discretion, require a sufficient bond from any coal mine operator or owner charged with the making and filing of reports and the payment of the taxes herein imposed, and said bond shall run to the state of North Dakota and shall be conditioned upon the making and filing of reports as required by law or regulation, and for the prompt payment, by the principal therein, of all taxes justly due the state by virtue of the provisions of sections 1 through 8 of this Act.

**SECTION 9. PENALTY.**) Any person intentionally violating any of the provisions of sections 1 through 8 of this Act is guilty of a class A misdemeanor.

**SECTION 10. COAL DEVELOPMENT FUND ESTABLISHED.)** Moneys collected by the state tax commissioner pursuant to the provisions of sections 1 through 9 of this Act shall be paid to the state treasurer and shall be credited to a special fund in the state treasury, to be known as the coal development fund. The moneys accumulated in such fund shall be allocated as provided by law and as appropriated by the legislative assembly.

**SECTION 11. DEFINITIONS.)** As used in sections 11 through 15 of this Act, unless the context or subject matter otherwise requires:

1. "Coal development" means the mining of coal and industries directly related to the processing of coal, including, but not limited to: the generation of electricity from coal or coal products, coal gasification, coal liquefaction, and the manufacture of fertilizer from coal.

2. "Impacted city" means a city which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

3. "Impacted county" means a county which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

4. "Impacted school district" means a public school district which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

5. "Impacted taxing district" means a taxing district as defined in subsection 6 of this section which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

6. "Taxing district" means any political subdivision, other than those included in subsections 2 through 4 of this section, empowered by law to levy taxes.

**SECTION 12. ALLOCATION OF MONEYS IN COAL DEVELOPMENT FUND.)** Moneys deposited in the coal development fund shall be apportioned quarterly by the state treasurer as follows:

1. Thirty-five percent shall be credited to a special fund in the state treasury for distribution through grants by the coal development impact office to impacted cities, counties, school districts, and other taxing districts, subject to appropriation by the legislative assembly.

2. Fifteen percent shall be credited to a special fund in the state treasury to be held in trust to be administered by the board of university and school lands for loans to impacted counties, cities, and school districts as provided in section 13 of this Act. The board of university and

school lands shall have full authority to invest such funds as are not loaned as provided in this chapter and may consult with the state investment board as provided by law. The income, including interest payments on loans, from such trust shall be deposited in the state's general fund. Loan principal payments shall be redeposited in the trust fund. Such trust fund shall be perpetual and held in trust as a replacement for depleted natural resources subject to the provisions of this chapter.

3. Twenty percent shall be allocated to the coal-producing counties and shall be distributed among such counties in such proportion as the number of tons of coal severed in each county bears to the total number of tons of coal severed in the state during such quarterly period. Such allocations shall be apportioned as follows:

a. Thirty percent shall be paid by the county treasurer to the incorporated cities of the county based upon the population of each incorporated city according to the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census;

b. Forty percent shall be deposited by the county treasurer in the county general fund to be used for general governmental purposes; and

c. Thirty percent shall be apportioned by the county treasurer to school districts within the county on the average daily membership basis, as certified to him by the county superintendent of schools.

4. Thirty percent shall be deposited in the state's general fund.

**SECTION 13: LOANS — TERMS AND CONDITIONS — REPAYMENT.**) The board of university and school lands is authorized to make loans to impacted counties, cities, and school districts from moneys deposited in the trust fund established by subsection 2 of section 12 of this Act. Loans may be made for any purpose for which a grant may be made pursuant to this chapter, but before making any loan the board of university and school lands shall receive the recommendation of the coal development impact office. The board of university and school lands shall prescribe the terms and conditions of such loans within the provisions of this chapter and shall require a warrant executed by the governing body of the county, city, or school district as evidence of such loan. The warrants shall bear interest at a rate not to exceed six percent. The warrants shall be payable only from the allocations of moneys from the coal development fund to the borrowing county, city, or school district and shall not constitute a general obligation of the county, city, or school district nor shall such loans be considered as indebtedness of the county, city, or school district. The terms of the loan shall provide that not less than ten percent of each allocation made to the borrowing county, city, or school district pursuant to this chapter shall be withheld by the state treasurer to repay the principal of the warrants and the interest thereon. The amount withheld by the state treasurer as payment of interest shall be deposited in the general fund and the amount withheld by the state treasurer as payment of principal shall be remitted to the board of university and school lands and deposited by the board in the trust fund provided for in subsection 2 of section 12 of this Act. The warrants executed by the county, city, or school district shall have all of the qualities and incidents of negotiable paper, and shall not be subject to taxation by the state of North Dakota or by any political subdivision thereof.

The board of university and school lands is authorized to sell such warrants to other parties and the proceeds of such sale which constitute principal shall be deposited in the trust fund and that which constitutes interest in the general fund. If the future allocations of moneys to the borrowing county, city, or school district should, for any reason, permanently cease, the loan shall be canceled except that if the county, city, or school district is merged with another county, city, or school district which receives an allocation of moneys from the coal development fund, the surviving county, city, or school district shall be obligated to repay the loan from such allocation. If the loan is canceled due to the permanent cessation of allocations of moneys to the county, city, or school district pursuant to this chapter, the board of university and school lands shall cancel those warrants it holds from such county, city, or school district and shall pay from any moneys in the trust fund provided for in subsection 2 of section 12 of this Act the principal and interest, as it becomes due, on those warrants of the county, city, or school district which are held by another party.

SECTION 14. COAL DEVELOPMENT IMPACT OFFICE — APPOINTMENT OF DIRECTOR.) There is hereby created in the office of the governor a coal development impact office. The director shall be appointed by and shall serve at the pleasure of the governor. The salary of the director shall be set by the governor within the limits of legislative appropriations. The director may employ such other persons as may be necessary and may fix their compensation within the appropriation made for such purpose.

SECTION 15. POWERS AND DUTIES OF COAL DEVELOPMENT IMPACT OFFICE.) The coal development impact office shall:

1. Develop a plan for the assistance, through financial grants for services and facilities, of counties, cities, school districts, and other political subdivisions in a coal development impact area.
2. Advise, study, recommend, and report to the governor and the legislative assembly on the impact to the state and the political subdivisions of the state resulting from coal development.
3. Establish procedures and provide proper forms to political subdivisions for use in making application for funds for impact assistance as provided in this chapter.
4. Make grants to counties, cities, school districts, and other taxing districts as provided in this chapter and within the appropriations made for such purposes. In determining the amount of impact grants for which political subdivisions are eligible, the amount of revenue to which such political subdivisions will be entitled from taxes upon the real property of coal development plants and from other tax or fund distribution formulas provided by law shall be considered."

#### POINT OF PERSONAL PRIVILEGE

Senator Walsh: Mr. President, I rise on a point of personal privilege and request my remarks be printed in the Journal. In recent days, we have heard a great deal in relation to the so called Fun Bus or Buses incident. The people at home are upset and they should be. Legislators who are elected for the purpose of making and changing laws are suddenly finding themselves in the position of breaking laws, and I refer to drinking on the bus or buses while on the State of North Dakota business and pay. This is hypocrisy, these actions and conduct are unbecoming electorate Representatives and Senators of the people of the State of North Dakota.

The press has apparently reported the facts. This is as it should be. Unfortunately there are innocent legislators caught up in the whole mess. This legislature, both House and Senate should probably apologize, I think, to the people of North Dakota for their asinine actions while on the trip to and from Jamestown for the Garrison hearing. I, for one, do at this time, publicly apologize to the people of North Dakota for any action of mine that may have contributed to this fiasco.

Senator Thane moved that the absent Senator be excused, which motion prevailed.

Senator Nething moved that the Senate adjourn until Monday, March 28, 1977 at 9:00 A.M., which motion prevailed.

LEO LEIDHOLM, Secretary

FIFTY-EIGHTH DAY

Bismarck, March 28, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.  
 The prayer was offered by Rev. Myron Johnson, Seventh-day Adventist Church, Bismarck.

"Dear Father in Heaven,

We rejoice that Your Blessings are freely bestowed to us, new every morning. We thank You, Father, that these Legislators wish to make consecration of themselves to You as their first work every day. Father, We pray this morning for guidance in the decision making of today. Give each Senator clarity of thought and a true spirit of service to their constituency. I thank You for each Legislator who gives of their time and energy to forward the work of the State of North Dakota. Help each of us to be moved today by Your two great commands: To Love God Supremely, and To Love Our Neighbor As Ourselves. In the Name of our Perfect Example of Love, Jesus Christ, We Ask This Prayer, Amen."

The roll was called and all Senators were present.

A quorum was declared by the President.

CONSIDERATION OF CONFERENCE COMMITTEE REPORTS

Senator Farrington moved that the Conference Committee Report on Senate Bill No. 2141 as printed on page 1370 of the Senate Journal be adopted, which motion prevailed.

Senator Farrington moved that the rules be suspended, that Senate Bill No. 2141 be deemed properly re-engrossed and placed on the calendar for second reading and final passage, as amended, which motion prevailed.

On page 1 of the engrossed bill as amended by the Senate, line 1, after the word "Act" insert the following: "to prohibit school boards from selling textbooks to pupils or otherwise charging unauthorized fees, to allow school boards to establish authorized fees, to withhold foundation payments if prohibited fees are required, to exempt postsecondary instructional programs, to require school boards to reduce textbook, and unauthorized activity, fees by not less than twenty percent the first year after the effective date of this Act and not less than an additional twenty percent each year thereafter, and to provide additional payments to school districts for such purposes;"

In the engrossed bill as amended by the Senate, immediately following the enacting clause insert the following:

#### "SECTION 1. PUBLIC POLICY — DEFINITION.)

1. It is the policy of this state that public education shall be free. No pupil shall be denied an education because of economic inability to furnish textbooks necessary for advancement in or graduation from the public school system. No school board shall sell textbooks nor otherwise charge fees to pupils except as provided by law.

2. For the purposes of this Act, "textbooks" shall include textbooks, workbooks, and other supplies necessary for participation in any instructional course accepted to satisfy the graduation requirements of the particular school district. It shall not include personal or consumable items, such as pencils, paper, pens, erasers, notebooks, or other items of personal use or products which a student may purchase at his option, such as student publications, class rings, annuals, and similar items.

SECTION 2. VOLUNTARY FEES.) A school board is authorized to require payment of the following fees:

1. A security deposit for the return of textbooks, materials, supplies, or equipment, and may require pupils to furnish personal or consumable

items.

2. Admission fees or charges for extracurricular or noncurricular activities where attendance is optional.

3. Fees or premiums for any authorized, voluntary student health and accident benefit plan.

4. Fees for personal physical education and athletic equipment and apparel. Any pupil may provide his own equipment or apparel if it meets reasonable health and safety standards established by the board.

5. Fees in any program where the resultant product becomes the personal property of the pupil.

6. Fees for behind-the-wheel drivers' education training.

7. Other fees and charges permitted by statute. This Act shall not preclude the operation of a school store where pupils may purchase school supplies and materials. A board may waive any fee if any pupil or his parent or guardian shall be unable to pay such fees. No pupil's rights or privileges, including the receipt of grades or diplomas, may be denied or abridged for nonpayment of fees.

SECTION 3. ADOPTION OF ADDITIONAL FEES — PENALTY.) A school board may adopt additional fees not inconsistent with the provisions of this Act. Any school district which requires the payment of fees prohibited by this Act shall forfeit foundation payments in an amount equal to the twenty percent the district is required to reduce such fees.

SECTION 4. POSTSECONDARY INSTRUCTIONAL PROGRAMS.) A school board may charge reasonable fees for goods and services provided in connection with any postsecondary instructional program, including vocational and technical programs, adult or continuing education programs, and similar educational programs beyond the secondary level or outside established elementary or secondary education programs.

SECTION 5. SCHEDULE OF IMPLEMENTATION.) Any school board which shall require payment of prohibited fees upon the effective date of this Act shall reduce the total amount of such fees by not less than twenty percent during the first year following the effective date of this Act and shall further reduce such fees by not less than twenty percent each subsequent year. These reductions shall be upon a district's total amount of fees, and may vary as to actual percentage reductions for individual pupils and particular fees.

SECTION 6. TEXTBOOK REPLACEMENT REVENUES.) To carry out the purposes of this Act, the superintendent of public instruction shall pay each school district ten dollars for each student each year of the biennium to replace textbook and activity fee revenues. Such payment may be included within a foundation program payment authorized by section 15-40.1-05, except local school districts shall have discretion as to the application of these revenues. Such revenues shall not be restricted to textbook use only."

This amendment restores the following funds for the pesticide program:

|                             |          |

Zum Anfang war das Leben sehr schwer aber mit der Zeit geht alles ziemlich gut. Alle haben gute Wohnungen, genug Land, and ein ziemlich schönes Leben.

Das Leben hat sich aber mit der Zeit geändert. Die Russen machen den Deutschen immer mehr schwerigkeiten und endlich in 1871 hat sich die Sache ganz geändert, weil nach dieser Zeit müssen alle deutschen

Männer die in Russland wohnen wollen und für das Militär fähig sind, eine Militär Dienst dienen. Weil viele Leute nicht in die Militär möchten, kommen viele nach Amerika und nach 1884 kommen viele nach Nord Dakota.

Diesen Sommer möchten wir Sie die Senatoren und Repräsentanten von unserem Staat für unsere jährliche Tagung von der North Dakota Historical Society of Germans from Russia einladen. Die Tagung findet von dem 7.-9. Jule im Holiday Inn in Bismarck, North Dakota staat. Unsere Tagungen sind immer eine gute Gelegenheit um etwas zu lernen und viel spass zu haben. Hoffentlich kommen Sie alle nach Bismarck.

#### TRANSLATION:

My very honorable President Wayne Sanstead and my very honorable members of the North Dakota Senate. Senator Harry Iszler, would like to relate to the members of the North Dakota Senate a little history of the Germans in Russia.

North Dakota has many citizens who are descendents of Germans from Russia. In the 1920 census there were almost 70,000 people in North Dakota who were of German Russian descent and that is twice as many as any other state in the United States.

Our Germans are mainly Black Sea Germans, who at the beginning of the 19th century migrated from Germany to Russia. Seeking religious freedom and freedom from military conscription, at first life was very difficult but with hard work things improved. Housing was good, land was abundant and everyone enjoyed a good life.

In time things began to change. The Russian government imposed so many burdens and hardships on the Germans, that by 1871 things had changed entirely. Any German man who wanted to reside in Russia and was eligible had to serve a time in the military. As this was one of the reasons they left Germany, many migrated to America and by 1884 many came to North Dakota.

This summer we would like to invite all the Senators and Representatives of the State of North Dakota to the annual convention of the North Dakota Historical Society of Germans from Russia that will be held July 7-9 at the Holiday Inn in Bismarck. You will have the opportunity to learn a little more of our culture and of course, to have lots of fun. We hope you can all come to Bismarck.

## SIXTIETH DAY

Bismarck, March 30, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Rev. Myron Johnson, Seventh-Day Adventist Church, Bismarck.

Lord God of Heaven, we wish to thank You for so lavishly blessing our country with good. We praise You for the moisture that has so recently fallen across this state. The land was parched and You have provided water. Father, as Your children, we ought to hunger and thirst after righteousness. Pour out a rich blessing to each of us, that we might more fully experience Your way of life and respond with right doing. Purge out selfishness, conceit, and hatred from our hearts and give us a true spirit of christian concern.

Bless I pray today, each of these legislators. Help them to know the difference between what is politically expedient and what is intrinsically right and grant them the courage to do the latter.

For we ask this prayer in Jesus name, Amen.

The roll was called and all Senators were present except Senators Jones and Rait.

A quorum was declared by the President.

#### POINT OF PERSONAL PRIVILEGE

Senator Redlin: Mr. President, I rise on a point of personal privilege. The sponsors of Senate Concurrent Resolution No. 4073 and the Natural Resources Committee contemplate that several hearings will be held during the study and review of the capacity of the State Water Commission and the state engineer to aid in the development of water resource projects. We believe these hearings should be held in different areas of our state to gain the maximum input from all interested persons with a minimum of inconvenience to them.

This legislature has considered bills seeking to provide bonding methods for the financing of water resource development. This resolution would direct the Legislative Council to carefully review the revenue bonding authority of the Water Commission designed to meet this need.

Comprehensive water resource development will require large amounts of capital, some of which may be provided by revenue bonding. We anticipate constructive suggestions from persons who have demonstrated a vital concern for water development financing by their interest in such legislation during this session.

#### POINT OF PERSONAL PRIVILEGE

Senator Lashkowitz: Members of the Senate, I intend to vote against the items on the consent calendar for the reasons that we have not been provided with cost figures of these proposed studies; therefore, we have been shown no priorities that would enable me to make the type of a decision that is necessary to live with. Also, the performance that I have noted during this session indicates that the type of legislation that we have had before us impresses upon me that we do not have a research arm of the Legislative Assembly, rather the present structuring of the Legislative Council is geared and designed to draft bills rather than to develop the type of strong evidence that will support legislation when it comes before this assembly. I have seen repeatedly legislation amended and defeated that has emerged from the so called studies. I have also been told that these studies cost from \$10,000 and on up. Therefore, until such time as we develop a research arm of this Legislative Assembly rather, rather than simply a bill drafting mechanism, I cannot in good conscious support the type of study that is envisioned or called a study as it appears on the consent calendar.

#### POINT OF PERSONAL PRIVILEGE

Senator Jones: Mr. President, I rise on a point of personal privilege. Mr. President, ladies and gentlemen of the Senate, I think this is my first point of personal privilege this session, probably my last. I do intend to take just a few seconds of my good Senator friends, because the list of the bills that are going to be studied really kind of saddens me. I am not slamming the committee nor am I slamming anybody, but you can go down that list and not find one pertaining to agriculture at all. From what I can see going through the list over in the House, there might be one that could be construed as being affiliated or paying attention to agriculture and agriculture is the very thing that makes all the money that all these other functions can spend. I don't really know why this is, perhaps we in the industry are lack luster in getting resolutions in. Perhaps when the committee sits and looks at it, if there is one pertaining to agriculture, it is awful easy to mark it down. In the 44th session we did have some very good bills and I think for the first time in many years we had an interim agriculture committee. Can you imagine that, the State of North Dakota, the first time for years and it looks like this time will be again one of the most agricultural states, and we will not have an interim agriculture committee. So I hope in the next session, for those of you who come back, do something about it, because it can help; it is one of our responsibilities as legislators to be doing what we can for our largest and most important industry, the one that supports all the rest, and thank you very much for letting me say it.

#### POINT OF PERSONAL PRIVILEGE

Senator Smykowski: Mr. President, I rise on a point of personal privilege. Mr. President, members of the assembly, Council staff, at the beginning of our committee work, put out a list of possible categories that these resolutions would possibly fit under. One resolution, Senate Concurrent Resolution No. 4057 fit in the area of agriculture. It fell into the

Mr. President: Your Conference Committee to whom was referred House Bill No. 1028 has had the same under consideration and recommends:

2. On January 1, 1981, the county director of tax equalization shall succeed to all the powers and duties of assessors of townships, cities, and unorganized districts within such county, except that any city or township may, at its option by resolution of its governing body, employ an assessor who shall retain such powers, duties, and responsibilities of his office. The resolution of a city or township governing body to employ an assessor shall continue in force until rescinded by the governing body. Notwithstanding any other provision of law to the contrary, the state supervisor of assessments shall confer with representatives of the county commissioners, city governing bodies, state township officers' association, and personnel at North Dakota state university to establish minimum requirements for such city and township assessors. Such standards shall reflect their limited jurisdiction and need not be equal to those minimum requirements set for county directors of tax equalization. Any courses of instruction included in those minimum requirements shall be conducted by the county director of tax equalization who may

cooperate with other county directors of tax equalization in holding joint classes. The county director of tax equalization may call upon the state supervisor of assessments for such materials and assistance as may be required. ## SIXTY-FIRST DAY

Bismarck, March 31, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Rev. Ron Norman, Bismarck Baptist Church.

O Lord, Thou hast searched us and known us. Thou dost know when we sit down and when we rise up; Thou dost understand our thoughts from afar. Thou art intimately acquainted with all our ways. Even before there is a word on our tongue, behold, O Lord, thou dost know it all.

Be gracious to us, O God, according to Thy loving kindness; according to the greatness of Thy compassion blot out our transgressions. Wash us thoroughly from our iniquity, and cleanse us from our sin.

Create in us clean hearts, O God, And renew a steadfast spirit within us. Do not cast us away from Thy presence, And do not take Thy Holy Spirit from us. Restore to us the joy of Thy salvation, and sustain us with a willing spirit.

O Lord, open our lips, that our mouths may declare Thy praise. For thou dost not delight in sacrifice, otherwise we would give it; Thou art not pleased with burnt offerings. The sacrifices of God are a broken spirit; A broken and a contrite heart, O God, thou wilt not despise.

Search us, O God, and know our hearts. Try us and know our anxious thoughts; and see if there be any hurtful ways in us, and lead us in the everlasting way.

We pray this in our Saviour's name, Amen.

The roll was called and all Senators were present except Senator Naaden.

A quorum was declared by the President.

#### EXPLANATION OF VOTE

Senator Lashkowitz: Mr. President, I would like to explain my vote. While I look kindly, members of the Senate, on the Heritage Center, I would like to see that included. I think we have to be very careful at this point so that we can be fiscally responsible and be selective. I would hope that the conference committee that will be appointed ultimately, will be careful, will be selective, and will not engage in too much horsetrading at the taxpayers' expense.

Senator Nothing moved that the Senate recess until 1:30 P.M., which motion prevailed.

The Senate reconvened, the President presiding.

#### POINT OF PERSONAL PRIVILEGE

Senator Jacobson: Mr. President, I rise on a point of personal privilege. Mr. President and members of the Senate: The conference committee which was assigned House Bill No. 1178 has agreed on an amendment to that bill which might at first seem to be a radical change in our reclamation law. I want to clarify and explain the amendment as it relates to the saving of "suitable plant growth material".

Our present law says that coal mine operators must "save, segregate and respread suitable plant growth material within the permit area UP TO A MAXIMUM OF FIVE FEET;". The amendment we agreed on substitutes "all soil material determined by the commission to be suitable for plant growth.", for the five foot provision.

Section 38-14-02.16 of the reclamation law defines "suitable plant growth material" as, "that portion of the soil material (normally the A, and in some cases, the upper portion of the B horizon) lying above the coal which, based upon a soil survey is found by the commission to be acceptable for resspreading on the surface of regraded areas to provide a medium for plant growth."

The intent in substituting "all" for "up to a maximum of five feet" is to in effect put present reclamation practice into law. That practice involves the saving, segregating and respreading of more than five feet of suitable plant growth material, if more than five feet is available.

There are low spots and swales in mining areas which may contain more than five feet of suitable plant growth material. It is the intent of this amendment that if more than five feet is available, it should be used, not only in those low spots, but wherever it is needed, subject, of course, to property lines.

It is also the intent of this amendment to eliminate any "magic number" as a required depth, so that if less than five feet of suitable plant growth material is available, everything that is there should be used, but only as much as is available. It is not the intent of the amendment to require saving, segregating and respreading of material which does not meet the quality of soil material contained in the definition of "suitable plant growth material". In other words, we don't want bad soil to be mixed with suitable plant growth material. We want only the suitable plant growth material as defined in the existing reclamation law to be used.

This amendment does not eliminate a maximum depth. It simply places the maximum at whatever is available, and determined by the commission to be necessary. The determination by the commission remains subject to definitions and procedures contained in Chapter 38-14, so the maximum is also subject to those definitions and procedures.

It is therefore the intent of this new language to eliminate any so-called "magic number" as a depth which must be strived for, and replace such a number with a requirement that all of the "suitable plant growth material" as defined in the present law is to be used if it in fact meets the definition and is deemed by the commission to be necessary.

MOTION

Senator Tallackson moved that the Senate reconsider its action whereby it failed to pass Senate Concurrent Resolution No. 4055, which motion prevailed.

FEDERAL COMPREHENSIVE EMPLOYMENT TRAINING ACT  
(CETA)

REPORT OF THE 1977 SELECT SENATE COMMITTEE  
ON THE FEDERAL COMPREHENSIVE  
EMPLOYMENT TRAINING ACT (CETA)

The 1977 Select Senate Committee on the Federal Comprehensive Employment Training Act (CETA) was created pursuant to Senate Resolution No. 6 to review and study the administration, operation, grant policies, and effect of CETA programs as they affect political subdivisions and nonprofit corporations or organizations. Members of the committee were Senators James Smykowski, Chairman, Stephen Farrington, Vice chairman, Robert Melland, L.L. "Pete" Naaden, Charles E. "Chuck" Orange, George Rait, Ernest M. Sands, and Lester J. Schirado.

The committee held nine meetings over its 50-day period. The committee received testimony from and commends the following persons for their cooperation in the study: Governor Arthur A. Link; Therman Kaldahl, Executive Director of the Employment Security Bureau; Keith Engbrecht, CETA Administrator; Keith Warner, Personnel Director, University of North Dakota; Ken Gaare, City of Fargo; Dean Conrad, Director, Accounts and Purchases; Ralph Lange, Employment Security Bureau; Phil Stough, U.S. Department of Labor, Denver; Dr. Richard L. Davison, Board of Higher Education; and Paul Ebeltoft, Chairman of the Manpower Services Council.

The committee also reviewed the CETA audit and the results of a survey conducted of the past CETA trainees in Region 7. The audit and survey results are on record at the Employment Security Bureau and are available for future reference purposes.

As the result of testimony received at its meetings, the committee reports the following findings:

1. Generally, CETA funds have maximized the use of federal dollars in state and local government in the interest of conserving local dollars within the parameters of the CETA program.

2. Fourteen million dollars in CETA funds were provided to North Dakota for calendar year 1976 to be used for jobs and job training.

3. State government grows to a degree as a result of CETA positions which state agencies seek to make permanent with state appropriations after CETA funding has ended.

4. In general, CETA funds have been used to prepare and train persons for employment.

5. A voluntary shifting of CETA funds has occurred with a greater use emphasis at the local level.

6. CETA provided manpower and assisted in controlling the floods in the Souris and Red River Basins.

7. North Dakota has experienced an outmigration of the educated

young in search of jobs. CETA has provided a means of employment to diminish the outmigration of North Dakota's youth.

8. CETA training is essentially government-related, as opposed to business related. While CETA training is useful, its purpose is not necessarily to train for jobs in private industry.

9. The purpose of the CETA program is to train the unemployed rather than just provide supplements to social programs.

10. The Board of Higher Education makes CETA position allocations to institutions of higher education based on the needs of the individual institutions.

As a result of these findings, the committee makes the following recommendations:

1. The committee recommends more flexibility by the federal government in CETA programs to allow states such as North Dakota to adapt the programs better suited to their own needs. CETA is not as adaptable to North Dakota as it might be since the principal criteria is unemployment and North Dakota has always been borderline in this area.

2. The committee believes CETA funds could be better used for vocational rehabilitation, vocational training, or other manpower programs. Funds could also be used for winter projects to upgrade training for the seasonably unemployed and for short-term jobs during the peak of North Dakota's winter unemployment period.

3. The boards and committees responsible for dispersing CETA funds should reach more clearly into the cities and the business community without regard for partisan participation of any kind.

4. The committee recommends a more definitive explanation of what CETA programs are intended to do. The impetus of the CETA input should be clearly defined as cost sharing but not necessarily as cost saving.

5. The committee recommends that the CETA administration and the Employment Security Bureau report to the Legislative Council's Budget Committee as to funding and the enrollment level upon request. This would provide for ongoing examination of the CETA program by the legislature and inform legislators of new program developments.

6. The committee recommends that Congress make decisions as to CETA program financial allocations further in advance than at present to allow the state and political subdivisions to better prepare for the most effective use of CETA funds.

7. The committee recommends that manpower planning boards invite legislators to participate in their meetings from time to time so individual legislators can become more knowledgeable about and provide input into area CETA programs.

8. The committee recommends the continuance of veterans' preference in CETA enrollments.

9. The committee recommends continuance of the student-veteran program in order to help provide for the veteran in school and qualify the veteran for the labor market.

10. The committee recommends expansion of the CETA public information program to alert small communities and rural residents as to how they can participate in CETA programs to the advantage of the communities and the individual unemployed.

11. The committee recommends that public service employment positions be allocated as nearly as possible to institutions of higher education on the basis of student population.

The committee extends its appreciation to those persons named at the beginning of the report for the information, cooperation, and assistance provided to the committee during its study.

## SIXTY-SECOND DAY

Bismarck, April 1, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Rev. Ira Herzberg, Calvary United Methodist Church, Bismarck.

"Our Father who art in heaven, be gracious unto Thy servants, the Senators from the various districts of the State of North Dakota. Give these men and women strength and wisdom for the tasks of this day and guide them in their deliberations.

Deliver us from the error of asking and expecting Thy blessing and Thy guidance in our public lives, while closing the doors to Thee in our private living. Thou knowest what we are wherever we are. Help us to be the best we can be. Help us to be good men and women, that we may become good leaders. Before we make and reach any decision, make us willing to ask, "What would Jesus do?" Then give us the courage and the grace so to act.

O Lord, give these men and women the highest motives and the courage to propose that which will be worthy of Thy blessing.

We consider our resources in money and in people, yet forget the spiritual resources without which we dare not and cannot lead others. We are so anxious to have the approval of men in all we say and do, that we forget that it is Thy approval that brings us peace of mind and clear conscience.

We pray, O God, that Thou wilt fill these sacred minutes with meaning, and make it an oasis for the refreshing of our souls, a window cleaning for our vision and a recharging of the batteries of our spirits.

Speak to us today in our deliberations, and make us listen to Thy broadcasting station that never goes off the air. In the power of Christ our Lord and master, we pray. Amen."

The roll was called and all Senators were present except Senators Maher, Melland, Morgan, Wenstrom.

A quorum was declared by the President.

#### POINT OF PERSONAL PRIVILEGE

Senator Redlin:

Mr. President, I request the opportunity to speak on a point of personal privilege.

Mr. President, Members of the Senate, a recent communication from the manager of our city states that activities of this Legislature to this point will require nearly five mills additional property tax levy just to stay even. Present plans of this Legislature will raise the income tax \$16 million by allowing the inflation credit to die. This tax raise will fall most heavily on middle income people.

As one Senator, I believe that property and income taxes are the wrong taxes to raise at this time if we need additional income. Inflation has not gone away and most people are getting automatic income taxes raises because our higher rates reach down into peoples income needed for personal well-being.

I believe this Legislature should reinstate a portion of the sales tax and direct this revenue to a meaningful revenue sharing program, which gives hope of property tax relief, and to a reinstatement of inflation credit on income tax.

We are sacrificing additional revenue from a sales tax source during the next biennium, a substantial part of which comes from visitors to our state, and placing that burden on property owners and income tax payers.

A compromise with the people by reinstatement of a portion of a sales tax for benefit of revenue sharing and income tax relief is not breaking faith but rather the exercise of our solemn responsibility.

I would gladly face the political fall out from the people if we make such tax adjustments.

Point of Personal Privilege.

Senator Solberg: Members of the Senate, I was called off the floor for a conference with the Legislative Research Council Director this morning at the time we discussed Concurrent Resolution 3078. I do not want to ask that we reconsider our action on that because it may disturb other areas of this particular type of a calendar, but I do want to make a few statements, if I may, Mr. President, because I think there is a conglomerate area of agencies that are involved in the older person's lives in the communities throughout the state. I think there is a tremendous integration and assimilation and all that type of thing in regard to the work that they do; that there is probably a need to look at some of these areas, because I think one of the things we need to study is what does not need doing, that we are now doing and that's a cost to the taxpayer. Because I think the older citizen is a person who is capable, has a great deal of training many times, and has a reserve of resources that can contribute much to a society, and I believe that we are interfering with some of his freedoms, and, therefore, we should study and find out whether these agencies are not needed, and what we can do to integrate some of their services, and so on. And I hope that in the Legislative Research Council allocation of studies to these committees that they can find some place where this can be related to another study that may be made, or social service committee that may be established during the interim so that we can bring in and hear testimony regarding many of these agencies that perform services now that are nonessential, are a detriment to the older person, rather than an asset, and that we look into it from that point of view, rather than to have a singular study of this type made and make it a part of another one, and I hope that whoever becomes a part of the Legislative Research Council staff and members from the legislative bodies, will take a good look at this particular thing to bring it into relationship with another area of study and do something about it because I think it can be resolved. I think it can be minimized. I think that there are many areas where we can encourage the use of these older people and make them more practical and profitable in the society without having them sit at home and wonder "What shall I do next?" Many of them are capable and can do things for themselves, and we are trying to take away that initiative, and I resent the idea that we are building buildings and finding places for them to go, because those that go there are capable of doing things for themselves. Let's do something for those that are not capable, mentally or physically or both, so that we take care of those, and not those that should be put to practical operation and use in a society and do something for themselves. Thank you for the privilege.

## SIXTY-THIRD DAY

Bismarck, April 2, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Senator I. E. "Eskey" Solberg.

"Let us pray. Each day we must proceed from that which is known to that which is less known. We must gather the traditions from those who have gathered them, to correct them if needed and if it be possible, change them. Let us lead in such a manner so that wisdom prevails in a possible state of confusion. Help us to so work that we find truth in doing and that we seek knowledge and great wisdom in our decisions. The search for the perfect may evade us. Help us to seek Your perfect way in planning our work for this day. Amen"

The roll was called and all Senators were present except Senator Smykowski.

A quorum was declared by the President.

**POINT OF PERSONAL PRIVILEGE**

Senator Hoffner; Mr. President, I rise on a point of personal privilege.

Mr. President, members of the Senate, there is no question in my mind that the majority party is playing games with the so called "Christmas Tree Bill" \$18,000,000.00, and I think this is a sad day for North Dakota. I also, at this time, want to explain the reason for a two thirds vote to suspend the rules so that the majority cannot overrun the minority at any time, and that doesn't necessarily mean it has to be on political lines.. There are times when the majority can overrun the minority, and that is a rule that we have, it is a very important rule and it does protect the minority position so that things can't be railroaded. We demonstrated that it can be done and I'll continue to do so if the majority continues to override the minority.

#### SECOND READING OF SENATE BILLS

Senate Bill No. 2551. A Bill for an Act to amend and reenact subdivision b of subsection 2 of section 3 of Senate Bill No. 2344, as approved by the forty-fifth legislative assembly, relating to revenue sharing and providing for the allocation of a portion of the revenue to the county government and cities within the countywide area.

Which has been read.

Senator Goodman offered the following proposed amendments to Senate Bill 2551:

On page 1 of the bill, line 1, after the words "A BILL" delete the remainder of the line and the remainder of the bill and insert in lieu thereof the following: "for an Act to provide for the sharing of the state's general fund reserve with counties, cities, city park districts, and townships; to provide an appropriation; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. LEGISLATIVE INTENT.) It is the intent of the legislative assembly to share with certain political subdivisions of this state a portion of the state's general fund reserve because the legislative assembly recognizes that the state has, in recent years, taken in more revenue than estimated projections have indicated due to inflation and increased prices for agricultural products. Such a sharing may be on a limited basis dependent on economic conditions within the state and the status of the state's general fund.

SECTION 2. STATE REVENUE SHARING FUND.) There is hereby created in the office of the state treasurer a state revenue sharing fund which shall be administered by the state treasurer. Moneys credited to the fund shall be distributed to all eligible political subdivisions in the manner provided by this Act. The state treasurer may require eligible political subdivisions to provide such information or copies of reports as may be necessary to administer state revenue sharing.

SECTION 3. DISTRIBUTION FORMULA.)

1. Half of the amount available from the fund pursuant to section 5 shall be allocated in the following manner:

a. Each county shall share in the fund in the proportion that the population of each bears to the population of all based upon the last official federal census or upon a more recent census approved by the state treasurer.

b. Each city, located wholly or partially within each county, shall share in the funds allocated to each county in the proportion that the population of each such city, or the population of the portion of a city located within such county, bears to the total population of that county. The population of each city shall be based upon the last official federal census or upon a more recent census approved by the state treasurer.

2. The available remainder shall be allocated in the following manner:

a. Such money shall be allocated to all countywide areas so that each countywide area shall receive an amount which bears the same ratio to the amount to be allocated from the fund pursuant to this subsection as the real property tax revenues of all political subdivision within the countywide area bears to the sum of such real property tax revenues in all countywide areas. For the purposes of this act, "countywide area" shall be the geographic area of a county. The allocation to each countywide area shall consider the property tax revenues of all political subdivisions within the countywide area and shall include the real property tax revenues of the county government.

b. The county government and all cities within the countywide area shall be allocated that portion of the amount allocated to the countywide area pursuant to subdivision a which bears the same ratio to such amount as each such eligible unit's real property tax revenues bear to the sum of the real property tax revenues of the county and of all cities or portions thereof within that countywide area.

3. If any city has established a park district pursuant to chapter 40-49, such city's share of revenue sharing funds shall be divided between the city and the park district in proportion to their total respective mill levies.

4. If any county has townships established pursuant to chapter 58-02, such county's allocation of revenue sharing funds shall be divided between the county and such townships. The prayer was offered by Rev. George Walker, First Evangelical Free Church, Bismarck.

Our most gracious Heavenly Father, with grateful hearts we come before your throne of grace. We thank you for the benefits you daily load upon us. We thank you for this great Nation and for this great State in which we live.

As we gather this morning in the Senate of our great State, we ask your guidance and direction for these men and women who have been given the privilege and responsibility of serving the State and the people of North Dakota. We are reminded that Scripture tells us that government officials are not only representatives of the people but that they are ministers of God for the good of the people. Father, give wisdom and guidance to these your ministers. May that which they do bring praise to your name.

These things we ask in the name of Christ our Savior. Amen.

Thereafter, a political subdivision, to remain eligible to receive funds under this Act, must certify to the state treasurer once every two years from the date of its second aforementioned adjustment of assessed valuation levels, that its assessed valuation level corresponds to its proper relative value as established by the state board of equalization."

"Let us Pray.

Almighty, everlasting God, Creator of the Universe, please listen to our prayer:

Today we raise our voices and say "thank you" for the ground, the water, and the air we call North Dakota. Thank you for the majestic buffalo, thank you for the graceful meadowlark, thank you for the golden wheat, thank you for the busy little prairie dog. And, today, we give special thanks for the most important resource we have, our people!

Lord, give to our citizens, and especially our legislators who work on our behalf, give all of us a truckload of your wisdom and love so we might take care of your creation as we ought; and so we will see each other as fellow human beings and not as pawns in a game or numbers on a chart.

Thank you, Lord, for our state... Now, help us say that with our hands and feet. In Jesus' Name, Amen."

Bismarck, April 6, 1977

The Senate convened at 9:00 A.M., President Sanstead presiding.

The prayer was offered by Fr. Gerald Ruelle, Chaplain, St. Alexius Hospital.

"I lift up my eyes to the hills. From whence does my help come?

My help comes from the Lord, who made heaven and earth.

He will not let your foot be moved, he who keeps you will not slumber.

Behold, he who keeps Israel will neither slumber nor sleep.

The Lord is your keeper; the Lord is your shade on your right hand.

The sun shall not smite you by day, nor the moon by night.

The Lord will keep you from all evil; he will keep your life.

The Lord will keep your going out and your coming in from this time forth and for evermore."

Senator Strinden was elected President Pro Tem during the Interim.

Senator Strinden: Mr. President, ladies and gentlemen of the Senate, that "red" vote was beautiful. I have served with Senator Rait for a number of years, I have always held him in the highest esteem; there too, we have had our differences, but always fairly. The only thing I would like to say, Mr. President, ladies and gentlemen of the Senate, I certainly am deeply honored of the election to the post of the President Pro Tem during the Interim. Should the occasion arise where I should have to preside, I promise you only fairness.

Senator Rait: Mr. President, members of the Senate, I wish to thank the people who nominated me and supported me in this election. I deem it a great privilege to be nominated for this high honor. I did not hardly anticipate being elected when I was nominated, but I do appreciate it. At this time, Mr. President, I move that a unanimous ballot be cast for Senator Strinden for President Pro Tem for the Interim I wish Senator Strinden the best of luck in his new position, I have enjoyed knowing Senator Strinden. We have been on opposite sides of the fence a lot of the time, but he has been forthright and you never have to wonder the position Senator Strinden was taking because he always told us that. I have enjoyed my sessions with him in the Senate, and also working with the numerous people that I have learned to know during these seven sessions. It is quite interesting to note that over the years here, coming here seven sessions ago, there are not too many people that are serving at the present time that were members of this body when I came in here, and these memories will go on forever as far as I am concerned. Thank you very much.

#### POINT OF PERSONAL PRIVILEGE

Senator Thane: Mr. President, I rise on a point of personal privilege.

Mr. President, ladies and gentlemen of the Senate and members of the press who are present. This is my first biennial report on and to the reporters, and possibly my last. It is not meant to be humorous, although

some might consider it so, — nor is it meant to be overly critical. Rather, my comments shall be both objective and candid. Whether what I say goes beyond the Senate floor is immaterial — what is important is that I have the right and privilege to speak and that you have the right and privilege to listen — or not — as you see fit.

Those of us who have served in the Senate for a number of sessions have seen legislative sessions and committee meetings evolve from executive sessions and committee meetings where the press was barred, to the present status where all meetings are open and the press is invited and welcomed. We have also endured the apprehension and the frustration of never knowing whether we are quoted, misquoted, photographed or simply ignored. Some of us have developed acting ability and perform to some degree for your benefit, only to discover that you have left and only our colleagues and a few disinterested spectators are listening. Some of us suffer from paranoia and are convinced that our entire political future is in direct proportion to our coverage by the media.

In the final analysis, we have a joint obligation to the citizens. Yours — a moral obligation not necessarily bound by law, and ours — a moral and legal obligation to the voters and to the Constitutions of our state and nation. Because of these restraints and obligations, and because of our own convictions — you and I, with rare exceptions, do our very best. We like to look to you as friends. We realize you are dedicated to the concept of what is news. We hope you recognize the mechanics of the political arena and our position as participants in that arena.

In closing, I personally say "thank you". I am glad that you are a partner in our joint efforts to assure the citizens of the continuance of our freedoms.

MESSAGE FROM THE HOUSE

Senate Concurrent Resolution No. 4091

ROY GILBREATH, Chief Clerk

House Chamber

Mr. President: I have the honor to return herewith the following, which the House has amended:

Senate Bill No. 2551

ROY GILBREATH, Chief Clerk

HOUSE AMENDMENTS TO SENATE BILL No. 2551

On page 1 of the engrossed bill, line 1, after the words "A BILL" delete the remainder of the bill and insert in lieu thereof the following: "for an Act to provide for a severance tax for the privilege of severing coal from the earth; to provide procedures for the imposition, collection, and administration of such tax; to provide for the deposit of the proceeds of such tax in the state treasury and for the allocation thereof to the state and its political subdivisions; to provide for a coal development impact office in the office of the governor; to provide for a state coal development impact commission and a county coal development impact commission to approve or disapprove impact grants; and to provide an appropriation for revenue sharing.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. DEFINITIONS.) As used in this Act:

1. The "board" or "state board" means the state board of equalization.
2. The "fair market value of the coal" means, in the case of each individual sales contract for coal, a price per ton for coal which has been sold under an arms-length contract and which includes all costs as herein provided. Such costs must include but are not limited to the following:
  - a. Market value of the rights of the coal mine operator in the coal before severance or, when the unsevered coal is owned wholly or partly by the user, the market value of the owner's rights therein.
  - b. Any rents, royalties, or bonuses paid with respect to the coal.
  - c. All mining costs, including the costs of extraction of the coal from the earth, costs of loading and hauling such coal from the place of extraction to the various points of processing and loading for shipment, costs of coal treatment processes such as crushing, sizing, and oiling, costs of loading the coal onto transportation equipment for shipment, and costs of reclamation of mined land, all of which costs shall include, but shall not be limited to, the following:

(1) Labor and management costs, including but not limited to salaries and wages, payroll and other taxes, payments to labor union funds and retirement plans.

(2) The cost of owning and financing or of leasing equipment used for the purposes described in this subdivision and the cost of operating such equipment.

(3) The cost of electricity and fuel, or the equivalent value thereof when not purchased, required to operate all mining equipment.

Fair market value of the coal shall not, however, include the amount of severance tax imposed by this Act and shall not include transportation costs other than those described in subdivision c of this subsection.

3. "Coal development" shall mean the mining of coal and industries directly related to the processing of coal, including, but not limited to, the generation of electricity from coal or coal products, coal gasification, coal liquefaction, and the manufacture of fertilizer from coal, and shall also include the transportation of coal and products therefrom.

4. "Impacted city or other political subdivision" shall mean a city or other political subdivision which demonstrates actual or anticipated extraordinary expenditures caused by coal development or the growth incidental thereto.

5. "Impacted county" shall mean a county which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

6. "Impacted school district" shall mean a public school district which demonstrates actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto.

7. "Coal" means a dark-colored compact and earthy organic rock with less than forty percent inorganic components, based on dry material, formed by the accumulation and decomposition of plant material. The term shall include lignite in both oxidized and nonoxidized forms as well as any coal bodies enriched in radio-active materials.

8. "Person" includes any individual, firm, partnership, joint adventure, association, corporation, estate, business trust, receiver, or any other group or combination acting as a unit and the plural as well as the singular growth.

9. "Fiscal year" means a twelve month period beginning on July first and ending on the following June thirtieth.

#### SECTION 2. IMPOSITION OF TAX — PAYMENT OF TAX — COMPUTATION OF COAL PRICE.)

1. There is hereby imposed for the privilege of severing coal in North Dakota from the earth for sale or for industrial purposes a tax in the amount hereinafter provided. Such tax shall be in lieu of any tax imposed by law upon the sale or use of such coal in this state. Each coal mine owner or operator shall remit such tax for each calendar quarter year, within thirty days after the end of each quarter, to the state tax commissioner upon such reports and forms as the tax commissioner shall deem necessary.

2. The amount of tax imposed shall be a flat rate per ton of coal determined annually as follows: on the first Tuesday in June and each day thereafter as necessary the state board of equalization shall hold a public hearing at the state capitol at which any person interested may appear and present evidence relating to the statewide average contract price of a ton of coal, after which the state board shall, as soon as reasonably possible, determine the statewide average contract price of a ton of coal of two thousand pounds prevailing in this state on June first of that year. The rate of tax imposed for each ton of coal severed in the following fiscal year shall then be twenty-five percent of such statewide average contract price as so established by the board which the board shall certify to the state tax commissioner as the rate of tax for the next

fiscal year. The tax rate per ton as certified by the board shall be rounded to the nearest tenth of a cent. The tax rate for any fiscal year, however, shall not be less than one dollar per ton.

3. For purposes of determining the statewide average contract price per ton of coal prevailing in the state on June first of any year the state board of equalization shall, if necessary, adjust the price of coal that is provided for in each contract so that the price represents as nearly as possible, the fair market value of the coal as defined in this Act. In any case where the coal before severance is owned, wholly or partly, by the person who will use it after severance in an energy conversion process or for any other purpose or where a person neglects or refuses to furnish to the state board any information required by it as provided in this section, the state board may determine a fair market value of such coal for use in establishing the statewide average contract price.

4. When adjusting contract sales prices to determine the fair market value of coal mined under a contract, the board may utilize the factors authorized by the federal Internal Revenue Code, 26 United States Code, section 613, or that provision as it may be labelled or amended, and the regulations thereunder, for determining gross income from mining property, or the board may utilize any other or additional criteria that are appropriate. Each coal mine owner or operator and each buyer and seller of coal shall, upon request made by the board at any time, furnish to the board copies of the contracts under which it is then buying or selling coal and any other information deemed necessary by the board for the performance of its duties. The board may also take into consideration the reports or other information filed by any coal mine owner or operator or any buyer or seller of coal with any other agency of government, federal, state or local which such agency is not prohibited by law from disclosing to the board.

5. In establishing the statewide average contract price per ton of coal as of June first of any year the state board shall take into account the fair market value of coal under contracts which provide for the production of more than twenty-five thousand tons of coal per year and shall use the weighted arithmetic mean price of such coal, except that no contract for the production of that type of coal known as leonardite shall be taken into account for the purpose of this subsection.

6. The board's certification of the annual tax rate to the state tax commissioner shall be prima facie evidence of its correctness. The tax rate provided for in this section shall be applicable for all coal mined on or after July 1, 1977.

7. The state board of equalization is hereby authorized and empowered to prescribe and promulgate rules and regulations in accordance with the procedure provided in chapter 28-32 of the North Dakota Century Code that are necessary and advisable for the administration of its duties under this section.

8. An appeal from the determination of the annual tax rate by the state board may be taken to the district court of Burleigh county within thirty days after the certification of that tax rate by the state board to the state tax commissioner. The appeal shall be heard and determined de novo by the district court.

SECTION 3. WHEN TAX DUE — WHEN DELINQUENT.) The severance tax as provided in this Act shall be due within thirty days after the end of each quarter year period, and if not received by the thirtieth

day shall become delinquent and shall be collected as herein provided. The tax commissioner, upon request and proper showing of the necessity therefor, may grant an extension of time, not to exceed fifteen days, for paying the tax, and when such request is granted, the tax shall not be delinquent until the extended period has expired. The tax commissioner shall require a report to be filed quarterly by each owner or operator of a coal mine, in such form as the tax commissioner may specify, to list a full description of the mine, the number of tons of coal severed, the amount of tax due and remitted, and any other information deemed necessary by the tax commissioner for the proper administration of this Act.

**SECTION 4. POWERS OF STATE TAX COMMISSIONER.)** The state tax commissioner shall have power to require any person engaged in the mining of coal, and the agent or employee of such person, or purchaser of such coal, or the owner of any royalty interest therein, to furnish any additional information deemed by him to be necessary for the purpose of correctly computing the amount of tax due, and to examine the books, records, and files of such person, and shall have power to conduct hearings and compel the attendance of witnesses, the production of books, records, and papers of any person, and full authority to make any investigation or hold any inquest deemed necessary to a full and complete disclosure of the true facts as to the amount of production from any coal mine or of any company or other producer thereof, and as to the rendition thereof for taxing purposes. In case of refusal by a person to comply with a requirement of the state tax commissioner to furnish information or to produce books, records or files for examination, the tax commissioner may invoke the aid of any court of competent jurisdiction and such court may issue an order requiring the person to appear before the tax commissioner and give evidence or produce books, records and files, as the case may be, and any failure to obey such order of the court may be punished by the court as contempt thereof.

**SECTION 5. TAX COMMISSIONER TO COMPUTE TAX ON INCORRECT RETURNS.)** The state tax commissioner shall have the power and authority to ascertain and determine whether or not any report or remittance filed with him is correct, and if the owner or operator has made an untrue or incorrect report or remittance, the commissioner shall ascertain the correct amount of taxes due, and give immediate notice to the owner or operator filing the incorrect return or remittance. Any coal mine operator or owner receiving notice from the tax commissioner that he has filed an incorrect return or remittance shall remit the tax assessed by the commissioner within fifteen days of such notice. Any owner or operator aggrieved by a decision of the tax commissioner may make application in writing within fifteen days of notification for a hearing which shall be granted not later than fifteen days after receipt of the application. The tax commissioner may grant or reject, in whole or in part, the contentions of the owner or operator and upon conclusion of the hearings shall proceed to make a final determination of taxes due. Such taxes assessed by the commissioner shall become delinquent five days after the conclusion of the hearing, except in such cases where an owner or operator shall appeal such assessment to the district court of Burleigh county, in which case they shall become delinquent five days following final judicial determination.

**SECTION 6. PENALTY ON DELINQUENCY — FAILURE TO FILE REPORTS.)** Where the severance tax provided for in this Act shall

become delinquent, the tax commissioner shall, as a penalty for such delinquency, add to the amount of severance taxes due five percent of the delinquent amount plus interest at the rate of one percent per month. If the quarterly report is not filed within thirty days after the end of any quarter year period and taxes due paid, the tax commissioner shall notify the delinquent owner or operator of such delinquency, and if such report and remittance are not filed within an additional fifteen days, the tax commissioner shall notify the public service commission, which shall forthwith suspend such owner's or operator's license or permit until such time as payment is received, or the issues settled to the satisfaction of the tax commissioner; provided that if the quarterly report and a claim that no tax due is filed with the tax commissioner within fifteen days after the notice from the tax commissioner, the tax commissioner shall then proceed in accordance with section 5 if he believes tax is due.

**SECTION 7. LIEN FOR TAX.)** The severance tax herein imposed shall, at all times, be and constitute a first and paramount lien on the coal mine owner's or operator's property, as the case may be, both real and personal. In all cases where such tax is not paid, it may be recovered at the suit of the state, upon relation of the state tax commissioner, in the district court of the county where any such property, assets, and effects are located.

**SECTION 8. APPEAL FROM DECISION OF TAX COMMISSIONER.)** Any person aggrieved because of any action or decision of the tax commissioner under the provisions of this Act may appeal therefrom to the district court of Burleigh county.

**SECTION 9. RULES AND REGULATIONS — BOND.)** The tax commissioner is hereby authorized and empowered to prescribe and promulgate all necessary rules and regulations for the purpose of making and filing of all reports required hereunder to be filed with him and otherwise necessary to the enforcement of the provisions of this Act, and may, at his option and discretion, require a sufficient bond from any coal mine operator or owner charged with the making and filing of report and the payment of the taxes herein imposed, and said bond shall run to the state of North Dakota and shall be conditioned upon the making and filing of reports as required by law or regulation, and for the prompt payment, by the principal therein, of all taxes justly due the state by virtue of the provisions of this Act.

**SECTION 10. DISPOSITION OF REVENUES.)** All moneys collected by the tax commissioner pursuant to this Act shall be turned over by him as soon as practicable to the state treasurer for deposit in the state treasury to the credit of the coal development fund.

**SECTION 11. ALLOCATION OF MONEYS IN COAL DEVELOPMENT FUND.)**

1. Moneys deposited in the coal development fund that are from coal mined prior to January 1, 1984, shall be apportioned quarterly by the state treasurer as follows:

a. Thirty-five percent shall be credited to a special fund in the state treasury for distribution through grants by the coal development impact office to impacted cities, counties, school districts, and other taxing districts.

b. Fifteen percent shall be credited to a special fund in the state treasury to be held in trust to be administered by the board of university and school lands, which shall have full authority to invest such funds and

may consult with the state investment board as provided by law. The income from such trust fund shall be deposited in a special account within the trust fund which shall be known as the "environmental protection research and alternative energy development fund", and income earned by such special account shall also be deposited in that account. Expenditures from such fund may be made, as the legislative assembly directs, for the following purposes:

(1) Research to identify and determine the extent of environmental problems related to coal development in North Dakota;

(2) Research to determine methods of alleviating such problems and for assistance in their alleviations; and

(3) Research and development of other energy sources that are viable alternatives to obtaining energy from fossil fuels and nuclear fission. Such trust fund, but not the income therefrom, shall be perpetual and held in trust as a replacement for depleted natural resources.

c. Fifteen percent shall be allocated to the coal-producing counties and shall be distributed among such counties in such proportion as the number of tons of coal severed in each county bears to the total number of tons of coal severed in the state during such quarterly period. Two-thirds of each such distribution to a county shall be allocated to the county coal development impact commission for the making of grants as provided in section 15 of this Act. One-third of each such distribution to a county shall be promptly distributed within a county as follows:

(1) Forty percent shall be credited to the county general fund and may be expended for county general fund purposes or may be, by resolution of the board of county commissioners, transferred to other county funds for expenditures authorized by law in such amounts as the board deems necessary.

(2) Thirty percent shall be distributed and credited to the general fund of the cities in the county on the basis of the per capita population of all of the incorporated cities situated within the county as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.

(3) Thirty percent shall be distributed and credited to the school districts within the county on the basis of the average daily membership as certified to the county treasurer by the county superintendent of schools.

d. In addition to the amounts allocated pursuant to subdivision c of this subsection, ten percent shall be allocated to a special fund in the state treasury for distribution, as hereinafter provided, within those counties in which the coal was mined. Any county in which coal is mined or any city or school district in such county which upon application to the coal development impact office establishes to the satisfaction of that office, subject to the approval of the coal development impact commission, a need for funds that is in addition to those provided in subdivision c of this subsection shall receive such percent, but not exceeding a total of ten percent for the county and the cities and school districts therein, of the severance tax revenue from coal mined in that county during such period of time as the coal development impact office and the coal development impact commission shall approve. Any funds allocated pursuant to this subdivision but not distributed as herein provided within one year after their deposit in the coal development fund shall be allocated and credited

to the special fund established by subdivision a of this subsection for distribution as provided in that subdivision.

e. Twenty-five percent shall be deposited in the state revenue sharing fund, which fund is hereby created in the state treasury and shall be administered as provided in section 18 of the Act.

2. Moneys deposited in the coal development fund that are from coal mined after December 31, 1983, shall be apportioned quarterly by the state treasurer as follows:

a. Twenty-five percent shall be credited to a special fund in the state treasury for distribution through grants by the coal development impact office to impacted cities, counties, school districts, and other taxing districts.

b. Thirty-five percent shall be credited to a special fund in the state treasury to be held in trust to be administered by the board of university and school lands, which shall have full authority to invest such funds and may consult with the state investment board as provided by law. The income from such trust fund shall be deposited in the special account established by subdivision b of subsection 1 of this section and expended and used as therein provided, or expended and used to alleviate other problems created by coal development as may be determined by the legislature. Such trust fund, but not the income therefrom, shall be perpetual and held in trust as a replacement for depleted natural resources.

c. Fifteen percent shall be allocated to the coal-producing counties and shall be distributed among such counties in such proportion as the number of tons of coal severed in each county bears to the total number of tons of coal severed in the state during such quarterly period. Two-thirds of each such distribution to a county shall be allocated to the county coal development impact commission for the making of grants as provided in section 15 of this Act. One-third of each such distribution to a county shall be promptly distributed within a county as follows:

(1) Forty percent shall be credited to the county general fund and may be expended for county general fund purposes or may be, by resolution of the board of county commissioners, transferred to other county funds for expenditures authorized by law in such amounts as the board deems necessary.

(2) Thirty percent shall be distributed and credited to the general fund of the cities in the county on the basis of the per capita population of all of the incorporated cities situated within the county as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.

(3) Thirty percent shall be distributed and credited to the school districts within the county on the basis of the average daily membership as certified to the county treasurer by the county superintendent of schools.

d. Twenty-five percent shall be deposited in the state revenue sharing fund, which fund is hereby created in the state treasury and shall be administered as provided in section 18 of this Act.

SECTION 12. COAL DEVELOPMENT IMPACT OFFICE — APPOINTMENT OF DIRECTOR.) There is hereby created in the office of the governor a coal development impact office. The director shall be appointed by and shall serve at the pleasure of the governor. The salary

3. Establish procedures and provide proper forms to political subdivisions for use in making application for funds for impact assistance as provided in this Act.

4. Make grants to counties, cities, school districts, and other political subdivisions, subject to approval of the coal development impact commission, as provided in this Act. In determining the amount of impact grants for which political subdivisions are eligible, the amount of revenue to which such political subdivisions will be entitled from taxes upon the real property of coal development plants and from other taxes or fund distribution formulas provided by law shall be considered.

**SECTION 14. COAL DEVELOPMENT IMPACT COMMISSION.)** The coal development impact commission shall consist of five members. One member shall be the director of the coal development impact office and four members shall be appointed by the governor. Of the four appointees of the governor, one shall represent cities and shall be appointed from a list submitted by the North Dakota league of cities; one shall represent counties and shall be appointed from a list submitted by the North Dakota county commissioners association; one shall represent school districts and shall be appointed from a list submitted by the North Dakota school boards association; and one shall represent the citizenry at large. The director of the coal development impact office shall be the chairman of the commission. The term for an appointed member shall be two years, but a member may be reappointed to the commission. It shall be the duty and responsibility of the commission to review and approve or disapprove, in whole or in part, the decisions on grants made by the coal development impact office. The appointed members of the commission shall receive the same compensation per day and shall be reimbursed for expenses in the same amounts as provided for in section 54-35-10 for members of the legislative council while attending meetings of the commission or otherwise engaged in the official business of the commission.

**SECTION 15. COUNTY COAL DEVELOPMENT IMPACT COMMISSION — MEMBERSHIP — COMPENSATION — POWERS AND DUTIES.)**

The board of county commissioners shall select one of their members to serve on the commission, and the county commissioner so selected shall serve as chairman. The members of all school boards of public school districts maintaining a school in the county shall select one of their members and

the governing bodies of all cities in the county shall select one of their members to serve on the commission. The three members of the commission so selected shall name the other two members, who shall be residents of the county. Each member shall serve a term of two years, shall serve until his successor is selected, and shall be eligible for reappointment. The county auditor shall serve as secretary and the county treasurer shall serve as treasurer of the commission, but such officials shall have no vote. The members of the commission who are not full-time employees of the county or another taxing district shall receive the same compensation per day as provided for in section 54-35-10 for members of the legislative council, and all members of the commission shall be reimbursed for expenses incurred in the amounts provided by law for state officers for attending meetings of the commission or otherwise attending to official business of the commission. Such compensation and expenses shall be paid out of funds allocated by section 11 of this Act to the county coal development impact commission.

2. Each county coal development impact commission shall meet within thirty days after funds are allocated to it pursuant to section 11 of this Act, and shall meet at such other times as called by the chairman. The commission shall exchange information and shall cooperate with the state coal development impact office. The commission shall establish procedures for political subdivisions to make application for impact grants and shall establish procedures for hearings on such applications. The commission shall make grants from funds allocated to it to the county and to cities, school districts, and other taxing districts within the county for actual or anticipated extraordinary expenditures caused by coal development and the growth incidental thereto. The commission shall report all grants approved to the state coal development impact office for the use of that office in determining eligibility for grants by that office. All disbursements from funds allocated to the county coal development impact commission, pursuant to section 11, including the administrative costs of the commission, shall be made by the county treasurer only upon order of the county auditor after approval of such disbursements by the commission.

SECTION 16. REFUND OF ERRONEOUSLY OR ILLEGALLY COLLECTED TAXES.) In the event that any tax, penalty or interest imposed by this Act shall have been erroneously or illegally collected from any person, the state tax commissioner shall present a voucher to the department of accounts and purchases for payment to that person of the amount erroneously or illegally collected.

SECTION 17. STATE REVENUE SHARING FUND — DISTRIBUTION FORMULA — OVERBURDEN FACTOR.) Moneys credited to the state revenue sharing fund created by section 11 of this Act shall be distributed to all eligible political subdivisions in the manner provided in this section. The state treasurer may require eligible political subdivisions to provide such information or copies of reports as may be necessary to administer state revenue sharing. A political subdivision receiving funds pursuant to the provisions of this section shall not use these funds for either unlawful or deficit spending purposes. The auditor for each political subdivision receiving funds pursuant to the provisions of this section shall file with the state treasurer a report on January first and July first of each year. This report shall contain an accounting of the expenditures for the previous six months of the funds distributed pursuant to this section. Moneys credited to the fund shall be distributed as follows:

1. Half of the amount credited to the fund pursuant to sections 11 and 18 shall be allocated in the following manner:

a. Each county shall share in the fund in the proportion that the population of each bears to the population of all based upon the last official federal census or upon a more recent census approved by the state treasurer.

2. The available remainder shall be allocated in the following manner:

a. Such money shall be allocated to all countywide areas so that each countywide area shall receive an amount which bears the same ratio to the amount to be allocated from the fund pursuant to this subsection as the real property tax revenues of all political subdivisions within the countywide area bears to the sum of such real property tax revenues in all countywide areas. For the purpose of this Act, "countywide area" shall be the geographical area of a county. The allocation to each countywide area shall consider the property tax revenues of all political subdivisions within the countywide area and shall include the real property tax revenues of the county government.

b. The county government and all cities within the countywide area shall be allocated that portion of the amount allocated to the countywide area pursuant to subdivision a which bears the same ratio to such amount as each such eligible unit's real property tax revenues bear to the sum of the real property tax revenues of the county and of all cities or portions thereof within that countywide area.

3. If any city has established a park district pursuant to chapter 40-49, such city's share of revenue sharing funds shall be divided between the city and the park district in proportion to their total respective mill levies. If the city has established a public library pursuant to chapter 40-38, or is sharing in the operation of a consolidated library service pursuant to chapter 54-40, the city shall divide its remaining allocation, after division with any park district pursuant to this subsection, between itself and the library board in proportion to their total respective mill levies.

4. If any county has townships established pursuant to chapter 58-02, such county's allocation of revenue sharing funds shall be divided between the county and such townships. Such townships shall receive a total of ten percent of the allocations made to such county which shall be distributed to each township in the proportion that the population of each township within the countywide area bears to the population of all townships within the countywide area. If the countywide area is not fully organized into townships, the allocation to townships shall be divided between the county government and the townships within the countywide area in the proportion that the population of the township bears to the population of the countywide area, less the population of all cities within the countywide area. The allocation of the township's share shall be distributed among the townships within the countywide area in the manner otherwise provided by this subsection. The remainder shall be allocated to the county government and shall thereafter be considered a part of the initial allocation to the county government.

5. Notwithstanding subsections 1 and 2 of this section, no county shall receive an allocation which is less than fifty percent of the total allocation, pursuant to subsections 1 and 2 of this section, to the countywide area in which the county is located.

6. On September 30, 1977, March 31, 1978, September 30, 1978, and March 31, 1979, the state treasurer shall allocate and transfer such funds

to eligible political subdivisions in the manner provided by this section. Eligible political subdivisions may receive and expend payments made pursuant to this Act and such payments shall be considered an appropriation in the budget of the political subdivision, which, upon the order of the governing body, may be disbursed in the manner other disbursements are made. The state revenue sharing moneys so received shall be considered a part of the local tax effort of each eligible political subdivision receiving such funds.

**SECTION 18. APPROPRIATION.)** There is hereby appropriated out of the general fund in the state treasury from moneys not otherwise appropriated, the sum of \$3,500,000.00, or so much thereof as may be necessary, to the state revenue sharing fund, one-fourth of which shall be available for distribution from the state revenue sharing fund on each of the following dates: September 30, 1977, March 31, 1978, September 30, 1978, March 31, 1979.

**SECTION 19. PENALTY.)** Any person intentionally violating any of the provisions of this Act is guilty of a class A misdemeanor.

**SECTION 20. SAVINGS CLAUSE.)** If any section, subsection, subdivision, sentence or clause of this Act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this Act."

SENATOR STRAND, Chairman

SPECIAL ORDER OF BUSINESS

President Pro Tem Freed, presiding

Senator Nothing moved that Senator Stella Fritzell be recognized.

Senator Fritzell: Mr. President, I have the honor this morning of speaking of a Senator that had done very much for this body. It is astounding how over the months that we are here, how well we get to know each other, and through his speeches and his ideas, he has given us much food for thought. He steadfastly reiterates the scenario and submits to this body problems that seem insurmountable and I am sure this morning, that is probably how he feels, so it is with a great deal of pleasure that I give our Assistant Minority Leader this gift this morning — Senator Barth.

Senator Barth: Just a word, Mr. President, I didn't realize that somebody could say something so nice about somebody until I heard it was myself. I thank you very much.

Senator Fritzell: I now ask that you recognize Senator Miller.

Senator Miller: Mr. President, members of the Senate, I have the honor today to presenting a gift to our revered Assistant Majority leader, Senator Thane. Senator Thane is a man of high honor whose voting record I have attempted carefully to emulate throughout the entire session. He has attained a high position that many of use over here would like to attain and the sooner the better. Of all the members of this body, his words will inspire me and have inspired me throughout this session more than any other for his deathless daily words, I will carry with me to the grave, "I move the absent Senators be excused". For his high attainment, Senator Thane, we have a gift for you.

Senator Thane: Mr. President, ladies and gentlemen of the Senate, Senator Miller, Thank you very much. I have a few more words other than excusing the absent Senators, but I am going to save that for later. Thank you very much.

Senator Miller: Mr. President, I now ask that you recognize Senator Strinden.

Senator Strinden: Mr. President, I rise on a point of personal privilege, and if Senator Hoffner would wish, we will get a secretary to record my remarks. Mr. President, members of the Senate, Senator Hoffner and myself sit in ideal positions, he can sit there and glare at me, I can sit here and glare back at him. Senator Hoffner plays the role of Minority Leader as it should be played. I think it is his responsibility to keep the Majority on their toes, which he does on occasion. I think the Senator is a tribute to the opposite party, and now Mr. President, if Senator Hoffner would meet me on neutral ground at the front of the podium, it would please me no end to present him with a gift from this body.

Senator Hoffner: Mr. President, may we be on the 8th order? I want to see those remarks in print. I just, this morning, signed a letter to Senator Strinden from the 24th District, and I scribbled a little note on it "Theron, you're a good, clean, out-in-the-open fighter," and I appreciate that, and I really mean that in all sincerity, that Senator Strinden has always been out in the open, I haven't always liked what he says, but I accept that. One thing I do want to say at this time, is that this is an amazing group. You know we have so many proposals every day, you know, the rivals you have on one proposal is tempting, to say, "We'll fix 'em on this one", but you always manage to psychologically gear yourself and deal with the propositions as they are, and Senator Strinden, I appreciate those comments. Thank you.

Senator Strinden: Mr. President, I would now ask that you recognize Senator Redlin.

Senator Redlin: Mr. President, members of the Senate, it is my privilege to stand before you now and present to our Majority floor leader, a token of extreme affection that we have for the way in which he manages the affairs of the Senate. I think all of us have a great privilege to serve in this body, and I think that few of use recognize that the person on whom descends the greatest responsibility to keep the body working effectively, smoothly, and making sure that the majority opinion, whether that be composed of members of both parties, at times, has a chance to work its will in this body. I think through all that we have

done, our work has brought credit to the state in the nation, and that our process of government has been proven again by the 45th legislative session to be way ahead of whatever is in second place. It has not been my privilege to have ever served in the Majority, and I hope along with some of our other members that that day would come along for some in my party at some point in time. But six sessions struggling in the Majority, you would think that the law of averages would catch up with us pretty soon. I do believe that we must say that our Majority leader has been fair to all of us, he has conducted the affairs of the Senate in a diligent and effective manner, and I for one know that I express the sentiments of this Senate in saying that we appreciate it, we respect you, and we would like to give you this gift as a token of that appreciation and respect, Senator Nothing.

Senator Nothing: Mr. President, ladies and gentlemen of the Senate, I do thank you. Two years ago, during this same type of a program, I indicated to you that I thought that everyone should have an opportunity for this job and I didn't realize how unfair I might have been. But it is a challenge and in looking back when we began the session, back in December, when probably the most important decisions were made, at least from my point of view and the mechanical point of view, was to have each Senator on a committee that would bring out the maximum talents to that committee's work. I reflect now and appreciate not only the willingness of all of you to accept those assignments, but the manner in which you have carried those assignments out is certainly a credit to not only this body, but to the state of North Dakota. What the future holds for us, even within the next few hours, we do not know, but to all of us here, they can never take away the experience of serving this body. Thank you.

Senator Redlin: Mr. President, I ask that you recognize Senator Melland.

Senator Melland: Mr. President, members of the Senate, first of all I would like to apologize for my comments last week about obstructionist and delaying tactics, actually that has been my fault this was supposed to have happened on Saturday morning. I knew that I was going to be asked to make a presentation to our presiding officer and I had a great deal of difficulty in finding an appropriate gift. You will recall when the Senate Appropriations Committee, certainly not me personally, it was only my responsibility to carry the amendments to House Bill 1001 on the floor, and in speaking in opposition to a modest reduction in the Lieutenant Governor's budget, someone said we forced him to go "cup in hand" to the Emergency Commission. We know that that likely being the case, we wanted to get him an appropriate gift, and that would be a cup that he could carry to that commission that would be noticeable. That presented an additional problem because we had to find one that would not fall prey to the unusual but carnivorous appetite to the Democrat Senator from District 21. We finally found the cup and are able now to proceed with one of the very last acts of this body and I would ask a page to present this cup to the Lieutenant Governor at this time. (A large plastic cup was presented to Wayne Sanstead. The Lt. Governor extended his thanks, but Sen. Melland asked him to still be seated.)

Senator Melland: Mr. President, then we amended the bill, putting back the money, but putting it this time in the Governor's budget. I think the remark was made when we talked about the Emergency Commission by going "hat in hand" but in this instance, now the Lieutenant Governor

must go to the Governor's office, and we would certainly want him properly attired, we would want him in a noticeable situation, and believe me, he will be. I do have to say to you that this is not a gift, it is only a loan. I would now like to loan to the presiding officer of this body, the outstanding hat of the assistant Minority Leader of this body, and we have secured the pledge of Senator Barth that whenever he needs it, to go to the Governor's office, the hat is available, and I would like you, Laurie, to present it to the Lieutenant Governor. I have one final gift to present and I want to make three comments before I do that. First I'd like to say we had a great deal of trouble with the President Pro Tem on Monday of this week. Having been experienced at the President Pro Tem, its fun to preside, its a privilege to preside, you're good people to work with, and its really a lot of fun to be up there and Senator Freed wanted to be up there more and he informed us on Monday that the Governor was out of the state; that made the Lieutenant Governor the Governor; consequently he had no business presiding over the Senate. That was overruled. Second comment, they brought this gift. I understood that I was to supply the gifts and I was surprised this morning when this gift came to me, but it came with a cryptic message. It says "Melland to Wayne" and it seems that if that's going to happen to me that we go to that process. It is a privilege to make a serious presentation to the Lieutenant Governor and I would like to say, and I know that I speak on behalf of not only the members of the Majority, but all of the members of the Senate, the desk force, the employees, the press, everyone, we have been really pleased to have Wayne Sanstead presiding over this body, he does it with fairness, he does it with dispatch, he does with a major feeling for all of us, and certainly no one can fault the decision of the President. No one can fault the honor of the President. He honors us, we honor his office, it has been a privilege to serve with Wayne Sanstead as the presiding officer of this body and I would like to present this gift to him on behalf of the Senate.

President Sanstead: Mr. President, member of the Senate, thank you very much for that delightful series of gifts and most especially for the kind words. I came here with a suit that has a button missing and I can understand why, today, I don't suspect we ever go home emotionally because we are all excited about going home, but the fact is, I think that we have accomplished a great deal for the state of North Dakota and as the days go by it will be ever clear how much more the state of North Dakota is for the work that has been done in this session. I want to thank especially my desk staff, Leo, particularly and everybody at the desk, those who work for us throughout the assembly in every row, because without all that help we would not get the job done, believe me, and I am also very appreciative to the Senators for their many kindnesses to me and my family and I look forward to being back for another session. I look forward to presiding once again over the State Senate because I have enjoyed these three opportunities I have had to do that. I know that Masons orders are being followed to a pretty heavy degree, I know there is one spot in Masons that makes reference to Jefferson, its says "sometimes it's just not the fact that you apply the rule but that you have a rule" and I'm looking forward to working with some of the Rules Committee members in the sense of future design of our rules to make them even more applicable to the protection of the membership and to the carrying on of the business of the Senate, which after all is the main duty of the presiding officer. Thank you.

Senator Melland: Mr. President, I ask that you now recognize Senator Wenstrom.

Senator Wenstrom: Mr. President, members of the Senate, I will not attempt to follow the act that just preceded me; however I do deem it a great honor to have been selected to present a gift to our esteemed President Pro Tem. I have known this man since he came to the Senate to visit back in the days when his dad was in the Senate, but few of you have been privileged to serve in the Senate under two Freed as President Pro Tem. Both these gentlemen have held up the honor, the decorum, the distinction and all that goes with the privilege of serving in the North Dakota Senate. I have watched Senator Freed, our President Pro Tem, especially during this session like you members of this body have, and I have watched the change in how he handles the Senate. I know that it is only natural when you take the podium to preside in this body that you can't help but be nervous, and today he takes it in stride, he does an excellent job, he has provided everything that is necessary to this body to be, shall we say, a substitute to the presiding officer. Again I say I am especially honored this morning to be privileged to present you on behalf of the members of this body a token of appreciation for your kindness, the way you have administered the affairs of the Senate and for stepping out of your role as chairman of the Judiciary Committee and Political Sub-division, where you usually work, and to be our presiding officer in the Senate.

Senator Freed: Thank you very much, I appreciate the kind words. I would like to say it is an honor for me to preside over you when the Lieutenant Governor is absent. Most of the time it worked out fine, I had a little problem Monday, but other than that, I felt everything went very well, it followed its course. I appreciate your courtesies while I was up here because especially to start with it was very hard for me to just imagine me presiding over you. Your courteous manners, I appreciated, thank you very much.

Senator Wenstrom: Mr. President, I now ask that you recognize Senator Thane:

Senator Thane: Mr. President, ladies and gentlemen of the Senate, I think perhaps in many ways these tokens of appreciation that I am going to have passed out now are more important to these people than to many of the rest of us. We have an outstanding desk force in my estimation and I am sure in the estimation of each and everyone of you and without which the Senate could not function, and we are extremely proud of them and at this time I would like to have the pages take our tokens of appreciation to them. First of all, the Secretary of the Senate is a man who perhaps knows as much or even more about how the Senate should be run than any single one in this body. We truly appreciate him and we rely on him many times for advice, Leo Leidholm.

Leo Leidholm: Mr. President, Senator Thane, members of this august body, it has indeed been a pleasure for me to be the Secretary of the Senate for one more time and it has been real real easy to work for fifty great Senators.

Senator Thane: Leo's assistant, whose friendly manner and efficiency improves the situation each day is indispensable, he is a quiet individual, but he is very much needed at the desk. At this time I would like to have a page take our token of appreciation to Vern Asheim.

Vern Asheim: Thank you so much, it's a real honor to work for you

Senators.

Senator Thane: We have a very outstanding Desk Reporter, who tolerates our impromptu points of personal privilege and does an excellent job of it. We very much appreciate her, Doris McMahon.

Doris McMahon: Thank you very much, I've enjoyed working with all of you, it has been my pleasure. Thank you.

Senator Thane: We have a Bill Clerk who never quits smiling, and it improves the situation as each day goes by. I have never seen her look angry or disturbed and it is a great improvement to the desk force to have Sandy.

Sandy Boehler: This is my very first time in the legislature and I can honestly say I have loved every minute of it. Thank you.

Senator Thane: Our Sergeant-at-Arms, he looks so solemn, quiet, and yet am sure thoroughly enjoys escorting the lady from the House to the desk, Al Bradley.

Al Bradley: I want to thank you all very kindly, thank you.

Senator Thane: Last, but certainly not least, the Deputy Sergeant-at-Arms, Carl Bjerke who always has a friendly greeting when we walk in here in the morning, Carl Bjerke.

The Deputy Sergeant-at-Arms was delivering a Message to the House.

Senator Nothing: Mr. President, I now ask that you would recognize Leo Leidholm.

Leo Leidholm: Mr. President, members of the Senate, on behalf of all the Senate employees, we want to give a small token of appreciation to each member of the Employment Committee, for the employment given to us this session. We thank each and every one of you for the consideration given us and we especially want to thank Senator Solberg, Chairman, for the long hours spent in selecting applications for presentation to the committee members. We hope that we have done a satisfactory job, always trying to keep in mind that we were front and center in representing this body. If the pages would come forward, please give these tokens to Senator Solberg, Senator Thane, Senator Freed, Senator Strinden, Senator Morgan, Senator Barth, Senator Redlin, Senator Mau.

Senator Solberg: Mr. President, members of the Senate. As chairman for this very important assignment, and this committee that worked diligently and never refused to review and determine the areas into which we should go, for the best services to the Senate and also to leave to the State of North Dakota, a record that is proper and one that is correct, so we appreciate very much your thinking of us, we appreciated working, we had very few difficulties. I think the procedure that has been developed is most important and certainly no one had a better committee with which to work because they were not only intelligent in their deliberations but they were consistent and willing to be a part of the services that needed to be given to the employment and the observation of employment so that we got the proper results. It has been a pleasure for two sessions to have served in this capacity, and now that I have been released, I suppose I should ask for a recorded roll call record of this to be put in the Journal so we have a vote on it so that it stands forever and that we do not miss the opportunity, because that is one thing I have never asked, is to have a recorded vote, because I never had anything that important. If I may just say one thing, not taking away from anything or anybody, but I think one

of the things that we have missed this year, and I pay tribute to him in all sincerity, and not to take away from any present members of this body anything whatsoever, but I think we have missed Senator Ringsak, who had the ability to stand and properly align people so that they could best serve and I think the freshmen of this body that have not had the privilege of knowing him and to have risen to order under some of his very exact words of instructions have missed a great opportunity to learn to live with a great body such as this. Thank you very much.

Senator Wenstrom: Mr. President, members of the Senate, I was cleaning my desk a few days ago on the anticipation of going home and I came upon an envelope that had some numbers on it relative to the day that the Easter Seal child was here. Many of the members invested funds in the drive for the Easter Seal program. The total amount of money raised by the Senate was \$765.00, which I think is absolutely fantastic. Even more so when you realize that the House, with twice as many members, and this is not anything derogatory about the House, raised \$325.00. Now this keeps the ratio just a little better than two to one over the House and that is the way it has gone over the years. I do want to say "Thank you" to the Senate for their generosity in providing these funds for these less fortunate citizens.

Senator Miller moved that the absent Senator be excused, which motion prevailed.

Senator Nething moved that the President appoint a committee of three to notify the Governor that the Senate had completed its business and is about to adjourn sine die, which motion prevailed.

The President appointed as such committee:

Senator Wenstrom

Senator Berube

Senator Morgan
