**If the state does not meet Public Law 874 requirements, the \$12,940,000 would be lost to North Dakota school districts with Federal Impact students.**

A calculation is made to determine the percentage of state aid which may be withheld in lieu of 874 payments. This percentage is multiplied by the amount of 874 payments to determine the maximum amount that may be withheld. This amount is then compared with the amount actually withheld. If the amount withheld exceeds the allowable amount, the state must reimburse the district for the difference. If the state fails to reimburse the school district for the difference, North Dakota school districts would be declared ineligible to receive 874 funds.

Passage of this amendment would increase the biennial appropriation by \$6,000.
