Requested by: Legislative Council

In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

House Bill 1508 removes the mandatory requirement the Laboratories Department now has to annually publish information concerning the testing of feed and fertilizer. We receive many requests for this information each year and if H.B. 1508 passes, we would still print some of the information, however, we would not print the information in the same style or detail we have in the past.

The net effect of H.B. 1508's passage would be to reduce the Lab's total appropriation by about \$7,000. This would be general fund money.
