In the following space note the fiscal effect in dollars of the legislative proposal. If additional space is needed, attach a supplementary sheet. (Please type)

The provisions of Senate Bill 2460 appear to retain all of the duties and responsibilities of the current program levels of the Office of Economic Opportunity, State Planning and the Office of Energy Management.

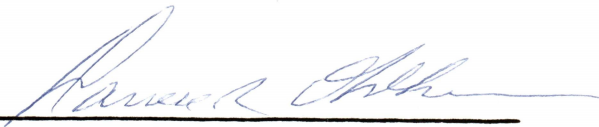

Without a detailed review and analysis of all functions of the agencies involved, it is assumed for the purposes of this fiscal note that the projected budgets of each agency would be combined; and it is assumed that the appointment of a federal aid coordinator would be made within that combination.

Detailed analysis cannot be made and possible savings through a consolidation of positions and functions cannot be estimated, within the five day time limit for response to this fiscal note request.

The total appropriations for these three agencies are:

General fund request	\$	493,057
Special funds request		19,652,901
