In the following space note the fiscal effect in dollars of the legislative proposal:

Narrative:

We estimate that approximately 70,000 students are not being transported under the present foundation aid law.

Assuming schools have 175 days of school and that the average attendance is 95%, the cost of transporting all students is computed as follows:

70,000	students
X 175	days

12,250,000	
X .95	attendance

11,637,500	
X .15	per pupil per day

\$1,745,625.	

Reimbursement is made the year following the transportation so the 1981-82 transportation would be reimbursed during the second year of the next biennium, so the appropriation would only need to be for one year this time.

Fiscal Effect:

1981-82		1982-83		Total Biennium	
Special Funds	General Fund	Special Funds	General Fund	Special Funds	General Fund
			1,745,625		1,745,625
