In the following space note the fiscal effect in dollars of the legislative proposal:

Narrative:

The fiscal impact of this bill is difficult to determine by the secretary of state's office. To cover the administrative requirements of this bill, we estimate it will cost our office \$25,000. To bring all state owned buildings up to the standards as they might be established might cost the state of North Dakota additional tens of thousands of dollars. No one can predict the gross impact to the state budget if all or most of the state owned buildings need to have their lighting systems changed.

We also suggest that the lighting efficiency code should be approved by legislative action rather than using the rule making authority prescribed by chapter 28-32 of the North Dakota Century Code.

Fiscal Effect:
