Please estimate the fiscal impact of the above measure for:

State general or special funds Counties Cities

In the following space note the fiscal effect in dollars of this measure:

Narrative:

It is impossible to ascertain a definite fiscal impact. This bill provides a procedure for maintenance of water projects. The more water projects constructed the higher maintenance costs will be. However the increase in maintenance costs is a function of the number and type of projects and not whether this bill is enacted. Ultimately, it will save money because it is generally less expensive to maintain a project than it is to allow the project to deteriorate and thereafter construct that project anew.
