State general or special funds Counties Cities

In the following space note the fiscal effect in dollars of this measure:

Narrative:

The provisions of the bill, as amended, will:

1. Set the electronic video gaming device maximum prize value at \$500.
2. Permit the play of only commingled games of charity game tickets on July 1, 1991, thereby eliminating the play of single games.
3. Increase the gaming expense limitation to 50% of the first \$200,000 of each organization's quarterly adjusted gross proceeds, and retain the present 45% expense limitation on the adjusted gross proceeds over \$200,000.
4. Change the gaming tax rate structure. Presently, a tax rate of 5% is applied to each organization's quarterly adjusted gross proceeds under \$600,000, and a tax rate of 20% is applied to the amount over \$600,000. This amendment establishes a 4-tier graduated tax rate structure of 5%, 10%, 15%, and 20% (amount over \$600,000).
5. Cap the gaming tax payback to the counties and cities at the level of the 1987-89 biennium. The projected payback for the 1989-91 biennium was \$135,000 greater than the cap.
6. Apply a 2% excise tax on the gross receipts of charitable gaming tickets.
