Narrative:

The purpose of SB 2357 is to create a Northwest Area Water Supply (NAWS) Advisory Committee and to authorize the State Water Commission to develop and construct the NAWS Project. The intent is for the State Water Commission to take the lead in developing the project as a federal project and to receive input from people in the area as this is being done.

In order to develop the project as a federal project, it will be necessary to obtain additional engineering data on the project. This will be done during the next biennium. It may also be necessary to match federal funds for the project. The State Water Commission has made a request to the Legislature, in SB 2017, for \$200,000 to move forward with the project. This money would come from the Resources Trust Fund and would be appropriated to the State Water Commission's Contract Fund.
