Requested by Legislative Council Date of Request: 1-24-91

Please estimate the fiscal impact of the above measure for:

State general or special funds Counties Cities

In the following space note the fiscal effect in dollars of this measure:

Narrative:

The State Health Department, which oversees hazardous waste disposal, has run programs like this in the past. They indicate that about a \$75,000 program is one that could be adequately managed in a year. Therefore, for this program to be completed, it would need to be run for numerous bienniums. To start it out for the coming biennium we estimate that approximately \$150,000 could be used for such a program.

To run a one time statewide program would be very difficult. The cost is unknown, but would likely be fairly large. Testimony provided to the Interim Ag Committee suggested that the approximate cost might be \$.75 million to \$1 million.
