

FISCAL NOTE

(Return original and 10 copies)

JAN 5 1995

Bill/Resolution No.: SB 2165 Amendment to: _____

Requested by Legislative Council Date of Request: 12-30-94

- 1. Please estimate the fiscal impact (in dollar amounts) of the above measure for state general or special funds, counties, and cities.

Narrative:

The North Dakota Geological Survey is operating a Global Positioning System (GPS) Community Base Station (CBS) which receives and stores locational data transmitted by satellites. This data is needed to correct locational data collected by the NDGS, other agencies, and the business community using mobile GPS receivers. Sales of GPS-CBS data provide users with a very economical alternative to establishing their own base stations. Currently, the NDGS supports the cost of collecting and distributing GPS-CBS data.

- 2. State fiscal effect in dollar amounts:

Table with 3 columns for Biennium (1993-95, 1995-97, 1997-99) and 2 rows for Revenues and Expenditures, each with General Fund and Special Funds sub-columns.

If Bill passes, revenue and expenditures would be special funds.

- 3. What, if any, is the effect of this measure on the appropriation for your agency or department:

- a. For rest of 1993-95 biennium: Additional expenditures from appropriations.
b. For the 1995-97 biennium: If passed, less expenditures.
c. For the 1997-99 biennium: If passed, less expenditures.

- 4. County and City fiscal effect in dollar amounts:

Table with 3 columns for Biennium (1993-95, 1995-97, 1997-99) and 2 rows for Counties and Cities sub-columns.

If additional space is needed, attach a supplemental sheet.
