

FISCAL NOTE

(Return original and 10 copies)

Bill/Resolution No.: \_\_\_\_\_ Amendment to: SB 2165

Requested by Legislative Council Date of Request: 1-24-95

- 1. Please estimate the fiscal impact (in dollar amounts) of the above measure for state general or special funds, counties, and cities.

Narrative:

The North Dakota Geological Survey is operating a Global Positioning System (GPS) Community Base Station (CBS) which receives and stores locational data transmitted by satellites. This data is needed to correct locational data collected by the NDGS, other agencies, and the business community using mobile GPS receivers. Sales of GPS-CBS data provide users with a very economical alternative to establishing their own base stations. Currently, the NDGS supports the cost of collecting and distributing GPS-CBS data.
