Legislative Council

(Budget Committee on Home and Community Care)

(Representatives Price, Boucher, Coats) (Senators Thane, Sand, Lindaas)

- 1 A BILL for an Act to amend and reenact subsection 4 of section 50-24.4-10 of the North Dakota
- 2 Century Code, relating to nursing home rates.

3 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

- **SECTION 1. AMENDMENT.** Subsection 4 of section 50-24.4-10 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:
 - The department shall establish limits on actual allowable historical operating cost per diems based on cost reports of allowable operating costs for the reporting year that begins July 1, 1987, taking into consideration relevant factors including resident needs, nursing hours necessary to meet resident needs, size of the nursing home, and the costs that must be incurred for the care of residents in an efficiently and economically operated nursing home. The limits established by the department may not be less, in the aggregate, than the sixtieth percentile of total actual allowable historical operating cost per diems for each group of nursing homes established under this chapter based on cost reports of allowable operating costs in the previous reporting year. The limits established under this subsection remain in effect until the department establishes a new base period. Until the new base period is established, the department shall adjust the limits annually using the appropriate economic change indices established in subsection 5. In determining allowable historical operating cost per diems for purposes of setting limits and nursing home payment rates, the department shall divide the allowable historical operating costs by the actual number of resident days, except that where a nursing home is occupied at less than ninety percent of licensed capacity days, the department may establish procedures to adjust the computation of the per diem to an imputed occupancy level at or below ninety percent. To encourage the

Fifty-fifth Legislative Assembly

development of home and community-based services as an alternative to nursing
home care, the department may waive the imputed occupancy level requirements
for a nursing home that the department determines to be providing significant
home and community-based services in coordination with home and
community-based service providers to avoid duplicating existing services. The
department shall establish efficiency incentives as appropriate. The department
may establish efficiency incentives for different operating cost categories. The
department shall consider establishing efficiency incentives in care-related cost
categories. The department may combine one or more operating cost categories
and may use different methods for calculating payment rates for each operating
cost category or combination of operating cost categories.
