- 1 For taxable years beginning after December 31, 1997, the tax commissioner h. 2 shall prescribe new tables that apply in lieu of the tables set forth in 3 subdivisions a through e. The new tables must be determined by increasing 4 the minimum and maximum dollar amounts for each income bracket for which 5 a tax is imposed by the cost-of-living adjustment for the taxable year as 6 determined by the secretary of the United States treasury for purposes of 7 section 1(f) of the United States Internal Revenue Code of 1954, as 8 amended. For this purpose, the rate applicable to each income bracket may 9 not be changed, and the manner of applying the cost-of-living adjustment 10 must be the same as that used for adjusting the income brackets for federal 11 income tax purposes. 12 3. The adjusted federal income tax liability for a resident individual, estate, and trust 13 must be determined by multiplying the federal income tax liability by a fraction, the 14 numerator of which is the adjusted gross income taxable to this state and the 15
 - denominator of which is the total adjusted gross income as reported on the federal income tax return. To the extent they are included in the taxpayer's federal adjusted gross income, the following amounts must be excluded from the numerator:
 - Interest income from obligations of the United States and income exempt a. from state income tax under federal statute or United States or North Dakota constitutional provisions.
 - The portion of a distribution from a qualified investment fund described in b. subsection 4.2 of section 57 38 01 which is attributable to investments by the qualified investment fund in obligations of the United States, obligations of North Dakota or its political subdivisions, and any other obligation the interest from which is exempt from state income tax under federal statute or United States or North Dakota constitutional provisions.
 - The adjusted federal income tax liability of a nonresident individual, estate, and trust must be determined by multiplying the federal income tax liability by a fraction, the numerator of which is the adjusted gross income derived from sources within this state and the denominator of which is the total adjusted gross income as
