

Fifty-fifth  
Legislative Assembly  
of North Dakota

ENGROSSED HOUSE BILL NO. 1383

Introduced by

Representatives Skarphol, Poolman, Carlson

Senators Andrist, Kinnoin

1 A BILL for an Act to provide for a study by the workers compensation bureau of the feasibility of  
2 basing premium calculations on an employee's gross wages.

3 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

4 **SECTION 1. BUREAU TO STUDY BASIS FOR PREMIUM CALCULATION.** The  
5 bureau shall study the feasibility and desirability of establishing a premium calculation system  
6 based on an employee's gross wages instead of on gross wages up to a maximum of seventy  
7 percent of the state's average annual wage. The bureau shall determine whether any  
8 maximum wage would be feasible. The bureau shall report the progress of its study to a  
9 designated legislative council interim committee and, if it determines appropriate, shall propose  
10 legislation to accomplish any changes it determines necessary to the premium calculation  
11 system based on the results of the study.
