Senators Traynor, Freborg, Krauter

- 1 A BILL for an Act to amend and reenact sections 61-16.1-42 and 61-21-31 of the North Dakota
- 2 Century Code, relating to construction of drains across roads and railroads.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-16.1-42 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-42. Drains along and across public roads and railroads. Drains may be laid along, within the limits of, or across any public road or highway, but not to the injury of such the road. In instances where If it is necessary to run a drain across a highway, the department of transportation, the board of county commissioners, or the board of township supervisors, as the case may be, when notified by the water resource board to do so, shall make necessary openings through the road or highway at its own expense, and shall build and keep in repair all required culverts or bridges as provided under section 61-16.1-43. In instances where If drains are laid along or within the rights of way of roads or highways, the drains shall must be maintained and kept open by and at the expense of the water resource district concerned. A drain may be laid along any railroad when necessary, but not to the injury of the railroad, and when or railroad company. When it is necessary to run a new or modify an existing drain across the railroad, the railroad company, when notified by the water resource board to do so, shall make the necessary opening through such the railroad, and shall build the required bridges and culverts, and shall keep them in repair. The cost of construction or modification of any required bridges or culverts must be borne by the district or board ordering the work and may be apportioned and assessed as provided in this chapter to and upon lands or premises benefited by the project in proportion to and in accordance with benefits accruing to the lands or premises. If drains are laid along, across, or within the right of way of any railroad, the drain

- must be maintained, repaired, and kept open by and at the expense of the board concerned,
 and the board may apportion and assess the costs as provided in this chapter.
 - **SECTION 2. AMENDMENT.** Section 61-21-31 of the North Dakota Century Code is amended and reenacted as follows:

61-21-31. Drains along and across public roads and railroads. Drains may be laid along, within the limits of, or across any public road or highway, but not to the injury of such the road. In instances where If it shall be is necessary to run a drain across such the highway, the department of transportation, the board of county commissioners, or the board of township supervisors, as the case may be, when notified by the board to do so, shall make necessary openings through such the road or highway at its own expense, and shall build and keep in repair all suitable culverts or bridges at its own expense, as provided under the applicable provisions of section 61-21-32. In instances where If drains are laid along or within the limits of roads or highways, such the drains shall must be maintained and kept open by the board at the expense of the drainage district concerned. A drain may be laid along any railroad when necessary, but not to the injury of such road, and when the railroad or railroad company. When it shall be is necessary to run a new or modify an existing drain across a railroad, the railroad company, when notified by the board to do so, shall make the necessary opening through said the road and shall build suitable bridges and culverts and keep them in repair. The cost of construction or modification of any required bridges or culverts must be borne by the district or board ordering the work and may be apportioned and assessed as provided in this chapter to and upon lands or premises benefited by the project in proportion to and in accordance with benefits accruing to the lands or premises. If drains are laid along, across, or within the rights of way of any railroad, the drain must be maintained, repaired, and kept open by and at the expense of the board concerned, and the board may apportion and assess the costs as provided in this chapter.
