Senator Traynor

1 A BILL for an Act to provide for a waiver of privilege for health care providers.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Waiver of privilege for health care providers. A party who commences an action for malpractice, error, mistake, or failure to cure, whether based on contract or tort, against a health care provider, as defined in section 32-42-01, or a health care facility, on the person's own behalf or in a representative capacity, waives in that action any privilege existing under rule 503 of the North Dakota Rules of Evidence, as to any information or opinion in the possession of any other health care provider who has examined or cared for the party or other person whose health or medical condition has been placed in controversy in the action. The waiver must permit all defendants to the action, and their attorneys or authorized representatives, to informally discuss the information or opinion with the health care provider if the provider consents. Any information or opinions obtained from a physician during an informal discussion are inadmissible in any legal proceeding.

The plaintiff's attorney or authorized representative must have the opportunity to be present at any informal discussion. This requirement is satisfied if the defendant's attorney serves a written notice on the plaintiff's attorney at least fifteen days prior to the informal discussion stating the time, date, and location of the informal discussion. Appropriate medical authorizations permitting access to the written medical record, informal discussion, and testimony at a deposition or trial, must be provided by the party commencing the action upon request from any other party.
