1. Please estimate the fiscal impact ( in dollar amounts) of the above measure for state general or special funds, counties, cities, and school districts.

Narrative:

House Bill 1069, if enacted, will extend the period from six to ten years included in the moving average gross returns for calculating the agricultural land values. This will tend to decrease the average agricultural land values but should have no effect on property tax revenues to the political subdivisions because current law allows a levy in dollars up to an amount equal to the amount levied in the base year.

The one mill state medical center levy will decrease it is a fixed levy at one mill. The decrease is expected to be less than \$5,000 for any biennium.
