- 1 A BILL for an Act to create and enact a new section to chapter 6-09.4 of the North Dakota
- 2 Century Code, relating to evidences of indebtedness and the withholding of state aid to school
- 3 districts; and to amend and reenact sections 6-09.4-18 and 21-03-44 of the North Dakota
- 4 Century Code, relating to insurance or guaranties for bonds and sinking funds.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 6-09.4 of the North Dakota Century Code is created and enacted as follows:

Evidences of indebtedness - Authority to withhold school district state aid.

- 1. If the municipal bond bank notifies the superintendent of public instruction that a school district has failed to pay when due the principal or interest on any evidences of indebtedness sold to, or which support any bonds sold by, the bond bank after July 31, 1999, or that the bond bank has reason to believe a school district will not be able to make a full payment of the principal and interest when the payment is due, the superintendent of public instruction shall withhold, upon written notification from the bond bank, any funds that are due or payable or appropriated to the school district under chapter 15-40.1 until the payment of the principal or interest has been made to the bond bank or the trustee, if any, for the bond bank's bondholders, or until the bond bank notifies the superintendent of public instruction that arrangements satisfactory to the bond bank have been made for the payment of the principal and interest then due and owing.
- 2. Notwithstanding any withholding of state funds under section 15-39.1-23 or any other law, the superintendent of public instruction shall make available any funds withheld under subsection 1 to the municipal bond bank. The bond bank shall

- apply the funds to payments that the school district is required to make to the bond bank or to any trustee for the bank's bondholders.
 - 3. If funds are withheld from a school district and made available to the bond bank under this section and if tax revenues are received by the school district during the fiscal year in which the funds are withheld and are deposited in the district's sinking fund established in accordance with section 21-03-42, the district, with the consent of the bond bank or the trustee, if any, may withdraw from its sinking fund an amount equal to that withheld by the superintendent of public instruction and made available to the bond bank under this section.
 - 4. Any excess funds at the Bank of North Dakota escrowed pursuant to an agreement between the municipal bond bank and the state board of public school education for the benefit of the bond bank and a school district must be held by the Bank.

 With the approval of the superintendent of public instruction, those funds may be used to subsidize the interest rate on construction loans that are made to school districts by the bond bank and which are subject to the withholding provisions of this section. Notwithstanding the existence of an escrow agreement between the bond bank and the state board of public school education, those funds must be transferred to the bond bank upon certification by the bond bank that the funds are in excess of the amount needed to provide for the payment in full of the outstanding principal and interest, when due, on the bond bank bonds issued to purchase the municipal securities for which the escrow fund was established.
