plan by a health care provider not under contract with the health care insurer and located within fifty miles [80.47 kilometers] of the policyholder's legal residence. For the covered person to be eligible for benefits under this subdivision, the health care provider not under contract with the health care insurer must furnish the health care services at the same cost or less that would have been incurred had the covered person secured the health care services through a preferred provider.

2. If the policy or subscriber agreement provides differences in benefit levels payable to preferred providers compared to other providers, the differences may not unfairly deny payment for covered services and may be no greater than necessary to provide a reasonable incentive for covered persons to use the preferred provider.
