¹ An information technology technical education program development line item of \$422,300 is added for a grant to ExplorNet (a 501(c)(3) nonprofit corporation) for the purpose of providing services to schools to assist in information technology technical education program development.

This amendment removes Section 2 of the reengrossed bill, which required that prior to the distribution of fiscal year 2003 workforce training grants, each workforce training region certify that at least 75 percent of the regional funds estimated to be raised during the 2001-03 biennium were received or were pledged to be received.

This amendment adds a new Section 2, which requires the Workforce Development Council to prepare an annual report on workforce training and development activities offered through various state entities and to present that report to the Appropriations Committees of the Fifty-eighth Legislative Assembly.

This amendment adds Section 3, which provides that the \$422,300 amount added for information technology education grants is to be used to provide a grant to a nonprofit private entity to provide assistance to schools in information technology technical education program development.

This amendment adds Section 4, which directs the Legislative Council to consider studying the feasibility of consolidating in a single state agency the funding and administration of workforce training and development programs.
