Including all of the property bounded by the above described line, subject to existing rights-of-way and easements.

The above described tract of land contains 11.77 acres, more or less.

2. The conveyance authorized by this Act is exempt from sections 54-01-05.2 and 54-01-05.5. The conveyance may only be made after the property has been appraised and the property must be sold at public auction unless no bid equals or exceeds the minimum appraised value. The appraisal must be dated no earlier than eighteen months before the auction. If at the public auction no bid equals or exceeds the minimum appraised value, the state water commission may negotiate a price for the land with a purchaser.
3. All proceeds from the sale or so much of the sale proceeds as may be necessary, not otherwise appropriated, are appropriated on a continuing basis to the state water commission for the purchase of land and the construction of a building and associated appurtenances to be used as a new maintenance facility. 4. The attorney general shall review and approve the form and legality of all legal documents required for the conveyance and purchase authorized by this Act, including title opinions.

It is the intent of the fifty-seventh legislative assembly that the proceeds of the sale of the state water commission maintenance shop located in east Bismarck be used to purchase land and construct a new maintenance shop building. If the proceeds from the sale are less than \$977,100, the state water commission may use other funds appropriated to the state water commission for the purpose of purchasing land and constructing a new maintenance shop building.

It is further the intent of the fifty-seventh legislative assembly that if the proceeds from the sale are not available at the time the state water commission needs to purchase and construct the new building and associated appurtenances, the state water commission may use other funds appropriated to it provided that, upon receipt of the proceeds of the sale, the state water commission shall transfer to the funds from which money was taken an amount equal to any funds utilized for the

purchase of land and construction of the new maintenance building. If the state water commission uses other funds appropriated to it because the funds from the sale of the land and building are insufficient, the state water commission need not make a transfer of sale proceeds.

It is further the intent of the fifty-seventh legislative assembly that no more than a total of \$977,100 may be expended from the amounts appropriated under this Act to purchase land and construct the new maintenance building and associated appurtenances.

SECTION 10. AMENDMENT. Subsections 4 and 5 of section 61-01-26 of the North Dakota Century Code are amended and reenacted as follows:

4. Accruing benefits from these resources can best be achieved for the people of the state through the development, execution, and periodic updating of comprehensive, coordinated, and well-balanced short-term and long-term plans and programs for the conservation and development of such resources by the departments and agencies of the state having responsibilities therefor. The plans and programs for the conservation and development of these resources may include implementation of a program to cost-share with local sponsors of water quality improvement projects.
5. Adequate implementation of such plans and programs shall be provided by the state through cost-sharing and cooperative participation with the appropriate federal and state departments and agencies and political subdivisions within the limitation of budgetary requirements and administrative capabilities, including consideration of cost-sharing for water quality improvement projects.

SECTION 11. AMENDMENT. Section 61-01-26.1 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

61-01-26.1. Findings and declaration of policy - Water to eastern North Dakota a critical priority - Water supplementation study - Employment of staff. The legislative assembly finds that many areas and localities in eastern North Dakota do not enjoy safe drinking water, ~~and that the water in these areas and localities contains iron, sulfates, alkali, salt, nitrates, fluoride, and other hazardous and discoloring substances.~~ It is also found that other areas and localities in eastern North Dakota do not have sufficient quantities of water to ensure a dependable, long-term water supply. The legislative assembly further finds that supplementation of the water resources of eastern North Dakota ~~with water supplies~~ from other available sources, including the Missouri River, may be the only alternative to provide eastern North Dakota with a dependable source of safe, good quality water and an adequate quantity of water.

It is further declared that effective development and utilization of the land and water resources of this state; the opportunity for greater economic security; the protection of health, property, enterprise, and the preservation of the benefits from the land and water resources of this state; and the promotion of the prosperity and general welfare of all of the people of North Dakota involve, necessitate, and require the exercise of the sovereign powers of the state and concern a public purpose. Therefore, in order to accomplish this public purpose, it is declared necessary that a means to supply and distribute water to the people of eastern North Dakota for all beneficial purposes including domestic, rural water, municipal, livestock, light industrial, mining, agriculture, and other uses must be developed. In furtherance of

this public purpose, the supply and delivery of water to eastern North Dakota is established as a critical priority and the state water commission shall ~~continue to cooperate~~, in cooperation with the Garrison diversion conservancy district in addressing and the communities and rural water systems in eastern North Dakota, address this critical priority by developing a plan and estimate of the costs for supplementing the water resources of eastern North Dakota with water supplies from other available resources, including the Missouri River.

The state water commission may employ full-time personnel and may employ such other personnel as are necessary for the administration of this section as appropriated funds permit. Notwithstanding section 61-02-64.1, funds disbursed from the contract fund or appropriated for purposes of administering this section may be used for salaries and expenses of persons employed pursuant to this section.

¹² **SECTION 12. AMENDMENT.** Section 2 of House Bill No. 1151, as approved by the fifty-seventh legislative assembly, is amended and reenacted as follows:

SECTION 2. A new section to chapter 61-02 of the North Dakota Century Code is created and enacted as follows:

Devils Lake outlet - Eminent domain - Design and build construction. In the construction of an outlet from Devils Lake, the commission:

1. Shall make a reasonable and diligent effort to acquire the property interests needed by negotiation. The commission is deemed to have made a reasonable and diligent effort if it has contacted or attempted to contact the owner of the property interest needed at least three times over a thirty-day period. If the commission is unable to acquire the interest needed by negotiation, then it may take possession of the interests needed after making a written offer to purchase and depositing the amount of the offer with the clerk of the district court of the county in which the property interest is located. The amount of the offer must be at least the average value per acre of comparable property. The clerk shall immediately notify the property owner in writing of the deposit. Within thirty days after receiving notice, the property owner may appeal to district court by serving notice of appeal upon the commission and the matter must be tried in the manner prescribed under chapter 32-15.
2. May issue, when it determines that it would be advantageous to the state or that it is necessary in order to construct the outlet in a timely manner, a request for proposals to design and build the outlet. The request for proposals must require that each proposal submitted contain a single price that includes the cost to design and build the outlet. Neither chapter 48-01.1 or 54-44.7, nor any other law requiring competitive bidding applies to the construction of the outlet if the commission determines to use the design and build procedure. The commission shall select the proposal that it determines is the most advantageous to the state.

¹² Section 61-02-23.2 was created by section 2 of House Bill No. 1151, chapter 562.

SECTION 13. A new subsection to section 61-02-14 of the North Dakota Century Code is created and enacted as follows:

SECTION 15. A new subsection to section 61-02.1-04 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages.
