It was moved by Representative Maragos, seconded by Representative Kreidt, and carried on a voice vote that the minutes of the March 27, 2012, meeting be approved as distributed.

The Legislative Council staff distributed a memorandum entitled [Summary of Audit Reports Not Selected for Presentation](#), which provides a summary of audit reports that are available but not selected for presentation at the June 21, 2012, Legislative Audit and Fiscal Review Committee meeting. Chairman Ruby suggested committee members review the memorandum to determine if any of the reports included in the memorandum should be presented at the next committee meeting.

STATE DEPARTMENT OF HEALTH FAMILY HEALTH DIVISION PERFORMANCE AUDIT

Mr. Brian Pye and Ms. Megan Moore, CliftonLarsonAllen LLP, Certified Public Accountants, presented the report on the State Department of Health Family Health Division performance audit. Mr. Pye said the state of North Dakota, acting through the State Auditor's office, contracted with CliftonLarsonAllen to perform a control environment performance audit related to the Family Health Division to address potential fiscal irregularities.

Ms. Moore said the performance audit includes three high-risk observations, seven moderate-risk observations, and one low-risk observation. Based on the high-risk observations, she said, the State Department of Health should:

- Include a "whistleblower" protection policy in its personnel policy manual;
- Identify applicable developmental training for program managers and division directors; and

- Implement a procedure for tracking and monitoring transfers of expenditures relating to federal grants.

Based on the moderate-risk observations, Ms. Moore said, the State Department of Health should:

- Evaluate management's oversight and leadership skills regularly and perform regular surveys of employees in the Family Health Division.
- Evaluate management's approach to handling personnel issues.
- Evaluate how the Community Health Section leadership rotation model affects consistency in day-to-day operations, long-term strategic plans, and independence in the chain of command.
- Implement a process to regularly assess employee morale.
- Include detail when documenting compensatory time.
- Approve annual leave before the employee takes annual leave.
- Consider using a credit card for taxicab fares in certain circumstances.

Based on the low-risk observation, Ms. Moore said, the State Department of Health should require employees to submit original receipts in order to receive expense reimbursement.

In response to a question from Representative Ruby, Ms. Moore said the audit team did not note any inappropriate transfers of funds but it would have been difficult to determine if inappropriate transfers were made because of the lack of a thorough audit trail.

Ms. Arvy Smith, Deputy Director, State Department of Health, presented testimony ([Appendix B](#)) regarding the Family Health Division performance audit. She said the department rewrote its personnel policy manual in February 2012 to include a "whistleblower" protection policy and other rules related to reporting fraud and abuse. She said the department requires all managers to attend, at a minimum, the supervisory development training provided by the Human Resource Management Services Division of the Office of Management and Budget. She said the department is also researching additional public health management training strategies for all section chiefs, division directors, and

program managers. She said the department will establish a policy to require written documentation for transfers of expenditures relating to federal grants.

In response to a question from Representative Kreidt, Mr. Ron Tolstad, Audit Manager, State Auditor's office, said the status of the recommendations made in the performance audit would be reviewed during the agency's next scheduled operational audit. He said the operational audit is conducted every two years.

Representative Skarphol suggested the committee receive information regarding any statewide "whistleblower" policies for North Dakota state agencies.

STUDENT FEES TASK FORCE

Ms. Laura Glatt, Vice Chancellor for Administrative Affairs, North Dakota University System, presented the final report ([Appendix C](#)) of the results of the student fee study conducted by the University System's student fees task force. She said the task force was created in December 2011 and consisted of three voting members of the State Board of Higher Education. She said the task force was charged with developing recommendations based on the goals outlined below:

- Promote student affordability.
- Ensure cost information is understandable for parents and students, with comparisons across the University System easily achieved.
- Ensure transparency for parents, students, and taxpayers in amounts and use, including appropriate review and approval processes.
- Recognize and differentiate programs or courses that have unique costs as necessary.
- Permit campus flexibility in the allocation of revenues while ensuring accountability in the use for the direct benefit of students.
- Ensure consistent definitions, setup, and administration across the University System to the greatest extent possible (not necessarily types of fees and amounts).
- Simplify the price model, possibly taking into consideration both tuition and fees.

Ms. Glatt said two members of the Legislative Assembly--Representative Mark A. Dosch and Representative Bob Skarphol--joined the task force at its meeting on April 12, 2012. She said the representatives identified concerns, including the number of fees, use of the fees, and accumulated reserve balances.

Ms. Glatt said specific issues identified by the task force that may require further attention include transparency, consistency, and affordability. She said the task force received a request in April 2012 from the incoming chancellor--Dr. Hamid Shirvani--to delay any further actions on student fees until he completes a comprehensive review and develops a strategy.

AUDITS OF STATE AGENCIES, BOARDS, AND COMMISSIONS

Chairman Ruby called on Ms. Rhonda Mahlum, Mahlum Goodhart PC, Certified Public Accountants, who presented the audit reports for the North Dakota Stockmen's Association for the years ended December 31, 2011, 2010, 2009, and 2008. Ms. Mahlum reviewed the auditor's responses to the committee guidelines and said the reports contain an unqualified opinion and each report identifies one internal control finding relating to segregation of duties.

Chairman Ruby called on Mr. Bill Cawley, Cawley & Associates, Certified Public Accountants, who presented the audit report for the State Board of Chiropractic Examiners for the year ended December 31, 2011. Mr. Cawley reviewed the auditor's responses to the committee guidelines and said the report contains an unqualified opinion and identifies one internal control finding relating to preparation of financial statements and audit notes. He said the report also includes a note to the financial statements which identifies the auditor's substantial doubt about the board's ability to continue as a going concern if the board continues to incur legal expenses as it has in the past.

In response to a question from Representative Kempenich, Dr. Carol Jean Winkler, President, State Board of Chiropractic Examiners, said legal expenses of approximately \$140,000 were incurred in 2010 and 2011 when the board pursued action against a chiropractor. She said the case was settled favorably for the board, and judgment against the chiropractor requires restitution to the board for most of the legal expenses the board incurred.

In response to a question from Representative Skarphol, Dr. Winkler said the board is considering requesting a statutory change to increase the maximum allowable licensing fee the board may impose from \$200 to the national average of \$500 per year. If approved, she said, the board would then likely increase the annual licensing fee to \$250 or \$275 per year to ensure revenue is sufficient to cover any future litigation.

Chairman Ruby called on Mr. Michael T. Schmitz, Widmer Roel PC, Certified Public Accountants, who presented the audit report for the State Board of Pharmacy for the years ended June 30, 2011 and 2010. Mr. Porter said the Bank of North Dakota acts as trustee for the College SAVE plan, Upromise Investments, Inc., is the plan manager, and the Vanguard Group, Inc., is the investment manager. He said the College SAVE audit was conducted by Thomas & Thomas LLP, Certified Public Accountants. He said the audit report contains an unqualified opinion and does not include any findings or recommendations.

She said there are too many unknown factors to estimate the impact the flood will have on the agency.

In response to a question from Representative Ruby, Mr. Patrick Nagel, Chief Financial Officer, Housing Finance Agency, said the agency has a total loan portfolio of approximately \$1 billion of which \$32 million is in loans for homes with water damage from the Minot area flood. Ms. Aasen said the actuary for the Teachers' Fund for Retirement has determined that the fund's unfunded actuarial accrued liability is approximately \$927 million and \$795 million as of June 30, 2011 and 2010, respectively. She said the actuary has determined that the current statutory contribution rates

are insufficient to meet the actuarially determined requirements based on the current assumptions; however, the Legislative Assembly in 2011 approved increases to member contribution rates and benefit changes. She said the actuary has determined the legislative changes--once fully phased in--are projected to increase the fund's funding over the long term, and there would no longer be a contribution deficiency.

In response to a question from Representative Skarphol, Ms. Fay Kopp, Interim Executive Director, Retirement and Investment Office, said with the changes approved by the Legislative Assembly in 2011, the fund is anticipated to be 90 percent funded in 20 years and 100 percent funded in 30 years.
